Letter of Support: Warden Avenue Pedestrian Safety Recommendation

Dear Chair and Members of Committee,

I am writing to express support for the recommended pedestrian safety improvements on **Warden Avenue at a point approximately 396 metres north of Firvalley Court (Ward 20)**, specifically the installation of an **IPS with a single-side crossing (south side)**, along with the **recommended pedestrian crossing prohibition on the north side**.

This recommendation reflects a practical, safety-focused approach that will help guide pedestrians to a safer crossing location, reduce conflict points, and improve predictability for both pedestrians and motorists.

This improvement also aligns with broader community goals to strengthen safe, reliable, and healthy walking and cycling connections in Scarborough, which emphasizes better neighbourhood connectivity and access to transit.

Road safety remains a key priority in our community, especially on major corridors such as Warden Avenue. Measures like this help improve accessibility and safety for residents, families, seniors, and all road users.

Thank you to Transportation Services staff for their review and recommendation. I support the item as recommended.

Sincerely,

A handwritten signature in black ink that reads "P. Kandavel".
