RE: Traffic Calming – Borden Street, between Bloor Street West and Harbord Street

Dear Toronto and East York Community Council members:

Residents on Borden Street are frustrated by frequent speeding on their street endangering pedestrians and cyclists. They have requested the installation of speed humps, which Transportation Services agree would be feasible. Speed humps have made surrounding streets safer and residents are eager to see them installed on Borden Street.

RECOMMENDATIONS:

It is recommended that:

1. Toronto and East York Community Council authorize the installation of speed humps on Borden Street, between Bloor Street West and Harbord Street.
2. Toronto and East York Community Council direct the City Solicitor to prepare a by-law to alter the roadway for the installation of 6 speed humps on Borden Street, between Bloor Street West and Harbord Street, generally as shown on Attachment, Drawing TC-497 dated April 2025, from the Director, Traffic Management, Transportation Services.

Sincerely,

A handwritten signature in black ink that reads "D Saxe". The letters are fluid and cursive, with a large loop for the 'D' and a long tail for the 'S'.
