

CAPITAL ANALYST NOTES

Fleet Services

2014 – 2023 CAPITAL BUDGET AND PLAN OVERVIEW

2014 – 2023 Capital Budget and Plan Highlights

Fleet Services manages a City fleet of over 5,000 vehicles and pieces of equipment, oversees 44 fuel sites of which 20 are managed by Fleet Services and 24 by Client Divisions, manages and monitors 10,000 driver permits and conducts an average of 220 vehicle spot checks.

The 10-Year Capital Plan provides funding for the replacement of vehicles and equipment utilized by City Programs and Agencies, excluding the Toronto Police Service Board and the Toronto Transit Commission. Fire Services, Emergency Medical Services, Exhibition Place and Toronto Zoo are included in the Capital Plan but these Programs and Agencies manage their own fleet replacements. The Capital Plan also includes funding for the Green Fleet Plan Project, Fuel Site closures and the Fuel Management System project.

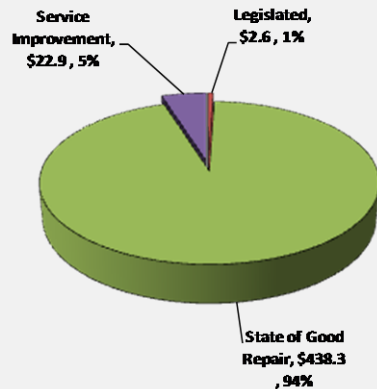

The 10-Year Capital Plan is fully funded from the Vehicle and Equipment Replacement Reserves which are funded by annual contributions in the respective Divisions/Agencies Operating Budgets.

Capital Spending and Financing

2014-2023 Capital Budget and Plan Expenditures
\$463.876 Million
(\$000s)

2014-2023 Capital Budget and Plan by Funding Source
\$463.876 Million
(\$000s)

Where does the money go?

The 2014–2023 Capital Budget and Plan totals \$463.876 million for the following:

- State of Good Repair projects that replace existing vehicles and equipment account for \$438.277 million or 94%;
- Legislated projects for the Green Fleet Plan represent \$2.606 million or 1%; and
- \$22.993 million or 5.0% is allocated to Service Improvement projects such as Fuel Sites Closures, Fleet Management System integration with the Fuel Management System, and Maintenance System Upgrade projects.

Where does the money come from?

The 10-year Capital Plan is fully funded from the Vehicle and Equipment Replacement Reserves and does not require the City's debt as a funding source. The Vehicle and Equipment Replacement Reserves are financed annually by the Programs' budgeted contributions to their Vehicle and Equipment Replacement Reserves from their Operating Budgets.

State of Good Repair Backlog

The 10-Year Capital Plan's spending on State of Good Repair is \$21.058 million which will reduce the backlog from 6.5 % as a percentage of asset value in 2014 to 1.0% in 2023. It is anticipated that the current backlog will be eliminated in 2024. The plan is subject to sufficient funding from the Vehicle Replacement Reserve.

Key Challenges and Priority Actions

State of Good Repair Backlog – over the 10-Year period, SOGR funding for the replacement of existing vehicles and equipment will increase from \$38.417 million in 2014 to \$42.433 million in 2023.

It is anticipated that the City Vehicle and Equipment Replacement Reserve will be in a deficit position of \$5.007 million by the end of 2017. Fleet Services in conjunction with Financial Planning is developing a strategy to ensure the reserve is adequate and sustainable for ongoing replacements, in time for the 2015 Capital Budget process.

2014 Capital Budget Highlights

The 2014 Capital Budget for Fleet Services of \$54.926 million will:

- Continue legislated projects, such as the Green Fleet Plan, an initiative dedicated to lowering emissions and taking advantage of innovative green (\$0.356million);
- Maintain state of good repair through the replacement of vehicles (\$38.417 million), which includes, but not limited to, the following programs: Solid Waste Management (\$9.997 million), Fire Services (\$13.547 million), Transportation Services (\$6.876 million) and Toronto Water (\$4.060 million).
- Continue Service Improvement projects, including:
 - Fleet Management System and Fuel Integration project (\$0.619 million); and
 - City Fuel Sites Closures and upgrades (\$3.103 million).

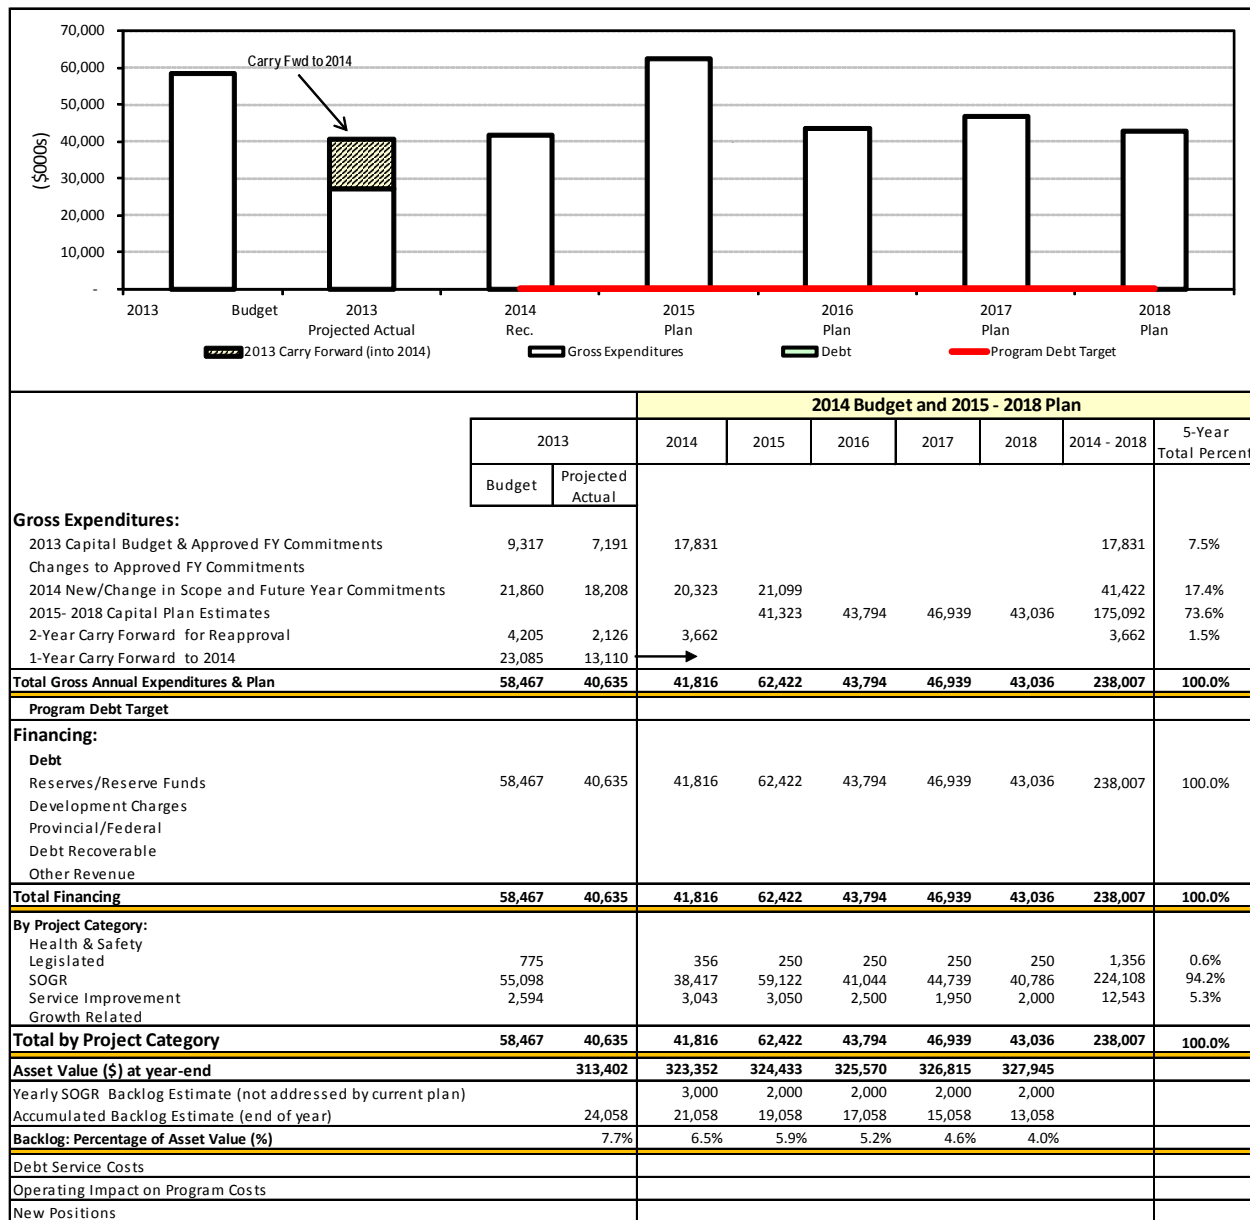

II: COUNCIL APPROVED BUDGET

City Council approved the following:

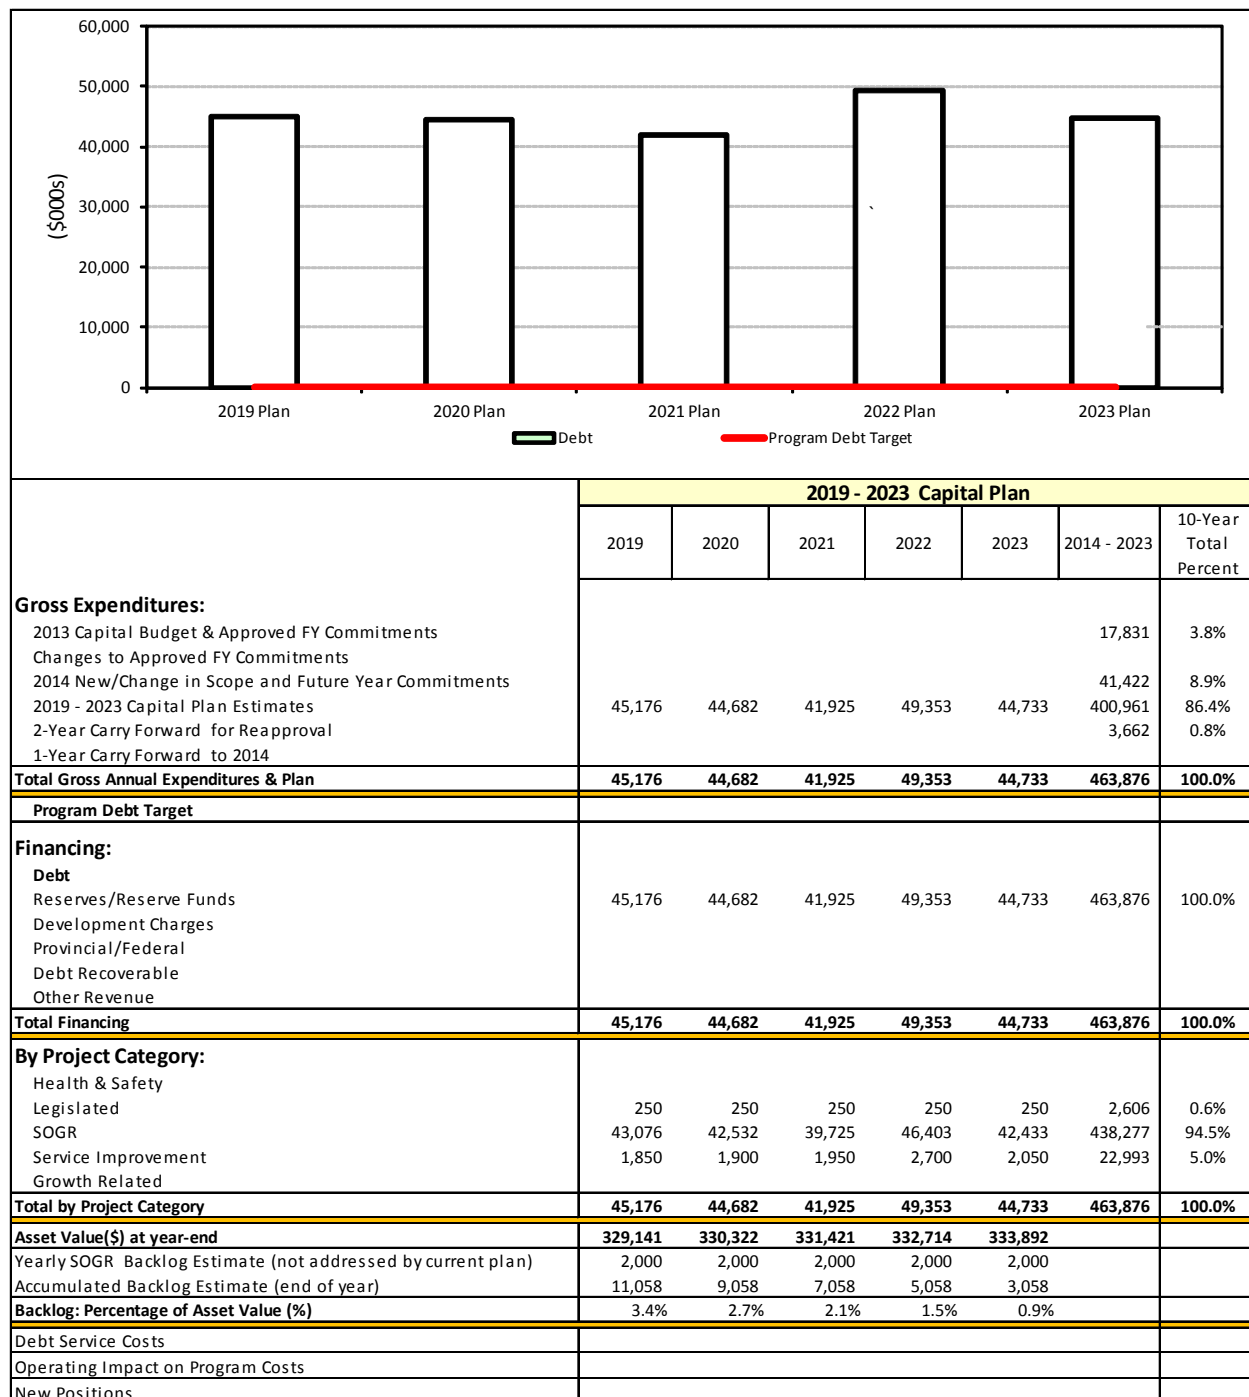

1. City Council approve the 2014 Capital Budget for Fleet Services with a total project cost of \$41.422 million, and 2014 cash flow of \$54.926 million and future year commitments of \$21.099 million comprised of the following:
 - a) New Cash Flow Funding for:
 - i) 21 new / change in scope sub-projects with a 2014 total project cost of \$41.422 million that requires cash flow of \$20.323 million in 2014 and a future year cash flow commitment of \$21.099 million in 2015;
 - ii) 24 previously approved sub-projects with a 2014 cash flow of \$17.831 million;
 - iii) 12 previously approved sub-projects with carry forward funding from 2012 and prior years requiring 2014 cash flow of \$3.662 million that requires Council to reaffirm its commitment; and
 - b) 2013 approved cash flow for 19 previously approved sub-projects with carry forward funding from 2013 into 2014 totaling \$13.110 million.
2. City Council approve the 2015-2023 Capital Plan for Fleet Services totaling \$400.961 million in project estimates, comprised of \$41.323 million in 2015; \$43.794 million in 2016; \$46.939 million in 2017; \$43.036 million in 2018; \$45.176 million in 2019; \$44.682 million in 2020; \$41.925 million in 2021; \$49.353 million in 2022; and \$44.733 million in 2023.
3. The 2014 Capital Budget for Fleet Services be adjusted to agree with Programs' 2014 budgeted contributions to the Vehicles Reserves to reflect any changes to the contributions that may occur during the 2014 Operating Budget review, and the funding availability of the Programs' vehicle reserve account.

III: 10-YEAR CAPITAL PLAN

10 - Year Capital Plan 2014 Budget, 2015 – 2018 Plan (In \$000s)

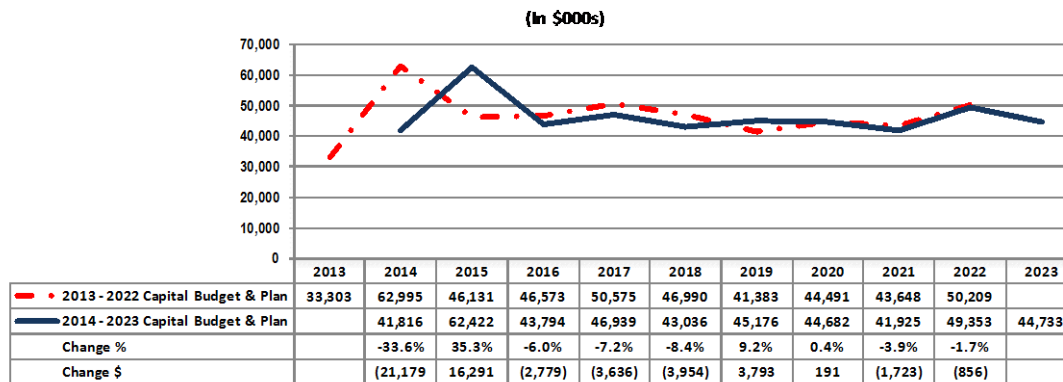

**10 - Year Capital Plan
2019 - 2023 Plan
(In \$000s)**

Key Changes to the 2013 - 2022 Approved Capital Plan

Changes to the 2013 -2022 Approved Capital Plan (In \$000s)

The 2014 Capital Budget and the 2015 - 2023 Capital Plan reflects a decrease of \$13.852 million or 3.2% from the 2013 to 2022 Approved Capital Plan.

The changes to the 2014 – 2023 Capital Plan are based on the following factors:

- Parks Forestry and Recreation – will be decreasing its cash flow funding for the replacement of vehicles and equipment for a total of \$2.762 million. Through effective vehicle and lifecycle management, Fleet Services in conjunction with the Division has been able to extend asset lifecycles without incurring additional maintenance costs.
- Solid Waste – the 2014 Capital Budget and 2015 to 2023 Capital Plan includes a total decrease of \$1.388 million in the vehicle replacement requirements for Solid Waste Management Services (decrease in cash flow funding of \$4.106 million in 2014 to 2018 and an increase of \$2.718 million in years 2019 through to-2022). The residential curbside collection will not be outsourced in District 4 (Scarborough), and therefore the Capital cash flow over the nine year period is adjusted to reflect replacement of vehicles in 2014 - 2023.
- Transportation has decreased its cash flow requirements for vehicles and equipment replacement by \$8.765 million, in years 2014 to 2018, as a result of anticipated changes in operational requirements and the extension of asset lifecycles. Overall, Transportation is anticipating a total decrease in cash flow funding requirements of \$15.918 million over the next nine years.

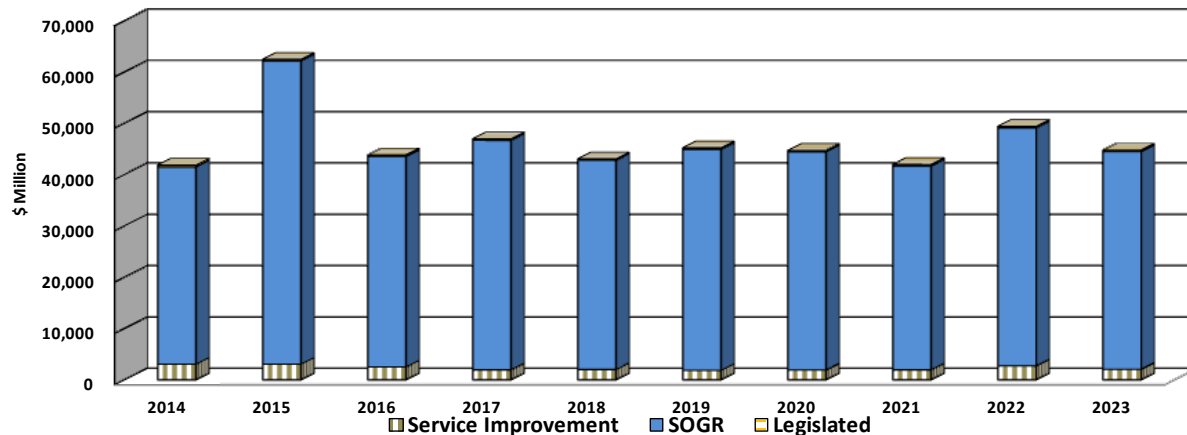

The following chart details the key project cash flow changes to the 2014 – 2022 Approved Capital Plan.

Summary of Project Changes (In \$000s)

	2014		2015		2016		2017		2018		2014 - 2018		2019 - 2023		Total Changes

2014 – 2023 Capital Plan

2014 – 2023 Capital Plan by Project Category
(In \$000s)

- The 10-Year Capital Plan for Fleet Services of \$463.876 million provides funding for Legislated projects of \$2.606 million; State of Good Repair (SOGR) projects of \$438.277 million and Service Improvement projects of \$22.993 million.
- The Legislated project accounts for \$2.606 million or 1% of the 10-Year Capital Plan for the continuation of The Green Fleet project. The Green Fleet project aimed at lowering emissions and taking advantage of innovative green technology to save fuel by purchasing electric vehicles. (\$1.356 million in the first five years and \$1.250 million in the second five years).
- State of Good Repair projects account for \$438.277 million or 95% of the 10-Year Capital Plan for the replacement of vehicles and equipment for all programs and agencies which include Toronto Public Health, Toronto Public Library, Parks Forestry & Recreation, Arena Boards, City Clerks, Economic Development Culture & Tourism, Facilities Management and Real Estate, Information & Technology, Municipal Licensing & Standards, Revenue Services, Solid Waste Management, Technical Services, Transportation Services, Toronto Water, Toronto Zoo, Emergency Medical Services, Exhibition Place, Fire Services and Toronto Community Housing Corporation (\$224.108 million or 51% of the planned cash flow will be spent in the first five years and \$214.169 million or 49% in the second five years).
 - The majority of State of Good Repair projects funding is allocated to the replacement of vehicles for Solid Waste Management (\$115.201 million), Fire Services (\$73.735 million), Transportation Services (\$42.421 million) and Toronto Water (\$53.779 million).
- Service Improvement projects account for \$22.993 million or 5% of the 10-Year Capital Plan (\$12.543 million or 54.5% in the first five years and \$10.450 million or 45.5% in the second five years). The Service Improvement projects include the Fleet Maintenance System upgrade project and the Fleet Management and Fuel Systems Integration project. It also includes the Fuel Sites closure or upgrade projects.

2014–2023 Capital Plan by Funding Source
(In \$000s)

- The 10-Year Capital Plan of \$463.876 million will be financed from the Vehicle and Equipment Reserves established for each City Program and Agency.
- An annual contribution from the Operating Budget of the participating Program or Agency is credited into their respective Reserve account.
 - The amount of the contribution for replacing vehicles acquired in 2005 and prior matches the cost of the replacement, which is referred to a “pay as you go” basis.
 - For vehicles acquired in 2006 and beyond, a monthly chargeback is billed to each City Program or Agency division as their contribution to the Vehicle and Equipment Replacement Reserves based on the estimated useful life of their respective vehicles, end of life salvage value and future replacement costs.
- The 2014 Capital Budget for Fleet Services may be adjusted to agree with City Programs' 2014 budgeted contributions to the Vehicles Reserves to reflect any changes to their contributions during the 2014 Operating Budget review process and the funding availability of the Programs' vehicle reserve account.

Major Capital Initiatives

The 10-Year Capital Plan supports Fleet Services' objective of timely replacement of vehicles and equipment for client Programs and Agencies to ensure continued and effective service delivery.

Legislated Projects

The 10-Year Capital Plan's expenditures include 1% or \$2.606 million allocated to Legislated projects for the continuation of The Green Fleet project. The Green Fleet Project is dedicated to lowering emissions and taking advantage of innovative green technology by replacing vehicles with electric vehicles.

State of Good Repair (SOGR)

- State of Good Repair projects to replace vehicles and equipment for client programs constitute 95% or \$438.277 million, which include Toronto Public Health, Toronto Public Library, Parks Forestry & Recreation, Arena Boards, City Clerks, Economic Development Culture & Tourism, Facilities Management and Real Estate, Information & Technology, Municipal Licensing & Standards, Revenue Services, Solid Waste Management, Technical Services, Transportation Services, Toronto Water, Toronto Zoo, Emergency Medical Services, Exhibition Place, Fire Services and Toronto Community Housing Corporation.

Service Improvement Projects

- Service Improvements projects account for 4% or \$22.993 million of the 10-Year Capital Plan. These include the Fleet Maintenance System upgrade project, Fleet Management and Fuel Systems Integration project and Fuel Site closures or upgrades projects.

State of Good Repair (SOGR) Backlog

SOGR Funding & Backlog
(In \$000s)

The 10-Year Capital Plan dedicates \$224.108 million to SOGR spending in the first five years of the Plan and \$214.169 million over the last five years.

- The backlog at the end of 2013 is estimated to be \$24.058 million. The 2014-2023 Capital Budget and Plan will reduce the backlog annually by \$2.000 million.
- The 10-Year Capital Plan dedicates \$11.000 million to SOGR backlog spending in the first five years of the Capital Plan period and \$10.000 million over the last five years which on average is \$2.000 million annually.
- By the end of 2018, the current SOGR backlog of \$24.058 million will decrease to \$13.058 million or 4.0% of the asset replacement value, with a further decrease over the second 5 years to \$3.058 million or 0.9% of the asset replacement value by the end of 2023. At current rates of spending, it is anticipated that the estimated current vehicle replacement backlog may be eliminated by 2024.
- The SOGR funding and the accumulated backlog estimates to year end fluctuate because vehicle replacements are determined on an estimated average useful life of 8 years.

SOGR Backlog by Asset Category
(In \$000s)

Total	2014	2015	2016	2017	2018	2019	2020	2021	2022	2023
State of Good Repair Funding	38,417	59,122	41,044	44,739	40,786	43,076	42,532	39,725	46,403	42,433
Accumulated Backlog Est. (yr end)	21,058	19,058	17,058	15,058	13,058	11,058	9,058	7,058	5,058	3,058
Backlog %Asset Value	6.5%	5.9%	5.2%	4.6%	4.0%	3.4%	2.7%	2.1%	1.5%	0.9%
Asset Value	323,352	324,433	325,570	326,815	327,945	329,141	330,322	331,421	332,714	333,892

- The 10-Year Capital Plan provides \$2.000 million of funding annually to reduce the backlog. The State of Good Repair Backlog for Fleet Services is defined as the total value of vehicles which have not been replaced at the end of their useful life.
- As indicated in the table above, the backlog as a percent of asset value decreases from 6.5% to 1% by the end of 2023 based on planned spending over the 10 year period.

Capacity to Spend

- In the past 5 years, the average spending rate on capital for Fleet Services is 61%. Its capacity to spend has been affected by the long lead time required to procure specialized vehicles for Fire Services, changes to the expected lifecycles of vehicles resulting in deferrals of replacements and delays pending outcomes of service efficiency studies.
- The low spending rate in 2012 of 47% was mainly due to procurement delays for specialized vehicles (e.g. EMS, Fire Services).
- As part of the 2014 Capital Budget process, Financial Planning Division conducted a review of Fleet Services' capacity to spend, based on historical spending rates and the delays in delivery of specialized vehicles in order to recommend a 10 year capital plan. Fleet Services has also reviewed the operational requirements of the Divisions and Agencies, especially those requiring specialized vehicles and assessed their vehicle inventories and expected life cycles to determine replacements needed to meet present and future operations. The 10 Year Capital Plan reflects the replacement needs based on the reviews, including changes to life cycles and factoring the lead time required to procure specialized vehicles.

IV: 2014 CAPITAL BUDGET

2014 Capital Budget by Project Category and Funding Source

Note: Excludes carry forward funding

The 2014 Capital Budget, excluding funding carried forward from 2013 to 2014, requires new 2014 cash flow funding of \$41.816 million.

- State of Good Repair projects account for \$38.417 million or 91.8% of the 2014 Capital Budget required for the replacement of vehicles and equipment for City Programs and Agencies.
- The Legislated project represents \$0.356 million or 0.9% of the 2014 Capital Budget for the Green Fleet Plan Project.
- Service Improvement projects represent \$3.043 million or 7.3% of the 2014 Capital Budget and include the Fuel Sites Closure projects and the Fleet Management System Integration with the Fuel Management System.
- The 2014 Capital Budget is fully funded from the Vehicles and Equipment Replacement Reserves. The Vehicles and Equipment Reserves are financed by an annual contribution from the Operating Budgets of the participating Programs or Agency into their respective Reserve.

The Fleet Services 2014 Capital Budget is \$54.926 million and provides funding for 2013 previously approved cash flow funding of \$17.831 million, new/change-in-scope funding of \$20.323 million, 2013 carry forward funding of \$13.110 million and 2012 and prior year projects with funding carried forward to 2014 of \$3.662 million.

Approval of the 2014 Capital Budget will result in future year commitment of \$21.099 million in 2015 required for anticipated vehicle deliveries in 2015.

- The 2014 Capital Budget will be fully funded from the Vehicle and Equipment Reserves.

The 2014 Capital Budget provides funding of \$54.926 million to continue to:

- Find and realize efficiencies through right-sizing specifications with clients, including optimizing engine sizes, vehicle weights, utilizing idling shutoff controls, reviewing fuelling operations and standardizing fleet specifications across City Programs and Agencies.
- Implement the City's Green Fleet initiatives. Vehicles will be replaced with green vehicles, giving priority to the technologies that will lower emissions. Environmental benchmarks will be used to measure Toronto's fleet and identify opportunities to reduce fuel consumption, and training on fuel-efficient driving will be provided.
- Implement the Corporate Fuel Site Review recommendations as approved by City Council in 2006, to reduce the number of fuel sites with a view to maintaining a minimum fuel supply to meet strategic and emergency requirements, reduce infrastructure costs, and minimize potential environmental risks.
- Explore different fuel management solutions that will achieve the goal of online, real-time integration between the current fuel management system and fleet management system.

V: ISSUES FOR DISCUSSION

Key Program Issues

Effective Fleet Management Data

The Auditor General's Report entitled 'Reliable Data is Needed for Effective Fleet Management' dated April 18, 2013 included a requirement for the Director of Fleet Services to report to Government Management Committee by December 31, 2013 on steps that can be implemented to significantly improve the accuracy of vehicle odometer readings including any revisions necessary to odometer reading criteria for identifying unusual meter readings.

Odometer and hour meter (used in heavy equipment and vehicles) data is important to effective fleet management because the information is used for maintenance scheduling, utilization monitoring and replacement planning. The accuracy of this data has suffered over the years because of an older fuel information system and manual inputting which is highly subject to errors. Based on current methods, establishing an equivalent level of fuel security and data integrity is predominantly manual and time consuming. Additional effort would be required to develop and review monthly exception reports and manually input records and corrections for both fuel management and meter readings. Based on touch-time analysis, conservative estimates indicate that requirements for the City's Divisions and Agencies, including Fleet Services to manage and administer the manual processes are equivalent to 7.0 FTEs.

Fleet Services investigated several options that could be implemented to improve odometer accuracy. The criteria for selecting a solution included compatibility with the Fleet Management Information System (FMIS), cost effective, elimination of manual inputting and ability to strengthen controls at the fuel pump. The only option meeting all these criteria was a fully integrated module that provided an automated odometer download solution included in the FMIS called Fuel Focus. The automated download solution works seamlessly because as the driver approaches the fuel island, the onboard black box talks to the FMIS system in real-time to verify the unit number, fuel type and tank capacity. These checks strengthen security at the fuel pump because it will not activate without verification. In addition, odometer data is transmitted wirelessly and eliminates manual inputting completely. Finally, this solution was cost effective based on all the features provided.

Subsequently, Fleet initiated the automated odometer download pilot at the City's fuel site located at 1026 Finch Avenue West in August 2013. By the end of Q2 2015, there should be sufficient data to evaluate a 300-vehicle pilot and report back to the Government Management Committee on the results of this initiative. If the pilot project is successful, Fleet Services will at that time, seek authority to proceed with full implementation at a minimum of 17 fuel sites by the end of 2016. As Fleet Services upgrades and retrofits older fuel sites to Super Sites, hardware/software replacements are a required aspect of the upgrade process which has been factored into the capital plan. With 17 fuel sites having automated odometer capture capability

over the next four years, Fleet Services estimates that over 80% of the city's vehicles will have their meter readings captured automatically. For the remaining less than 20% of the units, manual recording/inputting will continue.

The 2014 Fleet Capital Budget includes \$0.300 million, funded through the Fleet Services Corporate Vehicle Replacement Reserve to provide funding for full implementation of the pilot, in addition to the \$0.050 million spent in 2013 to initiate the project. If the pilot project is successful, the cost to rollout the solution to nine (9) fuel sites and 3,500 vehicles and pieces of equipment between 2013 and 2016 is estimated at \$1.7 million.

The report entitled "Improving the Accuracy of Vehicle Meter Data" was considered at the November 21, 2013 Government Management Committee. The following was recommended:

1. City Council request the Director, Fleet Services, to implement a Monthly Odometer Submission process on a pilot basis with the divisions(s) for units not being captured by the Automated Odometer Download solution.
2. City Council request the Director, Fleet Services, to report the results of the Automated Odometer Download solution to the Government Management Committee by the end of the second quarter of 2015.

The report can be viewed in the link below.

<http://www.toronto.ca/legdocs/mmis/2013/gm/bgrd/backgroundfile-63523.pdf>

Issues Referred to the Budget Process:

Vehicle Capital Reserve Contributions Shortfalls

At its meeting held on September 9, 2013, the Government Management Committee, in considering item GM24.15 – 2014 Service Level Review – Government Management Committee Programs, adopted a recommendation requesting that "the Chief Corporate Officer report back to the Government Management Committee on which divisions have not been committing sufficient capital reserve contributions for vehicle replacements and also what the replacement/sustainability concerns and increased costs are."

The report decision can be accessed at:

<http://app.toronto.ca/tmmis/viewAgendaItemHistory.do?item=2013.GM24.15>

Fleet Services manages the vehicle and equipment replacement for 20 City Programs and Agencies. In order to continuously provide safe and reliable vehicles and equipment in a cost efficient manner, the timely and ongoing replacement of vehicles and equipment which strikes the optimum balance between depreciating asset value/re-sale value and rising repair costs/decreased reliability is essential. In 2005, City Council directed all programs to commit to the policy of contributing to the Vehicle Equipment Replacement Reserve (the Reserve) for all

new purchases commencing in 2006 to sustain the ongoing replacements. As part of the current annual budget process, Fleet Services recommends and provides estimates on the minimal amount of contributions to the Reserve to the Divisions to include in their operating budgets for the submission year. The recommended contributions are based on the difference between the future replacement cost and the end of life salvage value, divided by the projected useful life (in years or months).

Due to constraints in order to meet budget targets, some divisions have recently been decreasing their budgeted contributions to the Reserve. The forecast for contributions to and withdrawals from the Reserve based on current contribution levels and future required replacements indicates net deficits for 2013 and 2014, but positive balances for at the end of both 2013 and 2014 (annual net deficit will be funded by reserve balances). It also indicated that each Division's and Agencies' reserve accounts will have projected negative reserve balances in future years. By the end of 2017, the total balance of the City Vehicle and Equipment Replacement Reserves will be in a deficit position of \$5.004 million. At the end of 2023, assuming no corrective action taken, the total vehicle and equipment reserves will be in a deficit position of \$54.868 million.

The following table provides the continuity schedule of the breakdown of the Vehicle and Equipment Replacement Reserves:

Corporate Vehicle & Equipment Reserve Summary (000's)					
Year	Projected Opening Balance	Estimated Contribution	Estimated Capital Plan	Net Contribution (Deficit)	Projected Closing Balance
2013	59,437	32,548	(51,779)	(19,532)	40,206
2014	40,206	33,335	(35,954)	(2,619)	37,587
2015	37,587	33,616	(58,972)	(25,356)	12,231
2016	12,231	33,376	(40,894)	(7,518)	4,713
2017	4,713	34,873	(44,589)	(9,716)	(5,004)
2018	(5,004)	34,416	(40,636)	(6,220)	(11,224)
2019	(11,224)	34,121	(42,926)	(8,805)	(20,029)
2020	(20,029)	33,790	(42,382)	(8,592)	(28,621)
2021	(28,621)	33,776	(39,575)	(5,779)	(34,420)
2022	(34,420)	34,019	(46,253)	(12,234)	(46,654)
2023	(46,654)	34,069	(42,283)	(8,214)	(54,868)
Total	59,437	371,939	(486,243)	(114,605)	(54,868)

The impacts of not replacing vehicles at their recommended time or end of their useful life include:

- Increased maintenance repair costs resulting from deferring the replacement of vehicles and equipment past the optimum life cycle.
- Increased vehicle downtime resulting in lost productivity.

- The cost of a temporary rental unit, if available resulting from the unit being deemed beyond economical repair or if unavailable, may result in disruptions to City services.
- Substantial financial pressure on future year operating budgets to fund the backlog on the replacement program.

Fleet Services will explore options in consultation with Financial Planning and the Divisions to ensure that there is sufficient funding for the replacement activities. Options may include:

- The utilization and rationalization of the current fleet complement;
- Extending vehicle life cycles;
- Increasing reserve contributions; and
- A combination of the above.

The agreed upon and confirmed strategy will be included in the 2015 Budget Process.

In the meantime, Fleet Services continues to provide training and education to client Divisions on proper use and maintenance of vehicles and equipment. Through effective vehicle and lifecycle management, Fleet Services in conjunction with the Divisions have been able to extend asset lifecycles, which has mitigated the incurrence of any increased costs while meeting safety standards. Going forward, timely replacement of assets must continue in effort to ensure that increased operating costs are not recognized as a result of delayed replacement due to a shortage of capital funds.

A report providing further details of the above entitled "Vehicle Capital Reserve Contributions and Shortfalls" has been submitted to Government Management Committee on November 21, 2013. The report can be viewed in the link below.

<http://www.toronto.ca/legdocs/mmis/2013/gm/bgrd/backgroundfile-63521.pdf>

Appendix 1

2013 Performance

2013 Key Accomplishments

In 2013, Fleet Services accomplished the following:

- ✓ Continued to co-ordinate with client Divisions and Purchasing & Materials Management Division to expedite vehicle procurement to reduce overall costs to the City.
- ✓ Upgraded/Replaced 322 vehicles.
- ✓ Initiated the Pilot Project at the Finch Fuel Site. The fuel system provides real time fuel data, odometer readings and increased control.
- ✓ Installed a slow fill compressed natural gas station at Ellesmere Yard for the natural gas powered garbage packers.
- ✓ Completed the upgrade of two fuel sites with above ground fuel storage tanks that will minimize the risk of soil contamination and the closure of 5 below ground fuel site.

2013 Capital Variance Review

2013 Budget to Actual Comparison (In \$000s)

2013 Approved	Actuals as of Sept. 30, 2013 (3rd Quarter Variance)		Projected Actuals at Year End		Unspent Balance	
\$	\$	% Spent	\$	% Spent	\$ Unspent	% Unspent
56,670	23,067	40.7%	35,040	61.8%	21,630	38.2%

Capital expenditures for the 9 months ending September 30, 2013 totaled \$23.067 million or 40.7% of the 2013 Approved Capital Budget of \$56.670 million. Fleet Services is projecting \$35.040 million or 61.8% of its 2013 Approved Capital Budget to be spent by year end.

The projected year-end under-spending is largely attributable to the following projects:

- The Fire Services Fleet Replacement project's capital expenditures totalled \$10.613 million representing 65.6% of the 2013 approved cash flow of \$16.183 million during the nine months ending September 30, 2013. Project spending is lower than planned in the third quarter of 2013 due to a delay in obtaining specialized fire vehicles as a result of the significant lead time required in the production of the vehicles. It is estimated that \$10.996 million or 68.0% of the 2013 approved cash flow will be spent by year-end. The unspent funds of \$5.187 million will be carried forward to 2014.
- The Transportation Services Fleet Replacement project's capital expenditures at year end is \$3.096 million or 44.0% of the 2013 approved cash flow, mainly due to the program

reviewing its operational requirements and reassessing their vehicles for replacement. The unspent funds of \$3.934 million will be carried forward to 2014.

- The Fuel Site Closures and Upgrades project's capital expenditures totalled \$0.411 million, with a 2013 approved cash flow of \$3.185 million. Spending is lower than planned primarily due to the delay in upgrading the 50 Booth Street Site. A feasibility study that was conducted identified that the fuel islands that were to be constructed were not meeting the current operational requirements. Another site in the area, which meets the requirements, has been identified and a tender to begin construction on this site is in process. It is estimated that \$1.669 million of the 2013 approved cash flow will be spent by year-end. The unspent funds of \$1.516 million will be carried forward to 2014.
- The Toronto Water Fleet Replacement project's capital expenditure totalled \$1.667 million of the 2013 approved cash flow of \$3.776 million. Project spending is lower than planned due to the changes to the expected life cycle of the program's vehicles resulting in the deferral of their replacements. It is estimated that \$1.921 million of the 2013 approved cash flow will be spent by year-end. The unspent funds of \$1.855 million will be carried forward to 2014.
- The 2014 Capital Budget includes carry forward funding of \$13.110 million. This amount may be adjusted as a result of actual results at year end.
