Solid Waste Management Services

Solid Waste Management Services is responsible for collecting, transporting, processing, composting and disposing of municipal and private sector solid waste, recyclables, organics, electronics waste and household hazardous waste. The division manages four collections yards, one maintenance yard, seven transfer stations and six household hazardous waste depots, one single stream recycling facility, two organics processing facilities, Green Lane Landfill and 160 former landfills.

Policy, Planning & Outreach

Policy, Planning & Outreach is responsible for monitoring trends in the solid waste industry advising on policy, planning of new programs, program enhancements and new technologies. It provides technical review and comments on internal and external regulations, legislation, statutes and policies.

The section coordinates research, design and drafting of harmonized programs, policies, eligibility criteria and bylaws to support operations. In addition to working with various orders of government to coordinate new policies and programs and their impacts to residents of Toronto, the section is also responsible for community and stakeholder outreach, working closely with the media to provide messaging on new and upcoming policy/program changes, as well as setting guidelines and policies for health and safety and environmental compliance for the entire Division. It also focuses on establishing Toronto as the first municipality in Ontario to have a Circular Economy.

Business Services
The Business Services section manages the Division’s financial planning, accounting, 
procurement, contract management and IT related functions. The Section is responsible for 
developing and submission of the Division's Operating and Capital budgets, 
monitoring and reporting on budget variances, and managing the Division’s accounting related 
activities. The Section is also responsible for developing and managing divisional 
procurement plans and providing support in executing all procurement initiatives. In 
addition, the Section manages the Division's contract portfolio including oversight and 
administration of contract life-cycle, management and compliance related activities. 
Finally, the Section provides internal IT support and is responsible for managing the 
development, implementation and sustainment of Divisional IT assets and applications.

Collections and Litter Operations
(City-Wide)

Collections and Litter Operations provides collection of Garbage, Blue Bin Recycling, Green Bin Organics, Yard Waste, Oversized and Metal Goods for single family homes, multi-residential properties, non-residential customers (e.g. charities), City Divisions, Agencies and Corporations, Institutions and small Commercial establishments.

We also provide litter cleaning operations on sidewalks across the City, and service Litter Receptacles throughout city streets and parks. In addition, we provide services to Special Events, including providing Blue and Green Bins and collection of the materials.

Our Customer Service and Waste Diversion Operations Unit was established to support the Division in its goal of improving customer service and implementing new diversion initiatives.

Community Environment Day events are also overseen by Collections and Litter Operations.

Infrastructure & Resource Management

Responsible for the division’s physical assets throughout their complete lifecycle, from initial design and construction; to commissioning and start-up; to meeting major maintenance and rehabilitation requirements during the life of the asset; to the eventual retirement and disposal of the asset. In addition, the section is responsible for the management of contracts for processing of recycling, organics, yard waste, mattresses and porcelain from the City’s collection programs as well as the sales of separated recyclables to market. Materials are transferred to various facilities (City-owned and non City-owned) for processing and sales.

This section oversees roughly $600 million in assets consisting of 13 maintenance and operating yards, seven transfer stations and household hazardous waste depots, two Organics Processing Facilities, over 750 fleet assets; and over 1.5 million bins and carts.

Transfer Station and Landfill Operations

Responsible for managing the operation and maintenance of the City's network of Seven (7) transfer stations, six (6) HHW depots, Haulage logistics & Roll Off services, the Green Lane Landfill, and numerous closed landfill sites. The Unit is also responsible for the maintenance and repairs of thirteen (13) operating and maintenance yards.

The 7 transfer stations are strategically located across the City to allow for the efficient and cost effective receipt and transfer of all recycling, organics, yard waste, e-waste, household hazardous waste, and residual waste from the City's collection programs as well as business owners and residents of the City of Toronto. The waste materials are loaded onto tractor trailers and transferred to various processing facilities and/or to landfill for final disposal.
