Public Health's activities are primarily focused on disease prevention, health protection and health promotion and are governed by the Health Protection and Promotion Act. The programs and services provided by Public Health take into account the determinants of health (i.e. income, housing, physical and social environment) and individual risk factors. Mandated services and programs include communicable disease control, family health, chronic disease and injury prevention, and environmental health.

*Note*: The Medical Officer of Health reports to City Council through the Board of Health.
