September 18, 2025

Dear Scarborough Community Council Colleagues,

This motion is to request that staff move toward more permanent Geometric Safety Improvements when implementing pedestrian safety enhancements in Ward 23. The temporary installations, in particular the white plastic bollards, often time break and are difficult to make out when buried in snow. Permanent installations made from tougher and more visible material would better serve the intended purpose of the GSIs.

Recommendations:

1. Scarborough Community Council request the General Manager, Transportation Services to use permanent materials where feasible in implementing the Geometric Safety Improvements in the Malvern West Neighbourhood Streets Plan.
2. Scarborough Community Council request that Transportation staff meet quarterly with the local Councillor to provide project updates and discuss design options for the Geometric Safety Improvements.

Sincerely

Jamaal Myers
Toronto City Councillor, Ward 23, Scarborough North
