RE: Let's create a healthier Toronto

Dear Budget Committee,

To the City Clerk:

Please add my comments to the Budget Committee meetings.

I understand that my comments and the personal information in this email will form part of the public record and that my name will be listed as a correspondent on agendas and minutes of City Council or its committees. Also, I understand that agendas and minutes are posted online and my name may be indexed by search engines like Google.

Comments:

Noise pollution is getting worse, the city is getting more dense and urban problems are spreading to the suburbs. Over 60% of Toronto residents are subjected to hundreds of noise spikes a day, from construction, waste collection, and, of course, loud vehicles. The city's soundscape is not getting more vibrant, it is getting more disturbing. And it won't go away unless something is done.

Our demands are:

1. Create a Noise Task Force that meets monthly to work across silos and push the province for changes to Highway Traffic Act (HTA)
2. More money for resources (technology and/or staff) to improve outcomes for residents.

A Noise Task Force is the only way to solve this health, equity and climate issue. A cross divisional collaborative effort is the only way to evaluate and implement solutions. No More Noise can help the City push for provincial changes to the HTA to change policy to reduce loud vehicles through public pressure.

The existing Noise Team has an impossible task with limited resources. They need funding to improve their service levels. They also need 24/7 staffing to adequately address late night issues.

Let's make a better Toronto in 2026, not a louder one!

Sincerely,

*(Name of person submitting communication)*
