I would like to encourage the board to ensure that the TPA accessibility strategy includes adaptive BikeShare.

For example, Detroit has adaptive bikes available. These bikes are available in specific locations (usually parks or at permanent corals) and stored in shipping containers. Payment works in a similar way to the regular system. Although reservations can be made via an email/phone number.

Some possible locations in Toronto for this service would be: The Island, MGT, Brickworks and HighPark.

Further improvements could be made to make the system self serve via specialized locks.

I encourage the TPA to proactively work with groups to determine the best bike mix, and service locations.
