Fleet Services

2018 – 2027 CAPITAL BUDGET AND PLAN OVERVIEW

Fleet Services provides range of services, from acquisition to maintenance and disposal, for a diverse fleet of over 5,500 vehicles and equipment. Fleet Services also oversees 23 City-owned fuel sites and the associated fueling of over 7,100 assets, trains City vehicle and equipment operators and manages and monitors approximately 11,000 associated operator permits to ensure safe vehicle & equipment operation.

The 10-Year Capital Plan of \$709.080 million provides funding for the replacement of vehicles and equipment, utilized by City Programs and Agencies, excluding Toronto Police Service Board and Toronto Transit Commission. Fire Services, Toronto Paramedic Services and Toronto Zoo are part of the Fleet Services' Capital Plan but these Programs and Agencies manage their own fleet replacements. The 10-Year Capital Plan also includes funding for the Consolidated Green Fleet Plan, Fuel Site closures and the Fuel Management System projects.

The 2018 - 2027 Capital Plan is primarily funded from Program/Agency-specific Vehicle and Equipment Replacement Reserves to which annual contributions are made by respective Programs and Agencies through their Operating Budget.

CAPITAL SPENDING AND FINANCING

2018 - 2027 Preliminary Capital Budget and Plan
By Project Category

Where the money goes:

The 2018 - 2027 Capital Budget and Plan totalling \$709.080 million provides funding for:

- Health and Safety projects of \$0.315 million for Fleet Garage Security;
- Legislated projects that represent \$1.600 million for the *Consolidated Green Fleet Plan*;
- Service Improvement projects that total \$4.869 million including *Fuel Site Closures*, *Fleet Management System integration with the Fuel Management System*, and *Fleet At-large Purchases*; and
- State of Good Repair (SOGR) projects of \$702.296 million to replace existing vehicles and equipment.

By Funding Source

Where the money comes from:

The 10-Year Capital Plan is funded by two major sources:

- Vehicle and Equipment Replacement Reserves will provide \$708.924 million of the required cash flow funding.
- Other Revenues consisting of Library Foundation donations for the replacement of Bookmobiles will provide \$0.156 million of the required cash flow.

State of Good Repair Backlog

The 10-Year Capital Plan includes cash flow funding of \$702.296 million for State of Good Repair to address the City's fleet replacement backlog. The SOGR backlog as a % of asset replacement value will decrease from 16.0% in 2018 to 6.6% in 2027 based on planned investment.

OUR KEY ISSUES & PRIORITY ACTIONS

- **Capacity to Spend and Readiness to Proceed**
play a vital role when analyzing the Program's spending rate which has averaged 67.2% with noticeable improvement in the last 3 years.
 - ✓ Projects included in the 10-Year Capital Plan have been reviewed and reprioritized and cash flows have been amended after taking vehicle delivery plans into consideration.
- **SOGR Backlog and Financial Management –**
Ensuring the City's fleet SOGR backlog is reviewed and updated; Vehicle and Equipment Replacement Reserves are adequate for the timely replacement of vehicles; and managing the associated impact of maintaining assets which are past optimum life.

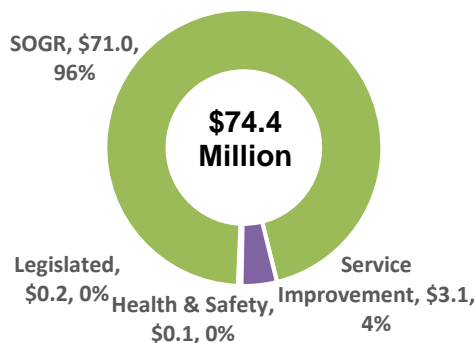

2018 CAPITAL BUDGET HIGHLIGHTS

The 2018 Capital Budget for Fleet Services of \$74.406 million, excluding carry forward funding, will:

- Provide Health and Safety for Fleet Garage Security (\$0.105 million).
- Continue the *Consolidated Green Fleet Plan* (\$0.200 million);
- Contribute to the state of good repair of the City's fleet through the replacement of vehicles (\$71.032 million), for the programs including but not limited to the following: Solid Waste (\$27.701 million), Toronto Water (\$8.737 million), Parks, Forestry & Recreation (\$8.122 million), Fire Services (\$10.903 million), and Transportation (\$5.488 million); and
- Continue fleet service improvements through enablement of projects (\$3.069 million) including the *Fleet Management System and Fuel System Integration* project (\$1.800 million), *City Fuel Site Closures* and upgrades (\$0.700 million), and *Fleet At-large Purchase* (\$0.570 million).

2018 Capital Budget By Project Category

By Funding Source

Council Approved Budget

City Council approved the following recommendations:

1. City Council approve the 2018 Capital Budget for Fleet Services with a total project cost of \$70.802 million, and 2018 cash flow of \$79.010 million and future year commitments of \$74.694 million comprised of the following:
 - a) New Cash Flow Funds for:
 - i. 28 new / change in scope sub-projects with a 2018 total project cost of \$70.802 million that require cash flow of \$23.925 million in 2018 and future year cash flow commitments of \$31.877 million for 2019 and \$15.000 million for 2020;
 - ii. 24 previously approved sub-projects with a 2018 cash flow of \$50.481 million; and future year cash flow commitments of \$27.817 million for 2019.
 - b) 2017 approved cash flow for 26 previously approved sub-projects with carry forward funding from 2017 into 2018 totalling \$4.604 million.
2. City Council approve the 2019 - 2027 Capital Plan for Fleet Services totalling \$559.980 million in project estimates, comprised of \$12.013 million in 2019; \$67.676 million for 2020; \$67.066 million for 2021; \$67.576 million for 2022; \$69.327 million for 2023; \$69.738 million for 2024; \$68.551 million for 2025; \$63.291 million for 2026; and \$74.742 million in 2027.
3. City Council adjust the 2018 Capital Budget for Fleet Service to agree with Programs' 2018 budgeted contributions to the vehicle reserves to reflect any changes to the contributions that may occur during the 2018 Operating Budget process, and the funding availability of the programs' vehicle reserve account.
4. City Council direct Fleet Services and Financial Planning to continue their work in 2018, for the 2019 Budget process, on the 3-point action plan which was approved in the 2015 Budget process, to address the State of Good Repair (SOGR) backlog for key City Divisions including Parks, Forestry and Recreation, Transportation and Toronto Water, through the review of the current inventory, replacement lifecycles, adequacy of vehicle replacement reserves and necessary contributions aligned with the annual cash flow funding and delivery plans.

Table 1b
10-Year Capital Plan
2023 - 2027 Capital Plan

Key Changes to the 2017 - 2026 Approved Capital Plan

The 2018 Capital Budget and the 2019 - 2027 Capital Plan reflects an increase of \$130.683 million in capital funding from the 2017 - 2026 Approved Capital Plan.

The chart and table below provide a breakdown of the \$130.683 million or 22.6% increase in the Capital Program on an annual basis from 2017 - 2027.

Chart 1
Changes to the 2017 - 2026 Approved Capital Plan (In \$000s)

(\$000s)	2017	2018	2019	2020	2021	2022	2023	2024	2025	2026	2027	10-Year Total
2017 - 2026	49,853	50,212	69,916	57,048	52,013	48,638	58,008	66,630	64,937	61,142		578,397
2018 - 2027		74,406	71,707	82,676	67,066	67,576	69,327	69,738	68,551	63,291	74,742	709,080
Change %		48.2%	2.6%	44.9%	28.9%	38.9%	19.5%	4.7%	5.6%	3.5%		22.6%
Change \$		24,194	1,791	25,628	15,053	18,938	11,319	3,108	3,614	2,149		130,683

As shown in the chart above, the \$130.683 million increase in the Capital Program reflects the Program's commitment to maintain the City's fleet in a state of good repair and address the City's backlog of vehicle replacement on an ongoing basis. The higher funding requirement from 2020 to 2022 is mainly due to vehicle replacement for Solid Waste collection vehicles, Transportation Street Sweepers, and Parks, Forestry and Recreation vehicles.

As reflected in Table 2 on the following page, changes to the 2017 – 2026 Approved Capital Plan, specifically the \$105.793 million increase in capital funding over the nine common years of the Capital Plans (2018 – 2026) arise from the reprioritization of Fleet Services' capital projects with consideration of the following factors:

- Higher vehicle replacement costs as a result of improved future cost projections;
- Optimization of replacement cycles from a comprehensive review of the fleet inventory;
- Consideration of budget approval timelines, the procurement process, and manufacturer lead times for customized vehicles;
- Cash flow adjustments to reflect historical spending rates and alignment of capital spending with the delivery plans for Programs and Agencies.

A summary of project changes for the years 2018 - 2026 totalling \$105.793 million are provided in Table 2 below:

Table 2
Summary of Project Changes (In \$000s)

Significant Capital Project Changes in Fleet Services:

Cash flow funding estimates for all vehicle replacements were reviewed to align with expected procurement progress and manufacturer lead times and capital spending with delivery plans, as outlined below:

Changes to Previously Approved Projects' Future Year Commitments

Project Cost Decreases:

- Fleet Services worked with City Programs to review vehicle replacement requirements and aligned cash flow funding to match the delivery plans. As a result, cash flow funding of \$1.283 million for Facilities Management and Real Estate Division has been deferred beyond the 10-year Capital Plan period.

Project Cost Increases:

- The cash flow funding increase of \$105.793 million over the 10-year replacement cycle is mainly driven by the following City Programs:
 - Solid Waste Management – is increasing the cash flow funding by \$29.217 million to address their backlog for replacement of the collection vehicles.
 - Transportation - cash flow funding has increased by \$26.253 million to clear the vehicle replacement backlog including \$20.0 million for street sweepers.
 - Parks, Forestry & Recreation – cash flow funding has increased by \$21.782 million to address the vehicle inventory backlog for ground maintenance equipment (agricultural tractors, lawn mowers, utility equipment), forestry equipment (dump trucks, loaders) and various trucks and ice resurfacers.
 - Toronto Water – one-time increase to the Contribution to Vehicle and Equipment Replacement Reserve of \$10.734 million has been provided for 2018 to addressing the current backlog of over 140 vehicles and equipment.

New to the 10-Year Capital Plan

The following capital projects are new to the 10-Year Capital Plan:

- *Fleet - At-Large Purchase* – \$0.570 million has been included as a one-time new vehicle purchase for based on operational needs for Fleet Maintenance, Operations, Fleet Safety and Contracted services group, including fuel management, which will be funded from their Vehicle & Equipment Reserve.
- *Fleet - Garage Security* – additional funding of \$0.315 million has been included to enhance security at fleet garage sites, including perimeter access control (card reader access), perimeter intrusion alarms, rekeying locks, video surveillance system and other security measures.

2018 – 2027 Capital Plan

Chart 2
2018 – 2027 Capital Plan by Project Category (In \$000s)

As illustrated in Chart 2 above, the 10-Year Capital Plan for Fleet Services of \$709.080 million is almost entirely allocated to State of Good Repair (SOGR) projects as priorities and 0.7% for Service Improvement projects. Legislated and Health & Safety Projects represent the remaining 0.2% of projects over the 10-year period.

- Healthy and Safety project accounts for \$0.315 million dedicated to enhance the security at the garages as part of the *Garage Security*.
- Legislated projects account for \$1.600 million dedicated to lowering emissions and taking advantage of innovative green technologies as part of the *Consolidated Green Fleet Plan*.
- Service Improvement projects account for \$4.869 million expenditures primarily in 2018, for *Fleet Management System & Fuel System Integrations, Fuel Site Closures, Upgrades and Replacement* projects and *Fleet At-Large Purchases*.
- SOGR projects account for \$702.296 million, which consists of vehicle replacements for Programs and Agencies. There is a higher allocation of funds in the first 5 years to address the SOGR backlog issues in Solid Waste Management and Transportation Services.

Table 3 below details all capital projects, by category, included in the 2018 - 2027 Capital Budget and Plan for Fleet Services:

*Life to Date approved cash flows are provided for multi-year capital projects with cash flow approvals prior to 2017, excluding ongoing capital projects (i.e. Civic Improvement projects)

2018 - 2027 Capital Projects

The 10-Year Capital Plan is in keeping with Fleet Services' objectives to maintain the State of Good Repair for more than 5,500 vehicles and equipment, manage and implement the Consolidated Green Fleet Plan and obtain fuel-efficient and environmentally friendly vehicles for the City Programs.

Legislated

- Legislated projects account for \$1.600 million or 0.2% of the total 10-Year Capital Plan spending.
 - *Consolidated Green Fleet Plan* – The Green Fleet initiatives aim to employ vehicles, equipment, fuels and practices that consume less fuel and emit less Greenhouse Gas (GHG) and air pollution, meet the City's operational requirements, are sustainable, and are economically viable.
 - The 10-Year Capital Plan provides funding to acquire fuel-efficient vehicles where appropriate for City operations, while considering the lifecycle costs of the vehicle.

State of Good Repair (SOGR)

- SOGR projects account for \$702.296 million or 99.0% of the total 10-Year Capital Plan for the replacement of vehicles and equipment for all City Programs and Agencies. The majority of SOGR project funding is allocated to the replacement of vehicles for Solid Waste Management, Toronto Water, Parks, Forestry & Recreation, Fire Services, Transportation Services and Toronto Paramedic Services.

Service Improvement

- Service Improvement projects account for \$4.869 million or 0.7% of the total 10-Year Capital Plan comprised of the following three projects:
 - *Fleet Management and Fuel Systems Integration* – Fleet Services will continue with the Vehicle Information Box (VIB) technology deployment in a total of 4,000 vehicles and equipment for automated vehicle meter reading and authorization for fueling at the fuel sites. The integration between all City operated fuel sites and the fleet management system will provide Fleet Services with the ability to have real time monitoring; automated vehicle meter odometer data; data flow to improve security; and better customer service and information to City Divisions.
 - *Fuel Site Closures, Upgrades and Replacement* – Fleet Services oversees 23 City-owned fuel sites. Fleet's goal is to optimize the number of fuel sites to maintain a minimum fuel supply to meet the strategic and emergency requirements; reduce infrastructure costs; and minimize potential environmental risks. The upgraded sites dispense all fuel types that are in use by the City of Toronto, have above ground fuel storage tanks that will minimize the risk of soil contamination as well as real time monitoring of fuel volumes and transactions.
 - *At-Large Purchase* – Fleet Services identified the need for new vehicles to improve its service to client Programs and Agencies. This project will be funded from the Vehicle & Equipment Reserve.
 - Future operating savings are expected upon completion of these projects. Staff will monitor and reflect the savings in future year budget processes.

Health and Safety

- The one Health and Safety project to enhance security at fleet garage sites included in 2018 accounts for \$0.315 million or 0.1% of the total 10-Year Capital Plan.

2018 Capital Budget and Future Year Commitments

Included as a sub-set of the 10-Year Capital Plan is the 2018 Capital Budget and Future Year Commitments, which consists of 2018 and future year cash flow for projects previously approved by Council; adjustments (Scope Change) to those previously approved projects; as well as new projects that collectively require Council approval to begin, continue or complete capital work.

Table 3a below lists the capital projects to be funded by the 2018 Capital Budget and associated Future Year Commitments for Fleet Services:

Table 3a
2018 Cash Flow & Future Year Commitments (In \$000s)

	2018	2019	2020	2021	2022	2023	2024	2025	2026	2027	Total 2018 Cash Flow & FY Commits

Chart 3
2018 – 2027 Capital Plan by Funding Source (In \$000s)

The 10-Year Capital Plan of \$709.080 million cash flow funding will be financed by the following sources:

- Reserve and Reserve Funds provide \$708.924 million or 99.98% of required funding over the 10-year period.
 - The Reserves are financed annually by the Programs' and Agencies' budgeted contributions from their Operating Budgets. Vehicle and Equipment Replacement Reserves are established in accordance with the Municipal Code, Chapter 227, Article II, to provide budget stabilization by moderating large fluctuations in the annual replacement of vehicles and equipment.
- Other sources, which account for \$0.156 million or 0.02% of funding is donation from the Toronto Public Library Foundation to partially fund the replacement of Bookmobiles for the Toronto Public Library.

State of Good Repair (SOGR) Backlog

Chart 4
SOGR Funding & Backlog (In \$000s)

- The City fleet currently comprises over 5,500 assets, of which 3,200 are on-road vehicles and 1,100 are off-road driven vehicles. The remainder 1,200 assets include stationary engines, generators and attachments. The replacement value for all assets is currently estimated to be \$548.769 million.

- The 10-Year Capital Plan dedicates \$702.296 million to SOGR spending.
- The State of Good Repair Backlog for Fleet Services is defined as the total value of vehicles which have not been replaced at the end of their useful life. The SOGR funding and the accumulated backlog estimates to year-end fluctuate because vehicle replacements are determined on an estimated average useful life based on vehicle and equipment types.
- Due to higher vehicle replacement costs as a result of improved future cost estimation as well as the optimization of replacement cycles based on a comprehensive review of the fleet inventory, the SOGR backlog estimates have increased significantly from \$77.5 million backlog reported in 2017 Budget Process to \$91.3 million being reported now.
- The SOGR backlog of \$91.3 million which represents 16.0% of asset replacement value will decrease to \$47.190 million or 6.6% of the asset replacement value by the end of 2027 based on planned contribution to reserves. The 10-Year Capital Plan provides an average of \$70.230 million of funding annually to reduce the backlog. The backlog will be reduced at an average of \$4.411 million annually over the 10-year period.
- Fleet Services and Financial Planning will continue to work on the three point action plan with Programs and Agencies to eliminate the backlog of vehicle replacements. The introduction of the CarShare Program, as well as working with client Programs and Agencies on rationalizing their fleet inventory will also help to reduce of the backlog.

Table 4
SOGR Backlog by Asset Category (In \$000s)

Total	2018	2019	2020	2021	2022	2023	2024	2025	2026	2027
State of Good Repair Funding	71,032	71,707	82,125	66,482	67,226	68,977	69,388	68,201	62,766	74,392
Accumulated Backlog Est. (yr end)	91,307	82,347	59,703	53,668	50,259	48,493	44,857	45,679	44,535	47,190
Backlog %Asset Value	16.0%	14.1%	10.1%	8.9%	8.1%	7.6%	6.8%	6.7%	6.4%	6.6%
Asset Value	570,720	582,284	594,027	605,159	624,044	640,709	659,229	678,661	691,596	711,724
Category 1										
State of Good Repair Funding	71,032	71,707	82,125	66,482	67,226	68,977	69,388	68,201	62,766	74,392
Accumulated Backlog Est. (yr end)	91,307	82,347	59,703	53,668	50,259	48,493	44,857	45,679	44,535	47,190
Backlog %Asset Value	16.0%	14.1%	10.1%	8.9%	8.1%	7.6%	6.8%	6.7%	6.4%	6.6%
Asset Value	570,720	582,284	594,027	605,159	624,044	640,709	659,229	678,661	691,596	711,724

- Assuming planned contributions are maintained, the SOGR backlog is anticipated to decrease to \$47.190 million by year-end 2027, representing 6.6% of the asset replacement value.

Part 2:

Issues for Discussion

Issues Impacting the 2018 Capital Budget

Review of Capital Projects and Spending

- City Council, at its meeting of May 25, 2017 considered the report entitled "2018 Budget Process – Budget Directions and Schedule EX25.18" and directed that City Programs and Agencies submit their 2018 – 2027 Capital Budget and Plans requiring that:
 - Annual cash flow funding estimates be examined to more realistically match cash flow spending to project activities and timing, especially in the first 5 years of the Capital Plan's timeframe.
<http://app.toronto.ca/tmmis/viewAgendaItemHistory.do?item=2017.EX25.18>
- The 2018 – 2027 Capital Budget and Plan for Fleet Services is fully funded from the Vehicle and Equipment Replacement Reserves and from Library Foundation Donation for Library vehicles, which does not require debt as a funding source. All the projects included in the 10-Year Capital Plan were reviewed and reprioritized based on Program's requirements and readiness to proceed and the cash flow estimates were better aligned with vehicle delivery plans taking historical spending rate for Fleet Services into consideration.
- The following tables illustrates Fleet Services' rate of spending from 2012 to 2016 as well as the projected year-end spending rate for 2017.

Chart 5
Capacity to Spend – Budget vs. Actual
(In \$000s)

Category	2012			2013			2014			2015			2016			Spending Rate 5 Year 2012-2016 Avg. %	2017		
	Budget	Actual	Spending Rate %	Budget	Actual	Spending Rate %	Budget	Actual	Spending Rate %	Budget	Actual	Spending Rate %	Budget	Actual	Spending Rate %		Budget	Projected Actual *	Spending Rate %

Legislated	775	391	50.5%	549	18	3.3%	350	172	49.1%	278	71	25.6%	100	-	0.0%	31.8%	335	150	44.8%
SOGR	47,502	23,129	48.7%	53,251	30,225	56.8%	38,788	30,760	79.3%	49,967	32,813	65.7%	46,058	45,769	99.4%	69.1%	46,197	43,714	94.6%
Service Improvement Growth Related	3,594	834	23.2%	3,610	1,193	33.0%	3,204	2,384	74.4%	5,521	3,570	64.7%	2,065	540	26.2%	47.4%	3,321	969	29.2%
Total	51,871	24,354	47.0%	57,410	31,436	54.8%	42,342	33,315	78.7%	55,765	36,455	65.4%	48,223	46,309	96.0%	67.2%	49,853	44,833	89.9%

* 2017 Projection based on the 2017 Q3 Capital Variance Report

- The historical trend for Fleet Services indicates an average spending rate of 67.2% over the past 5 years with a significant improvement made in the last 3 years. The 2016 spending rate was 96% which was significant improved from the previous years. The 2017 spending rate is projected to be 89.9% at year-end. During the 2017 Budget process, effort was spent on aligning the cash flow with the vehicle delivery plans and actual spending capacity.
- For 2018, further efforts were made to better align budgeted cash flows with the Program's capacity to spend. The cash flow funding of all projects were analyzed to ensure the projects' readiness to proceed and the cash flow estimate reflects the expected vehicle delivery schedules and timelines. As a result, approximately \$50 million in cash flow was adjusted and reflected in the 2018-2027 Capital Budget and Plan for Fleet Services. Some of the major cash flow adjustments pertain to replacement of Solid Waste garbage trucks, Transportation Services street sweepers, Toronto Water vehicles and Parks, Forestry & Recreation vehicles based on delivery and payment timing.
- Fleet Services and Financial Planning Division (FPD) will continue to closely monitor the delivery of planned replacements in 2018 and will make necessary adjustments to further improve spending rates for 2019.

Adequacy of Vehicle Capital Reserve Contribution and SOGR Backlog

- The Fleet Capital Replacement Plan is funded from the respective Program and Agency Vehicle and Equipment Replacement Reserves. The Reserves are financed annually by Program/Agency Operating Budget contributions based on pre-established criteria.
- Vehicle and Equipment Replacement Reserves are established in accordance with the Municipal Code, Chapter 227, Article II, to provide budget stabilization by moderating large fluctuations in annual replacement of vehicles and equipment.
- Fleet Services manages the vehicle and equipment procurement for 21 City Programs and Agencies. Fleet Services is working closely with these programs on addressing their vehicle and equipment replacements and ensuring adequate funding is available in the reserves.
- The City of Toronto currently has a vehicle and equipment SOGR backlog of \$102.1 million at 2017 year-end. The major contributors to the accumulated SOGR backlog are: Transportation Services, Solid Waste Management Services, Parks, Forestry & Recreation and Toronto Water.
 - Funding to address the SOGR backlog for Solid Waste Management was contributed through the 2017 Budget process, but due to long lead times vehicle delivery extends into 2020.
 - Strategies proposed to address the Transportation Services SOGR backlog through the 2018 budget process include:
 - One-time funding of \$20.0 million from the Public Realm Reserve (XR1410) to replace street sweepers. A capital project has been included in the 2018 Capital Budget with cash flow funding of \$5.0 million in 2019 and \$15.0 million in 2020 to align with the Sweeper's delivery plan.
 - A projected increase of the Annual Contribution to Reserve of \$5.0 million each year from 2019 to 2022 for a total \$20.0 million.
 - An additional annual contribution to reserve to meet ongoing replacement requirements. The contribution level in 2017 is \$2.209 million and Fleet projected contribution level is \$9.000 million in order to address backlog and future fleet replacement requirements. This increase will be phase-in over three years: \$1.25 million in 2018, \$1.75 million in 2019 and \$3.723 million in 2020, which will bring the contribution level to \$9.000 million by 2020.
 - Toronto Water has provided a one-time contribution of \$7.500 million as per "Operating Variance Report for the Twelve-Month Period Ended December 31, 2016 (EX26.29)". The current balance of their reserve (XQ1012), including the one-time contribution, is \$19.224 million and is sufficient to address 2017 and 2018 replacement needs, leaving \$23.6 million for 2019 and future year replacements. The recommended

capital replacement for 2019 is \$23.850 million. Toronto Water has deferred \$9.540 million or 40% based on the actual condition of the vehicles. Fleet Services will work with Toronto Water to address their backlog issues.

- Parks, Forestry & Recreation and Fleet Services are working together to undertake a comprehensive inventory review, and to confirm the requirements for the current fleet in order to identify potential opportunities for fleet consolidation.
- With the above key measures in place, the total SOGR backlog is expected to decrease over the next ten years. However, based on current expected contributions, the SOGR backlog is expected to remain at \$50.3 million by the end of 2022 and \$47.5 million by the end of 2027. The table below illustrates the SOGR backlog projection by City Programs for the next five years.

Division (in millions)	Backlog Projection				
	2018	2019	2020	2021	2022
Transportation Services	\$39.71	\$29.71	\$9.71	\$4.71	\$0.00
Solid Waste Management	\$21.90	\$6.40	\$6.40	\$6.40	\$6.40
Parks, Forestry & Recreation	\$21.03	\$28.03	\$30.78	\$31.58	\$32.09
Toronto Water	\$6.24	\$15.78	\$10.39	\$8.55	\$9.34
Facilities Mgmt & Real Estate	\$0.66	\$0.66	\$0.66	\$0.66	\$0.66
Fleet Services	\$0.60	\$0.60	\$0.60	\$0.60	\$0.60
Municipal Licensing & Stds	\$0.47	\$0.47	\$0.47	\$0.47	\$0.47
Engineering & Constr. Services	\$0.30	\$0.30	\$0.30	\$0.30	\$0.30
Purchasing And Materials Mgmt	\$0.14	\$0.14	\$0.14	\$0.14	\$0.14
Shelter, Sup., & Housing Admin	\$0.08	\$0.08	\$0.08	\$0.08	\$0.08
Toronto Building	\$0.07	\$0.07	\$0.07	\$0.07	\$0.07
Eco. Devt. & Culture	\$0.07	\$0.07	\$0.07	\$0.07	\$0.07
Public Health	\$0.03	\$0.03	\$0.03	\$0.03	\$0.03
Grand Total	\$91.31	\$82.35	\$59.71	\$53.67	\$50.26

- Fleet Services will work with Financial Planning in 2018 to implement the 3-point action plan and to review the current SOGR for key City Programs with the highest SOGR backlog: Parks, Forestry & Recreation, Transportation Services and Toronto Water. This comprehensive review should include confirmation of the current inventory, replacement lifecycles, adequacy of vehicle replacement reserve balance and necessary contribution aligned with the annual cash flow funding and delivery plans.
 - Inventory Review – Fleet Services to work with each program to confirm their current inventory, replacement requirements.
 - Lifecycle Analysis – Performing lifecycle analysis on the City's Fleet in order to optimize replacements and reduce ongoing maintenance and repair costs. As indicated by Toronto Water, some of their vehicles due to operational requirements and use, can be extended pass the initially estimated lifecycle. Fleet Services will work with these divisions to adjust the replacement schedule to reflect the extension in the 2019 Budget Process, and adjust for procurement/manufacture lead time to take delivery of the vehicles.
 - Contribution to Reserve – A multi-year plan will be developed based on the reviews with each Program individually and collectively to optimize replacements and minimize operating impact to tax levy while ensuring operational requirements are met. Contributions to the aligned Vehicle and Equipment Replacement Reserve accordingly.
 - Cash flow funding and spending analysis.

Appendices

Appendix 1

2017 Performance

2017 Key Accomplishments

In 2017, Fleet Services made significant progress and/or accomplished the following:

- ✓ Completed the centralization and oversight of 23 City Wide fuel sites that fuel over 7100 assets. The 23 City fuel sites now utilize 1 common software and hardware program.
- ✓ Continued to partner with Solid Waste Management to implement CNG technology on curbside residential collections vehicles. To date, approximately 40% of the collections units have been replaced by CNG vehicles.
- ✓ Continued to maintain the City of Toronto's Commercial Vehicle Operator's Registration (CVOR) rating at a satisfactory level with the Ministry of Transportation.
- ✓ Completed the installation of one DC Fast charging station which will substantially reduce electric vehicle charging time. Two new electric vehicles added to the City's fleet.
- ✓ Leveraged procurement leadership to provide Toronto Transit Commission, Toronto Parking Authority, Toronto Fire Services, Toronto Paramedic Services, Exhibition Place and the Toronto Zoo the ability to procure vehicles or equipment based on existing Fleet Services specifications.

2017 Financial Performance

2017 Budget Variance Analysis (in \$000's)

2017 Budget	As of Sept. 30, 2017		Projected Actuals at Year-End		Unspent Balance	
\$	\$	% Spent	\$	% Spent	\$ Unspent	% Unspent
49,853	29,413	59.0%	44,833	89.9%	5,020	10.1%

* Based on 2017 Q3 Capital Variance Report

For additional information regarding the 2017 Q3 capital variances and year-end projections for Fleet Services, please refer to the attached link for the report entitled "*Capital Variance Report for the Nine-Month Period Ended September 30, 2017*" considered by City Council at its meeting on November 27, 2017:

<http://app.toronto.ca/tmmis/viewAgendaItemHistory.do?item=2017.BU37.1>

Impact of the 2017 Capital Variance on the 2018 Capital Budget

- As a result of the delays in the delivery of vehicles, as described in the 2017 Q3 Capital Variance Report, funding of \$4.604 million is being carried forward to the 2018 Capital Budget to continue the capital work.
- A detailed review of the 2018 – 2027 Capital Budget and Plan has been conducted and the necessary adjustments has been made to the timing of cash flow funding for unique and major capital projects such as Fleet Management System & Fuel System Integration and Fire Service Vehicle Replacement, which are the major contributors to annual under expenditures.
- By deferring the cash flow funding to future years, the 2018 Capital Budget reflects readiness to proceed and will lead to a higher spend rate.

Appendix 2
