Dear Chair and Members of the Etobicoke York Community Council,

I am writing on behalf of *Friends of the Etobicoke Greenway* to express support for **Item EY28.3 – Agreement to Collaborate with Hydro One Networks Inc. for Construction on the Etobicoke Greenway Trail Project.**

Our group was formed specifically to support the delivery of the Etobicoke Greenway Trail and engage with the community to make this a place for everyone, and we are encouraged to see this project moving into the next phase through a formal agreement between the City of Toronto and Hydro One. The proposed agreement provides a clear framework for design, construction, and long-term maintenance responsibilities, allowing this long-anticipated project to proceed in a timely and coordinated manner.

Through our community engagement over the past year, residents have consistently expressed strong support for the Etobicoke Greenway as a critical piece of local active transportation and trail infrastructure. The Greenway is viewed as an important connection between neighbourhoods, schools, and major transit hubs, including Kipling Station.

We appreciate Hydro One's commitment to fully fund the design and construction of the trail, as well as the proposed one-time contribution toward maintenance costs. We respectfully urge Community Council to support the recommendations in this report so that design work can proceed without further delay.

Thank you for your continued leadership in advancing this important project for Etobicoke.

Sincerely,  
**Jennifer Alexander**  
Member, Friends of the Etobicoke Greenway
