

Monday April 4, 2016
City of Toronto - Long Term Waste Management Strategy
Phase 3 Consultation Workshop
Central YMCA, 20 Grosvenor Street

Reduce Reuse Recycle: Waste Diversion in Homes, Apartments, and Condos

AGENDA

6:30 – Open House
7:00 – Presentation
7:45 – Table Discussion 1
8:15 – Table Discussion 2
9:00 – Close

Exchange & Sharing

1. What materials would you be willing to share or borrow?
2. What would motivate you, and make it easy to participate in sharing, exchange, and drop-off programs?
3. Are there circumstances that would cause you not to share/exchange gently used items?
4. How can the City support exchange and sharing programs initiated by others?

Reduction & Food Waste

1. What would motivate you and other Torontonians to reduce waste at home, in the work place, or on the go?
2. Where do you find food waste to be generated most and why?
3. What would motivate or help you generate less wasted food?
4. What opportunities would you want to see to reduce food waste in your community and how could the City support these?

Diverting* Waste in Apartments and Condos

** Diversion programs refer to: recycling, organics, electronics and hazardous waste*

1. What factors do you think prevent apartment and condominium residents from sorting their waste into the diversion streams currently available?
2. It is understood that there are challenges related to accessing diversion facilities in multi-residential buildings. We would like to know if there are other lifestyle factors that influence your diversion behaviour?
3. What information, data or statistics do you think would influence apartment and condominium residents to improve their/your waste diversion?
4. Community composting in high-density neighbourhoods is recommended as a way to further educate on the benefits of composting and organics diversion and foster a sense of community. What would motivate you to participate in a community composting program in your neighbourhood?
