Dear Chair and Members,

Re: Lynn Road, Florens Avenue, and McIntosh Street - Traffic Calming (Speed Humps)

Lynn Road, Florens Avenue, and McIntosh Street are local residential streets in Ward 20 where residents have raised concerns about speeding and road safety.

The Councillor's office conducted resident flyer drop surveys to better understand support for traffic calming. Strong community support for traffic calming was recorded for:

- Lynn Road, between Cornell Avenue and Manderley Drive
- Florens Avenue, between Herron Avenue and Pharmacy Avenue
- McIntosh Street, between Park Street and Highview Avenue

The proposed speed humps are intended to reduce vehicle speeds, improve pedestrian safety, and create a calmer and safer street environment for residents, families, seniors, children, cyclists, and other road users.

RECOMMENDATION:

It is recommended that:

1. Scarborough Community Council request the General Manager, Transportation Services, to study the feasibility of installing traffic calming measures, including speed humps, on Lynn Road between Cornell Avenue and Manderley Drive, Florens Avenue between Herron Avenue and Pharmacy Avenue, and McIntosh Street between Park Street and Highview Avenue, and, if warranted, report back to Scarborough Community Council by Q1 2027 with recommendations to authorize installation.

Sincerely,

Parthi Kandavel
City Councillor
Ward 20 - Scarborough Southwest
