Duncan Creek Multi-Use Trail Extension & Pedestrian/Cyclist Bridge Across German Mills Creek (south of Steeles, east of Leslie Street)

Contract #: 15ECS-TI-17LR

Expected Start Date: late-May 2017

Expected End Date: late-November 2017

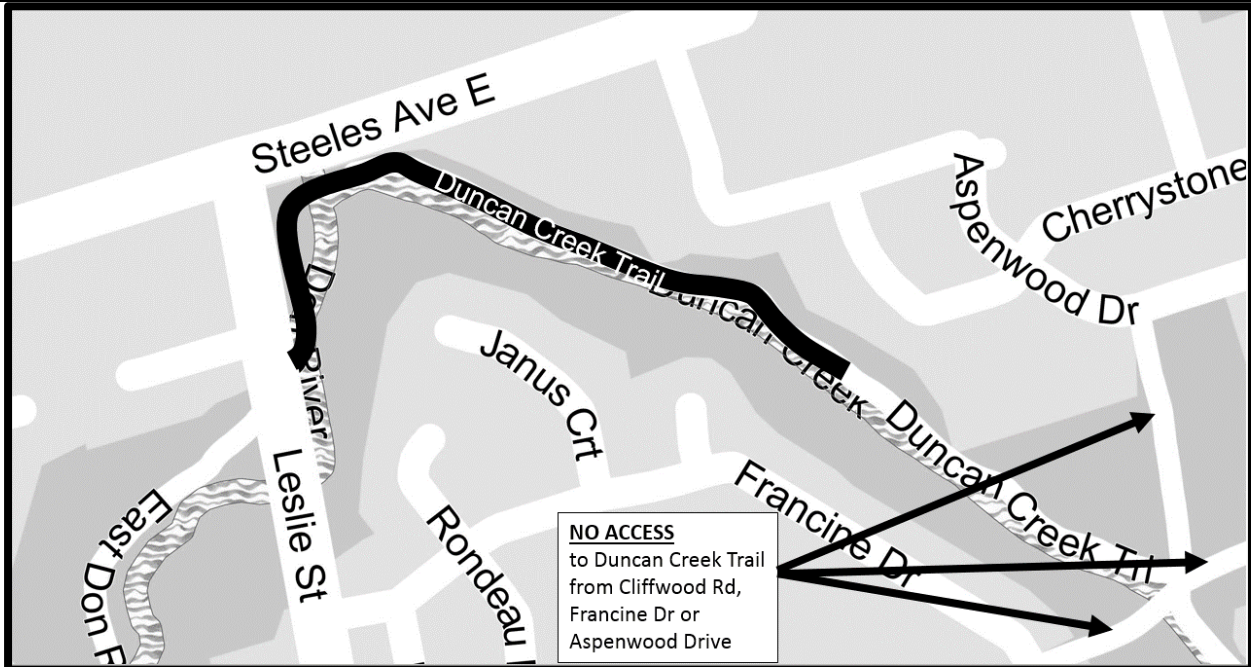

**Timeline is subject to change. Future notice to be provided.*

The City of Toronto is planning to construct a new multi-use trail from approximately 90 metres south of Steeles Avenue East to 600 metres east of Leslie Street; this work also involves building a new pedestrian/cyclist bridge across German Mills Creek. As part of this work, a signalized pedestrian/cyclist crossing will be installed approximately 200 metres south of Steeles Avenue connecting the trail extension with the existing Don Trail on the west side of Leslie Street.

In order to complete the construction there will be no access to the Duncan Creek Trail from Cliffwood Road, Francine Drive or Aspenwood Drive. Fencing will be in place to ensure residents and construction crews are safe.

This project is part of Transportation Services' Capital Work Program.

MAP OF WORK AREA

WHAT TO EXPECT BEFORE CONSTRUCTION

- Work crews will mark locations of underground utilities, such as gas, water and cable so that the construction work does not interfere with these utilities.
- Affected properties will receive a Construction Notice approximately two weeks before work begins with more information about the work.
