

COMPLETE STREETS FOR TORONTO

Get involved, find out more, have your say!

The City of Toronto is developing Complete Streets Guidelines to provide a holistic approach for how we design our city streets. This builds on many of the City's existing policies, guidelines and recent successful street design and construction projects.

Complete streets are designed to consider the needs of all users, such as people who walk, bicycle, take transit or drive, and people of varying ages and levels of ability. They can also include sidewalk cafés, street furniture, trees and many other uses.

You're invited!

- | | |
