RE: Improving Permit Parking on Old Weston Road

Dear Chair and Members of Toronto and East York Community Council,

Old Weston Road serves local residents, businesses, and visitors as an important arterial corridor. However, parking regulations on certain sections of the street do not adequately reflect current neighbourhood needs and have led to ongoing concerns from residents.

Residents on the east side of Old Weston Road, between Davenport Road and St. Clair Avenue West, do not have access to permit parking and contacted my office to request improvements. Many households have limited access to garage parking and rely on curbside parking. Introducing permit parking on this section of the street would help address these concerns, align with surrounding neighbourhood parking regulations, and provide approximately 25 on-street permit parking spaces for local residents.

I have also heard concerns regarding the existing parking and stopping regulations on the east side of Old Weston Road, just south of Ed Clark Gardens. A stopping prohibition is currently in effect at all times along this section, originally implemented in 1999 to support operations at the now-closed Toronto West Flea Market. There is no longer a need for this restriction.

This motion proposes two changes to parking regulations on Old Weston Road to resolve these issues. The directions below enable permit parking on the east side of Old Weston Road, between Davenport Road and St. Clair Avenue West, to better support residents who rely on on-street parking. It would also remove the stopping prohibition south of the park to reflect current resident uses. Together, these changes improves parking availability and aligns regulations with current community needs.
