

2018 StreetARToronto Community Garden Murals Project

In honour of the City of Toronto's declaration of Urban Agriculture Week from September 8 to 16, 2018, the Transportation Services Division's StreetARToronto program invites community garden groups to submit a Proposal to install a street or graffiti art mural on a shed, storage container, wall or other piece of infrastructure within the community garden area.

This project is being implemented by **StreetARToronto (StART)**, part of the Public Realm Section of the City of Toronto's Transportation Services Division in coordination with Toronto Urban Growers (TUG).

Background and Guiding Themes

Toronto Urban Growers (TUG), on behalf of its members and supporters, requested that the City of Toronto declare September 8 to 16, 2018 as Urban Agriculture (UA) Week. Mayor John Tory will make an official proclamation and a series of events will be held to celebrate. To assist with celebrations and awareness of the importance of Urban Agriculture, StreetARToronto has agreed to support up to five (5) mural projects coordinated by community garden groups on a shed, storage container, wall or other piece of infrastructure within the community garden area.

Design concepts are open but should reflect the garden and its neighbourhood. Linkages with community involvement as well as growing food and flowers can be considered. Applicants are also encouraged to engage with qualified artists whose work is known and appreciated in the neighbourhood where the garden is situated. Designs and artwork are subject to final approval by the City of Toronto.

Funding

StART will provide a \$500 honorarium to up to five (5) community garden groups for mural and street art installations that tackle graffiti vandalism and beautify community gardens. The artwork is expected to be completed by August 26, 2018. Honorariums must be used to compensate an artist and pay for the materials required to install the mural and will be provided upon completion of the mural.

Some larger projects may be eligible to receive additional funding for materials, at the sole discretion of the City of Toronto.
