

NOTICE OF MOTION

Authority to Accept Federation of Canadian Municipalities to Advance Safe School Travel Planning and Street Design to Macklin Public School

Moved by: Councillor

MYERS

Seconded by: Councillor

COLLE

SUMMARY:

Transportation Services staff applied for a Green Municipal Fund Grant from the Federation of Canadian Municipalities to support the implementation of the approved road safety project on Ingleton Boulevard as part of the Alton Towers Neighbourhood Connection project ([2025.IE26.6](#)). Stated project goals are improving road safety for everyone, including school children, and enhanced access to schools. Promoting active school travel is also part of the Vision Zero Road Safety Plan. Alton Towers community representatives and school Principals in the area identified the need for additional school travel planning and community engagement, as well as capital enhancements to Ingleton Boulevard including widened sidewalks, improved street crossings, speed humps and on-road cycle tracks. The grant would be used to enhance school travel planning, community engagement and education and make capital improvements in coordination with the planned road resurfacing of Ingleton Boulevard in 2027.

RECOMMENDATIONS:

1. City Council authorize the General Manager, Transportation Services, to negotiate, enter into, and execute a grant funding agreement with the Federation of Canadian Municipalities in the amount of \$125,000, for the purposes of improving safer school travel through planning, engagement, education and capital enhancements in coordination with the planned road resurfacing of Ingleton Boulevard in 2027, on such terms and conditions satisfactory to the General Manager, Transportation Services, and in a form satisfactory to the City Solicitor.
2. Upon finalization of the grant funding agreement with the Federation of Canadian Municipalities, City Council authorize a one-time increase of \$125,000 gross and \$0 debt to the 2026-2035 Capital Budget and Plan for Transportation Services to create a new capital project (WBS Element), fully funded by the Green Municipal Fund Grant (CTP826-05), for the purposes of improving safer school travel through planning, engagement, education and capital enhancements in coordination with the planned road resurfacing of Ingleton Boulevard in 2027.

Date: July 29, 2026
