**Re: IE27.1 – Response to Council Directions on Sidewalk Clearing Requirements and the Status of Modernizing PlowTO**

Dear Members of the Infrastructure and Environment Committee,

Ongoing snow operations continues to be a priority for Transportation Services staff and the City of Toronto. We are still mid-winter, with more snow and ice events forecast in the coming weeks. Data and insights collected from these events should be included to best inform the recommendations included in the report.

I look forward to a thorough review of the information they have gathered which would best be considered along with the Annual Report on Winter Maintenance. For the above reasons, I would ask for your support for the following:

**Recommendation:**

1. Infrastructure and Environment Committee refer item IE27.1 to the General Manager, Transportation Services, with a request that they update and incorporate the status of Sidewalk Clearing Requirements and of Modernizing PlowTO into their upcoming annual report to the Infrastructure and Environment on Winter Maintenance.

Thank you for your support,

Paula Fletcher  
City Councillor, Ward 14, Toronto-Danforth
