

The City of Toronto allocates ice time on a priority basis according to group classifications; the Ice Allocation Policy defines this process. Prime Time ice is allocated to the following groups as follows:

- Community Youth: 60%
- Competitive Youth: 25%
- Competitive Junior Hockey: 0.5%
- Community Adult: 14%
- Commercial: 0.5%

The total time allocated to a group in a single season is calculated using the following formula, results are rounded.

Weekly Time Allocation (hours)

Weekly time allocation is calculated as **prime time ice available per week** multiplied by the **percentage of ice allocated to classification type** multiplied by the value of **League residents** divided by **total residents in the category**

Example:

- The total prime time ice available city-wide each week is 2,657 hours.
- ABC Hockey League is classified as a Community Youth Group.
- Community Youth are allocated 60% of prime time ice according to the Ice Allocation Policy.
- ABC Hockey League has a total of 1000 participants on their roster.
- 920 participants are residents.
- The total number of residents in the Community Youth classification based on applications is 22,270.

The formula would be applied as follows:

Weekly Time Allocation in Hours to ABC Hockey League

2,657 hrs multiplied by 60% multiplied by [920 residents in ABC Hockey divided by 22,270 Community Youth residents] equals 66 hours

The tables below provide the ice allocation entitlements calculated using this formula for all 2018 - 2019 seasonal applicants.

Column Definitions:

- **Res** – Total number of Toronto residents submitted on the roster
- **Non-Res** – Total number of non-residents of Toronto submitted on the roster
- **Total** – Total number of participants listed on the roster
- **Percentage** – The percentage of residents on the roster; calculated as Residents divided by Total Participants multiplied by 100%
- **Formula** – Total entitlement of hours allocated to the group each week of the upcoming season.
