

MM39.43 - Raising of the Lion and Sun Flag in Solidarity with Iranian-Canadians - by Councillor Lily Cheng, seconded by Councillor Nick Mantas

Attachment 1 -

Consider this attachment as a reference image of the Lion and Sun flag requested for raising on a City of Toronto flagpole, for clarity and certainty.

That it be further clarified that the Lion and Sun symbol has roots in ancient Iranian civilization, predating modern states and governments, and holds deep historical and cultural significance as a symbol of Iranian heritage and identity, rather than representing any contemporary political entity.
