

The City of Toronto holds public consultations as one way to engage residents in the life of their city. We invite you to get involved.

## Notice of Public Drop-in Event # 2

### Baby Point Wastewater Pumping Station Forcemain Municipal Class Environmental Assessment Study

#### Study Overview

Please join us at our second Public Drop-in Event for the Baby Point area Wastewater Servicing Study. You will learn about the options considered and the recommended solution for wastewater servicing.

#### The Process

The City of Toronto is approaching completion of a Municipal Class Environmental Assessment (EA) Study to explore opportunities to improve reliability of an aging forcemain (sewer) servicing the study area (see study area map). The recommended solution(s) will achieve the following objectives:

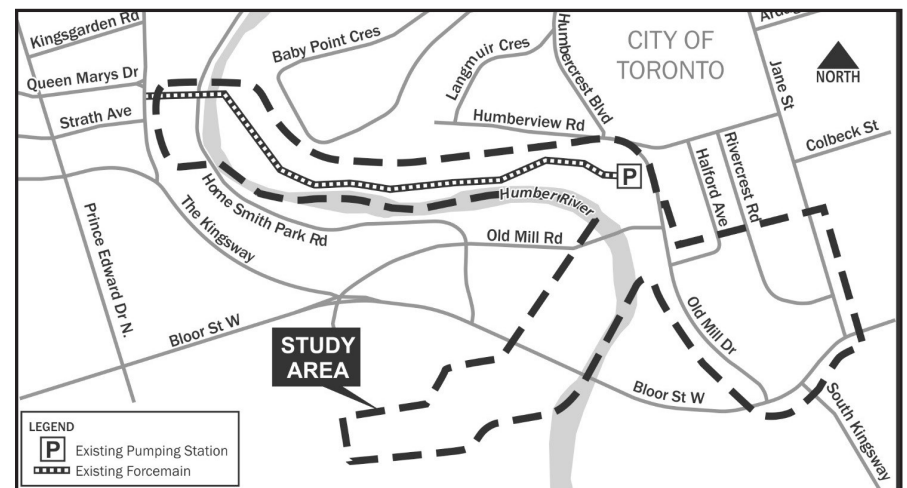

- Ensure continued reliable operation of the pumping station
- Minimize impacts on the natural environment and historical features in the area

The City invites you to learn more about the EA study and speak with the project team at our second Public Drop-in Event. Details are as follows:

**Date:** Tuesday, January 16, 2018  
**Time:** 6 p.m. to 8 p.m.  
**Location:** Humbercrest United Church  
East Hall, 16 Baby Point Rd.

Information will be collected in accordance with the Municipal Freedom of Information and Protection of Privacy Act. With the exception of personal information, all comments will become part of the public record.

The drop-in format of the event provides an opportunity to view display boards, speak with study team members, and provide input on the issues and opportunities, the alternative strategies & solutions, and evaluation criteria.

#### We would like to hear from you:

Public consultation is an important part of this study. Visit the project website for more information or contact us if you want to be placed on our mailing list for updates.
