

Toronto 2018 BUDGET

CAPITAL PROGRAM SUMMARY

Transportation Services

2018 – 2027 CAPITAL BUDGET AND PLAN OVERVIEW

Transportation Services maintains infrastructure comprised of 5,600 km of roads, 7,950 km of sidewalks, 900 bridges/culverts and 2,400 traffic control signals. The 2018 - 2027 Capital Budget and Plan of \$5.168 billion focuses on maintaining these assets in a state of good repair (SOGR). Specifically, SOGR funding of \$654.348 million is included for major road rehabilitation, \$758.660 million for local road rehabilitation and \$2.300 billion for the F.G. Gardiner Expressway.

Included in the 10-Year Capital Plan are investments of \$12.630 million and \$7.000 million in debt funding for the Glen Road Pedestrian Bridge and York Street Tunnel respectively. This funding will address the current state of deterioration of the Glen Road Pedestrian Bridge (requiring rehabilitation in 2019) and provide the City's contribution for the construction of the York Street Tunnel to provide further extension of the PATH system along York Street south of Bremner Boulevard.

The 10-Year Capital Plan also includes funding that has been allocated for safety improvement projects such as Light Emitting Diode (LED) signal module conversions and growth projects such as the King-Liberty Pedestrian & Cycling Bridge.

CAPITAL SPENDING AND FINANCING

2018 - 2027 Capital Budget and Plan
By Project Category

By Funding Source

Where the money goes:

The 2018 - 2027 Capital Budget and Plan totalling \$5.168 billion provides funding of:

- \$4.484 billion to continue the state of good repair projects for transportation related infrastructure, including major and local roads, city bridges and sidewalks. This included \$2.300 billion to rehabilitate, repair and maintain the *F. G. Gardiner Expressway*, incorporating the implementation of the *Gardiner Expressway & Lake Shore Boulevard Reconfiguration*.
- \$387.057 million in growth related initiatives, in part to manage traffic congestion with projects including the *Six Points Interchange Redevelopment*, *Steeles Widenings (Tapscott - Beare)*, *Scarlett/St. Clair/Dundas* and *Traffic Congestion Management* for roadways / expressways

Where the money comes from:

The 10-Year Capital Plan requires:

- Debt funding of \$4.104 billion (79.4%), reflecting an increase of \$17.107 million above the debt target primarily for the rehabilitation of the *Glen Road Pedestrian Bridge*.
- Additional capital financing of \$772.618 million (15.0%) to be provided from reserve/reserve funds, primarily from the *Capital Financing Reserve* (\$732.303 million).
- Funding from Development Charges (\$191.332 million or 3.7%); Recoverable Debt (\$6.997 million or 0.1%); Federal/Provincial funding (\$9.942 million or 0.2%) and third party funding (\$83.781 million or 1.6%).

State of Good Repair Backlog

The 10-Year Capital Plan's spending on State of Good Repair is \$4.484 billion which will decrease the accumulated backlog from \$2.992 billion in 2018 to an anticipated \$1.513 billion by 2027. When rehabilitation on the Gardiner is excluded (SOGR eliminated by 2024), the SOGR backlog for remaining transportation infrastructure will increase from \$682.788 million at 2017 year-end to an anticipated \$1.513 billion in 2027. Transportation Services is currently collecting pavement condition data from across the City to update the replacement value, inventory and condition assessments of its infrastructure. This work is expected to be completed in 2018 and Transportation Services will provide an update on its asset value and accumulated SOGR backlog as part of the 2019 – 2028 Capital Budget and Plan submission.

OUR KEY ISSUES & PRIORITY ACTIONS

- **Addressing the State of Good Repair Backlog**
estimated to be \$682.788 million at 2017 year-end (excluding F. G. Gardiner) and is anticipated to grow to \$1.513 billion by 2027.
 - ✓ The 10-Year Capital Plan includes funding of \$4.484 billion for SOGR to mitigate some of the growth in the accumulated backlog primarily for major and local roads and the rehabilitation of the F.G. Gardiner Expressway.
- **Management of Traffic Congestion in the City**
as densification in the City of Toronto continues, the demands on the City's road network also increases.
 - ✓ The 10-Year Capital Plan includes funding of \$387.057 million for growth related projects, including projects that help manage traffic congestion in areas that have experienced significant growth over recent years.

2018 CAPITAL BUDGET HIGHLIGHTS

The 2018 Capital Budget for Transportation Services of \$372.045 million, excluding carry forward funding, will:

- Begin the construction for the *King-Liberty Pedestrian & Cycling Bridge* (\$10.320 million); and continue projects leveraging the *Public Transit Infrastructure Fund (PTIF)* program such as *Road Safety Plan*, *Cycling Infrastructure* and *TTC Surface Transit Operations* (\$19.885 million).
- Continue the *Traffic Congestion Management* project to expand the existing Intelligent Transportation Systems (ITS) to better manage congestion on arterial roadways and expressways (\$6.930 million).
- Continue health and safety projects such as the *Road Safety Plan* (\$6.266 million), new traffic control signals/devices (\$2.180 million) and major modifications to signals (\$1.790 million).
- Continue work on service improvement projects such as *Cycling Infrastructure* (\$8.100 million, excluding PTIF cycling infrastructure), and *Advanced Traffic Signal Control* (\$0.970 million).

**2018 Capital Budget
By Project Category**

By Funding Source

Council Approved Budget

City Council approved the following recommendations:

1. City Council approve the 2018 Capital Budget for Transportation Services with a total project cost of \$1.566 billion, and 2018 cash flow of \$522.056 million and future year commitments of \$2.515 billion comprised of the following:
 - a) New Cash Flow Funds for:
 - i. 88 new / change in scope sub-projects with a 2018 total project cost of \$1.566 billion that requires cash flow of \$53.972 million in 2018 and future year cash flow commitments of \$230.026 million for 2019; \$279.198 million for 2020; \$265.965 million for 2021; \$268.048 million for 2022; \$305.597 million for 2023; \$39.071 million for 2024; \$40.265 million for 2025; \$41.583 million for 2026; and \$42.381 million for 2027.
 - ii. 70 previously approved sub-projects with a 2018 cash flow of \$318.073 million; and future year cash flow commitments of \$274.460 million for 2019; \$260.021 million for 2020; \$230.486 million for 2021; \$221.944 million for 2022; \$13.040 million for 2023; \$1.490 million for 2024; and \$1.490 million for 2025.
 - b) 2017 approved cash flow for 64 previously approved sub-projects with carry forward funding from 2017 into 2018 totalling \$150.011 million.
2. City Council approve the 2019 – 2027 Capital Plan for Transportation Services totalling \$2.281 billion in project estimates, comprised of \$31.398 million for 2019; \$14.406 million for 2020; \$55.627 million for 2021; \$67.434 million for 2022; \$221.421 million for 2023; \$1.225 billion for 2024; \$217.621 million for 2025; \$223.835 million in 2026; and \$224.843 for 2027.
3. City Council consider the operating costs of \$0.340 million net in 2018 resulting from the approval of the 2018 Capital Budget for inclusion in the 2018 and future year operating budgets.
4. City Council approve the transfer of \$2.000 million in Public Transit Infrastructure Fund (PTIF) funding from Transportation Services' 2018 Capital Budget to the Toronto Parking Authority for the Bike Share program.
5. City Council direct, that following condition assessments of existing capital infrastructure, the General Manager of Transportation Services incorporate any required adjustments to current accumulated state of good repair backlog for each of Transportation Services' asset categories together with 2019 Capital Budget Submissions.
6. City Council direct that the General Manager of Transportation Services provide all operating costs resulting from the completion of capital projects included in the 10-Year Capital Plan with the 2019 Capital Budget Submission.
7. All sub-projects with third party financing be approved conditionally, subject to the receipt of such financing in 2018 and if such funding is not forthcoming, their priority and funding be reassessed by City Council relative to other City-financed priorities and needs.
8. City Council direct the General Manager, Transportation Services to report to the Public Works and Infrastructure Committee in early 2019 on the resources necessary to accelerate the 10 year cycling plan to be completed by the end of 2022.

9. City Council direct the General Manager, Transportation Services, to work with Parks, Forestry and Recreation and the Toronto Region Conservation Authority to assess the timing of the Brimley Road South path project as part of the 2018 Cycling Network Plan review and report back in time for the 2019 Budget process.
10. City Council direct that Transportation Services continue discussions with Parks, Forestry and Recreation and TRCA to evaluate potential connections and bridges between the Centennial College Progress Campus and Military Trail Road as part of the 2018 Cycling Network Plan review and update the Ward Councillors (Ainslie and De Baeremaeker) on the progress of the evaluation, including a workplan to implement the connections and any required funding, by the end of June, 2018.

Part 1

10-Year Capital Plan

Table 1a
10-Year Capital Plan
2018 Capital Budget and 2019 - 2022 Capital Plan

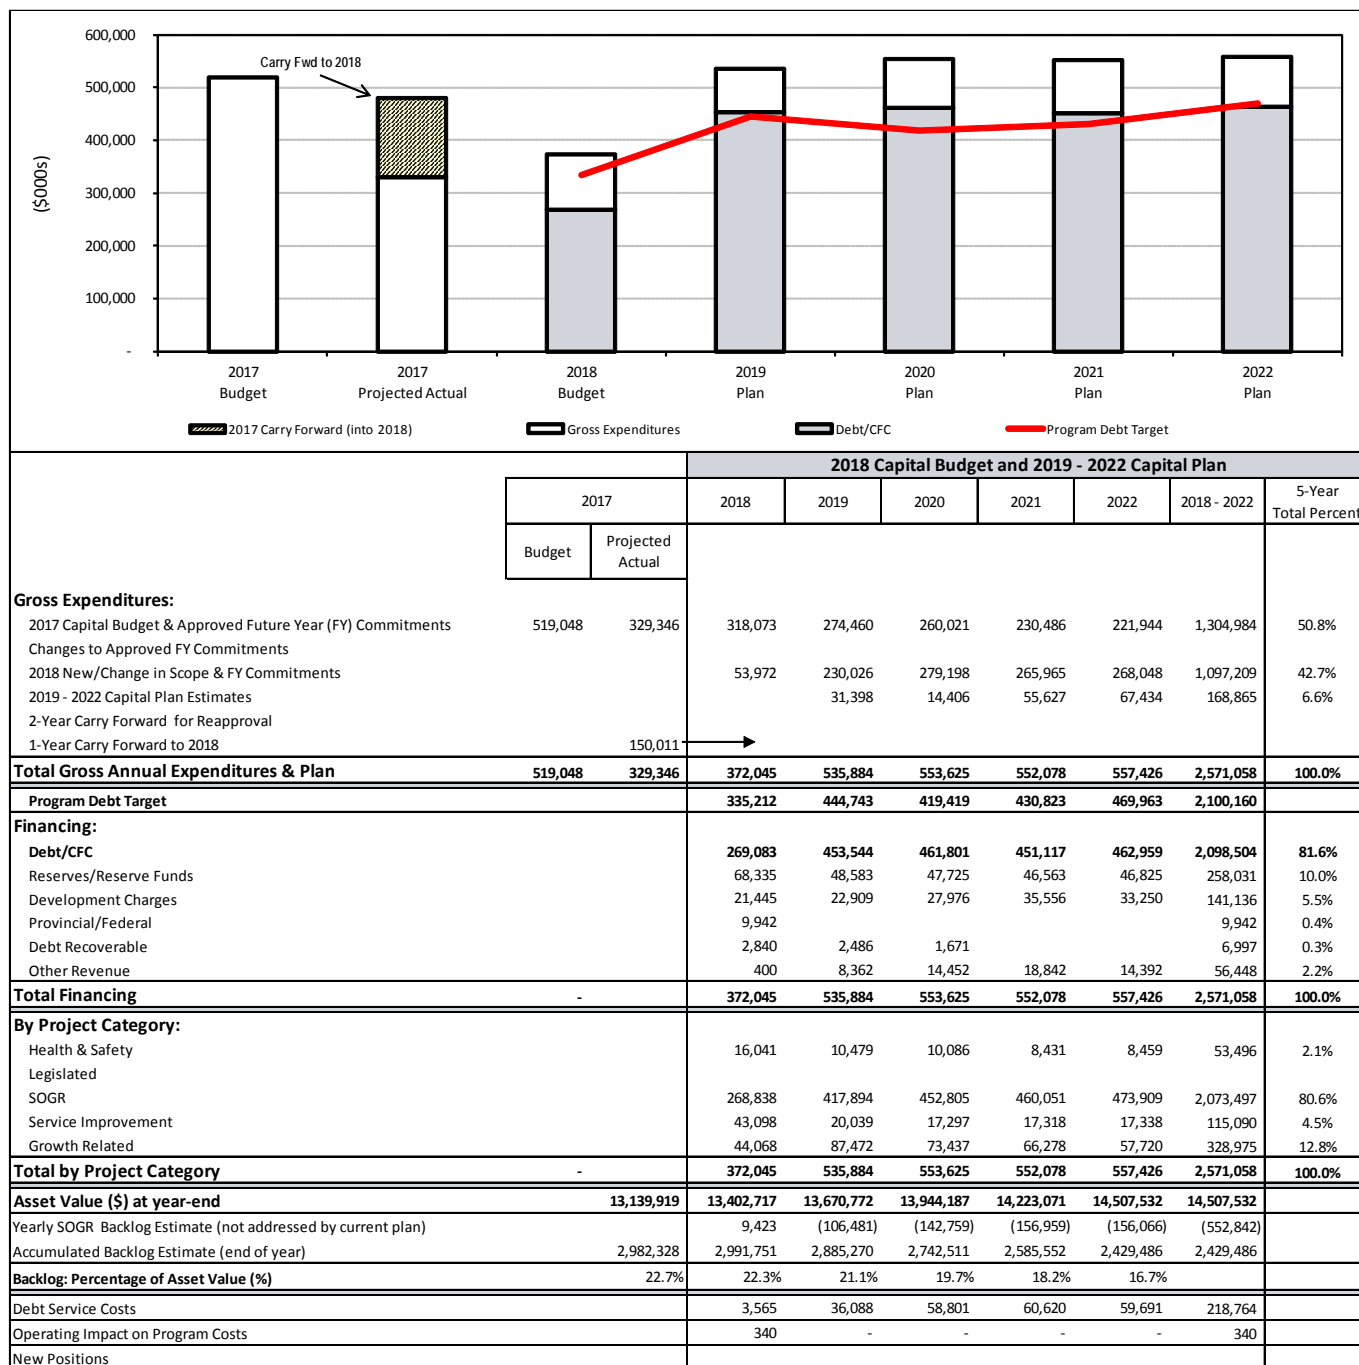

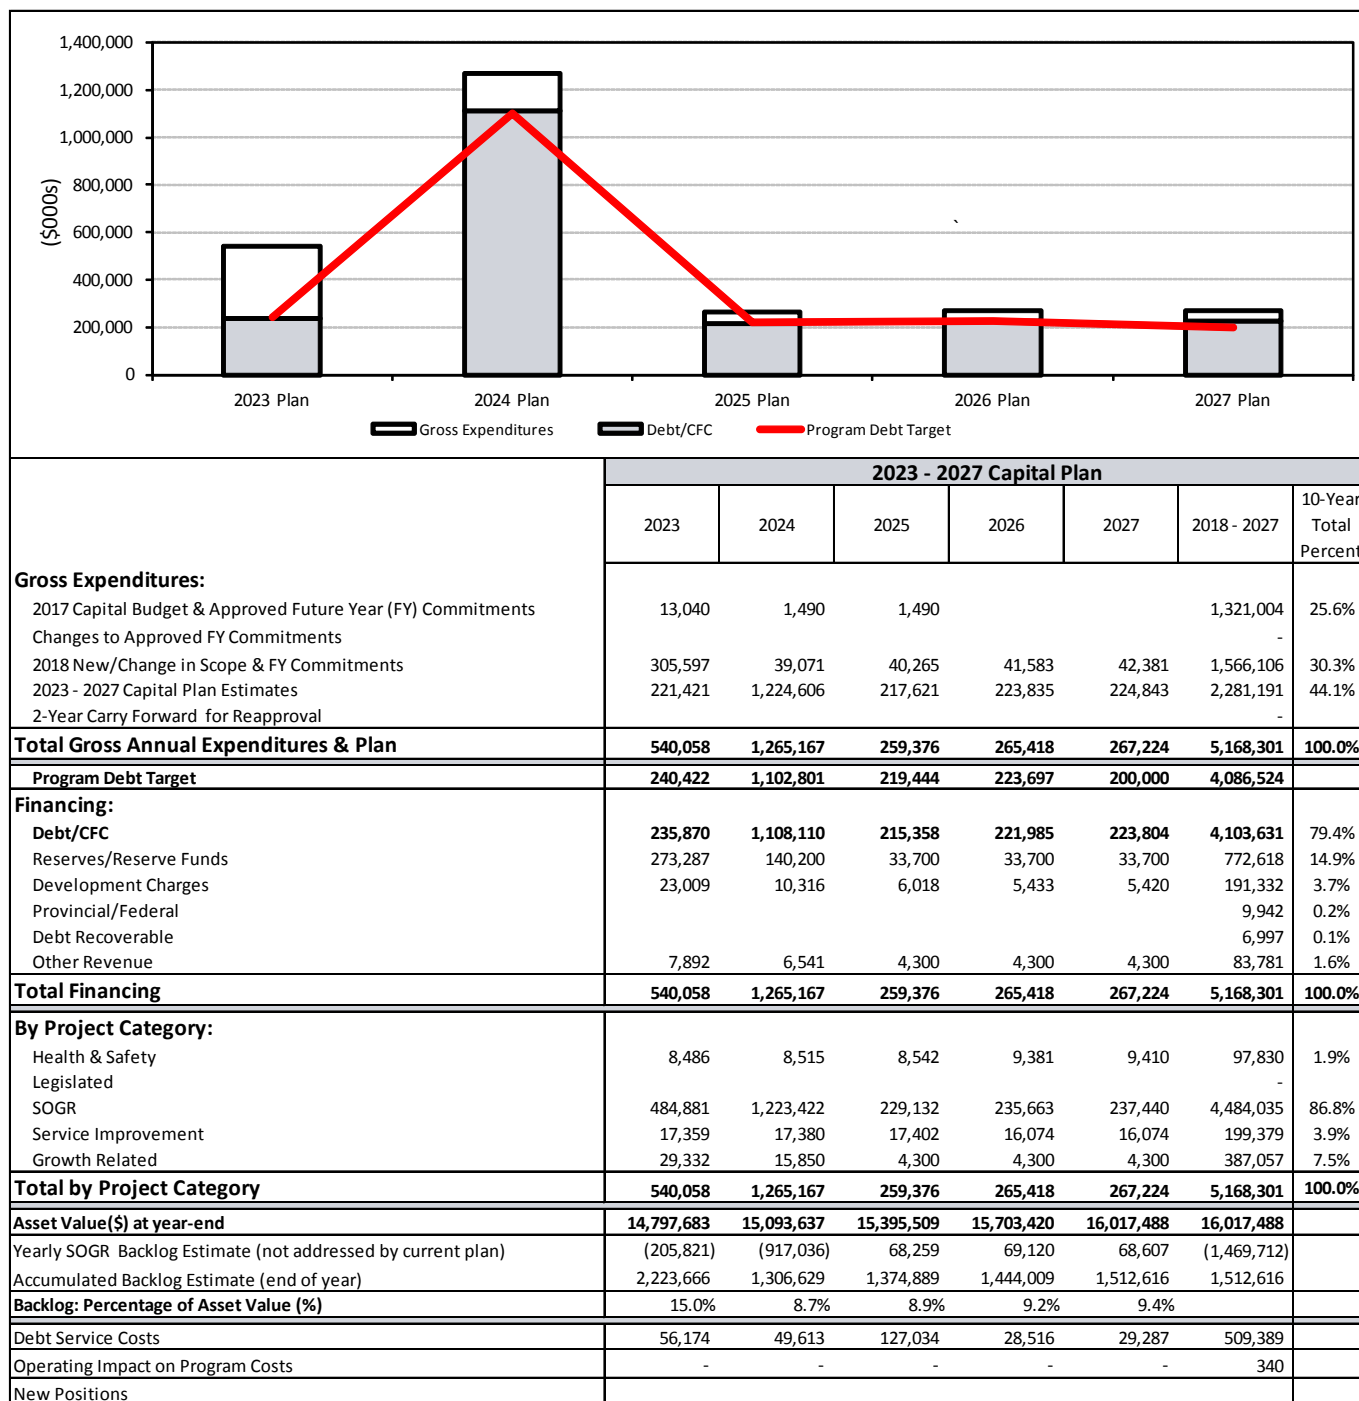

Table 1b
10-Year Capital Plan
2023 – 2027 Capital Plan

Key Changes to the 2017 - 2026 Approved Capital Plan

The 2018 Capital Budget and the 2019 - 2027 Capital Plan reflects a decrease of \$123.667 million in capital funding from the 2017 - 2026 Approved Capital Plan.

The chart and table below provide a breakdown of the \$123.667 million or 2.3% decrease in the Capital Program on an annual basis from 2017 - 2027.

Chart 1
Changes to the 2017 - 2026 Approved Capital Plan (In \$000s)

(\$000s)	2017	2018	2019	2020	2021	2022	2023	2024	2025	2026	2027	10-Year Total
2017 - 2026	418,468	450,186	541,852	514,316	515,208	529,251	531,295	1,261,183	263,073	267,136	0	5,291,968
2018 - 2027		372,045	535,884	553,625	552,078	557,426	540,058	1,265,167	259,376	265,418	267,224	5,168,301
Change %		(17.4%)	(1.1%)	7.6%	7.2%	5.3%	1.6%	0.3%	(1.4%)	(0.6%)		(2.3%)
Change \$		(78,141)	(5,968)	39,309	36,870	28,175	8,763	3,984	(3,697)	(1,718)		(123,667)

As made evident in Chart 1 above, the \$123.667 million decrease in the Capital Plan is almost entirely attributed to the difference in capital spending approved in 2017 as compared to planned capital investments in the year 2027 (a decrease of \$151.244 million).

The Capital Program also reflects the reallocation of funding from 2018 to other years throughout the 10-year period (i.e. *F.G. Gardiner* construction costs, etc.) refining program projected spending to match the timing of funding requirements. These adjustments have enabled the addition of 2 projects that were identified as high priority unfunded needs in 2019, totalling \$19.630 million.

As reflected in Table 2 on the following page, changes to the 2017 - 2026 Approved Capital Plan over the nine common years of the Capital Plans (2018 – 2026) arise from the review of capital project spending with emphasis on a "gated" approach, so that the key phases (i.e. concept, design, construction, etc.) are budgeted in the appropriate years.

The Program revised their need for cash flow funding for multiple long-term programs (roads, bridges, etc.) and growth projects based on project readiness and spending capacity by aligning to actual project timelines and activities.

A summary of project changes for the years 2018 - 2026 totalling \$27.577 million are provided in Table 2 below:

Table 2
Summary of Project Changes (In \$000s)

\$000s	2017	2018	2019	2020	2021	2022	2023	2024	2025	2026	2027	2018 - 2026 Total
2017 - 2026 Capital Budget & Plan	418,468	450,186	541,852	514,316	515,208	529,251	531,295	1,261,183	263,073	267,136		4,873,500

*The total project cost for the Gardiner reflects the 2012 - 2027 costs.

Significant Capital Project Changes in Transportation Services:

Cash flow funding for the following previously approved capital projects have been adjusted based on historical spending rates, capacity and expected progress and completion of the projects, as outlined below:

Changes to Previously Approved Projects' Future Year Commitments

Project Cost Decreases:

- *Bathurst Street Bridge Rehabilitation* – Project has been consolidated into the *City Bridge Rehabilitation Program*.
- *Legion Road Extension & Grade Separation, Scarlett/St. Clair/Dundas, and Steeles Widenings (Tapscott Road – Beare Road)* – Decreased due to updated land valuations and engineering cost estimates.
 - *Legion Road Extension & Grade Separation* – Based on a review of project staging, project completion has been deferred from 2021 to 2023.
 - *Scarlett/St. Clair/Dundas* – Based on a review of project readiness, project completion has been accelerated from 2022 to 2021.
 - *Steeles Widenings (Tapscott Road – Beare Road)* – Based on a review of project staging, project completion has been deferred from 2021 to 2022.
- *Ingram Drive Extension & Grade Separation* – Project experienced significant cost escalation as a result of property acquisition requirements. The implementation of the project will be re-evaluated pending further review.
- *Six Points Interchange Redevelopment* – Decreased due to revised cash flow needs for project completion.
- *Work for TTC and Others* – Decreased as anticipated work funded by third parties is expected to decrease in 2018.

Project Cost Increases:

- *City Bridge Rehabilitation* – Based on review of project readiness and historical spending capacity, these project costs were increased to align with actual project timelines and activities. The *Bathurst Street Bridge Rehabilitation* has been included in the program.
- *John Street Revitalization Project* – Increased to reflect projected construction costs of all streetscape and road work from Front Street to King Street, and from Adelaide Street to Stephanie Street.
- *Port Union Road* – Increased due to updated engineering estimates and land acquisition requirements, not previously identified.
- *North York Service Road* – Increased due to land acquisition requirements and works required within private lands, not previously identified.
- *Road Safety Plan (RSP)* – Increased to reflect funding needs to implement planned 2018 – 2020 RSP road works.

Deferrals/Accelerations:

- *Local Road Rehabilitation / Major Road Rehabilitation* – Based on the capacity to spend and the readiness to proceed with the projects, cash flow funding was deferred reflecting a decrease in 2018 and increase in 2019 and 2020.

Changes to Previously Approved Planned Project Estimates

Project Cost Decreases:

- *Ingram Drive Extension – Grade Separation* – Project experienced significant cost escalation as a result of property acquisition requirements. The implementation of the project will be re-evaluated pending further review.
- *North Queen New Street* – Based on a review of project readiness and transportation need, project timing will be re-evaluated.
- *Yonge Street/Highway 401 Interchange Improvements* – Project will be re-evaluated to reflect additional review being undertaken by the Province regarding impacts to Highway 401.
- *Accessible Pedestrian Signals* – Decreased to reflect the capacity to spend.

Project Cost Increases:

- *Critical Interim Road Rehabilitation Pool* – This program has been extended to reflect the need to conduct interim road repairs. The purpose of the program is to prolong the life of infrastructure assets through localized repairs required in advance of major rehabilitation activity.
- *Tactile Domes Installation* – This program has been extended to reflect the continuing commitment to health and safety. Infrastructure will be installed in conjunction with planned road works.
- *F.G. Gardiner* – Increased to reflect the mandatory inspection requirements and to prolong the life of infrastructure assets through localized repairs required in advance of major rehabilitation activity.
- *John Street Revitalization Project* – Increased to reflect projected construction costs of all streetscape and road work from Front Street to King Street, and from Adelaide Street to Stephanie Street.
- *Local Road Rehabilitation / Major Road Rehabilitation* – Increased to reflect estimated costs to implement the Transportation Asset Management System (TAMS) projected over the next ten years.
- *Metrolinx Additional Infrastructure* – Increased to reflect City contribution for the Metrolinx Eglinton Crosslinx Station Works and the Finch LRT project.
- *St. Clair TMP: Keele to Old Weston* - Increased due to required infrastructure to facilitate SmartTrack station. Deferred project start to reflect coordinated delivery of infrastructure with SmartTrack station.
- *Steeles Avenue East/Kennedy Road Grade Separation* – Increased to reflect the anticipated City contribution. Project to be delivered by Metrolinx as part of the Regional Express Rail (RER) initiative.

Deferrals/Accelerations:

- *F.G. Gardiner* – Deferral of required funding from 2018 to 2020 and 2021 based on a revised assessment of construction timing for the first sections of the project.

New to the 10-Year Capital Plan

The following capital projects are new to the 10-Year Capital Plan:

- *Glen Road Pedestrian Bridge* – Glen Road Pedestrian Bridge extends over Rosedale Valley Road, just east of Sherbourne Street, connecting to Bloor Street East via a bridge and tunnel system. The bridge has experienced significant deterioration, which resulted in an emergency closure in 2014. Rehabilitation work to strengthen the bridge was completed, extending the timeframe to allow for a study to be completed to determine the future of the crossing. It is anticipated that the existing bridge can only remain open until 2019.

- A Municipal Class EA is being undertaken to identify the preferred alternative for replacing the bridge. Solutions to address safety concerns in the adjacent tunnel are also being considered. The tunnel work and bridge replacement can be coordinated and delivered under the same contract. Study completion is expected by the end of 2017.
- \$12.630 million in funding is provided in 2019 for replacement of the bridge and implementation of the tunnel.
- *York Street Tunnel* – Funding of \$7.0 million has been provided as the City's contribution to the construction of the York Street Tunnel for the further extension of the PATH system along York Street south of Bremner Boulevard.
- *New Courthouse Streetscape* – Infrastructure Ontario is coordinating, and is responsible for, the development of the new provincial courthouse at 11 and 33 Centre Avenue and 80 Chestnut Street. At the July 4, 5, 6 and 7, 2017 Council meeting, City Council authorized a contribution to streetscape improvements.
 - \$2.500 million in funding has been provided in 2021 for the purposes of streetscape improvements for the new provincial courthouse. This will be fully funded by Section 37 community benefits. External infrastructure improvements are expected to be completed in 2021.

2018 – 2027 Capital Plan

Chart 2
2018 – 2027 Capital Plan by Project Category (In \$000s)

As illustrated in Chart 2 above, the 10-Year Capital Plan for Transportation Services of \$5.168 billion predominately provides funding for SOGR and Growth Related projects, which together represent 94.3% of total funding over the 10-year period.

- The level of funding for SOGR makes up the largest category of projects in the 10-year Capital Plan with funding totalling \$4.484 billion or 86.7% of the total planned cash flow funding of \$5.168 billion.
 - State of Good Repair projects include maintenance and rehabilitation work on bridges, expressways (F.G. Gardiner and Don Valley Parkway), major road and local road rehabilitation projects, and sidewalk repairs.
- The level of funding for Growth Related projects account for \$387.057 million or 7.5% of the total 10-Year Capital Plan's project expenditures.
 - Examples of Growth Related Projects include the *Steeles Widenings (Tapscott Road – Beare Road)*, *St Clair TMP: Keele to Old Weston*, *Legion Road Extension & Grade Separation*, *Scarlett/St Clair/Dundas Bridge*, *LARP (Lawrence-Allen Revitalization Project) (Phase 1)*, *Traffic Congestion Management*, and the *Six Points Interchange Redevelopment*.

Table 3 below details all capital projects, by category, included in the 2018 - 2027 Capital Budget and Plan for Transportation Services:

*The total project cost for the Gardiner reflects the 2012 - 2027 costs.

**Life to Date approved cash flows are provided for multi-year capital projects with cash flow approvals prior to 2017, excluding ongoing capital projects (i.e. Civic Improvement projects)

2018 - 2027 Capital Projects

The 10-Year Capital Plan supports Transportation Services' objectives of delivering and maintaining safe transportation systems, infrastructure development and maintenance of State of Good Repair projects, and optimizing the efficient operation of the transportation network.

Health and Safety

- Major Health and Safety projects include cash flow funding of \$97.830 million or 1.9% of the 10-year total Capital Plan's expenditures. This includes:
 - *Traffic Signal Major Modifications* (\$17.900 million), *New Traffic Control Signals/Devices* (\$21.800 million) and pedestrian related projects involving *Accessible Pedestrian Signals (i.e. Audible Signals)* for \$16.020 million.

State of Good Repair (SOGR)

- The main focus of the 10-Year Capital Plan is to ensure the State of Good Repair of the City's transportation infrastructure. SOGR projects account for \$4.484 billion or 86.7% of the total 10-year Capital Plan's investments. Specific attention is being paid to the following priority projects:
 - *F.G. Gardiner Expressway* (\$2.300 billion) – reflects the implementation of the Revised Strategic Rehabilitation Plan for the F.G. Gardiner Expressway;
 - *Local and Major Road Rehabilitation* (\$1.413 billion);
 - *City Bridge Infrastructure Rehabilitation* (\$357.986 million);
 - *Sidewalk Replacement* (\$173.101 million);
 - *Traffic Plant Requirements / Signal Asset Management* (\$62.200 million).
 - *Don Valley Parkway Rehabilitation* (\$25.518 million); and
 - *Laneway Rehabilitation* (\$19.431 million);

Service Improvements

- Service Improvement projects amount to \$199.379 million or 3.9% of the total 10-Year Capital Plan's expenditures which include:
 - *Public Transit Infrastructure Fund (PTIF) Program* (\$19.885 million) to continue implementation of *Road Safety*, *Cycling Infrastructure* and *TTC Surface Transit Operations* projects.
 - *PTIF Cycling Infrastructure* (\$16.789 million);
 - *PTIF Transportation Road Safety* (\$2.030 million); and
 - *PTIF Surface Track Operations* (\$1.066 million).
 - *Cycling Infrastructure* (\$82.827 million) to deliver the Council-endorsed Ten Year Cycling Network Plan, in addition to capital works funded from the PTIF program above.

Growth Related

- Major Growth Related projects total \$387.057 million or 7.5% of the total 10-Year Capital Plan's spending and consist of a number of different initiatives intended to accommodate growing infrastructure needs. The majority are partially funded by Development Charges and Section 37 community benefits.
 - *Work for TTC and Others* – This project involves the construction, reconstruction, adjustment and/or realignment of surface facilities at various locations in connection with work initiated by others (i.e. TTC, Developers, Business Improvement Areas, etc.), in conjunction with adjacent redevelopment. Funding in

the amount of \$36.000 million is included in the 10-Year Capital Plan for these projects based on information provided to the City by the TTC and other third parties.

- *Steeles Widening (Tapscott Road – Beare Road)* – Funding in the amount of \$29.000 million is required over five years. A cost share agreement for the design of the project has been secured with York Region. Currently, the City of Toronto is in negotiations with York Region and other municipalities to determine a shared cost agreement for the construction of the project, as it benefits several jurisdictions.
- *North York Service Road* - \$9.750 million has been allotted for the extension of Tradewind Avenue across Sheppard Avenue East to connect with Doris Avenue. The project is expected to be completed by 2022.
- *Scarlett/St Clair/Dundas Bridge* - \$35.075 million has been included (starting in 2018) and is expected to be completed by 2021.
- *St Clair Transportation Master Plan (TMP): Keele to Old Weston* - \$57.250 million has been allocated with completion expected in 2024, incorporating requirements from Metrolinx for SmartTrack.
- *Legion Road Extension and Grade Separation* – The design of the Legion Road Extension will continue in 2018. \$26.399 million has been allocated for this project with completion expected in 2023.
- *King-Liberty Pedestrian & Cycling Bridge* - \$11.830 million has been allocated for the implementation of the bridge. The project is fully funded by the Development Charges Reserve Fund.
- *Regent Park Revitalization* - \$0.765 million is included in the 10-Year Capital Plan for the Regent Park Revitalization Plan adopted by City Council in July 2003. This project is intended to redevelop and reintegrate the Regent Park community with the surrounding neighbourhood. Phases 1 and 2 of the project are currently underway.
- *Six Points Interchange Redevelopment* – The primary objective of the project is to simplify the road network and improve access to the Kipling Subway Station as a key inter-regional transit station for residents and commuters living beyond the City boundaries. The 10-Year Capital Plan allocates \$36.178 million for this project.
- *Traffic Congestion Management* - \$25.440 million is included in the 10-Year Capital Plan to expand the existing Intelligent Transportation Systems (ITS) to help manage congestion on arterial roads and expressways.

2018 Capital Budget and Future Year Commitments

Included as a sub-set of the 10-Year Capital Plan is the 2018 Capital Budget and Future Year Commitments, which consists of 2018 and future year cash flow funding estimates for projects previously approved by Council; adjustments (scope change) to those previously approved projects; as well as new projects which collectively, require Council approval to begin, continue or complete capital work.

Table 3a below lists the capital projects to be funded by the 2018 Capital Budget and associated Future Year Commitments for Transportation Services:

Table 3a
2018 Cash Flow & Future Year Commitments (In \$000s)

Chart 3
2018 – 2027 Capital Plan by Funding Source (In \$000s)

The 10-Year Capital Plan of \$5.168 billion will be financed by the following sources:

- Debt accounts for \$4.104 billion or 79.4% of the financing over the 10-year period.
 - The debt funding is \$17.107 million above the 2018-2027 debt guidelines across the 10-year period.
 - The increased investment is required to address the current state of deterioration of the *Glen Road Pedestrian Bridge*, requiring rehabilitation in 2019.
- Capital financing from reserves and reserve funds constitutes \$772.618 million or 15.0% of required funding over the 10-year period.
 - The Capital Financing Reserve will provided funding of \$732.303 million. This funding source is primarily financed from proceeds from the use of surplus operating funds in accordance with the City's surplus distribution policy, anticipated contributions to Transportation Services from the Municipal Land Transfer Tax (MLTT) revenue above the base estimates included in the 2018 Operating Budget, as well as anticipated future one-time dividends from Build Toronto and the Toronto Parking Authority.
 - This also includes other reserve funding for specific eligible projects of \$40.315 million (i.e. *Cycling Infrastructure, Six Points Interchange Redevelopment, Neighbourhood Improvements, John Street Revitalization Project, etc.*).
- Federal/Provincial Grants fund \$9.942 million or 0.2% of the 10-Year Capital Plan's planned expenditures.
 - This funding is provided from the *Public Transit Infrastructure Fund* project (federal).
- Development Charges (DC) fund \$191.332 million or 3.7% of the 10-Year Capital Budget and Plan and are used for Growth Related and Service Improvement projects.
 - Development Charge funding for eligible growth related projects has been maximized for 2018.
 - The City is currently conducting a review of the Development Charges By-Law. Upon the completion of the study, a number of growth projects will be eligible for development charges contributions based on new and revised DC rates. Changes to reserve funding for a number of growth projects is expected to be reflected in the 2019 Capital Budget submission subject to the approval of the 2018 DC By-Law.
- Recoverable Debt provides \$6.997 million or 0.1% of the 10-Year Capital Budget and Plan's funding.

- These funds are dedicated primarily to the *Six Points Interchange Redevelopment* project. The recoverable debt will be repaid when Build Toronto takes possession of the related properties.
- Other Third Party funding accounts for \$83.781 million or 1.6% of total financing and includes funding for traffic control signals, Metrolinx work and funding for TTC track replacement work on the City's right of ways

State of Good Repair (SOGR) Backlog

Chart 4a
Total SOGR Funding & Backlog (In \$000s)

Chart 4a depicts the SOGR funding and accumulated backlog estimates for the following key asset classes in Transportation Services: major and local roads, bridge rehabilitation, expressways (including \$2.300 billion for the F. G. Gardiner) and laneways as detailed in Table 4 on page 22.

The 10-Year Capital Plan dedicates a total of \$4.484 billion to all SOGR projects within Transportation Services over the 10-year period, which, on average is \$448.404 million annually.

- Transportation Services has stewardship over linear assets such as bridges, roads, expressways, sidewalks and traffic signals. A large portion of Transportation Services' infrastructure consists of roads and bridges that are 40 to 50 years old.
- The Program is currently collecting pavement condition data from across the City to update the replacement value, inventory, and condition assessments of its infrastructure. This work is expected to be completed in 2018 and Transportation Services will provide an update on its asset value and accumulated SOGR backlog as part of the 2019 – 2028 Capital Budget and Plan submission.
- At the end of 2017, Transportation Services will have a backlog of State of Good Repair work for infrastructure renewal estimated at \$2.982 billion, representing 22.7% of the asset replacement value (including a provisional asset value of \$3.696 billion for the F.G. Gardiner).
- The backlog is estimated based on field observations and an engineering assessment of the condition of the pavement or bridge structure and the estimated cost of rehabilitating this infrastructure.
- The individual locations that actually make-up the backlog continually change as infrastructure that has been rehabilitated is replaced on the backlog list by infrastructure that, in the meantime, has reached its useful life span.
- Addressing the backlog is also dependant on the capital programs of Toronto Water, TTC and utility companies, which have to be coordinated with the Transportation Services' Capital Program.

- SOGR funding was added to the *F. G. Gardiner Expressway, Major Roads Rehabilitation, Local Roads Rehabilitation* and *Sidewalk* projects as part of the 2013, 2014, 2015, 2016 and 2017 Budget processes. Even still, when rehabilitation on the Gardiner is excluded (with its SOGR backlog eliminated by 2024), the SOGR backlog for remaining transportation infrastructure will increase from \$682.788 million in 2017 to an anticipated \$1.513 billion by year end in 2027, representing 13.1% of the asset replacement value.
- It is anticipated that Transportation Services' SOGR backlog will continue to increase over the 10-year planning period based on newly completed field assessments because of the upcoming wave of aging infrastructure.

Chart 4b
SOGR Funding & Backlog
excluding the *F.G. Gardiner* (In \$000s)

Table 4
SOGR Backlog by Asset Category (In \$000s)

Total	2018	2019	2020	2021	2022	2023	2024	2025	2026	2027

Laneways										
State of Good Repair Funding	(7,950)	(7,962)	(8,082)	(8,204)	(8,329)	(8,454)	(8,582)	(8,712)	(8,843)	(8,978)
Accumulated Backlog Est. (yr end)	53,650	61,612	69,695	77,899	86,228	94,682	103,264	111,977	120,820	129,798

*A provisional asset value of \$3.696 billion (2017) has been included for the F.G. Gardiner, including additional SOGR funding of \$1.340 billion required post 2027, but is not considered as backlog at this time. Transportation Services is expected to update its asset value and accumulated SOGR backlog as part of the 2019 – 2028 Capital Budget and Plan submission.

- The SOGR backlog for Bridge Rehabilitation will increase from \$33.401 million in 2018 to \$95.231 million by 2027.
 - This is based on current information, however engineering assessments of the condition of bridge structures may result in further SOGR funding needs as part of the 2019 Budget process.
- The Laneway SOGR backlog will increase from \$53.650 million in 2018 to \$129.798 million by 2027.
- It is important to note that despite the additional level of SOGR funding provided for Major and Local Roads in previous budget processes, the SOGR backlog is anticipated to increase from \$116.722 million in 2018 to \$364.508 million by 2027 for Major Roads, and from \$499.074 million in 2018 to \$883.286 million by 2027 for Local Roads.

10-Year Capital Plan: Net Operating Budget Impact

Table 5
Net Operating Impact Summary (In \$000s)

Projects	2018 Budget		2019 Plan		2020 Plan		2021 Plan		2022 Plan		2018 - 2022		2018 - 2027	
	\$000s	Position	\$000s	Position	\$000s	Position	\$000s	Position	\$000s	Position	\$000s	Position	\$000s	Position
Previously Approved														
Bridges	4.5										4.5	-	4.5	-
Cycling Infrastructure	117.1										117.1	-	117.1	-
New Roads	91.3										91.3	-	91.3	-
New Sidewalks	127.5										127.5	-	127.5	-
Total (Net)	340.4	-	-	-	-	-	-	-	-	-	340.4	-	340.4	-

- Approval of the 2018 Capital Budget will increase the 2018 Operating Budget by a total of \$0.340 million net, as shown in the table above. In 2018 Transportation Services will require additional operating funding of \$0.340 million for maintaining new transportation infrastructure including roads, bridges, cycling infrastructure and sidewalks.
- There are no operating impacts identified beyond 2018.

Part 2

Issues for Discussion

Issues Impacting the 2018 Capital Budget

Review of Capital Projects and Spending

- City Council, at its meeting of May 25, 2017 considered the report entitled "2018 Budget Process – Budget Directions and Schedule EX25.18" and directed that City Programs and Agencies submit their 2018 – 2027 Capital Budget and Plans requiring that:
 - annual cash flow funding estimates be examined to more realistically match cash flow spending to project activities and timing, especially in the first 5 years of the Capital Plan's timeframe.
<http://app.toronto.ca/tmmis/viewAgendaItemHistory.do?item=2017.EX25.18>
- Based on Council's direction a detailed review of Transportation Services' 2018 - 2027 Capital Budget and Plan requirements and historical spending was completed to ensure that cash flows are aligned with actual expenditures, emphasizing a "gated" approach, so that the key phases (i.e. concept, design, construction, etc.) are budgeted in the appropriate years. The Transportation Services' 2018 - 2027 Capital Budget and Plan was adjusted accordingly, including investigating opportunities to reduce overall debt funding and/or leverage non-debt funding sources.
- As reflected in the table below, from 2012 to 2016, Transportation Services had an average annual capital spending rate of \$237.737 million or 62.5% of an average annual Capital Budget of \$380.313 million.
- The projected spending rate for 2017 of \$329.346 million or 63.5% is slightly above the previous 5 year average of 62.5%.

Chart 5
Capital Spending Rates, by Category
(In \$000s)

Category	2012			2013			2014			2015			2016			Spending Rate 5 Year 2012-2016	2017

* 2017 Projection based on the 2017 Q3 Capital Variance Report

- Given the significant increases in funding approved for previous 10-Year Capital Plans, Financial Planning, Engineering & Construction Services and Transportation Services reviewed Capital Budget strategies to assess capacity to spend and better align project funding levels with the proposed project budgets.
- The primary step taken to achieve increased levels of spending was applying a greater level of multi-year cash flow commitments for major ongoing capital work so that Transportation Services could enter into longer term multi-year capital project awards, resulting in more consistent / higher levels of annual capital spending.
- Additional strategies applied to further improve capital spending included:
 - A review of annual cash flow funding for multi-year projects, ensuring they reflect historical spending patterns (i.e. initial years for design and feasibility followed by cash flow for construction consistent with typical project durations); and
 - A review of project readiness, resulting in deferred or accelerated cash flows depending on the anticipated commencement of construction.
- The spending rate for Transportation Services' capital program is anticipated to increase in 2018, following the cash flow funding adjustments identified in a capital program review, which occurred as part of the 2018 Budget process.
- Based on this review, within the 10-year timeframe the Capital Budget and Plan were adjusted resulting in both the deferral of debt funding in the early years to later years and the reduction of \$52.980 million in debt funding overall. The adjustments were primarily related to the following projects:
 - *Local Road Rehabilitation;*
 - *Major Road Rehabilitation;*
 - *Ingram Drive Extension – Grade Separation;*
 - *King-Liberty Pedestrian & Cycling Bridge;*
 - *Port Union Road;*
 - *Scarlett/St Clair/Dundas;*
 - *St. Clair Transportation Management Plan: Keele to Old Weston;* and
 - *Legion Road Extension & Grade Separation.*
- Financial Planning and Transportation Services staff will continue to review actual expenditures for Transportation Services' projects and, if required, will develop mitigating strategies to improve annual spend rates in the future.

2018 - 2027 Capital Plan vs Debt Targets

- The Transportation Services 2018-2027 Capital Budget and Plan exceeds the debt target by \$17.107 million over the 10-year period. However, as a result of the review of cash flows, \$66.129 million in debt has been deferred from 2018 to 2019 – 2021 in the Capital Plan, as follows:

(\$000s)	2018	2019	2020	2021	2022	2023	2024	2025	2026	2027	Total
2018 - 2027 Capital Plan	372,045	535,884	553,625	552,078	557,426	540,058	1,265,167	259,376	265,418	267,224	5,168,301

Unmet Capital Projects Included in the 10-Year Capital Plan

- As a result of the capacity to spend review and the reduced debt requirements, the 2018 - 2027 Capital Budget and Plan for Transportation Services includes increased funding of \$19.630 million for Transportation Services' projects that were identified as high priority unfunded needs.
 - *Glen Road Pedestrian Bridge* – Funding of \$12.630 million has been added in 2019. The bridge has experienced significant deterioration, which resulted in emergency closure in 2014. Rehabilitation work to strengthen the bridge was completed, extending the timeframe to allow for a study to be completed to determine the future of the crossing. It is anticipated that the bridge can remain open until 2019.
 - *York Street Tunnel* – Funding of \$7.000 million has been added in 2019. This represents the City's contribution to the construction of the York Street Tunnel to further extend the PATH system along York Street south of Bremner Boulevard.

Public Transit Infrastructure Fund

- At its meeting on November 7, 8 and 9, 2017, City Council authorized the City Manager, in consultation with the Chief Financial Officer, to make amendments to the Public Transit Infrastructure Fund Phase 1 Project List as previously approved by City Council on December 13, 2016 (Item EX20.4: Federal Infrastructure Funding – Phase 1 and 2), as may be required from time to time by adding, deleting or changing project scope to advance project implementation and to meet federal timelines.
- EX28.3 Public Transit Infrastructure Fund Phase 1 Update, adopted by City Council on November 7, 2017: <http://app.toronto.ca/tmmis/viewAgendaItemHistory.do?item=2017.EX28.3>
- EX20.4 Federal Infrastructure Funding – Phase 1 and 2, adopted by City Council on December 13, 2016: <http://app.toronto.ca/tmmis/viewAgendaItemHistory.do?item=2016.EX20.4>
- Amending or altering project scope is subject to the following conditions:
 - the project has been approved by City Council within the 10-Year Capital Budget and Plan, and has a capital financing strategy which assumed future Provincial or Federal funding, or City Council gave direction to seek intergovernmental funding for unfunded (below-the-line) projects within the 10-Year Capital Budget and Plan;
 - the project meets the Public Transit Infrastructure Fund Phase 1 program criteria, including meeting the overall annual program cash flow and completion deadlines;
 - consideration has been given to best practices in capital planning and budgeting, including the prioritizing of projects that maintain assets in a state of good repair, and prioritizing larger projects that facilitate more efficient administration of the Public Transit Infrastructure Fund program; and
 - Toronto Transit Commission Board authority has been obtained to proceed with Toronto Transit Commission projects.
- It is anticipated that adjustments to Transportation Services' PTIF projects will be made to reflect updates as a result of scope changes and project cost estimates, subject to appropriate budget approvals and conditions as outlined above.

Capital Financing Strategy

- In order to manage the significant funding required to address SOGR for major roads and the F.G. Gardiner Expressway, Transportation Services is continuing its reliance on the capital financing strategy introduced in 2013 to fund specific capital projects.
- \$732.303 million from the Capital Financing Reserve is required to fund Transportation Services' 2018 – 2027 Capital Budget and Plan, provided by the capital financing reserve that utilizes proceeds from:
 - Surplus operating funds in accordance with the City's surplus distribution policy;
 - Municipal Land Transfer Tax (MLTT) revenue above the base estimates included in the 2018 Operating Budget;
 - Development Charge revenue increases anticipated to be generated following completion of the 2018 Development Charges By-Law review;
 - Build Toronto dividends; and
 - Toronto Parking Authority one-time dividends.
- It is anticipated that the capital financing strategy will continue to help fund Transportation Services' capital program into future years, as funding utilized to support the completion of capital work required for the F.G. Gardiner Expressway and avoid debt borrowing and associated debt servicing costs in the City's Operating Budget.

Reporting on Existing Major Capital Projects: Status Update

In compliance with the Auditor General's recommendations, additional status reporting on all major capital projects is required in order to strengthen accountability, manage risks, improve controls and ensure successful implementation/completion of major capital projects. The following projects have been reported on a quarterly basis during 2017:

Strategic Rehabilitation of the F.G. Gardiner Expressway

(\$000s)	Total Project Cost		2017		2018	2019	2020	2021	2022	2023	2024	Projection to End of Project	End Date			
Initial Approval Date	Approved	Life to Date Expenditures as at Dec 31, 2016	Budget	Year-End Projection*	Budget	Plan	Plan	Plan	Plan	Plan	Plan		Planned	Revised	On Budget	On Time
2012	2,440,926	134,257	26,726	13,400	73,370	216,770	244,750	251,650	253,550	258,850	1,000,600	2,447,197	TBD (subject to completion of design phase)	N/A	①	③

* Based on 2017 Q3 Capital Variance Report

On/Ahead of Schedule	③	>70% of Approved Project Cost
Minor Delay < 6 months	①	Between 50% and 70%
Significant Delay > 6 months	②	< 50% or > 100% of Approved Project Cost

Project Scope:

- The *Strategic Rehabilitation of the F.G. Gardiner Expressway* is a complex, large scale, capital construction project that addresses the immediate, short and long-term rehabilitation needs of the F.G. Gardiner Expressway over the next 25 years. It is the single largest construction project the City has undertaken.
- The Strategic Rehabilitation of the *F.G. Gardiner Expressway* project comprises:
 - Rehabilitation west of Cherry Street – For the section of the Gardiner Expressway west of Cherry Street to Highway 427, work to rehabilitate the expressway will proceed as a series of contracts utilizing the traditional design-bid-build (DBB) approach to construction.
 - Rehabilitation east of Cherry Street – The eastern section of the Gardiner Expressway involves construction of new elevated bridge decks connecting the Expressway to the Don Valley Parkway based on a Hybrid Design identified through the Environmental Assessment process. This section is also subject to

integration and coordination with the Metrolinx Rail Track Expansion/Unilever GO Station Project and the Port Lands Flood Protection Project.

- The construction itself is being delivered as a series of contracts, as follows:
 - Section 1 – Superstructure replacement of the elevated main line from Jarvis Street to Cherry Street including rehabilitation of all impacted ramp structures.
 - Section 2 – Superstructure replacement of the elevated main line from Bent 35 to the west abutment of the elevated portion of the Gardiner including rehabilitation of all impacted ramp structures.
 - Section 3 – Reconstruction of the at-grade main line Gardiner from Grand Avenue to the Humber River, including rehabilitation of all overpasses and underpasses including rehabilitation of all impacted ramps.
 - Section 4 – Superstructure Replacement of the elevated main line from Bathurst Street to York Street including rehabilitation of all impacted ramp structures.
 - Section 5 – Reconstruction of the at-grade main line Gardiner from Grand Avenue to Highway 427, including rehabilitation of all overpasses and underpasses and rehabilitation of all impacted ramps
 - Section 6 – Implementation of the Gardiner East Environmental Assessment – Hybrid 3 option including:
 - a. Removal of the existing structure from Cherry Street to the east limit, including the ramps:
 - i. To/from Lake Shore Blvd
 - ii. To/from the DVP
 - b. Construction of the Gardiner at a new alignment from Cherry Street to the DVP including new ramps:
 - i. To/from the DVP
 - ii. To/from Lake Shore Blvd at Cherry Street
 - c. Public Realm enhancements on Lake Shore Blvd from Jarvis Street to Don Roadway
 - Section 7 – Reconstruction of the at-grade main line Gardiner from the Humber River to the west abutment of the elevated portion of the Gardiner, east of Dufferin Street including rehabilitation of all overpasses and underpasses and all impacted ramps.
- Actions to minimize traffic disruption during construction will be implemented as and where appropriate. Construction methodologies, such as an Accelerated Bridge Construction approach for the "elevated" section of the Expressway, will be used, where feasible (e.g. in some areas site constraints such as residential or commercial structures abutting the Expressway may preclude this approach) to shorten the construction schedule. To further compress the construction schedule, work on the "at-grade" sections could be bundled with the replacement of the deck along the "elevated" sections, thereby relying on one set of traffic restrictions to support multiple construction activities running concurrently.
- To further minimize traffic disruption, terms and conditions will be incorporated in the construction contracts to incentivize contractors to complete projects ahead of schedule, where feasible. The contracts could also have a provision to assign a prescribed lane rental fee, charged to the contractor, for each day the specified completion time is delayed.

Project Deliverables and Status:

- For the most part, work on the *Strategic Rehabilitation of the F.G. Gardiner Expressway* has proceeded as planned:
 - Replacement of the West Deck and Interim Repairs, which are ancillary projects to the Strategic Rehabilitation are complete. The West Deck Replacement project was underspent by approximately \$7.5 million and the Interim Repairs project was underspent by approximately \$2.5 million. Acceleration of the projects, limited use of contingencies, combined with adoption of methodologies to manage the construction to achieve best value while ensuring project quality conformed to City requirements contributed to the underspending.

- Rehabilitation West of Cherry Street.
 - Work on the rehabilitation of the "elevated" section of the Gardiner Expressway from Jarvis Street to Cherry Street is the immediate first priority because it is at the end of its service life.
 - The detailed engineering design for the section from Jarvis Street to Cherry Street (Section 1) was completed in 2017.
 - A Request for Qualifications was publicly released in November 2017 to pre-qualify contractors for the following scope of work:
 - rehabilitation of the main line, including the replacement of the superstructure, deck, parapet walls, expansion joints, signs, lighting and Rescu Plant (traffic management system) on the elevated Gardiner from Jarvis Street to Bent 294, which is approximately 80m west of Cherry Street;
 - rehabilitation of the York/Bay/Yonge off-ramp from the westbound Gardiner;
 - rehabilitation of the Sherbourne westbound off-ramp from the westbound Gardiner;
 - rehabilitation of the Jarvis eastbound on-ramp to the eastbound Gardiner;
 - installation of new drainage on the elevated structure; and,
 - minor concrete repairs to the substructure to facilitate new bearing installation and drainage modifications.

Project Challenges:

- Issuance of the procurement documents for Section 1 has been delayed to early 2018, which will impose a pressure on the construction timetable.
- The design for the public realm elements associated with the eastern portion of the Expressway has been deferred to 2018.
- As the project is still in the early stage of delivery, staff will mitigate risks to the overall rehabilitation timetable by investigating and adopting where appropriate constructability changes, minor scope adjustments, and consideration of different construction methodologies, reliance on extended work hours, including overnight work, and contract terms and conditions that incentivize expedite performance while maintaining quality.

Financial Update:

- As of December 31, 2016, total cumulative expenses since the inception of the project were \$134.3 million.
- In 2017, the projected expenditures include:
 - \$2.5 million for up-close inspections of the entire length of the elevated sections of the Expressway to confirm priorities and as input to the detailed design for Section 1.
 - \$1.5 million for the design assignment for Section 1 – Superstructure replacement of the elevated main line from Jarvis Street to Cherry Street including rehabilitation of all impacted ramp structures – was awarded in March, and the design was completed by November 2017.
 - \$2.0 million, which had been invoiced by Infrastructure Ontario for prior year consulting work on the previous (Alternative Financing and Procurement) rehabilitation approach was paid.
- The 2018 costs are budgeted at \$73.4 million, which represents a reduction of \$41.5 million from the 2017 planned estimate for 2018 and is due to a revised assessment of construction timing for the first sections of the project.
- These planned costs were redistributed to 2020 (\$20.0 million) and 2021 (\$21.5 million). This redistribution and future commitments in the 2018 – 2027 Capital Budget and Plan will ensure that multi-year cash flow funding is available and will permit the award of the first set of multi-year engineering and construction consultant contracts.

Anticipated Future Financial Impact:

- There is no immediate net operating impact associated with the Strategic Rehabilitation of the F.G. Gardiner Expressway since maintenance and operational activities on the Expressway will be ongoing as the project is being delivered. Over the longer term, however, the rehabilitated sections are expected to require a reduced level of maintenance (e.g. less re-surfacing) because the service life of the structure will have been extended.
- Additional SOGR funding of \$1.340 billion is required post 2027 for maintenance to ensure the F. G. Gardiner Expressway is maintained in a state of good repair, but is not considered as backlog at this time.

Issues Impacting the 10-Year Capital Plan

Unmet Needs

- The "Unmet Capital Needs" identified by Transportation Services, and shown in the table below, cannot be accommodated within the City's debt affordability targets given the limitations on debt servicing costs and are therefore not included in the 2018 – 2027 Capital Budget and Plan.
- Various projects are unfunded, the largest being Local Road Rehabilitation and Major Road Rehabilitation projects which total \$2.440 billion over the 10-year period.
- This list will be refined on an annual basis, with projects potentially added to the Capital Plan through project reprioritization and/or additional secured funding.
- For 2018, priority is given to completing PTIF projects and establishing strategies to increase spending rates of current funding provided in the 10-Year Capital Plan.

Unmet Needs – Projects Excluded due to Funding Constraints (In \$000s)

Project Description (In \$000s)	Total Project Expenditure	Non-Debt Funding	Debt Required	2018	2019	2020	2021	2022	2023	2024	2025	2026	2027

Issues Referred to the 2018 Capital Budget Process

Public Transit Infrastructure Fund

- At its meeting on November 7, 8 and 9, 2017, City Council authorized the City Manager, in consultation with the Chief Financial Officer, to make amendments to the Public Transit Infrastructure Fund Phase 1 Project List as previously approved by City Council on December 13, 2016 (Item EX20.4: Federal Infrastructure Funding – Phase 1 and 2), as may be required from time to time by adding, deleting or changing project scope to advance project implementation and to meet federal timelines.
- City Council authorized a budget adjustment of \$2.000 million in PTIF funding from Transportation Services' 2017 Approved Capital Budget to the Toronto Parking Authority. In addition, as part of the 2018 Capital Budget process, City Council approved the transfer of a further \$2.000 million in Public Transit Infrastructure Fund (PTIF) funding from Transportation Services' 2018 Capital Budget to the Toronto Parking Authority for the Bike Share program.
- EX28.3 Public Transit Infrastructure Fund Phase 1 Update, adopted by City Council on November 7, 2017: <http://app.toronto.ca/tmmis/viewAgendaItemHistory.do?item=2017.EX28.3>
- EX20.4 Federal Infrastructure Funding – Phase 1 and 2, adopted by City Council on December 13, 2016: <http://app.toronto.ca/tmmis/viewAgendaItemHistory.do?item=2016.EX20.4>

New Provincial Courthouse Streetscape Improvements

- On July 4, 2017 City Council authorized and directed Transportation Services to include \$2.500 million, fully funded by Section 37 funds to be considered as part of the 2018 – 2027 Capital Budget and Plan process, for the purposes of streetscape improvements at the new provincial courthouse at 11 and 33 Centre Avenue and 80 Chestnut Street.
 - MM31.43 Allocation of Section 37 Funds from the Development at 454-456 Yonge St. for Streetscape Improvements and Other Matters Relating to the Development of the New Provincial Courthouse at 11-33 Centre Ave. and 80 Chestnut St.
<http://app.toronto.ca/tmmis/viewAgendaItemHistory.do?item=2017.MM31.43>
- The City's contribution of \$2.500 million will go towards external infrastructure improvements and includes a five-year escalation, HST and a one-time Paver Maintenance Fee.
- Infrastructure Ontario is coordinating, and is responsible for, the development of the new provincial courthouse, including the City's financial contribution towards streetscape improvements. The expected completion of the streetscape improvements is 2021.
- Funding of \$2.500 million (Section 37 funds) has been added to the 10-Year Capital Plan in 2021.

Appendices

Appendix 1

2017 Performance

2017 Key Accomplishments

In 2017, Transportation Services made significant progress on and/or accomplished the following:

- ✓ Major Strategic Plans:
 - Continue ongoing implementation of:
 - Congestion Management Plan
 - Vision Zero Road Safety Plan
 - 10 Year Cycling Network Plan
- ✓ F.G. Gardiner West Deck Rehabilitation
- ✓ Redlea Avenue Extension from Steeles Avenue East to McNicoll Avenue
- ✓ Major Road Rehabilitation projects including:
 - Ellesmere Rd from Morningside Avenue to Orton Park Road
 - Sheppard Avenue West from Keele Street to Dufferin Street
 - Kipling Avenue from Lake Shore Blvd to Evans Avenue
 - Parliament Street from Bloor Street East to Wellesley Street East
- ✓ Engineering Studies including:
 - Steeles / Stouffville GO Grade Separation Environmental Assessment
 - Glen Road Pedestrian Bridge Environmental Assessment
 - New East-West Road: Rean to Kenaston Gardens EA
 - Downsview Major Roads EA

2017 Financial Performance

2017 Budget Variance Analysis (in \$000's)

2017 Budget	As of Sept. 30, 2017		Projected Actuals at Year-End		Unspent Balance	
\$	\$	% Spent	\$	% Spent	\$ Unspent	% Unspent
519,048	126,519	24.4%	329,346	63.5%	189,702	36.5%

* Based on 2017 Q3 Capital Variance Report

Transportation Services is forecasted to spend \$329.346 million or 63.5% of its 2017 Approved Capital Budget by year-end with underspending primarily attributed to PTIF related projects. Excluding PTIF projects, Transportation Services is forecasting to spend 71.0% of its 2017 Approved Capital Budget by year-end.

For additional information regarding the 2017 Q3 capital variances and year-end projections for Transportation Services, please refer to the link below for the report entitled "*Capital Variance Report for the Nine-Month Period Ended September 30, 2017*" that was considered by City Council at its meeting on December 5, 2017.

<http://app.toronto.ca/tmmis/viewAgendaItemHistory.do?item=2017.BU37.1>

Impact of the 2017 Capital Variance on the 2018 Capital Budget

- The rate of spending is consistent with project schedules for construction as most are weather and/or temperature dependent. Typically, the majority of cash flow funding is spent during the traditional construction through to the latter part of the year, after contracts are tendered and awarded. Most of the year-end underspending is anticipated in capital projects that require third party coordination and/or funding; community consultation; have issues with site conditions; and/or are development/transit dependent.
- As a result of the delays in the capital projects, as described in the 2017 Q3 Variance Report, funding of \$150.011 million is being carried forward into the 2018 Capital Budget to continue the capital work.
- A detailed review of the 2018 Budget and 2019 – 2027 Capital Plan has been conducted and the necessary adjustments have been made to the timing of the cash flow funding for the capital projects which are the major contributors to annual under expenditures (as discussed in the Issues section of these Notes).
- By deferring the cash flow funding to future years, the 2018 Capital Budget reflects readiness to proceed and will lead to a higher rate of spending.

Appendix 2

2018 Capital Budget 2019 - 2027 Capital Plan Including Carry Forward Funding (\$000s)

Project	Total Project Cost	Prior Year Carry Forward	2018	2019	2020	2021	2022	2018 - 2022	2023	2024	2025	2026	2027	2018 - 2027 Total
