Dear Toronto City Clerk,

Please accept this letter as a communication in support of item MM43.73, Future of the Former Ontario Science Centre Site, and circulate it to the Mayor and Members of City Council for their consideration at the July 30 meeting.

I support the motion and the community report it brings forward on the future of the former Ontario Science Centre.

The building has sat empty for two years, but it remains viable. Its roof withstood the largest single-day snowfall in Toronto's history this winter, and the Province's own engineering consultants have said it could have remained open. The Province's plan to build a new science centre at Ontario Place does not require 770 Don Mills to sit empty.

This spring, residents of Flemingdon Park, Thorncliffe Park, and neighbourhoods across Toronto took part in consultations on the site's future, led by Save Ontario's Science Centre, Moriyama Teshima Architects, and Councillors Matlow and Councillor Burnside. Their priorities were clear. Keep the site public. Keep it a place of learning and discovery. Protect access to the ravine, the building's architecture, and its heritage. Ensure it serves the needs of the surrounding communities.

The report recommends a process that brings the Province together with the City, the federal government, the TRCA, and community and philanthropic partners to determine the site's future use, governance, and funding. I urge Council to adopt it.

770 Don Mills Road is a significant public asset. Its use may change, but its public purpose should endure.

Signed:
