Re: Traffic Calming - Flerimac Road, between Lawrence Avenue East and Megan Avenue (25, Scarborough-Rouge Park)

Transportation Services has been requested by the Ward 25 Councillor to provide recommended wording for recommendations they plan to present to the April 1, 2026, Scarborough Community Council. Staff request that this memorandum accompany the member's submission.

Summary

- Staff **support** the draft recommendations provided below
- Staff **do not support** the draft recommendations provided below
- X Staff **do not have sufficient data and/or time to determine if the draft recommendations provided below can be supported by staff, at this time**

Draft Recommendations

1. *Scarborough Community Council authorize the installation of traffic calming (eight speed humps) on Flerimac Road, between Lawrence Avenue East and Megan Avenue, generally as shown in Attachments 1 and 2, Drawing No. TC-672 and TC-672-1, dated March 30, 2026 from the Director, Enforcement and Street Management, Transportation Services.*
2. *Subject to approval of Recommendation 1 above, Scarborough Community Council reduce the speed limit from 50 km/h to 30 km/h on Flerimac Road, between Lawrence Avenue East and Megan Avenue, in conjunction with the installation of speed humps.*

The Ward Councillor requested staff to evaluate the feasibility of implementing traffic calming (speed humps) on Flerimac Road, between Lawrence Avenue East and Megan Avenue, to improve safety for all road users. The Councillor also noted that traffic calming on this road has significant community support.

As the Councillor has indicated they would like to forgo the study process, motorist speed and volume data were not collected, and staff have not evaluated the installation of traffic calming measures (speed humps) on the roadway. Staff conducted a site visit in March 2026 to map the proposed speed hump locations

Financial Impact

Staff have not been able to develop engineering estimates for this work but based on previous experience and similar work in the past, we expect the costs associated with approving the draft recommendations above will be approximately \$32,000. As this work was not anticipated, it has not been specifically included in any approved budgets. Completion of the work would be subject to availability and competing priorities within future Transportation Services Capital Budgets, unless a specific funding source is identified by the councillor and approved by Scarborough Community Council.
