

Long-Term Care Homes & Services

Long-Term Care Homes & Services provides a variety of long-term healthcare services for residents in the City's long-term care homes and for vulnerable individuals who reside in the community. The scope of services provided includes: 10 long-term care homes, providing permanent, convalescent and short-stay admissions; Community support programs, including adult day programs, supportive housing services, and homemaking services. As leaders in excellence and ground-breaking services for healthy aging, we are committed to providing exemplary long-term care services to residents and clients, and to actively participating in the creation of an effective continuum of care through strong partnerships with other health care organizations and community partners.

Long-Term Care Homes

Purpose:

For those who are no longer able to live on their own and require 24-hour nursing and personal care, there are 10 long-term care homes located city-wide that are committed to care. All of our homes offer interdisciplinary medical care in a home-like, inclusive environment. Some of our homes offer specialized services, including behavioural support, language/cultural services, short-stay respite beds and young adult care.

Community-Based Long-Term Care

Purpose:

Support to seniors living in the City of Toronto. We offer a variety of community-based services, which support individuals living in the community to maintain their independence. These community-based services are an integral part of the continuum of care that is available to residents, in order that they receive the right level of care at the right time.

Community programs include Adult Day Programs, Homemakers and Nurses Services and Supportive Housing Services. All of the programs use a health promotion and wellness approach to help individuals maintain their independence and continue living in the community.
