Tubs & Gee Gage Rugby Field Relocation and New Parking Lot Construction at Ashbridges Bay Park

Contract #17ECS-MI-02DC

Expected Start Date: November 2017

Expected End Date: December 2018

**Timeline is subject to change. Future notice to be provided.*

In early 2018, the City will begin constructing two large-scale infrastructure projects within Ashbridges Bay Park. The first is part of construction for the 10.6 kilometre Coxwell Bypass Tunnel that will capture, store, and transport sewer and stormwater overflow into the lower Don River during rainstorms.

The second project is the removal of the aging M&T Pumping Stations located at 1091 Eastern Avenue, and building a new water treatment plant in the same location. The New Pumping Station will process sewage from 1.2 million people and provide increased capacity to handle storm water overflow.

Existing M&T Pumping Station

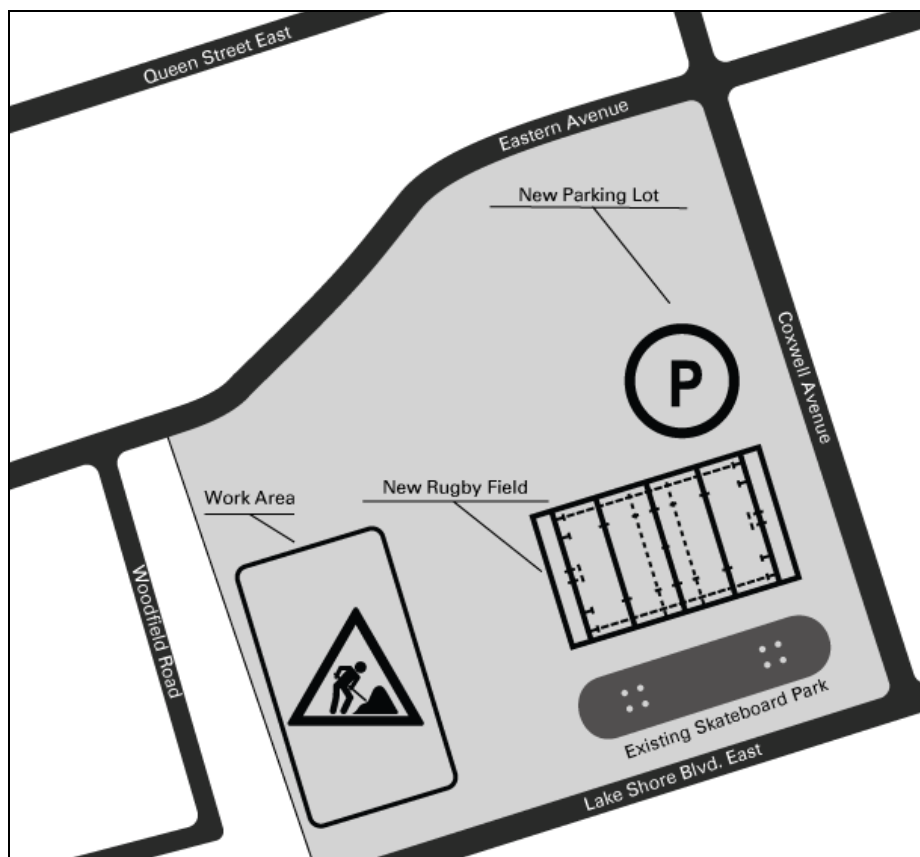

To prepare for this work, the City will:

- relocate the Tubs & Gee Gage Rugby Field
- install a new parking lot off Coxwell Avenue

Once complete, the relocated Rugby Field will feature new: goal posts, bleachers, and an irrigation and drainage system.

The new parking lot will feature 55 vehicular spaces, bike racks, and lighting. These projects are part of the Council-approved 2017-2025 Capital Works Program.

MAP OF WORK AREA

WORK DETAILS

During construction:

- hoarding will be erected around the site;
- the Skateboard Park and Rugby Field will remain open;
- vehicular access to the existing pumping station will be maintained;
- excavation for installation of new drainage and irrigation systems will take place;
- the New Parking Lot, Rugby Field and furnishings will be installed;
- the existing Rugby Field will be removed once the new Field is complete.

WHAT TO EXPECT DURING CONSTRUCTION

You may experience dust, noise and other inconveniences. The City will make efforts to reduce the impacts. We appreciate your patience.

	<p>Work Hours: Work will take place from 7:00 am to 7:00 pm., Monday to Friday, with work after hours and on weekends as required.</p>
	<p>Park Access: In order to complete the work in a safe manner, portions of the park will be closed during construction.</p>
	<p>Pre-Construction Inspection: Powerline Plus, under contract to the City of Toronto, will survey all properties within 30 metres of the construction area before construction starts. Participation in the survey is voluntary; however, participating is important to determine if construction causes damage by looking at the interior and exterior of all properties to verify existing conditions. The company will deliver a separate notice requesting time to set up appointments. All inspection staff will be wearing photo identification and carrying photographic equipment during their work.</p>
	<p>Tree Removal: Trees will be preserved through tree protection measures. Some trees within the construction area will be removed in advance. After construction is complete the City will plant new trees.</p>
