

Toy Cleaning and Disinfecting

Three-Compartment Sink / Bin Method

1st Sink: Wash with detergent

2nd Sink: Rinse with clean water

3rd Sink: Disinfect*

Air dry

Notes

- If using a two-compartment sink: washing and rinsing must be done in 1st sink
- A dishwasher may also be used to wash and disinfect toys**
- Wear personal protective equipment (PPE)
- Clean hands after removing PPE

* *Disinfect according to manufacturer's instructions*

** *Refer to Guidance Document, Procedure for Toy Cleaning and Disinfection*
