

July 7, 2026

To: Etobicoke York Community Council
From: Director, Enforcement and Street Management, Transportation Services
Re: Hillside Avenue – PXO Investigation and Reporting Motion Memorandum
Wards: Ward 3 - Etobicoke - Lakeshore

Transportation Services has been requested by the local Councillor to provide recommended wording for recommendations they plan to present in a motion to Etobicoke York Community Council. Staff request that this memorandum accompany the member's submission.

Summary

- X Staff **support** the draft recommendations provided below
- ☐ Staff **do not support** the draft recommendations provided below
- ☐ Staff do not have sufficient data and/or time to determine if the draft recommendations provided below can be supported by staff, at this time.

Draft Recommendations

1. Etobicoke York Community Council request the Director, Enforcement and Street Management, Transportation Services, to investigate the feasibility of installing pedestrian crossing protection on Royal York Road at Hillside Avenue, and report back to the Councillor with the review of the findings and any recommendations in the fourth quarter of 2026.

The proposed motion responds to traffic and safety concerns raised by local constituents.

Financial Impact

Staff have not been able to develop engineering estimates for this work, but based on previous experience and similar work in the past, we expect the costs associated with approving the draft recommendations above will be approximately \$150,000. As this work was not anticipated, it has not been specifically included in any approved budgets. Completion of the work would be subject to availability and competing priorities within future Transportation Services Operating Budgets, unless a specific funding source is identified by the councillor and approved Etobicoke York Community Council.
