## Program Edit Service Restriction Screen

*Updated on March 2017*

[Home](#) > [Program Management – Search](#) > [Edit](#) > [Service Restriction](#)

### Business Purpose:

The **Program – Edit (Service Restriction)** page allows the user to set the Maximum length of service restriction (in days) and the Default service restriction length (in days).

### How to:

1. From the **Program – Edit** screen, click the [Service Restriction](#) navigator option to go to the **Service Restriction Settings** page.
2. Enter or update the Maximum length of service restriction (in days).
3. Enter or update the Default service restriction length (in days).
4. Click on the  **Save** action button to save the revised Service Restriction Settings.

### Important Notes:

1. If the Maximum length of service restriction is set to "0", it means there's no maximum.
2. If the Default service restriction length is set to "0", it means there's no default set.
