Regarding this item, 2026.TE32.21, I would like the attached photo added to the communications for this item. I will be bringing a poster print of this file but the file should be available to people attending remotely.

I took the photo, which shows the tree that is the subject of the appeal and the extensive amount of Ginkgo fruit that falls from the tree. The photo can be made public.

I plan to attend the meeting in person with my spouse and wish to speak to the meeting to support my appeal. Please let me know the process for doing this and how early I need to come to the meeting room.
