 - e. provide suggested routes for BikeShare on Toronto Island that avoids disruption to the residential community.

Summary

In May 2025, Bike Share Toronto launched a pilot project on Toronto Island, introducing service to this destination park for the first time. This program aligned with the goal of enhancing access on Toronto Island park for all users, and was implemented in coordination with Parks staff from Toronto Island Park Plan team.

Six Bike Share stations at Centre Island, Ward's Island, Hanlan's Point Beach and Gibraltar Point were installed for the pilot. The program was successful with users, with over 216,000 trips started on Toronto Island between May and October 2025. In this first year, the Centre Island Ferry Dock and Ward's Island Ferry Dock station were respectively the first and third most used stations in the entire Bike Share system in 2025.

Following the summer season, City staff have taken feedback from stakeholders on the use in the first year. Several enhancements to the program have been identified to manage the use of Bike Share in the unique conditions of Toronto Island, including its residential communities. These recommendations should be implemented this season, to support a successful program.
