MIAMI Francesco Martucci

On behalf of Liberty Entertainment Group, I am pleased to formally express our strong support for the Exhibition Place Vision Plan and Concept Scenario Presentation.

As a long-standing tenant and operating partner at Exhibition Place through the Liberty Grand Entertainment Complex, we have a unique and sustained perspective on the evolution of this important public asset. Exhibition Place is not only one of Toronto's most iconic destinations, but also a critical economic and cultural hub supporting major events, tourism, and community engagement. The success of Liberty Grand is directly tied to the strength, accessibility, and vibrancy of the broader campus.

The proposed Vision Plan reflects a thoughtful and forward-looking approach to ensuring the continued relevance and competitiveness of Exhibition Place. Its emphasis on modernization, enhanced connectivity, improved public realm, and expanded year-round programming aligns with the needs of today's event organizers, guests, and partners, while elevating the overall visitor experience.

From an operational perspective, the plan presents meaningful opportunities to improve efficiencies, increase attendance, and drive greater utilization across the site. Enhanced infrastructure, improved pedestrian flow, and integrated planning will have a direct positive impact on Liberty Grand by increasing accessibility, expanding audience reach, and enabling larger and more diverse events. This will further strengthen the economic performance of the campus and reinforce its position as a premier destination.

We are particularly encouraged by the focus on sustainability, strategic partnerships, and long-term flexibility—key elements for continued investment, innovation, and responsible growth.

Liberty Entertainment Group remains committed to working collaboratively with Exhibition Place management, the Board of Governors, and the City of Toronto as this vision progresses. We are confident the plan will deliver significant economic, cultural, and community benefits, and we fully support its approval and implementation.

We look forward to continuing our partnership and contributing to the next phase of Exhibition Place's success.

Regards

Cav. Nick Di Donato O.Ont., P.Eng.
