Appendix 5: 2013 Capital Projects with Financing Details.....	25
Appendix 6: 2013 Reserve / Reserve Fund Review.....	26

PART I: 2013 CAPITAL BUDGET AND PLAN

City Council approved the following recommendations:

1. City Council approve the 2013 Capital Budget for Fleet Services with a total project cost of \$39.029 million, and 2013 cash flow of \$44.884 million and future year commitments of \$17.831million comprised of the following:
 - a) New Cash Flow Funding for:
 - i) 23new / change in scope sub-projects with a 2013 total project cost of \$39.029 million that requires cash flow of \$21.198 million in 2013 and a future year cash flow commitment of \$17.831 million in 2014;
 - ii) 7 previously approved sub-projects with a 2013 cash flow of \$9.979 million;
 - iii) 22 sub-projects from previously approved projects with carry forward funding from 2011 and prior years requiring 2013 cash flow of \$2.126 million that requires City Council to reaffirm its commitment; and
 - b) 2012 approved cash flow for 12 previously approved sub-projects with carry forward funding from 2012 into 2013 totaling \$11.581 million.
2. City Council approve the 2014-2022 Capital Plan for Fleet Services totaling \$415.164 million in project estimates, comprised of \$45.164 million in 2014; \$46.131 million in 2015; \$46.573 million in 2016; \$50.575 million in 2017; \$46.990 million in 2018; \$41.383 million in 2019; \$44.491 million in 2020; \$43.648 million in 2021; and \$50.209 million in 2022.
3. The 2013 Capital Budget for Fleet Services be adjusted to agree with Programs' 2013 budgeted contributions to the Vehicles Reserves to reflect any changes to the contributions that may occur during the 2013 Operating Budget review, and the funding availability of the Programs' vehicle reserve account.

10-Year Capital Plan Overview

- The 10-Year Capital Plan provides funding for the replacement of vehicles and equipment utilized by City Programs and Agencies, excluding the Toronto Police and Toronto Transit Commission. While Fire Services, Emergency Medical Services, Exhibition Place and Toronto Zoo needs are included in the Capital Plan, these Programs manage their own fleet and their replacements.
- Fleet Services manages a City fleet of over 4,600 vehicles and pieces of equipment, oversees 54 fuel sites of which 20 are managed by Fleet Services and 34 by Client Divisions, processes an average of 31,500 repair orders annually, manages and monitors 10,000 driver permits annually and conducts an average of 220 vehicle spot checks annually.
- The 10-Year Capital Plan totals \$466.298 million, excluding 2012 carry forward funding into 2013 of \$11.581 million, of which \$239.577 million is planned for the first 5 years, with the final 5 years requiring funding of \$226.721 million.
- The 10-Year Capital Plan is fully funded from the Vehicle and Equipment Replacement Reserves and does not require the City's debt as a funding source. The Vehicle and Equipment Replacement Reserves are financed annually by the Programs' budgeted contributions to their Vehicle and Equipment Replacement Reserves from their Operating Budgets.
- 95% or \$442.696 million of the 10-Year Capital Plan's expenditures are allocated to State of Good Repair projects that replace existing vehicles and equipment. 1.0% or \$2.997 million is allocated to Legislated projects for the Green Fleet Plan, and 4.0% or \$20.605 million is allocated to Service Improvement projects such as the Fuel Sites Closures, the Fleet Management System integration with the Fuel Management System, and the Maintenance System Upgrade projects.
- The SOGR backlog is estimated to be \$23.278 million or 7.4% of asset replacement value by December 31, 2012. The SOGR backlog is targeted to decrease by \$2.000 million each year over the 10-Year Capital Plan to \$3.278 million or 1% of asset replacement value by 2022.
- The 10-Year Capital Plan incorporates corporate capital priority actions such as:
 - Continuation of the Green Fleet initiatives to lower emissions and save fuel by taking advantage of innovative green technology.
 - The Green Fleet Plan requires funding of \$2.997 million over the next 10 years to provide for the incremental costs of replacing existing vehicles and equipment with a greener fleet. New technologies are expected to impact the replacement of vehicles and equipment in the next 10 years.
- Fleet Services' client Divisions may have emerging service priorities, future year service level changes, and constraints on funding availability, which could impact future year planned estimates.

Key Changes to the 2012 - 2021 Approved Capital Plan

Changes to the 2012 -2021 Approved Capital Plan
(In \$000s)

The 2013 Capital Budget and the 2014 - 2022 Capital Plan reflect an increase of \$18.438 million or 4.6% from the 2013 to 2021 Approved Capital Plan.

The major changes to the 2012-2021 Approved Capital Plan are outlined below:

- Cash flow funding for the replacement of Solid Waste Management Service vehicles has been increased by \$20.514 million. The residential curbside collection will not be outsourced in Districts 3 and 4, and therefore, the 10-Year Capital Plan reinstates cash flow funding for this purpose.
- Several Programs have reduced their cash flow requirements for vehicles and equipment replacement as a result of right sizing their fleet inventories and ensuring that all vehicles on hand are required and fully utilized.
- An increase in funding totaling \$4.605 million for the transfer of ownership and management of the Toronto Community Housing Corporation's (TCHC) fleet to the City of Toronto, Fleet Services.
- The following chart details the key project cash flow changes to the 2012 – 2021 Approved Capital Plan.

2013 – 2022 Capital Plan

2013–2022 Capital Plan by Project Category
(In \$000s)

The 10-Year Capital Plan of \$466.298 million provides funding for Legislated projects of \$2.997 million; State of Good Repair (SOGR) projects of \$442.696 million and Service Improvement projects of \$20.605 million.

- Legislated projects account for 1% or \$2.997 million of the total 10-Year Capital Plan's expenditures.
 - \$1.747 million for Legislated projects is included in the first five years of the 10-Year Capital Plan.
 - In the second five years, \$1.250 million is provided for Legislated projects.
 - Funding is provided to upgrade vehicle replacement to a hybrid or other environmentally friendly upgrade. The need to provide upgrade funding decreases over the 10 year period as the City's fleet transitions to being fully fuel efficient.
- State of Good Repair (SOGR) projects make up the largest category of projects in the Fleet Services' 10-Year Capital Plan with funding totaling \$442.696 million or 95% of the total planned cash flow of \$466.298 million for the replacement of vehicles and equipment for client Programs.
 - \$227.625 million or 51% of the planned cash flow for SOGR projects will be spent in the first 5 years.
 - \$215.071 million of 49% of the total cash flow is dedicated to SOGR projects in the second five years of the plan.
 - The major State of Good Repair projects for the replacement of vehicles include Solid Waste Management (\$110.991 million), Fire Services (\$78.027 million), Transportation Services (\$61.675 million) and Toronto Water (\$47.321 million).

- Service Improvement projects total \$20.605 million or 4% of the total planned expenditures in the 10-Year Capital Plan. Funding for these projects will support the upgrade and closure of City fuel sites.
 - Key Service Improvement projects include the Fleet Management System, Fuel Integration project, Fuel Sites Closures and the Fleet Maintenance System upgrade project.
 - \$10.205 million or 49.5% of planned funding is provided in the first five year period.
 - \$10.400 million or 50.5% is provided in the second five year period.

**2013–2022 Capital Plan by Funding Source
(In \$000s)**

The 10-Year Capital Plan of \$466.298 million will be fully financed from the Vehicles and Equipment Reserves established for each Program and Agency.

- An annual contribution from the Operating Budgets of the participating Program or Agency is credited into their respective Reserve account. The amount of the contribution for replacing vehicles acquired in 2005 and prior will match the cost of the replacement, which is referred to as “pay as you go” basis.
- For vehicles acquired in 2006 and beyond, a component of the chargeback rate billed monthly by Fleet Services to the Programs will be used to contribute to the Vehicle and Equipment Replacement Reserves for the replacement of these vehicles. An accounting entry is processed each month to transfer the reserve component to the respective Vehicle and Equipment Replacement Reserves.
- The 2013 Capital Budget for Fleet Services may be adjusted to agree with City Programs' 2013 budgeted contributions to the Vehicles Reserves to reflect any changes to their contributions during the 2013 Operating Budget review and the funding availability of the Programs' vehicle reserve account.

The 10-Year Capital Plan supports Fleet Services' objectives of timely replacement of vehicles and equipment for client Programs to ensure continued and effective service delivery.

Legislated Projects

- 1% or \$2.997 million of the 10-Year Capital Plan's expenditures are allocated to Legislated projects for the continuation of The Green Fleet project to lower emissions and save fuel by taking advantage of innovative green technology.

State of Good Repair Projects

- 95% or \$442.696 million of the 10-Year Capital Plan is funding allocated to State of Good Repair projects to replace vehicles and equipment for client programs including:
 - Arena Boards, City Clerks, Economic Development Culture & Tourism, Facilities Management and Real Estate, Toronto Public Library, Information & Technology, Municipal Licensing & Standards, Parks Forestry & Recreation, Toronto Public Health, Revenue Services, Solid Waste Management, Technical Services, Transportation Services, Toronto Water, Toronto Zoo, Emergency Medical Services, Exhibition Place, Toronto Community Housing Corporation and Fire Services.
 - Fleet Services replaces an average of 350 units a year.
 - It is anticipated that 9 Litter Vacuums, 33 Packers, 118 Pick-ups, 93 Vans/Sedans, 59 Trucks, 22 Equipment items and 72 Off Road Vehicles totaling 406 units, will be replaced in 2013.

Service Improvement Projects

- 4% or \$20.605 million of the 10-Year Capital Plan's expenditures for Service Improvements projects. These are comprised of the Fuel Sites closure or upgrade projects to reduce infrastructure costs and minimize the risk of soil contamination. Also included are the Fleet Maintenance System upgrade, and the Fleet Management and Fuel Systems Integration projects to facilitate real time monitoring and data flow for better service delivery.

State of Good Repair (SOGR) Backlog

The 10-year Capital Plan dedicates \$227.625 million to SOGR spending in the first 5 years of the Plan and \$215.071 million over the last five years which is an average of \$2.000 million annually.

- The 10-Year Capital Plan dedicates \$10.000 million to SOGR backlog spending in the first five years of the Capital Plan period and \$10.000 million over the last five years which on average is \$2.000 million annually.
- By the end of 2017, the current SOGR backlog of \$23.278 million will decrease to \$13.278 million or 4.2% of the asset replacement value, with a further decrease over the second 5 years to \$3.278 million or 1.0% of the asset replacement value by the end of 2022. At current rates of spending, it is anticipated that the estimated current vehicle replacement backlog may be eliminated by 2024.
 - The SOGR funding and the accumulated backlog estimates to year end fluctuate because vehicle replacements are determined on an estimated average useful life of 8 years.

Asset Value	314,748	313,402	315,263	316,178	316,411	318,799	320,050	319,690	320,570	321,007	322,390

- The 10-Year Capital Plan provides \$2.000 million of funding annually to reduce the backlog. The State of Good Repair Backlog for Fleet Services is defined as the total value of vehicles which have not been replaced at the end of their useful life.
 - The table shows that as a result of the annual provision, the backlog as a percent of asset value decreases from 6.8% to 1% by the end of 2022 based on planned spending over the 10 year period.

- The 2012 year end estimated accumulated SOGR backlog of \$23.278 million is mainly attributed to the following programs: Transportation (\$12.428 million); Parks Forestry & Recreation (\$5.339 million); Solid Waste (\$2.677 million) and Toronto Water (\$1.688 million).

PART III - 2013 CAPITAL BUDGET

2013 Capital Budget by Project Category and Funding Source

The 2013 Capital Budget, excluding funding carried forward from 2012 to 2013, requires 2013 cash flow funding of \$33.303 million.

- 95% or \$31.801 million is comprised of State of Good Repair projects required for the replacement of vehicles and equipment for Programs and Agencies.
- 2.0% or \$0.597 million is allocated to the Green Fleet Plan project, categorized as a Legislated project.
- 3% or \$0.905 million is allocated to Service Improvement projects such as the Fuel Sites Closures and the Fleet Management System Integration with the Fuel Management System.
- The 2013 Capital Budget is fully funded from the Vehicles and Equipment Replacement Reserves. The Vehicles and Equipment Reserves are financed by an annual contribution from the Operating Budgets of the participating Programs or Agency into their respective Reserve.
- Each Program or Agency's annual contributions to the Vehicle and Equipment Replacement Reserve must ensure the adequacy of the reserve account to fund the replacement of those vehicles in the current year.
- To ensure the adequacy of the Reserves to fund the Programs' fleet replacement, each Program is provided by Fleet Services, a list of proposed vehicle replacements for the next five year period, based on the age of the vehicle at the start of the budget process.
 - The finalized list establishes the funding required for the Program's vehicle replacement for the fiscal year and estimates over the 10-Year Capital Plan period.

- Each Program is also provided a statement of its reserve account showing the uncommitted funds available for the following fiscal year.
- The Program is able to plan the amount of contribution to its Vehicles and Equipment Reserve account from their Operating Budget.

Provincial/Federal																
Total Financing	2,126	9,979	21,198	33,303	11,581	44,884	17,831									62,715

The 2013 Capital Budget is \$44.884 million and includes projects with 2012 funding of \$11.581 million carried forward to 2013, funding of \$2.126 million for 2011 and prior years funding; new/change-in-scope funding of \$21.198 million and 2012 previously approved cash flow funding of \$9.979 million.

- The change in scope project funding of \$0.250 million reflects the additional funding required for the previously approved Fleet and Fuel Management Systems integration project to facilitate real time monitoring and data flow for better service delivery.
- Approval of the 2013 Capital Budget will result in a future year commitment of \$17.831 million in 2014. This is the required cash flow funding for expected vehicle deliveries in 2014.
- The 2013 Capital Budget is fully funded from the Vehicle and Equipment Reserves.

2013 Capital Project Highlights

The 2013 Capital Budget provides funding of \$44.884 million to:

- Continue to seek out efficiencies through right-sizing specifications with clients, including optimizing engine sizes, vehicle weights, utilizing idling shutoff controls, reviewing fuelling operations and standardizing fleet specifications across Divisions.
- Continue to implement the City's Green Fleet initiatives. Vehicles will be replaced with green vehicles, giving priority to the technologies that save the greatest quantity of fuel; environmental benchmarks will be used to measure Toronto's fleet and identify opportunities to reduce fuel consumption; and training on fuel-efficient driving will be provided.
- Continue to implement the Corporate Fuel Site Review recommendations as approved by City Council in 2006, to reduce the number of fuel sites with a view to maintaining a minimum fuel supply to meet strategic and emergency requirements, reduce infrastructure costs, and minimize potential environmental risks.
- Continue to explore different fuel management solutions that will achieve the goal of online, real-time integration between the current fuel management system and fleet management system.
- Continue to work with client Divisions to establish, review or update service level agreements to ensure delivery of services that meet customer and business needs.
- Complete the replacement of 406 units which consists of 9 Litter Vacuums, 33 Packers, 118 Pick-ups, 93 Vans/Sedans, 59 Trucks, 22 Equipment items and 72 Off Road Vehicles. By Program, replacements are: Parks Forestry & Recreation (137 units), Transportation Services (92 units), Solid Waste Management (78 units), Toronto Water (28 units), Facilities Management & Real Estate (24 units) and Municipal Licensing & Standards (18 units). Fleet Services replaces an average of 350 units annually.

PART IV: ISSUES FOR DISCUSSION

2013 Issues*Fleet Rationalization*

Fleet Services manages a fleet of approximately 4,600 vehicles and equipment for client Divisions. Fire Services and Emergency Medical Services manage their own fleet. As part of the continuing efforts to reduce fleet maintenance and fuel costs, Fleet Services has been working closely with the client Divisions to right-size and to reduce the size of their fleet inventory, ensuring that all vehicles on hand are required and fully utilized.

At the start of the annual budget process, Fleet Services provides Divisions with information on their fleet inventory. Each quarter, Fleet Services provides updated lists of vehicles that have usage less than the equivalent of 7,500 kilometres per year. Each Division reviews these vehicles with low usage and determines whether the vehicle needs to be retained in the inventory or returned to Fleet Services for redeployment or disposal. The Divisions are continually working with Fleet Services in order to right-size their fleet inventory. Due to fiscal constraints, some Divisions have significantly reduced their contributions to their respective vehicle reserves affecting their future years' replacement programs.

Fleet Services will continue to seek other opportunities with Divisions to further reduce their fleet and increase the utilization of their vehicles as a result of the core service reviews and service efficiencies studies conducted for the Divisions.

The Transfer of Fleet Management Responsibilities from the Toronto Community Housing Corporation (TCHC) to Toronto Fleet Services

At its meeting of June 6, 7 and 8, 2012, City Council adopted the report entitled "Toronto Community Housing Corporation (TCHC) – Response to three Auditor General's Reports (a) Procurement and Payment Functions at TCHC Subsidiary – Housing Services Inc.; (b) Strengthening of TCHC Oversight of Subsidiaries and Other Business Interests; and (c) Fleet Management Control Deficiencies".

City Council directed the Director of Fleet Services of the City of Toronto and the Chief Executive Officer of TCHC to report to the Government Management Committee on a process to integrate the TCHC's automotive fleet into the City's fleet. City staff from Legal Services, Fleet Services and Corporate Finance met with TCHC staff to discuss the transfer of fleet responsibilities for approximately 200 light-duty vehicles from TCHC to the City. It was anticipated during these discussions that the transfer of management and ownership could commence as early as January 1, 2013 or soon thereafter.

At its meeting of November 27, 2012, City Council adopted the report entitled "Toronto Community Housing Corporation (TCHC) Vehicle Reserve – Transferring Fleet Management Responsibilities to Toronto Fleet Services". The City of Toronto has assumed ownership of TCHC's Fleet. It will provide TCHC access to lower prices for vehicles, fuel, parts and insurance and TCHC will adopt Council and Fleet Services approved policies and procedures. The transfer

of ownership and management of TCHC's fleet to the City will result in savings of approximately \$2.6 million in Operating and Capital expenses over a five year period for TCHC.

Appendix 1

2012 Performance

2012 Key Accomplishments

In 2012, Fleet Services accomplished the following:

- ✓ Continued to increase the City's Fleet of Green Vehicles, bringing the total to 671 vehicles.
- ✓ Installed slow fill compressed natural gas stations at the Ellesmere Yard for the City's three natural gas powered garbage packers.
- ✓ Upgraded two fuel sites with above ground fuel storage tanks that will minimize the risk of soil contamination
- ✓ Replaced 283 vehicles.
- ✓ Worked with Divisions to identify their current long-term vehicle leases, and assisted them in moving towards owning instead of long-term leasing of vehicles. This resulted in the purchase of eight vehicles for the purpose of replacing long term leases.
- ✓ Purchased and delivered a mobile dental clinic bus for Public Health. This supported the Healthy Smiles Ontario Program in promoting access to dental care for eligible children and youth who are in under-serviced areas.

2012 Capital Variance Review**2012 Budget to Actual Comparison
(In \$000s)**

2012 Approved	Actuals as of Sept. 30, 2012 (3rd Quarter Variance)		Projected Actuals at Year End		Unspent Balance	
\$	\$	% Spent	\$	% Spent	\$ Unspent	% Unspent
51,871	13,262	25.6%	35,075	67.6%	16,796	32.4%

Capital expenditures for the period ending September 30, 2012 totaled \$13.262 million or 25.6% of the 2012 Approved Capital Budget of \$51.871 million. The Program is projecting spending of \$35.075 million or 67.6% of its 2012 Approved Capital Budget by year-end.

The projected year-end under-spending is largely attributable to the following projects:

- Emergency Medical Services is anticipating a delay in the delivery of ambulances due to longer than expected time required during the procurement process.
- The delay in the delivery of customized fire trucks due to the significant lead time that is required in the production of these vehicles.
- Divisions such as Solid Waste Management and Transportation Services are postponing the procurement of their replacement vehicles pending the implementation of their respective service review recommendations.
- Divisions such as Municipal Licensing & Standards, Technical Services, Purchasing and Materials Management and Revenue Services have deferred the replacement of vehicles and equipment to future years due to changes in operational requirements and the condition of the vehicles.
- The 2013 Capital Budget includes carry forward funding of \$11.581 million. This amount may be adjusted as a result of actual results at year end.
