Benches may impede pedestrian and cyclist flow.  
 ↳ use moveable street furniture  
 How about collapsable seating like on the TTC, so the seating is not impeding traffic?  
 - really more important flow of traffic on bridge

Art. increases the experience for the pedestrian.  
ART ROCKS!  
More public art  
- more interesting & some art

Chipping art is what Toronto does too often. BE BOLD.

Bridge  
the best piece of art is  
a clear view of the skyline

opportunity for this bridge to  
be more artistically designed it  
doesn't just have to be functional.

Agree  
 it's not the public engagement that  
 delayed this project - it's internal bureaucratic  
 disagreements about the elevators

Delays and too much public engagement has a negative  
 effect for the project -> Environmental Assessment Nov 2011  
 to construction 2018 is 7 years for a simple bridge  
 Frustrating -> ~~But~~ Build it already

..Instead of roof artwork, perhaps consider colored RGB LEDs to mirror the CN Tower's lighting scheme. ~~This is a less permanent so~~ To me, artwork has the potential to become dated very quickly whereas LED colors ~~are~~ are more adaptable

## Do you agree?

### Comments (optional)

#### Strengths & Opportunities

- LEDs are relatively low-cost and won't require touchups like artwork
- LED lighting can incorporate colors and patterns depending on nearby events / seasonal
- LED lighting works with the more attractive flat-roofed design
