City Council on April 22, 23 and 24, 2026.

CC40.1 - Payment of Legal Expenses Related to an Integrity Commissioner Investigation

This is not the first request to have my comments entered as a '**pdf**' file.

I wish my comments to be included as a pdf file on the above noted item where anyone, the public included, may read them and know that City Councilors protect themselves even when found wanting by the Integrity Commissioner for Toronto.

The City of Toronto's Website where comments may be sent to your attention does not work and now Staff within the City Clerk's office do not respond. Why must there be a formal complaint to the Ombudsman's Office to get your attention?

Will you please confirm that you have received these comments and added them to the communications received on the above noted item and posted them as requested as a pdf file?

Comments follow:

When Toronto's Integrity Commissioner found Councilor Moise of Ward 13 guilty of misconduct why should he be allowed to force Toronto taxpayers pay his legal bills when he has broken his oath of office? He was declared guilty by Toronto's Integrity Commissioner.

One of his constituents asked valid questions in a civil manner and Councilor Moise publicly called him a 'white-supremacist' and racist in an effort to avoid answering a difficult question asked in a civil manner.

When Councilor Moise threw down the 'race-card' to defend his consistent bad behavior shows contempt for the values Mayor Chow brags about so often.

Councilor Chris Moise needs a definite indication that his misconduct is unacceptable by Council Members of any color.

Diversity Our Strength should mean that persons of color, other than white people, will be punished for their wrong doings too.

Toronto City Council has created several committees that all replicate the same purpose: which is to address racial discrimination, systemic racism and inequities real or imagined.

Toronto City Councils have over the past twenty years alone created on more than two hundred occasions and augmented several dozen programs to address racial inequities declared, real or imagined, to be provided with hundreds of millions of dollars.

Councilor Chris Moise of Ward 13 throwing down the ‘race-card’ to defend his bad behavior is not a defense. It is a cowardly abuse of his position and an offence to his culture.

Councilor Chris Moise during a Council Meeting used his parliamentary privilege to further abuse ‘Diversity Our Strength’ when he attacked members of the Moss Park Arena Board when he said: “*No one looked like me!*” (5th Feb., 2025. EX20.5)

Will Council Members speak up about this decline on Toronto’s City Council?
