Community as Canvas

SUMMIT 14 June 3-5 New York City

Produced in partnership with
NYU
 The Polytechnic Institute of New York University
 With special thanks to [Friends of the Forum](#) for their financial support

**June 3
 ICF Foundation Day**

The first day of the Summit is devoted to the ICF Foundation, the membership association of cities and regions named as Intelligent Communities by ICF. ICF Foundation Day includes a meeting of the ICFF Board, economic development networking sessions, and the Annual General Meeting of members. Attendance is restricted to ICFF Full and Associate Members and their guests. *Separate registration required.* See [Locations](#) for the sites of the events.

9:00

Foundation Board Meeting

Annual meeting of the Foundation Board, restricted to Directors and observers from Full Members of the Foundation. Coffee and pastries will be available from 8:30 am.

13:00

Economic Development Matchmaking

For the first time, ICF is providing Full and Associate Members of the Foundation, as well as their companies and institutions, the chance to explore strategic partnerships, business location and market entry opportunities, and joint projects. In a series of scheduled 20-minute introductory meetings, participants will present their goals and capabilities, and identify potential areas for future collaboration. ICF will offer an online system for communities and companies to reserve tables, and for participants to schedule meetings with them in advance. Space is limited. Bring your basic presentation and lots of business cards to take advantage of this unique international opportunity. Separate registration required, to be announced to Summit registrants.

13:00	Welcome and introduction; table set-up
13:20 - 15:20	Meetings
15:20	Closing

Foundation Annual General Meeting

The ICF Foundation is the membership association of the Intelligent Community Forum. Members are invited to attend the Annual General meeting to hear a report on the Foundation's activities over the past 12 months, meet the Board of Directors and share their ideas for the Foundation's future. Open to ICF Full and Associate Members and their guests from all Intelligent Communities.

16:00	Welcome and introduction
16:15	Reports to the membership
16:45	Question & answer
17:00	Closing

Free Evening

**June 4
Community Accelerator Day**

A central feature of ICF's [Community Accelerator](#) is the Master Class. Summit 14 will feature two Master Classes, one focusing on how large urban areas are making the transition from being "smart cities" into Intelligent Communities, the other on the unique challenges and opportunities facing rural cities and regions. Seating is limited and registrants are encouraged to reserve their place early. The Master Classes are followed by the Top7 Intelligent Communities Reception. *Separate registration required for the events.*

Urban Challenges, Urban Promise

This Master Class is hosted by Paul Hastings. [Click here for more location information](#)

**10:00
Intelligent Communities: Facing a Future of Dramatic Change**

The 2014 Master Class Tutorial looks ahead to the dramatic changes that ICT will bring to business location decisions, labor demand and educational requirements for midsize to large cities in the decades ahead. After a refresher on the Intelligent Community development, the tutorial explores how cities can adapt to change and maintain their competitive edge.

Robert Bell, Co-Founder, ICF

**11:45
The Next Wave of US Broadband Regulation**

Recent policy changes at the Federal Communications Commission has stirred loud debate over the future of "net neutrality" in American broadband networks, but it is just one of many issues shaping broadband deployment. Many of the same policy debates are taking place around the world. The former Chief Counsel to the Chairman of the FCC shares her views on where broadband regulation is headed and what lessons this offers other nations.

Sherrese Smith, Partner, Telecommunications, Media, and Technology as well as Privacy and Data Security practices, Paul Hastings

**10:00
Intelligent Rural Communities: The New Connected Countryside**

The 2014 Master Class Tutorial examines the special challenges faced by rural Intelligent Communities as well as the enormous potential of ICT to build long-term economic vitality while preserving and improving quality of life. After a refresher on the principles of Intelligent Community development, the tutorial explores how rural cities and regions are leveling the economic playing field with their urban peers.

Norman Jacknis, Senior Fellow, ICF

15:30

Turning Around Digital Resistance

Low broadband penetration is not just about telecom investment – it also reflects disparities of income, education and age. What strategies do rural Intelligent Communities find effective in bringing the “analog population” into the digital age?

David Brunnen, Managing Editor, Groupe Intellex, United Kingdom; Partner, NextGen UK

Dr. Roberto Gallardo, Associate Extension Professor, Mississippi State University Extension Service, Mississippi, USA

16:15

Secrets of Turning Brain Drain into Brain Gain

Communities everywhere find themselves in a global battle for talent, and rural communities face fierce competition from metro areas. What are rural Intelligent Communities doing to reverse brain drain and ensure prosperity for future generations?

Joep Brouwers, Vice Director, Brainport Development, Eindhoven, Netherlands

David Woolson, President & CEO, Walla Walla Chamber of Commerce, Walla Walla, Washington, USA

Top7 Intelligent Communities Reception

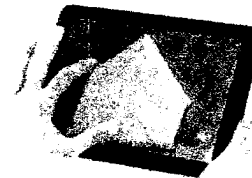

Reception with elected officials and senior leaders of ICF Foundation Full and Associate Members, honoring the 2014 Top7 Intelligent Communities of the Year. Master of Ceremonies: **Louis Zacharilla**, Co-Founder, ICF. Welcome by **Manhattan Borough President Gale Brewer**. *Separate registration or invitation required.*

June 5

Intelligent Community of the Year (ICY) Day

The ICY Day focuses on the Top7 Intelligent Communities of 2014 and the selection of one of them as the Intelligent Community of the Year. During the day, the Summit features presentations on each of the Top7, conversations with community leaders and a chance to sample the unique cultures of Intelligent Communities from around the world - plus plus thought-provoking keynotes on the opportunities and obstacles created by local culture. The theme of the 2014 Summit is **Community as Canvas**, the discussions will explore how culture contributes to the economy, how it reflects the community's heritage, and how it shapes the attitudes of its people.

The evening is reserved for the Intelligent Community Awards Dinner, featuring a keynote address by ICF's Visionary of the Year and the announcement of the Intelligent Community of the Year. See [Locations](#) for the sites of the events.

9:20

The Revolutionary Community

Keynote by **Ryan Holladay**, who is one-half of the innovative sound/technology duo, BLUEBRAIN, along with his brother, Hays Holladay. BLUEBRAIN has garnered attention for its exploration of location-based music composition using smartphones, for which WIRED dubbed them "pioneers.". The Washington Post listed their first location-aware app/album, 'The National Mall', in its list of Top 10 Album of 2011 (a first for an app) calling the work "magical...like using GPS to navigate a dream." BLUEBRAIN has been featured in The New York Times, BBC World Service, The Guardian, Rolling Stone, and Fast Company. Ryan also serves as the New Media Curator at Artisphere, a 52,000 sq. ft. arts facility located in **Arlington County, Virginia**. See his TED Talk: [To Hear This Music You Have to Be There. A Hundred Years of Colored Glass Culture

The production of colored art glass is a hundred-year-old tradition in Hsinchu, which has been revived and expanded in the 21st Century. The Mayor of Hsinchu, Hsu Ming-Tsai, is known for his skills in the traditional art of Chinese calligraphy. In the presentation, Mayor Hsu will use a traditional Chinese brush pen to write five Chinese characters, which name the beautiful color glass artwork for which the city is famous. Mayor Hsu will then explain the meaning of the characters and present color glass artwork gifts to select members of the audience.

11:05

Kingston: Seriously Sophisticated

ICF Summit participants will have a chance to experience what happens when culture and technology come together. Aspects of Kingston's culture will be showcased by engaging delegates over the course of three day Summit using a combination of social media and participatory activities designed to connect Kingston with New York City. Using these tools, delegates will experience a taste of history, literature, art, music, video and public interventions that knit together to provide an intriguing glimpse into what makes Kingston so culturally rich and interesting. Interactions with this content over the course of the Summit will be brought together on the final day as part of presentation that illustrates what "Community as Canvas" means from a uniquely Kingston perspective.

Sultans of String: A Celebration of Toronto's Vibrant Multiculturalism

JUNO nominees and CFMA winners, the Sultans of String, perform their high octane roots-worldbeat-

jazz. In this special concert, Sultans of String meet the electricity of special guest, sitar master Anwar Khurshid. Anwar's music has been featured in Oscar-winning film *Life of Pi* as well as *The Love Guru*. This innovative collaboration with Sultans of String serves up a spicy musical passport that defies categorization. The presentation will feature a live music performance accompanying a video detailing the multicultural richness of life in Canada's biggest metropolis, where over 140 languages and dialects are spoken and more than 50% of the population was born outside Canada.

16:00
Sky Lantern Flying

Sky lanterns are part of the cultural fabric of Taiwan, and the Pingxi District of New Taipei City is the center of sky lantern culture. The Sky Lantern Festival of New Taipei City was named the 52 things to do in 2013 by CNN Travel. Fodor's Travel, the world's largest travel guide publisher has selected it as one of the 14 must attend festivals of lifetime in the world. The presentation will open with a video demonstrating the process and spirit of the sky lantern launch into the night sky. After the introduction, the video continues with a scene where good wishes about ICF and the Top7 of 2014 are written on a sky lantern. The presentation concludes with presentation of electronic sky lanterns to the three co-founders of ICF and the six other representatives for the Top7, with a group photo of all.

16:15
A Gift for ICF from the Idea Foundry

The Columbus Idea Foundry is Ohio's premier Makerspace, which provides training on and technology from the conventional to the high-tech and puts the tools of innovation into the hands of the community. The Foundry is a community workshop, learning center and creative space for entrepreneurs, fabricators, inventors, protoypers, designers, craftsmen, artisans and artists. To showcase Columbus culture at its most creative, Idea Foundry's Alex Bandar tell the story of the Idea Foundry and its place in Columbus culture, and will present to ICF a unique display honoring the inspiring creativity of the Forum.
