## PB32.2

# 2255 Sheppard Avenue East

2255 Sheppard Avenue East (Heritage Planning, 2025).

Constructed in 1978, the subject property has design and physical value as a representative example of a late-modernist style commercial office building.

The property has value because it demonstrates and reflects the work and ideas of prominent Canadian architect Ronald Thom, whose works include Massey College at the University of Toronto and Trent University in Peterborough.
