AREA 2

AREA 1

CURRENT CYCLING DEMAND

This analysis highlights areas of the city where there are currently high volumes of cycling traffic, to visualize where the greatest number of existing cyclists could benefit from new or upgraded bikeways.
Data source: 2011 Toronto Transportation Tomorrow Survey (TTS) - total cycling trips.

1 cm = 1 km

Data source: IBI - 2015
Projection: NAD 1927 MTM 3

Date: March 2015
Cartography: Vélo Québec
