Re: GG27.14 - Renewal of Various Boat Club Leases

Dear Council Members,

While some members of Council appear intent on shutting down the Toronto Humber Yacht Club, it is important to respect the recommendation of the General Government Committee, which undertook a rigorous debate on this matter.

The shortcomings in staff's proposal were clear, and the committee appropriately directed staff to undertake further work and report back in June 2026.

Any attempt to override this committee decision undermines the very purpose of the committee system and risks eroding public trust in what should be a transparent and democratic civic institution.

Trust and fairness are essential to healthy municipal governance. Council should allow staff to complete their work and return with a revised report in the near future.

Sincerely,

Daniel Tate
Executive Director, IntegrityTO
