Dear Chair and Members,

Re: Pitt Avenue – Traffic Calming

Pitt Avenue is a local residential street that also functions as a neighbourhood thoroughfare between St. Clair Avenue East and Donside Drive. Residents have raised ongoing concerns about speeding, traffic volumes, and road safety, particularly given the number of pedestrians, cyclists, families, seniors, children, and other vulnerable road users who use this street daily.

Through consultation by the Councillor's office, residents expressed support for stronger traffic calming measures to help reduce vehicle speeds and improve overall safety and comfort in the neighbourhood. The proposed installation of fourteen speed humps is intended to discourage unsafe driving, calm traffic, and create a safer street environment for all road users.

RECOMMENDATION:

It is recommended that:

1. Scarborough Community Council authorize the installation of traffic calming (fourteen speed humps) on Pitt Avenue, between St Clair Avenue East and Donside Drive, generally as shown in Drawing Nos. TC-756, TC-756-1 and TC-756-2, dated June 2026, from the Director, Enforcement and Street Management, Transportation Services.

Sincerely,

Parthi Kandavel
City Councillor
Ward 20 - Scarborough Southwest
