Dear Chair and Board Members,

**RE: Toronto Preservation Board - March 12, 2026 Meeting
Agenda Item PB41.4 "Bloor-Yorkville Cultural Heritage Resource Assessment - Final
Report"**

I am writing regarding the recent notice identifying [122-124 Cumberland Street and 121 Yorkville Avenue](#) as properties that may have potential heritage interest or value.

From our discussions with our heritage consultant, we understand that the City is identifying a number of properties as having potential cultural or heritage value under one or two criterion.

To date, we have received no prior notification of the City's intentions regarding these properties. On behalf of the ownership group, I would like to clearly state that we oppose any potential heritage recognition or designation for these properties.

We respectfully request that Council take this position into account and refrain from advancing any steps toward heritage listing or designation at this time.

Thank you for your attention.

Kind regards,

Claire Lyndon
