

## Infrastructure and Development Services

Toronto Water is responsible for providing services to Toronto residents and businesses including water treatment and supply (also to parts of York Region); wastewater collection and treatment (also to a portion of Peel Region); and stormwater management. The division maintains and services assets worth approximately \$28 billion, some of which includes four water and four wastewater treatment plants, approximately 6,000 kilometers of watermains, 4,100 kilometers of sanitary sewers, 5 000 kilometers of storm sewers and 1,400 kilometers of combined sewers.

## Water Treatment & Supply

We treat, transmit, store and distribute potable (drinkable) water to all industrial, commercial and household water users in the City of Toronto. We also deliver water to a major portion of the Region of York. Our challenge is to meet water demands throughout the year, complying with provincial regulations and working responsibly to protect the environment and local water bodies.
