Toronto, ON M5H 2N2

Re: Traffic Calming – Woodycrest Avenue

Dear Councillor Moise and Toronto and East York Community Council,

Residents have reached out to me with concerns about speeding on Woodycrest Avenue between Aldwych and Sammon Avenue. The section of Woodycrest Avenue between Sammon Avenue and Mortimer Avenue, as well as the section between Selkirk Street and Danforth Avenue already have speed humps.

Residents are looking to fill in the gap of speed humps on this section, since they have witnessed vehicles speeding up in this section.

This is also a residential area, very close to the disruptive Ontario Line construction.

For the sake of public safety, I am supportive of the installation of speed humps on this street.

RECOMMENDATION:

1. Toronto and East York Community Council authorize the installation of traffic calming (three speed humps) on Woodycrest Avenue, between Sammon Avenue and Selkirk Street, generally as shown in Drawing No. TC-681, dated April 2026, from the Director, Enforcement and Street Management, Transportation Services.

Sincerely,

Paula Fletcher
City Councillor
Ward 14, Toronto-Danforth
