Urban Forestry

Plant a Tree, Grow a Forest

Toronto's diverse urban forest is the vital green infrastructure that creates healthy neighbourhoods, supports habitat and biodiversity, promotes clean air and water, offers opportunities for recreation and education, fosters economic prosperity and enhances quality of life for everyone in the city.

Toronto's urban forest currently covers approximately 26.6 - 28% of the city. There are roughly 6.1 million trees on private property and 4.1 million trees on public property, for a total of 10.2 million trees.

The City of Toronto is planning to reach the goal of 40% canopy cover over the next 40-50 years through maintaining, planting and protecting our urban forest. But we all have an important role to play in caring for this shared resource. Find out more about how you can help to grow a forest.
