

Petition: Applegrove Deserves a Permanent Home

3,000+ people rely on Applegrove each year for programs, support & community connection.

75% growth in seniors' programs since 2015, helping to reduce isolation.

Program participation has doubled over 25 years, reflecting growing demand for accessible community services.

Applegrove is an important community organization that makes a real difference for families, kids and seniors in our community.

For 45+ years it has been based out of Duke of Connaught School and also provided programs at satellite locations in our community. But Applegrove is outgrowing its school space and operating inside of school presents challenges like lack of program space and limits on accessibility, operating hours and the range of services that can be offered. And with changes happening at school boards across the province it's an uncertain time to be located in a school.

On April 9 Councillors on the City's Economic and Community Development Committee will be discussing the future of APPLEGROVE.

This is an important moment to communicate your support so that Applegrove can continue to grow and thrive as part of the community.

**By signing this petition you are letting the Mayor & City Council know that you support
A PERMANENT HOME
FOR APPLEGROVE.**
