

## **Traffic Calming (Speed Humps) - Confederation Drive**

**Date:** April 11, 2025

**To:** Scarborough Community Council

**From:** Director, Traffic Management, Transportation Services

**Wards:** Ward 24, Scarborough-Guildwood

### **SUMMARY**

---

This staff report is about a matter that Community Council has delegated authority from City Council to make a final decision.

Transportation Services is recommending the installation of speed humps on Confederation Drive, between Greencrest Circuit and Scarborough Golf Club Road. Staff's assessment indicates the criteria as set out in the updated Traffic Calming Policy has been satisfied. Therefore, speed humps should be installed on Confederation Drive.

### **RECOMMENDATIONS**

---

The Director, Traffic Management, Transportation Services recommends that:

1. Scarborough Community Council authorize the installation of speed humps on Confederation Drive, between Greencrest Circuit and Scarborough Golf Club Road.
2. Scarborough Community Council direct the City Solicitor to prepare a by-law to alter the roadway for the installation of 13 speed humps on Confederation Drive, between Greencrest Circuit and Scarborough Golf Club Road, generally as shown on Attachments 3, 4, and 5, Drawings TC-484, TC-485, and TC-486, dated April 2025, attached to the report entitled "Traffic Calming (Speed Humps) - Confederation Drive" from the Director, Traffic Management, Transportation Services.
3. Subject to approval of Recommendations 1 and 2 above, Scarborough Community Council reduce the speed limit from 40 km/h to 30 km/h on Confederation Drive, between Greencrest Circuit and Scarborough Golf Club Road, in conjunction with the installation of speed humps.

4. Subject to approval of Recommendation 3 above, Scarborough Community Council authorize the amendment of Schedule XLV (Part 1) to City of Toronto Municipal Code Chapter 950, Traffic and Parking, to remove Confederation Drive between Greencrest Circuit and Scarborough Golf Club Road, from being excluded from the Designated Area such that this portion of highway will then be included within the corresponding designated area in Column 1 in Schedule XLV (Part 1).

## **FINANCIAL IMPACT**

---

The estimated cost for installing 13 speed humps on Confederation Drive is \$52,000.00. Funding is subject to availability and competing priorities within the Transportation Services 2025 Capital Budget.

## **DECISION HISTORY**

---

This report addresses a new initiative.

## **COMMENTS**

---

Transportation Services received a request from the Ward Councillor, on behalf of area residents, to investigate the feasibility of installing speed humps on Confederation Drive, between Greencrest Circuit and Scarborough Golf Club Road. The residents are concerned that motorists travel at a high rate of speed on Confederation Drive.

### **Existing Conditions**

Confederation Drive, between Greencrest Circuit and Scarborough Golf Club Road, is characterized by the following conditions:

- It is a two-lane, north-south and east-west, collector roadway
- It operates two-way traffic on a pavement width of approximately 8.5 metres
- The daily two-way traffic volume varies from approximately 1,600 to 2,000 vehicles
- The speed limit is 40 km/h
- Heavy trucks are prohibited at all times
- There is no Toronto Transit Commission (TTC) service provided
- There are sidewalks located on both sides of this street
- There is an all-way Stop controlled intersection located at Kollar Drive

The land use in the area consists of multi-family as well as single-family residential dwellings and the Toronto Public Library, Cedarbrae branch. This subject section of Confederation Drive is not within a designated Community Safety Zone.

A map of the area and proposed locations of the speed humps is included in Attachments 3, 4, and 5.

## Study Results

As part of the assessment of the warrant criteria, two vehicle speed and volume studies were conducted on Confederation Drive from April 30 to May 2, 2024. The results of the studies were evaluated against the warrant criteria for Traffic Calming as adopted by the City Council. The study results on Confederation Drive are summarized in Table 1.

Table 1: Confederation Drive Speed and Volume Study Results

Road section	Daily Traffic Volume	85th percentile speed criteria		95th percentile speed criteria	
		Results	Warrant Requirement	Results	Warrant Requirement
Confederation Drive, between Greencrest Circuit and Kollar Drive	2,000	48 km/h	48 km/h	53 km/h	55 km/h
Confederation Drive, between Kollar Drive and Scarborough Golf Club Road	1,600	42 km/h	48 km/h	47 km/h	55 km/h

Based on the study results, the section of Confederation Drive, between Greencrest Circuit and Kollar Drive, has satisfied the warrant criteria for both minimum block length and minimum vehicle speed. The block length was greater than 120 metres and the operating speed is 8 km/h over the warranted speed of 40 km/h.

Confederation Drive, between Kolar Drive and Scarborough Golf Club Road, does not meet the overall warrant for traffic calming for the following reason:

- Minimum speed: The operating speed must be a minimum of 8 km/h over the warranted speed limit. The operating speed of 42 km/h is 6 km/h under the required speed of 48 km/h. The 95th percentile speed must be a minimum of 15 km/h over the warranted speed limit. The 95th percentile speed of 47 km/h is 8 km/h under the required speed of 55 km/h.

The overall investigation concluded that the eligibility and warrant criteria as outlined in the updated Traffic Calming Policy has only been satisfied for the section of Confederation Drive, between Greencrest Circuit and Kollar Drive. Since this block satisfies the traffic calming warrant criteria, staff recommend the installation of speed humps over the entire length of the street to maintain consistency.

## Relative Priority and Other Impacts

In the event that the number of approved requests for roadway traffic calming measures exceed the budget allocated for installation, funding for approved installations will be prioritized using a Prioritization Score. This score is made up of a Quantitative Score and a Qualitative Score.

The Quantitative Score is based on the results of the data collection, including travel speeds and traffic volumes to prioritize locations with higher vehicle speeds and volumes.

The Qualitative Score includes:

- Collision history to prioritize locations with a history of serious injury or fatal collisions and those involving a pedestrian or cyclist
- Equity to prioritize equity-deserving communities with a high-concentration of priority populations and those that are transportation disadvantaged
- Expected presence of vulnerable road users (elderly population, school children and pedestrians, including transit riders) to prioritize locations with a higher risk of fatal and serious injury collisions

The Quantitative and Qualitative Scores are averaged to provide the complete Prioritization Score. Confederation Drive, between Greencrest Circuit and Scarborough Golf Club Road, scored 28 ranking points out of a possible 100.

No alterations to parking regulations will be required, nor will the number of parking spaces be affected by the installation of speed humps. Installation of speed humps will have minimal effect on winter services, street cleaning and garbage collection.

Consultation with emergency services (Toronto Police Service, Toronto Fire Services and Toronto Paramedic Services) is required to ensure that the design and layout of a traffic calming proposal does not unduly affect their operations. Emergency services were advised of this proposal.

Toronto Paramedic Services responded and advised of potential delays in emergency responses but expressed support for initiatives that enhance community safety. A copy of their full response is included in Attachment 6. Toronto Police Service and Toronto Fire Services have not provided comments back at the time of writing this report. Installing speed humps will result in slower operating speeds for all vehicles, including emergency service vehicles.

The Ward Councillor has been advised of the recommendations in this report.

- Attachment 5: Speed Hump Locations Plan - Confederation Drive, Greencrest Circuit - Scarborough Golf Club Road
- Attachment 6: Letter from Toronto Paramedic Services, dated March 24, 2025

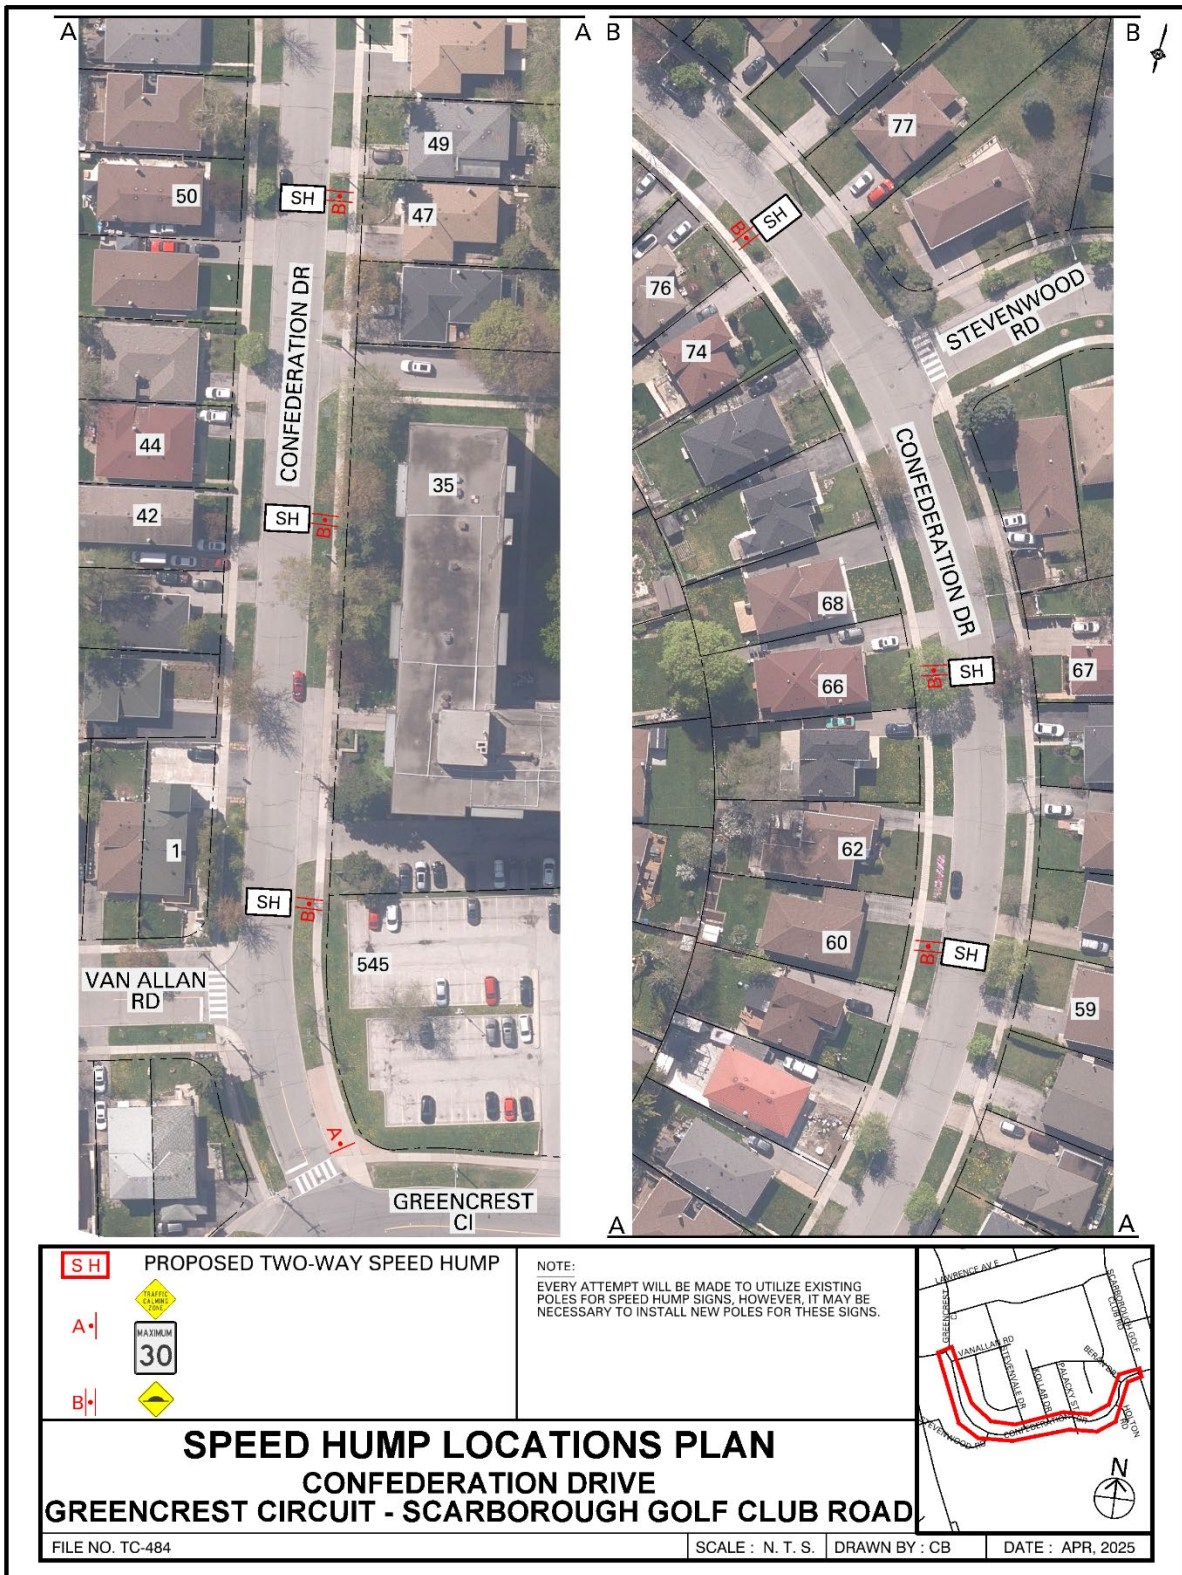

Attachment 1: Traffic Calming Warrant - Confederation Drive, between Greencrest Circuit and Kollar Drive

Criteria		Requirement	Warrant Satisfied?
Community Support		A direct request from the Ward Councillor OR identified by Transportation Services in consultation with the Ward Councillor	Yes
Eligibility Criteria	Road Classification	Classified as a local or collector roadway, according to the Toronto Road Classification System	Yes
	Sidewalks	Presence of a sidewalk on at least one side of a local roadway and both sides of a collector roadway is preferred but not required	Yes
	Traffic Volume	Maximum average daily traffic volume of less than 8,000 vehicles per day	Yes
	Road Grade	Maximum roadway grade of up to 5%, can be considered in locations where the road grade is between 5% and 8% with additional review	Yes
	Emergency Services	No significant impacts on emergency services, including Toronto Fire, Paramedic and Police Services	Yes
	Transit Services	No significant impacts to regularly scheduled Toronto Transit Commission (TTC) services	N/A
Warrant Criteria	Minimum Block Length	Minimum block length of 120 metres based on the measured distance from centre to centre of controlled intersections AND	Yes (600 m)
	85th percentile speed	Minimum 85th percentile speed of 8 km/h over the warranted speed limit OR	Yes (8 km/h)
	95th percentile speed	Minimum 95th percentile speed of 15 km/h over the warranted speed limit	No (13 km/h)

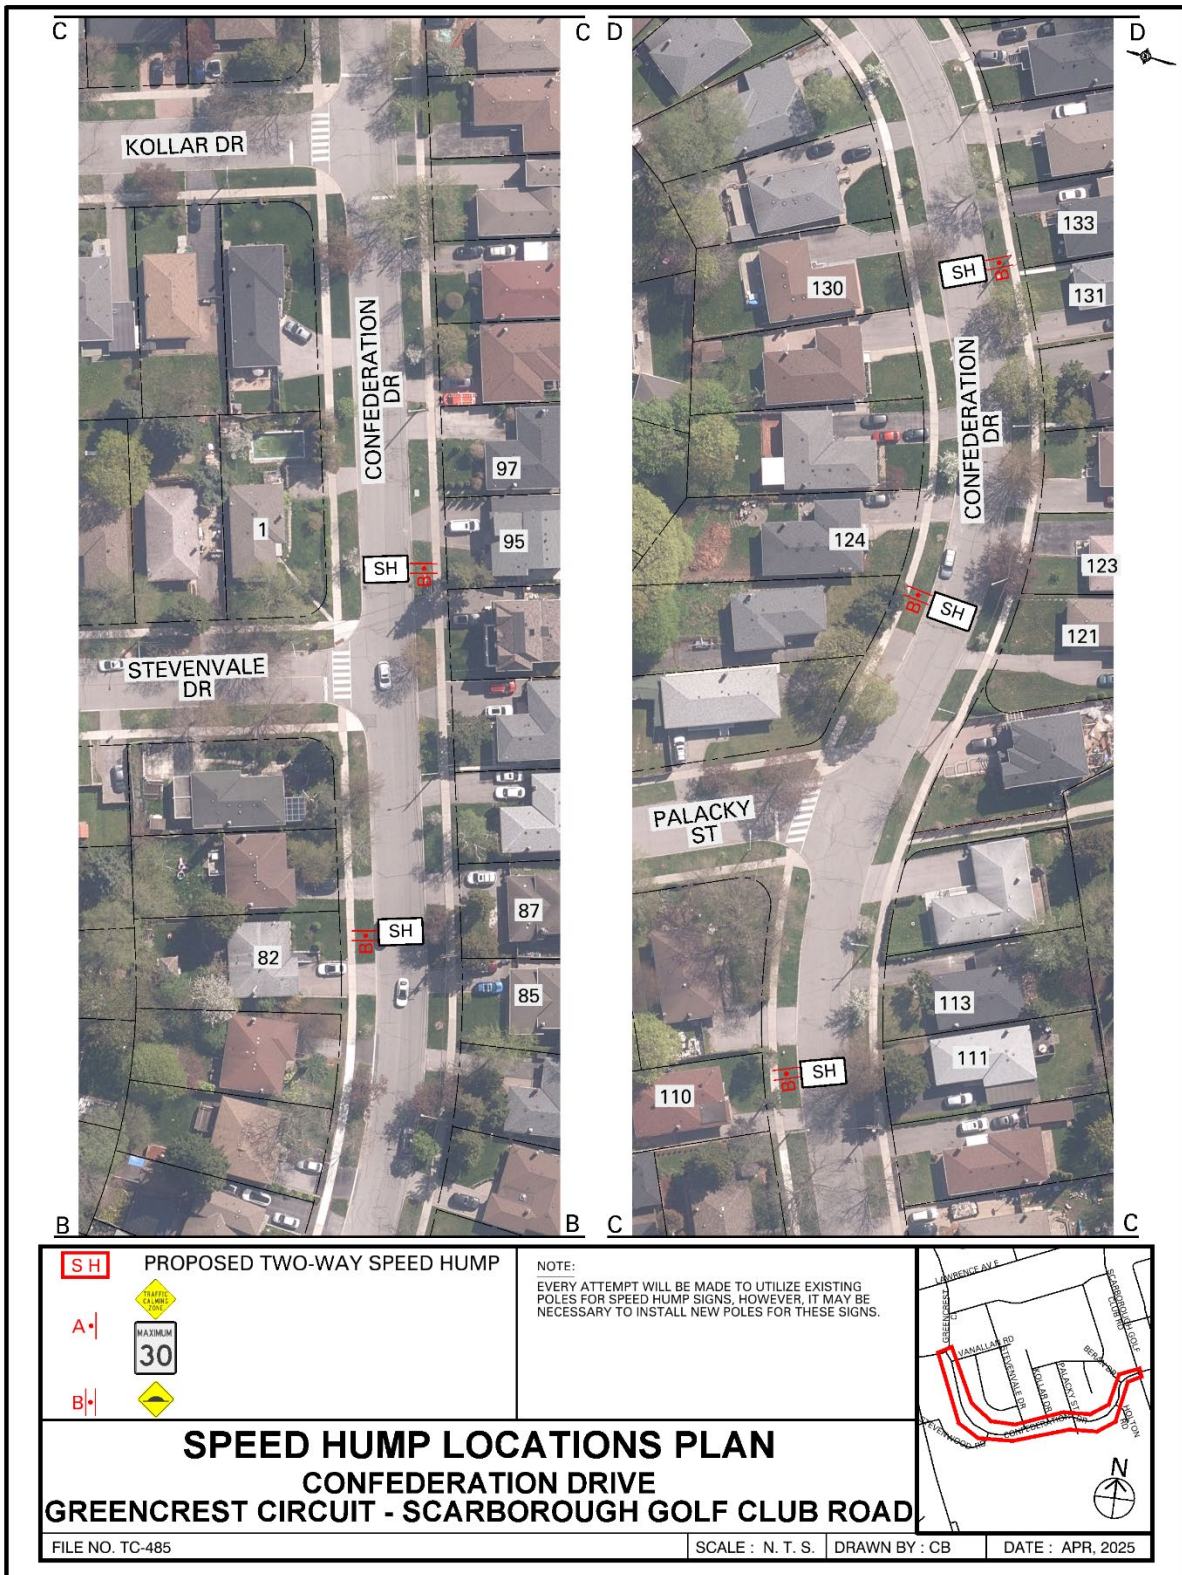

Attachment 2: Traffic Calming Warrant - Confederation Drive, between Kollar Drive and Scarborough Golf Club Road

Criteria		Requirement	Warrant Satisfied?
Community Support		A direct request from the Ward Councillor OR identified by Transportation Services in consultation with the Ward Councillor	Yes
Eligibility Criteria	Road Classification	Classified as a local or collector roadway, according to the Toronto Road Classification System	Yes

---

*We have received and reviewed the proposal for installation of speed humps on Confederation Drive, between Greencrest Circuit and Scarborough Golf Club Road, with the following comments:*

*The installation of speed humps on Confederation Drive, between Greencrest Circuit and Scarborough Golf Club Road, will impact response and transport times for residents that reside on the roadway speed humps are installed. Impacts may extend to community members if Confederation Drive, between Greencrest Circuit and Scarborough Golf Club Road, serves access to other roadways. It is important that the applicant understands that the installation of traffic calming devices will reduce the speed that emergency vehicles travel when responding to emergencies on roadways where they are installed.*

*Toronto Paramedic Services is supportive of community initiatives that improve the safety of all citizens of, and visitors to, the City of Toronto. Traffic and pedestrian safety are key components of a healthy neighbourhood, and we endeavour to support the wishes of the community to implement measures to improve upon these components.*
