RE: Installation of Traffic Calming Measures on Rochdale Avenue

Dear Chair and Members of Toronto and East York Community Council,

Rochdale Avenue, located between Ennerdale Road and Harvie Avenue, sits at the heart of Caledonia-Fairbank and connects residents to several local shops, schools, parks, and public transit. I have heard from many residents that drivers too often speed down Rochdale Avenue, putting them and their families at risk. I've also heard from residents who shared their experiences of near misses resulting from dangerous driving. As this neighbourhood continues to grow and welcome new residents, there is an urgent need for traffic calming measures.

In response to these issues, my office shared a neighbourhood survey requesting feedback on traffic safety improvements. Residents along Rochdale Avenue overwhelmingly supported installing speed humps as a proposed traffic calming measure. The addition of speed humps will help reduce speeding and improve traffic safety.

RECOMMENDATIONS

It is recommended that:

1. Toronto and East York Community Council authorize the installation of traffic calming (two speed humps) on Rochdale Avenue, between Harvie Avenue and Ennerdale Road, generally as shown on the attached Drawing No. TC-698, dated May 2026 from the Director, Enforcement and Street Management, Transportation Services.

Sincerely,

Alejandra Bravo
City Councillor
Ward 9, Davenport
