TO LIVE would like to acknowledge Tkaronto (TKahr-on-dOnH), which is a Mohawk word meaning “the place in the water where the trees are standing.” We live and work on the traditional territory of Haudenosaunee (HODE-en-oh-show-nee)-speaking nations, including the Wendat, Seneca and Mohawk. Haudenosaunee-speaking nations have been here since time immemorial and were more recently joined by the Mississaugas of the Credit.

This place has many Indigenous ports, including where the Humber and Rouge rivers meet other waterways such as Lake Ontario. Ancient longhouses - typical Haudenosaunee housing structures - have been found along both of these Rivers and in the north of Toronto as well (near modern-day York University). This territory is covered by the Dish with One Spoon Wampum Belt Covenant, an agreement between the Haudenosaunee (Six Nations) Confederacy and the Anishnaabe (Ojibwe) and allied nations to peaceably share and care for the lands and the relationships around the Great Lakes.

What this means is that by living and working here, we all have a responsibility to the environment and to each other, to treat each other and the environment with peace & respect. This means we have responsibilities to honour, renew, and consistently uphold the values and relationships outlined in the ancient agreements.

Today, Toronto is home to Indigenous peoples and settlers from around the world. Let us all come together in an atmosphere of respect and peace to do Good Work together with Good Minds. Let’s start building stronger and healthier relationships with each other, and the spaces which we inhabit in Tkaronto (TKahr-ON-donH), Ontari:io (on-dahr-EE-yo), Kanata (Gan-AH-dah). Let’s hold our minds together in kindness.

Nia:wen. Thank you.

- Priority of optimizing use of all available spaces continues while recognizing shifts in proportion of Corporate and Private events, Stage Rentals, *TO Live Presents* and Community & Outreach usage.
- Expand equitable access to Arts & Culture through inclusive programming, accessibility initiatives and stronger community partnerships.

Expenses

- Prioritization of available funds to support TO Live's role as a meaningful and relevant contributor to Toronto's cultural landscape through engagement with local artists.
- Increase in Communities & Outreach budget to further strengthen community partnerships and resources for local artists.
- Rising operational costs, labour rates, both union and non-union, have put pressure on the budget, reducing organizational flexibility, constraining strategic investment in programming areas, labour market and staffing pressures.

2.3 Sustainability

Sustainability Overview

2026–2030 Sustainability Roadmap

TO Live has already begun sustainability-related work through operations, procurement choices, and the City-aligned capital program. The 2026–2030 roadmap consolidates this work across Meridian Hall, Meridian Arts Centre, and St. Lawrence Centre for the Arts.

- Key roadmap priorities include:
 - Align capital/SOGR work with Net Zero by 2040.
 - Track progress through annual KPIs: building emissions, total energy use, fossil-heating reliance, waste diversion, and major project delivery.
 - Use “touch it once” capital coordination to embed sustainability when systems or spaces are already being renewed.
 - Advance practical operational improvements: HVAC scheduling, lighting controls, low-flow fixtures, waste sorting, procurement defaults, and FOH consumable reductions.

Carbon Budget participation is not a separate funding envelope; it ensures eligible GHG-reducing actions are visible through the City’s capital prioritization process.

For 2027, the Ticket Rebates budget attempts to build upon the 2025-2026 models with data-driven revisions and updated forecasting based on continuing and emerging market trends. TO Live's goal regarding ticketing fees continues to be maintaining a reasonable balance between several market forces. These include:

- keeping rates competitive with other organizations in our sector.
- maximizing ticket fee revenues as a key component in the financial success of the company.

- avoiding undue financial burdens to our clients or consumers, particularly given the wide range of prices, products, venues and artistic offerings that comprise our ticketed event landscape.

Development Overview

The Development department supports TO Live by raising funds through various revenue streams. This includes securing sponsorships, donations, foundations and government grants tied to its venues and programming.

- Economic conditions are expected to continue impacting sponsorship and philanthropy in 2027, with inflation and cost-of-living pressures reducing giving and causing corporate partners to remain cautious.
- Philanthropy continues to outperform corporate sponsorship in program-related fundraising. As a result, emphasis has shifted to the TO Live Foundation, which is expected to continue contributing increased revenue to operations.
- Naming Rights revenue remains stable and continues to be TO Live's largest and most reliable Development revenue source.
- Donations are projected to grow 69% in 2027 driven by continued expansion of corporate and individual membership programs (TO Live Champions).
- Foundation programming revenue is projected to increase significantly due to stronger relationships with funding partners established in 2025.
- Total Development revenue is projected at \$3.34M, representing a 22% increase over 2025 actuals and reflecting a focused, realistic strategy in a challenging economic environment.

Programming Administration Services Overview

The Programming Administration Services, comprising of programmers, producers and booking staff, strategically develops and secures a diverse range of artistic initiatives across our three venues, with a commitment to fostering a more vibrant and inclusive city through the arts. The department's overhead budget supports essential functions such as program research and development, professional travel, institutional memberships, business entertainment, and contracted services.

Production Services Overview

Productions Services strives to provide first in class technical support, through the sharing of knowledge, skilled labour, and equipment to the users of TO Live's seven stages and ancillary spaces. The Production Services department also aims to provide support to our neighbourhood arts organizations through collaboration, consultation, and the sharing of technical resources.

Challengers & Risks:

- Supply chain delays.
- Equipment repair and maintenance costs.
- Need for ongoing technology upgrades and costs pressures.

Highlights:

- In 2025 there was an increase in our clients taking advantage of our expertise and industry connections to rent equipment and materials on their behalf for a small service charge. We anticipate that this upward trend will continue in 2026 and 2027.
- Revenue from usage of in-house equipment is anticipated to increase in 2027 due to the addition of new video presentation and recording technologies.
- Production Services will continue to attend the two main conferences held by the Canadian Institute for Theatre Technology (CITT), Expo-Scene and Rendez-vous. Attendance at these events provides important updates on theatre technology and techniques, as well as offering vital networking opportunities.

Marketing & Communications Services Overview

The Marketing Department is focused on enhancing visibility and audience engagement through content-driven storytelling, paid and organic media, strategic partnerships, and community outreach. The department supports three core priorities: promoting Toronto's artistic community, driving success for TO Live Presents and rental clients, and elevating TO Live's corporate initiatives and brand.

Ticket Services Overview

Against an industry and broader technological landscape faced with rapid and significant change, the principal objective for Ticket Services in 2027 is to maintain our high level of ticketing/box office service, even as the mechanisms and procedures underpinning this service shift and develop.

Technical and training amendments have improved our efficacy in recent months and will further deepen into 2027, but demand from promoters and audiences shows no signs of slowing. Commercial clients are expanding their portfolios of content, partnerships, and venue usage, while long-time resident clients diversify their offerings and push for more elaborate and intricate setups. Meanwhile, consumer demand prioritizes more flexibility without more complexity, a difficult balance to strike.

Challenges & Risks:

- Rapid technological changes.

- Improved technical systems and training.
- Strong client demand and venue activity.
