Improving pedestrian safety on Roxborough Road

Summary

By 2025.TE27.50, TEYCC authorized a construction management zone for the construction of the new multi unit residential building at one Roxborough Street West. Section 23 of that motion required the developer to install a pedestrian crossing to provide a safe access to Yonge Street for pedestrians on the south side of Roxborough, given that the sidewalk has been blocked by the developer.

Since that time, Transportation Services has decided that it will take responsibility for installing the pedestrian crossing and will pay for it out of the existing charge is paid by the developer..

Recommendations

1. Toronto and East York Community Council re-open Item 2025.TE27.50, 1 Roxborough Street West (Phase 2) - Construction Staging Area.
2. Toronto and East York Community Council amend it previous decision on 2025.TE27.50 by deleting Part 23 and adopting the following new Part instead:
 23. Direct the General Manager, Transportation Services to install a temporary pedestrian crossover 100 metres west of Paul Hahn Lane to ensure that pedestrians can safely cross Roxborough Street West in order to walk to Yonge Street on the sole remaining (north side) sidewalk, until the south sidewalk on Roxborough Street West on the block west of Yonge Street is reopened to pedestrians.

A handwritten signature in black ink that reads "D Saxe". The letters are stylized and cursive.
