Prevailing By-laws and Prevailing Sections: (None Apply)

(566) Exception CR 566

The lands, or portion thereof as noted below, are subject to the following Site Specific Provisions, Prevailing By-laws and Prevailing Sections.

Site Specific Provisions:

- (A) On 210 Bloor Street West, if the requirements of Section 6 and Schedule A of By-law 782-2022(OLT) are complied with, a **building** or **structure** may be constructed, used or enlarged in compliance with Sections (B) to (DD) below;
- (B) For the purposes of this exception, the **lot** comprises the lands identified by heavy lines on Diagram 1 attached to By-law 782-2022(OLT);
- (C) The provision of **dwelling units** is subject to the following:
- (i) a minimum of 25 percent of the total number of **dwelling units** must have two or more bedrooms; and
  - (ii) if the calculation of the number of required **dwelling units** with two or three bedrooms results in a number with a fraction, the number shall be rounded down to the nearest whole number;

- (D) Despite Regulations 40.5.40.10(1) and (2), the height of a **building** or **structure** is the distance between the Canadian Geodetic Datum of 113.25 metres and elevation of the highest point of the **building** or **structure**;
- (E) Despite Regulation 40.10.40.10(2), the permitted maximum height of a **building** or **structure** is the number following the HT symbol in metres as shown on Diagram 3 of By-law 782-2022(OLT);
- (F) Despite Regulations 40.5.40.10(3) to (8) and (D) above, the following equipment and **structures** may project beyond the permitted maximum height shown on Diagram 3 of By-law 782-2022(OLT):
  - (i) guard rails, railings and dividers, terraces, **landscaping** features and planters, lighting fixtures by a maximum of 3.0 metres;
  - (ii) equipment used for the functional operation of the **building** including electrical, utility, mechanical penthouses, mechanical and ventilation equipment, roof access, generators, enclosed stairwells, roof access, roof drainage, maintenance equipment storage, cooling towers, parapets, screen, stairs, roof drainage, elevator shafts and overruns, chimneys, equipment used for the exterior maintenance of the **building** and vents by a maximum of 7 metres; and
  - (iii) lightning rods, **structures** used for safety, and window washing equipment, by a maximum of 7 metres;
- (G) Despite Regulation 40.5.40.60(2), an awning, canopy or similar **structure** may be located more than 5.0 metres above the elevation of the ground directly below it;
- (H) Despite Regulation 40.10.40.10(5), a mezzanine does not constitute a **storey**;
- (I) Despite Regulation 40.10.40.40(1), the permitted maximum **gross floor area** for residential and non-residential uses is 16,220 square metres, of which:
  - (i) the permitted maximum **gross floor area** for residential uses is 16,100 square metres; and
  - (ii) the permitted maximum **gross floor area** for non-residential uses is 120 square metres;
- (J) Despite Regulation 40.10.40.50(1), **amenity space** must be provided in accordance with the following:
  - (i) a minimum of 4.0 square metres per unit of indoor **amenity space** must be provided; and
  - (ii) no outdoor **amenity space** will be required;
- (K) Despite Regulation 40.10.40.70(2), the required minimum **building setbacks** are as shown in metres on Diagram 3;
- (L) Despite Regulation 40.10.40.80(2), the required separation of **main walls** are as shown in metres on Diagram 3;
- (M) Despite Clause 40.10.40.60 and (K) above, the following elements may encroach into the required minimum **building setbacks** and **main wall** separation distances as follows:
  - (i) cornices, light fixtures, ornamental elements, parapets, art and landscape features, architectural elements, patios, decks, pillars, trellises, eaves, window sills, planters, ventilation shafts, guardrails, balustrades, railings, stairs, stair enclosures, doors, wheelchair ramps, fences, screens, site servicing features, and underground garage ramps and associated **structures**, to a maximum of 1.0 metre;
  - (ii) awnings and canopies in a **rear yard** or **front yard**, to a maximum of 2.5 metres;
  - (iii) balconies, which may extend to a maximum of 3.0 metres; and
  - (iv) equipment used for the exterior maintenance of the **building** and window washing equipment to a maximum of 7.5 metres;
- (N) Despite Regulation 200.5.1(3), the minimum **drive aisle** width shall be 5.25 metres;
- (O) Despite Regulation 200.5.1.10(2), **parking spaces** and related platforms shall have dimensions of not less than 2.4 metres wide by 5.4 metres long and may not be readily accessible at all times without maneuvering another **vehicle** or a device;
- (P) Despite Regulation 200.5.1.10(12)(A), the **vehicle** entrance and exit for a two-way **driveway** into and out of the **building** must have a minimum width of 4.5 metres;
- (Q) Despite Regulation 200.5.1.10(13), access to a **parking space** may be provided by motor **vehicle** elevators, provided each motor **vehicle** elevator is readily accessible at all times for the parking and removal of a motor **vehicle** and a minimum of two (2) motor **vehicle** elevators are provided and maintained in the **building** for the use of residents;

- (R) Despite Regulation 200.5.10.1(1) and Table 200.5.10.1, **parking spaces** must be provided and maintained on the **lot** in accordance with the following requirements:
- (i) a maximum of 84 **parking spaces** will be provided for residents of the **mixed-use building**;
  - (ii) no **parking spaces** are required for residential visitors;
  - (iii) no **parking spaces** are required for non-residential uses; and
  - (iv) required **parking spaces** may be provided in a **parking stacker** within a below **grade** parking garage on the **lot** accessed by vehicular elevators;
- (S) Despite Regulation 200.15.10(1), no accessible **parking spaces** shall be provided;
- (T) Despite Regulation 220.5.10.1(2), the **building** will provide a Type "C" **loading space**;
- (U) Despite Regulations 220.5.20.1(1) and (2), the **driveway** accessing a **loading space** will have a minimum width of 4.5 metres for **driveway** access and a minimum vertical clearance along its entire length of 3.1 metres;
- (V) Regulation 230.5.1.10(7), with respect to shower and change facilities for non-residential uses, does not apply;
- (W) Despite Regulation 230.5.1.10(4)(B), the minimum dimension of a **bicycle parking space** if placed in a vertical position on a wall, **structure** or mechanical device is:
- (i) minimum length or vertical clearance of 1.2 metres;
  - (ii) minimum width of 0.46 metres; and
  - (iii) minimum horizontal clearance from the wall of 1.2 metres;
- (X) Regulation 230.40.1.20(2) with respect to the location of a "short-term" **bicycle parking space** relative to a **building** entrance, does not apply;
- (Y) Despite Regulation 230.5.1.10(9)(B), "long-term" and "short-term" **bicycle parking spaces** for **dwelling units** may be located anywhere above or below ground in the **building**, provided that all "short-term" **bicycle parking spaces** are publicly accessible;
- (Z) Regulation 230.5.1.10(9)(A)(iii) and (B)(iii), with respect to the location of a "long-term" **bicycle parking space**, does not apply;
- (AA) Despite Regulation 230.5.1.10(10), "long-term" and "short-term" **bicycle parking spaces** for **dwelling units** may be provided in any combination of vertical, horizontal or stacked positions;
- (CC) Despite Regulations 600.20.10(1)(A) and (B), the first **storey** of a **mixed-use building** must provide a minimum of 50 percent of the **lot frontage** abutting the priority retail street for those uses described in Regulations 600.20.10(1)(A) and (B);
- (DD) Despite any existing or future severance, partition or division of the lands outlined by heavy lines on Diagram 1 of By-law 782-2022(OLT), the provisions of this by-law shall apply as if no severance, partition or division occurred.

(577) Exception CR 577

The lands, or a portion thereof as noted below, are subject to the following Site Specific Provisions, Prevailing By-laws and Prevailing Sections:

Site Specific Provisions:

- (A) On 361 Davenport Road, if the requirements of By-law 593-2022 are complied with, a **building** or **structure** may be constructed, used or enlarged in compliance with Regulations (B) to (Q) below;
- (B) Despite Regulations 40.5.40.10(1) and (2), the height of a **building** or **structure** is the distance between the Canadian Geodetic Datum of 120.97 metres and the elevation of the highest point of the **building** or **structure**;
- (C) Despite Regulations 40.5.40.10(4), (5), (6) and (7), the following **building** elements may exceed the maximum permitted **building** height specified on Diagram 6 of By-law 593-2022:

- (i) terrace or balcony guards, screens and dividers, guards, guardrails, fences, retaining walls, landscape elements located on the roof used for outside or open-air recreation purposes, planters and ornamental elements to a maximum of 3.0 metres;
  - (ii) cornices, parapets, roof drainage, thermal insulation and roof ballast, balustrades, window washing equipment, **green roof** elements, vents, flues, pipes, access roof hatch and safety railings, and **structures** located on the roof used for safety or wind protection purposes, to a maximum of 3.0 metres; and
  - (iii) elevator overrun, cooling tower, stairs, stair enclosures, screens, architectural elements, heating, cooling or ventilating equipment, wall or **structure** enclosing elements, and partitions generally within the mechanical penthouse, including **structures** or parts of the **building** above the height of 24.7 metres used for functional operation of the **building**, to a maximum of 5.4 metres, as shown in Diagram 6 of By-law 593-2022;
- (D) Despite Regulation 40.10.40.10(2), the maximum permitted height of any **building** or **structure** is the height in metres specified by the number following the HT symbol as shown in Diagram 6 of By-law 593-2022;
- (E) In addition to the requirements in (C) and (D) above, the sloped portions of the roof, including elements for the functional operation of the **building**, shall not exceed the slope as indicated on Diagram 6 of By-law 593-2022;
- (F) Regulations 40.10.40.70(2)(E) and (G) regarding **angular plane** requirements do not apply;
- (G) Despite 40.10.50.10(1) and (3), a minimum 1.5 metre wide strip of land used only for **soft landscaping** must be provided along 40% of the part of the **lot line** abutting the **lot** in the Residential Zone category or Residential Apartment Zone category;
- (H) Despite Regulation 200.5.1.10(13), access to **parking spaces** will be provided by **vehicle** elevators with a minimum width of 2.8 metres, and must always be available for the parking and removal of a **vehicle**;
- (I) Despite Regulation 40.10.40.40(1), the permitted maximum **gross floor area** of all **buildings** and **structures** on the **lot** is 1,510 square metres, of which:
  - (i) the permitted maximum **gross floor area** for residential uses is 1,400 square metres; and
  - (ii) the required minimum **gross floor area** for non-residential uses is 56.0 square metres;
- (J) Despite Regulation 40.5.40.70(1) and Clause 40.10.40.70, the required minimum **building setbacks** are as shown in metres on Diagram 7 of By-law 593-2022;
- (K) Despite Regulation 200.5.10.1(1), Table 200.5.10.1 and Article 200.15.10, **parking spaces** must be provided in accordance with the following:
  - (i) A minimum of 7 **parking spaces** are required for residential uses;
  - (ii) no visitor **parking spaces** are required for any **dwelling unit** or non-residential uses;
  - (iii) no accessible **parking spaces** are required on the **lot**;
  - (iv) **parking spaces** may be provided and located in an "automated parking system";
    - (a) for the purpose of this exception, "automated parking system" means a mechanical system for the purpose of parking and retrieving cars without drivers in the **vehicle** during parking and without the use of ramping or **driveway** aisles, and which may include but is not limited to, a vertical lift and the storage of cars on parking pallets. Automated maneuvering of other **vehicles** may be required in order for cars to be parked or to be retrieved. For clarity, parking pallets will be considered as a **parking space** for the purpose of determining compliance with the requirements in City of Toronto Zoning By-law 569-2013 and relevant clauses in By-law 593-2022;
- (L) Despite Regulation 200.5.1.10(2), **parking spaces** provided within an "automated parking system" must have the following minimum dimensions:
  - (i) length of 5.19 metres;
  - (ii) width of 2.2 metres; and
  - (iii) vertical clearance of 2.0 metres;
- (M) Despite Regulation 230.5.10.1(1) and Table 230.5.10.1(1), **bicycle parking spaces** must be provided in accordance with the following minimum rates:

- (i) 1.0 "long-term" **bicycle parking spaces** for each **dwelling unit**;
  - (ii) 0.0 "short-term" **bicycle parking spaces** for each **dwelling unit**;
- (N) Despite Regulations 230.5.1.10(4), (5), (9) and (10):
- (i) "long-term" **bicycle parking spaces** may be provided in the form of a **stacked bicycle parking space** and must comply with the following minimum dimensions:
    - (a) vertical clearance of 1.5 metres;
    - (b) width of 0.5 metres; and
    - (c) length of 2.0 metres;
  - (ii) "long-term" **bicycle parking spaces** may be located within a secure room, enclosure or bicycle locker and may only be located at or above ground level;
  - (iii) "short-term" **bicycle parking spaces**, excluding outdoor circular/ring **bicycle parking spaces**, must comply with the following minimum dimensions:
    - (a) vertical clearance of 1.9 metres;
    - (b) width of 0.5 metres; and
    - (c) length of 1.9 metres;
- (O) The provision of **dwelling units** is subject to the following:
- (i) a minimum of 56 percent of the total number of **dwelling units** must have two or more bedrooms;
  - (ii) a minimum of 6 percent of the total number of **dwelling units** must have three or more bedrooms;
  - (iii) any **dwelling units** with three or more bedrooms provided to satisfy (ii) above may not be included in satisfying the requirements of (i) above; and
  - (iv) if the calculation of the number of required **dwelling units** with two or three bedrooms results in a number with a fraction, the number shall be rounded down to the nearest whole number;
- (P) Despite Regulations 40.10.40.10(2), 40.10.40.10(4) and (D) above, the permitted maximum height of a temporary sales office for the purposes of the marketing, rental, and sale of **dwelling units** and non-residential uses on the lands is 4.5 metres and 1 storey; and
- (Q) Article 600.10.10, with respect to Building Setback Overlay District "A", does not apply.

The lands, or a portion thereof as noted below, are subject to the following Site Specific Provisions, Prevailing By-laws and Prevailing Sections.

Site Specific Provisions:

- (A) On 4050 Yonge Street, as shown on Diagram 1 of By-law 788-2022(OLT), if the requirements of Section 10 and Schedule A of By-law 788-2022(OLT) are complied with, a **building** or **structure**, may be constructed, used or enlarged in compliance with (B) to (N) below;
- (B) Despite Regulation 40.5.40.10(1) and (2), the height of a **building** or **structure** is measured as the vertical distance between the Canadian Geodetic Datum elevation of 133.35 metres and the elevation of the highest point of the **building** or **structure**;
- (C) Despite Regulation 40.10.40.1(1), residential use portions of a **building** may be located above non-residential use portions of a **building**;
- (D) Despite Regulation 40.10.40.10(2), the permitted maximum height of any **building** or **structure** is the numerical value, in metres, following the letters "HT" as shown on Diagram 5 of By-law 788-2022(OLT);
- (E) Despite Regulations 40.5.40.10(3), (4), (5), (6), (7) and (8) and Regulation (D) above, the following elements of a **building** or **structure** may project above the permitted maximum heights shown on Diagram 5 of By-law 788-2022(OLT):

- (i) parapets, fences and safety railings, planters and elements or **structures** on the roof of the **building** used for outside or open-air recreation, safety or wind protection purposes, and landscape features, elements of a **green roof**, heating, ventilation or cooling equipment such as chimneys, mechanical roof, stacks and flues all of which may exceed the permitted maximum height by 3.5 metres;
- (F) Despite Regulation 40.10.40.40(1), the permitted maximum **gross floor area** is 51,250 square metres, of which:
  - (i) A minimum **interior floor area** of 1,500 square metres is required for all uses listed in Regulations 40.10.20.10(1)(A) and 40.10.20.20(1)(A), with the exception of office uses;
  - (ii) A minimum **interior floor area** of 3,900 square metres is required for office uses;
- (G) Despite Regulation 40.10.40.70(2) and 40.10.40.80(2), the required minimum **building setbacks** and **main wall separation distance** are as shown in metres on Diagram 5 of By-law 788-2022(OLT);
- (H) Despite Regulations 40.5.40.60(1), Clause 40.10.40.60 and (G) of this Exception, the following **building elements** and **structures** are permitted to encroach into the required minimum **building setbacks** and **main wall separation distance** shown on Diagram 5 of By-law 788-2022(OLT):
  - (i) cornices, lighting fixtures, architectural features, signs, ornamental **structures**, trellises, canopies, columns, window washing equipment, stairs, heritage features, mechanical fans, balustrades, safety or wind protection measures, elements of a **green roof** and landscape features, by a maximum of 1.8 metres;
- (I) Despite Regulation 200.5.10.1(1) and Table 200.5.10.1, **parking spaces** must be provided at a minimum rate of:
  - (i) for office, 1.0 **parking spaces** per 100 square metres of **gross floor area**, of which:
    - (a) the parking occupancy rate is 100 percent in the A.M., 100 percent in the P.M. and 10 percent in the evening;
  - (ii) for all uses listed in clauses 40.10.20.10 and 40.10.20.20, with the exception of **dwelling units, eating establishments**, and offices, 1.0 **parking spaces** per 100 square metres of **gross floor area**, of which:
    - (a) the parking occupancy rate is 35 percent in the A.M., 100 percent in the P.M. and 95 percent in the evening;
  - (iii) for **eating establishments**, 16 **parking spaces** per 100 square metres of **gross floor area**, of which:
    - (a) the parking occupancy rate is 30 percent in the A.M., 75 percent in the P.M. and 100 percent in the evening;
  - (iv) for visitors to **dwelling units**, 0.1 **parking spaces** for each **dwelling unit** in the **building**, of which:
    - (a) the parking occupancy rate is 10 percent in the A.M., 35 percent in the P.M. and 100 percent in the evening;
  - (v) for each **dwelling unit** in the **building**, 0.35 **parking spaces** for the use of residential occupants, of which:
    - (a) the parking occupancy rate is 100 percent in the A.M., P.M. and the evening; and
  - (vi) For the purpose of applying the parking occupancy rate in this exception, A.M. is 6:00 a.m. to 11:59 a.m., P.M. is 12:00 p.m. to 5:59 p.m., and evening is 6:00 p.m. to 5:59 a.m. the following day;
- (J) Despite Regulation (I) of this Exception, if a "car-share **parking space**" is provided the required **parking spaces** for residents of the **dwelling units** is reduced by 4 **parking spaces**, up to a maximum of 5 "car-share **parking spaces**";
- (K) For the purposes of this Exception:
  - (i) "Car-share" is the practice where a number of people share the use of one or more cars that are owned by a profit or non-profit car sharing organization and where such organization may require that use of cars be reserved in advance, charge fees based on time and/or kilometres

driven, and set membership requirements of the car-sharing organization, including the payment of a membership fee that may or may not be refundable; and

- (ii) a "car-share **parking space**" is a **parking space** that is exclusively reserved and actively used for "car-sharing";

(L) Despite Clause 220.5.10.1, **loading spaces** must be provided as follows:

- (i) 1 Type "G" **loading space**;
- (ii) 1 Type "B" **loading space**; and
- (iii) 2 Type "C" **loading spaces**; and

(M) Despite Regulation 230.40.1.20(2) a "short-term" **bicycle parking space** may be more than 30 metres from a pedestrian entrance to the **building** on the **lot**;

(N) A minimum of 10 percent of the total number of **dwelling units** on the **lot** must contain three or more bedrooms and a minimum 35 percent of the total number of **dwelling units** on the **lot** must contain two bedrooms or more.

Prevailing By-laws and Prevailing Sections: (None Apply)

(582) Exception CR 582

The lands, or a portion thereof as noted below, are subject to the following Site Specific Provisions, Prevailing By-laws and Prevailing Sections:

Site Specific Provisions:

- (A) The maximum **gross floor area** of all **buildings** is 0.42 times the area of the **lot**;
- (B) The maximum number of **dwelling units** permitted is 100.0 units per hectare;
- (C) The minimum **building setback** from a **lot line** abutting a **street** is 3.0 metres;
- (D) The permitted maximum **building** height is 10.5 metres; and
- (E) The minimum required **parking spaces** is:
  - (i) 2.4 **parking spaces** per 100.0 square metres of office **gross floor area**;
  - (ii) 10.0 **parking spaces** per 100.0 square metres of **eating establishment gross floor area**;
  - and
  - (iii) 1.25 **parking spaces** per **dwelling unit**.

Prevailing By-laws and Prevailing Sections: (None Apply)

(583) Exception CR 583

The lands, or a portion thereof as noted below, are subject to the following Site Specific Provisions, Prevailing By-laws and Prevailing Sections:

Site Specific Provisions:

- (A) Despite land use permissions for this zone, a **place of worship** is permitted if it complies with the specific use regulations in Section 150.50;
- (B) The permitted maximum **gross floor area**, not including the area of any **basements**, is the greater of:
  - (i) 40% of the **lot area**; or
  - (ii) the **gross floor area** that **lawfully** existed on the date of enactment of this By-law; and
- (C) The minimum **building setback** from a **lot line** that abuts a **street** is:
  - (i) the greater of 21.0 metres from the centre line of Kennedy Rd., or 3.0 metres from a **lot line** abutting Kennedy Rd.; and
  - (ii) 3.0 metres from a **lot line** abutting any **street** other than Kennedy Rd.

Prevailing By-laws and Prevailing Sections: (None Apply)

(584) Exception CR 584

The lands, or a portion thereof as noted below, are subject to the following Site Specific Provisions, Prevailing By-laws and Prevailing Sections:

Site Specific Provisions:

- (A) Despite land use permissions for this zone, **vehicle fuel stations, vehicle service shops, eating establishments, take-out eating establishments, amusement arcades, and ancillary amusement devices** are not permitted uses;
- (B) The only use permitted on the second **storey** is office;
- (C) The permitted maximum **gross floor area**, not including the area of any **basements**, is the greater of:
  - (i) 40% of the **lot area**; or
  - (ii) the **gross floor area** that **lawfully** existed on the date of enactment of this By-law; and
- (D) The permitted maximum height of a **building** is the greater of:
  - (i) one **storey**; or
  - (ii) the height that **lawfully** existed on the date of enactment of this By-law; and
- (E) The minimum **building setback** from a **lot line** that abuts Kennedy Rd. is the greater of 21.0 metres from the centre line of Kennedy Rd., or 3.0 metres from a **lot line** abutting Kennedy Rd.; and
- (F) The minimum **building setback** is:
  - (i) 1.5 metres from a **side lot line**; and
  - (ii) 0.9 metres from a **rear lot line**.

Prevailing By-laws and Prevailing Sections: (None Apply)

(585) Exception CR 585

The lands, or a portion thereof as noted below, are subject to the following Site Specific Provisions, Prevailing By-laws and Prevailing Sections:

Site Specific Provisions:

- (A) Despite land use permissions for this zone, **vehicle fuel stations, vehicle service shops, amusement arcades, and ancillary amusement devices** are not permitted uses;
- (B) The permitted maximum **gross floor area**, not including the area of any **basements**, is the greater of:
  - (i) 40% of the **lot area**; or
  - (ii) the **gross floor area** that **lawfully** existed on the date of enactment of this By-law; and
- (C) The permitted maximum height of a **building** is the greater of:
  - (i) one **storey**; or
  - (ii) the height that **lawfully** existed on the date of enactment of this By-law; and
- (D) The minimum **building setback** from a **lot line** that abuts Kennedy Rd. is the greater of 21.0 metres from the centre line of Kennedy Rd., or 3.0 metres from a **lot line** abutting Kennedy Rd.; and
- (E) The minimum **building setback** is:
  - (i) 1.5 metres from a **side lot line**; and
  - (ii) 0.9 metres from a **rear lot line**.

Prevailing By-laws and Prevailing Sections: (None Apply)

(586) Exception CR 586

The lands, or a portion thereof as noted below, are subject to the following Site Specific Provisions, Prevailing By-laws and Prevailing Sections:

Site Specific Provisions:

- (A) On 411 Victoria Park Avenue, 2510 and 2530 Gerrard Street East, if the requirements of Section 10 and Schedule A of By-law 959-2021 are complied with, a **building, structure**, addition or enlargement is permitted in compliance with regulations (B) to (QQ) below:

- (B) For the purposes of this exception each Block as shown on Diagram 3 of By-law 959-2021 is to be considered a **lot**;
- (C) **Public Parking** is a permitted use if in compliance with conditions 8, 9, 10 and 11 set out in Clause 40.10.20.100;
- (D) Despite Regulation 40.10.20.40, **apartment buildings, mixed use buildings and townhouses** are permitted **building** types for **dwelling units** despite the "r" value referred to in regulation 40.5.1.10(3)(A)(ii);
- (E) Despite Regulation 40.10.20.100(5), the **interior floor area** of a **retail store** including a beverage **manufacturing use** for beer, cider or wine, on Block 1 shown on Diagram 3 of By-law 959-2021 may not exceed 500.0 square metres;
- (F) Despite Regulation 40.10.40.1(1), all residential use portions of a **building** may be located above, below, or on the same **storey** as non-residential use portions of a **building**;
- (G) Despite Clause 40.10.40.40, the total permitted maximum **gross floor area** on Blocks 1 and 2 as identified on Diagram 3 of By-law 959-2021 is 46,450.0 square metres, of which:
  - (i) a minimum of 450.0 square metres of **gross floor area** on Block 1 must be used for non-residential purposes; and
  - (ii) no **gross floor area** may be used for non-residential purposes on Block 2;
- (H) Despite Regulation 40.5.40.40(3)(A), (3)(E), (5)(A) and 5(E), the **gross floor area** of a **mixed use building** or **apartment building** is also reduced by the area in the **building** used for:
  - (i) **parking spaces, drive aisles, loading spaces, and bicycle parking spaces** at, below, and above ground; and
  - (ii) all indoor **amenity space**;
- (I) The provision of **dwelling units** on the lands identified in Diagram 1 of By-law 959-2021 are subject to the following:
  - (i) a minimum of 15 percent of the total number of **dwelling units** must have two bedrooms;
  - (ii) a minimum of 10 percent of the total number of **dwelling units** must have three or more bedrooms; and
  - (iii) once (i) and (ii) above are complied with, of the remaining total number of **dwelling units**, a minimum 15 percent of **dwelling units** must have two or more bedrooms;
- (J) Despite Regulation 5.10.1.30(3), a **dwelling unit** may not be entirely below ground;
- (K) Despite Regulations 40.5.40.10(1) and (2), the height of a **building** or **structure** is measured from the following Canadian Geodetic Datum elevations to the highest point of the **building** or **structure**:
  - (i) 126.60 metres on Block 1 as shown on Diagram 3 of By-law 959-2021;
  - (ii) 127.92 metres on Block 2 as shown on Diagram 3 of By-law 959-2021;
- (L) Despite Regulation 40.10.40.10(3) and (7), the permitted maximum height of a **building** or **structure** is shown in metres following the HT symbol and in **storeys** following the ST symbol on Diagram 4 of By-law 959-2021;
- (M) In determining compliance with (L) above, the following are not a **storey**:
  - (i) vestibules providing rooftop access and having a **gross floor area** of not more than 20.0 square metres;
  - (ii) mechanical penthouses;
  - (iii) stair enclosures; and
  - (iv) elevator overruns;
- (N) The required minimum height of the first **storey** is 4.5 metres;
- (O) Despite (N) above, the required minimum height of the first **storey** does not apply to the portion of a **building** that contains **dwelling units** and **ancillary** residential uses;
- (P) Despite (L) above and Regulations 40.5.40.10(3), (4), (5), (6), (7) and (8), the following elements of a **building** or **structure** may exceed the permitted maximum heights as follows:

- (i) Wind and privacy screens, awnings, roof overhangs, cornices, canopies, balconies and associated guards, lighting fixtures, ornamental elements, such as decorative architectural features, vents, stacks, eaves, cladding, pilasters and window sills;
  - (ii) mechanical equipment including heating, cooling and ventilating equipment, gas and electrical equipment and vibration dampening equipment, communications equipment, penthouses, enclosures and **structures** around elements listed above including roofing membranes and **green roofs** on such enclosures, roof access vestibules, elevator overruns, trellises, **structures** used for outside or open air recreation, and stairs and stair enclosures may project above the permitted maximum heights shown on Diagram 4 of By-law 959-2021 to a maximum of 7.0 metres;
  - (iii) guards and railings, safety equipment, ramps, fences, outdoor furniture, underground garage ramps and associated **structures**, **bicycle parking spaces**, community mailboxes as well as **structures** enclosing such elements, garbage chutes and associated enclosures, landscape elements, retaining walls and planters, chimneys, elements associated with outdoor amenities such as barbecues, fireplaces and seating, bollards, and porches and decks, either excavated or unexcavated may project above the permitted maximum heights shown on Diagram 4 of By-law 959-2021 to a maximum of 3.0 metres;
  - (iv) parapets, window washing and **building** maintenance equipment, decking, skylights, and roof access hatches, and below grade parking **structures**, including any associated membranes or waterproofing materials may project above the permitted maximum heights shown on Diagram 4 of By-law 959-2021 to a maximum of 1.8 metres; and
  - (v) terraces, thermal insulation, roofing membranes, pavers, **green roof** elements and roof ballasts may project above the permitted maximum heights shown on Diagram 4 of By-law 959-2021 to a maximum of 0.9 metres;
- (Q) Despite Regulations 40.10.40.70(3) and (4) and 40.10.40.80(2), the required minimum **building setbacks** and separation distances are shown on Diagram 4 of By-law 959-2021;
- (R) A **building setback** is not required from a corner rounding at the intersection of two **streets**;
- (S) Despite (Q) above, and Clauses 40.5.40.60 and 40.10.40.60, the following **building** elements may encroach into a required minimum **building setback** as follows:
- (i) mechanical equipment including heating, cooling and ventilating equipment, gas and electrical equipment and vibration dampening equipment, communications equipment, penthouses, enclosures and **structures** around elements listed above, including roofing membranes and **green roofs** on such enclosures, roof access vestibules, elevator overruns, lighting fixtures, trellises, vents, stacks, **structures** used for outside or open air recreation, stairs and stair enclosures, wind and privacy screens, guards and railings, safety equipment, ramps, fences, outdoor furniture, chimneys, underground garage ramps and associated **structures**, **bicycle parking spaces**, community mailboxes as well as **structures** enclosing such elements, landscape elements, retaining walls and planters, elements associated with outdoor amenities such as barbecues, fireplaces and seating, parapets, window washing and **building** maintenance equipment, bollards, decking, skylights, roof access hatches, including any associated membranes or waterproofing materials, terraces, thermal insulation, roofing membranes, pavers, **green roof** elements and roof ballast and porches and decks, either excavated or unexcavated;
  - (ii) awnings, roof overhangs, cornices, canopies, balconies and associated guards, ornamental elements such as decorative architectural features and garbage chutes and associated enclosures to a maximum of 2.5 metres;
  - (iii) eaves, cladding and pilasters to a maximum of 1.2 metres; and
  - (iv) windowsills to a maximum of 0.6 metres;
- (T) Despite Regulation 40.10.40.50(1)(A), a **building** with 20 or more **dwelling units** must provide **amenity space** at a minimum rate of 4.0 square metres for each **dwelling unit**, of which at least 1.5 square metres for each **dwelling unit** is indoor **amenity space**;
- (U) Despite Regulation 40.10.40.50(1) and (T) above, the total indoor and outdoor **amenity space** required for **dwelling units** on Block 1 and Block 2 identified on Diagram 3 of By-law 959-2021 may be combined and provided entirely on either of Block 1 or Block 2 or a combination of both provided it is available for the use of residents of either Block;
- (V) Regulation 40.10.50.10(1)(B) shall not apply;

- (W) A **parking space** must be available for the use for which it is required;
- (X) Despite Regulation 40.5.80.10(1), **parking spaces** required for a use on Block 1 or Block 2 identified on Diagram 3 of By-law 959-2021 may be provided on either of Block 1 or Block 2 or a combination of both;
- (Y) A surface **parking space** may not be located in the **front yard**;
- (Z) Regulations 40.10.90.40(2) and 40.10.100.10(2), with respect to the number and location of **vehicle** access points and loading access point, do not apply;
- (AA) Despite Regulation 200.5.10.1(1) and Table 200.5.10.1, **parking spaces** must be provided and maintained in accordance with the following minimum requirements:
  - (i) 0.6 **parking spaces** per **dwelling unit** for residents;
  - (ii) 0.1 **parking spaces** per **dwelling unit** for visitors;
  - (iii) Despite (i) above, for Block 2 identified on Diagram 3 of By-law 959-2021, 1.0 **parking space** per **dwelling unit** for residents is required in **townhouses**;
  - (iv) No **parking spaces** are required for non-residential uses; and
  - (v) A minimum of 4 **parking spaces** on Block 1 and Block 2 as shown on Diagram 3 of By-law 959-2021 must be exclusively reserved and signed for a **vehicle** or **vehicles** used only for car-share purposes;
- (BB) For the purposes of (AA) above:
  - (i) car-share means the practice where a number of people share the use of one or more **vehicles** that are owned by a profit or non-profit car sharing organization and where such organization may require that use of cars be reserved in advance, charge fees based on time and/or kilometers driven, and set membership requirements of the car sharing organization, including the payment of a membership fee that may or may not be refundable; and
  - (ii) a car-share parking space means a **parking space** that is exclusively reserved and actively used for car-sharing;
- (CC) Despite Section 200.5 and (AA) above, for each parking space exclusively reserved and signed for a vehicle or vehicles used only for car-share purposes beyond the minimum required rate in (AA) above, the minimum number of resident parking spaces required may be reduced by four parking spaces, up to a maximum reduction as calculated by the following formula:  $4 \times (\text{the total number of dwelling units on Block 1 and Block 2 as shown on Diagram 3 of By-law 959-2021 divided by } 60)$ , rounded down to the nearest whole number;
- (DD) Despite Regulation 200.5.1.10(2), up to 10 percent of the required **parking spaces** may have a minimum length of 5.2 metres;
- (EE) Despite Regulations 200.5.1.10(2)(A)(iv), 200.5.1.10(2)(B)(iv), and 200.5.1.10(C)(iv), up to 10 percent of the required **parking spaces** may have a minimum width of 2.6 metres if they are obstructed on one or both sides by a fixed object such as a wall, column, bollard, fence or pipe situated within 0.3 metres of the side of the **parking space**, measured at right angles, and more than 1.0 metre from the front or rear of the **parking space**;
- (FF) Despite Regulation 200.5.1.10(12)(C), the **vehicle** entrance or exit to the **building** must be at least 3.0 metres from the **lot line** abutting a **street**;
- (GG) Regulations 200.15.1(4) and 200.15.15.4(2), with respect to the location of accessible **parking spaces**, do not apply;
- (HH) Despite Regulations 200.15.1(1) and 200.15.15.4(1), an accessible **parking space** must have the following minimum dimensions:
  - (i) length of 5.6 metres;
  - (ii) width of 3.4 metres;
  - (iii) vertical clearance of 2.0 metres; and
  - (iv) the entire length of an accessible **parking space** must be adjacent to a 1.5 metre wide accessible barrier free aisle or path.
- (II) Despite Clause 220.5.10.1, **loading spaces** must be provided in accordance with the following minimum requirements:
  - (i) For Block 1 as shown on Diagram 3 of By-law 959-2021 – 1 Type "G" **loading space**;

- (ii) For Block 2 as shown on Diagram 3 of By-law 959-2021 – 1 Type "C" **loading space**;
- (JJ) Despite Regulation 230.5.1.10(8), a **bicycle parking space** required for Block 1 or Block 2 identified on Diagram 3 of By-law 959-2021 may be provided on either of Block 1 or Block 2 or a combination of both;
- (KK) Regulation 230.5.1.10(9), with respect to long-term **bicycle parking space** location does not apply;
- (LL) Despite Regulation 230.5.1.10(4), if a **stacked bicycle parking space** is provided in a mechanical device where any portion of a bicycle is situated above or below any portion of an adjacent bicycle, the minimum required width of each such **stacked bicycle parking space** is 0.2 metres;
- (MM) Despite Regulation 230.5.1.10(10), "long-term" and "short-term" **bicycle parking spaces** may be located in a **stacked bicycle parking space**;
- (NN) Regulation 230.40.1.20(2) with respect to the location of "short-term" **bicycle parking spaces** does not apply;
- (OO) Regulations 40.10.40.1(3) and (5) with respect to residential use orientation to a **street**, and **building** orientation to a street, do not apply;
- (PP) Despite Regulation 5.10.30.1(1), no **building** or **structure**, except for below ground construction or foundations, and/or a retaining wall or earth berm, may be erected or used on the lands unless:
  - (i) The lands abut an existing **street**, or are connected to an existing **street** by a **street** or **streets** constructed to a minimum base curb and base asphalt or concrete; and
  - (ii) All Municipal water mains and Municipal sewers, and their appurtenances, are installed to a **lot line** of the property and are operational; and
- (QQ) For the purpose of Regulation 5.10.30.1(2) a **street** may include a **street** or **streets** that have been dedicated to the Municipality but may not be assumed.

Prevailing By-laws and Prevailing Sections: (None Apply)

(588) Exception CR 588

The lands, or a portion thereof as noted below, are subject to the following Site Specific Provisions, Prevailing By-laws and Prevailing Sections:

Site Specific Provisions:

- (A) Despite land use permissions for this zone, a **place of worship** is permitted if it complies with the specific use regulations in Section 150.50;
- (B) Despite land use permissions for this zone, **dwelling units** are permitted if:
  - (i) they are located in a **mixed use building**;
  - (ii) there is a maximum of one **dwelling unit** per every one **service shop** located in the same **building**; and
  - (iii) not more than two **dwelling units** may be served by a common means of access and egress; and
- (C) The permitted maximum **gross floor area**, not including the area of any **basements**, is the greater of:
  - (i) 40% of the **lot area**; or
  - (ii) the **gross floor area** that **lawfully** existed on the date of enactment of this By-law; and
- (D) The minimum **building setback** from a **lot line** that abuts a **street** is:
  - (i) the greater of 21.0 metres from the centre line of Kennedy Rd., or 3.0 metres from a **lot line** abutting Kennedy Rd.; and
  - (ii) 3.0 metres from a **lot line** abutting any other **street**.

Prevailing By-laws and Prevailing Sections: (None Apply)

(589) Exception CR 589

The lands, or a portion thereof as noted below, are subject to the following Site Specific Provisions, Prevailing By-laws and Prevailing Sections:

Site Specific Provisions:

- (A) Despite land use permissions for this zone, a **place of worship** is permitted if it complies with the specific use regulations in Section 150.50;
- (B) Despite land use permissions for this zone, **dwelling units** are permitted if:
- (i) they are located in a **mixed use building**;
  - (ii) there is a maximum of one **dwelling unit** per every one **service shop** located in the same **building**;
  - (iii) not more than two **dwelling units** may be served by a common means of access and egress; and
  - (iv) **parking spaces** must be provided at a minimum rate of:
    - (a) 3 **parking spaces** per 100 square metres of **gross floor area** for an education and training facility use;

- (G) Despite Regulation 40.10.20.100(16), there is no maximum **interior floor area** for a **custom workshop**;

- (H) Despite Regulation 40.10.20.20(1)(A), an **outdoor patio** is not subject to Regulation 40.10.20.100(21);
- (I) For the purposes of this exception, an **outdoor patio** may include an outdoor patron area that is a non-residential use that is not **ancillary** to a non-residential use;
- (J) Outdoor open air markets may provide retail sales, food sales and other uses from kiosks, tents, **vehicles** and such facilities are not **buildings** or **structures**;
- (K) Despite Regulation 40.10.20.20(1)(A), the outdoor sale or display of goods or commodities is not subject to Regulation 40.10.20.100(20)(A) and 40.10.20.100(20)(C)
- (L) Despite Regulation 40.10.40.1(1)(B)(i), the permitted **dwelling units** may have direct access to a **street** or private right of way which is not a major street on the Policy Area Overlay Map;
- (M) Regulation 40.10.40.10(5) does not apply to **dwelling units** on the ground floor;
- (N) Despite Regulation 40.5.40.10(1) and (2), the **height** of a **building** or **structure** is the distance between the Canadian Geodetic Datum elevation of 131.8 metres, and the highest point of the **building** or **structure**;
- (O) Despite Regulation 40.10.40.10(1) and (2), the permitted maximum **height** of a **building** or **structure** is the numerical value in metres following the letters "HT" as shown on Diagram 7 of By-law 1115-2022(OLT);
- (P) Despite Regulation 40.10.40.10(7), the permitted maximum number of **storeys** in a **building** is the numerical value following the letters "ST" as shown on Diagram 7 of By-law 1115-2022(OLT) excluding mechanical penthouses, mezzanines, generators, stair enclosures and elevator overruns;
- (Q) For the purpose of this exception, **dwelling units** on the ground floor having two levels will be considered to be one **storey** for the purpose of calculating the number of **storeys** permitted in accordance with Diagram 7 of By-law 1115-2022(OLT) and (P) above;
- (R) Despite Regulations 40.5.40.10(3) to (8) and (O) above, the following elements may exceed the permitted maximum **building** height as follows:
  - (i) a roof **structure** which is used to house stairwells for roof access and/or the mechanical, window washing, electrical or ventilation systems for the **building** by a maximum of 8.0 metres;
  - (ii) architectural features and design elements including skylights, parapets, cornices, mouldings, flashings, and landscape elements by a maximum of 3.0 metres;
  - (iii) elevator overruns, structural supports, railings, roof drainage, thermal insulation and roof ballast terraces, terrace or balcony guards and dividers, planters, stairs, stair enclosures, wall or **structure** elements and railings, lighting fixtures, vents, flues, ventilation shafts, pipes, access roof hatch, outdoor furniture, fence, pergolas, trellises, skylights, pools, **structures** used for wind protection purposes, signage, window washing equipment, lighting fixtures, lightning rods by a maximum of 5.0 metres;
  - (iv) generators by a maximum of 8.0 metres;
  - (v) outdoor amenity areas including fireplaces, and **structures** located on the roof used for outside or open air recreation, or safety by a maximum of 4.0 metres; and
  - (vi) **green roof** elements and/or **structures** by a maximum of 2.0 metres.
- (S) Despite Regulation 40.10.40.70(2), the required minimum **building setbacks** are shown in metres on Diagram 7 of By-law 1115-2022(OLT);
- (T) Despite Regulation 40.10.40.80(2), the required minimum above-ground distance between **main walls** are shown in metres on Diagram 7 of By-law 1115-2022(OLT);
- (U) The required minimum **building** setbacks are shown on Diagram 7 of By-law 1115-2022(OLT);
- (V) Despite Regulation 5.10.40.70(1), Clause 40.5.40.60, Clause 40.10.40.60 and (S), (T) and (U) above, the following may encroach into a required **building setback**, setback, or minimum above-ground distance between **main walls**, as shown on Diagram 7 of By-law 1115-2022(OLT):
  - (i) balconies that project a maximum of 1.8 metres in depth provided such projecting balconies are not located:
    - (a) on **main walls** which are 15.0 metres or less from other **main walls**;
    - (b) on **main walls** of the 4th, 5th, and 6th **storeys** of all portions of the **building** over 17-**storeys** in height;

- (c) on **main walls** within 3.0 metres of the corners at the 4th **storey** and above of all portions of the **building** over 17 **storeys** in height; and
  - (d) on the **main walls** of the first 6 **storeys** of **buildings** facing Eglinton Avenue East, Laird Drive, the Privately-Owned Publicly Accessible Spaces (POPS) and the public **park**;
  - (ii) at-grade terraces by a maximum of 5.0 metres;
  - (iii) canopies and awnings by a maximum of 2.0 metres;
  - (iv) window sills by a maximum of 2.0 metres; and
  - (v) architectural features and design elements including entry portals, eaves, guardrails, landscape elements, ornamental elements, retaining walls, window washing equipment, vents, parapets, cornices, mouldings, flashings, railings, pergolas, trellises, lighting fixtures, **structures** used for wind protection purposes, signage, exterior stairways and railings, structural supports, wheelchair ramps and decks and ramps by a maximum of 2.0 metres;
- (W) Despite Clauses 40.5.40.40 and 40.10.40.40 the total **gross floor area** of all **building** and **structures** on the land must be provided in accordance with Section 11 of By-law 1115-2022(OLT);
- (X) Regulation 40.10.30.40(1) related to **lot coverage**, does not apply;
- (Y) Despite Clause 40.10.40.50, **amenity space** must be provided on the lands in accordance with the following:
- (i) a minimum of 2 square metres of indoor **amenity space** per **dwelling unit**;
  - (ii) a minimum of 2 square metres of outdoor **amenity space** per **dwelling unit**;
  - (iii) at least 40.0 square metres is outdoor **amenity space** in a location adjoining or directly accessible to the indoor **amenity space**; and
  - (iv) indoor **amenity space** may include up to a maximum of 8 guest suites where such suites may contain either a kitchen or a bathroom.
- (Z) Regulation 40.10.40.50(1)(C) related to the outdoor component of **amenity space**, does not apply;
- (AA) Despite Regulations 200.5.10.1(1), (4) and (6), Table 200.5.10.1 and 200.5.1.10(2) **parking spaces** must be provided in accordance with Section 12 of By-law 1115-2022(OLT);
- (BB) Despite Clause 40.5.80.10 the **parking spaces** required by (AA) above:
- (i) may be provided on a non-exclusive basis and may be provided within a below ground **public parking** facility on the lands;
  - (ii) may be shared between the uses on the lands zoned CR SS2(x611) and EO(x31) shown on Diagram 2 of By-law 1115-2022(OLT); and
  - (iii) may be located on any lands zoned CR SS2(x611) and/or EO(x31) shown on Diagram 2 of By-law 1115-2022(OLT).
- (CC) Despite Regulation 40.10.100.10(A) and (C) **vehicle** access to the lands may be provided over lands zoned CR SS2(x611) and/or EO(x31) shown on Diagram 2 of By-law 1115-2022(OLT), there may be more than one **vehicle** access permitted and **vehicle** access is not required to be from an abutting **lane**;
- (DD) Despite Clause 220.5.10.1 **loading spaces** must be provided in accordance with Section 13 of By-law 1115-2022(OLT);
- (EE) In addition to Regulation 40.10.90.10(1) the **loading spaces** required by (CC) above:
- (i) may be shared between the uses on the lands zoned CR SS2(x611) and EO(x31) shown on Diagram 2 of By-law 1115-2022(OLT); and
  - (ii) may be located on any of the lands zoned CR SS2(x611) and/or EO(x31) shown on Diagram 2 of By-law 1115-2022(OLT).
- (FF) Despite Regulation 40.10.90.40(1) or (3) access to **loading spaces** used for the lands may be provided over lands zoned CR SS2(x611) and/or EO(x31) shown on Diagram 2 of By-law 1115-2022(OLT) and **vehicle** access to a **loading space** is not required to be from an abutting **lane**;
- (GG) Despite Article 230.5.1, **bicycle parking spaces** must be provided in accordance with Section 14 of By-law 1115-2022(OLT);
- (HH) The **bicycle parking spaces** required by (GG) above:

- (i) may be shared between the uses on the lands zoned CR SS2(x611) and EO(x31) shown on Diagram 2 of By-law 1115-2022(OLT); and
  - (ii) may be located on any lands zoned CR SS2(x611) and/or EO(x31) shown on Diagram 2 of By-law 1115-2022(OLT);
- (II) Despite any Regulation to the contrary, a portion of a **building** on the lands may be used for **parking spaces, bicycle parking spaces, loading spaces**, service, access and/or mechanical equipment that serve the uses of the lands shown as EO(x31) on Diagram 2 of By-law 1115-2022(OLT).

Prevailing By-laws and Prevailing Sections: (None Apply)

(612) Exception CR 612

The lands, or a portion thereof as noted below, are subject to the following Site Specific Provisions, Prevailing By-laws and Prevailing Sections:

Site Specific Provisions:

- (A) On 1500-1536 St Clair Avenue West and 20-36 Caledonia Road, if the requirements of Section 12 and Schedule A of By-law 536-2022 are complied with, a **building** or **structure** may be constructed, used or enlarged in compliance with Regulations (B) to (X) below;
- (B) Despite Regulations 40.5.40.10(1) and (2), the height of a **building** or **structure** is the distance between the Canadian Geodetic Datum elevation of 131.5 metres and the elevation of the highest point of the **building** or **structure**;
- (C) Despite Regulation 40.10.40.10(2)(A), the permitted maximum height of a **building** or **structure** is the number in metres following the letters "HT" as shown on Diagram 6 of By-law 536-2022;
- (D) Despite Regulations 40.5.40.10(3) to (8), 40.5.75.1(2) and (C) above, the following **building** elements and **structures** may project beyond the permitted maximum height of a **building** shown on Diagram 6 of By-law 536-2022:
  - (i) **Building** elements and **structures** on any roof such as elevator shafts, elevator overruns, stairs, stair towers, window washing equipment, building maintenance units, satellite dishes, lightning rods, chimneys, stacks, flues, vents, cooling towers, air intakes, mechanical, electrical, utility, or other equipment and devices used for the functional operation of the **building**, unenclosed heating equipment and power generators, the enclosure, screening or covering of equipment and devices, exoskeleton **structures**, antennas, cellular arrays, and related structural elements to a maximum of 8.0 metres;
  - (ii) **Building** elements and **structures** on any roof such as indoor **amenity space**, washrooms, a **green roof** and related elements, canopies, awnings, solar shades and related structural elements to a maximum of 8.0 metres;
  - (iii) **Building** elements and **structures** on any roof or at ground level used for outdoor **amenity space** or open air recreation including pergolas and playhouses, public art, **solar energy** devices, and access ramps, to a maximum of 3.0 metres;
  - (iv) **Building** elements and **structures** such as terrace/balcony dividers, privacy screens, guardrails, railings, balustrades, parapets, architectural elements, **landscaping**, public art, light fixtures, privacy screens, and roof drainage to a maximum of 2.0 metres;
  - (v) The total area of all equipment, **structures** or parts of a **building** referred to in (i) above, may cover no more than 80% of the area of the roof;
  - (vi) Acoustical screens and sound barriers/walls;
  - (vii) Safety and wind protection/mitigation features; and
  - (viii) Crash walls and **structures** associated with rail safety mitigation;
- (E) Despite Regulation 40.10.40.40(1), the permitted maximum **gross floor area** is 49,000 square metres, of which:
  - (i) the permitted maximum **gross floor area** for residential uses is 48,000 square metres;
  - (ii) the permitted maximum **gross floor area** for non-residential uses is 3,500 square metres; and
  - (iii) the required minimum **gross floor area** for non-residential uses is 1,100 square metres;
- (F) The permitted maximum number of **dwelling units** is 770, of which:
  - (i) A minimum of 15 percent of the total **dwelling units** must contain a minimum of two-bedrooms; and

- (ii) A minimum of 10 percent of the total **dwelling units** must contain a minimum of three-bedrooms;
- (G) Despite Regulation 40.10.40.1(1), residential use portions of a **building** are permitted to be located below, on or above the same **storey** as non-residential use portions of a **building**, however, **no dwelling unit** may be located below the portion of the **storey** closest in elevation to "finished grade";
- (H) Despite Regulation 40.10.40.1(2), the floor level of the portion of a first **storey** that accommodates a non-residential use must be within 0.2 metres of the ground measured at 1.0 metres outside of each pedestrian entrance to such non-residential space;
- (I) Despite Regulation 40.10.40.10(5), the required minimum height of the first **storey**, as measured between the floor of the first **storey** and the ceiling of the first **storey**, is:
  - (i) 3.0 metres for residential uses; and
  - (ii) 4.5 metres for non-residential uses;
- (J) In addition to the elements which reduce **gross floor area** listed in Regulation 40.5.40.40(3), the **gross floor area** of any **building** is also reduced by the area in a **building** used for:
  - (i) All **parking spaces** provided at and above-ground any access thereto;
  - (ii) Storage rooms, electrical, utility, mechanical, and ventilation areas and rooms at and above ground level; and
  - (iii) All non-residential and residential **gross floor area** located below-ground level;
- (K) Despite Regulation 40.10.40.50(1)(A) and (B), a **building** with 20 or more **dwelling units** must provide **amenity space** at the following rate:
  - (i) at least 2.0 square metres for each **dwelling unit** as indoor **amenity space**; and
  - (ii) at least 2.0 square metres of outdoor **amenity space** for each **dwelling unit** of which 40.0 square metres must be in a location adjoining or directly accessible to the indoor **amenity space**;
- (L) Despite Regulation 40.10.40.70(2), the required minimum **building setbacks** are as shown in metres on Diagram 6 of By-law 536-2022;
- (M) Despite (L) above, the required minimum **building setback** for the portion of the **storey** closest in elevation to "finished grade", is:
  - (i) 15.0 metres from the south **lot lines** along St. Clair Avenue West;
  - (ii) 17.0 metres, exclusive of structural support columns, from the portions of the most westerly **lot line** located within 25 metres of the south **lot lines** along St. Clair Avenue West; and
  - (iii) 20.0 metres, exclusive of structural support columns, from the portions of the most westerly **lot line** not described in (ii) above;
- (N) For the purpose of this By-law and more particularly (G) and (M) above, "finished grade" means the elevation of the finished ground surface measured at the nearest pedestrian sidewalk/walking path or vehicular **driveway**;
- (O) Despite Regulation 40.10.40.80(2), the required separation of **main walls** are as shown in metres on Diagram 6 of By-law 536-2022;
- (P) Despite Clause 40.10.40.60, Regulations 5.10.40.70(1), 40.10.40.70(2) and (4) and 40.10.40.80(2) and (L), (M) and (O) above, the following elements and **structures** may encroach into the required minimum **building setbacks** and **main wall** separation distances as follows:
  - (i) Decks, porches, patios and balconies, to a maximum extent of 1.8 metres;
  - (ii) Architectural elements, light fixtures and window sills, to a maximum extent of 0.5 metres;
  - (iii) Canopies and awnings, to a maximum extent of 3.0 metres;
  - (iv) **Landscaping**, public art, structures and equipment used for outdoor **amenity space** or open air recreation, access ramps and associated railings, exterior stairs, air vents, air shafts/intakes, and site servicing features;
  - (v) Crash walls and **structures** associated with rail safety mitigation;
  - (vi) Safety and wind protection/mitigation features; and
  - (vii) Acoustical screens and noise mitigation barriers;

- (Q) Despite Regulation 200.5.10.1(1), 200.5.10.1(2) and Table 200.5.10.1, **parking spaces** must be provided in accordance with the following:
- (i) a minimum of 0 residential occupant **parking spaces** for each **dwelling unit**;
  - (ii) a maximum of 0.4 **parking spaces** for each **dwelling unit**;
  - (iii) a minimum of 0.1 residential visitor **parking spaces** for each **dwelling unit**; and
  - (iv) a minimum of 1.0 **parking spaces** for each 100 square metres of non-residential **gross floor area**;
- (R) Despite Regulation 200.5.10.1(1) and (R) above, "car-share parking spaces" may replace **parking spaces**, subject to the following:
- (i) a reduction of 4 residential occupant **parking spaces** will be permitted for each "car-share parking space" provided and that the maximum reduction permitted be capped by the application of the following formula:
    - (a) 4 multiplied by the total number of **dwelling units** divided by 60, rounded down to the nearest whole number;
  - (ii) for the purpose of this exception, "car-share" means the practice whereby a number of people share the use of one or more motor **vehicles** and such "car-share" motor **vehicles** are made available to at least the occupants of the **building** for short-term rental, including hourly rental; and
  - (iii) for the purpose of this exception, "car-share parking space" means a **parking space** exclusively reserved and signed for a **vehicle** used only for "car-share" purposes;
- (S) Despite Clause 200.15.1 and Regulation 200.15.10(1), ten (10) accessible **parking spaces** must be provided in accordance with the following:
- (i) An accessible **parking space** must have the following minimum dimensions:
    - (a) length of 5.6 metres;
    - (b) width of 3.4 metres; and
    - (c) vertical clearance of 2.1 metres;
  - (ii) the entire length of an accessible **parking space** must be adjacent to a 1.5 metres wide accessible barrier free aisle or path as shown on Diagram 1 and Diagram 2 of By-law 579-2017; and
  - (iii) Accessible **parking spaces** are required to be within 30 metres of a barrier free entrance to the **building** and passenger elevator that provides access to the first **storey** of the **building**;
- (T) Despite Clauses 40.10.90.1, 220.5.10.1, and Regulation 220.5.1.10(1), **loading spaces** must be provided as follows:
- (i) A minimum of one (1) Type "G" **loading space**; and
  - (ii) A minimum of one (1) Type "B" **loading space**;
- (U) Despite Regulation 230.5.1.10(10), "short-term" **bicycle parking spaces** may also be located in a **stacked bicycle parking space**;
- (V) Despite Regulations 230.5.1.10(4)(A)(i) and (ii), 230.5.1.10(5)(A) and 230.5.1.10(4)(C), the required minimum dimensions of a **stacked bicycle parking space** are:
- (i) length of 1.6 metres;
  - (ii) width of 0.3 metres; and
  - (iii) vertical clearance of 1.1 metres;
- (W) Despite Regulations 230.5.1.10(9) and 230.5.10.1(5), "long-term" **bicycle parking spaces** may be provided in any combination of vertical, horizontal or stacked positions, may be located in a secured room, and may be located on levels of the **building** below-ground level without being subject to any level increment requirement;
- (X) Despite Regulations 230.5.1.10(10) and 230.40.1.20(2), "short-term" **bicycle parking spaces** may also be provided as **stacked bicycle parking spaces**, may be provided in any combination of vertical, horizontal or stacked positions, may be located in a secured room and within a **building** and may be located more than 30 metres from a pedestrian entrance to the **building**; and

(Y) Despite Regulations 40.10.40.70(2), (4) and 40.10.40.80(2), no angular plane shall apply to the lands outlined by heavy lines in Diagram 1 of By-law 536-2022.

Prevailing By-laws and Prevailing Sections: (None Apply)  
[ By-law: 536-2022 Enacted ]

(613) Exception CR 613

The lands, or a portion thereof as noted below, are subject to the following Site Specific Provisions, Prevailing By-laws and Prevailing Sections.

Site Specific Provisions:

- (A) On the lands municipally known in the year 2022 as 1710, 1712, 1714, 1716, 1718, 1720, 1722, 1724, 1726, 1728, 1730, 1732, 1734 and 1736 Bayview Avenue, if the requirements of Section 7 and Schedule A are complied with, a **mixed-use building, structure**, addition or enlargement may be constructed in compliance with (B) through (AA) below:
- (B) For the purpose of this exception, the **lot** comprises the lands outlined by heavy lines on Diagram 1 of By-law 1184-2022(OLT);
- (C) Despite Regulation 40.10.40.40(1), the maximum total **gross floor area** of all **buildings** and **structures** on the **lot** must not exceed 16,700 square metres, subject to the following:
  - (i) the maximum residential **gross floor area** is 16,200 square metres;
- (D) The following shall apply to **dwelling units**:
  - (i) a maximum of 205 **dwelling units** are permitted;
  - (ii) a minimum of 15 percent of the total number of **dwelling units** must contain two bedrooms, and a minimum of 10 percent of the total number of **dwelling units** must contain a minimum of three bedrooms; and
  - (iii) in the event that the calculation of the number of required **dwelling units** with three bedrooms results in a number with a fraction, the number shall be rounded down to the nearest whole number;
- (E) Despite Regulation 40.10.40.1(1), in the CR zone within a **mixed-use building**, residential use portions may be located on the same level as non-residential use portions, but **dwelling units** must not have direct frontage onto Bayview Avenue;
- (F) Despite Regulations 40.5.40.10(1) and 40.5.40.10(2), the height of a **building** or **structure** is measured as the vertical distance between the Canadian Geodetic Datum elevation of 150.11 metres and the elevation of the highest point of the **building** or **structure**;
- (G) Despite Regulation 40.10.40.10(2), the permitted maximum height of any **building** or **structure** is the height in metres specified by the numbers following the symbol 'HT' on Diagram 3 of By-law 1184-2022(OLT);
- (H) Despite Regulation 40.10.40.10(7), the permitted maximum number of **storeys** in a **building** is the number following the ST symbol as shown on Diagram 3 of By-law 1184-2022(OLT);
- (I) Despite Regulation (H) above, any portion of a **building** that is located between the Canadian Geodetic Datum elevations of 150.11 metres and 155.68 metres will be considered as one **storey**;
- (J) Despite (G) and (H) above and in addition to Regulations 40.5.40.10(4) and 40.5.40.10(6), the following elements may project above the permitted maximum **building** height as shown on Diagram 3 of By-law 1184-2022(OLT);
  - (i) **structures** and elements related to outdoor flooring and roofing assembly features by a maximum of 0.5 metres;
  - (ii) railings, guard rails, parapets, terrace walls, patios, planters, balustrades, bollards and ornamental or architectural features by a maximum of 1.5 metres;
  - (iii) landscape features, privacy and decorative screens, terrace dividers, fences, parapet walls and elements of a **green roof** by 2.0 metres;
  - (iv) enclosed stairwells, roof access, safety elements and maintenance equipment storage to a maximum of 2.0 metres;
  - (v) elevator shafts, elevator machine rooms and overruns, water supply facilities, chimneys, pipes, vents, shafts to a maximum of 3.0 metres;
  - (vi) cabanas, pergolas, trellises, and ancillary **structures** by a maximum of 3.5 metres; and

- (vii) electrical, utility, mechanical and ventilation equipment, cooling equipment and related structural, mechanical, enclosure and screening elements to a maximum of 6.0 metres;
- (K) Despite Regulations 40.5.40.10(5) and 40.5.40.10(8), the total area of all equipment and **structures** may cover no more than 40 percent of the area of the roof, measured horizontally;
- (L) Despite Regulation 40.10.40.70(2), the minimum required **building setbacks** in metres are as shown on Diagram 3 of By-law 1184-2022(OLT);
- (M) Despite (L) above and in addition to Regulations 40.10.40.60(1), 40.10.40.60(2), 40.10.40.60(3), 40.10.40.60(5), 40.10.40.60(6), 40.10.40.60(7), 40.10.40.60(8) and 40.10.40.60(9), the following **building** elements may also encroach into the required **building setbacks** as follows:
  - (i) roof overhangs, terraces, balustrades, trellises, canopies, awnings chimneys, vents, pipes cornices, eaves, railings, guardrails, parapets, landscape and **green roof** elements, planters, lighting fixtures, architectural and ornamental features, public art features, window washing equipment, decorative privacy screens, vents, wheelchair ramps, wind mitigation features and windowsills, to a maximum of 2.0 metres;
- (N) Despite Regulation 40.10.50.10(2), no fence is required along the north and south **side lot lines** abutting a **lot** in the Residential Zone category;
- (O) Despite Regulation 40.10.50.10(3), no **soft landscaping** is required along the north and south **side lot lines** abutting a **lot** in the Residential Zone category;
- (P) Despite Regulation 40.10.40.50(1), a **building** with 20 or more **dwelling units** must provide **amenity space** on the **lot** at the following rate:
  - (i) At least 2.0 square metres for each **dwelling unit** as indoor **amenity space**;
  - (ii) At least 1.0 square metre of outdoor **amenity space** for each **dwelling unit**; and
  - (iii) The indoor residential **amenity space** does not need to be contiguous with the outdoor residential **amenity space**;
- (Q) Despite Regulation 40.10.90.40(1)(A), access to a **loading space** may be provided from Bayview Avenue;
- (R) Despite Regulation 40.10.100.10(1)(A), **vehicle** access to the **lot**, may be provided from Bayview Avenue;
- (S) Despite Regulation 200.5.10.1(1) and 200.5.10.1(2) and Table 200.5.10.1, **vehicle parking spaces** must be provided and maintained in accordance with the following minimum requirements:
  - (i) 0.5 **parking spaces** per **dwelling unit** for residential occupants; and
  - (ii) 0.1 **parking spaces** per **dwelling unit** for the shared use of residential visitors and non-residential uses;
- (T) Despite Regulation 200.5.1.10(2), a maximum of five (5) percent of the total **parking spaces** provided on the **lot** may have a minimum width of 2.6 metres, and may be obstructed on one side as described in Regulation 200.5.1.10(2)(D) without being required to provide additional width for the obstructed sides of the **parking space**;
- (U) Despite Regulation 200.5.1.10(2)(D), Electric **Vehicle** Infrastructure, including electrical **vehicle** supply equipment, does not constitute an obstruction to a **parking space**;
- (V) Despite Regulations 200.15.1(1) and 200.15.1(3), accessible **parking spaces** must comply with the following
  - (i) accessible **parking spaces** must have the following minimum dimensions:
    - (a) length of 5.6 metres;
    - (b) width of 3.4 metres; and
    - (c) vertical clearance of 2.1 metres.
  - (ii) the entire length of an accessible **parking space** must be adjacent to a 1.5 metre wide accessible barrier free aisle or path.
- (W) Despite Regulation 200.15.1(4), an accessible **parking space** must be located within 25 metres of a barrier free entrance to the **building** or passenger elevator that provides access to the first **storey** of the **building**;

- (X) Despite Regulation 230.5.1.10(4), **stacked bicycle parking spaces** provided in a horizontal orientation may have the following minimum dimensions:
- (i) a minimum length of 1.8 metres;
  - (ii) a minimum width of 0.45 metres; and
  - (iii) a minimum vertical clearance for each **bicycle parking space** of 1.2 metres.
- (Y) Despite Regulation 230.5.1.10(9), long-term **bicycle parking spaces** are permitted to be located on all levels of the **building** and **parking garage** both above and below a Canadian Geodetic Datum elevation of 150.11 metres;
- (Z) Despite Regulation 230.5.1.10(10), required short-term **bicycle parking spaces** may be located in a **stacked bicycle parking space**;
- (AA) Section 600.30, with regards to inclusionary zoning, does not apply.

Prevailing By-laws and Prevailing Sections: (None Apply)

(614) Exception CR 614

The lands, or a portion thereof as noted below, are subject to the following Site Specific Provisions, Prevailing By-laws and Prevailing Sections.

Site Specific Provisions:

- (A) On 2370 Finch Avenue West, if the requirements in Section 6 and Schedule A of By-law 1123-2022(OLT) are complied with, a **building** or **structure** may be constructed in compliance with regulations (B) to (F) below;
- (B) Despite Regulation 40.10.40.40(1), the permitted maximum **gross floor area** is 14,655 square metres, of which:
- (i) The permitted maximum **gross floor area** for residential uses is 14,445 square metres; and
  - (ii) The minimum required **gross floor area** of non-residential uses is 210 square metres.
- (C) Despite Regulations 40.10.40.70(2), the required minimum **building setbacks** are as shown on Diagram 3 of By-law 1123-2022(OLT) and Regulations 40.10.40.60 and 40.5.40.60 shall continue to apply;
- (D) Despite Regulations 40.10.40.10(2) and (7), the permitted maximum height of any **building** or **structure** must not exceed the numbers following the symbol "HT" and the number of **storeys** following the symbol "ST" on Diagram 3 of By-law 1123-2022(OLT) and Regulation 40.5.40.10 shall continue to apply except that a parapet for a mechanical penthouse shall not be subject to Regulation 40.5.40.10 and may exceed the permitted height of a **building** or **structure**;
- (E) A minimum of 34.9 percent of the total number of **dwelling units** must contain a minimum of two bedrooms and a minimum of 10 percent of the total number of **dwelling units** must contain a minimum of three bedrooms;
- (F) Despite regulation 200.5.10.1(1), "car-share parking spaces" may replace **parking spaces** otherwise required for residential occupants, subject to the following:
- (i) A reduction of four resident occupant **parking spaces** for each "car-share parking space" provided and that the maximum reduction be capped by the application of the following formula:
    - (a) 4 multiplied by (total number of **dwelling units** divided by 60), rounded down to the nearest whole number;
  - (ii) For the purposes of this exception, "car-share parking space" means a **parking space** exclusively reserved and signed for a car used only for "car-share" purposes.

Prevailing By-laws and Prevailing Sections: (None Apply)

[ By-law: 1123-2022(OLT) ]

(615) Exception CR 615

The lands, or a portion thereof as noted below, are subject to the following Site Specific Provisions, Prevailing By-laws and Prevailing Sections.

Site Specific Provisions:

- (A) On lands known municipally as 36 and 38 Fieldway Road as shown on Diagram 1 of By-law 959-2022, a **building** or **structure** may be erected, used or enlarged in compliance with regulations (B) to (V) below:
- (B) Despite Regulation 40.10.40.40(1), the permitted maximum gross floor area of all **buildings** and **structures** on the **lot** is 9,600 square metres, provided:
- (i) the maximum residential **gross floor area** is 9,600 square metres; and
  - (ii) the maximum non-residential **gross floor area** is 550 square metres;
- (C) In addition to the elements, which reduce **gross floor area** listed in Regulations 40.5.40.40(3) and (5), the **gross floor area** of a **mixed use building** or an **apartment building** is also reduced by the area in the **building** used for:
- (i) all **bicycle parking spaces** provided at and above ground level;
  - (ii) storage rooms and areas, waste collection and recycling areas, electrical, utility, mechanical, and ventilation rooms and areas, provided below, at or above ground level;
  - (iii) ventilation ducts, utility shafts, and vehicular ramps;
  - (iv) all indoor **amenity space**; and
  - (v) the area of a void in a floor if there is a vertical clearance of more than 2.95 metres between the top of the floor below the void and the ceiling directly above it;
- (D) Despite Regulation 40.10.30.40(1), the permitted maximum **lot coverage** is 45 percent;
- (E) Despite Regulation 40.10.40.1(1), residential use portions of a **building** may be located below or on the same level as non-residential use portions of a **building**;
- (F) Despite Regulations 40.5.40.10(1) and (2), the height of a **building** or **structure** is measured as the distance between the Canadian Geodetic Datum elevation of 120.88 metres and the highest point of the **building** or **structure**;
- (G) Despite Regulations 40.10.40.10(2), the permitted maximum height of a **building** or **structure** is the numerical value, in metres, following the letters "HT" on Diagram 6 of By-law 959-2022;
- (H) Despite (G) above and Regulations 40.5.40.10(3) to (8) and 40.5.75.1(2), the following **building** elements and **structures** are permitted to project beyond the permitted maximum **building** and **structure** height limits shown on Diagram 6 of By-law 959-2022 and the area and coverage restrictions for rooftop **building** element and **structure** projections do not apply:
- (i) guard rails, railings, bollards, balustrades, eaves, roof drainage, balcony and terrace guards, fences, skylights, railings, planters, cornices, seating areas, retaining walls, balcony and terrace dividers, decorative screens, privacy screens, access ramps and ramps to underground, safety and wind protection/mitigation features, parapets and elements of a **green roof** and solar energy devices may project by a maximum of 3.0 metres;
  - (ii) ornamental elements, landscape elements, structures used for outside **amenity space** or open air recreation; including pools and associated equipment, light monitors, light fixtures, pergolas, architectural features and trellises may project by a maximum of 4.0 metres;
  - (iii) canopies, awnings, and related architectural elements may project by a maximum of 8.0 metres;
  - (iv) public art features, exoskeleton **structures**, stairs, stair towers and enclosures, roof access, flues, vents, air intakes, antennas, satellite dishes and cellular arrays may project by a maximum of 7.0 metres;
  - (v) **building** elements and **structures** such as window washing equipment, including Building Maintenance Unit (BMU) and cranes, may project by a maximum of 7.0 metres;
  - (vi) mechanical penthouse, perimeter walls, mechanical equipment, indoor **amenity space**, washrooms, enclosures of mechanical equipment and unenclosed heating equipment, provided they are located in the area labelled "MPH Floor" on Diagram 6 of By-law 959-2022, may project by a maximum of 7.0 metres;
  - (vii) **building** elements and **structures** such as elevator overruns, lightning rods, ventilation or cooling equipment such as chimneys, stacks, flues, vents, air intakes, antennas, satellite dishes, cellular arrays, roof access, parapets and elements of a **green roof**, provided they are located in the area labelled "MPH Floor" on Diagram 6 of By-law 959-2022, may project by a maximum of 7.5 metres; and

- (viii) **building** elements and **structure** height projections permitted in (i) to (v) above are also permitted within the area labelled "MPH Floor " on Diagram 6 By-law 959-2022;
- (I) Despite Regulation 40.10.40.10(5), the minimum height of the first **storey** for non-residential uses, measured between the floor of the first **storey** and the ceiling of the first **storey**, is 3.8 metres, and the minimum height of the first **storey** for residential uses, measured between the floor of the first **storey** and the ceiling of the first storey, is 2.8 metres;
- (J) Despite Regulation 40.5.40.60(1) and 40.10.40.70(2), the required minimum **building setbacks** are as shown in metres on Diagram 6 of By-law 959-2022;
- (K) Despite Clauses 40.10.40.70 and 40.10.40.80, no **angular planes** or related **main wall** separation requirements are applicable to the lands identified on Diagram 1 of By-law 959-2022;
- (L) Despite (J) above and Clause 40.10.40.60, the following elements may encroach into the required minimum **building setbacks** as follows:
- (i) elements and features such as eaves, window sills, damper equipment to reduce **building** movement, architectural flues, pillars and satellite dishes may encroach a maximum of 1.0 metres into any required **building setback**;
  - (ii) elements and features such as balconies and platforms may encroach a maximum of 2.0 metres into any required **building setback**;
  - (iii) elements and features such as pergolas, cabanas, guardrails, balustrades, railings, decorative/acoustic doors and screens, light fixtures, awnings and canopies may encroach a maximum of 3.0 metres into any required **building setback**;
  - (iv) despite subsection (iii) above, a canopy, awning or similar **structure**, with or without structural support, may encroach without limitation into a required minimum **building setback** that abuts a **street**, if no part of the canopy, awning or similar **structure** is located more than 8.0 metres above the elevation of the ground directly below it;
  - (v) elements and features such as trellises and planters may encroach a maximum of 5.0 metres into any required **building setback**;
  - (vi) elements and features such as ventilation shafts, and elements required for the functional operation of a **building**, site servicing features, stairs, stair enclosures, wheelchair ramps and fences may encroach a maximum of 6.0 metres into any required **building setback**; and
  - (vii) elements and features such as public art installations, art and landscape features, satellite dishes, lightning rods, antennae, flag poles and window washing equipment including Building Maintenance Unit (BMU) and crane may encroach a maximum of 1.0 metres into any required **building setback**;
- (M) The maximum number of **dwelling units** permitted is 135 **dwelling units**, subject to compliance with the following:
- (i) a minimum of 10 percent of the total **dwelling units** must have three or more bedrooms;
  - (ii) a minimum of 15 percent of the total **dwelling units** must have two bedrooms; and
  - (iii) if either of the calculations as a percentage of total **dwelling units** pursuant to subsections (i) and (ii) above results in a percentage with a decimal place, the percentage will be rounded up to the nearest whole number from 0.5 or above;
- (N) Despite Regulations 40.10.40.50(1) and (2), a **building** with 20 or more **dwelling units** must provide **amenity space** at the following rate:
- (i) at least 2.0 square metres for each **dwelling unit** as indoor **amenity space**; and
  - (ii) at least 2.0 square metres of outdoor **amenity space** for each **dwelling unit**;
- (O) Despite Regulations 40.5.80.1(1) and 200.5.1(2), Clause 200.5.10.1 and Table 200.5.10.1, **parking spaces** must be provided in accordance with the following:
- (i) a minimum of 0.64 **parking spaces** for each **dwelling unit** for the use of residents of the **building**;
  - (ii) a minimum of 0.10 **parking spaces** for each **dwelling unit** for the use of residential visitors to the **building**; and
  - (iii) a minimum of 2 "car-share parking spaces" for the use of residents of the **building**.

- (a) for the purposes of this exception "car-share" means the practice where a number of people share the use of one or more cars that are owned by a for-profit or non-profit car-sharing organization and where such organization may require that use of cars to be reserved in advance, charge fees based on time and/or kilometers driven, and set membership requirements of the car-sharing organization, including the payment of a membership fee that may or may not be refundable; and
  - (b) for the purposes of this exception "car-share parking space" means a **parking space** that is reserved and actively used for "car-share" purposes;
- (P) Despite Regulations 200.5.1.10(2)(A) and (D), Electric Vehicle Infrastructure, including electrical vehicle supply equipment, does not constitute an obstruction to a **parking space**;
- (Q) Despite Regulation 200.15.1(1), an accessible **parking space** must have the following dimensions:
- (i) minimum length of 5.6 metres;
  - (i) minimum length of 5.6 metres;
  - (ii) minimum width of 3.4 metres; and
  - (iii) minimum vertical clearance of 2.1 metres;
- (R) Despite Clauses 40.10.90.1 and 220.5.10.1, **loading spaces** must be provided and maintained as follows:
- (i) a minimum of one (1) Type "G" **loading space**;
- (S) Despite Regulations 230.5.10.1(1) and (5) and Table 230.5.10.1(1), **bicycle parking spaces** must be provided and maintained on the **lot** in accordance with the following minimum rates:
- (i) 0.68 "long-term" **bicycle parking spaces** for each **dwelling unit**; and
  - (ii) 0.07 "short-term" **bicycle parking spaces** for each **dwelling unit**;
- (T) Despite Regulations 230.5.1.10(4) and (5), a **stacked bicycle parking space** must have the following minimum dimensions:
- (i) a minimum length of 1.6 metres;
  - (ii) a minimum width of 0.45 metres; and
  - (iii) a minimum vertical height of 1.1 metres;
- (U) Despite Regulations 230.5.1.10(9) and (10) and 230.40.1.20(1), "long-term" **bicycle parking spaces** may be located in a **stacked bicycle parking space** arrangement, in any combination of vertical, horizontal or stacked positions, and may be located in a secured room or area on the first floor, mezzanine or second floor of a **building** above ground or any level below ground without any **bicycle parking space** occupation increment requirements;
- (V) Despite Regulations 230.5.1.10(9) and (10) and Clause 230.40.1.20, "short-term" **bicycle parking spaces** may be located in a **stacked bicycle parking space** arrangement, in any combination of vertical, horizontal or stacked positions, may be located in a secured room or area on the first floor, mezzanine or second floor of a **building** above ground or any level below ground and may be located more than 30 metres from a pedestrian entrance.

Prevailing By-laws and Prevailing Sections: (None Apply)  
[ By-law: 959-2022 ]

(616) Exception CR 616

The lands, or a portion thereof as noted below, are subject to the following Site Specific Provisions, Prevailing By-laws and Prevailing Sections.

Site Specific Provisions:

- (A) On 4415, 4417, 4419 and 4421 Sheppard Avenue East, as shown on Diagram 1 of By-law 1019-2022, if the requirements of Section 6 and Schedule A of By-law 1019-2022 are complied with, a **building** or **structure** may be constructed, used or enlarged in compliance with Sections (B) to (Q) below;
- (B) Despite Regulations 40.10.20.40(1)(A) and (B), an **apartment building**, and **mixed use building** are permitted;
- (C) Despite Regulations 40.5.40.10(1) and (2), the height of a **building** or **structure** is the distance between the Canadian Geodetic Datum of 171.15 metres and the elevation of the highest point of the **building** or **structure**;

- (D) Despite Clause 40.10.30.40, the permitted maximum **lot coverage**, as a percentage of the **lot area**, is 75 percent;
- (E) Despite Regulation 40.10.40.10(3), the permitted maximum height of a **building** or **structure** is the number in metres following the letters "HT" as shown on Diagram 3 of By-law 1019-2022;
- (F) Despite Regulations 40.5.40.10(3) to (8) and (D) above, the following equipment and **structures** may project beyond the permitted maximum height shown on Diagram 3 of By-law 1019-2022:
  - (i) equipment used for the functional operation of the **building** including electrical, utility, mechanical and ventilation equipment, enclosed stairwells, roof access, maintenance equipment storage, elevator shafts, chimneys, and vents, by a maximum of 6.0 metres;
  - (ii) **structures** that enclose, screen or cover the equipment, structures and parts of a **building** listed in (i) above, inclusive of a mechanical penthouse, by a maximum of 6.0 metres;
  - (iii) architectural features, parapets, and elements and **structures** associated with a **green roof**, by a maximum of 6.0 metres;
  - (iv) **building** maintenance units and window washing equipment, by a maximum of 6.0 metres;
  - (v) planters, **landscaping** features, guard rails, and divider screens on a balcony and/or terrace, by a maximum of 6.0 metres; and
  - (vi) trellises, pergolas, and unenclosed **structures** providing safety or wind protection to rooftop **amenity space**, by a maximum of 6.0 metres;
- (G) Despite Regulation 40.10.40.1(1), residential use portions of the **building** are permitted to be located on the same **storey** as the non-residential use portions of the **building** provided the **dwelling units** are located to the rear of the non-residential uses on the first **storey** and have direct access to Fulham Street;
- (H) Despite Regulation 40.10.40.40(1), the permitted maximum **gross floor area** of all **buildings** and **structures** on the lot is 17,991 square metres, of which:
  - (i) the permitted maximum **gross floor area** for residential uses is 17,665 square metres;
  - (ii) the required minimum **gross floor area** for non-residential uses is 325 square metres;
- (I) Despite Regulation 40.10.40.70(3), the required minimum **building setbacks** are as shown in metres on Diagram 3 of By-law 1019-2022;
- (J) A minimum of 142 square metres of publicly-accessible open space (POPS) must be provided in the area shown on Diagram 3 attached to By-law 1019-2022;
- (K) Despite Regulation 40.10.40.60(1):
  - (i) a platform with a floor level no higher than the floor level of the first **storey** of the **building** may encroach into the required minimum building setback by 2.7 metres;
  - (ii) a platform with a floor level higher than the floor level of the first storey of the **building** may encroach into the required minimum **building setback** a maximum of 1.8 metres;
- (L) Despite Regulation 40.10.40.60(2), a canopy, awning or similar **structure**, with or without structural support, or a roof over a platform which complies with provision (J) above, may encroach into a required minimum **building setback** for the **building** as follows:
  - (i) to the same extent as the platform it is covering; and
  - (ii) if it is not covering a platform, the canopy, awning or similar **structure**, a maximum of 1.8 metres;
- (M) Despite Regulation 40.10.40.60(3), exterior stairs providing access to a **building** or **structure** may encroach into a required minimum **building setback**;
- (N) Despite Regulation 40.10.40.60(5), architectural features on a **building** may encroach into a required minimum **building setback** a maximum of 0.3 metres;
- (O) Despite Regulation 200.5.10.1(1) and Table 200.5.10.1, **parking spaces** must be provided in accordance with the following:
  - (i) no minimum **parking spaces** are required for residential occupants;
  - (ii) a maximum of 195 **parking spaces** for **dwelling units** for residential occupants, which may include "car-share parking spaces";

- (iii) a minimum of 2 **parking spaces** plus 0.05 **parking spaces** per **dwelling unit** for the use of residential visitors;
  - (iv) a maximum of 1 parking space per **dwelling unit** for the first 5 **dwelling units** plus 0.1 **parking space** per **dwelling unit** for the 6th and subsequent **dwelling units** for the use of residential visitors;
  - (v) no minimum **parking spaces** are required for non-residential uses;
  - (vi) a maximum of 4.0 **parking spaces** per 100 square metres of non-residential **gross floor area**, which may include "car-share parking spaces";
- (P) Despite Regulation 200.15.10(1) and (2), a minimum of one of the required residential visitor **parking spaces** must be an accessible **parking space**, a minimum of 5 percent of the provided residential occupant **parking spaces** must be accessible **parking spaces**, and a minimum of one of the provided non-residential **parking spaces** must be an accessible **parking space**; and
- (i) where the calculation of the required accessible **parking spaces** results in a fraction, the number is rounded up to the nearest whole number;
- (Q) For the purpose of this exception:
- (i) "car-share" means the practice whereby a number of people share the use of one or more motor **vehicles** that are owned by a profit or nonprofit car-sharing organization, with such car-share motor **vehicles** to be made available for short term rental, including hourly rental. Car-share organizations may require that the car-share motor vehicles be reserved in advance, charge fees based on time and/or kilometers driven, and set membership requirements of the car-sharing organization, including the payment of a membership fee that may or may not be refundable;
  - (ii) "car-share parking space" means a **parking space** exclusively reserved and used only for "car-share" purposes whereby the **vehicle** is accessible to at least the occupants of the **buildings**.

Prevailing By-laws and Prevailing Sections: (None Apply)  
[ By-law: 1019-2022 ]

(617) Exception CR 617

The lands, or a portion thereof as noted below, are subject to the following Site Specific Provisions, Prevailing By-laws and Prevailing Sections.

Site Specific Provisions:

- (A) On 1801 and 1807 Eglinton Avenue West, if the requirements of Section 8 and Schedule A of By-law 895-2022 are complied with, a **building** or **structure** may be constructed, used or enlarged in compliance with (B) to (U) below;
- (B) Despite Regulation 40.5.40.10(1) and (2), the height of a **building** or **structure** is measured as the vertical distance between the Canadian Geodetic Datum elevation of 170.42 metres and the elevation of the highest point of the **building** or **structure**;
- (C) Despite Regulation 40.10.40.10(2), the permitted maximum height of a **building** or **structure** is the numerical value, in metres, following the letters HT as shown on Diagram 3 of By-law 895-2022;
- (D) Despite Regulations 40.5.40.10(3) to (8) and (C) above, the following equipment and **structures** may project beyond the permitted maximum height shown on Diagram 3 of By-law 895-2022:
  - (i) equipment used for the functional operation of the **building** including electrical, utility, mechanical and ventilation equipment, enclosed stairwells, roof access, maintenance equipment storage, elevator shafts, chimneys, and vents, by a maximum of 8.0 metres;
  - (ii) **structures** that enclose, screen or cover the equipment, **structures**, and parts of a **building** listed in (i) above, inclusive of a mechanical penthouse, by a maximum of 8.0 metres;
  - (iii) architectural features, parapets, and elements and **structures** associated with a **green roof**, by a maximum of 4.0 metres;
  - (iv) **building** maintenance units and window washing equipment, by a maximum of 4.0 metres;
  - (v) planters, **landscaping** features, guard rails, and divider screens on a balcony and/or terrace, by a maximum of 2.0 metres; and

- (vi) trellises, pergolas, and unenclosed **structures** providing safety or wind protection to rooftop **amenity space**, by a maximum of 3.5 metres;
- (E) Despite Regulation 40.5.40.10(5), equipment, **structures**, or parts of a **building** exceeding the maximum **building** height may cover more than 30 percent of the roof of the **building**;
- (F) Despite Regulation 40.10.40.40(1), the permitted maximum **gross floor area** of all **buildings** and **structures** on the **lot** is 33,225 square metres, of which:
  - (i) the permitted maximum **gross floor area** for residential uses is 32,115 square metres; and
  - (ii) the permitted maximum **gross floor area** for non-residential uses is 1,110 square metres.
- (G) Despite Regulations 40.5.40.70(1), 40.10.40.70(2) and 40.10.40.80(2), the required minimum **building setbacks** and required minimum separation distances of **main walls** are as shown in metres on Diagram 3 of By-law 895-2022;
- (H) Despite Regulation 40.5.40.60(1), Clause 40.10.40.60 and (G) above, the following **building** elements and **structures** are permitted to encroach into the required **building setbacks** and separation of **main walls** shown on Diagram 3 of By-law 895-2022:
  - (i) balconies to a maximum of 1.8 metres; and
  - (ii) cornices, light fixtures, ornamental elements, parapets, art and landscape features, patios, decks, pillars, trellises, terraces, eaves, window sills, bay windows, planters, ventilation shafts, guardrails, balustrades, railings, stairs and stair enclosures, doors, wheelchair ramps, fences, screens, site servicing features, awnings and canopies, to a maximum of 3.5 metres.
- (I) Despite Regulation 40.10.40.1(1), residential use portions of the **building** may also be located on the same level as non-residential use portions;
- (J) Despite Regulation 200.5.10.1(1) and Table 200.5.10.1, **parking spaces** must be provided on the **lot** in accordance with the following:
  - (i) For residential occupants:
    - (a) No minimum **parking spaces** are required per **dwelling unit**; and
    - (b) A maximum of 0.65 **parking spaces** for each **dwelling unit**;
  - (ii) For residential visitors:
    - (a) A minimum of 2.0 plus 0.01 **parking spaces** for residential visitors per **dwelling unit**;
  - (iii) no **parking spaces** are required for non-residential uses; and
  - (iv) A minimum of two (2) "car-share parking spaces".
- (K) Despite Regulations 200.15.1(1) to (4) and By-law 579-2017, accessible **parking spaces** must be provided and maintained on the **lot** in accordance with the following:
  - (i) an accessible **parking space** must have the following minimum dimensions:
    - (a) length of 5.6 metres;
    - (b) width of 3.4 metres; and
    - (c) vertical clearance of 2.1 metres.
  - (ii) the entire length of an accessible **parking space** must be adjacent to a 1.5-metre-wide accessible and barrier-free aisle or path as shown on Diagram 1 and Diagram 2 of By-law 579-2017;
  - (iii) accessible **parking spaces** must be located within 16.0 metres of a barrier free entrance to the **building** or passenger elevator that provides access to the first **storey** of the **building**;
- (L) Despite Regulation 200.15.10(1), three (3) of the provided **parking spaces** must be accessible **parking spaces**;
- (M) Despite Clause 220.5.10.1, a minimum of one Type "G" **loading space** must be provided and maintained on the **lot**;
- (N) Despite Regulation 230.5.1.10(10), both "long-term" and "short-term" **bicycle parking spaces** may be located in a **stacked bicycle parking space**;

- (O) Despite Regulation 230.5.10.1(1) and (5) and Table 230.5.10.1(1), a minimum of 0.9 "long-term" and 0.1 "short-term" **bicycle parking spaces** per **dwelling unit** must be provided and maintained on the **lot**;
- (P) Despite Regulation 230.40.1.20(1), "long-term" and "short-term" **bicycle parking spaces** may be located in an enclosed room;
- (Q) Despite regulation 230.5.1.10(7), no shower and change facilities are required;
- (R) The provision of **dwelling units** is subject to the following:
  - (i) a minimum of 15 percent of the total number of **dwelling units** must have two or more bedrooms;
  - (ii) a minimum of 10 percent of the total number of **dwelling units** must have three or more bedrooms;
  - (iii) any **dwelling units** with three or more bedrooms provided to satisfy (ii) above are not included in the provision required by (i) above; and
  - (iv) if the calculation of the number of required **dwelling units** with two or three bedrooms results in a number with a fraction, the number shall be rounded down to the nearest whole number.
- (S) Regulations 230.5.1.10(9) and 230.40.1.20(2), with respect to the location of "long-term" and "short-term" **bicycle parking spaces**, do not apply;
- (T) Regulations 200.15.1(4) and 200.15.15.4(2), with respect to the location of accessible **parking spaces**, do not apply;
- (U) For the purpose of this exception, a mezzanine level is not considered a **storey**.

Prevailing By-laws and Prevailing Sections: (None Apply)  
[ By-law: 895-2022 Enacted ]

(618) Exception CR 618

The lands, or a portion thereof as noted below, are subject to the following Site Specific Provisions, Prevailing By-laws and Prevailing Sections:

Site Specific Provisions:

- (A) On 1978-2002 Lake Shore Boulevard West, if the requirements of By-law 982-2022, including Section 6 are complied with, a **building** or **structure** may be constructed, used or enlarged in compliance with Regulations (B) to (U) below;
- (B) Despite Regulations 40.5.40.10(1) and (2), the height of a **building** or **structure** is the distance between the Canadian Geodetic Datum of 78.80 metres and the elevation of the highest point of the **building** or **structure**;
- (C) Despite Regulation 40.10.40.10(2), the permitted maximum height of a **building** or **structure** is the number in metres following the letters "HT" as shown on Diagram 3 of By-law 982-2022;
- (D) Despite Regulation 40.10.40.10(7), the permitted maximum number of **storeys** is the number following the letters "ST" as shown on Diagram 3 of By-law 982-2022;
  - (i) for the purpose of this exception, a mechanical penthouse does not constitute a **storey**;
- (E) For the purposes of this exception:
  - (i) "Tower 1" means the portion of the **building** identified as HT 115.0 and ST 36 on Diagram 3 of By-law 982-2022; and
  - (ii) "Tower 2" means the portion of the **building** identified as HT 65.0 and ST 20 on Diagram 3 of By-law 982-2022;
- (F) Despite Regulations 40.5.40.10(3) to (8) and (C) above, the following equipment and **structures** may project beyond the permitted maximum height shown on Diagram 3 of By-law 982-2022:
  - (i) equipment used for the functional operation of the **building** including electrical, utility, mechanical and ventilation equipment, enclosed stairwells, roof access, maintenance equipment storage, elevator shafts, elevator overrun and machine room, chimneys, and vents, by a maximum of 7 metres;
  - (ii) **structures** that enclose, screen or cover the equipment, **structures** and parts of a **building** listed in (i) above, inclusive of a mechanical penthouse, by a maximum of 7 metres;

- (iii) architectural features, parapets, and elements and **structures** associated with a **green roof**, by a maximum of 2 metres;
  - (iv) **building** maintenance units and window washing equipment, by a maximum of 5 metres;
  - (v) planters, landscape features, guard rails, and divider screens on a balcony and/or terrace, by a maximum of 5 metres; and
  - (vi) trellises, pergolas, and unenclosed **structures** providing safety or wind protection to rooftop **amenity space**, by a maximum of 5 metres;
- (G) Despite (F) above, only the following may project above the portion of "Tower 2" identified as HT 65.0 or ST 20 on Diagram 3 of By-law 982-2022;
  - (i) mechanical lift, noise mitigation, window washing equipment, lightning rods, balustrades, cornices, elevator overrun and machine room, guardrails, stair enclosures, vents, chimney, roof access and wind mitigation features, by a maximum of 3 metres;
- (H) Despite Regulation 40.10.40.40(1), the permitted maximum **gross floor area** of all **buildings** and **structures** on the **lot** is 47,000 square metres, of which:
  - (i) the permitted maximum **gross floor area** for residential uses is 46,800 square metres;
  - (ii) the required minimum **gross floor area** for non-residential uses is 150 square metres;
- (I) In addition to the **building** elements listed in regulation 40.5.40.40(3), the **gross floor area** of a **mixed use building** and an **apartment building** is also reduced by the areas in a **building** used to access and store **bicycle parking spaces** in a **building**;
- (J) Despite Regulation 40.10.40.70(2) and 40.10.40.80(2), the required minimum **building setbacks** and separation of **main walls** are as shown in metres on Diagram 3 of By-law 982-2022;
- (K) Despite Regulation 40.10.40.60 and (J) above, the following elements may encroach into the required minimum **building setbacks** and separation of **main wall** separation distances as follows:
  - (i) decks, porches, and balconies, by a maximum of 3 metres;
  - (ii) canopies and awnings, by a maximum of 3 metres;
  - (iii) exterior stairs, access ramps and elevating devices, by a maximum of 3 metres;
  - (iv) cladding on the exterior surface of the **main wall** of a **building**, by a maximum of 1.5 metres;
  - (v) architectural features, such as a pilaster, decorative column, cornice, sill, belt course, or chimney breast, by a maximum of 1.5 metres;
  - (vi) window projections, including bay windows and box windows, by a maximum of 3 metres;
  - (vii) eaves, by a maximum of 1.5 metres;
  - (viii) a dormer, by a maximum of 1.5 metres; and
  - (ix) air conditioners, satellite dishes, antennae, vents, and pipes, by a maximum of 3 metres;
- (L) the provision of all **dwelling units** shall be subject to the following:
  - (i) a minimum of 30 percent must be two-bedroom **dwelling units**; and
  - (ii) a minimum of 10 percent must be three-bedroom **dwelling units** or larger;
  - (iii) If the calculation of the number of required **dwelling units** pursuant to (i) and (ii) above, results in a number with fraction, the number is rounded down to the nearest whole number;
  - (iv) Despite (i) and (ii) above, the two and three bedroom **dwelling unit** requirements do not apply to the 'affordable housing units' provided in accordance with Schedule A of By-law 982-2022;
- (M) Despite Regulation 200.5.10.1(1) and Table 200.5.10.1, **parking spaces** must be provided in accordance with the following:
  - (i) a minimum of 0.33 residential occupant **parking spaces** for each **dwelling unit**;
  - (ii) a minimum of 0.06 residential visitor or non-residential **parking spaces** for each **dwelling unit**;
  - (iii) the minimum number of residential occupant **parking spaces** for the affordable housing units required in Schedule A of By-law 982-2022 shall be calculated at a rate of 0.1 **parking spaces** per **dwelling unit**;
- (N) Despite (M) above, a minimum rate of 0.1 residential occupant **parking spaces** for each **dwelling unit** applies to the affordable housing units required by Schedule A of By-law 982-2022;

- (O) Despite Regulation 200.5.1.10(2), a maximum of five (5) percent of the total number of **parking spaces** provided on the **lot** may have a minimum width of 2.6 metres, despite being obstructed on one or both sides;
- (P) Despite Regulation 200.5.1.10(2), Electric **Vehicle** Infrastructure, including electrical **vehicle** supply equipment, does not constitute an obstruction to **parking space**;
- (Q) Despite (M) above, "car-share parking spaces" may replace **parking spaces** otherwise required for residential occupants, subject to the following:
  - (i) a reduction of four resident occupant **parking spaces** will be permitted for each "car-share parking space" provided and that the maximum reduction permitted be capped by the application of the following formula:
    - (a) four multiplied by the total number of **dwelling units** divided by 60, and rounded down to the nearest whole number;
  - (ii) for the purpose of this exception, "car-share" means the practice whereby a number of people share the use of one or more motor **vehicles** and such "car-share" motor **vehicles** are made available to at least the occupants of the **building** for short-term rental, including hourly rental; and
  - (iii) for the purpose of this exception, "car-share parking space" means a **parking space** exclusively reserved and signed for a **vehicle** used only for "car-share" purposes;
- (R) Despite Regulation 230.5.1.10(9), "long term" and "short term" **bicycle parking spaces** for **dwelling units** or for non-residential uses may be located anywhere below ground and/or on the ground level of the **building**;
- (S) Despite Regulation 230.5.1.10(10), "short term" **bicycle parking spaces** for **dwelling units** or for non-residential uses may also be located in any combination of vertical, horizontal or stacked configurations;
- (T) Despite Regulation 230.5.1.10(4), **bicycle parking spaces** must comply with the following minimum dimensions:
  - (i) Where the bicycles are to be placed in a vertical position on a wall, **structure** or mechanical device:
    - (a) a minimum length of 1.2 metres;
    - (b) a minimum width of 0.45 metres; and
    - (c) a minimum vertical clearance of 1.9 metres;
  - (ii) Where the bicycles are to be placed in a horizontal position:
    - (a) a minimum length of 1.8 metres;
    - (b) a minimum width of 0.45 metres; and
    - (c) a minimum vertical clearance of 1.9 metres;
  - (iii) Where the bicycles are to be placed in a **stacked bicycle parking space**:
    - (a) a minimum length of 1.8 metres;
    - (b) a minimum width of 0.45 metres; and
    - (c) a minimum vertical clearance of 1.2 metres;
- (U) Despite the Regulation 220.5.10.1, a minimum of one Type "G" **loading space** and one Type "C" **loading space** is required.

The lands, or a portion thereof as noted below, are subject to the following Site Specific Provisions, Prevailing By-laws and Prevailing Sections.

Site Specific Provisions:

- (A) On 655-663 Queen Street West and 178 Bathurst Street, a **building** or **structure** may be constructed, used or enlarged in compliance with Regulations (B) to (N) below:

- (B) Despite Regulations 40.5.40.10(1) and (2), the height of a **building** or **structure** is the distance between the Canadian Geodetic Datum elevation of 91.97 metres to the highest point of the **building** or **structure**;
- (C) Despite Regulations 40.10.20.100(1)(A), the permitted total **interior floor area** of all **service shops**, **eating establishments**, **take-out eating establishments**, **retail services** and **retail stores** may not exceed 1,000 square metres;
- (D) Despite Regulation 40.10.40.1(1), residential use portions of the **building** must be located above non-residential use portions of the **building**, other than residential lobby access, residential **bicycle parking spaces** and residential storage rooms;
- (E) Despite Regulation 40.10.40.10(2), the permitted maximum height of a **building** or **structure**, is the number following the HT symbol in metres as shown on Diagram 3 of By-law 1158-2022(OLT);
- (F) Despite Regulations 40.5.40.10(6) and (7) and (E) above, the following equipment and **structures** may project beyond the permitted maximum height of a **building**:
  - (i) unenclosed **structures** providing safety or wind protection to rooftop **amenity spaces**, guardrails, railings and dividers, **structures** for open air recreation, pergolas, trellises, balustrades, eaves, screens, roof drainage, windowsills, terraces, light fixtures, architectural features and ornamental elements, **landscaping**, and planters may project above the height limits to a maximum of 3.0 metres; and
  - (ii) parapet walls, including those associated with a **green roof**, may project above the height limits of a **building** and the heights permitted for equipment and **structures** located on the roof of a **building** as per Regulation 40.5.40.10(4), to a maximum of 2.0 metres;
- (G) Despite Regulation 40.10.40.40(1) the permitted maximum **gross floor area** is 5,950 square metres, of which:
  - (i) the permitted maximum **gross floor area** for residential uses is 5,000 square metres; and
  - (ii) the permitted maximum **gross floor area** for non-residential uses is 1,000 square metres;
- (H) Despite Regulation 40.10.40.70(2), the required minimum **building setbacks** are shown in metres on Diagram 3 of By-law 1158-2022(OLT);
- (I) Despite Regulation 40.10.40.60(5) and (H) above, the following elements may encroach into the required minimum **building setbacks** as follows:
  - (i) cornices, architectural features, light fixtures, ornamental elements, parapets, pillars, columns and support **structures**, thermal insulation, eaves, windowsills, and site servicing features to a maximum of 0.75 metres; and
  - (ii) unenclosed **structures** providing safety or wind protection to rooftop **amenity spaces**, patios, trellises, **structures** for outside or open air recreation, pergolas, terraces, guardrails, railings and dividers, balustrades, screens, planters to a maximum of 8.0 metres;
- (J) Despite Regulation 200.5.10.1(1) and Table 200.5.10.1, no **parking spaces** for any uses on the **lot** are required;
- (K) Despite Regulation 230.5.1.10(8), "short-term" **bicycle parking spaces** may be located within the municipal right-of-way immediately adjacent to the **lot**;
- (L) Despite Regulations 230.5.1.10(10) and 230.40.1.20(2), a "short-term" **bicycle parking space** may be located in a stacked bicycle parking space; and
  - (i) A minimum of 4 "short-term" **bicycle parking spaces** must be provided on the **lot** and may be located within the first level below-ground;
- (M) Despite Regulation 230.5.10.1(5), **bicycle parking spaces** must be provided in accordance with the following minimum rates:
  - (i) 0.94 "long-term" **bicycle parking spaces** for each **dwelling unit**; and
  - (ii) 0.13 "short-term" **bicycle parking spaces** for each **dwelling unit**;
- (N) A minimum of 31 percent of the total number of **dwelling units** on the **lot** must contain two bedrooms and a minimum of 9.2 percent of the total number of **dwelling units** must contain a minimum of three bedrooms.

  - (i) for the purpose of this exception and notwithstanding the definition of **storey**, mezzanines, loft areas, mezzanines used for mechanical purposes, and mechanical penthouses above grade do not constitute as a **storey**.
- (J) Despite Regulations 40.5.40.10(4), (5), (6), (7) and (G) above, the following equipment and **structures** may project beyond the permitted maximum height shown on Diagram 6 of By-law 922-2022:
  - (i) equipment used for the functional operation of the **building** including electrical, utility, mechanical and ventilation equipment, enclosed stairwells, mechanical penthouse, mechanical penthouse roof access, maintenance equipment storage, elevator shafts and overruns, chimneys, and vents, by a maximum of 6.25 metres;
  - (ii) architectural features, parapets, and elements and **structures** associated with a **green roof**, by a maximum of 3.0 metres;
  - (iii) **building** maintenance units and window washing equipment, by a maximum of 6.0 metres;
  - (iv) planters, landscaping features, guard rails, and divider screens on a balcony and/or terrace, by a maximum of 3.0 metres; and
  - (v) trellises, pergolas, and unenclosed **structures** providing safety or wind protection to rooftop **amenity space**, by a maximum of 3.5 metres.
- (K) Despite Regulation 40.10.40.40(1), the permitted maximum **gross floor area** of all **buildings** and **structures** on the lot is 19,610 square metres, of which:
  - (i) the permitted maximum **gross floor area** for residential uses is 19,360 square metres; and
  - (ii) the permitted minimum **gross floor area** for non-residential uses is 250 square metres.
- (L) Despite Regulation 40.10.30.40(1), the maximum permitted **lot coverage** is 59 percent of the **lot area**;
- (M) Despite Regulation 40.10.40.70(2), the required minimum **building setbacks** are as shown in metres on Diagram 6 of By-law 922-2022;
- (N) Despite Regulation 40.10.40.80(2), the required separation of **main walls** are as shown in metres on Diagram 6 of By-law 922-2022;

- (O) Despite Clause 40.10.40.60 and (M) and (N) above, the following elements may encroach into the required minimum **building setbacks** and **main wall** separation distances as follows:
- (i) decks, porches, balconies, canopies and awnings, by a maximum of 5.5 metres;
  - (ii) exterior stairs, access ramps and elevating devices, by a maximum of 2 metres;
  - (iii) architectural features, such as a pilaster, decorative column, cornice, sill, belt course, or chimney breast and cladding, by a maximum of 1 metre;
  - (iv) window projections, including bay windows and box windows, by a maximum of 1 metre;
  - (v) eaves, by a maximum of 1 metre;
  - (vi) a dormer, by a maximum of 1 metre;
  - (vii) air conditioners, satellite dishes, antennae, vents, and pipes, by a maximum of 1 metre; and
  - (viii) guards and guardrails, railings, parapets, terraces, privacy and wind screens, landscape planters and terrace platforms may project beyond the required **building setback** to the extent of the **main wall** of the **storey** below.
- (P) Despite Regulation 40.10.90.10(1), one **loading space** that is not in a **building** or **structure** may be located in the north side yard;
- (Q) Despite Regulation 200.5.1.10(2)(A)(iv), 18 percent of the required **parking spaces** may be obstructed as described in Regulation 200.5.1.10(2)(D) without being required to provide additional width for the obstructed sides of the **parking space**;
- (R) Despite Regulation 200.5.10.1(1) and Table 200.5.10.1, **parking spaces** must be provided in accordance with the following:
- (i) a minimum of 0.19 **parking spaces** per **dwelling unit** or **bed-sitting room**, of which a minimum of 3 **parking spaces** shall be reserved for visitor and non-residential uses of the **building**.
- (S) Despite Regulation 200.15.1(1), an accessible **parking space** must have the following minimum dimensions:
- (i) length of 5.6 metres;
  - (ii) width of 3.4 metres with an adjacent 1.5 metre wide barrier free aisle or path as shown in Diagram 1 of By-law 579-2017; and
  - (iii) vertical clearance of 2.1 metres.
- (T) Despite Regulations 220.5.10.1(1), (3) and (5), a minimum of one (1) Type "G" **loading space** is required on the **lot**;
- (U) Despite Regulations 230.5.10.1(1)(3) and (5) and Table 230.5.10.1(1), 10 "short-term" **bicycle parking spaces** are required to be provided on **lot**.

  - (iii) a minimum of 100 square metres of non-residential **gross floor area** must be provided.
- (H) Of the total number of **dwelling units** provided on the **lot**:
  - (i) a minimum of 15 percent must be two-bedroom **dwelling units**; and
  - (ii) a minimum of 10 percent must be three-bedroom **dwelling units**.
- (I) Despite Regulation 40.10.40.50(1), a building with 20 or more **dwelling units** must provide **amenity space** at the following rate:
  - (i) at least 2.2 square metres for each **dwelling unit** as indoor **amenity space**; and
  - (ii) at least 1.5 square metres of outdoor **amenity space** for each **dwelling unit**.
- (J) The permitted maximum floor area for each **storey** of a **building** above a height of 20.0 metres, as measured from the Canadian Geodetic Elevation of 113.06, is 850 square metres, measured from the exterior of the **main wall** of each floor level;
- (K) Despite Regulation 40.10.40.70(2) and 40.10.40.80(2), the required minimum building setbacks and the required minimum separation of main walls are as shown in metres, on Diagram 3 of By-law 927-2022;
- (L) Despite (K) above, the required minimum **building setback** for the ground floor between a height of 0 metres and 4.5 metres is:
  - (i) 2.9 metres from the **lot line** abutting Bloor Street West to the **main wall** of the **building** at the ground floor;

- (ii) 6.5 metres from the **lot line** abutting Perth Avenue to the **main wall** of the **building** at the ground floor; and
  - (iii) 3.7 metres from the **lot line** abutting Sterling Road to the **main wall** of the **building** at the ground floor.
- (M) Despite (K) above and Regulations 40.10.40.60(1) to (9), the following elements may encroach into the required minimum **building setbacks** and minimum separation distances as follows:
  - (i) cornices, window sills, eaves, balustrades, ornamental or architectural features, to a maximum extent of 0.75 metres;
  - (ii) balconies, to a maximum extent of 2.5 metres;
  - (iii) canopies and awnings, including structural support **structures**, to a maximum extent of 4.0 metres; and
  - (iv) railings, planters, stairs, light fixtures, bollards, safety railings, guards, guardrails, wheelchair ramps, bicycle parking facilities, landscape features, architectural features, and art installations to a maximum extent of 2.0 metres.
- (N) Regulations 40.10.50.10(1), 40.10.50.10(2), and 40.10.50.10(3) with respect to **landscaping** requirements, do not apply;
- (O) Despite Regulations 200.5.10.1(1) and 200.5.10.1(2) and Table 200.5.10.1, **parking spaces** must be provided in accordance with the following:
  - (i) Resident requirement for a **dwelling unit** in an **apartment building** or **mixed use building**:
    - (a) a minimum of 0 **parking spaces** for each **dwelling unit**;
    - (b) a maximum of 0.3 **parking spaces** for each bachelor **dwelling unit** up to 45 square metres and 1.0 for each bachelor **dwelling unit** greater than 45 square metres;
    - (c) a maximum of 0.5 **parking spaces** for each one-bedroom **dwelling unit**;
    - (d) a maximum of 0.8 **parking spaces** for each two-bedroom **dwelling unit**; and
    - (e) a maximum of 1.0 **parking space** for each three-bedroom **dwelling unit**.
  - (ii) Visitor requirement for a **dwelling unit** in an **apartment building** or **mixed use building**:
    - (a) a minimum of 2.0 parking spaces plus 0.01 parking spaces per dwelling unit;
    - (b) a maximum of 1.0 **parking space** per **dwelling unit** for the first five **dwelling units**; and
    - (c) a maximum of 0.1 **parking spaces** per **dwelling unit** for the sixth and subsequent **dwelling units**.
  - (iii) No **parking spaces** are required for non-residential uses; and
  - (iv) A minimum of two "car-share parking spaces".
- (P) For the purposes of this exception:
  - (i) "car-share" means the practice whereby a number of people share the use of one or more motor **vehicles** and such "car-share" motor **vehicles** are made available to at least the occupants of the **building** for short term rental, including hourly rental; and
  - (ii) "car-share parking space" means a **parking space** exclusively reserved and signed for a **vehicle** used only for "car-share" purposes.
- (Q) Despite Regulation 200.15.10(1), three accessible **parking spaces** must be provided in accordance with the following:
  - (i) Despite Regulation 200.15.1(1), an accessible **parking space** must have the following minimum dimensions:
    - (a) length of 5.6 metres;
    - (b) width of 3.4 metres; and
    - (c) vertical clearance of 2.1 metres.
  - (ii) The entire length of an accessible **parking space** must be adjacent to a 1.5 metre wide accessible barrier free aisle or path as shown on Diagram 1 and Diagram 2 of By-law 579-2017; and

- (iii) Despite Regulation 200.15.1(4), accessible **parking spaces** are required to be within 30 metres of a barrier free entrance to the **building** and passenger elevator that provides access to the first **storey** of the **building**.
  - (R) Despite Regulation 40.10.80.20(2), a **parking space** must be set back at least 4.9 metres from a **lot** in the Residential Zone category;
  - (S) Despite Regulation 200.5.1.10(13), access to the required **parking spaces** may be provided by **vehicle** elevators;
  - (T) Regulations 230.5.1.10(9) and 230.40.1.20(2), in relation to the location of "long-term" and "short-term" **bicycle parking spaces**, do not apply.

(672) Exception CR 672

The lands, or a portion thereof as noted below, are subject to the following Site Specific Provisions, Prevailing By-laws and Prevailing Sections:

Site Specific Provisions:

- (A) On 625 Church Street, if the requirements of By-law 1209-2022(OLT) are complied with, a **building** or **structure** may be constructed, used or enlarged in compliance with Regulations (B) to (Z) below:
- (B) The provision of **dwelling units** is subject to the following:
  - (i) a minimum of 30 percent of the total number of **dwelling units** must have two or more bedrooms;
  - (ii) a minimum of 10 percent of the total number of **dwelling units** must have three or more bedrooms;

- (iii) any **dwelling units** with three or more bedrooms provided to satisfy (ii) above are not included in the provision required by (i) above; and
  - (iv) if the calculation of the number of required **dwelling units** with two or three bedrooms results in a number with a fraction, the number shall be rounded down to the nearest whole number;
- (C) Despite Regulations 40.5.40.10(1) and (2), the height of a **building** or **structure** is the distance between the Canadian Geodetic Datum of 115.25 metres and the elevation of the highest point of the **building** or **structure**;
- (D) Despite Regulation 40.10.40.10(1), the permitted maximum height of a **building** or **structure** is the number in metres following the letters "HT" as shown on Diagram 3 of By-law 1209-2022(OLT);
- (E) Despite Regulation 40.10.40.10(7), the permitted maximum number of **storeys** in a **building** is 56;
- (F) For the purposes of this exception and (E) above, the following portions of a **building** are not a **storey**:
  - (i) a partial mezzanine level located above the **first floor** and below the second floor of a **building**, with a maximum **gross floor area** of 800 square metres; and
  - (ii) the mechanical penthouse level of the **building** located above the area shown as "HT 184.0" on Diagram 3 of By-law 1209-2022(OLT), limited in use to areas used for the functional operation of the **building** and access thereto, as well as a maximum of 300 square metres indoor **amenity space**;
- (G) Despite Regulations 40.5.40.10(3) to (8), 600.10.10 (1)(D) and (D) above, the following equipment and **structures** may project beyond the permitted maximum height shown on Diagram 3 of By-law 1209-2022(OLT):
  - (i) **structures** and elements related to outdoor flooring and roofing assembly, by a maximum of 0.5 metres;
  - (ii) railings, guard rails, parapets, terrace walls, planters, balustrades, bollards, retaining walls, access ramps, exterior stairs and ornamental or architectural features, by a maximum of 1.5 metres;
  - (iii) parapets and elements or **structures** associated with a **green roof**, by a maximum of 1.8 metres;
  - (iv) **landscaping** features and divider screens on a balcony and/or terrace, by a maximum of 2.5 metres;
  - (v) screens and unenclosed **structures** providing noise or wind protection to rooftop **amenity space**, by a maximum of 3.0 metres;
  - (vi) trellises, pergolas, cabanas, and unenclosed **structures**, by a maximum of 3.5 metres;
  - (vii) equipment used for the functional operation of the **building** including electrical, utility, mechanical and ventilation equipment, enclosed stairwells, roof access, maintenance equipment storage, elevator shafts and machine rooms, water supply facilities, safety elements, chimneys, pipes, shafts, and vents, by a maximum of 10.0 metres; and
  - (viii) **structures** that enclose, screen or cover the equipment, **structures** and parts of a **building** listed in (vii) above and indoor **amenity space**, inclusive of a mechanical penthouse, by a maximum of 10.0 metres;
- (H) Despite Regulation 40.10.40.40(1) and (2), the permitted maximum **gross floor area** of all **buildings** and **structures** on the **lot** is 55,000 square metres, of which:
  - (i) the permitted maximum **gross floor area** for residential uses is 44,500 square metres;
  - (ii) the required minimum **gross floor area** for office uses is 10,000 square metres; and
  - (iii) the permitted maximum **gross floor area** for retail store uses is 500 square metres;
- (I) Despite Regulation 40.10.40.50(2), no outdoor **amenity space** for non-residential uses is required;
- (J) Despite Regulation 40.10.40.70(1) and Article 600.10.10, the required minimum **building setbacks** are as shown in metres on Diagram 3 of By-law 1209-2022(OLT);
- (K) Despite Clause 40.10.40.60 and (J) above, the following elements may encroach into the required minimum **building setbacks** as follows:
  - (i) eaves, cornices, window sills, ornamental or architectural features; architectural fins, light fixtures, chimneys, stacks, and vents, by a maximum of 0.6 metres;

- (ii) balconies on the east side of the building between the height of 31.0 metres and 50.0 metres, by a maximum of 2.0 metres;
  - (iii) bollards, retaining walls, access ramps, and exterior stairs, by a maximum of 2.0 metres;
  - (iv) canopies and awnings, by a maximum of 2.0 metres; and
  - (v) railings, guard rails, parapets, terrace walls, planters, balustrades, elements or **structures** associated with a **green roof**, platforms, **landscaping** features, divider screens, screens and unenclosed **structures** providing noise or wind protection to rooftop **amenity space**, trellises, pergolas, cabanas, and unenclosed **structures** on the **building's** roof may encroach into a **building setback** to the same extent as the roof below;
- (L) Despite 40.10.40.80(1) and 600.10.10(1)(C), the minimum separation distance required between **main walls** of the building is:
  - (i) a minimum of 5.4 metres between the height of 25.0 to 32.0 metres on the west side of the **building**; and
  - (ii) a minimum of 13.6 metres between the height of 46.0 to 50.0 metres on the south side of the **building**;
- (M) Despite Regulation 40.10.100.10(1), two **vehicle** accesses to the **lot** are permitted;
- (N) Despite Regulation 200.5.10.1(1) and Table 200.5.10.1, **parking spaces** must be provided in accordance with the following:
  - (i) a minimum of 230 residential occupant **parking spaces**;
  - (ii) a minimum of 32 **parking spaces** for residential visitors and non-residential uses, which may be provided as **public parking**;
- (O) Despite Regulation 200.5.1.10(2)(A)(i), a maximum of 25 **parking spaces** may have a minimum length of 5.3 metres;
- (P) Despite Regulations 220.5.10.1(2) to (9) and Article 220.20.1, a minimum of one Type "G" **loading space**, one Type "B" **loading space**, and one Type "C" **loading space** must be provided;
- (Q) Despite Regulation 230.5.1.10(4), if a **stacked bicycle parking space** is provided in a mechanical device where any portion of a bicycle is situated above or below any portion of an adjacent bicycle, the minimum required width of each such **stacked bicycle parking space** is 0.4 metres;
- (R) Despite Regulation 230.5.1.10(9)(A), required "long-term" **bicycle parking spaces** for uses other than dwelling units may be located on the second level of the **building** below-ground;
- (S) Despite Regulation 230.5.1.10(10), both "long-term" and "short-term" **bicycle parking spaces** may be provided in a **stacked bicycle parking space**;
- (T) Prevailing Sections 12(2) 80, 12(2) 132, and 12(2) 260 of former City of Toronto By-law 438-86 and former City of Toronto by-law 94-0481 do not apply to a **building** or **structure** constructed, used or enlarged in compliance with Regulations (B) to (Y) above and below;
- (U) Despite Regulation 40.10.40.1(1), all residential use portions of the **building** must be located above non-residential use portions of the **building**, other than residential lobby access, ancillary office uses and **amenity space**;
- (V) Despite Regulation 200.15.1(1), an accessible **parking space** must have the following minimum dimensions:
  - (i) length of 5.6 metres;
  - (ii) width of 3.4 metres; and
  - (iii) vertical clearance of 2.1 metres;
- (W) Despite Regulation 200.15.1(3), the entire length of an accessible **parking space** must be adjacent to a 1.5 metre wide accessible barrier free aisle or path; and
- (X) Despite Regulation 200.15.1(4), required accessible **parking spaces** must be located a minimum of 20 metres from a barrier free:
  - (i) entrance to a **building**; or
  - (ii) passenger elevator that provides access to the first **storey** of the **building**;

- (Y) Clauses 200.15.10.5 - Effective Parking Spaces and 200.15.10.10 - Parking Rate - Accessible Parking Spaces, do not apply, provided that accessible **parking spaces** are provided in accordance with Regulations 200.15.10(1) and (2), as they read prior to February 3, 2022;
- (Z) Despite Regulation 600.20.10(1)(A) the first **storey** of a **mixed-use building** or **non-residential building** must provide a minimum of 43 percent of the **lot frontage** abutting the priority retail street for one or more permitted non-residential uses.

  - (iii) no more than 25 percent of the outdoor component may be a **green roof**;
- (H) Despite Regulation 40.10.40.70(3), the required minimum **building setbacks** are as shown in metres on Diagram 4 of By-law 1121-2022(OLT);
- (I) Despite (H) above, the required minimum **building setback** between a **building** height of 0.0 metres and 7.5 metres is 3.0 metres for the portion of the **building** abutting Laird Drive, and the required minimum **building setback** between a height of 0.0 metres and 4.5 metres is 1.0 metres for the portion of the **building** abutting Stickney Avenue, with the exception of any required corner rounding;
- (J) Despite Clause 40.10.40.60, 40.5.40.60(1) and (H) above, the following elements may encroach into the required minimum **building setbacks** and **main wall** separation distances as follows:
- (i) columns, lighting fixtures, awnings, canopies, cornices, architectural features, piers, window washing equipment, parapets, parapet flashing, roof and terrace scuppers, roof overhang, gutter, downspout, trellises, window sills, balcony railings, guardrails, balustrades, railings, wind mitigation and acoustic screens and features, planters, wheel chair ramps, mechanical exhaust and intake components, underground garage ramps and their associated **structures** and elements, retaining walls, fences, Siamese connections, structural and architectural elements of the overhang and canopies, and privacy screens to a maximum of 2.0 metres; and
  - (ii) balconies and terraces to a maximum of 2.5 metres; and
  - (iii) despite (ii) above, along Laird Drive balconies on the 6th **storey** or 7th **storey** to a maximum of 1.0 metre;
- (K) Regulation 40.10.50.10(1)(B), with respect to **front yard** landscaping, does not apply;
- (L) Despite Regulation 200.5.10.1(1) and Table 200.5.10.1, **parking spaces** must be provided in accordance with the following:
- (i) a minimum of 83 **parking spaces** for residents in Block A;
  - (ii) a minimum of 14 **parking spaces** for visitors or non-residential **gross floor area** in Block A;
  - (iii) a minimum of 58 **parking spaces** for residents in Block B;
  - (iv) a minimum of 12 **parking spaces** for visitors or non-residential **gross floor area** in Block B;
- (M) Despite Regulation 200.5.10.1(1), "car-share **parking spaces**" may replace **parking spaces** otherwise required for residential occupants, subject to the following:
- (i) a reduction of 4 resident occupant **parking spaces** will be permitted for each "car-share **parking space**" provided and that the maximum reduction permitted be capped by the application of the following formula:
    - (a) 4 multiplied by (total number of dwelling units divided by 60), rounded down to the nearest whole number;
  - (ii) for the purpose of this exception, "car-share" means the practice whereby a number of people share the use of one or more motor **vehicles** and such "car-share" motor **vehicles** are made available to at least the occupants of the **building** for short-term rental, including hourly rental; and
  - (iii) for the purpose of this exception, "car-share parking space" means a **parking space** exclusively reserved and signed for a **vehicle** used only for "car-share" purposes;
- (N) The **parking spaces** required for non-residential uses in (M)(ii) and (M)(iv) above, may be used as **public parking**;
- (O) Despite Regulation 200.5.1.10(2)(A), a maximum of 15 percent of the required **parking spaces** may have a minimum dimensions of:
- (i) length of 5.1 metres;
  - (ii) width of 2.4 metres;

- (iii) vertical clearance of 1.7 metres; and
- (iv) the side of the **parking spaces** may be obstructed;
- (P) Regulation 200.5.1.10(2)(D), with respect to a **parking space** obstructed by any part of a fixed object, does not apply;
- (Q) Despite Regulation 200.15.1(4), an accessible **parking space** is not required to be closest to a barrier-free passenger elevator that provides access to the first **storey** of the **building** or the shortest route from the required entrance to an elevator;
- (R) In addition to Regulation 220.5.1.10(8)(D), a staging pad adjacent to a Type "G" **loading space** may have a minimum vertical clearance of 4.4 metres;
- (S) Despite Regulations 230.5.1.10(4) and (5), **stacked bicycle parking spaces** must be provided and maintained with the following minimum dimensions:
  - (i) length of 1.8 metres;
  - (ii) width of 0.43 metres; and
  - (iii) vertical clearance of 1.2 metres.

- (v) architectural crowning elements on Tower 1, as shown on Diagram 7 of By-law 1032-2022, may project above the height limits to a maximum of 11.0 metres; and
  - (vi) window washing equipment, lightning rods, antennae, flagpoles and satellite dishes and wind mitigation features may project up to a maximum height of 5.0 metres above the elements listed in (iv) above;
- (I) For the purposes of this exception, the total area of all equipment, **structures**, or parts of any **building** mentioned in (H)(v) and (iv) above may cover 100 percent of the area of the roof, measured horizontally;
- (J) Despite Regulation 40.10.40.40(1), the permitted maximum **gross floor area** of all **buildings** and **structures** on the **lot** is 128,000 square metres, of which:
- (i) the permitted maximum **gross floor area** for residential uses is 123,500 square metres;
  - (ii) the required minimum **gross floor area** for non-residential uses in Area 1, shown in Diagram 7 attached to By-law 1032-2022, is 3,825 square metres;
  - (iii) the required minimum **gross floor area** for non-residential uses in Area 2, shown in Diagram 7 attached to By-law 1032-2022 is 1,552 square metres;
  - (iv) the required minimum **gross floor area** for non-residential uses in Area 3, shown in Diagram 7 attached to By-law 1032-2022, is 1,646 square metres;
  - (v) the required minimum **gross floor area** for non-residential uses in Area 4, shown in Diagram 7 attached to By-law 1032-2022, is 1,163 square metres;
- (K) Despite Regulations 40.10.20.100(1), (5), (6), (17), (33), a **cabaret, club, eating establishment, entertainment place of assembly, place of assembly, recreation use, take-out eating establishment, service shop, retail service, retail store** and **retail store** with beverage **manufacturing** use for beer, cider and wine may exceed 400 square metres;
- (L) Section 150.100 does not apply to an **eating establishment** on the lands;
- (M) Despite Regulation 40.10.20.100 (20) the outdoor sale or display of goods or commodities:
- (i) does not need to be combined with another permitted non-residential use;
  - (ii) there is no maximum cumulative area for the outdoor sale or display of goods or commodities;
  - (iii) the area for the outdoor sale or display of goods or commodities may not be located in areas required for parking, loading, **driveways** or **landscaping**; and
  - (iv) storage or warehousing of goods may be permitted in a **vehicle**;
- (N) In addition to the uses permitted to be combined with an **outdoor patio**, as set out in Regulation 40.10.20.100 (21)(A), a **retail store** with beverage **manufacturing use** for beer, cider and wine may also have an **outdoor patio**;
- (O) Despite Regulations 40.10.20.100 (21)(B) and (C), an **outdoor patio**:
- (i) shall have no maximum area; and
  - (ii) may be used to provide entertainment such as performances, music and dancing;
- (P) Despite Regulation 40.10.40.50(1) and (2), a **building** with 20 or more **dwelling units** must provide **amenity space** on the **lot** at the following rate:
- (i) at least 1.7 square metres for each **dwelling unit** as indoor **amenity space**;
  - (ii) at least 1.3 square metres of outdoor **amenity space** for each **dwelling unit**;
  - (iii) no more than 25 percent of the outdoor component may be a **green roof**; and
  - (iv) the **amenity space** required for the **lot** may be provided within one **building**;
- (Q) Despite Regulation 40.10.40.70(2) and (4), the required minimum **building setbacks** are as shown in metres on Diagram 7 of By-law 1032-2022;
- (R) Despite Regulation 40.10.40.80(2), the required minimum separation of **main walls** are as shown in metres on Diagram 7 of By-law 1032-2022;
- (S) Despite Regulation 40.5.40.60(1), Clause 40.10.40.60, and (Q) and (R) above, the following **building** elements may encroach into the required minimum **building setbacks** and **main wall** separation distances as follows:
- (i) eaves, cornices, windowsills, light fixtures, to a maximum extent of 1.0 metres;

- (ii) columns, bollards, wheelchair ramps, stairs and stair enclosures, to a maximum extent of 4.0 metres;
  - (iii) balconies and balcony dividers and ornamental and architectural elements and feature, to a maximum extent of 2.0 metres;
  - (iv) canopies, awnings, trellises, window washing equipment, signage or similar **structures**, to a maximum extent of 3.0 metres; and
  - (v) guards and guardrails, railings, parapets, terraces, privacy and wind screens, landscape planters and terrace platforms to a maximum extent of the **main wall** of the **storey** below;
- (T) Despite (Q) and (R) above, an interior pedestrian walkway between Tower 1 and Tower 3 may be permitted within the location shown on Diagram 7 of By-law 1032-2022, subject to the following:
  - (i) an interior pedestrian walkway must be located above a height of 6.9 metres and below a height of 18.0 metres, measured between the Canadian Geodetic Datum elevation of 147.0 metres and the highest point of the interior pedestrian walkway;
- (U) For the purposes of this exception, the floor plate of each Tower 1, 2 and 3 on Diagram 7 of By-law 1032-2022 must have a maximum **gross floor area** of 850 square metres measured from the exterior of the **main wall** of such floor level, and subject to the floor area reductions of regulation 40.5.40.40(3);
- (V) For the purposes of this exception, a "Tower" is the portion of the **building** illustrated on Diagram 7 of By-law 1032-2022 which collectively enclose the entirety of a **storey** higher than:
  - (i) 28.7 metres for Tower 1;
  - (ii) 20 metres for Tower 2; and
  - (iii) 29 metres for Tower 3;
- (W) Despite Clause 200.5.10.1, Table 200.5.10.1 and Regulation 200.5.1.10(5), **parking spaces** must be provided in accordance with the following:
  - (i) a minimum of 0.22 residential occupant **parking spaces** for each **dwelling unit**;
  - (ii) no residential visitor **parking spaces** are required;
  - (iii) no **parking spaces** for non-residential uses are required;
  - (iv) Despite Regulation 200.5.10.1(1), "care-share parking spaces" may replace **parking spaces** otherwise required for residential occupants, subject to the following:
    - (a) a reduction of four (4) **parking spaces** for residents will be permitted for each "car-share parking space" provided, to a maximum of 10 "car-share parking spaces";
    - (b) for the purpose of this exception, "car-share" means the practice whereby a number of people share the use of one or more motor **vehicles** and such "car-share" motor **vehicles** are made available to at least the occupants of the **building** for short-term rental, including hourly rental;
    - (c) for the purpose of this exception, "car-share parking spaces" means a **parking space** exclusively reserved and signed for a **vehicle** used only for "car-share" purposes;
    - (d) "car-share parking spaces" may be provided in **tandem parking spaces**;
- (X) **Parking spaces** required by (W)(i) above may be provided in a **stacked parking space** and/or in an automated parking system;
- (Y) If a **parking space** is provided in a **stacked parking space** and/or in an automated parking system, Regulations 200.5.1.10.(2), (3) and (6), do not apply to the **parking space**;
- (Z) **Parking spaces** in **public parking** may be provided on the lands for the purposes of providing temporary short-term parking for the public and the permitted uses on the **lot**;
- (AA) **Parking spaces** referred to in (Z) above, and **drive aisles** accessing those **parking spaces** must be provided in accordance with the following minimum dimensions:
  - (i) for Municipally owned **public parking**:
    - (a) for **parking spaces**:
      1. a minimum length of 5.2 metres;
      2. a minimum width of 2.6 metres; and
      3. a minimum vertical clearance of 2.2 metres;

- (b) for **drive aisles**:
    - 1. a minimum width of 7.0 metres;
  - (ii) for all other public parking:
    - (a) for **parking spaces**:
      - 1. a minimum length of 5.6 metres;
      - 2. a minimum width of 2.6 metres; and
      - 3. a minimum vertical clearance of 2.0 metres;
    - (b) for **drive aisles**:
      - 1. a minimum width of 6.0 metres
- (BB) Despite Regulation 200.15.1(1), an accessible **parking space** must have the following dimensions:
  - (i) a minimum length of 5.6 metres;
  - (ii) a minimum width of 3.4 metres; and
  - (iii) a minimum vertical clearance of 2.1 metres;
- (CC) The entire length of an accessible **parking space** must be adjacent to a 1.5 metre wide accessible barrier free aisle or path;
- (DD) Accessible **parking spaces** must be the **parking spaces** closest to a barrier free:
  - (i) entrance to a **building**;
  - (ii) passenger elevator that provides access to the first **storey** of the **building**; and
  - (iii) and shortest route from the required entrances in (i) and (ii).
- (EE) Despite Regulation 40.10.100.10(1), a maximum of four **vehicle** accesses to the **lot** are permitted and may be provided from Alvin Avenue and/or Heath Street East;
- (FF) Despite Clause 220.5.10.1, **loading spaces** must be provided on the **lot** as follows:
  - (i) for the first **building** constructed on the lands a minimum of one Type 'G' **loading space** and one Type 'B' **loading space** must be provided, plus additional **loading spaces** as follows:
    - (a) one Type 'B' **loading space** for non-residential **gross floor area** on the **lot** between 2,500 square metres and 4,999 square metres;
    - (b) one Type 'B' **loading space** for non-residential **gross floor area** on the **lot** above 5,000 square metres; and
    - (c) one Type 'C' **loading space** per each **building** that contains more than 399 **dwelling units**;
  - (ii) for each subsequent **building** constructed on the lands, **loading spaces** must be provided as follows:
    - (a) one Type 'B' **loading space** for non-residential **gross floor area** on the **lot** between 2,500 square metres and 4,999 square metres;
    - (b) one Type 'B' **loading space** for non-residential **gross floor area** on the **lot** above 5,000 square metres; and
    - (c) one Type 'C' **loading space** per each **building** that contains more than 399 **dwelling units**;
- (GG) For the purpose of this exception, if a **mixed use building** on the **lot** has a minimum of 30 **dwelling units**, the requirement for a Type "A" **loading space** or a Type "B" **loading space** is satisfied by the provision of a Type "G" **loading space**, referred to in Regulation 220.5.1.10(8);
- (HH) Despite Regulation 40.10.90.40(1), access to the required **loading spaces** set out in (FF) above may be provided from Alvin Avenue;
  - (II) In addition to the places "long-term" **bicycle parking spaces** may be located in Regulation 230.5.1.10 (9) and 230.40.1.20(1), "long-term" **bicycle parking spaces** may be located on any level of a **building** below ground, or on the first and second **storeys** above ground or the mezzanine level between the first and second **storeys**;
- (JJ) Despite Regulation 230.5.1.10(7), no change or shower facilities are required;

- (KK) Despite Regulations 230.5.1.10(6) and (10) and Clause 230.40.1.20, both "long-term" and "short-term" **bicycle parking spaces** may be located in a secured room, enclosure or bicycle locker may be located in a **stacked bicycle parking space**;
- (LL) Despite Regulations 230.5.1.10(4)(A) and (C), a **stacked bicycle parking space** must have the following dimensions:
- (i) a minimum length of 1.8 metres;
  - (ii) a minimum width of 0.45 metres;
  - (iii) despite (ii) above, the width of an upper tier **stacked bicycle parking space** may be reduced by 0.14 metres per side if the **stacked bicycle parking space** overlaps with an adjacent **stacked bicycle parking space** on one or both sides; and
  - (iv) despite (ii) above, the width of a lower tier **stacked bicycle parking space** may be reduced by 0.32 metres per side if the **stacked bicycle parking space** overlaps with an adjacent **stacked bicycle parking space** on one or both sides;
- (MM) A minimum of 15 percent of the total number of **dwelling units** on the lands must contain a minimum of two bedrooms and a minimum of 10 percent of the total number of **dwelling units** on the lands must have three or more bedrooms, provided that:
- (i) a minimum of 7.5 percent of the **dwelling units** within each of Areas 1, 2, 3 and 4 shown on Diagram 8 attached to By-law 1032-2022, are required to have a minimum three bedrooms; and
  - (ii) a minimum of 10 percent of all **dwelling units** on the lands must have a minimum of three bedrooms, once all the **buildings** are constructed;

(696) Exception CR 696

The lands, or a portion thereof as noted below, are subject to the following Site Specific Provisions, Prevailing By-laws and Prevailing Sections:

Site Specific Provisions:

- (A) On 316, 318, 320, 322, 324, 326, 330, 332, 334 & 336 Campbell Avenue, if the requirements of By-law 1074-2022 are complied with, a **building** or **structure** may be constructed, used or enlarged in compliance with Regulations (B) to (X) below;
- (B) Despite Regulation Regulations 40.5.40.10(1) and (2), the height of a **building** or **structure** is the distance between the Canadian Geodetic Datum of 120.16 metres and the elevation of the highest point of the **building** or **structure**;
- (C) Despite Regulations 40.10.40.10(2) and 40.10.40.10(7), the permitted maximum height of a **building** or **structure** is the number in metres following the letters "HT" and the number in **storeys** following the letters "ST" as shown on Diagram 3 of By-law 1074-2022;
- (D) Despite regulation 40.10.40.10(5), the required minimum height of the first **storey**, as measured between the floor of the first **storey** and the ceiling of the first **storey**, is 3.15 metres;
- (E) Despite Regulations 40.5.40.10(3) to (8) and (C) above, the following equipment and **structures** may project beyond the permitted maximum height shown on Diagram 3 of By-law 1074-2022:
  - (i) equipment used for the functional operation of the **building** including electrical, utility, mechanical and ventilation equipment, enclosed stairwells, roof access, maintenance equipment storage, elevator shafts, chimneys, and vents, by a maximum of 6.5 metres;
  - (ii) **structures** that enclose, screen or cover the equipment, **structures** and parts of a **building** listed in (i) above, inclusive of a mechanical penthouse, by a maximum of 6.5 metres;
  - (iii) architectural features, parapets, and elements and **structures** associated with a **green roof**, by a maximum of 2.0 metres;
  - (iv) **building** maintenance units and window washing equipment, by a maximum of 2.0 metres;
  - (v) planters, **landscaping** features, guard rails, and divider screens on a balcony and/or terrace, by a maximum of 3.0 metres; and
  - (vi) trellises, pergolas, and unenclosed **structures** providing safety or wind protection to rooftop **amenity space**, by a maximum of 3.0 metres;

- (F) Despite Regulation 40.10.40.40(1), the permitted maximum **gross floor area** of all **buildings** and **structures** on the **lot** is 22,000 square metres, of which:
- (i) the permitted maximum **gross floor area** for residential uses is 21,500 square metres;
  - (ii) the permitted maximum **gross floor area** for non-residential uses is 500 square metres;
- (G) Despite (F) above, the calculation of **gross floor area** shall not include architectural or metallic cladding projecting from the exterior of a **main wall**;
- (H) In addition to the elements listed in Regulation 40.5.40.40(3), the **gross floor area** of a **building** or **structure** on the **lot** may also be reduced by the area used for storage rooms above ground;
- (I) Despite Regulation 40.10.40.50(1) and (2), a **building** with 20 or more **dwelling units** must provide **amenity space** on the **lot** at the following rate:
- (i) at least 2.0 square metres for each **dwelling unit** as indoor **amenity space**;
  - (ii) at least 1.5 square metres for each **dwelling unit** as outdoor **amenity space**;
- (J) Despite Regulation 40.10.40.70(2), the required minimum **building setbacks** are as shown in metres on Diagram 3 of By-law 1074-2022;
- (K) Despite Regulation 40.10.40.80(2), the required minimum separation of **main walls** may be 3.0 metres if there are no openings to **dwelling units** in at least one of those **main walls**;
- (L) Despite Clause 40.10.40.60 and (J) and (K) above, the following elements may encroach into the required minimum **building setbacks** and **main wall** separation distances as follows:
- (i) decks, porches, and balconies, by a maximum of 2.0 metres;
  - (ii) canopies and awnings, by a maximum of 2.5 metres;
  - (iii) exterior stairs, access ramps and elevating devices, by a maximum of 3.0 metres;
  - (iv) cladding added to the exterior surface of the **main wall** of a **building**, by a maximum of 1.0 metre;
  - (v) architectural features, such as a pilaster, decorative column, cornice, sill, belt course, or chimney breast, by a maximum of 2.0 metres;
  - (vi) window projections, including bay windows and box windows, by a maximum of 1.5 metres;
  - (vii) eaves, by a maximum of 1.0 metre;
  - (viii) a dormer, by a maximum of 1.0 metre; and
  - (ix) air conditioners, satellite dishes, antennae, vents, and pipes, by a maximum of 2.5 metres;
- (M) Of the total number of **dwelling units** provided on the lot:
- (i) a minimum of 25 percent must be two-bedroom **dwelling units**; and
  - (ii) a minimum of 10 percent must be three-bedroom **dwelling units** or larger;
  - (iii) if the calculation of the number of required **dwelling units** in (i) or (ii) above, results in a number with fraction, the number is rounded down to the nearest whole number;
- (N) Despite Regulation 200.5.10.1(1) and Table 200.5.10.1, **parking spaces** must be provided in accordance with the following:
- (i) a minimum of 0.24 **parking spaces** per **dwelling unit** for residents;
  - (ii) a minimum of 0.06 **parking spaces** per **dwelling unit** for residential visitors; and
  - (iii) the minimum number of residential occupant **parking spaces** for the 'Affordable Housing Units' required in 'Schedule A – Section 37 Requirements' of By-law 1074-2022 shall be calculated at a rate of 0.1 **parking spaces** per **dwelling unit**;
- (O) Despite (N) above and Regulations 200.15.1(1), 200.15.1(3), 200.15.1(4), and 200.15.10(1)(C), accessible **parking spaces** must comply with the following:
- (i) a minimum of five (5) accessible **parking spaces** must be provided;
  - (ii) accessible **parking spaces** must have the following minimum dimensions:
    - (a) length of 5.6 metres;
    - (b) width of 3.4 metres; and
    - (c) vertical clearance of 2.1 metres;

- (iii) the entire length of an accessible **parking space** must be adjacent to a 1.5 metre wide accessible barrier free aisle or path;
- (iv) accessible **parking spaces** must be the **parking spaces** closest to a barrier free:
  - (a) entrance to a **building**;
  - (b) passenger elevator that provides access to the first **storey** of the **building**; and
  - (c) shortest route from the required entrances in (a) and (b);
- (P) Despite (N) above, "car-share parking spaces" may replace **parking spaces** otherwise required for residential occupants, subject to the following:
  - (i) a reduction of four resident occupant **parking spaces** will be permitted for each "car-share parking space" up to a maximum of two "car-share parking spaces";
  - (ii) for the purpose of this exception, "car-share" means the practice whereby a number of people share the use of one or more motor **vehicles** and such "car-share" motor **vehicles** are made available to at least the occupants of the **building** for short-term rental, including hourly rental; and
  - (iii) for the purpose of this exception, "car-share parking space" means a **parking space** exclusively reserved and signed for a **vehicle** used only for "car-share" purposes;
- (Q) Despite Regulation 200.5.1.10(2)(A)(iv), a maximum of 10 percent of the total **parking spaces** provided on the lands identified on Diagram 1 of By-law 1074-2022 may have a minimum width of 2.6 metres, despite being obstructed on one or both sides;
- (R) Despite Regulation 200.5.1.10(2)(D), Electric **Vehicle** Infrastructure, including electrical **vehicle** supply equipment, does not constitute an obstruction to a **parking space**;
- (S) Despite Regulations 230.5.1.10(8) and 230.5.1.10(10), "short-term" **bicycle parking spaces** may be:
  - (i) located in a **stacked bicycle parking space** arrangement;
  - (ii) located outdoors, indoors, or within an accessible enclosure;
- (T) Despite Regulation 230.5.1.10(9), "long term" **bicycle parking spaces** for **dwelling units** or for non-residential uses may be located anywhere below ground, on the first **storey**, or on the second **storey** of the **building**;
- (U) Despite Regulation 230.5.1.10(4)(B), the minimum dimension of a **stacked bicycle parking space** is:
  - (i) minimum length of 1.6 metres;
  - (ii) minimum width of 0.56 metres;
  - (iii) minimum vertical clearance from the ground of 2.4 metres.
- (V) Despite Regulations 150.5.20.1(1) and (2), a **home occupation** may be a **personal service shop**, office or medical office and may have clients or customers attending the **premises** for consultations, receiving services, or obtaining physical goods as it relates to these uses;
- (W) Despite Regulations 150.5.20.1(6), a **home occupation** may have an employee working in the **dwelling unit** who is not the business operator;
- (X) Despite Regulation 150.5.40.40(1), the floor area for a **home occupation** may be 50 percent of the total **interior floor area** of the **dwelling unit** the **home occupation** is located in.

Prevailing By-laws and Prevailing Sections: (None Apply)  
[ By-law: 595-2022 Under Appeal ]

(736) Exception CR 736

The lands, or a portion thereof as noted below, are subject to the following Site Specific Provisions, Prevailing By-laws and Prevailing Sections:

Site Specific Provisions:

- (A) The required minimum height of a **building** or **structure** is 14.5 metres and it must have at least 4 **storeys**.

Prevailing By-laws and Prevailing Sections: (None Apply)  
[ By-law: 595-2022 Under Appeal ]

(749) Exception CR 749

The lands, or a portion thereof as noted below, are subject to the following Site Specific Provisions, Prevailing By-laws and Prevailing Sections.

Site Specific Provisions:

- (A) On 2699-2701 Keele Street, as shown on Diagram 1 of By-law 829-2022, if the requirements of By-law 829-2022 are complied with, a **building** or **structure**, may be constructed, used or enlarged in compliance with (B) to (AA) below;
- (B) Despite Regulation 40.5.40.10(1) and (2), the height of a **building** or **structure** is measured as the vertical distance between the Canadian Geodetic Datum elevation of 179.80 metres and the elevation of the highest point of the **building** or **structure**;
- (C) Despite Regulation 40.10.40.1(1), residential use portions of a **building** may be located on the same level or below non-residential use portions of a **building**;
- (D) Despite Regulation 40.10.40.10(3) and 40.10.40.10(7)(A), no portion of a **building** or **structure** erected on the lands may exceed the height in metres specified by the numbers following "HT" and number of **storeys** specified by the numerical values following "ST" on Diagram 5 of By-law 829-2022;
- (i) for the purpose of this exception, a mechanical penthouse does not constitute a **storey**;
- (E) Despite Regulation (D) above, and Regulations 40.5.40.10(4), (5), (6) and (7), the following elements of a **building** may project above the permitted maximum **building** heights shown on Diagram 5 of By-law 829-2022:
- (i) **structures** and elements related to outdoor flooring and roofing assembly, safety railings, guard rails, railings, parapets, terraces, planters, balustrades, bollards, stairs, retaining walls, ornamental or architectural features, and elements on the roof of the **building** or **structure** used for **green roof** technology and related roofing material by no more than 2.0 metres;
- (ii) equipment used for the functional operation of the **building**, such as electrical, gas pipes, chimneys, garbage vent pipes, garbage chutes, utility, mechanical and ventilation equipment, emergency generators and lighting fixtures by no more than 2.5 metres;
- (iii) elevator overrun, acoustical barriers, landscape features, privacy screens, terrace dividers, covered stairs or stair enclosures, and fences by no more than 2.75 metres;
- (iv) gazebos, cabanas, trellises and wind mitigation features by no more than 3.0 metres;
- (v) mechanical screening and heating/cooling towers by no more than 5.0 metres; and
- (vi) window washing equipment, lighting rods, and decorative lighting canopy by no more than 4.0 metres;
- (F) Despite Regulations 40.10.40.70(3) and 40.10.40.80(2), the required minimum **building setbacks** and **main wall** separation distance are as shown in metres on Diagram 5 of By-law 829-2022

- (G) Despite Regulation (F) above and Regulations 5.10.40.70(1) and 40.10.40.60(1) to (9), the following encroachments are permitted into the required minimum **building setbacks** and above ground separation distance between **main walls** on Diagram 5 of By-law 829-2022:
- (i) balconies may encroach no more than 1.75 metres;
  - (ii) despite (G)(i) above, balconies are not permitted to encroach into **building setbacks** on the 2nd to 5th storeys along Keele Street, George Appleton Way and into the 7.5 metre building **setback** required from the east **lot line**, as shown on Diagram 5 of By-law 829-2022;
  - (iii) cladding, wind mitigation features, awnings, **building** cornices, window washing equipment, terrace lighting fixtures, ornamental elements, lightning rods, trellises, eaves, window sills, stairs, stair enclosures, air intakes and vents, ventilation equipment, landscape and **green roof** elements, partitions dividing outdoor recreation areas, privacy screens, acoustical walls, chimney stacks and exhaust flues may encroach no more than 2.5 metres; and
  - (iv) canopies may encroach no more than 3.0 metres;
- (H) Despite Regulation 40.10.40.40(1), the total **gross floor area** of all **buildings** and **structures** must not exceed 31,000 square metres, provided:
- (i) the residential **gross floor area** must not exceed 30,750 square metres; and
  - (ii) the non-residential **gross floor area** must not exceed 600 square metres;
- (I) On the 10th storey and above, the maximum gross construction area of each **storey** must not exceed 750 square metres;
- (J) Despite Regulation 200.5.10.1(1), and Table 200.5 10.1, **parking spaces** must be provided on the **lot** as follows:
- (i) the lesser of:
    - (a) the minimum **parking spaces** per **dwelling unit** for residential occupants in a **mixed use building** required in Table 200.5.10.1 of By-law 569-2013; and
    - (b) a minimum of 0.84 **parking spaces** per **dwelling unit** for residential occupants in a **mixed use building**;
    - (c) if the calculation of the number of required **parking spaces** in (a) or (b) above results in a number with a fraction, the number may be rounded down to the nearest whole number;
  - (ii) A minimum of 0.15 **parking spaces** per **dwelling unit** for residential visitors; and
  - (iii) A minimum of 8 **parking spaces** for the non-residential uses;
- (K) Despite Regulation 200.5.1.10(2), a maximum of 10 **parking spaces** may have a minimum width of 2.6 metres when obstructed on one side in accordance with Regulation 200.5.1.10(2)(D);
- (L) Despite Article 200.15.1, accessible **parking spaces** must be provided on the **lot** as follows:
- (i) accessible **parking spaces** must have the following minimum dimensions:
    - (a) length of 5.6 metres;
    - (b) width of 3.4 metres; and
    - (c) vertical clearance of 2.1 metres;
  - (ii) the entire length of an accessible **parking space** must be adjacent to a minimum 1.5 metre wide accessible barrier free aisle or path; and
  - (iii) accessible **parking spaces** do not need to be on the shortest route to the passenger elevator;
- (M) Despite Regulation 230.5.1.10(4)(A), a horizontal **bicycle parking space** must have a minimum width of 0.4 metres and a minimum length of 1.6 metres;
- (N) Despite Regulation 230.5.1.10(4)(B), a vertical **bicycle parking space** must have a minimum width of 0.4 metres and a minimum horizontal clearance from the wall of 1.1 metres;
- (O) Despite Regulation 230.5.1.10(9), "long term" and "short term" **bicycle parking spaces** for **dwelling units** or for non-residential uses may be located anywhere above or below ground in the **building**;
- (P) Despite Regulation 230.5.1.10(10), "long term" and "short term" **bicycle parking spaces** for **dwelling units** or for non-residential uses may also be provided in a **stacked bicycle parking space**;

- (Q) Despite Regulations 230.5.10.1(1), (2) and (5) **bicycle parking spaces** must be provided on the **lot** as follows:
- (i) a minimum of 0.68 **bicycle parking spaces** per **dwelling unit** must be provided as long-term **bicycle parking spaces** for the **dwelling units**;
  - (ii) a minimum of 0.07 **bicycle parking spaces** per **dwelling unit** must be provided as short-term **bicycle parking spaces** for the **dwelling units**;
  - (iii) no **bicycle parking spaces** are required for the non-residential uses; and
  - (iv) the number of required **bicycle parking spaces** in (i) and (ii) above may be rounded down to the nearest whole number when the calculation results in a fraction;
- (R) Despite Regulation 230.40.1.20(2), a "short-term" **bicycle parking space** may be located more than 30 metres from a pedestrian entrance to the **building** and may be located in an unsecured room;
- (S) For the purposes of this exception, a "Type G Loading Space" means a **loading space** that is a minimum of 4.0 metres wide, 13.0 metres long and has a minimum vertical clearance of 6.1 metres;
- (T) Despite Clause 220.5.10.1, at least one (1) Type "G" **loading space** must be provided and maintained on the **lot**;
- (U) In addition to the **building** elements listed in Regulation 40.5.40.40(3), the **gross floor area** of a **mixed use building** is also reduced by the areas in a **building** used for:
- (i) Hallways and elevator vestibules below ground; and
  - (ii) Electrical, utility, mechanical and ventilation rooms on any level of the **building**;
- (V) Despite Regulation 40.10.40.10(5), the required minimum height of 4.5 metres applies to portions of a **storey** containing non-residential uses listed in Regulations 40.10.20.10(1)(A) and 40.10.20.20(1)(A);
- (W) Despite Regulation 40.10.20.100(21)(B), the maximum area of an **outdoor patio** is 500 square metres;
- (X) Despite Regulation 40.5.40.60(1), the height limitation of 5.0 metres related to canopies for permitted encroachments into a required **building setback** does not apply;
- (Y) Despite Regulation 40.10.50.10(1)(B), no **landscaping** is required;
- (Z) Regulation 40.10.40.1(2) regarding grade related access to the non-residential uses does not apply; and
- (AA) The provision of **dwelling units** is subject to the following:
- (i) a minimum of 15 percent of the total number of **dwelling units** must have two or more bedrooms;
  - (ii) a minimum of 10 percent of the total number of **dwelling units** must have three or more bedrooms;
  - (iii) any **dwelling units** with three or more bedrooms provided to satisfy (ii) above are not included in the provision required by (i) above; and
  - (iv) if the calculation of the number of required **dwelling units** with two or three bedrooms results in a number with a fraction, the number shall be rounded down to the nearest whole number.

Prevailing By-laws and Prevailing Sections: (None Apply)

(750) Exception CR 750

The lands, or a portion thereof as noted below, are subject to the following Site Specific Provisions, Prevailing By-laws and Prevailing Sections:

Site Specific Provisions:

- (A) On 287, 289 and 291 Christie Street if the requirements of By-law 958-2022 are complied with, a **building** or **structure** may be constructed, used or enlarged in compliance with Regulations (B) to (Q) below;
- (B) Despite Regulations 40.5.40.10(1) and (2), the height of a **building** or **structure** is the distance between the Canadian Geodetic Datum of 120.60 metres and the elevation of the highest point of the **building** or **structure**;
- (C) Despite Regulation 40.10.40.10(2), the permitted maximum height of a **building** or **structure** is the number in metres following the letters "HT" as shown on Diagram 7 of By-law 958-2022;

- (D) Despite Regulation 40.10.40.10(5), the required minimum height of the first **storey**, as measured between the floor of the first **storey** and the ceiling of the first **storey**, is 3.8 metres;
- (E) Despite Regulations 40.5.40.10(3) to (8) and (D) above, the following equipment and **structures** may project beyond the permitted maximum height shown on Diagram 3 of By-law 958-2022:
- (i) equipment used for the functional operation of the **building** including electrical, utility, mechanical and ventilation equipment, enclosed stairwells, roof access, maintenance equipment storage, elevator shafts, chimneys, and vents, by a maximum of 2.2 metres;
  - (ii) **structures** that enclose, screen or cover the equipment, **structures** and parts of a **building** listed in (i) above, inclusive of a mechanical penthouse, by a maximum of 2.2 metres;
  - (iii) architectural features, parapets, and elements and **structures** associated with a **green roof**, by a maximum of 1.5 metres;
  - (iv) **building** maintenance units and window washing equipment, by a maximum of 4.0 metres;
  - (v) planters, **landscaping** features, guard rails, and divider screens on a balcony and/or terrace, by a maximum of 3.0 metres; and
  - (vi) trellises, pergolas, and unenclosed **structures** providing safety or wind protection to rooftop **amenity space**, by a maximum of 3.0 metres.
- (F) Despite Regulation 40.10.40.40(1), the permitted maximum **gross floor area** of all **buildings** and **structures** on the **lot** is 3,500 square metres, of which:
- (i) the permitted maximum **gross floor area** for residential uses is 3,500 square metres;
  - (ii) the permitted maximum **gross floor area** for non-residential uses is 465 square metres; and
  - (iii) Notwithstanding (i) above, the maximum permitted residential **gross floor area** located above 140.60 metres Canadian Geodetic Datum is 50.0 square metres.
- (G) Despite Regulation 40.10.40.50(1), a building with 20 or more **dwelling units** must provide at least 1.2 square metres for each **dwelling unit** as indoor **amenity space** and no outdoor **amenity space** is required;
- (H) Despite Regulations 40.5.40.70 (1) and 40.10.40.70 (2), the required minimum **building setbacks** are as shown in metres on Diagram 7 of By-law 958-2022;
- (I) Despite Clause 40.10.40.60, Regulation 40.10.40.80 (2) and (H) above, the following elements may encroach into the required minimum **building setbacks** and **main wall** separation distances as follows:
- (i) decks, porches, structural columns and elements and balconies, by a maximum of 3.25 metres;
  - (ii) canopies and awnings, by a maximum of 2.0 metres;
  - (iii) exterior stairs, access ramps and elevating devices, by a maximum of 3.0 metres;
  - (iv) cladding added to the exterior surface of the **main wall** of a **building**, by a maximum of 1.0 metres;
  - (v) architectural features, such as a pilaster, decorative column, cornice, sill, belt course, or chimney breast, by a maximum of 1.5 metres;
  - (vi) window projections, including bay windows and box windows, by a maximum of 1.5 metres;
  - (vii) eaves, by a maximum of 0.50 metres;
  - (viii) a dormer, by a maximum of 3.0 metres; and
  - (ix) air conditioners, satellite dishes, antennae, vents, and pipes, by a maximum of 2.0 metres.
- (J) Despite Regulation 200.5.10.1(1) and Table 200.5.10.1, **parking spaces** must be provided in accordance with the following:
- (i) a minimum of 0.35 residential occupant **parking spaces** for each **dwelling unit**; and
  - (ii) No **parking spaces** are required for residential visitors and non-residential uses.
- (K) Despite Regulation 200.5.1.10 (2) **stacked parking spaces** may have a minimum width of 2.2 metres, a length of 5.3 metres, and a minimum vertical clearance of 1.5 metres and no additional width is required for an obstructed **parking space**;
- (L) Despite Regulation 200.15.10(1), no accessible **parking spaces** are required;

- (M) Despite Regulation 200.5.1.10 (12)(C), a **vehicle** entrance or exit to a **building** must be at least 0.7 metres from the **lot line** abutting the **street**;
- (N) Regulation 200.5.1 (3) does not apply;
- (O) Despite Regulation 220.5.10.1 (2), no **loading spaces** are required;
- (P) Despite Regulation 230.40.1.20 (2), a "short term" **bicycle parking space** may be located more than 30 metres from a pedestrian entrance;
- (Q) Despite Regulation 200.5.1.10 (12), the minimum required width of a **vehicle** entrance or exit is 2.2 metres;

Prevailing By-laws and Prevailing Sections: (None Apply)

[ By-law: 958-2022 ]

(751) Exception CR 751

The lands, or a portion thereof as noted below, are subject to the following Site Specific Provisions, Prevailing By-laws and Prevailing Sections.

Site Specific Provisions:

- (A) On 250 University Avenue, as shown on Diagram 1 of By-law 1041-2022, if the requirements of Section 7 and Schedule A of By-law 1041-2022 are complied with, a **mixed use building** or **structure** may be constructed, used or enlarged in compliance with (B) to (CC) below;
- (B) For the purpose of this exception, the **lot** comprises the lands delineated by heavy lines on Diagram 1, attached to By-law 1041-2022;
- (C) Despite Regulation 40.5.40.10(1) and (2), the height of a **building** or **structure** is the distance between the Canadian Geodetic Datum elevation of 89.36 metres and the elevation of the highest point of the **building** or **structure**;
- (D) Despite Regulation 40.10.40.10 (1), the permitted maximum height of a **building** or **structure** is the number following the "HT" symbol as shown on Diagram 3 of By-law 1041-2022;
- (E) Despite Regulations 40.5.40.10 (4) to (8), and (D) above, the following equipment and **structures** may project beyond the permitted maximum height shown on Diagram 3 of By-law 1041-2022:
  - (i) equipment used for the functional operation of the **building** including electrical, utility, mechanical and ventilation equipment, enclosed stairwells, roof access, maintenance equipment storage, elevator shafts, chimneys, and vents, by a maximum of 3.5 metres;
  - (ii) **structures** that enclose, screen or cover the equipment, **structures** and parts of a **building** listed in (i) above, excluding a mechanical penthouse, by a maximum of 3.5 metres;
  - (iii) architectural features, parapets, and elements and **structures** associated with a **green roof**, by a maximum of 3.5 metres;
  - (iv) planters, **landscaping** features, guard rails, and divider screens on a balcony and/or terrace, by a maximum of 3.0 metres; and
  - (v) trellises, pergolas, and unenclosed **structures** providing safety or wind protection to rooftop **amenity space**, by a maximum of 3.0 metres
  - (vi) **building** maintenance units and window washing equipment by a maximum of 5.0 metres;
- (F) Article 600.10.10 respecting **building setbacks**, **building** separation, separation of **main walls**, and projections and encroachments into **building setbacks** and **angular planes** does not apply;
- (G) Despite Clause 40.5.40.70 and Regulation 40.10.40.70(1), the required minimum **building setbacks** are as shown in metres on Diagram 3 of By-law 1041-2022;
- (H) Despite (D) and (G) above, **buildings** or **structures** may not be located between a height of 40.0 metres and a height of 33.0 metres, within the hatched area as shown on Diagram 3 of By-law 1041-2022;
- (I) Despite Regulation 40.5.40.60(1), Clause 40.10.40.60 and Regulation 40.10.40.70(1), and (G) and (H) above, the following **building** elements may encroach into the required minimum **building setbacks** and **main wall** separation distances as follows:
  - (i) Awnings and canopies, to a maximum extent of 2.5 metres;
  - (ii) Landscape and public art features, planters, trellises, screens, balcony dividers, wind mitigation screens, wheel chair ramps, and their associated **structures**, to a maximum extent of 2.5 metres;

- (iii) Architectural features, projecting panel system at exterior walls, eaves, fences, guardrails, lighting fixtures, ornamental elements, parapets, railings, and window sills, to a maximum extent of 1.0 metres;
  - (iv) Stairs and stair enclosures to a maximum extent of 2.0 metres; and
  - (v) Window washing and **building** maintenance equipment, to a maximum extent of 5.5 metres;
- (J) Despite Regulation 40.10.40.40(1), the permitted maximum **gross floor area** on the **lot** is 48,000 square metres, of which:
  - (i) the permitted maximum residential **gross floor area** is 35,100 square metres;
- (K) Despite Regulation 40.10.40.1(1), residential use portions of the **building** may be located below or on the same level as non-residential use portions of the **building**;
- (L) The provision of **dwelling units** is subject to the following:
  - (i) A minimum of 30 percent of the total number of **dwelling units** must have two or more bedrooms;
  - (ii) A minimum of 10 percent of the total number of **dwelling units** must have three or more bedrooms; and
  - (iii) Any **dwelling units** with three or more bedrooms provided to satisfy (L)(ii) above are not included in the provision required by (L)(i) above;
- (M) Despite Regulation 40.10.40.50(1), a building with 20 or more **dwelling units** must provide **amenity space** on the **lot** at the following rates:
  - (i) 1.8 square metres of indoor **amenity space** for each **dwelling unit**;
  - (ii) 1.18 square metres of outdoor **amenity space** for each **dwelling unit**;
  - (iii) no more than 25 percent of the outdoor component may be a **green roof**;
- (N) Regulation 40.10.40.50(2), with regards to **amenity space** for **buildings** with non-residential uses in SS1 areas does not apply;
- (O) Despite Regulation 200.5.10.1(1) and Table 200.5.10.1, **parking spaces** must be provided on the **lot** in accordance with the following:
  - (i) a minimum of 0.1 residential occupant **parking spaces** for each **dwelling unit**;
  - (ii) no **parking spaces** are required for residential visitors or non-residential uses;
  - (iii) **Parking spaces** may be provided as a **stacked parking space**;
  - (iv) **Parking spaces** may be provided within an "automated parking garage";
  - (v) for the purpose of this exception, "car-share" means the practice whereby a number of people share the use of one or more motor **vehicles** and such "car-share" motor **vehicles** are made available to at least the occupants of the **building** for short-term rental, including hourly rental; and
  - (vi) for the purpose of this exception, "car-share parking space" means a **parking space** exclusively reserved and signed for a **vehicle** used only for "car-share" purposes;
- (P) An "automated parking garage" is subject to the following:
  - (i) a minimum of 2 "entry cabins" must be provided;
  - (ii) all "entry cabins" must have **driveway** access to a **street** that is direct and unobstructed, excluding a gate, moveable barrier or similar security feature;
  - (iii) for the purpose of this exception, "automated parking garage" means a mechanical system for the purpose of parking and retrieving **vehicles** without drivers in the **vehicle** during parking and without the use of ramps or **drive aisles**, and which may include but is not limited to, a vertical lift and the storage of **vehicles** on parking pallets and the automated manoeuvring of other **vehicles** during parking or retrieving operations; and
  - (iv) for the purpose of this exception, "entry cabin" means the component of an "automated parking garage" into which the driver of a **vehicle** deposits, and from which the driver retrieves, their **vehicle**;
- (Q) Despite regulations 200.5.1.10(2) and (3), a **parking space** provided as a **stacked parking space** must have the following minimum dimensions:

- (i) Length of 5.1 metres;
  - (ii) Width of 2.1 metres; and
  - (iii) Vertical clearance of 2.0 metres;
- (R) Regulation 200.5.1(3) regarding **drive aisle** width does not apply to **parking spaces** located within an "automated parking garage";
- (S) Regulations 200.5.1.10(2), (3) and (4) regarding the dimensions and vertical clearance for **parking spaces** do not apply to **parking spaces** located within an "automated parking garage";
- (T) Regulations 200.5.1.10(5) and (6) regarding **tandem parking spaces** do not apply to **parking spaces** located within an "automated parking garage";
- (U) Regulation 200.5.1.10(13) regarding access does not apply to **parking spaces** located within an "automated parking garage";
- (V) Despite Regulation 200.5.1.10(13), a **vehicle** elevator is not an obstruction to the access of a **parking space**, provided that a minimum of 2 **vehicle** queuing spaces are provided in a **stacking aisle** within the **building**;
- (W) Despite Article 200.15.10, no accessible **parking spaces** are required in relation to **parking spaces** located within an "automated parking garage".
- (X) Despite Regulations 230.5.1.10 (4) and (5), a **stacked bicycle parking space** must have the following minimum dimensions:
- (i) Length of 1.8 metres;
  - (ii) Width of 0.35 metres; and
  - (iii) Vertical clearance of 1.0 metre;
- (Y) Despite Regulation 230.5.1.10(7), no shower and change facilities are required on the **lot**;
- (Z) Despite Regulation 230.5.1.10 (9) and Clause 230.40.1.20, a "long-term" **bicycle parking space** may be located within a secured room, locker, area or enclosure on any **storey** of a **building** above or below ground level;
- (AA) Despite Regulation 230.5.1.10(10), and Clause 230.40.1.20, both "long-term" and "short-term" **bicycle parking spaces** may be located in a **stacked bicycle parking space** arrangement and in any combination of vertical, horizontal or stacked positions;
- (BB) Despite Regulation 230.40.1.20(2), "short-term" **bicycle parking spaces** may be located more than 30 metres from a pedestrian entrance to the **building** on the **lot**, provided that they are located:
- (i) on the first or second **storey** of the **building** in a publicly-accessible room, area or enclosure;
  - (ii) on the levels of the **building** below-ground in a publicly-accessible room, area or enclosure; or
  - (iii) outside the **building**, on the **lot**;
- (CC) Despite Clauses 40.10.90.1 and 220.5.10.1, a minimum of one Type "C" **loading space** and one Type "B" **loading space** shall be provided and maintained on the **lot**.

Prevailing By-laws and Prevailing Sections: (None Apply)

[ By-law: 1041-2022 Enacted ]

(752) Exception CR 752

The lands, or a portion thereof as noted below, are subject to the following Site Specific Provisions, Prevailing By-laws and Prevailing Sections.

Site Specific Provisions:

- (A) On the lands municipally known in the year 2020 as 34-50 King Street East and 2 Toronto Street, if the requirements of By-law 1195-2022(OLT) are complied with, a **building**, or **structure**, may be constructed, used or enlarged in compliance with (B) to (KK) below;
- (B) For the purpose of this exception, "Existing Building" is the **building** and **structures** existing on the **lot** on 1195-2022(OLT), labelled as 'Existing Building' as shown on Diagram 1 of By-law 1195-2022(OLT);
- (C) The Existing Building as shown on Diagram 1 of By-law 1195-2022(OLT) is permitted, including alterations and additions permitted in accordance with this Exception;
- (D) Only non-residential uses are permitted in the Existing Building;

- (E) Despite Regulation 40.10.20.20(1)(A), **public parking** is permitted provided the associated **parking spaces** are located in a below ground **parking garage** on the **lot**;
- (F) Despite Regulation 40.10.40.1(1), residential use portions of the **building** may be located on the same level as non-residential use portions of the **building**.
- (G) **Dwelling units** provided must comply with the following:
  - (i) A minimum of 30 percent of the total number of **dwelling units** on the **lot** must contain 2 or more bedrooms; and
  - (ii) A minimum of 10 percent of the total number of **dwelling units** on the **lot** must contain 3 or more bedrooms, and these **dwelling units** may also be used to determine compliance with (i) above;
- (H) For **dwelling units** located on the 12th to 19th storey of a **building**, living room windows are not permitted in a **main wall** facing Victoria Street;
- (I) Despite Regulations (L) and (U) below, no portion of a **building** or **structure**, with the exception of the permitted projections set out in Regulations (M) and (V) below, may be located within the areas subject to the following regulations as shown hatched on Diagram 3 of By-law 1195-2022(OLT):
  - (i) From the finished ground surface to a vertical height of 6.5 metres above finished ground surface;
  - (ii) Between 22.0 metres above finished ground surface and 28.5 metres above the Canadian Geodetic Datum elevation of 83.05 metres; and
  - (iii) Between 44.0 metres above finished ground surface and 46.0 metres above the Canadian Geodetic Datum elevation of 83.05 metres;
- (J) Despite Regulations 40.5.40.10(1) and (2), the height of a **building** or **structure** is the distance between the Canadian Geodetic Datum elevation of 83.05 metres and the highest point of the **building** or **structure**;
- (K) For the purpose of this Exception, **established grade** is the Canadian Geodetic Datum elevation of 83.05 metres;
- (L) Despite Regulation 40.10.40.10(1) and (7), the permitted maximum height of each portion of a **building** or **structure** on the **lot** is the height in metres as specified by the numbers following the symbol "HT", and the number of **storeys** following the symbol "ST" as shown on Diagram 3 of By-law 1195-2022(OLT);
- (M) Despite Regulations 40.5.40.10(3), (4), (5), (6), (7), and (8), and Regulation (L) above, the following elements of a **building** or **structure** may project above the permitted maximum **building** height limits as shown on Diagram 3 of By-law 1195-2022(OLT) as follows:
  - (i) Eaves, cornices, landscape features, trellises, light fixtures, stairs and stair enclosures, awnings, canopies, elevator enclosures and related structural elements, elevator overrun, heating, cooling or ventilating equipment, architectural and privacy screens, window washing equipment/ **building** maintenance equipment, damper equipment to reduce **building** movement, **structures** used for outside or open air recreation, safety or wind protection purposes and **structures** associated with an **outdoor patio** on the roof, which may project to a maximum height of 4.0 metres;
  - (ii) Parapets, wheel chair ramps, balustrades, guardrails, bollards, elements associated with a **green roof**, green energy and **renewable energy** facilities, railings, retaining walls, mechanical fans, vents, stacks, chimneys, which may project to a maximum height of 1.5 metres;
  - (iii) Despite (i) and (ii) above, on the Existing Building as shown on Diagram 3 of By-law 1195-2022(OLT): eaves, cornices, parapets, landscape planters, landscape screens, trellises, wheel chair ramps, light fixtures, balustrades, guardrails, awnings, canopies, railings, architectural and privacy screens, vents, stacks, chimneys, and **structures** associated with an **outdoor patio** on the roof to a maximum height of 3.0 metres;
  - (iv) Despite (i) and (ii) above, on the Existing Building as shown on Diagram 3 of By-law 1195-2022(OLT): stairs, stair enclosures, elevator, elevator overrun as shown on Diagram 3 of By-law 1195-2022(OLT), and roof top access vestibule and a screen, wall or **structure** enclosing such projections, may project to a maximum height of 6.0 metres;

- (v) Within the hatched areas shown on Diagram 3, columns, walls, **main walls**, and structural supports of the building; and
- (vi) **Structures**, elements and enclosures permitted by (V) below;
- (N) Despite Regulation 40.10.40.10(5), the required minimum height of the first **storey**, as measured between the floor of the first **storey** and the ceiling of the first **storey**, is 4.5 metres, excluding any mezzanine level;
- (O) For the purposes of this Exception, a mezzanine level located above the first floor and below the second **storey** of a **building**, limited in use to areas used for the functional operation of the **building**, including access thereto, and **bicycle parking spaces**, is not a **storey**;
- (P) Despite Regulations 40.5.1.10(3)(A), 40.10.40.40(1) and (2), the total **gross floor area** of the **buildings** and **structures** must not exceed a maximum of 25,120 square metres, of which:
  - (i) a required minimum of 9,800 square metres of **gross floor area** must be available for use by non-residential uses; and
  - (ii) a required minimum of 9,500 square metres of the **gross floor area** required by i. above, must be available for office uses;
- (Q) In addition to the areas in the **building** listed in Regulation 40.5.40.40(3), the **gross floor area** of a **mixed use building** is reduced by the area of the **building** used for:
  - (i) a vestibule and elevator providing access to the roof of the Existing Building as shown on Diagram 3 of By-law 1195-2022(OLT);
  - (ii) mechanical rooms in any **storey** of the **building**; and
  - (iii) exterior rooftop, patio or terrace areas that are partially enclosed by walls or **main walls**;
- (R) For the purpose of this exception, the calculation of **gross floor area** does not include the areas occupied by any non-structural architectural or ornamental features that are attached to and project from the **main wall** of a **building**, or any areas that are partially enclosed by such features;
- (S) Despite Regulation 40.10.40.50(1), **amenity space** must be provided as follows:
  - (i) A minimum of 2.0 square metres of indoor **amenity space** per **dwelling unit**; and
  - (ii) A minimum of 1.0 square metres of outdoor **amenity space** per **dwelling unit**;
- (T) Regulation 40.10.40.50(2) with respect to **amenity space** for **buildings** with non-residential uses does not apply;
- (U) Despite Regulations 40.5.40.70(1), 40.10.40.70(1), 40.10.40.80(1), and Section 600.10, the required minimum **building setbacks** and minimum distance between **main walls** of **buildings** and **structures** must be provided as shown in metres on Diagram 3 of By-law 1195-2022(OLT);
- (V) Despite Regulation 5.10.40.70 (1), Clauses 40.5.40.60 and 40.10.40.60, 600.10.10(1)(D), and Regulation (U) above, only the following elements of a **building** or **structure** may encroach into a required minimum **building setback** and a required minimum **main wall** separation distance, as follows:
  - (i) cornices, ornamental or architectural elements, pilasters, eaves, window sills, and light fixtures may project a maximum of 1.0 metres;
  - (ii) canopies and awnings which may project a maximum of 3.0 metres; and
  - (iii) in addition to the above, on the Existing Building as shown on Diagram 3 of By law 1195-2022(OLT), elevator overruns and rooftop access vestibules are also permitted, provided such **structures** are located no closer than 6.0 metres from the north and south **lot lines** abutting a **street** or **lane**, and no closer than 3.5 metres from the east **lot line** abutting a **street**;
  - (iv) **structures**, elements and enclosures permitted by Regulation (M) above;
- (W) Despite Regulation 40.10.100.10(1)(A), **vehicle** access may be from a **street**;
- (X) Despite Regulation 40.10.100.10(1)(C), more than one **vehicle** access is permitted;
- (Y) Despite Regulations 40.5.80.1(1), 200.5.1(2), 200.5.1.10(10), 200.5.10.1(1), 200.5.200.40(2) and Table 200.5.10.1, **parking spaces** must be provided and maintained on the **lot** in accordance with the following:
  - (i) A minimum of 0.23 **parking spaces** per **dwelling unit** must be provided for residents;

- (ii) A minimum of 0.27 parking spaces for each 100 square metres of **gross floor area** must be provided for office use;
- (iii) No **parking spaces** are required for residential visitors and other non-residential uses;
- (iv) **Parking spaces** required by (ii) above may be provided for the shared use of non-residential uses and residential visitors on a non-exclusive basis within a **public parking** facility on the **lot**;
- (v) A minimum of 4 **parking spaces** must be provided as car-share parking spaces;
- (vi) A reduction of 4 resident **parking spaces** will be permitted for each of the car share parking spaces provided on the **lot**, and that the maximum reduction permitted by this means be capped by the application of the following formula:  $4 \times (\text{Total of dwelling units} \div 60)$ , rounded up to the nearest whole number;
- (Z) For the purpose of this Exception, car share is the practice whereby a number of people share the use of one or more cars that are owned and operated by a profit or non profit car sharing organization;
- (AA) For the purpose of this Exception, car-share parking space means a **parking space** that is reserved and actively used for car-sharing;
- (BB) Despite Regulation 200.5.1.10(2)(A)(iv), a maximum of 16 **parking spaces** may have a minimum width of 2.6 metres when one side of the **parking space** is obstructed according to Regulation 200.5.1.10(2)(D);
- (CC) Regulation 200.5.1.10(12)(C) with respect to **vehicle** entrance or exit to a **building** does not apply;
- (DD) Despite Regulation 200.15.1(1), an accessible **parking space** must have the following minimum dimensions:
  - (i) Length 5.6 metres;
  - (ii) Width of 3.4 metres; and
  - (iii) Vertical clearance of 2.1 metres
- (EE) Despite Regulation 200.15.1(3), the entire length of an accessible **parking space** must be adjacent to a 1.5 metre wide accessible barrier free aisle or path and such aisle or path may be shared by two accessible **parking spaces**;
- (FF) Despite Regulation 200.15.1(4), accessible **parking spaces** must be the **parking spaces** closest to a barrier free:
  - i. Entrance to a **building**;
  - (i) Entrance to a **building**;
  - (ii) Passenger elevator that provides access to the first **storey** of the **building**; and
  - (iii) Shortest route from the required entrances in (i) and (ii);
- (GG) Despite Regulation 220.5.1.10(1) and Clause 220.5.10.1, a minimum of one Type "G" **loading space**, one Type "B" **loading space** and two Type "C" **loading spaces** must be provided;
- (HH) Despite Regulations 230.5.1.10(9)(A) and (B), a required "long-term" **bicycle parking space** may be located:
  - (i) On the first **storey** of the **building**;
  - (ii) On the second **storey** of the **building**;
  - (iii) On a mezzanine level of the **building**; and
  - (iv) On levels of the **building** below-ground;
- (II) Despite Regulation 230.5.1.10(4), the minimum width of a **stacked bicycle parking space** is 0.4 metres;
- (JJ) Despite Regulation 230.5.1.10(10), a "short term" **bicycle parking space** may also be located in a **stacked bicycle parking space**; and
- (KK) Despite Regulation 230.40.1.20(2), a "short-term" **bicycle parking space** may be located more than 30 metres from a pedestrian entrance to the **building** on the **lot**.

Prevailing By-laws and Prevailing Sections:

- (A) Section 12(1)397 of former City of Toronto By-law 438-86. [ By-law: 1195-2022(OLT) ]

(753) Exception CR 753

The lands, or a portion thereof as noted below, are subject to the following Site Specific Provisions, Prevailing By-laws and Prevailing Sections.

Site Specific Provisions:

- (A) On 1956-1986 Weston Road and 1, 3, 3a and 5 Little Avenue, if the requirements of By-law 964-2022 are complied with, a **building** or **structure** may be constructed, used or enlarged in compliance with Regulations (B) to (W) below;
- (B) Despite Regulations 40.5.40.10(1) and (2), the height of a **building** or **structure** is the distance between the Canadian Geodetic Datum of 126.75 metres and the elevation of the highest point of the **building** or **structure** as shown on Diagram 3 of By-law 964-2022;
- (C) Despite Regulation 40.10.40.1(1), residential use portions of the **building** are permitted to be located on the same **storey** as non-residential use portions of the **building** provided the non-residential uses are located on or below the second **storey**;
- (D) Despite Regulation 40.10.40.10(2) the permitted maximum height of a **building** or **structure** is the number in metres following the letters "HT" as shown on Diagram 3 of By-law 964-2022;
- (E) Despite Clause 40.5.40.10 (4),(6),(7) and (8), and D above, the following equipment and **structures** may project beyond the permitted maximum height shown on Diagram 3 of By-law 964-2022:
  - (i) equipment used for the functional operation of the **building** including electrical, utility, mechanical and ventilation equipment, enclosed stairwells, roof access, maintenance equipment storage, elevator shafts, chimneys, and vents, by a maximum of 6 metres;
  - (ii) structures that enclose, screen or cover the equipment, structures and parts of a **building** listed in (i) above, inclusive of a mechanical penthouse, by a maximum of 6 metres;
  - (iii) architectural features, air intake and air handling units, communication equipment, cooling tower, elevator overruns, exit stairs, stairs, fences, flues, landscape and public art features, noise attenuation walls, pipes, window washing equipment, and elevator machine room by a maximum of 6 metres;
  - (iv) awnings, chimneys, bollards, guardrails, lighting fixtures, ornamental elements, cornices, railings, retaining walls, parapets, railings, balustrades, roof drainage systems, screens, stacks, terraces, **green roof**, trellises, vents, wind mitigation screens and **building** maintenance units by a maximum of 5 metres; and
  - (v) trellises, pergolas, and unenclosed structures providing safety or wind protection to rooftop **amenity space**, by a maximum of 3 metres.
- (F) Despite Regulation 40.10.40.40(1), the permitted maximum **gross floor area** of all **buildings** and **structures** on the **lot** is 56,250 square metres, of which:
  - (i) the permitted maximum **gross floor area** for residential uses is 52,500 square metres; and
  - (ii) the permitted maximum **gross floor area** for non-residential uses is 3,750 square metres.
- (G) Despite Regulation 40.10.40.70 (2) and (4), the required minimum **building setbacks** are as shown in metres on Diagram 3 of By-law 964-2022;
- (H) Despite Regulation 40.10.40.80(2), the required separation of **main walls** are as shown in metres on Diagram 3 of By-law 964-2022;
- (I) Despite Clause 40.10.40.60, (H) and (I) above, the following elements may encroach into the required minimum **building setbacks** and **main wall** separation distances as follows:
  - (i) exterior stairs and stair enclosures, by a maximum of 5.5 metres;
  - (ii) chimneys, planters, trellises, screens, wind mitigation screens, and wheel chair ramps, and their associated **structures**, by a maximum of 3.0 metres; and
  - (iii) architectural features, eaves, finials, guardrails, lighting fixtures, ornamental elements, parapets, railings, window sills, by a maximum of 1.0 metres.
- (J) Balconies are not permitted to encroach within the **main wall** separation distance, as shown on Diagram 3;
- (K) A minimum of 25 percent of the total number of **dwelling units** must contain two and three bedrooms, with a minimum of 10 percent of the total number of **dwelling units** must contain three bedrooms or more;
- (L) Despite Regulations 40.10.100.10(1) (A) and (C) with respect to **vehicle** access, one vehicular access is permitted from Lawrence Avenue West and one vehicular access is permitted from Little Avenue;

- (M) Despite Regulation 200.5.10.1(1) and Table 200.5.10.1, **parking spaces** must be provided in accordance with the following:
- (i) a minimum of 0.4 residential occupant **parking spaces** for each dwelling unit;
  - (ii) a minimum of 0.05 residential visitor **parking spaces** for each dwelling unit; and
  - (iii) a minimum of 1 **parking space** for each 100 square metres of non-residential **gross floor area**.
- (N) Despite (M) above, the a minimum required number of **parking spaces** for residents may be reduced by a maximum of four spaces for each "car-share" **parking space** provided the maximum reduction permitted, irrespective of "car-share" **parking spaces** is 12. For the purposes of this exception:
- (i) "car-share" or "car-sharing" means the practice where a number of people share the use of one or more cars that are owned by a profit or non-profit car-sharing organization and where such organization may require that use of cars be reserved in advance, charge fees based on time and/or kilometres drive, and set membership requirements of the "car-sharing" organization, including payment of a membership fee that may or may not be refundable; and
  - (ii) "car-share" **parking space** means a **parking space** exclusively reserved and signed for a car used only for "car-share" purposes.
- (O) Despite Regulation 200.15.1(1) and (3), an accessible **parking space** must comply with the following provisions:
- (i) An accessible **parking space** must have the following minimum dimensions; and
    - (a) length of 5.6 metres;
    - (b) width of 3.4 metres; and
    - (c) vertical clearance of 2.1 metres.
  - (ii) the entire length of an accessible **parking space** must be adjacent to a 1.5 metre wide accessible barrier free aisle or path.
- (P) Despite Regulation 200.15.1(4), an accessible **parking space** must be the **parking spaces** closest to a barrier free:
- (i) entrance to a **building**;
  - (ii) passenger elevator that provides access to the first **storey** of the **building**; and
  - (iii) shortest route from the required entrances in (i) and (ii).
- (Q) Despite Regulation 230.5.1.10(4)(A), the required minimum dimensions of a **bicycle parking space** is:
- (i) length of 1.8 metres;
  - (ii) width of 0.45 metres; and
  - (iii) vertical clearance of 1.9 metres.
- (R) Despite Regulation 230.5.1.10(4)(A)(ii), the required minimum dimensions of a **stacked bicycle parking space** is:
- (i) length of 1.8 metres;
  - (ii) width of 0.45 metres; and
  - (iii) vertical clearance of 1.0 metres.
- (S) In addition to the locations a "long-term" **bicycle parking space** may be located in listed in Regulations 230.5.1.10(9)(A)(i)(ii) and (iii), "long-term" **bicycle parking spaces** may also be located in the following locations:
- (i) "long-term" **bicycle parking spaces** may be provided in horizontal, vertical and/or **stacked bicycle parking spaces**, or any combination thereof; and
  - (ii) "long-term" **bicycle parking spaces** and may be located any floor of a **building** below grade.
- (T) In addition to the places a "long-term" **bicycle parking space** may be located in listed in Regulations 230.5.1.10(9)(B)(i)(ii) and (iii), "long-term" **bicycle parking spaces** may also be located in the following locations:

- (i) long-term **bicycle parking spaces** and/or **stacked bicycle parking spaces** may be located within a secured room, enclosure or any combination thereof.
- (U) Despite Regulation 230.5.1.10(10), "short-term" **bicycle parking spaces** may also be located in a **stacked bicycle parking space**;
- (V) Despite Regulations 230.40.1.20 (2), "short term" **bicycle parking spaces** may be located more than 30 metres from a pedestrian entrance, and be located indoors or outdoors;
- (W) Regulation 40.10.90.40(1) does not apply.

Prevailing By-laws and Prevailing Sections: (None Apply)  
[ By-law: 964-2022 ]

(754) Exception CR 754

The lands, or a portion thereof as noted below, are subject to the following Site Specific Provisions, Prevailing By-laws and Prevailing Sections.

Site Specific Provisions:

- (A) On 506-516 Church Street, if the requirements of By-law 1054-2022 are complied with, a **building** or **structure** may be constructed, used or enlarged in compliance with Regulations (B) to (X) below;
- (B) For the purposes of this exception, the **lot** comprises the lands delineated by heavy lines on Diagram 1 attached to By-law 1054-2022;
- (C) Of the total number of **dwelling units** provided on the **lot**:
  - (i) a minimum of 15 percent must be two-bedroom **dwelling units**;
  - (ii) a minimum of 10 percent must be three-bedroom **dwelling units**;
  - (iii) any **dwelling units** with three or more bedrooms provided to satisfy (C)(ii) above are not included in the provision required by (C)(i) above;
  - (iv) an additional 15 percent of the total number of **dwelling units** will be any combination of two-bedroom and three-bedroom **dwelling units**, or **dwelling units** that can be converted into any combination of two and three-bedroom **dwelling units**; and
  - (v) **dwelling units**, as described in (C)(iv) above, may be converted using accessible or adaptable design measures such as knock-out panels;
- (D) Despite Regulation 40.10.20.100(1)(A), the permitted total **interior floor area** of all **cabarets, clubs, eating establishments, entertainment places of assembly, places of assembly, recreation uses and take-out eating establishments** may not exceed 825 square metres;
- (E) Despite Regulation 40.10.20.100(2), a **nightclub** with a maximum **gross floor area** of 500 square metres is permitted on the first **storey** of the **building**;
- (F) Despite Regulation 40.10.40.40(1), the permitted maximum **gross floor area** of all **buildings** and **structures** on the **lot** is 13,250 square metres, of which:
  - (i) the permitted maximum **gross floor area** for residential uses is 12,260 square metres; and
  - (ii) the required minimum **gross floor area** for non-residential uses is 770 square metres;
- (G) A minimum of two (2) non-residential units must be provided at the ground level, of which the individual non-residential units must not exceed a maximum permitted **gross floor area** of 395 square metres, with the exception of one non-residential unit which may have a maximum **gross floor area** of 500 square metres;
- (H) Despite Regulations 40.5.40.10(1) and (2), the height of a **building** or **structure** is the distance between the Canadian Geodetic Datum elevation of 104.58 metres and the elevation of the highest point of the **building** or **structure**;
- (I) Despite Regulation 40.10.40.10(1), the permitted maximum height of a **building** or **structure** is the number following the HT symbol in metres as shown on Diagram 3 of By-law 1054-2022;
- (J) Despite regulations 40.5.40.10(3) to (7), and (I) above, the following equipment and **structures** may project beyond the permitted maximum height of a **building**:
  - (i) parapets, railings, guardrails, balustrades, roof drainage, retail signage, thermal insulation or roof ballast, roof construction assembly elements, and planters, by a maximum of 1.5 metres;

- (ii) Safety railings and fences, provided the maximum vertical dimension of any such **structure** does not exceed 1.8 metres, and having a maximum combined vertical dimension with (i) above of 2.2 metres above the height of each roof level of the **building**;
  - (iii) **Structures** used for **green roof** elements, landscape features, elevator overruns, stair towers, stair enclosures, partitions dividing outdoor recreation areas, trellises or a fence, planters, landscape features, walls or **structures** enclosing such elements, and exhaust flues, swimming pools (elevated or otherwise), **structures** housing pool or spa maintenance or operational equipment, by a maximum of 3.0 metres; and
  - (iv) **Structures** used for outside or open-air recreation, wind mitigation elements, architectural elements, public art features, life safety equipment, telecommunications equipment and antennae, window washing equipment, and lightning rods, by a maximum of 5.0 metres;
- (K) Despite regulation 40.5.40.60(1), a canopy, awning or similar **structure** may be located more than 5.0 metres above the elevation of the ground directly below it;
- (L) Despite Regulation 40.10.40.70(1), the required minimum **building setbacks** are as shown in metres on Diagram 3 of By-law 1054-2022;
- (M) Despite Regulation 40.10.40.80(1), the required separation of **main walls** are as shown in metres on Diagram 3 of By-law 1054-2022;
- (N) Despite clause 40.10.40.60, and regulations (L) and (M) above, the following elements may encroach into the required minimum **building setbacks** and **main wall** separation distances as follows:
  - (i) Window washing equipment, ornamental or architectural elements, trellises, stairs, stair enclosures, stair landings, supportive columns, wheel chair ramps, wind screens, acoustic screens and landscape and public art features, to a maximum of 3.0 metres;
  - (ii) Cornices, lighting fixtures, finials, parapets, eaves, window sills, bay windows, piers, vents, stacks, and retaining walls, to a maximum of 1.2 metres;
  - (iii) Balconies located within the areas denoted as HT 5.5, HT 18.0, HT 21.0 and HT 30.0 on Diagram 3 of By-law 1054-2022 to a maximum of 2.0 metres;
  - (iv) Canopies and awnings to a maximum of 3.0 metres; and
  - (v) Juliette balconies to a maximum of 0.3 metres;
- (O) Despite Regulation 40.10.40.50(1) and (2), a **building** with 20 or more **dwelling units** must provide **amenity space** at the following rate:
  - (i) at least 4.0 square metres for each **dwelling unit** as **amenity space**;
  - (ii) of which a minimum of 195 square metres must be provided as outdoor **amenity space** provided that no more than 25 percent may be a **green roof**; and
  - (iii) Indoor **amenity space** must be located in a multi-purpose room or rooms, at least one of which shall contain a kitchen and a washroom;
- (P) Despite Regulation 200.5.10.1 and Table 200.5.10.1, **parking spaces** must be provided in accordance with the following:
  - (i) A minimum of 0.14 **parking spaces** per **dwelling unit** for residents;
  - (ii) A minimum of 0.06 **parking spaces** per **dwelling unit** for visitors; and
  - (iii) No **parking spaces** are required for non-residential uses;
- (Q) Of the **parking spaces** required in Regulation (P)(i) above, a maximum of 4 **parking spaces** may be "car-share parking spaces", and for up to two "car-share parking spaces" the required minimum number of **parking spaces** for residents may be reduced by 4 **parking spaces** for each "car share parking space" provided;
- (R) For the purpose of this exception, "car-share" means the practice whereby a number of people share the use of one or more motor **vehicles** and such "car-share" motor **vehicles** are made available to at least the occupants of the **building** for short-term rental, including hourly rental;
- (S) For the purpose of this exception, "car-share parking space" means a **parking space** exclusively reserved and signed for a **vehicle** used only for "car-share" purposes;
- (T) Despite regulation 200.5.1.10(2) four **parking spaces** may have a minimum width of 2.4 metres, a minimum length of 5.4 metres, and a minimum height of 1.7 metres with or without obstructions;

- (U) Despite Regulations 230.5.1.10(7), 230.5.10.1(1) and (5)(A) and Table 230.5.10.1(1), **bicycle parking spaces** for the **mixed use building** must be provided and maintained on the **lot** in accordance with the following:
- (i) A minimum of 0.9 "long term" **bicycle parking spaces** for each **dwelling unit** for residents;
  - (ii) A minimum of 0.1 "short-term" **bicycle parking spaces** for each **dwelling unit** for visitors;
  - (iii) No change and shower facilities shall be required on the **lot**;
- (V) Despite Regulation 230.5.1.10(10), "long-term" and "short-term" **bicycle parking spaces** may be located in a **stacked bicycle parking space**;
- (W) Despite Regulation 230.5.1.10(4)(A) and (C), the required minimum dimensions of a **stacked bicycle parking space** are:
- (i) length of 1.6 metres;

  - (ii) elements used for the functional operation of the **building**, including roof access, , elevator shafts and overruns, water supply facilities, safety elements, chimneys, pipes, vents, shafts, cooling equipment, solar panels, antennae, satellite dishes, flight warning lights, window washing equipment and crane **structures**, and related structural, mechanical, enclosure and screening elements by a maximum of 3.5 metres;
- (G) Despite Regulation 40.10.40.40(1), the permitted maximum **gross floor area** is 32,300 square metres, of which:

- (i) the permitted maximum **gross floor area** for residential uses is 32,000 square metres; and
  - (ii) the permitted maximum non-residential **gross floor area** for non-residential uses is 6,000 square metres, including a **public school** and **day nursery**;
- (H) Despite Regulation 40.10.40.50(1)(A) and (B), a **building** with 20 or more **dwelling units** must provide **amenity space** at the following rate:
  - (i) at least 1.85 square metres for each **dwelling unit** as indoor **amenity space**; and
  - (ii) at least 1.5 square metres for each **dwelling unit** as outdoor **amenity space**;
- (I) Despite Regulation 40.10.50.10(2), a fence is not required along the portion of the west **lot line** that is to be used for the purposes of a mid-block pedestrian surface easement connection as shown on Diagram 3 of By-law 1000-2022;
- (J) Despite Regulation 40.10.50.10(3), a 1.0 metre wide strip of **soft landscaping** must be provided along a **lot line** abutting a **lot** in the Residential Zone category;
- (K) Despite (J) above, **soft landscaping** is not required along the portion of the west **lot line** that is to be used for the purposes of a mid-block pedestrian surface easement connection as shown on Diagram 3 of By-law 1000-2022;
- (L) Despite Regulations 40.10.40.70(2), the required minimum **building setbacks** are as shown in metres on Diagram 3 of By-law 1000-2022;
- (M) Despite Regulation 40.5.40.60(1), Clause 40.10.40.60 and (L) above, the following **building** elements and **structures** may encroach into a required **building setback**:
  - (i) roof overhangs, balustrades, canopies, awnings chimneys, cornices, eaves, guardrails, parapets, landscape and **green roof** elements, waste storage and **loading space** enclosures, lighting fixtures, ornamental elements, public art features, railings, window washing equipment, terraces, decorative architectural features, privacy screens, stair enclosures, stairs, trellises, underground garage ramps, vents, wheelchair ramps, wind mitigation features and windowsills to a maximum of 2.0 metres;
- (N) Despite Regulations 200.5.10.1(1) and Table 200.5.10.1, **vehicle parking spaces** must be provided in accordance with the following:
  - (i) a minimum of 0.2 **parking spaces** per **dwelling unit** for residential occupants; and
  - (ii) a minimum of 0.06 **parking spaces** per **dwelling unit** for residential visitors, which may also be may also be used for non-residential uses;
- (O) Equipment for the charging of one electric **vehicle** is permitted within a **parking space**, subject to the equipment being located in the same **parking space** as the **vehicle** to be charged and:
  - (i) being within 0.25 metres of two adjoining sides of the **parking space** which are not adjacent and parallel to a **drive aisle** from which **vehicle** access is provided, measured at right angles; or
  - (ii) being at least 5.35 metres from a **drive aisle** from which **vehicle** access is provided, measured at right angles, and at least 1.0 metre from the ground;
- (P) Despite Regulations 200.15.1(1), 200.15.1(3), and 200.15.10(1)(C), accessible **parking spaces** must comply with the following:
  - (i) minimum of four (4) accessible **parking spaces** must be provided;
  - (ii) accessible **parking spaces** must have the following minimum dimensions:
    - (a) Length of 5.6 metres;
    - (b) Width of 3.4 metres; and
    - (c) Vertical clearance of 2.1 metres;
  - (iii) the entire length of an accessible **parking space** must be adjacent to a 1.5 metre wide accessible barrier free aisle or path;
- (Q) Despite Regulation 200.15.1(4), an accessible **parking space** is required to be the closest **parking space** to:
  - (i) a barrier free entrance to a **building**;
  - (ii) a barrier free passenger elevator that provides access to the first **storey** of the **building**; and

- (iii) the shortest route from the required entrances in (i) and (ii) above;
- (R) Despite Regulation 230.5.1.10(4)(C), the required minimum dimensions of a **stacked bicycle parking space** are:
  - (i) length of 1.8 metres;
  - (ii) width of 0.4 metres; and
  - (iii) vertical clearance of 1.2 metres;
- (S) Despite Regulations 230.5.1.10(9)(A) and (B), "long-term" **bicycle parking spaces** are permitted to be located on all levels of the **building** and **parking garage** both above and below ground; and

(756) Exception CR 756

The lands, or a portion thereof as noted below, are subject to the following Site Specific Provisions, Prevailing By-laws and Prevailing Sections.

Site Specific Provisions:

- (A) On 640 Lansdowne Avenue, as shown on Diagram 1 of By-law 848-2022, if the requirements of By-law 848-2022 are complied with, a **building** or **structure** may be constructed, used or enlarged in compliance with Regulations (B) to (U) below:
- (B) For the purposes of this exception:
  - (i) **lot** is defined as the lands outlined by black on Diagram 1 of By-law 848-2022;
  - (ii) "Area A" is defined as the portion of the **lot** identified on Diagram 2 of By-law 848-2022;
  - (iii) "lot line" is defined to include the boundary of "Area A", identified on Diagram 2 of By-law 848-2022; and
  - (iv) "front lot line" is defined as the **lot line** abutting Lansdowne Avenue;
- (C) Despite Regulations 40.5.40.10(1) and (2), the height of a **building** or **structure** on the lands within "Area A" is measured as the distance between the Canadian Geodetic Datum elevation of 114.06 metres and elevation of the highest point of the **building** or **structure**;
- (D) Despite Regulation 40.10.40.1(1), residential use portions of the **building** are permitted to be located on the same **storey** as the non-residential use portions of the **building**;
- (E) Despite Regulation 40.10.40.10(2), the permitted maximum height of a **building** or **structure** on the lands within "Area A" is the number following the letters HT in metres as shown on Diagram 6 of By-law 848-2022;
- (F) Despite Regulations 40.5.40.10(3) to (8) and (E) above, the following elements may project beyond the permitted maximum height of a **building** shown on Diagram 6 of By-law 848-2022:
  - (i) parapets, awnings, fences, guard rails, railings and dividers, pergolas, trellises, balustrades, eaves, screens, stairs, roof drainage, window sills, columns, pillars, chimneys, vents, pipes, terraces, balconies, lightning rods, light standards and fixtures, architectural features, architectural flutes, ornamental elements, art and **landscaping** features, elements of a **green roof**, planters, seating areas, wheelchair ramps, retaining walls, canopies and awnings, decorative screens, divider screens and unenclosed **structures** providing safety or wind protection to rooftop **amenity space** may project above the height limits to a maximum of 2.0 metres; and
  - (ii) equipment used for the functional operation of a **building** including electrical, utility and ventilation equipment, cooling equipment, enclosed stairwells, roof access, elevator shafts and overruns, elevator machine room, maintenance equipment storage, solar panels and related equipment, antennae and satellite dishes, flight warning lights, garbage chutes, site servicing features, mechanical equipment, cooling equipment, decorative screens and any associated enclosure **structures**, **building** maintenance units, window washing equipment and crane **structures** may project above the height limits to a maximum of 5.0 metres;

- (G) Despite Regulation 40.10.40.40(1), the permitted maximum **gross floor area** on the lands within "Area A" is 21,500 square metres, of which 15,000 square metres of **gross floor area** must be for a **nursing home** use;
- (H) A minimum of 250 **bed-sitting rooms** must be provided for a **nursing home** use within "Area A";
- (I) A minimum of 55 **dwelling units** must be provided within "Area A";
- (J) Despite Regulation 40.10.40.70(2) and 40.10.80(2), the required minimum **building setbacks** on the lands within "Area A" are as shown on Diagram 6 of By-law 848-2022;
- (K) Despite (J) above, the required minimum **building setback** of the first **storey** from the **front lot line** on the lands within "Area A" is 1.2 metres;
- (L) Despite Regulation 40.5.40.60(1), Clause 40.10.40.60 and (K) above, the following elements may encroach into the required minimum **building setbacks** and separation distances as follows:
  - (i) roof overhangs, balconies, balustrades, canopies, chimneys, cornices, eaves, guardrails, parapets, landscape and **green roof** elements, waste storage and **loading space** enclosures, lighting fixtures, ornamental elements, public art features, railings, window washing equipment, terraces, decorative architectural features, privacy screens, stair enclosures, stairs, trellises, underground garage ramps, vents, wheelchair ramps, wind mitigation features and windowsills, to a maximum of 1.5 metres;
- (M) Regulation 40.10.50.10(3) regarding **soft landscaping** requirements abutting a **lot** in a Residential Zone category does not apply;
- (N) Despite Regulation 40.10.80.20(2), a **parking space** must be set back 5.1 metres from a **lot** in the Residential Zone category;
- (O) Regulation 40.10.90.10(1), with respect to **loading space** location, does not apply;
- (P) Despite Regulation 40.10.90.40(1)(A), vehicle access to a **loading space** may be from a major **street**;
- (Q) Despite Regulations 40.10.100.10(1)(A) and (C), a maximum of two **vehicle** accesses to the **lot** are permitted, which may be from a **street** which is a major **street**;
- (R) Despite Regulation 200.5.10.1(1) and Table 200.5.10.1, **parking spaces** must be provided and maintained within "Area A" in accordance with the following:
  - (i) 0 **parking spaces** are required for residential occupants;
  - (ii) a minimum of 5 **parking spaces** are required for residential visitors;
  - (iii) a minimum 25 **parking spaces** are required for a **nursing home** use; and
  - (iv) 0 **parking spaces** are required for non-residential uses;
- (S) Despite Regulation 200.5.1.10(2)(A)(iv) and (D), Electric **Vehicle** Infrastructure, including electrical **vehicle** supply equipment, does not constitute an obstruction to a **parking space**;
- (T) Equipment for the charging of one electric **vehicle** is permitted within a **parking space**, subject to the equipment being located in the same **parking space** as the **vehicle** to be charged and:
  - (i) being within 0.25 metres of two adjoining sides of the **parking space** which are not adjacent and parallel to a **drive aisle** from which **vehicle** access is provided, measured at right angles; or
  - (ii) being at least 5.35 metres from a **drive aisle** from which **vehicle** access is provided, measured at right angles, and at least 1.0 metre from the ground;
- (U) Despite Regulation 220.5.10.1(8) and 220.5.10.1(3), a minimum of 1 Type "B" **loading space** must be provided.

- (E) Despite Regulation 40.5.40.10(1) and (2) the height of a **building** or **structure** is the distance between the Canadian Geodetic Datum elevation of 166.35 metres and the highest point of the **building** or **structure**;
- (F) Despite 40.10.40.10(2), the permitted maximum height of a **building** or **structure** is the number in metres following the letters "HT" as shown on Diagram 3 of By-law 890-2022;
- (G) Despite 40.5.40.10(3) to (7) and (e) above, the following elements of a **building** or **structure** may project above the permitted maximum **building** heights as shown on Diagram 3 of By-law 890-2022:

- (i) wind screens, elevator overruns, parapets, awnings, fences, guard rails, railings and dividers, pergolas, trellises, balustrades, eaves, screens, stairs, stair enclosures, roof drainage, window sills, window washing equipment, chimneys, vents, terraces, lightning rods, light fixtures, architectural features, **landscaping**, and elements of a **green roof**, which may project above the height limits shown on Diagram 3 by 5.0 metres;
  - (ii) mechanical equipment and any associated **structures**, by 7.0 metres;
- (H) Despite Regulation 40.5.40.60 a canopy may be located up to a height of 7.5 metres from the ground below;
- (I) Despite Regulation 40.10.40.70(2) the required minimum **building setbacks** are as shown in metres on Diagram 3 of By-law 890-2022;
- (J) Despite Clause 40.10.40.60 and (i) above, the following elements may encroach into the required minimum **building setbacks** as follows:
  - (i) Accordion window openings, Canopies, cornices, light fixtures, ornamental elements, parapets, art and landscape features, patios, decks, pillars, trellises, terraces, eaves, window sills, planters, ventilation shafts, guardrails, balustrades, railings, stairs, stair enclosures, doors, wheelchair ramps, fences, screens, site servicing features, awnings and canopies, and underground garage ramps and associated **structures**, maintenance access holes and sampling ports by 4.0 metres;
  - (ii) Balconies by a maximum of 2.5 metres;
- (K) For the purposes of this exception, a mezzanine does not constitute a **storey** and may not exceed 40 percent of the **gross floor area** of the **storey** in which it is located;
- (L) Despite Regulation 40.10.40.40(1), the permitted maximum **gross floor area** of all **buildings** and **structures** on the **lot** is 30,600 square metres, of which:
  - (i) the residential **gross floor area** shall not exceed 23,900 square metres; and
  - (ii) the non-residential **gross floor area** shall not be less than 6,700 square metres;
  - (iii) for the permitted non-residential uses, the minimum **gross floor area** for office uses shall be 5,295 square metres;
- (M) The provision of **dwelling units** is subject to the following:
  - (i) A minimum of 25 percent of the total number of **dwelling units** must have two or more bedrooms;
  - (ii) A minimum of 10 percent of the total number of **dwelling units** must have three or more bedrooms;
  - (iii) Any **dwelling units** with three or more bedrooms provided to satisfy (ii) above are not included in the provision required by (i) above; and
  - (iv) If the calculation of the number of required **dwelling units** with two or three bedrooms results in a number with a fraction, the number may be rounded down to the nearest whole number;
- (N) Despite Regulation 40.10.40.50(1), a **building** with 20 or more **dwelling units** must provide **amenity space** on the **lot** at the following rate:
  - (i) at least 2.25 square metres for each **dwelling unit** as indoor **amenity space**;
  - (ii) at least 1.75 square metres for each **dwelling unit** as outdoor **amenity space**;
- (O) Despite Regulation 200.5.10.1(1) and Table 200.5.10.1, **parking spaces** must be provided in accordance with the following:
  - (i) a minimum of 0.16 residential occupant **parking spaces** for each **dwelling unit** for the use of the residents of the **building**,
  - (ii) a minimum of 4 **parking spaces** for the use of residential visitors or non-residential uses;
  - (iii) the **parking spaces** required for residential visitors and non-residential uses may be provided on a non-exclusive basis and may be provided as **public parking**;
  - (iv) 2 "car-share parking spaces"; and
- (P) Despite Regulation 200.5.10.1(1), "car-share parking spaces" may replace **parking spaces** otherwise required for residential occupants, subject to the following:

- (i) a reduction of 4 resident occupant **parking spaces** will be permitted for each "car-share parking space" provided and that the maximum reduction permitted be capped by the application of the following formula:
- (ii) 4 multiplied by the total number of **dwelling units** divided by 60, and rounded down to the nearest whole number;
- (Q) For the purpose of this exception, "car-share" means the practice whereby a number of people share the use of one or more motor **vehicles** and such "car-share" motor **vehicles** are made available to at least the occupants of the **building** for short-term rental, including hourly rental; and
- (R) For the purpose of this exception, "car-share parking space" means a **parking space** exclusively reserved and signed for a **vehicle** used only for "car-share" purposes;
- (S) Despite Regulation 200.5.1.10(2), equipment for the charging of one electric **vehicle** is permitted within a **parking space**, subject to the equipment being located in the same **parking space** as the vehicle to be charged and:
  - (i) being within 0.25 metres of two adjoining sides of the **parking space** which are not adjacent and parallel to a **drive aisle** from which **vehicle** access is provided, measured at right angles; or
  - (ii) being at least 5.35 metres from a **drive aisle** from which **vehicle** access is provided, measured at right angles, and at least 1.0 metre from the ground;
- (T) Despite Regulation 200.5.1.10(2)(iv), a maximum of 10 percent of the total number of **parking spaces** provided may have a minimum width of 2.6 metres with an obstruction on one or two sides;
- (U) Despite Regulation 200.5.1.10(12)(c), the **vehicle** entrance or exit to the **building** must be at least 4.0 metres from the **lot line** abutting the **street**;
- (V) Despite Regulation 200.5.1.10(14), 25 percent of the residential and non-residential **parking spaces** in the **building** must include an energized outlet capable of providing Level 2 charging or higher;
- (W) Despite regulations 200.15.1(1), an accessible **parking spaces** must have the following minimum dimensions:
  - (i) length of 5.6 metres;
  - (ii) width of 3.4 metres;
  - (iii) vertical clearance of 2.1 metres; and
  - (iv) the entire length of an accessible **parking space** must be adjacent to a 1.5 metre wide accessible barrier free aisle or path;
- (X) Despite Regulation 200.15.1(4) accessible **parking spaces** must be located within 16 metres of a barrier free entrance to the **building** or passenger elevator that provides access to the first **storey** of the **building**;
- (Y) Despite 230.5.1.10(9), "long-term" **bicycle parking spaces** may be located anywhere in the **building** below ground;
- (Z) Despite Regulation 230.5.1.10(10), both "long-term" and "short-term" **bicycle parking spaces** may be located in **stacked bicycle parking spaces**;
- (AA) For the purpose of this exception, if a **building** has uses, other than **dwelling units**, for which a "long-term" **bicycle parking space** is required, shower and change facilities must be provided for each gender at the following rate:
  - (i) none if less than 5 required "long-term" **bicycle parking spaces**;
  - (ii) 1 for 5 to 60 required "long-term" **bicycle parking spaces**;
  - (iii) 2 for 61 to 120 required "long-term" **bicycle parking spaces**;
  - (iv) 3 for 121 to 180 required "long-term" **bicycle parking spaces**; and
  - (v) 4 for more than 180 required "long-term" **bicycle parking spaces**;
- (BB) Despite 220.5.10.1(1), (2), (3), (5), and (9) one Type "G" **loading space** and three Type "C" **loading spaces** must be provided and maintained on the **lot**.

[ By-law: 890-2022 ]

(760) Exception CR 760

The lands are subject to the following Site-Specific Provisions, Prevailing By-laws and Prevailing Sections.

Site Specific Provisions:

- (A) On 334-350 Bloor Street West and 2-6 Spadina Road, if the requirements of Schedule A of By-law 904-2022 are complied with, nothing in this by-law shall prevent the erection or use of a **building, structure**, addition or enlargement if it is in compliance with Regulations (B) to (W) below;
- (B) The provision of **dwelling units** is subject to the following:
- (i) a minimum of 15 percent of the total number of **dwelling units** must have two or more bedrooms;
  - (ii) a minimum of 10 percent of the total number of **dwelling units** must have three or more bedrooms;
  - (iii) any **dwelling units** with three or more bedrooms provided to satisfy (ii) above are not included in the provision required by (i) above;
  - (iv) if the calculation of the number of required **dwelling units** with two or three bedrooms results in a number with a fraction, the number shall be rounded down to the nearest whole number; and
  - (v) (i) to (iv) above shall not apply to rental replacement **dwelling units** as required by By-law 904-2022;
- (C) Despite Regulations 40.5.40.10(1) and (2) the height of a **building or structure** is measured as the vertical distance between the Canadian Geodetic Datum elevation of 114.90 metres and the highest point of the **building or structure**;
- (D) Despite Regulation 40.10.40.10(2), the permitted maximum height of a **building or structure** is the number in metres following the letters "HT" as shown on Diagram 6 of By-law 904-2022;
- (E) Despite Regulation 40.5.40.10(3), (4), (5), (6), (7) and (8) and (D) above, the following elements of a **building** may project above the permitted maximum height in Diagram 6 of By-law 904-2022:
- (i) wind screens, parapets, guard rails, railings and dividers, pergolas, trellises, balustrades, screens, stairs, roof drainage, window washing equipment, chimneys, vents, lightning rods, light fixtures, and elements of a **green roof**, up to a maximum height of 6.5 metres; and
  - (ii) the elements and **structures** noted in (K) below to a maximum of 3.5 metres;
- (F) Despite Regulation 40.10.40.40(1), the maximum permitted **gross floor area** of all **buildings and structures** on the **lot** must not exceed 37,500 square metres, of which:
- (i) residential uses must not exceed 29,300 square metres; and
  - (ii) non-residential uses must not exceed 8,200 square metres, of which a minimum of 3,716 square metres shall be for office uses;
- (G) Despite Regulation 40.10.40.50(1), a **building** with 20 or more **dwelling units** must provide **amenity space** at a minimum rate of 3.9 square metres per unit, of which:
- (i) at least 2.0 square metres for each **dwelling unit** as indoor **amenity space**;
  - (ii) at least 40.0 square metres of outdoor **amenity space** is in a location adjoining or directly accessible to the indoor **amenity space**; and
  - (iii) no more than 25 percent of the outdoor component may be a **green roof**;
- (H) Despite Regulations 40.10.40.70(2), 40.10.40.80(2), and 600.10.10(1)(A) to (D), the required minimum **building setbacks** and **main wall** separation distances for all **buildings or structures** are shown on Diagram 6 of By-law 904-2022;
- (I) Despite Clause 40.10.40.60, Regulation 600.10.10(1)(E) to (F), and (J) above, the following elements may encroach into the required minimum **building setbacks** and **main wall** separation distances as follows:
- (i) cornices, ornamental and architectural features, vertical screen elements at balconies, projecting panel system at exterior walls, parapets, art and landscape features, patios, decks, pillars, pergolas, trellises, terraces, eaves, window sills, planters, ventilation shafts, balustrades, railings, stairs, stair enclosures, doors, wheelchair ramps, fences, covered walkways, screens, site servicing features, awnings and canopies including support **structures**, window washing equipment, bicycle parking facilities and underground garage ramps and associated **structures** to a maximum of 3 metres; and

- (ii) **structures**, elements and enclosures permitted by (E) above to a maximum of 3 metres;
- (J) Despite Regulation 200.5.1.10(2), a maximum of 10 percent of the **parking spaces** required by By-law 904-2022 may be small car **parking spaces** with a minimum width of 2.4 metres, length of 5.4 metres and vertical clearance of 1.8 metres;
- (K) Despite Regulation 200.5.10.1(1) and Table 200.5.10.1 and Regulations 200.10.1(1) and (2), **parking spaces** must be provided and maintained, in accordance with the following minimum:
  - (i) a minimum of 0 residential occupant **parking spaces** for each **dwelling unit**;
  - (ii) a maximum of 0.65 residential occupant **parking spaces** for each **dwelling unit**;
  - (iii) a minimum of 2.0 **parking spaces** for residential visitors, plus an additional 0.01 **parking spaces** for each **dwelling unit** for residential visitors;
  - (iv) a minimum of 0 **parking spaces** for non-residential uses;
  - (v) **parking spaces** for non-residential uses and for residential visitors to a **dwelling unit** may be provided on a non-exclusive basis and may be located in a **public parking area**;
- (L) Despite Regulation 200.5.10.1(1), "car-share parking spaces" may replace **parking spaces** otherwise required for residential occupants;
- (M) For the purpose of this exception, "car-share" means the practice whereby a number of people share the use of one or more motor **vehicles** and such "car-share" motor **vehicles** are made available to at least the occupants of the **building** for short-term rental, including hourly rental;
- (N) For the purpose of this exception, "car-share parking space" means a **parking space** exclusively reserved and signed for a **vehicle** used only for "car-share" purposes;
- (O) Despite Regulations 200.15.1(1) to (4), accessible **parking spaces** must be provided and maintained in accordance with the following:
  - (i) an accessible **parking space** must have the following minimum dimensions:
    - (a) length of 5.6 metres;
    - (b) width of 3.4 metres; and
    - (c) vertical clearance of 2.1 metres;
  - (ii) the entire length of an accessible **parking space** must be adjacent to a 1.5 metre wide accessible barrier free aisle or path;
  - (iii) accessible **parking spaces** must be located within 16 metres of a barrier free entrance to the **building** or passenger elevator that provides access to the first **storey** of the **building**;
- (P) Despite Regulation 200.15.10(1) a total of 7 accessible **parking spaces** shall be provided;
- (Q) Despite Clauses 220.5.10.1 and 40.10.90.1(1) and (2), a minimum of two type "B" **loading spaces**, two type "C" **loading spaces**, and one type "G" **loading space** must be provided and maintained on the **lot**;
- (R) Despite Regulation 230.5.1.10(4), a **stacked bicycle parking space**, shall have a minimum length of 1.7 metres a minimum width of 0.30 metres and a minimum vertical clearance of 1.2 metres;
- (S) Despite Regulation 230.5.1.10(9), "long-term" **bicycle parking spaces** may be located anywhere within the **building** below grade and above grade up to and including the second **storey**;
- (T) Despite Regulation 230.5.1.10(10), "short-term" **bicycle parking spaces** may be located in a **stacked bicycle parking space**;
- (U) Despite Regulation 230.40.1.20(2), "short-term" **bicycle parking spaces** may be located anywhere in a **building**, including within a secure room, or on the lands outlined in heavy black lines on Diagram 1;
- (V) None of the provisions of By-law 569-2013 shall apply to prevent a temporary sales office with a maximum height of 1 **storey** for the purposes of marketing, rental, leasing and/or sale of **dwelling units** and non-residential uses; and
- (W) Despite Regulation 40.10.40.40(5), a mezzanine shall not be considered as a limiting factor in the determination of the minimum height of the first **storey**.

Prevailing By-laws and Prevailing Sections: (None Apply)  
[ By-law: 904-2022 ]

(761) Exception CR 761

The lands, or a portion thereof as noted below, are subject to the following Site Specific Provisions, Prevailing By-laws and Prevailing Sections:

Site Specific Provisions:

- (A) On 333-351 King Street East, if the requirements of this By-law 850-2022 are complied with, a **building** or **structure** may be constructed, used or enlarged in compliance with Regulations (B) to (BB) below;
- (B) The **lot** comprises the lands outlined by heavy lines and identified on Diagram 1 of By-law 850-2022;
- (C) For the purpose of this exception, the "North-West Office Building" is the **non-residential building** existing on the north-west portion of the **lot** on July 22, 2022, and outlined by heavy black lines, illustrated with grey shading and labelled as "North-West Office Building" on Diagram 3 of By-law 850-2022;
- (D) For the purpose of this exception, the "East Office Tower" is the **non-residential building** existing on the east portion of the **lot** on July 22, 2022, and outlined by heavy black lines, illustrated with grey shading and labelled as "East Office Tower" on Diagram 3 of By-law 850-2022;
- (E) For the purpose of this exception, the "Central Office Tower" is the proposed **non-residential building** permitted by By-law 850-2022 on the central portion of the **lot**, and outlined by heavy black lines and labelled as "Central Office Tower" on Diagram 3 of By-law 850-2022;
- (F) For the purpose of this exception, the "Residential Tower" is the proposed **mixed use building** permitted by By-law 850-2022 on the west portion of the **lot**, and outlined by heavy black lines and labelled as "Residential Tower" on Diagram 3 of By-law 850-2022;
- (G) Despite Regulations 40.5.40.10(1) and (2), the height of a **building** or **structure** is the distance between the Canadian Geodetic Datum of 80.595 metres and the elevation of the highest point of the **building** or **structure**;
- (H) Despite Regulation 40.10.40.1(1), **dwelling units** must be located above non-residential use portions of a **mixed-use building** in the "Residential Tower";
- (I) Despite Regulation 40.10.40.10(1), the permitted maximum height of a **building** or **structure** is the number in metres following the letters "HT" as shown on Diagram 4 of By-law 850-2022;
- (J) Despite Regulation 40.10.40.10(7), the permitted maximum number of **storeys** in a **building** is the number following the letters "ST" as shown on Diagram 4 of By-law 850-2022;
- (K) Despite Regulations 40.5.40.10(3) to (8) and (I) above, the following equipment and **structures** may project beyond the permitted maximum height shown on Diagram 4 of By-law 850-2022:
  - (i) architectural features, parapets, and elements and **structures** associated with a **green roof**, by a maximum of 1.2 metres;
  - (ii) planters, **landscaping** features, guard rails, and divider screens on a balcony and/or terrace, by a maximum of 2.2 metres;
  - (iii) trellises, pergolas, and unenclosed **structures** providing safety or wind protection to rooftop **amenity space**, by a maximum of 4.0 metres;
  - (iv) equipment used for the functional operation of the **building** including electrical, utility, mechanical and ventilation equipment, enclosed stairwells, roof access, maintenance equipment storage, elevator shafts, chimneys, and vents, by a maximum of 5.0 metres; and
  - (v) **structures** that enclose, screen or cover the equipment, **structures** and parts of a **building** listed in (iv) above, inclusive of a mechanical penthouse, by a maximum of 7.5 metres;
- (L) Despite Regulation 40.10.40.40(1), the permitted maximum **gross floor area** of all **buildings** and **structures** on the **lot** is 163,500 square metres, of which:
  - (i) the permitted maximum **gross floor area** for residential uses is 22,900 square metres;
  - (ii) the permitted maximum **gross floor area** for non-residential uses is 140,600 square metres; and
  - (iii) for the purposes of this exception, in addition to Regulations 40.5.40.40(1) and (3), the calculation of **gross floor area** of a **building** is also reduced by the area (plus the enclosing walls) in a **building** used for:
    - (a) above or below grade spaces used for heating, cooling, ventilating, electrical, mechanical (other than escalators) or telecommunications equipment; and
    - (b) loading facilities above or below grade;

- (M) Despite Regulation 40.10.40.40(1) and (L) above, the permitted **gross floor areas** of the "Residential Tower" and the "Central Office Tower" are as follows:
- (i) for the "Residential Tower" the permitted maximum **gross floor area** is 26,600 square metres, of which:
    - (a) the permitted maximum **gross floor area** for residential uses is 22,900 square metres;
    - (b) the permitted maximum **gross floor area** for non-residential uses is 3,700 square metres;
  - (ii) for the "Central Office Tower" the permitted maximum **gross floor area** is 62,150 square metres for non-residential uses;
- (N) For the "Central Office Tower" a **day nursery** must have a minimum **interior floor area** of 940 square metres;
- (O) Despite Regulation 40.10.40.50(1) and (2), the "Residential Tower" must provide **amenity space** on the **lot** at the following rate:
- (i) at least 1.95 square metres for each **dwelling unit** as indoor **amenity space**; and
  - (ii) at least 1.09 square metres of outdoor **amenity space** for each **dwelling unit** of which a minimum of 236 square metres must be in a location adjoining or directly accessible to the indoor **amenity space**; and
- (P) Despite Regulation 40.10.40.70(1) and Section 600.10, the required minimum **building setbacks** are as shown in metres on Diagram 4 of By-law 850-2022;
- (Q) Despite (P) above, no portion of a **building** or **structure** will be located within the hatched areas shown on Diagram 5;
- (R) Despite Regulation 40.10.40.80(1) and Section 600.10, the required separation of **main walls** are as shown in metres on Diagram 4 of By-law 850-2022;
- (S) Despite Clause 40.10.40.60 and (P), (Q) and (R) above, the following elements may encroach into the required minimum **building setbacks** and **main wall** separation distances as follows:
- (i) architectural features, such as a pilaster, decorative column, cornice, sill, belt course, or chimney breast, by a maximum of 1.2 metres;
  - (ii) cladding added to the exterior surface of the **main wall** of a **building**, eaves, and a dormer, by a maximum of 1.2 metres;
  - (iii) decks, porches, balconies, canopies, awnings, and window projections, including bay windows and box windows, by a maximum of 2.0 metres;
  - (iv) exterior stairs, access ramps, elevating devices, air conditioners, satellite dishes, antennae, vents, and pipes, by a maximum of 3.0 metres;
- (T) Despite Regulation 200.5.10.1(1) and Table 200.5.10.1, **parking spaces** must be provided in accordance with the following:
- (i) a minimum of 0.2 resident occupant **parking spaces** for each **dwelling unit** within the "Residential Tower";
  - (ii) a minimum of 277 **parking spaces** for the "North-West Office Building", "Central Office Tower", non-residential space within the "Residential Tower", and for visitors of the "Residential Tower";
  - (iii) a minimum of 134 **parking spaces** for the "East Office Tower";
  - (iv) for a **day nursery**, a minimum of five (5) **parking spaces** is required; and
  - (v) a minimum of five (5) "car-share parking spaces";
    - (a) for the purpose of this exception, "car-share" means the practice whereby a number of people share the use of one or more motor **vehicles** and such "car-share" motor **vehicles** are made available to at least the occupants of the **building** for short-term rental, including hourly rental; and
    - (b) for the purpose of this exception, "car-share parking space" means a **parking space** exclusively reserved and signed for a **vehicle** used only for "car-share" purposes;
- (U) Despite Clause 220.5.10.1, **loading spaces** must be provided on the **lot** as follows:

- (i) for the "North-West Office Building", "Central Office Tower" and "Residential Tower":
  - (a) a minimum of three (3) Type "B" **loading spaces**; and
  - (b) a minimum of three (3) Type "C" **loading spaces**;
- (ii) for the "East Office Tower":
  - (a) a minimum of two (2) Type "B" **loading spaces**; and
  - (b) a minimum of three (3) Type "C" **loading spaces**;
- (V) Despite Regulation 230.5.1.10(7), 12 shower and change facilities are required on the **lot** in accordance with the following minimum requirements:
  - (i) 0 shower and change facilities within the "North-West Office Building";
  - (ii) 4 shower and change facilities within the "Central Office Tower"; and
  - (iii) 8 shower and change facilities within the "East Office Tower";
- (W) Despite Regulation 230.5.1.10(10), "short-term" **bicycle parking spaces** may also be located in a **stacked bicycle parking space**;
- (X) Despite Regulations 230.5.10.1(1)(3) and (5) and Table 230.5.10.1(1), **bicycle parking spaces** must be provided in accordance with the following minimum rates:
  - (i) 0.9 "long-term" **bicycle parking spaces** for each **dwelling unit**;
  - (ii) 0.1 "short-term **bicycle parking spaces** for each **dwelling unit**;
  - (iii) 0.2 "long term" **bicycle parking spaces** for each 100 square metres of **interior floor area** for all non-residential uses on the **lot**; and
  - (iv) 3 plus 0.2 "short-term" **bicycle parking spaces** for each 100 square metres of **interior floor area** for all non-residential uses on the **lot**;
- (Y) The provision of **dwelling units** is subject to the following:
  - (i) a minimum of 15 percent of the total number of **dwelling units** must have two or more bedrooms;
  - (ii) a minimum of 10 percent of the total number of **dwelling units** must have three or more bedrooms;
  - (iii) any **dwelling units** with three or more bedrooms provided to satisfy (ii) above are not included in the provision required by (i) above; and
  - (iv) if the calculation of the number of required **dwelling units** with two or three bedrooms results in a number with a fraction, the number shall be rounded down to the nearest whole number;
- (Z) Despite Regulation 200.15.1(1), an accessible **parking space** must have the following dimensions:
  - (i) a minimum length of 5.6 metres;
  - (ii) a minimum width of 3.4 metres; and
  - (iii) a minimum vertical clearance of 2.1 metres;
- (AA) The entire length of an accessible **parking space** must be adjacent to a 1.5 metre wide accessible barrier free aisle or path;
- (BB) Accessible **parking spaces** must be the **parking spaces** closest to a barrier free:
  - (i) entrance to a **building**;
  - (ii) passenger elevator that provides access to the first **storey** of the **building**; and
  - (iii) the shortest route from the required entrances in (i) and (ii);
- (CC) A **building** or **structure** not constructed, used or enlarged in compliance with Regulations (B) to (BB) above, must comply with Regulation 900.11.10(339).

The lands, or a portion thereof as noted below, are subject to the following Site Specific Provisions, Prevailing By-laws and Prevailing Sections:

Site Specific Provisions:

- (A) On 1684, 1698, 1700 and 1702 Queen Street East, as shown on Diagram 1 of By-law 1018-2022, if the requirements of By-law 1018-2022 are complied with, a **building** or **structure** may be constructed, used or enlarged in compliance with Regulations (B) to (AA) below;
- (B) For the purposes of this exception, the **front lot line** is the **lot line** abutting Queen Street East;
- (C) Despite Regulations 40.5.40.10(1) and 40.5.40.10(2), the height of a **building** or **structure** is the distance between the Canadian Geodetic Datum of 80.56 metres and the elevation of the highest point of the **building** or **structure**;
- (D) Regulation 40.5.40.70(1)(B) with respect to the minimum distance to the original centreline of a **lane** does not apply;
- (E) Despite Regulation 40.10.40.1(1), if a **lot** in the CR zone has a **mixed use building**, all residential use portions of the **building** must be located above non-residential use portions of a **building**, other than:
  - (i) residential lobby access; and
  - (ii) on a **corner lot**, **dwelling units** may be located in the first **storey** of a **building** if:
    - (a) the **dwelling units** are located to the rear of the non-residential uses on the first **storey**; and
    - (b) the **dwelling units** do not have direct access to Queen Street East;
- (F) Despite Regulations 40.10.20.100(1)(A) and 40.10.20.100(17), the permitted maximum **interior floor area** for each **eating establishment**, **retail store** and **retail service** is 400.0 square metres;
- (G) Despite Regulation 40.10.20.100(21)(B), the permitted maximum area of an **outdoor patio** is 130.0 square metres;
- (H) Despite Regulation 40.10.40.10(2), the permitted maximum height of a **building** or **structure** is the number following the HT symbol in metres as shown on Diagram 6 of By-law 1018-2022;
- (I) Despite Regulation 40.10.40.10(5), in the CR zone, the required minimum height of the first **storey**, measured between the floor of the first **storey** and the ceiling of the first **storey**, is 4.5 metres;
- (J) Despite Regulations 40.5.40.10(3), 40.5.40.10(4), 40.5.40.10(6), 40.5.40.10(7), 40.5.40.10(8) and (H) above, the following equipment and **structures** may project beyond the permitted maximum height of a **building**:
  - (i) equipment used for the functional operation of the **building** including electrical, utility, mechanical and ventilation equipment, enclosed stairwells, roof access, maintenance equipment storage, elevator shafts, chimneys, and vents may project above the height limits to a maximum of 5.0 metres within the area labelled as "Mechanical Penthouse" on Diagram 6 of By-law 1018-2022;
  - (ii) **structures** that enclose, screen or cover the equipment, **structures** and parts of a **building** listed in (i) above, inclusive of a mechanical penthouse, may project above the height limits to a maximum of 5.0 metres within the area labelled as "Mechanical Penthouse" on Diagram 6 of By-law 1018-2022;
  - (iii) an architectural **structure** no greater than 0.7 metres in width may project 4.0 metres above the following portions of the **building** within the areas labelled as a "4m tall architectural frame" on Diagram 6 of By-law 1018-2022:
    - (a) the second and third **storey** along the south **main wall** of the **building**;
    - (b) the third **storey** along the west **main wall** of the **building**; and
    - (c) the fourth **storey** along the east **main wall** of the **building**;
  - (iv) parapets, guard rails, planters, **landscaping** features and elements of a **green roof** may project above the height limits to a maximum of 1.5 metres;
  - (v) notwithstanding (iv) above, parapets and elements of a **green roof** may project 1.0 metres above the elements listed in (i) and (ii) above;
  - (vi) window washing equipment, antennae, and lightning rods may project above the height limits to a maximum of 6.0 metres;
  - (vii) divider and privacy screens on a balcony and/or terrace may project above the height limits to a maximum of 2.5 metres;

- (viii) a roof access or enclosed stairwell may project above the height limits of the area labelled as "Existing Building" on Diagram 6 of By-law 1018-2022, to a maximum of 4.0 metres; and
- (ix) a trellis or pergola may project above the height limits of the area labelled as "Existing Building" on Diagram 6 of By-law 1018-2022, to a maximum of 3.3 metres;
- (K) Despite Regulation 40.10.40.40(1), the permitted maximum **gross floor area** is 10,450 square metres, of which:
  - (i) the permitted maximum **gross floor area** for residential uses is 9,250 square metres; and
  - (ii) the required minimum **gross floor area** for non-residential uses is 1,130 square metres, to a maximum of 1,200 square metres;
- (L) A maximum of 90 **dwelling units** are permitted, of which:
  - (i) a minimum of 64 percent must contain two bedrooms; and
  - (ii) a minimum of 11 percent must contain three or more bedrooms;
- (M) Despite Regulation 40.10.40.50(1), a **building** with 20 or more **dwelling units** must provide a **menity space** at the following rate:
  - (i) The greater of 258.0 square metres and 2.9 square metres for each **dwelling unit** as indoor **amenity space**;
  - (ii) The greater of 192.0 square metres and 2.1 square metres for each **dwelling unit** as outdoor **amenity space**, of which a minimum of 192.0 square metres must be in a location adjoining or directly accessible to the indoor **amenity space**; and
  - (iii) none of the outdoor component may be a **green roof**;
- (N) Despite Regulation 40.10.40.70(2), the required minimum **building setbacks** for the second through sixth **storeys** are as shown in metres on Diagram 6 of By-law 1018-2022;
- (O) Despite Regulation 40.10.40.70(2), the required minimum **building setbacks** for the first **storey** are as shown in metres on Diagram 7 of By-law 1018-2022;
- (P) Despite Clause 40.10.40.60 and (N) and (O) above, the following elements may encroach into the required minimum **building setbacks** and separation distances as follows:
  - (i) Balconies, to a maximum of 2.5 metres, from:
    - (a) the south **main wall** at the fourth and fifth **storeys**, as shown on Diagram 6 of By-law 1018-2022; and
    - (b) the east **main wall** at the sixth **storey**, as shown on Diagram 6 of By-law 1018-2022;
  - (ii) canopies and awnings at the ground floor, to a maximum extent of 1.5 metres, if no part of the canopy, awning or similar **structure** is located more than 4.0 metres above the elevation of the ground directly below it;
  - (iii) architectural features, such as a pilaster, decorative column, cornice, sill, belt course, or chimney breast, to a maximum of 0.7 metres, if they are no closer to a **lot line** than 0.3 metres;
  - (iv) eaves, to a maximum extent of 0.6 metres, if they are no closer to a lot line than 0.3 metres;
  - (v) air conditioners, antennae, vents, ducts and pipes within the **building setbacks** from the area identified as the "Existing Building" on Diagram 6 of By-law 1018-2022, to a maximum of 0.8 metres, if they are no closer to a **lot line** than 0.3 metres;
- (Q) Despite Regulation 200.5.10.1(1) and Table 200.5.10.1, **parking spaces** must be provided in accordance with the following:
  - (i) a minimum of 0.6 residential occupant **parking spaces** for each **dwelling unit**; and
  - (ii) a minimum of 0.06 residential visitor **parking spaces** for each **dwelling unit**;
- (R) Despite Regulation 200.5.1.10(2)(E), equipment for the charging of one electric **vehicle** is permitted within a **parking space**, subject to the equipment being located in the same **parking space** as the **vehicle** to be charged and:
  - (i) being within 0.25 metres of two adjoining sides of the **parking space** which are not adjacent and parallel to a **drive aisle** from which **vehicle** access is provided, measured at right angles; or

- (ii) being at least 5.20 metres from a **drive aisle** from which **vehicle** access is provided, measured at right angles, and at least 1.0 metre from the ground;
- (S) A **parking space** required by this By-law for a use in the Commercial Residential Zone category must be available for the use for which it is required;
- (T) A **parking space** must be on the same **lot** as the use for which the **parking space** is required;
- (U) A surface **parking space** may not be located in the **front yard**;
- (V) Despite Regulation 200.15.1(1), an accessible **parking space** must have the following minimum dimensions:
  - (i) length of 5.6 metres;
  - (ii) width of 3.4 metres; and
  - (iii) vertical clearance of 2.1 metres;
- (W) The entire length of an accessible **parking space** must be adjacent to a 1.5 metre wide accessible barrier-free aisle or path as shown on Diagram 1 and Diagram 2 of By-law 579-2017;
- (X) Despite Regulation 200.15.1(4), an accessible **parking space** may be located within 15 metres of an entrance to the **building** or an elevator with access to the ground level;
- (Y) Despite Regulations 220.5.10.1(2) and 220.5.10.1(3), one 1 Type "G" **loading space** must be provided for the residential uses and may be shared with non-residential uses;
- (Z) Despite Regulations 230.5.1.10(4) and 230.5.1.10(10), **bicycle parking space** must be provided and maintained in accordance with the following:
  - (i) both "long-term" and "short-term" **bicycle parking spaces** may be provided in a **stacked bicycle parking space**;
  - (ii) the minimum dimension of a **bicycle parking space** is:
    - (a) minimum length of 1.8 metres;
    - (b) minimum width of 0.6 metres; and
    - (c) minimum vertical clearance from the ground of 1.9 metres;
  - (iii) the minimum dimension of a **bicycle parking space** if placed in a vertical position on a wall, **structure** or mechanical device is:
    - (a) minimum length or vertical clearance of 1.9 metres;
    - (b) minimum width of 0.6 metres; and
    - (c) minimum horizontal clearance from the wall of 1.2 metres;
  - (iv) the minimum dimension of a **stacked bicycle parking space** is:
    - (a) minimum length of 1.9 metres;
    - (b) minimum vertical clearance of 1.2 metres; and
    - (c) minimum width of 0.45 metres;
- (AA) Despite regulation 230.40.1.20(1)(C), a **bicycle parking space** for a **dwelling unit** may be located in a **stacked bicycle parking space** in a secured room, enclosure or bicycle locker.

Prevailing By-laws and Prevailing Sections: (None Apply)  
[ By-law: 1018-2022 Enacted ]

(764) Exception CR 764

The lands, or a portion thereof as noted below, are subject to the following Site Specific Provisions, Prevailing By-laws and Prevailing Sections.

Site Specific Provisions:

- (A) On 2674-2704 Yonge Street, if the requirements of Section 6 and Schedule A of By-law 830-2022 are complied with, a **building** or **structure** may be constructed, used or enlarged in compliance with (B) to (U) below;
- (B) Despite Regulation 40.5.40.10(1) and (2), the height of a **building** or **structure** is the distance between the Canadian Geodetic Datum of 163.48 metres and the elevation of the highest point of the **building** or **structure**;

- (C) Despite Regulation 40.10.40.10(2) and the permitted maximum height of a **building** or **structure** is the number in metres following the letters "HT" as shown on Diagram 3 of By-law 830-2022;
- (D) Despite Regulations 40.5.40.10 (4) and (8), and Provision (C) above, the following equipment or **structures** may project beyond the permitted maximum height as shown on Diagram 3 of By-law 830-2022, as follows:
- (i) elevator overrun, **landscaping** and **green roof** elements, stair and stair enclosures, vertical screens including canopies, planting, cladding, architectural elements, lighting fixtures, and window washing equipment, to a maximum of 1.5 metres;
  - (ii) guardrail, parapet, railings, terraces, pipes, vents and raised planter to a maximum of 1.5 metres;
  - (iii) roof membrane, roof drains and roof insulation to a maximum of 1.0 metre;
  - (iv) dividers to a maximum of 2.0 metres; and
  - (v) pools, hot-tubs, open-air recreation elements, trellises, pergolas, and unenclosed **structures** providing safety or wind mitigation/protection to rooftop outdoor **amenity space** may project above the height limits to a maximum of 3 metres;
- (E) Despite Regulation 40.5.40.10(5)(A), the total area of all equipment, **structures**, or parts of a **building** for functional operation of a **building**, may cover more than 30% of the area of the roof, measured horizontally;
- (F) Despite Regulation 40.10.40.40(1), the permitted maximum **gross floor area** of all **buildings** and **structures** on the **lot** must not exceed 10,850 square metres, of which:
- (i) a maximum **gross floor area** of 10,350 square metres may be used for residential uses; and
  - (ii) no residential **gross floor area** may be located above a height of 32.6 metres, measured from the Canadian Geodetic Datum elevation of 163.48 metres;
- (G) A **building**, **structure**, addition, or enlargement that contains more than 80 **dwelling units**, is subject to the following:
- (i) a minimum of 15 percent of the total number of **dwelling units** must contain two bedrooms; and
  - (ii) a minimum of 10 percent of the total number of **dwelling units** must contain three or more bedrooms;
  - (iii) an additional 15 percent of the total number of **dwelling units** must be any combination of two bedroom and three bedroom **dwelling units**, or **dwelling units** that can be converted into any combination of two and three bedroom **dwelling units**; and
  - (iv) convertible **dwelling units**, as described in (G)(iii) above, may be converted using accessible or adaptable design measures such as but not limited to, knock-out panels;
- (H) Despite Regulations 40.10.40.50(1)(A) and (B), a **building** with 20 or more **dwelling units** must provide **amenity space** on the **lot** at the minimum requirements:
- (i) a minimum of 1.34 square metres of indoor **amenity space** for each **dwelling unit**; and
  - (ii) a minimum of 0.93 square metres of outdoor **amenity space** for each **dwelling unit**;
- (I) Despite Regulations 40.10.40.70(2) and (4), the required minimum **building setbacks** are shown on Diagram 3 of By-law 830-2022;
- (J) Despite Clause 40.10.40.60 and Provision (I) above, the following elements are permitted to encroach into the required minimum **building setbacks** as shown on Diagram 3 of By-law 830-2022, as follows:
- (i) balustrades, cornices, eaves, guardrails, landscape and green roof elements, lighting fixtures, ornamental elements, architectural elements, public art features, railings, stair enclosures, stairs, trellis, underground garage ramps, wheelchair ramps, wind mitigation features and window sills, canopies, window washing equipment, satellite dishes, screens, cabanas, antennae, flag poles, and terraces may encroach up to a maximum of 1.5 metres;
  - (ii) vents, pipes, mullions, elevator equipment, window washing equipment, guardrails, parapets, **green roof** elements, planters, access stairs, telecommunication equipment and green technology equipment may encroach up to a maximum of 1.0 metre;
  - (iii) balconies and partially enclosed balconies attached to the south **main wall**, and associated elements such as, parapet and architectural frame elements, may encroach up to a maximum

- of 2.0 metres between a height of 4.5 metres and a height of 12.5 metres, measured from a Canadian Geodetic Datum elevation of 163.48 metres;
- (iv) rooftop terraces, including terraces on top of the projections permitted in (J)(c) above;
  - (v) balconies and partially enclosed balconies mentioned in (J)(c) above, and rooftop terraces mentioned in (J)(d) above, may have elements that can vertically project as follows:
    - (a) landscape and **green roof** elements, planting, cladding, architectural elements, lighting fixtures, may extend to a maximum of 1.5 metres;
    - (b) guardrail, parapet, railings, terraces, pipes, vents and raised planter may extend a maximum of 1.5 metres;
    - (c) roof membrane, roof drains and roof insulation to a maximum of 1.0 metre;
    - (d) dividers to a maximum of 2.0 metres; and
    - (e) open-air recreation elements, trellises, pergolas, wind mitigation/protection to rooftop outdoor **amenity space** may project above the height limits to a maximum of 3 metres;
  - (vi) **structures** related to outdoor **amenity space**; and
  - (vii) masonry fence and decorative fence;
- (K) Despite Clause 40.5.40.60, a canopy, awning or similar **structure**, with or without structural support, may encroach into required minimum **building setbacks** to a **lot line** abutting Alexandra Boulevard or to a **lot line** abutting the OR zone, if no part of the canopy, awning or similar **structure** is located more than 5.5 metres above the elevation of the ground directly below it;
- (L) Despite Regulation 40.10.40.80(2), no minimum above-ground distance is required between **main walls** with or without windows that are facing each other, and separated by articulation breaks with a maximum depth of 0.5 metres that is measured along a plane parallel to the respective **main walls** with or without windows;
- (M) Non-residential uses provided on a lot along Yonge Street, must have a pedestrian entrance at the first floor: (
  - (i) located no closer than 5 metres from another pedestrian entrance on the same **lot**; and
  - (ii) face onto Yonge Street;)
- (N) Despite Regulation 40.10.40.1(1), residential uses may be located on the same **storey** as non-residential uses in accordance with the following:
  - (i) pedestrian entrances of residential uses are located to face onto **lot lines** other than the **lot line** abutting Yonge Street; and
  - (ii) the residential uses may be located no closer than 9.0 metres from the **lot line** abutting Yonge Street;
- (O) Despite Regulation 40.10.40.10(5), the required minimum height of the first **storey** or portion thereof, used for residential uses is 2.4 metres, and is measured between the floor of the first residential **storey** or portion thereof and the ceiling of the first residential **storey** or portion thereof;
- (P) The required minimum depths of non-residential uses on the **first floor**, are as follows:
  - (i) 11.0 metres for at least 74% of the Yonge-Street facing front walls of the **first floor** portions that contain non-residential uses;
  - (ii) 13.0 metres for at least 11% of the Yonge-Street facing front walls of the **first floor** portions that contain non-residential uses;
  - (iii) for the purposes of calculating the aggregate width of front walls in (P)(a) and (b) above, **main walls** on the east side of the **building**, that face away from Yonge Street are not included; and
  - (iv) the required minimum depths required in (P)(a) and (b), are to be measured along a plane perpendicular to and starting from, the exterior of the front walls that faces Yonge Street;
- (Q) Despite Regulation 200.5.10.1.(1), Table 200.5.10.1, **parking spaces** must be provided on the **lot** in accordance with the following:
  - (i) 0.5 **parking spaces** for each bachelor **dwelling unit**;
  - (ii) 0.5 **parking spaces** for each one bedroom **dwelling unit**;
  - (iii) 0.75 **parking spaces** for each two bedroom **dwelling unit**;

- (iv) 0.75 **parking spaces** for each three or more bedroom **dwelling unit**;
- (v) 0.06 **parking spaces** per **dwelling unit** for visitors; and
- (vi) 1.0 **parking spaces** per 100 square metres of **gross floor area** for retail or **personal service shop** uses;
- (R) Despite Regulation 200.15.1(4), the nearest point of an accessible **parking space** must be located no more than 18.0 metres, unobstructed by walls, from the nearest door of a vestibule or lobby which leads to a barrier-free elevator that provides access to the first **storey** of the **building**;
- (S) Despite Regulations 220.5.10.1(2), (3), (4) and (5), a minimum of 1 'Type G' **loading space** is required with the following:
  - (i) minimum length of 13.0 metres;
  - (ii) minimum width of 4.0 metres; and
  - (iii) minimum vertical clearance of 6.1 metres;
- (T) Despite Regulation 230.5.1.10.(4), the minimum width of a **bicycle parking space**, including a **bicycle parking space** placed in a vertical position on a wall, **structure** or mechanical device and a **stacked bicycle parking space** is 0.45 metres;
- (U) A minimum area of 482 square metres of privately-owned publicly accessible open space, covered and uncovered by a **building**, shall be provided on the ground level set out in Schedule A of By-law 830-2022 and generally as shown on Diagram 4 of By-law 830-2022. The privately-owned publicly accessible open space generally located in the area hatched on Diagram 4, shall be in accordance with the following:
  - (i) may be covered by a **building** or **structure**, where permitted on Diagram 3;
  - (ii) a **building** or **structure** allowed under (U)(i) above, may be located no closer than 4.5 metres above the Canadian Geodetic Datum elevation of 163.48 metres; and
  - (iii) despite (U)(ii) above, pillars or columns that support the **building** or **structure** mentioned in (U)(a) above, are permitted;

Prevailing By-laws and Prevailing Sections: (None Apply)  
[ By-law: 830-2022 ]

(765) Exception CR 765

The lands, or a portion thereof as noted below, are subject to the following Site Specific Provision, Prevailing By-laws and Prevailing Sections.

Site Specific Provisions:

- (A) On lands municipally known in the year 2021 as 1134 and 1140 Yonge Street, if the requirements of By-law 1201-2022(OLT) are complied with, a **mixed use building** may be constructed, used or enlarged in compliance with Sections (B) to (S) below;
- (B) The provision of **dwelling units** are subject to the following:
  - (i) A minimum of 15 percent of the total number of **dwelling units** must have two or more bedrooms;
  - (ii) A minimum of 10 percent of the total number of **dwelling units** must have three or more bedrooms;
  - (iii) Any **dwelling units** with three or more bedrooms provided to satisfy (ii) above are not included in the provision required by (i) above; and
  - (iv) If the calculation of the number of required **dwelling units** with two or three bedrooms results in a number with a fraction, the number shall be rounded down to the nearest whole number;
- (C) Despite Regulations 40.10.40.40(1) and (2), the permitted maximum **gross floor area** is 16,200 square metres, of which:
  - (i) The permitted maximum **gross floor area** for residential uses is 14,000 square metres; and
  - (ii) The permitted maximum **gross floor area** for non-residential uses is 2,200 square metres;
- (D) Despite Regulations 40.5.40.10(1) and (2) the height of a **building** or **structure** is measured from the Canadian Geodetic Datum elevation of 121.80 metres to the highest point of the **building** or **structure**;

- (E) Despite Regulation 40.10.40.10(2), the permitted maximum height of a **building or structure**, including a mechanical penthouse, is the height in metres specified by the numbers following the symbol HT as shown on Diagram 3 of By-law 1201-2022(OLT);
- (F) Despite Regulations 40.5.40.10(3) to (7), and (E) above, the following equipment and **structures** may project above the permitted maximum height as shown on Diagram 3 of By-law 1201-2022(OLT):
- (i) **structures** and elements related to outdoor flooring and roofing assembly, roof access hatches, elements on the roof of the **building or structure** used for **green roof** and solar technology and related roofing material, railings, guard rails, parapets, garbage chutes, elevator overrun, swimming pools, and a cooling tower by a maximum of 2.0 metres;
  - (ii) window washing equipment, ornamental or architectural features, acoustical barriers, landscape features, privacy screens, terrace dividers, fences cabanas, pergolas and trellises by a maximum of 4.0 metres;
- (G) Despite Regulations 40.5.40.70(1), and (2), and Section 600.10, the required minimum **building setbacks** are as shown on Diagram 3 of By-law 1201-2022(OLT);
- (H) Despite Clause 40.10.40.60 and (G) above, the following elements of a **building or structure** may encroach into the required minimum **building setbacks** as follows:
- (i) balconies by a maximum of 0.5 metres;
  - (ii) bay windows, box windows or other window projection from a **main wall** of a **building**, which increases floor area or enclosed spaces, by a maximum of 1.0 metres;
  - (iii) patios, decks, doors, wheelchair ramps, hose bibs, ventilation shafts and mechanical grilles by a maximum of 1.5 metres;
  - (iv) cornices, ornamental elements, pillars, landscape features, parapets, railings, wind screens, balcony guards, handrails, window sills, trellises, light fixtures, scuppers, fall-arrest systems, site servicing features, insulation and **building** envelope membranes, bollards, built-in planter boxes by a maximum of 2.0 metres;
  - (v) window washing equipment, wind mitigation features including canopies and awnings by a maximum of 4.0 metres;
  - (vi) a privacy wall or screen along the south **lot line** by a maximum of 7.3 metres;
- (I) Despite Regulation 40.10.40.10(5), the required minimum height of the first **storey**, as measured between the floor of the first **storey** and the ceiling of the first **storey**, is 3.4 metres;
- (J) Despite Regulation 40.10.40.50(1)(B), the required minimum area of an outdoor **amenity space** adjacent to an indoor **amenity space** is 34.0 square metres;
- (K) Despite Regulation 40.10.20.100(21)(B), the permitted maximum area of an **outdoor patio** is 10.5 square metres;
- (L) Despite Regulation 40.10.50.10(3), a 1.0 metre wide **landscaping** strip must be maintained along the west **lot line** abutting the Residential zone;
- (M) Despite Regulation 40.10.40.1(1), residential use portions of a **building** may be located on the same level as non-residential uses on the first and second **storey** of the **building**;
- (N) Despite Regulation 200.5.10.1(1) and Table 200.5.10.1, **parking spaces** must be provided and maintained on the **lot** as follows and may be provided as **stacked parking spaces**:
- (i) A minimum of 0.5 residential occupant **parking spaces** per **dwelling unit**;
  - (ii) A maximum of 0.09 residential visitor **parking spaces** per **dwelling unit**;
  - (iii) A maximum of 1.0 **parking space** for each 100 square metres of non-residential **gross floor area**;
  - (iv) "Car-share parking spaces" may be used to satisfy the requirement for any **parking spaces** required by this exception;
  - (v) for the purpose of this exception, "car-share" means the practice whereby a number of people share the use of one or more motor **vehicles** and such "car-share" motor **vehicles** are made available to at least the occupants of the **building** for short-term rental, including hourly rental; and
  - (vi) for the purpose of this exception, "car-share parking space" means a **parking space** exclusively reserved and signed for a **vehicle** used only for "car-share" purposes;

- (O) Despite Regulation 200.5.1.10(2)(B) (iv) and (C)(iv), a parking stacker structure is permitted within 0.3 metres of each side of the **stacked parking space**;
- (P) Despite regulations 200.15.1(1), accessible **parking spaces** must have the following minimum dimensions:
  - (i) length of 5.6 metres;
  - (ii) width of 3.4 metres; and
  - (iii) vertical clearance of 2.1 metres; and
  - (iv) the entire length of an accessible **parking space** must be adjacent to a 1.5 metre wide accessible barrier free aisle or path as shown on Diagram 1 and Diagram 2 of By-law 579-2017;
- (Q) Despite Regulation 200.15.1(4) accessible **parking spaces** must be located within 16 metres of a barrier free entrance to the **building** or passenger elevator that provides access to the first **storey** of the **building**;
- (R) Despite Regulation 230.5.1.10(10), a "long-term" or "short-term" **bicycle parking space** may be located in a **stacked bicycle parking space**;
- (S) Despite 40.10.90.1(1), one shared Type "G" / "B" **loading space** must be provided with the following dimensions:
  - (i) a minimum length of 13.0 metres;
  - (ii) a minimum width of 4.0 metres; and
  - (iii) a minimum vertical clearance of 6.1 metres.

[ By-law: 1201-2022(OLT) ]

(769) Exception CR 769

The lands, or a portion thereof as noted below, are subject to the following Site Specific Provisions, Prevailing By-laws and Prevailing Sections:

Site Specific Provisions:

- (A) On the lands municipally known as 10, 10A, 12, 18, 20 and 30 Dawes Road, if the requirements of Section 10 and Schedule A of this By-law are complied with, a **building** or **structure** may be constructed, used or enlarged in compliance with (B) through (BB) below;
- (B) Despite Regulations 5.10.30.20(1) and 5.10.30.20(2), the **front lot line** is the **lot line** running parallel to Dawes Road;
- (C) Despite Regulations 40.5.40.10(1) and (2), the height of a **building** or **structure** is the distance between the Canadian Geodetic Datum of 130.5 metres and the highest point of the **building** or **structure**;
- (D) Despite Regulations 40.10.20.100(1)(A), (6) and (17), the permitted total **interior floor area** of all eating establishments, **entertainment places of assembly**, **places of assembly**, **recreation uses**, **take-out eating establishments**, **service shops** and **retail services** may not exceed 1,700 square metres;
- (E) Despite Regulation 40.10.40.40(1), the permitted maximum **gross floor area** is 44,000 square metres, of which:
  - (i) the permitted maximum **gross floor area** for residential uses is 41,000 square metres; and
  - (ii) the permitted maximum **gross floor area** for non-residential uses is 3,000 square metres.
- (F) Despite Regulation 40.10.40.1(1), in the CR zone within a **mixed-use building**:
  - (i) residential use portions may be located on the same level as non-residential uses on the **first floor** and second **storey** of a **mixed-use building**; and
  - (ii) residential **dwelling units** are not permitted on the **first floor**.
- (G) The provision of **dwelling units** is subject to the following:
  - (i) a minimum of 27 percent of the total number of **dwelling units** must be two-bedroom **dwelling units**;

- (ii) a minimum of 10 percent of the total number of **dwelling units** must be three-bedroom **dwelling units** or larger; and
  - (iii) if the calculation of the number of required **dwelling units** with two or three bedrooms results in a number with a fraction, the number shall be rounded down to the nearest whole number.
- (H) Despite Regulation 40.10.40.10(2), the permitted maximum height of a **building** or **structure** is the number following the "HT" symbol in metres as shown on Diagram 4 of By-law 1163-2022(OLT);
- (I) Despite Regulations 40.5.40.10(4), (6) and (H) above, the following equipment and **structures** may project beyond the permitted maximum height of a **building**:
  - (i) equipment used for the functional operation of the **building**, including electrical, utility, mechanical and ventilation equipment, enclosed stairwells, roof access, maintenance equipment storage, elevator shafts, chimneys, water supply facilities, safety elements, chimneys, pipes, vents, elevator machine rooms and cooling elements by a maximum of 11.0 metres;
  - (ii) **structures** that enclose, screen or cover the equipment **structures** and parts of a **building** listed in (i) above, inclusive of a mechanical penthouse, by a maximum of 11.0 metres;
  - (iii) architectural features, parapets, and elements and **structures** associated with a **green roof**, by a maximum of 2.0 metres;
  - (iv) **building** maintenance units and window washing equipment, by a maximum of 3.0 metres;
  - (v) **structures** and elements related to outdoor flooring and roofing assembly features, by a maximum of 0.5 metres;
  - (vi) railings, guard rails, parapets, terraces, patios, planters, balustrades, bollards, stairs, ladders, **ancillary structures** and ornamental or architectural features, by a maximum of 2.0 metres;
  - (vii) **landscaping** features, privacy screens, terrace divider, screens on a balcony and/or terrace, covered stairs or stair enclosures and fences, by a maximum of 2.75 metres;
  - (viii) trellises and pergolas, by a maximum of 2.5 metres; and
  - (ix) enclosed **structures** providing safety or wind protection to rooftop **amenity space**, by a maximum of 3.0 metres.
- (J) Regulations 40.5.40.10(5) and (8), with respect to the functional operation of a **building**, do not apply;
- (K) Despite Regulation 40.10.40.70(2), the minimum required **building setbacks** in metres are as shown on Diagram 4 of By-law 1163-2022(OLT);
- (L) Despite Regulation 40.10.40.80(2), the required separation of **main walls** are as shown in metres on Diagram 4 of By-law 1163-2022(OLT);
- (M) Despite Clause 40.10.40.60 and Regulations (K) and (L) above, the following elements may encroach into the required **building setbacks** and separation distances as follows:
  - (i) roof overhangs, balconies, balustrades, canopies, chimneys, vents, pipes cornices, eaves, guardrails, parapets, landscape and **green roof** elements, waste storage and **loading space** enclosures, lighting fixtures, ornamental elements, public art features, railings, window washing equipment, terraces, decorative architectural features, privacy screens, stair enclosures, stairs, trellises, underground garage ramps, vents, wheelchair ramps, wind mitigation features and window sills, to a maximum of 2.0 metres; and
  - (ii) Despite Regulation (M)(i) above, balconies are not permitted to project beyond the east **main wall** of the **building** element labeled "HT 75.5" on Diagram 4 of this By-law, between a Canadian Geodetic Datum elevation of 130.5 metres and a height of 36.25 metres.
- (N) Despite Regulations (H), (I), (K), (L) and (M) above, within "Area A" shown on Diagram 4 of this By-law, a permanent canopy **structure** and associated elements may project beyond the permitted maximum height of a **building** by a maximum of 3.4 metres;
- (O) A privately-owned publicly accessible open space with a minimum area of 133 square metres must be provided as shown on Diagram 4 of By-law 1163-2022(OLT);
- (P) Despite Regulation 150.45.40.1(1), a **day nursery** within a **mixed-use building** must be located on the first and second **storey**;
- (Q) Despite Regulations 200.5.10.1(1) and Table 200.5.10.1, **parking spaces** must be provided in accordance with the following:

- (i) a minimum of 0.24 residential occupant **parking spaces** per **dwelling unit**;
  - (ii) a minimum of 0.06 shared residential visitor and non-residential **parking spaces** per **dwelling unit**;
  - (iii) a minimum of 2 **parking spaces** for the **day nursery** to be used by staff during operating hours (7:00 a.m. to 6:00 p.m., Monday to Friday);
  - (iv) a minimum of 3 **parking spaces** for the **day nursery** to be used as short-term parking during operating hours (7:00 a.m. to 6:00 p.m., Monday to Friday);
  - (v) a minimum of 5 "car-share parking spaces";
  - (vi) the **parking spaces** required in (ii) above may be provided on a non-exclusive, shared basis; and
  - (vii) the **parking spaces** required in (iii) and (iv) above may be used for residential visitors and non-residential uses other than a **day nursery** outside of operating hours (7:00 a.m. to 6:00 p.m., Monday to Friday) on a non-exclusive, shared basis.
- (R) Despite Regulation (Q), for each "car-share parking space" provided, and up to a maximum of 10 "car-share parking spaces" in total, the minimum required number of residential occupant **parking spaces** required by (Q) may be reduced by 4 **parking spaces**, subject to the following:
- (i) "car-share" means a motor **vehicle** available for short-term rental, including an option for hourly rental, for the use of at least occupants of the **building** erected in the **lot**; and
  - (ii) a "car-share parking space" means a **parking space** that is exclusively reserved and actively used for "car-share" purposes.
- (S) Despite Regulation 200.5.1.10(2)(A)(iv), a maximum of 10 percent of the total number of required **parking spaces** on the lands identified on Diagram 1 of By-law 1163-2022(OLT) may have a minimum width of 2.6 metres, if obstructed on one or both sides as described in Regulation 200.5.1.10(2)(D);
- (T) Despite Regulation 200.5.1.10(2)(A)(i), a maximum of 5 **parking spaces** may have a minimum length of 5.3 metres;
- (U) Despite Regulations 200.5.1.10(2)(D), Electric Vehicle Infrastructure, including electrical **vehicle** supply equipment, does not constitute an obstruction to a **parking space**;
- (V) Despite Regulations 200.15.1(1), 200.15.1(3) and 200.15.10(1) and By-law 579-2017, accessible **parking spaces** must comply with the following:
- (i) a minimum of 6 of the required residential occupant **parking spaces** and a minimum of 1 of the required shared residential visitor and non-residential **parking spaces** must be accessible **parking spaces**;
  - (ii) accessible **parking spaces** must have the following minimum dimensions:
    - (a) length of 5.6 metres;
    - (b) width of 3.4 metres;
    - (c) vertical clearance of 2.1 metres; and
  - (iii) the entire length of an accessible **parking space** must be adjacent to a 1.5 metre wide accessible barrier free aisle or path.
- (W) Regulation 200.15.1(4) with respect to the location of an accessible **parking space** does not apply;
- (X) Despite Regulation 230.5.1.10(4), **stacked bicycle parking spaces** in a vertical or horizontal configuration may have a minimum width of 0.45 metres and a minimum vertical clearance of 1.0 metres for each **bicycle parking space**;
- (Y) Despite Regulation 230.5.1.10(9), "long-term" **bicycle parking spaces** are permitted to be located on all levels of the **building** and parking garage both above and below ground;
- (Z) Despite Regulations 230.5.1.10(8) and 230.40.1.20(2), "short-term" **bicycle parking spaces** may be located within the municipal right-of-way immediately adjacent to the lot;
- (AA) Despite Regulation 230.5.1.10(10), required "short-term" **bicycle parking spaces** may be located in a stacked bicycle parking space; and
- (BB) Despite Regulations 220.5.10.1(1), 220.5.10.1(3) and 220.5.10.1(5), **loading spaces** must be provided in accordance with the following:

- (i) one (1) Type "G" **loading space**; and
- (ii) one (1) Type "C" **loading space**.

Prevailing By-laws and Prevailing Sections: (None Apply)  
[ By-law: 1163-2022(OLT) ]

(772) Exception CR 772

The lands, or a portion thereof as noted below, are subject to the following Site Specific Provisions, Prevailing By-laws and Prevailing Sections:

Site Specific Provisions:

- (A) On 145 Wellington Street West, if the requirements of By-law 1015-2022 are complied with, a **building** or **structure** may be constructed, used or enlarged in compliance with regulations (B) to (BB) below;
- (B) Despite regulation 40.5.40.10(1) and (2), the height of a **building** or **structure** is the distance between the Canadian Geodetic Datum elevation of 83.125 metres and the elevation of the highest point of the **building** or **structure**;
- (C) Despite Regulation 40.10.40.1(1), residential use portions of the **building** are permitted to be located on the same **storey** as non-residential use portions of the **building** provided such residential use portions do not include a **dwelling unit**;
- (D) Despite Regulation 40.10.40.40(1), the permitted maximum **gross floor area** of all **buildings** and **structures** on the **lot** is 52,750.0 square metres, of which:
  - (i) the required minimum **gross floor area** for office uses is 14,119 square metres;
- (E) The provision of **dwelling units** is subject to the following:
  - (i) A maximum of 512 **dwelling units** are permitted on the lot;
  - (ii) A minimum of 30 percent of the total number of **dwelling units** must have two or more bedrooms;
  - (iii) A minimum of 10 percent of the total number of **dwelling units** must have three or more bedrooms;
  - (iv) Any **dwelling units** with three or more bedrooms provided to satisfy (E)(iii) above are not included in the provision required by (E)(ii) above;
  - (v) A minimum of 20 of the **dwelling units** with two or more bedrooms provided to satisfy (E)(ii) above must have a minimum **gross floor area** of 78 square metres;
  - (vi) A maximum of 2 of the **dwelling units** with three or more bedrooms provided to satisfy (E)(iii) may have a **gross floor area** of less than 91 square metres; and
  - (vii) The average **gross floor area** of **dwelling units** with three or more bedrooms must be a minimum of 95 square metres.
- (F) Despite Regulation 40.10.40.10(1) the permitted maximum height of a **building** or **structure** is as shown on Diagram 3 of By-law 1015-2022;
- (G) Despite Regulations 40.5.40.10(3) to (8), and (F) above, the following equipment and **structures** may project beyond the permitted maximum height shown on Diagram 3 of By-law 1015-2022:
  - (i) equipment used for the functional operation of the **building** including electrical, utility, mechanical and ventilation equipment, enclosed stairwells, roof access, maintenance equipment storage, elevator shafts, chimneys, and vents, by a maximum of 6.5 metres;
  - (ii) **structures** that enclose, screen or cover the equipment, **structures** and parts of a **building** listed in (i) above, inclusive of a mechanical penthouse, by a maximum of 6.5 metres, within the area shown as HT 62.0 on Diagram 3 of By-law 1015-2022;
  - (iii) architectural features, parapets, and elements and **structures** associated with a **green roof**, by a maximum of 2.5 metres;
  - (iv) **building** maintenance units and window washing equipment, by a maximum of 6.5 metres;
  - (v) planters, **landscaping** features, guard rails, and divider screens on a balcony and/or terrace, by a maximum of 3.0 metres;
  - (vi) trellises, pergolas, and unenclosed **structures** providing safety or wind protection to rooftop **amenity space**, by a maximum of 4.0 metres;

- (vii) notwithstanding (G)(iii) above, exterior architectural elements, including but not limited to columns, beams, exoskeleton **structures** and exoskeleton cladding, structural and non-structural, by a maximum of 22.0 metres within the area shown as HT 62.0 on Diagram 3 of By-law 1015-2022;
- (H) Article 600.10.10 respecting **building setbacks**, **building separation**, separation of **main walls**, and projections and encroachments into **building setbacks** and **angular planes** does not apply;
- (I) Despite Clause Regulation 40.10.40.70(1), the required minimum **building setbacks** are as shown in metres on Diagram 3 of By-law 1015-2022;
- (J) Despite (H) and (I) above, the required minimum **building setbacks** are as follows within the hatched areas shown on Diagram 4 of By-law 1015-2022:
  - (i) The required minimum **building setback** from the northern **lot line** for the portion of a **building** between the Canadian Geodetic Datum elevation of 83.125 metres to a height of 6.0 metres is 1.6 metres;
  - (ii) No portion of a **building** or **structure** between the Canadian Geodetic Datum elevation of 83.125 metres to a height of 61.4 metres may penetrate an **angular plane** projected from the **building setback** identified in (J)(ii)(a) to the height identified in (J)(ii)(b) below:
    - (a) a 5.0 metre **building setback** from the western **lot line** at the ground level; and
    - (b) a height of 61.0 metres along the western **lot line**;
- (K) Despite Regulations 5.10.40.70(1), 40.5.40.60(1) and Clause 40.10.40.60, the following elements may encroach into the required minimum **building setbacks** and **main wall** separation distances as follows:
  - (i) decks, porches, and balconies, by a maximum of 2.0 metres;
  - (ii) canopies and awnings, by a maximum of 3.0 metres;
  - (iii) exterior stairs, access ramps and elevating devices, to the extent of the **main wall** of the **storey** below;
  - (iv) terraces, guards and guardrails, railings, parapets, privacy and wind screens, landscape planters and terrace platforms to the extent of the **main wall** of the **storey** below;
  - (v) cladding added to the exterior surface of the **main wall** of a **building**, by a maximum of 0.6 metres;
  - (vi) architectural features, such as a pilaster, decorative column, cornice, sill, belt course, or chimney breast, by a maximum of 2.0 metres;
  - (vii) exterior structural and architectural elements that support the **building**, including but not limited to columns, beams, exoskeleton **structures** and exoskeleton cladding, by a maximum of 2.0 metres;
  - (viii) exterior architectural elements in the type and location identified in (G)(vii) above, to the extent of the **main wall** to which the bottom of such elements are attached;
  - (ix) window projections, including bay windows and box windows, by a maximum of 0.5 metres;
  - (x) eaves, by a maximum of 0.5 metres;
  - (xi) a dormer, by a maximum of 2.0 metres; and
  - (xii) air conditioners, satellite dishes, antennae, vents, and pipes, by a maximum of 3.0 metres;
- (L) Despite Regulation 230.5.1.10(4), a **stacked bicycle parking space** may have the following minimum dimensions:
  - (i) length of 1.6 metres;
  - (ii) width of 0.4 metres; and
  - (iii) vertical clearance of 1.2 metres;
- (M) Despite Regulation 230.5.1.10(4) a **bicycle parking space** that is not a **stacked bicycle parking space** may have the following minimum dimensions:
  - (i) length of 1.6 metres;
  - (ii) width of 0.4 metres; and
  - (iii) vertical clearance of 1.9 metres;

- (N) Despite Regulation 230.5.1.10(10), "short-term" **bicycle parking spaces** may also be located in a **stacked bicycle parking space**;
- (O) Despite Regulations 200.5.10.1(1) and Table 200.5.10.1, **parking spaces** must be provided on the **lot** in accordance with the following:
- (i) a minimum of 34 residential occupant **parking spaces**;
  - (ii) a minimum of 5 residential visitor **parking spaces**;
  - (iii) no **parking spaces** are required for non-residential uses; and
  - (iv) **parking spaces** may be provided within an "automated parking garage", as defined in (S)(iii) below;
- (P) Despite Regulation 200.5.1.10(2), a maximum of 10 percent of **parking spaces** provided on the **lot** may have minimum dimensions of:
- (i) length of 5.1 metres;
  - (ii) width of 2.4 metres;
  - (iii) vertical clearance of 1.7 metres; and
  - (iv) one side of the **parking space** may be obstructed as described in Regulation 200.5.1.10(2)(D) without being required to provide additional width for the obstructed sides of the **parking space**.
- (Q) Despite Regulations 200.15.1(1) and 200.15.10(1), a minimum of 2 accessible **parking spaces** must be provided and maintained in accordance with the following requirements:
- (i) a minimum width of 3.4 metres;
  - (ii) a minimum length of 5.6 metres;
  - (iii) minimum vertical clearance of 2.1 metres; and
  - (iv) the entire length of an accessible **parking space** must be adjacent to a 1.5 metre wide accessible barrier free aisle or path on one side of the accessible **parking space**;
- (R) Despite Regulation 200.15.1(4), an accessible **parking space** is required to be no more than 6.0 metres more distant from a passenger elevator that provides access to the first **storey** of the **building** and the shortest route from the required entrance to the elevator, than the closest **parking space** to the elevator;
- (S) An "automated parking garage" is subject to the following:
- (i) a minimum of 2 "entry cabins" must be provided;
  - (ii) all "entry cabins" must have **driveway** access to a **street** or **lane** that is direct and unobstructed, excluding a gate, moveable barrier or similar security feature;
  - (iii) for the purpose of this exception, "automated parking garage" means a mechanical system for the purpose of parking and retrieving **vehicles** without drivers in the **vehicle** during parking and without the use of ramps or **drive aisles**, and which may include but is not limited to, a vertical lift and the storage of **vehicles** on parking pallets and the automated manoeuvring of other **vehicles** during parking or retrieving operations; and
  - (iv) for the purpose of this exception, "entry cabin" means the component of an "automated parking garage" into which the driver of a **vehicle** deposits, and from which the driver retrieves, their **vehicle**;
- (T) Regulation 200.5.1(3) regarding **drive aisle** width does not apply to **parking spaces** located within an "automated parking garage";
- (U) Regulations 200.5.1.10(2), (3) and (4), and (P) above, regarding the minimum dimensions and vertical clearance for **parking spaces** do not apply to **parking spaces** located within an "automated parking garage";
- (V) Regulations 200.5.1.10(5) and (6) regarding requirements for **tandem parking spaces** do not apply to **parking spaces** located within an "automated parking garage";
- (W) Regulation 200.5.1.10(13) regarding **parking space** access does not apply to **parking spaces** located within an "automated parking garage";
- (X) Despite Regulation 200.5.1.10(13), a **vehicle** elevator is not an obstruction to the access of a **parking space**, subject to the following:

- (i) a minimum of 2 **vehicle** queuing spaces must be provided in a **stacking aisle** on the **lot**; and
  - (ii) a **vehicle** queuing space must have a minimum width of 3.0 metres and minimum length of 6.5 metres;
- (Y) The requirements of (Q) above regarding accessible **parking spaces** do not apply if all required **parking spaces** in (O) are located in an "automated parking garage" having an "entry cabin" with a 1.5 metre wide accessible barrier free aisle or path on one side of the space in which the **vehicle** is deposited;
- (Z) Despite Clause 220.5.10.1, **loading spaces** must be provided and maintained on the **lot** as follows:
  - (i) one Type "G" **loading space**; and
  - (ii) two Type "C" **loading space**;
- (AA) Despite Regulations 40.10.40.50(1) and (2), a **building** with 20 or more **dwelling units** must provide **amenity space** on the lot at the following rates:
  - (i) at least 2.7 square metres for each **dwelling unit** as indoor **amenity space**;
  - (ii) at least 1.3 square metres of outdoor **amenity space** for each **dwelling unit**, of which 40 square metres must be in a location adjoining or directly accessible to the indoor **amenity space**;
  - (iii) no more than 10 percent of the outdoor component may be a **green roof**; and
  - (iv) indoor **amenity space** and outdoor **amenity space** may be shared by residential and non-residential uses.

Prevailing By-laws and Prevailing Sections: (None Apply)  
[ By-law: 1015-2022 ]

(773) Exception CR 773

The lands, or a portion thereof as noted below, are subject to the following Site Specific Provisions, Prevailing By-laws and Prevailing Sections.

Site Specific Provisions:

- (A) On 20 and 26 Maitland Street, if the requirements of By-law 88-2023(OLT), are complied with, a **building** or **structure** may be constructed, used or enlarged in compliance with Regulations (B) to (AA) below;
- (B) Despite Regulations 40.5.40.10(1) and (2), the height of a **building** or **structure** is the distance between the Canadian Geodetic Datum of 106.21 metres and elevation of the highest point of the **building** or **structure**;
- (C) Despite Regulations 40.10.20.10(1)(A) and 40.10.20.20(1)(A) the only non-residential uses permitted are as follows:
  - (i) **Art gallery**;
  - (ii) **Artist studio**;
  - (iii) **Automated banking machine**;
  - (iv) **Education use**;
  - (v) **Financial institution**;
  - (vi) **Massage therapy**;
  - (vii) **Medical office**;
  - (viii) **Office**;
  - (ix) **Personal service shop**;
  - (x) **Day nursery**;
  - (xi) **Eating establishment**;
  - (xii) **Retail service**;
  - (xiii) **Retail store**; and
  - (xiv) **Take-out eating establishment**;
- (D) A maximum of 532 **dwelling units** are permitted on the **lot**, of which:

- (i) a minimum of 15 percent of the total number of **dwelling units** must have two or more bedrooms;
  - (ii) a minimum of 10 percent of the total number of **dwelling units** must have three or more bedrooms;
  - (iii) an additional minimum 15 percent of the total number of **dwelling units** must be a combination of **dwelling units** that have two or more bedrooms or that may be converted into two or three bedroom **dwelling units** through the use of accessible or adaptable design measures such as knock out panels; and
  - (iv) any **dwelling units** with three or more bedrooms provided to satisfy (ii) above are not included in the provision required by (i) above;
- (E) Despite Regulation 40.10.40.40(1), the permitted maximum **gross floor area** is 33,800 square metres, of which:
  - (i) the permitted maximum **gross floor area** for residential uses is 33,500 square metres;
  - (ii) the permitted maximum **gross floor area** for non-residential uses is 300 square metres;
  - (iii) the required minimum **gross floor area** for non-residential uses is 200 square metres;
  - (iv) no **gross floor area** for residential uses may be located above the 40th **storey**, with the exception of **amenity space**;
- (F) Despite Regulation 40.10.40.1(1), five (5) **dwelling units**, residential **amenity space**, and residential lobby access may be located on the first **storey** of a **building**, adjacent to non-residential uses;
- (G) Despite Regulation 40.10.40.10(5), the required minimum height of the first **storey**, as measured between the **floor** of the first **storey** and the ceiling of the first **storey**, is 2.7 metres;
- (H) Despite Regulation 40.10.40.10(1), the permitted maximum height of a **building** or **structure** is the number following the HT symbol in metres as shown on Diagram 3 of By-law 88-2023(OLT);
- (I) Despite Regulations 40.5.40.10(3) to (8) and (H) above, the following equipment and **structures** may project beyond the permitted maximum height of a **building**:
  - (i) Parapets, guardrails, balustrades, safety railings, bollards, vents, stacks, fences, privacy screens, landscape elements (including **green roofs**), terraces, thermal insulation and roof ballast, flues, access roof hatch, outdoor furniture, **structures** on the roof used for outside or open-air recreation including an outdoor pool, retaining walls, to a maximum of 1.8 metres;
  - (ii) Mechanical equipment, elevator overruns, canopies, heating, cooling or ventilating equipment or a fence, wall or **structure** enclosing such elements; washing equipment, to a maximum of 3.6 metres; and
  - (iii) Wind screen, architectural decorative elements, to a maximum of 6.0 metres;
- (J) Despite Regulation 40.10.40.50(1), a **building** with 20 or more **dwelling units** must provide **amenity space** in accordance with the following:
  - (i) a minimum of 4.0 square metres of amenity space for each **dwelling unit**, of which:
    - (a) a minimum of 1,000 square metres of the requirement in (i) above must be outdoor **amenity space** which must be located adjoining or directly accessible to indoor **amenity space**; and
    - (b) no more than 25 percent of the outdoor component may be a **green roof**;
- (K) Regulation 40.10.40.50(2), with respect to **amenity space** for **buildings** with non residential uses in SS1 Areas, does not apply;
- (L) Despite Regulation 40.10.40.70(1), the required minimum **building setbacks** are as shown in metres on Diagram 3 of By-law 88-2023(OLT);
- (M) Despite Regulation 40.10.40.80(1), the required separation of **main walls** are as shown in metres on Diagram 3 of By-law 88-2023(OLT);
- (N) Despite Clause 40.10.40.60 and (L) and (M) above, the following elements may encroach into the required minimum **building setbacks** and **main wall** separation distances as follows:
  - (i) Architectural fins, lighting fixtures, windows sills, balustrades, vents, decorative architectural features, to a maximum extent of 0.5 metres;

- (ii) Balconies, roof overhangs, heating, cooling or ventilating equipment, window washing equipment, to a maximum extent of 1.8 metres; and
  - (iii) Canopies, to a maximum extent of 2.5 metres;
- (O) Regulation 40.10.50.10(3) with respect to a 1.5 metre strip of **soft landscaping** along any part of a **lot line** abutting another **lot** in the Residential Zone category or Residential Apartment Zone category, does not apply;
- (P) Despite Regulation 40.10.90.40(1) **vehicle** access to a **loading space** may be from a **street**;
- (Q) Despite Regulation 40.10.100.10(1)(A) **vehicle** access to the lot may be from a **street**;
- (R) Despite Regulation 200.5.10.1(1) and Table 200.5.10.1, **parking spaces** must be provided and maintained on the **lot** in accordance with the following minimum requirements:
  - (i) 0.15 **parking spaces** for each **dwelling unit** for residents;
  - (ii) 0.035 **parking spaces** for each **dwelling unit** for residential visitors;
  - (iii) A minimum of 2 **parking spaces** shall be provided for non-residential uses; and
  - (iv) a maximum of two (2) "car-share parking spaces" may be provided;
- (S) Despite Regulation 200.5.10.1(1), "car-share parking spaces" may replace **parking spaces** otherwise required for residential occupants, subject to the following:
  - (i) a reduction of four resident occupant **parking spaces** will be permitted for each "car-share parking space" provided and that the maximum reduction permitted be capped by the application of the following formula:
    - (a) 4 multiplied by (total number of **dwelling units** divided by 60), rounded down to the nearest whole number;
  - (ii) for the purpose of this exception, "car-share" means the practice whereby a number of people share the use of one or more motor **vehicles** and such "car-share" motor **vehicles** are made available to at least the occupants of the building for short-term rental, including hourly rental; and
  - (iii) for the purpose of this exception, "car-share parking space" means a **parking space** exclusively reserved and signed for a **vehicle** used only for "car-share" purposes;
- (T) A maximum of 10 percent of the required **parking spaces** may be small car **parking spaces** with the following dimensions:
  - (i) A minimum length of 5.3 metres;
  - (ii) A minimum width of 2.4 metres; and
  - (iii) A minimum vertical clearance of 1.8 metres;
- (U) Despite Regulation 200.15.1(1) and 200.15.15.4(1), an accessible **parking space** must have the following minimum dimensions:
  - (i) Length of 5.6 metres;
  - (ii) Width of 3.4 metres;
  - (iii) Vertical clearance of 2.0 metres; and
  - (iv) The entire length of an accessible **parking space** must be adjacent to a 1.5 metre wide accessible barrier free aisle or path;
- (V) Despite Regulation 200.15.1(4), accessible **parking spaces** may be located within the below-ground **parking garage** provided they are located a maximum of 20 metres from an entrance to an elevator lobby with one or more passenger elevator(s) that provide access to the first **storey** of the **building**;
- (W) Despite Regulation 220.5.10.1(2), one Type "G" **loading space** and one Type "C" **loading space** are required;
- (X) Despite Regulation 230.5.1.10(6), "long-term" **bicycle parking spaces** for non residential uses may be located outside;
- (Y) Regulation 230.10.1.20(2), with respect to the location of "short-term" **bicycle parking spaces**, does not apply;
- (Z) Despite Regulation 230.5.1.10(10), "long-term" and "short-term" **bicycle parking spaces** may be located in a **stacked bicycle parking space**; and

(AA) Despite Regulation 230.5.1.10(4)(A)(i) and (ii), a **stacked bicycle parking space** may have the following dimensions:

- (i) A minimum length of 1.5 metres; and
- (ii) A minimum width of 0.4 metres.

Prevailing By-laws and Prevailing Sections: (None Apply)  
[ By-law: 88-2023(OLT) Enacted ]

(774) Exception CR 774

The lands, or a portion thereof as noted below, are subject to the following Site Specific Provisions, Prevailing By-laws and Prevailing Sections.

Site Specific Provisions:

- (A) On 933-935 The Queensway, if the requirements of Section 11 and Schedule A of By-law 535-2023(OLT) are complied with, a **building** or **structure** may be constructed, used or enlarged in compliance with (B) to (V) below;
- (B) Despite Regulations 40.5.40.10(1) and (2), the height of a **building** or **structure** is the distance between the Canadian Geodetic Datum of 106.52 metres and the elevation of the highest point of the **building** or **structure**;
- (C) Despite Regulation 40.10.40.10(2), the permitted maximum height of a **building** or **structure** is the number, in metres, following the letters 'HT' as shown on Diagrams 5 of By-law 535-2023(OLT);
- (D) Despite Regulation 40.10.40.10(7), the permitted maximum number of **storeys** in a **building** is the number following the letters 'ST' as shown on Diagram 5 of By-law 535-2023(OLT);
- (E) Despite Regulations 40.5.40.10(4), (6), (7) and (C) above, the following equipment and **structures** may project beyond the permitted maximum height shown on Diagram 5 of By-law 535-2023(OLT):
  - (i) equipment used for the functional operation of the **building** including electrical, utility, mechanical and ventilation equipment, enclosed stairwells, roof access, maintenance equipment storage, elevator shafts, chimneys, and vents, by a maximum of 5.0 metres;
  - (ii) **structures** that enclose, screen or cover the equipment, **structures** and parts of a **building** listed in (i) above by a maximum of 5.0 metres;
  - (iii) architectural features, parapets, and elements and **structures** associated with a **green roof**, by a maximum of 1.5 metres;
  - (iv) **building** maintenance units and window washing equipment, by a maximum of 2.0 metres;
  - (v) planters, **landscaping** features, and guard rails by a maximum of 2.0 metres;
  - (vi) divider screens on a balcony and/or terrace, by a maximum of 3.0 metres;
  - (vii) trellises and pergolas by a maximum of 4.0 metres;
  - (viii) unenclosed **structures** providing safety or wind protection to rooftop **amenity space**, by a maximum of 2.5 metres; and
  - (ix) a sound barrier on the 7th **storey** of the outdoor shared amenity area by a maximum of 2.4 metres;
- (F) Despite Regulations 40.5.40.10(4), (8) and (E) above, for the area labelled as "MPH" as shown on Diagram 5 of By-law 535-2023(OLT):
  - (i) equipment and **structures** that enclose, screen or cover the equipment, used for the functional operation of the **building** including electrical, utility, mechanical and ventilation equipment, enclosed stairwells, roof access, maintenance equipment storage, and elevator shafts may not project beyond the permitted maximum height; and
  - (ii) a ladder for accessing the top of the area labelled as "MPH" is permitted to project 1.2 metres beyond the permitted maximum height;
- (G) Despite Regulation 40.10.40.1(1), non-residential uses are only required on the first **storey** of a **mixed use building** along the Queensway frontage;
- (H) Regulation 40.10.40.10(5), with respect to the minimum height of the first **storey** does not apply for residential uses;
- (I) Despite Regulation 40.10.40.40(1), the permitted maximum **gross floor area** of all **buildings** and **structures** on the lands is 16,832 square metres, of which:

- (i) the permitted maximum **gross floor area** for residential uses is 16,000 square metres;
  - (ii) the permitted minimum **gross floor area** for non-residential uses is 511 square metres;
  - (iii) no residential **gross floor area** shall be permitted above the 11th **storey**; and
  - (iv) the maximum **gross floor area** of the area labelled "MPH" on Diagram 5 of By-law 535-2023(OLT) is 550 square metres;
- (J) A maximum of 210 **dwelling units** are permitted on the lands, and the provision of **dwelling units** is subject to the following:
  - (i) a minimum of 20 percent must be two-bedroom **dwelling units**; and
  - (ii) a minimum of 10 percent must be three-bedroom **dwelling units** or larger;
- (K) For each **dwelling unit** the total area of glazing, windows and opening of each exterior **main wall** for each **dwelling unit**, shall not exceed 50 percent of the interior **gross floor area** for each **dwelling unit**;
- (L) No **building** may penetrate a 45 degrees **angular plane**, measured at a line parallel to and at a height above a **lot line** that abuts The Queensway, equal to 80 percent of the width of The Queensway **street** right-of-way with the exception of guard rails and parapets which may penetrate 1.07 metres into the **angular plane**;
- (M) Despite Regulations 40.10.40.70(2) and 40.10.40.80(2), the required minimum **building setbacks** and separation of **main walls** are as shown in metres on Diagram 5 of By-law 535-2023(OLT);
- (N) Despite Regulations 40.10.40.70(2), 40.10.40.80(2) and (M), the required minimum **building setbacks** and separation of **main walls** for the first **storey** identified as the ground floor line are as shown in metres on Diagram 5 of By-law 535-2023(OLT);
- (O) Despite Clause 40.10.40.60 and (M) above, the following elements may encroach into the required minimum **building setbacks** and **main wall** separation distances as follows:
  - (i) decks, porches, and balconies, by a maximum of 2.0 metres;
  - (ii) canopies and awnings, by a maximum of 2.0 metres;
  - (iii) exterior stairs, access ramps and elevating devices;
  - (iv) cladding added to the exterior surface of the **main wall** of a **building**, by a maximum of 0.2 metres; and
  - (v) air conditioners, satellite dishes, antennae, vents, and pipes, by a maximum of 2.0 metres;
- (P) Despite Regulation 200.5.10.1(1) and Table 200.5.10.1, **parking spaces** must be provided in accordance with the following:
  - (i) a minimum of 0.75 residential occupant **parking space** per **dwelling unit**;
  - (ii) a minimum of 0.15 residential visitor **parking space** for each **dwelling unit**; and
  - (iii) a minimum of 1.00 **parking space** for each 100 square metres of non-residential **gross floor area**;
- (Q) Residential visitor **parking spaces** and **parking spaces** for non-residential uses, may be provided on a non-exclusive basis and may be shared in a **parking garage** below ground;
- (R) Despite Regulation 200.5.10.1(1), "car-share parking spaces" may replace **parking spaces** otherwise required for residential occupants, subject to the following:
  - (i) a reduction of four resident occupant **parking spaces** will be permitted for each "car-share parking space" provided and that the maximum reduction permitted be capped by the application of the following formula:
    - (a) four multiplied by the total number of **dwelling units** divided by 60, and rounded down to the nearest whole number;
  - (ii) for the purpose of this exception, "car-share" means the practice whereby a number of people share the use of one or more motor **vehicles** and such "car-share" motor **vehicles** are made available to at least the occupants of the **building** for short-term rental, including hourly rental; and
  - (iii) for the purpose of this exception, "car-share parking space" means a **parking space** exclusively reserved and signed for a **vehicle** used only for "car-share" purposes;

- (S) Despite Regulation 200.5.1.10(2), a maximum of 21 **parking spaces** provided may have the following minimum dimensions, despite that such **parking spaces** may be obstructed on one or two sides:
- (i) length – 5.2 metres;
  - (ii) width – 2.6 metres; and
  - (iii) height – 2.0 metres;
- (T) Despite Regulation 200.15.1(1), (3) and (4), accessible **parking spaces** must be provided on each Block as follows:
- (i) An accessible **parking space** must have the following minimum dimensions:
    - (a) length of 5.6 metres;
    - (b) width of 3.4 metres; and
    - (c) vertical clearance of 2.1 metres;
  - (ii) The entire length of an accessible **parking space** must be adjacent to a 1.5 metre wide accessible barrier free aisle or path;
  - (iii) Accessible **parking spaces** must be the **parking spaces** closest to a barrier free:
    - (a) entrance to a **building**;
    - (b) passenger elevator that provides access to the first **storey** of the **building**; and
    - (c) the shortest route from the required entrances in (T)(iii)(a) and (b);
- (U) Despite Clauses 40.10.90.1 and 220.5.10.1 a required minimum of one (1) Type "G" **loading space** must be provided on the lands;
- (V) Despite Regulation 230.5.1.10(10) a "long-term" **bicycle parking space** may be located in a **stacked bicycle parking space**;
- (W) Despite (A) listed under Prevailing By-laws and Prevailing Sections below, City of Toronto by-law 514-2003 does not apply to a **building** or **structure** constructed, used or enlarged in compliance with Regulations (B) to (V) above.

Prevailing By-laws and Prevailing Sections: City of Toronto By-law 514-2003  
[ By-law: 535-2023(OLT) ]

(776) (776) Exception CR 776

The lands, or a portion thereof as noted below, are subject to the following Site Specific Provisions, Prevailing By-laws and Prevailing Sections:

Site Specific Provisions:

- (A) On the lands municipally known in the year 2021 as 954, 956 and 958 Broadview Avenue, as shown as Parcel A on Diagram 3 of By-law 167-2023(OLT), if the requirements of Section 11 and Schedule A of By-law 167-2023(OLT) are complied with, a **building** or **structure** may be erected and used in compliance with (B) to (KK) below;
- (B) For the purpose of this exception, "Parcel A" is the parcel of land labeled as Parcel A on Diagram 3 of By-law 167-2023(OLT);
- (C) For the purposes of this exception, the **lot** comprises Parcel A and Parcel B as shown on Diagram 3 of By-law 167-2023(OLT);
- (D) Despite Regulation 40.10.40.40(1), the permitted maximum **gross floor area** of all **buildings** and **structures** on Parcel A is 13,600.00 square metres, of which:
  - (i) A minimum of 100.0 square metres of **gross floor area** must be provided for non-residential uses; and
  - (ii) A maximum of 13,500.0 square metres of **gross floor area** may be provided for residential uses;
- (E) The **gross floor area** required by (D)(i) above must be provided on the ground floor of the **building** and within a portion of the **building** facing the **lot line** abutting Broadview Avenue;
- (F) A maximum of 207 **dwelling units** are permitted on the **lot**;
- (G) A minimum of 15 percent of the total number of **dwelling units** on the **lot** must contain two or more bedrooms;

- (H) A minimum of 10 percent of the total number of **dwelling units** on the **lot** must contain three or more bedrooms;
- (I) In addition to the elements that reduce **gross floor area** listed in Regulation 40.5.40.40(3), the **gross floor area** of a **mixed use building** is also reduced by the area in the **building** occupied by a void in a floor if there is a vertical clearance of no more than 7.5 metres between the top of the floor below the void and the ceiling directly above it and provided such void is not located in a portion of a **building** or **structure** subject to height limits of 9.8 metres and 13.6 metres as shown on Diagram 4 of By-law 167-2023(OLT);
- (J) Regulation 40.10.20.100(21)(D) does not apply to an **outdoor patio** located within 30 metres of the easterly **lot line** abutting Broadview Avenue;
- (K) Despite all of Clauses 40.5.40.70, 40.10.40.70 and 40.10.40.80 the required minimum **building setbacks** and the required minimum separation distances between **main walls** of **buildings** or **structures** above ground is shown on Diagram 4 of By-law 167-2023(OLT);
- (L) Despite Regulation 5.10.40.70.(1) Clauses 40.5.40.60, 40.5.40.70, 40.10.40.60 and 40.10.40.70 and (K) above, the following elements of a **building** may encroach into a required minimum **building setback** and a required **main wall** separation distance as follows:
  - (i) lighting fixtures, railings, planters, balustrades, bollards, stairs, roof access ladders, fences, guards, guardrails, retaining walls, ramp to underground garage and associated structures, wheel chair ramps or other facilities providing barrier free access, public art, patios and landscape features;
  - (ii) awnings and other similar shade devices including associated structures to a maximum of 3.0 metres;
  - (iii) balconies and canopies up to a maximum of 2.0 metres;
  - (iv) cornices, sills, eaves and non-structural architectural or ornamental features up to a maximum of 0.6 metres; and
  - (v) **structures**, elements and enclosures permitted by regulation (O) below;
- (M) Despite (L)(iii) above, balconies are not permitted to project beyond the southerly **main wall** of the that portion of the **building** subject to a height limit of 9.8 metres as shown on Diagram 4 of By-law 167-2023(OLT), with the exception of Juliette balconies which may project a maximum of 0.5 metres from such southerly **main wall**;
- (N) Despite Regulation 40.10.40.10(2) the permitted maximum height of a **building** or **structure**, as measured between **established grade** and the highest point of the **building**, is the number following the HT symbol in metres as shown on Diagram 4 of By-law 167-2023(OLT);
- (O) Despite Regulations 40.5.40.10 (3), (4), (5), (6) and (7), 40.10.40.10(2) and (7) and (N) above the following **structures** and elements of a **building** may project beyond the maximum **building** height:
  - (i) **structures**, elements and enclosures permitted by regulation (L) above;
  - (ii) **structures** on any roof used for outdoor **amenity space** or open air recreation, safety, noise and wind protection and/or mitigation purposes, trellis, awnings and other similar shade devices and associated **structures**, chimneys, vents, flues and stacks may exceed the permitted maximum **building** height by up to 3.8 metres;
  - (iii) stairs, stair enclosures, and roof top storage enclosure may exceed the permitted maximum **building** height by up to 2.9 metres;
  - (iv) parapets and a **green roof** may exceed the permitted maximum **building** height by up to 1.5 metres;
  - (v) terrace dividers, privacy screens and window washing equipment may exceed the permitted maximum building height by up to 2.2 metres; and
  - (vi) despite (ii) above, on that portion of a **building** subject to a height limit of 8.0 metres as shown on Diagram 4 attached to By-law 167-2023(OLT) a chimney may exceed the permitted maximum permitted **building** height by up to 9.0 metres;
- (P) Despite (O) above, projections above the permitted maximum **building** height of 50.5 metres as shown on Diagram 4 attached to By-law 167-2023(OLT) are limited to the following elements:
  - (i) Parapets, vents, chimneys, stacks and flues up to a maximum of 1.2 metres;

- (ii) Cooling tower exhaust hood up to a maximum of 1.8 metres and such element may only occupy a maximum of 6 percent of the roof area of that portion of the **building** subject to a height limit of 50.5 metres as shown on Diagram 4 attached to By-law 167-2023(OLT);
  - (iii) Roof access hatch up to a maximum of 0.5 metres; and
  - (iv) Screens surrounding such elements;
- (Q) For the purpose of this exception, stair enclosures, mechanical penthouses, and rooftop enclosures for storage are not considered a **storey**;
- (R) Despite Regulation 40.5.40.10(1) and (2), the height of a **building** or **structure** is measured from the Canadian Geodetic Datum elevation of 119.91 metres to the highest point of the **building** or **structure**;
- (S) For the purpose of this Exception, **established grade** is the Canadian Geodetic Datum elevation of 119.91 metres;
- (T) Despite (K), (L), (N) and (O) above, within the area identified as the Building Exclusion Zone on Diagram 4 of By-law 167-2023(OLT), no portion of a **building** or **structure** may be located between a height of 16.01 metres and 24.0 metres, as measured from **established grade**;
- (U) Despite Regulation 40.10.40.10(7), the permitted maximum number of **storeys** in a **building** is the number following the ST symbol as shown on Diagram 4 of By-law 167-2023(OLT);
- (V) Despite Regulation 40.10.40.10(5), the required minimum height of the first **storey**, as measured between the floor of the first **storey** and the ceiling of the first **storey** is 2.7 metres;
- (W) Despite Regulation 200.5.10.1(1) and Table 200.5.10.1 **parking spaces** must be provided and maintained on Parcel A in accordance with the following:
  - (i) A minimum of 0.35 **parking spaces** for each **dwelling unit** for residential occupants;
  - (ii) A minimum of 0.06 **parking spaces** for each **dwelling unit** for the use of residential visitors; and
  - (iii) **parking spaces** are not required for non-residential uses and a **dwelling unit** provided as a guest suite;
- (X) Despite Regulation 200.5.1.10(9), if the number of required **parking spaces** calculated in accordance with (W)(i) or (ii) above results in a number with a fraction, the number is rounded down to the nearest whole number;
- (Y) Despite Regulations 200.5.1.10(2) and 200.10.1(3):
  - (i) a maximum of 10 parking spaces, that are obstructed on one side in accordance with Regulation 200.5.1.10(2)(D), may have a minimum width of 2.6 metres; and
  - (ii) a maximum of four **parking spaces** may have a minimum length of 5.4 metres;
- (Z) Despite Clause 200.15.1, accessible **parking space** must be provided in accordance with the following:
  - (i) An accessible **parking space** must have the following minimum dimensions:
    - (a) Length of 5.6 metres;
    - (b) Width of 3.4 metres; and
    - (c) Vertical clearance of 2.1 metres.
  - (ii) The entire length of an accessible **parking space** must be adjacent to a 1.5 metre wide accessible barrier free aisle or path;
  - (iii) Accessible **parking spaces** may be a maximum of 14.0 metres from a passenger elevator that provides access to the first **storey** of the **building**;
- (AA) Despite regulation 220.5.20.1(1) a **driveway** to a **loading space** must have a minimum width of 3.5 metres, except where such **driveway** abuts a **lane**.
- (BB) Despite Regulation 230.5.1.10(4), if a **stacked bicycle parking space** is provided in a mechanical device where any portion of a bicycle is situated above or below any portion of an adjacent bicycle, the minimum required width of each such **stacked bicycle parking space** is 0.35 metres and the minimum required length is 1.6 metres;
- (CC) Despite Regulation 230.5.1.10(10), "long term" **bicycle parking spaces** and "short term" **bicycle parking spaces** may be located in a **stacked bicycle parking space**;

- (DD) Regulation 40.10.40.1(1) with respect to the location of commercial uses in a **mixed use building** does not apply;
- (EE) Regulation 40.10.40.1(2) does not apply with respect to the location of entrances and first floor elevation of the non-residential uses;
- (FF) Regulation 40.10.40.1(6) does not apply with respect to the location of pedestrian entrances;
- (GG) For the purposes of this exception, indoor **amenity space** may include a **dwelling unit** used exclusively for the purpose of a guest suite and communal areas used for co-working purposes.
- (HH) Despite Clause 40.10.50.10 **landscaping** and fencing must be provided as follows:
  - (i) Fencing must be installed along the lot line of Parcel A that abuts a **lot** in the Residential Apartment Zone category or Residential Zone category, excluding Parcel B as shown on Diagram 3 attached to By-law 167-2023(OLT);
  - (ii) A minimum 1.5 metre wide strip of land used only for **landscaping** must be provided along the portion of Parcel A that abuts a **lot** in the Residential Zone category or Residential Apartment Zone category;
- (II) Regulation 40.10.90.10(1)(C) does not apply with respect to **loading space** location;
- (JJ) Clause 40.10.90.40 does not apply with respect to access to a **loading space**; and
- (KK) Clause 40.10.100.10 does not apply with respect to **vehicle** access.

Prevailing By-laws and Prevailing Sections: (None Apply)

(777) Exception CR 777

The lands, or a portion thereof as noted below, are subject to the following Site Specific Provisions, Prevailing By-laws and Prevailing Sections.

Site Specific Provisions:

- (A) On 808 Mount Pleasant Road and 247-251 Roehampton Avenue, if the requirements in Section 4 and Schedule A of By-law 1208-2022(OLT) are complied with, a **building** or **structure** may be constructed, used or enlarged in compliance with Regulations (B) to (T) below;
- (B) Despite Regulation 40.5.40.10(1) and (2), the height of a **building** or **structure** is the distance between the Canadian Geodetic Datum elevation of 158.50 metres and the elevation of the highest point of the **building** or **structure**;
- (C) Despite Regulation 40.10.40.1(1), both residential and non-residential use portions of the **building** may be located on the first **storey** of the **building**;
- (D) Despite Regulation 40.10.40.1(2)(A), for any non-residential use the floor level of the first **storey** must be within 0.8 metres of the ground measured at the **lot line** abutting the **street** directly opposite each pedestrian entrance;
- (E) Despite Regulation 40.10.40.10(2), the permitted maximum height of any part of a **building** or **structure** is the numerical value, in metres, following the letters "HT" shown on Diagram 3 of By-law 1208-2022(OLT);
- (F) Despite Regulations 40.5.40.10(3) to (8) and (E) above, the following equipment and **structures** may project beyond the permitted maximum height shown on Diagram 3 of By-law 1208-2022(OLT):
  - (i) a parapet, roof drainage components, or thermal and waterproofing assembly located at each of the roof levels of the **building**, to a maximum of 1.8 metres;
  - (ii) safety railings, fences and guardrails at each of the roof levels of the **building**, to a maximum of 2.0 metres;
  - (iii) **structures** on the roof of any part of the **building** used for outside or open air recreation, **green roof** elements, planters, wind mitigation elements, noise mitigation elements, screens, trellises, landscape features, telecommunications equipment and antennae, and partitions dividing outdoor recreation areas, to a maximum of 3.0 metres; and
  - (iv) mechanical penthouses, equipment used for the functional operation of the **building**, such as electrical, utility, mechanical and ventilation equipment, stairs, stair enclosures, window washing equipment, lightning rods, exhaust flues, vents, ventilating equipment, chimney stack, and garbage chute overruns, and **structures** that enclose, screen or cover the equipment, **structures** and parts of a **building** listed in this section, to a maximum of 5.0 metres;

- (v) **building** elements on top of a **building** element or **structure** listed in (F)(iv) above, including a parapet, chimneys, pipes, vents, cooling towers, cooling tower perimeter walls, elevator overruns, roof drainage components, and thermal and waterproofing assembly, to a maximum of 2.5 metres above the mechanical penthouse;
- (G) Despite (L) below, no portion of a **building** or **structure** is permitted to be located between **established grade** and an elevation of 165.5 metres Canadian Geodetic Datum within the area identified as "Area Subject to 4(G) of this By-law";
- (H) Despite Regulation 40.10.40.10(5), the required minimum height of the first **storey**, as measured between the floor of the first **storey** and the ceiling of the first **storey**, is 3.8 metres, and:
  - (i) for the purpose of this exception, a mezzanine, partial **storey**, or mechanical penthouse space does not constitute a **storey**;
- (I) Despite Regulation 40.10.40.40(1) the permitted maximum **gross floor area** is 34,000 square metres of which:
  - (i) the permitted maximum **gross floor area** for residential uses is 32,900 square metres;
  - (ii) the permitted maximum **gross floor area** for non-residential uses is 1,100 square metres;
  - (iii) the required minimum **gross floor area** for non-residential uses is 500 square metres;
- (J) **Dwelling Units** on the **lot** must include:
  - (i) a minimum of 15 per cent of the total number of units as 2-bedroom units;
  - (ii) a minimum of 10 per cent of the total number of units as 3-bedroom units;
  - (iii) an additional 15 percent of the total number of units will be a combination of 2-bedroom and 3-bedroom units, or units that can be converted to 2-bedroom or 3-bedroom units through the use of adaptable design measures;
- (K) Despite Regulation 40.10.40.50 (1), a minimum of 430 square metres of outdoor **amenity space** and a minimum of 1,285 square metres of indoor **amenity space** must be provided on the **lot**;
- (L) Despite Regulations 40.5.40.70(1), 40.10.40.70(2) and 40.10.40.80(2) the required minimum **building setbacks** and minimum required above-ground separation distances between **main walls** of **buildings** or **structures** with or without windows are as shown on Diagram 3 of By-law 1208-2022(OLT);
- (M) Despite Clause 40.10.40.60 and (L) above, the following elements may encroach into the required minimum **building setbacks**:
  - (i) lighting fixtures, canopies architectural features, structural/non-structural architectural columns/piers, window washing equipment, parapets, parapet flashing, roof and terrace scuppers, roof overhang, gutter, downspout, trellises, window sills, guardrails, balustrades, railings, wind mitigation and acoustic screens and features, planters, stairs, wheel chair ramps, mechanical exhaust and intake components, gas meters, underground garage ramps and their associated **structures** and elements, retaining walls, fences, Siamese connections and privacy screens, to a maximum of 2.0 metres; and
  - (ii) balconies may encroach to a maximum of 2.5 metres;
- (N) Despite Regulation 200.5.10.1(1) and Table 200.5.10.1, **parking spaces** must be provided in accordance with the following:
  - (i) a minimum of 0.17 for each **dwelling unit**; and
  - (ii) no **parking spaces** are required for all other uses on the **lot**;
- (O) Despite Regulation 200.5.10.1(1), "car-share parking spaces" may replace **parking spaces** otherwise required for residential occupants, subject to the following:
  - (i) a reduction of 4 resident occupant **parking spaces** will be permitted for each "car-share parking space" provided that the maximum reduction permitted be capped by the application of the following formula: 4 multiplied by (total number of **dwelling units** divided by 60), rounded down to the nearest whole number
  - (ii) for the purpose of this exception, "car-share" means the practice whereby a number of people share the use of one or more motor **vehicles** and such "car-share" motor **vehicles** are made

- available to at least the occupants of the **building** for short-term rental, including hourly rental;  
and
- (iii) for the purpose of this exception, "car-share parking space" means a **parking space** exclusively reserved and signed for a **vehicle** used only for "car-share" purposes;
- (P) Despite Regulation 200.5.1.10(2), a maximum of 10 percent of the required **parking spaces** may have minimum dimensions of:
- (i) length of 5.1 metres;
  - (ii) width of 2.4 metres;
  - (iii) vertical clearance of 1.7 metres; and
  - (iv) the side of the **parking space** may be obstructed;
- (Q) Despite Regulation 200.15.1(1), accessible **parking spaces** must comply with the following:
- (i) accessible **parking spaces** must be located on the same level as a barrier free passenger elevator that provides access to the first **storey** of the **building**;
  - (ii) an accessible **parking space** must have the following minimum dimensions:
    - (a) length of 5.6 metres;
    - (b) width of 3.4 metres; and
    - (c) vertical clearance of 2.1 metres;
- (R) Despite Clause 220.5.10.1, a minimum of one (1) Type "G" **loading space** and one (1) Type "C" **loading space** must be provided on the **lot**
- (S) Despite Regulation 230.5.1.10 (9) a required **bicycle parking space** may be located on any **storey** of a **building** or **structure** including all levels of the **building** or **structure** below **established grade**;
- (T) Despite Regulation 40.10.50.10 (3), a 1.5 metre landscape strip abutting a **lot** in the Residential Zone is not required.

Prevailing By-laws and Prevailing Sections: (None Apply)

(779) Exception CR 779

The lands, or a portion thereof as noted below, are subject to the following Site Specific Provisions, Prevailing By-laws and Prevailing Sections:

Site Specific Provisions:

- (A) On 234-250 King Street East and 162 Princess Street, if the requirements of By-law 1151-2022(OLT) are complied with, a **building** or **structure** may be constructed, used or enlarged in compliance with Regulations (B) to (P) below;
- (B) Despite Regulations 40.5.40.10(1) and (2), the height of a **building** or **structure** is the distance between the Canadian Geodetic Datum of 82.5 metres and the elevation of the highest point of the **building** or **structure**;
- (C) Despite Regulation 40.10.40.10(1), the permitted maximum height of a **building** or **structure** is the number in metres following the letters "HT" as shown on Diagram 3 of By-law 1151-2022(OLT);
- (D) Despite Regulation 40.10.40.10(7), the permitted maximum number of **storeys** in a **building** is the number following the letters "ST" as shown on Diagram 3 of By-law 1151-2022(OLT); and
  - (i) for the purpose of this exception, a mezzanine does not constitute a **storey**;
- (E) Despite Regulations 40.5.40.10(3) to (8) and (C) above, the following equipment and **structures** may project beyond the permitted maximum height shown on Diagram 3 of By-law 1151-2022(OLT):
  - (i) mechanical penthouse, by a maximum of 2.0 metres;
  - (ii) window washing equipment, by a maximum of 6.0 metres;
  - (iii) glass feature strips and associated **structures** for support, mechanical equipment, lightning rods, wind screens, elevator overruns, chimneys, vents, pergolas, eaves, screens, stairs, stair enclosures, and elements or **structures** on the roof used for open air recreation, safety and wind protection purposes, by a maximum of 3.0 metres;
  - (iv) fences and safety railings, trellises, privacy screens, balcony and terrace dividers, roof access hatches, by a maximum of 3.0 metres;

- (v) balustrades, guard rails, parapets, awnings, railings, **green roof** elements, and dividers, pergolas, eaves, screens, stairs, stair enclosures, roof drainage, window sills, chimneys, vents, terraces, light fixtures, **landscaping**, by a maximum of 3.0 metres;
- (F) Despite Regulation 40.10.40.40(1), the permitted maximum **gross floor area** of all **buildings** and **structures** on the **lot** is 34,500 square metres, of which:
  - (i) the permitted maximum **gross floor area** for residential uses is 33,900 square metres;
  - (ii) the permitted maximum **gross floor area** for non-residential uses is 600 square metres;
- (G) Despite Regulation 40.10.40.50(1)(A) and (B) and 40.10.40.50(2), **amenity space** must be provided at a minimum rate of 3.3 square metres per **dwelling unit**, of which:
  - (i) at least 1.6 square metres for each **dwelling unit** is indoor **amenity space**;
- (H) Despite Regulation 40.10.40.70(1), the required minimum **building setbacks** are as shown in metres on Diagram 3 of By-law 1151-2022(OLT);
- (I) Despite Regulation 40.10.40.80(1), the required separation of **main walls** are as shown in metres on Diagram 3 of By-law 1151-2022(OLT);
- (J) Despite Clause 40.10.40.60 and (H) and (I) above, the following elements may encroach into the required minimum **building setbacks** and **main wall** separation distances as follows:
  - (i) terraces and balconies, by a maximum of 2.0 metres;
  - (ii) despite (i) above, balconies above a height of 24.3 metres (Canadian Geodetic Datum of 106.8 metres) may only project within the areas illustrated as "Balcony Projection Zone" as shown on Diagram 3;
  - (iii) ornamental elements, parapets, pillars, trellises, eaves, and window sills, by a maximum of 1.0 metres;
  - (iv) cornices, light fixtures, landscape features, patios, decks, planters, ventilation shafts, guardrails, balustrades, railings, stairs, stair enclosures, doors, wheelchair ramps, fences, screens, site servicing features, awnings and canopies, and underground garage ramps and associated **structures**, by a maximum of 1.5 metres;
- (K) Despite Regulation 200.5.10.1(1) and Table 200.5.10.1, **parking spaces** must be provided in accordance with the following:
  - (i) a minimum of 0.17 residential occupant **parking spaces** for each **dwelling unit**;
  - (ii) a minimum of 0.06 **parking spaces** for each **dwelling unit** for the use of residential visitors or **public parking**; and
  - (iii) no **parking spaces** are required for non-residential uses;
- (L) Despite Regulation 200.15.1(4), accessible **parking spaces** may be located at any location on any level of the underground parking garage;
- (M) Despite Clause 220.5.10.1, one (1) Type "G" and one (1) Type "C" **loading space** must be provided and maintained on the **lot**;
- (N) Despite Regulation 230.5.1.10(10), both "short-term" and "long-term" **bicycle parking spaces** may also be located in a **stacked bicycle parking space**;
- (O) Despite Regulations 230.5.10.1(1)(3) and (5) and Table 230.5.10.1(1), **bicycle parking spaces** must be provided in accordance with the following minimum rates:
  - (i) 0.9 "long-term" **bicycle parking spaces** for each **dwelling unit**;
  - (ii) 0.1 "short-term" **bicycle parking spaces** for each **dwelling unit**;
  - (iii) no "long term" **bicycle parking spaces** are required for non-residential uses;
  - (iv) three (3) "short-term" **bicycle parking spaces** for all non-residential uses;
- (P) Of the total number of **dwelling units** provided on the **lot**:
  - (i) a minimum of ten percent must be three-bedroom **dwelling units**; and
  - (ii) in addition to the number of three-bedroom **dwelling units** required in (i) above, a minimum of fifteen percent of the total number of **dwelling units** must contain two bedrooms or more.
- (Q) A **building** or **structure** not constructed, used or enlarged in compliance with Regulations (B) to (P) above, must comply with Regulation 900.11.10(339).

(780) Exception CR 780

The lands, or a portion thereof as noted below, are subject to the following Site Specific Provisions, Prevailing By-laws and Prevailing Sections:

Site Specific Provisions:

- (A) On 28 River Street and 550 Queen Street East, if the requirements of Section 11 and Schedule A of By-law 98-2023(OLT) are complied with, a **building or structure** may be constructed, used or enlarged in compliance with Regulations (B) to (Y) below;
- (B) Despite Regulations 40.5.40.10(1) and (2), the height of a **building or structure** is the distance between the Canadian Geodetic Datum of 81.5 metres and the elevation of the highest point of the **building or structure**;
- (C) Despite Regulation 40.10.40.10(2), the permitted maximum height of a **building or structure** is the number in metres following the letters "HT" as shown on Diagram 6 of By-law 98-2023(OLT);
- (D) Despite Regulations 40.5.40.10(3) to (8), 40.5.75.1(2) and (C) above, the following equipment and **structures** may project beyond the permitted maximum height shown on Diagram 6 of By-law 98-2023(OLT):
  - (i) equipment used for the functional operation of the **building** including electrical, utility, mechanical and ventilation equipment, enclosed stairwells, roof access, maintenance equipment storage, elevator shafts, chimneys, stacks, intakes and exhaust flues, vents, lightning rods, and photovoltaic solar energy devices, by a maximum of 6.5 metres;
  - (ii) **structures** that enclose, screen or cover the equipment, **structures** and parts of a **building** listed in (D)(i) above, inclusive of a mechanical penthouse, by a maximum of 6.5 metres;
  - (iii) lighting fixtures, architectural features, parapets, and elements and structures associated with a **green roof**, by a maximum of 3.0 metres;
  - (iv) **building** maintenance units and window washing equipment, by a maximum of 3.0 metres;
  - (v) planters, **landscaping** features, guard rails, and divider screens on a balcony and/or terrace, by a maximum of 3.0 metres;
  - (vi) trellises, pergolas, and **structures** providing safety or wind protection, by a maximum of 3.0 metres; and
  - (vii) access ramps, retaining walls, underground garage ramps and their associated **structures**, and stair landings, by a maximum of 3.0 metres;
- (E) Regulation 40.10.40.1(1), with respect to the location of residential and non residential uses in a **mixed use building**, does not apply;
- (F) Permitted non-residential uses must:
  - (i) be located below a height of 15.0 metres; and
  - (ii) have a pedestrian entrance from Queen Street East or River Street;
- (G) Regulation 40.10.40.1(2), regarding the floor level of the portion of a first **storey** that accommodates a non-residential use, does not apply;
- (H) Regulation 40.10.40.10(5), regarding a required minimum floor to ceiling height of the first **storey**, does not apply;
- (I) Regulation 40.10.40.1(3), with respect to residential use orientation to a **street**, does not apply;
- (J) Despite Regulation 40.10.40.40(1), the permitted maximum **gross floor area** of all **buildings and structures** on the **lot** is 31,300 square metres, of which:
  - (i) the permitted maximum **gross floor area** for residential uses is 28,500 square metres;
  - (ii) the permitted maximum **gross floor area** for non-residential uses is 3,000 square metres; and
  - (iii) the required minimum **gross floor area** for office uses is 1,400 square metres;
- (K) In addition to the elements which reduce **gross floor area** listed in Regulations 40.5.40.40(3), the **gross floor area** of a **mixed use building** is also reduced by the area in the **building** used for:
  - (i) bicycle parking provided at and above ground level;

- (ii) storage rooms and areas, waste collection and recycling areas, electrical, utility, mechanical, and ventilation rooms and areas, provided below, at or above ground level;
  - (iii) ventilation ducts, utility shafts, and vehicular ramps;
  - (iv) all indoor **amenity space**; and
  - (v) the area of a void in a floor if there is a vertical clearance of more than 2.95 metres between the top of the floor below the void and the ceiling directly above it;
- (L) Of the total number of **dwelling units** provided:
- (i) a minimum of 15 percent of the total number of **dwelling units** must have two or more bedrooms;
  - (ii) a minimum of 10 percent of the total number of **dwelling units** must have three or more bedrooms;
  - (iii) any **dwelling units** provided to satisfy (L)(ii) above are not included in the percentage required by (L)(i) above;
  - (iv) an additional 15 percent of the total number of **dwelling units** must have two or three bedrooms, or must be **dwelling units** that can be converted into two- and three-bedroom **dwelling units** through the use of accessible or adaptable design measures (such as knock-out panels); and
  - (v) if the calculation of the number of required **dwelling units** with two or three bedrooms results in a number with a fraction that is 0.5% or more, the number shall be rounded up to the nearest whole number;
- (M) Despite Regulations 40.10.40.70(2), 40.10.40.80(2) and Article 600.10.10, the required minimum **building setbacks** and separation of **main walls** are as shown in metres on Diagram 6 of By-law 98-2023(OLT) and no **angular planes** are applicable;
- (N) Despite Clause 40.10.40.60 and Regulation 5.10.40.70(1) and (M) above, the following elements may encroach into the required minimum **building setbacks** and **main wall** separation distances as follows:
- (i) decks, porches, and balconies, and any associated guards, dividers or railings:
    - (a) located above the sixth **storey** of the portion of the **building** labelled as "HT 66.5" on Diagram 6, facing a **lot line** abutting Queen Street East or River Street, by a maximum of 1.5 metres; and
    - (b) on each **storey** on the **main wall** facing a **lot line** abutting Queen Street East or River Street, balconies provided in accordance with (N)(i)(a) above must not exceed a length greater than 30% of the total length of the **main wall** facing **lot line** abutting Queen Street East or River Street, respectively; and
    - (c) in all other cases, by a maximum of 2.5 metres;
  - (ii) canopies and awnings, by a maximum of 3.0 metres;
  - (iii) exterior stairs, access ramps and elevating devices, by a maximum of 1.0 metres;
  - (iv) cladding added to the exterior surface of the **main wall** of a **building**, by a maximum of 1.0 metres;
  - (v) architectural features, such as a pilaster, decorative column, cornice, sill, belt course, or chimney breast, by a maximum of 1.0 metres;
  - (vi) window projections, including bay windows and box windows, by a maximum of 1.0 metres;
  - (vii) air conditioners, satellite dishes, antennae, vents, pipes, wall mounted equipment, or light fixtures, by a maximum of 1.0 metres; and
  - (viii) despite (N)(i) to (vii) above, elements such as planters, seating areas, light fixtures, decorative screens, privacy screens, art and landscape features, patios, decks, railings, fences, retaining walls, bollards, safety or wind protection mitigation, air shafts, access ramps, and vehicular parking ramps, by a maximum of 3.0 metres provided they are located at the first **storey**;
- (O) Clause 40.10.50.10, with respect to **landscaping** abutting a **lot** in a Residential Zone, does not apply;
- (P) Despite Regulation 200.5.10.1(1) and Table 200.5.10.1, **parking spaces** must be provided in accordance with the following:

- (Q) Despite Regulation 200.5.10.1(1) and (P) above, "car share parking spaces" may replace **parking spaces** otherwise required for residential occupants, subject to the following:
- (R) For the purposes of By-law 98-2023(OLT), "car-share" means the practice where a number of people share the use of one or more motor **vehicles** that are owned by a profit or non-profit car-sharing organization and where such organization may require that use of **vehicles** to be reserved in advance, charge fees based on time and/or kilometres driven, and set membership requirements of the car-sharing organization, including the payment of a membership fee that may or may not be refundable;
- (S) For the purposes of By-law 98-2023(OLT), "car-share parking space" means a vehicular **parking space** that is reserved and signed for "car-share" purposes;
- (T) Despite Clause 200.15.1, accessible **parking spaces** must be provided in accordance with the following:
- (i) a minimum length of 5.6 metres;
  - (ii) a minimum width of 3.4 metres;
  - (iii) a minimum vertical clearance of 2.1 metres;
  - (iv) the entire length of an accessible **parking space** must be adjacent to a 1.5 metre accessible barrier free aisle or path on one side of the accessible **parking space**; and
  - (v) the accessible **parking spaces** must be located within 30 metres of a barrier free:
    - (a) entrance to a **building**; or
    - (b) passenger elevator that provides access to the first **storey** of the **building**;
- (U) Despite Clauses 40.10.90.1 and 220.5.10.1, **loading spaces** must be provided on the **lot** for residential and non-residential uses as follows:
- (i) one (1) Type "B" **loading space**; and
  - (ii) one (1) Type "G" **loading space**;
- (V) Despite Regulations 230.5.1.10(4)(A)(i) and (ii) and (C), and 230.5.1.10(5)(A), a **stacked bicycle parking space** must be provided in accordance with the following dimensions:
- (i) a minimum length of 1.6 metres;
  - (ii) a minimum width of 0.45 metres; and
  - (iii) a minimum vertical height of 1.1 metres;
- (W) In addition to Regulations 230.5.1.10(6) and 230.5.1.10(10), a "short-term" **bicycle parking space** may be located in a **building** and may be located in a **stacked bicycle parking space**;
- (X) Despite Regulation 150.5.20.1(6), a **home occupation** may have an employee working in the **dwelling unit** who is not the business operator; and
- (Y) Regulation 150.100.30.1(1), with respect to a fence abutting a **lot** in a Residential Zone, does not apply.

Prevailing By-laws and Prevailing Sections: (None Apply)  
[ By-law: 98-2023(OLT) ]

(781) Exception CR 781

The lands, or a portion thereof as noted below, are subject to the following Site Specific Provisions, Prevailing By-laws and Prevailing Sections:

Site Specific Provisions:

- (A) On the lands known municipally as part of 3100-3200 Bloor Street West and 4-8 Montgomery Road, shown as Part A and Part B on Diagram 1, if the requirements of Sections 13, 14 and Schedule A of By-law 1187-2022(OLT) are complied with, a **building** or **structure** may be constructed, used or enlarged in compliance with Regulations (B) to (Z) below;
- (B) For the purpose of this exception, the **lot** is comprised of the lands shown as Part A and Part B on Diagram 1 of By-law 1187-2022(OLT);
- (C) Despite Regulation 40.10.40.40(1), the permitted maximum **gross floor area** of all **buildings** and **structures** on the **lot** is 38,140 square metres, of which:
- (i) the permitted maximum **gross floor area** for residential uses is 37,700 square metres; and

- (ii) the required minimum **gross floor area** for non-residential uses is 440 square metres;
- (D) The permitted maximum "floor plate area" of each **storey** of a "tower" is 825 square metres, and for the purpose of this exception:
  - (i) "floor plate area" means the total built area within a "tower", measured from the exterior of the **main walls** on each **storey**, excluding balconies; and
  - (ii) despite Regulation 40.5.40.10(8)(C), "tower" means the portion of a **building** with a height equal to or greater than 36.0 metres;
- (E) In addition to the elements which reduce **gross floor area** in a **mixed use building** listed in Regulation 40.5.40.40(3), **gross floor area** is also reduced by the area in a **building** used for:
  - (i) all bicycle parking provided at and above ground level;
  - (ii) storage rooms and areas, waste collection and recycling areas, electrical, utility, mechanical, and ventilation rooms and areas, provided below, at or above ground level;
  - (iii) ventilation ducts, utility shafts, and vehicular ramps;
  - (iv) all indoor **amenity space**;
  - (v) the area of a void in a floor if there is a vertical clearance of more than 2.95 metres between the top of the floor below the void and the ceiling directly above it; and
  - (vi) all inset balconies;
- (F) Despite Regulation 40.10.30.40(1), the permitted maximum **lot coverage**, as a percentage of the **lot area** is 75 percent;
- (G) Regulations 40.10.40.1(1) and (3), with respect to the location of residential and non-residential uses in a **mixed use building** and with respect to residential use orientation to a **street** and requirements for direct access to a **street**, do not apply;
- (H) A minimum of 50 percent of the length of the first **storey** of the exterior **building main wall** along Bloor Street West, commencing from the eastern-most point of the **main wall**, must be used for non-residential uses as listed in Regulations 40.10.20.10(1)(A) and 40.10.20.20(1)(A). For the purpose of this Regulation, the extent of the **main wall** along Bloor Street West is as shown on Diagram 6;
- (I) Despite Regulation 40.10.40.1(2), the floor level of the portion of a first **storey** that accommodates a non-residential use must be within 0.2 metres of the ground measured at 1.0 metres outside of each pedestrian entrance to such non-residential use
- (J) Regulation 40.10.40.10(5), regarding the required minimum height of the first **storey** of non-residential uses, measured between the floor of the first **storey** and floor of the second **storey**, is 4.5 metres. The required minimum height of the first **storey** does not apply to residential uses;
- (K) For the purpose of this exception, Clause 150.100.30.1 does not apply;
- (L) Despite Regulations 40.5.40.10(1) and (2), the height of a **building** or **structure** is the distance between the Canadian Geodetic Datum elevation of 117.50 metres and the elevation of the highest point of the **building** or **structure**;
- (M) Despite Regulations 40.10.40.10(2) and (7), the permitted maximum height of a **building** or **structure** is the number in metres following the letters "HT" and the permitted maximum **storeys** of a **building** or **structure** is the number following the letters "ST" as shown on Diagram 6 of By-law 1187-2022(OLT) provided that for the purpose of this exception a mezzanine and a mechanical penthouse is not a **storey**;
- (N) Despite Regulations 40.5.40.10(3) to (8), 40.5.75.1(2) and (M) above, the following **building** elements, equipment and **structures** may project beyond the permitted maximum heights shown on Diagram 6 of By-law 1187-2022(OLT), and if located on a rooftop such **building** elements, equipment and **structures** are not subject to area, coverage, horizontal dimension or locational restrictions:
  - (i) equipment used for the functional operation of the **building** including electrical, utility, mechanical and ventilation equipment, enclosed stairwells, roof access, maintenance equipment storage, elevator shafts, chimneys, and vents, by a maximum of 6.5 metres;
  - (ii) structures that enclose, screen or cover the equipment, **structures** and parts of a **building** listed in (i) above, inclusive of a mechanical penthouse, by a maximum of 6.5 metres;
  - (iii) architectural feature at the southwest corner of the "tower", by a maximum height of 6.5 metres;

- (iv) architectural features, parapets, and elements and **structures** associated with a **green roof**, by a maximum of 2.0 metres;
  - (v) **building** maintenance units and window washing equipment, by a maximum of 3.5 metres;
  - (vi) planters, **landscaping** features, guard rails, and divider screens on a balcony and/or terrace, by a maximum of 3.0 metres;
  - (vii) trellises, pergolas, and unenclosed **structures** providing safety or wind protection to rooftop **amenity space**, and mitigation **structures** and features by a maximum of 4.0 metres;
  - (viii) **building** elements and **structures** such as railings, balustrades, eaves, roof drainage, balcony and terrace guards, fences, skylights, cornices, seating areas, decorative screens, privacy screens, access ramps, and ramps to underground, by a maximum of 3.0 metres;
  - (ix) **building** elements, **structures** and equipment used for outdoor **amenity space** or open-air recreation including pools and associated equipment, light monitors, light fixtures, by a maximum of 4.0 metres;
  - (x) **building** elements and **structures** such as canopies, awnings, and related architectural elements by a maximum of 6.0 metres;
  - (xi) heating/cooling, and **building** elements and devices, maintenance equipment storage, public art, by a maximum of 6.5 metres; and
  - (xii) elevator overruns, lightning rods, stacks, flues, air intakes, antennas, satellite dishes, cellular arrays, flagpoles, solar panels and related equipment, by a maximum of 7.0 metres;
- (O) Despite Clause 40.10.40.80 and Regulations 40.10.40.70(2) and (4), the required minimum **building setbacks**, including any portion of a **building** with **dwelling units** located in the first **storey** of a **building**, are as shown in metres on Diagram 6 of By-law 1187-2022(OLT) and no **angular planes** or minimum distance between the **main walls** requirements apply;
- (P) Despite Clause 40.10.40.60, Regulation 5.10.40.70(1) and (O) above, the following elements may encroach into the required minimum **building setbacks** and **main wall** separation distances shown on Diagram 6 of By-law 1187-2022(OLT) as follows:
- (i) decks, porches, patios and balconies, by a maximum of 2.0 metres;
  - (ii) despite (i) above, patios associated with **dwelling units** not facing a **street**, by a maximum of 3.0 metres;
  - (iii) canopies and awnings, guardrails, balustrades, railings, and light fixtures by a maximum of 3.0 metres;
  - (iv) exterior stairs, access ramps and elevating devices;
  - (v) architectural features, such as a pilaster, decorative column, cornice, sill, belt course, or chimney breast, by a maximum of 0.6 metres;
  - (vi) window projections, including bay windows and box windows, by a maximum of 1.0 metre;
  - (vii) eaves, by a maximum of 0.6 metre;
  - (viii) air conditioners, satellite dishes, antennae, vents, and pipes, lightning rods and flag poles, by a maximum of 1.0 metre;
  - (ix) pergolas and cabanas, by a maximum of 3.0 metres, and 0.0 metres when facing the **lot line** abutting Montgomery Road and Bloor Street West;
  - (x) **landscaping**, planters, public art, **structures** and equipment used for outdoor **amenity space** or open air recreation, patios, air vents, air shafts/intakes, site mechanical and servicing features, elements required for the functional operation of a **building**, fences, screens, safety and wind mitigation elements, and window washing equipment, including a Building Maintenance Unit and crane; and
  - (xi) **building** elements and **structures** such as parapets, trellises, pillars, and damper equipment to reduce **building** movement, by a maximum of 2.5 metres;
- (Q) Despite Regulations 40.5.40.60(1) and 40.10.40.60(2) and (P)(iii) above, a canopy, awning or similar **structure**, with or without structural support, may encroach by a maximum of 3.0 metres into a required minimum **building setback** that abuts a **street**, if no part of the canopy, awning or similar **structure** is located more than 8.0 metres above the elevation of the ground directly below it;
- (R) Despite Regulation 5.10.40.70(2):

- (i) **buildings or structures** below ground must be setback a minimum of 3.0 metres from a **lot line** abutting an ON zone; and
  - (ii) **buildings or structures** below ground must be setback a minimum of 3.0 metres from the **lot line** abutting the "TTC Bloor Line" as shown on Diagram 1 of By-law 1187-2022(OLT);
- (S) Of the total number of **dwelling units** provided on the **lot**:
  - (i) a minimum of 10 percent of the total **dwelling units** must be 3-bedroom units or greater; and
  - (ii) a minimum of 15 percent of the total **dwelling units** must be 2-bedrooms units;
- (T) Clause 40.10.50.10 regarding **landscaping** does not apply;
- (U) Despite Regulations 200.5.10.1(1) and Table 200.5.10.1, **parking spaces** must be provided in accordance with the following:
  - (i) a minimum of 1.05 residential occupant **parking spaces** for each **dwelling unit**;
  - (ii) a minimum of 0.15 residential visitor **parking spaces** for each **dwelling unit**; and
  - (iii) a minimum of 1.0 **parking space** for each 100 square metres of non-residential **gross floor area**;
- (V) Despite Regulations 200.5.1.10(2)(A) and (D), equipment for the charging of one electric **vehicle** is permitted within a **parking space**, subject to the equipment being located in the same **parking space** as the **vehicle** to be charged and:
  - (i) being within 0.25 metres of two adjoining sides of the **parking space** which are not adjacent and parallel to a **drive aisle** from which **vehicle** access is provided, measured at right angles; or
  - (ii) being at least 5.35 metres from a **drive aisle** from which **vehicle** access is provided, measured at right angles, and at least 1.0 metre from the ground;
- (W) Despite Regulation 200.5.10.1(1) and (U)(i) above, "car-share parking spaces" may be provided and for each "car-share parking space" provided the number of required **parking spaces** for residential occupants may be reduced by four (4) **parking spaces**, exclusive of required accessible **parking spaces**, where for the purpose of this exception:
  - (i) "car-share" means the practice whereby a number of people share the use of one or more motor **vehicles** and such car-share motor **vehicles** are made available to at least the occupants of the building for short term rental, including hourly rental; and
  - (ii) a "car-share parking space" means a **parking space** exclusively used for "car-share" purposes;
- (X) Despite Regulations 200.15.1(1), (3) and (4) and 200.15.10(1) and (2), four **parking spaces** required pursuant to (U)(i) and (ii) above, must comply with all regulations below for an accessible **parking space**:
  - (i) minimum length of 5.6 metres;
  - (ii) minimum width of 3.4 metres;
  - (iii) minimum vertical clearance of 2.1 metres;
  - (iv) the entire length of one side of an accessible **parking space** must be adjacent to a 1.5 metre wide accessible barrier free aisle or path; and
  - (v) an accessible **parking space** is not required to be the closest **parking space** to a barrier free entrance and/or main pedestrian access to a **building** or to a passenger elevator, or be the shortest route from such entrance or elevator, or be at the same level as the pedestrian entrance to the **building**;
- (Y) Despite Clauses 40.10.90.1 and 220.5.10.1, a minimum of one Type 'G' **loading space** must be provided and maintained on the **lot**;
- (Z) Despite Regulations 230.5.1.10(4)(A)(i) and (ii), 230.5.1.10(5)(A) and 230.5.1.10(4)(C), a **stacked bicycle parking space** must have the following minimum dimensions:
  - (i) length of 1.6 metres;
  - (ii) width of 0.3 metres; and

- (iii) vertical clearance of 1.1 metres;

(782) Exception CR 782

The lands, or a portion thereof as noted below, are subject to the following Site Specific Provisions, Prevailing By-laws and Prevailing Sections:

Site Specific Provisions:

- (A) On 301-317 Queen Street East, if the requirements in Section 6 and 7 and Schedule A of By-law 1150-2022(OLT) are complied with, a **building** or **structure** may be constructed, used or enlarged in compliance with regulations (B) to (G) below;
- (B) Despite Regulations 40.5.40.10(1) and (2), the height of any **building** or **structure** is the distance between the Canadian geodetic Datum elevation of 84.71 metres and the elevation of the highest point of the **building** or **structure**;
- (C) Despite Regulations 40.10.40.10(3) and (7), the permitted maximum height of a **building** and **structure** is the number in metres following the letters "HT" and the permitted maximum **storeys** is the number following the letters "ST" in Diagram 3 of By-law 1150-2022(OLT); and
  - (i) for the purpose of this exception, a mechanical penthouse is not a **storey**;
- (D) Despite Regulation 40.10.40.40(1), the permitted maximum **gross floor area** on the **lot** is 12,200 square metres, of which:
  - (i) The permitted maximum **gross floor area** for residential uses is 10,600 square metres; and
  - (ii) The required minimum **gross floor area** for non-residential uses is 900 square metres;
  - (iii) The required minimum **gross floor area** of non-residential uses in the portion of the **building** labelled "existing heritage church" as shown on Diagram 3 of By-law 1150-2022(OLT) is 700 square metres;
- (E) Despite Regulations 40.5.40.60 (2)(B) and 40.10.40.60 (2)(B), 3(A), and 5(A), the following elements of a **building** or **structure** are permitted to encroach into the required minimum **building setbacks** as follows:
  - (i) Architectural features, balustrades, cornices, eaves, landscape features, light fixtures, ornamental elements, ventilation shafts, and window sills to a maximum 0.9 metres.
  - (ii) Stairs, stair enclosures, and wheel chair ramps, to a maximum of 1.8 metres;
- (F) Despite Regulations 40.5.40.10(5) functional elements, **structure** or parts of a **building** may cover more than 30 percent of the area of the roof measured horizontally;
- (G) Despite Regulation 200.5.10.1(1) and Table 200.5.10.1, **parking spaces** must be provided on the **lot** in accordance with the following:
  - (i) 42 **parking spaces** on a non-exclusive basis for both residential and non-residential uses.

(783) Exception CR 783

The lands, or a portion thereof as noted below, are subject to the following Site-Specific Provisions, Prevailing By-laws and Prevailing Sections.

Site Specific Provisions:

- (A) On 128-132 Gorman Park Road and 795-799 Sheppard Avenue West, as shown on Diagram 1 of By-law 393-2023(OLT), if the requirements of Section 8 and Schedule A of By-law 393-2023(OLT) are complied with, a **building** or **structure** may be constructed, used or enlarged in compliance with (B) to (O) below;
- (B) For the purpose of this exception, the **lot** is as shown on Diagram 1 of By-law 393-2023(OLT);
- (C) Despite Regulation 40.10.40.70(2) and Clause 40.10.40.80, the required minimum **building setbacks** and separation of **main walls** are as shown in metres on Diagram 3 of By-law 393-2023(OLT);
- (D) Despite Clause 40.10.40.60 and (C) above, the following elements may encroach into the required minimum **building setbacks** and separation distances as follows:

- (i) Cornices, lighting fixtures, window washing equipment, awnings, canopies, finials, parapets, terraces, terrace guards, platforms, ornamental or architectural elements, trellises, eaves, window sills, bay windows, canopies, guardrails, balustrades, railings, wind mitigation screens and features, planters, monuments, arbours, patios, decorative features, stairs, stair enclosures, stair landings, supportive columns, wheel chair ramps, vents, stacks, wind screens and features, acoustic screens and features, underground garage ramps and their associated **structures**, underground garage stair enclosures, retaining walls, fences, screens, weather protection canopies, and landscape and public art features, to a maximum of 3.0 metres; and
  - (ii) balconies to a maximum of 2.5 metres;
- (E) Despite Regulation 40.10.40.10(2) the permitted maximum height of a **building** or **structure** is the height in metres specified by the numbers following the symbol HT on Diagram 3 of this By-law 393-2023(OLT);
- (F) Despite Regulations 40.5.40.10(3) to (8) and (E) above, the following equipment and **structures** may project above the permitted maximum height of the **building**:
  - (i) A parapet, roof drainage, thermal insulation or roof ballast, located at each of the roof levels of the **building**, provided the maximum vertical distance of any such **structure** does not exceed 1.8 metres;
  - (ii) Safety railings and fences at each of the roof levels of the **building**, provided the maximum vertical dimension of any such **structure** does not exceed 1.8 metres, which are permitted to have a maximum combined vertical dimension with (i) above of 2.75 metres above the height of each roof level of the **building**;
  - (iii) **Structures** on the roof of any part of the **building** used for outside or open air recreation, **green roof** elements, wind mitigation elements, landscape features, architectural elements, elevator overruns, public art features, mechanical equipment, telecommunications equipment and antennae, window washing equipment, stair towers, partitions dividing outdoor recreation areas, trellises or a fence, planters, landscape features, walls or **structures** enclosing such elements, lightning rods and exhaust flues, swimming pools (elevated or otherwise), **structures** housing pool or spa maintenance or operational equipment, provided the maximum vertical distance of such does not exceed 4.0 metres;
- (G) Despite regulation 40.5.40.10(1) and (2) the height of the **building** or **structure** is the distance between Canadian Geodetic Datum elevation of 191.00 metres and the elevation of the highest point of the **building** or **structure**;
- (H) Despite regulation 40.10.40.40(1) the permitted maximum **gross floor area** on the **lot** is 16,000 square metres;
- (I) A maximum of 170 **dwelling units** are permitted on the **lot** of which a minimum of 20 percent of the **dwelling units** must provide a minimum **interior floor area** of 75 square metres;
- (J) Despite regulations 40.10.40.50(1)(A) and (B) a minimum of 250 square metres of indoor **amenity space** and 250 square metres of outdoor **amenity space** must be provided on the **lot**;
- (K) Despite clause 220.5.10.1, one Type "G" **loading space** must be provided on the **lot**;
- (L) Despite Regulation 200.5.10.1(1) and Table 200.5.10.1, **parking spaces** must be provided in accordance with the following:
  - (i) A minimum of 0.8 residential occupant **parking spaces** for each **dwelling unit**;
  - (ii) A minimum of 0.03 residential visitor **parking spaces** for each **dwelling unit**;
  - (iii) A minimum of 4 **parking spaces** for non-residential uses; and
  - (iv) for each "car-share parking space" provided, the required minimum number of **parking spaces** required by (i) above shall be reduced by 4 **parking spaces**; and
  - (v) for the purpose of this exception, "car-share" means the practice whereby a number of people share the use of one or more motor **vehicles** and such "car-share" motor **vehicles** are made available to at least the occupants of the **building** for short-term rental, including hourly rental; and
  - (vi) for the purpose of this exception, "car-share parking space" means a **parking space** exclusively reserved and signed for "car-share" purposes;
- (M) Despite regulation 200.5.1.10(2), 10 **parking spaces** may have a minimum width of 2.4 metres, a minimum length of 5.4 metres, and a minimum height of 1.7 metres with or without obstructions;

- (N) Despite regulations 30.5.1.10(9) and 230.40.1.20(1), **bicycle parking spaces** may be provided, within or outside of a parking stacker - bicycle, and maintained on the **lot**;
- (O) Despite regulation 230.5.1.10(4) the required minimum dimensions of a **stacked bicycle parking space** is a length of 1.5 metres, a width of 0.5 metres, and a vertical clearance of 1.2 metres;

(785) Exception CR 785

The lands, or a portion thereof as noted below, are subject to the following Site Specific Provisions, Prevailing By-laws and Prevailing Sections. Site Specific Provisions.

Site Specific Provisions:

- (A) On 50, 60 and 90 Eglinton Avenue West and 17 and 19 Henning Avenue, if the requirements of By-law 1263-2022(OLT) are complied with, a **building** or **structure** may be constructed, used or enlarged in compliance with Regulations (B) to (CC) below;
- (B) Despite Regulations 40.5.40.10(1) and (2), the height of a **building** or **structure** is the distance between the Canadian Geodetic Datum of 162.0 metres and the elevation of the highest point of the **building** or **structure**;
- (C) In addition to the elements which reduce **gross floor area** for a **mixed use building** listed in Regulation 40.5.40.40(3), the following items also reduce **gross floor area**:
  - (i) areas used for **public parking**;
  - (ii) all areas used for required and surplus **bicycle parking spaces**;
  - (iii) storage rooms, washrooms, electrical, utility, mechanical and ventilation rooms, and locker rooms on a mezzanine level located immediately above the **first floor**;
  - (iv) residential uses located on the second floor of a **dwelling unit** located on the **first floor**; and
  - (v) surplus indoor **amenity space**;
- (D) **Public parking** is permitted, provided it complies with Regulations 40.10.20.100(7), (8), (9), (10) and (11);
- (E) Regulation 40.10.40.1(2), with regard to the location of commercial uses in a **mixed use building**, does not apply;
- (F) Despite Regulation 40.10.40.10(1) the permitted maximum height of a **building** or **structure** is the numerical value, in metres, following the letters 'HT' on Diagram 4 of By-law 1263-2022(OLT);
- (G) Despite Regulations 40.5.40.10(4), (5), (6), (7) and (8) and (F) above, the following equipment and **structures** may project beyond the permitted maximum height shown on Diagram 4 of By-law 1263-2022(OLT):
  - (i) equipment used for the functional operation of the **building** including electrical, utility, elevator overruns, mechanical and ventilation equipment, mechanical penthouse, enclosed stairwells, roof access, stair overruns, maintenance equipment storage, elevator shafts, chimneys, and vents, and **structures** and parts of a **building** that enclose, screen or cover this equipment, by a maximum of 6.5 metres;
  - (ii) guard rails, railings and safety railings, fences, parapet, roof drainage, thermal insulation or roof ballast, and roof construction assembly elements, by a maximum of 2.75 metres;
  - (iii) **structures** on the roof of any part of the **building** used for outside or open air recreation, **green roof** elements, wind mitigation elements, landscape features, architectural elements, public art features, telecommunications equipment and antennae, window washing equipment, life safety equipment, partitions dividing outdoor recreation areas, trellises, planters, landscape features, lightning rods, exhaust flues, swimming pools (elevated or otherwise), **structures** housing pool or spa maintenance or operational equipment, to a maximum of 4.0 metres;
- (H) For the purpose of this exception, mechanical penthouses do not constitute a **storey**;
- (I) Despite Regulation 40.10.40.40(1), the permitted maximum **gross floor area** of all **buildings** and **structures** on the **lot** is 54,000 square metres, of which:
  - (i) Despite Regulation 40.10.40.40(1), the permitted maximum **gross floor area** of all **buildings** and **structures** on the **lot** is 54,000 square metres, of which:

- (ii) the required minimum **gross floor area** for non-residential uses on the ground floor of the **building** is 1,000 square metres;
- (J) A minimum of 3,809 square metres of **interior floor area** for an office use must be provided in the **building**;
- (K) For the purposes of (J), an office use does not include an **education use**;
- (L) Despite Regulation 40.10.40.50(1)(A) and (B) **amenity space** shall be provided on the **lot** in accordance with the following:
  - (i) a minimum of 1,100 square metres of outdoor **amenity space**; and
  - (ii) a minimum of 1,400 square metres of indoor **amenity space**;
- (M) For the purpose of this exception, **amenity space** may also include guest suites;
- (N) Despite Regulation 40.10.40.70(2) and Clause 40.10.40.80, the required minimum **building setbacks** and separation of **main walls** are as shown in metres on Diagram 4 of By-law 1263-2022(OLT);
- (O) Despite Regulations 40.5.40.60(1), Clause 40.10.40.60 and (N) above, the following elements may encroach into the required minimum **building setbacks** and **main wall** separation distances as follows:
  - (i) balconies, balcony platforms, and railings and guardrails associated with balconies, to a maximum of 2.0 metres;
  - (ii) cornices, lighting fixtures, awnings, canopies, parapets, ornamental or architectural elements, architectural features, architectural fins, eaves, balustrades, wind mitigation screens and features, public art, arbours, patios, decorative features, stair landings, supportive columns, vents, stacks, wind screens and features, acoustic screens and features, window sills, and bay windows to a maximum of 3.0 metres;
  - (iii) wheel chair ramps, underground garage ramps and their associated **structures**, underground garage stair enclosures, retaining walls, stairs, stair enclosures, window washing equipment; and
  - (iv) terraces and terrace platforms, guards and guardrails, railings, parapets, privacy and wind screens and landscape planters, to a maximum extent of the **main wall** of the **storey** below;
  - (v) Despite (O)(i) to (iv) above, balconies are not permitted on the west face of the east tower labelled "HT 120.0" on Diagram 4 of By-law 1263-2022(OLT) and on the east face of the west tower labelled "HT 113.0" on Diagram 4 of By-law 1263-2022(OLT) above the Canadian Geodetic Elevation of 185.08 metres;
- (P) Despite Regulation 200.5.10.1(1) and Table 200.5.10.1, **parking spaces** must be provided in accordance with the following:
  - (i) a minimum of 0.3 **parking spaces** for each bachelor **dwelling unit**, one-bedroom **dwelling unit** or two-bedroom **dwelling unit**;
  - (ii) a minimum of 0.35 **parking spaces** for each three or more bedroom **dwelling unit**;
  - (iii) all **parking space** requirements for residential visitors and non-residential uses shall be satisfied by the provision of a **public parking** garage referred to in (iv) below; and
  - (iv) a minimum of 65 **parking spaces**, shall be provided on the **lot** within a **public parking** garage operated on a non-exclusive basis;
  - (v) a maximum of 5 "car-share parking spaces" may replace **parking spaces** otherwise required, subject to the following:
    - (a) a reduction of four (4) residential occupant **parking spaces** will be permitted for each car-share parking space provided;
    - (b) for the purpose of this exception, "car-share" means the practice whereby a number of people share the use of one or more motor **vehicles** and such car-share motor **vehicles** are made available to at least the occupants or the building for short-term rental, including hourly rental; and
    - (c) for the purpose of this exception, "car-share parking space" means a parking space exclusively reserved and signed for a car used only for "car-share" purposes;
- (Q) Despite Regulation 200.5.1.10(2), 15 **parking spaces** may have a minimum width of 2.4 metres, a minimum length of 5.4 metres, and a minimum height of 1.7 metres with or without obstructions;

- (R) Despite Regulations 200.15.1(1) to (4), accessible **parking spaces** must be provided in accordance with the following:
- (i) an accessible **parking space** must have the following minimum dimensions:
    - (a) a minimum width of 3.4 metres;
    - (b) a minimum length of 5.6 metres; and
    - (c) a minimum vertical clearance of 2.1 metres;
  - (ii) the entire length of an accessible **parking space** must be adjacent to a 1.5 metre wide accessible barrier free aisle or path as shown on Diagram 1 and Diagram 2 of By-law 579-2017; and
  - (iii) accessible **parking spaces** must be located within 30 metres of a barrier free entrance to the **building** or passenger elevator that provides access to the first **storey** of the **building**;
- (S) Despite Regulations 230.5.1.10(4)(A), (C) and (5), a **stacked bicycle parking space** may be provided and maintained on the **lot** in accordance with the following dimensions:
- (i) a minimum length of 1.6 metres;
  - (ii) a minimum width of 0.27 metres; and
  - (iii) a minimum vertical clearance of 1.0 metres;
- (T) Despite Regulations 230.5.1.10(6) and 230.40.1.20(1) and (2), both 'long term' and 'short term' **bicycle parking spaces** may be located in a secured room, enclosure or bicycle locker in a **building**;
- (U) Despite Regulation 230.5.1.10(7), no change or shower facilities are required on the lot;
- (V) In addition to the places 'long term' **bicycle parking spaces** may be located as per Regulations 230.5.1.10(9), 'long term' **bicycle parking spaces** may also be located on any level of a **building** below ground;
- (W) Despite Regulation 230.5.1.10(10), both a 'short term' and 'long term' **bicycle parking space** may be provided in a **stacked bicycle parking space**;
- (X) Despite Regulations 220.5.10.1(2), (3), (4), and (5), **loading spaces** must be provided and maintained on the **lot** in accordance with the following:
- (i) a minimum of one Type 'G' **loading space**;
  - (ii) a minimum of two Type 'C' **loading spaces**; and

- (i) No residential occupant **parking spaces** are required for a studio **dwelling unit**;
  - (ii) a minimum of 0.7 residential occupant **parking spaces** for each one bedroom **dwelling unit**;
  - (iii) a minimum of 1.0 residential occupant **parking spaces** for each two bedroom **dwelling unit**;
  - (iv) a minimum of 1.0 residential occupant **parking spaces** for each three bedroom and greater **dwelling unit**;
  - (v) a minimum of 0.20 residential visitor **parking spaces** for each **dwelling unit**; and
  - (vi) a minimum of 1.1 **parking spaces** for each 100 square metres of non-residential **gross floor area**;
- (S) Despite Regulation 200.5.10.1(1) and (R) above, "car-share parking spaces" may replace **parking spaces** otherwise required for residential occupants, subject to the following:
- (i) a reduction of four resident occupant **parking spaces** will be permitted for each "car-share parking space" provided to a maximum of two "car-share parking spaces";
  - (ii) for the purpose of this exception, "car-share" means the practice whereby a number of people share the use of one or more motor **vehicles** and such "car-share" motor **vehicles** are made available to at least the occupants of the **building** for short-term rental, including hourly rental; and
  - (iii) for the purpose of this exception, "car-share parking space" means a **parking space** exclusively reserved and signed for a **vehicle** used only for "car-share" purposes;
- (T) Despite Regulations 230.5.10.1(1), (3) and (5) and Table 230.5.10.1(1), **bicycle parking spaces** must be provided in accordance with the following minimum rates:
- (i) 0.68 "long-term" **bicycle parking spaces** for each **dwelling unit**;
  - (ii) 0.07 "short-term" **bicycle parking spaces** for each **dwelling unit**;
  - (iii) 0.13 "long term" **bicycle parking spaces** for each 100 square metres of **interior floor area** for all non-residential uses on the **lot**;
  - (iv) 3 plus 0.25 "short-term" **bicycle parking spaces** for each 100 square metres of **interior floor area** for all non-residential uses on the **lot**;
- (U) Despite Regulation 40.10.90.10(1), a **loading space** may extend beyond the rear **main wall** of a **building** and may be located in a **rear yard** that abuts a **lot** in a Residential Zone;
- (V) Despite Regulation 220.5.10.1(1), a minimum of one 'Type G' **loading space** must be provided.

(818) Exception CR 818

The lands, or a portion thereof as noted below, are subject to the following Site Specific Provisions, Prevailing By-laws and Prevailing Sections.

Site Specific Provisions:

- (A) Despite the uses listed in Article 40.10.20, the only uses permitted are: **dwelling unit** in a **building** type permitted by Clause 40.10.20.40, **day nursery**, **education use**, **financial institution**, **club**, **hotel**, office, medical office, **nursing home**, **personal service shop**, **entertainment place of assembly**, **private home daycare**, **recreation use**, **sports place of assembly**, **eating establishment**, **take-out eating establishment**, **retail store**, **retail service**, **retirement home**, **private school**, **public school**, **religious education use**, **place of worship**, municipally owned **public parking**, **transportation use**, ambulance depot, fire hall, police station, and **public utility**. [ By-law: 451-2022 ]
- (B) The following uses are not permitted:
- (i) **vehicle dealership**;
  - (ii) **vehicle fuel station**;
  - (iii) **vehicle washing establishment**; and

- (iv) **vehicle service shop**; and
- (C) The **gross floor area** on a **lot** is:
  - (i) a minimum of 1.0 times the area of the **lot**; and
  - (ii) a maximum of 3.5 times the area of the **lot**; and
- (D) A **dwelling unit** must be entirely located:
  - (i) on or above the second above grade **storey** of the **building**; or [ By-law: 420-2023 ]
  - (ii) at least 18.0 metres from a **lot line** that abuts Danforth Ave.; and
- (E) The minimum **building setback** from a **lot line** that abuts a **lot** in the Residential Zone category, or Institutional Zone category is 7.5 metres; [ By-law: 1353-2015 ] [ By-law: 420-2023 ]
- (F) The maximum **Building Height** is 23.0 metres;
- (G) The number of **storeys** is:
  - (i) a minimum of 2; and
  - (ii) a maximum of 7, excluding **basements** and mechanical penthouses. An additional **storey** if permitted if:
    - (a) it is used exclusively for mechanical penthouse purposes, that includes mechanical equipment for the **building** and elevator machine rooms; and
    - (b) the overall height is not greater than 4.5 metres; and
- (H) The minimum floor-to-ceiling height of the first **storey** at or above grade is 4.5 metres;
- (I) No **parking space** may be located in any yard abutting Danforth Ave.; [ By-law: 420-2023 ]
- (J) If a **lot** in the CR zone abuts a **lot** in the RD zone or RS zone or is separated from a **lot** in the RD zone or RS zone by a **lane**, no part of the **building** in the CR zone is to penetrate a 45 degree **angular plane** over the **lot** in the CR zone, projected from:
  - (i) the level of grade along the entire portion of the **side lot line** that abuts the **lot** in the RD or RS zone; and
  - (ii) the portion of the **lot line** that abuts the **lane** commencing at an elevation equal to the width of the **lane** right-of-way; and
- (K) If a **lot** abuts Danforth Ave.:
  - (i) a minimum of 70% of the frontage along Danforth Ave. must be occupied by the **main wall** of the first and second **storey** of a **building**, when the total length of the **lot lines** along Danforth Avenue are more than 30.0 metres; and [ By-law: 420-2023 ]
  - (ii) in all other cases, a minimum of 60% of the frontage along Danforth Ave. must be occupied by the **main wall** of the first and second **storey** of a **building**; and
- (L) The **building setback** from a **lot line** that abuts a **street** is:
  - (i) a maximum of 3.0 metres if the **lot line** abuts Danforth Ave.;
  - (ii) a minimum of zero metres if the **lot line** abuts Danforth Ave.; and
  - (iii) 1.5 metres from any other **street**; and
- (M) Despite (L)(i) if a **building** has more than 5 **storeys** above grade the **main wall** of the upper two most **storeys** must be set back from a **lot line** that abuts a **street** an additional 1.5 metres to the **main wall** setback existing below the fifth **storey**; [ By-law: 420-2023 ]
- (N) **Bicycle parking spaces** must be provided at a minimum rate of 0.5 **bicycle parking spaces** per **dwelling unit**; [ By-law: 420-2023 ]
- (O) Of the required **bicycle parking spaces** a minimum of 80% must be for occupant use, and 20% must be for visitor use.
- (P) If a **bicycle parking space** is located in a bicycle rack, the bicycle rack must be located in an enclosed and secure bicycle storage area;
- (Q) **Lot coverage** does not apply. [ By-law: 420-2023 ]

Prevailing By-laws and Prevailing Sections:

(A) On 278 Browns Line, former City of Etobicoke by-law 1979-175.

(821) Exception CR 821

The lands, or a portion thereof as noted below, are subject to the following Site Specific Provisions, Prevailing By-laws and Prevailing Sections

Site Specific Provisions:

- (A) On the lands municipally known in the year as 2022 as 2901 Bayview Avenue and 630 Sheppard Avenue East, if the requirements of Section 11 and Schedule A of By-law 1261-2022(OLT), are complied with, a **building or structure** may be constructed, used or enlarged in compliance with Regulations (B) to (CCC) below:
- (B) for the purpose of this exception, collectively "Parcel A", "Parcel B" and "Parcel C" as shown on Diagram 1 of By-law 1261-2022(OLT) are one **lot**;
- (C) Despite Regulations 40.5.40.10(1) and (2), the height of a **building or structure** on "Parcel A" as shown on Diagram 1 of By-law 1261-2022(OLT) is the distance between the Canadian Geodetic Datum of 179.40 metres, which for the purpose of "Parcel A" is the **established grade**, and the elevation of the highest point of the **building or structure**;
- (D) Despite Regulations 40.5.40.10(1) and (2), the height of a **building or structure** on the portion of the **lot** labelled as "Parking Garage" as shown on Diagrams 4 and 6 of By-law 1261-2022(OLT) is the distance between the Canadian Geodetic Datum of 174.17 metres and the elevation of the highest point of the **building or structure**;
- (E) Despite Regulations 40.5.40.10(1) and (2), the height of a **building or structure** on "Parcel C" as shown on Diagram 1 of By-law 1261-2022(OLT) is the distance between the Canadian Geodetic Datum of 174.50 metres, which for the purpose of "Parcel C" is the **established grade**, and the elevation of the highest point of the **building or structure**;
- (F) Regulations 40.10.20.100(7)(8)(9)(10) and (11) regarding **public parking**, do not apply;
- (G) Despite Clause 40.10.20.40, **dwelling units** are permitted in **mixed use buildings**;
- (H) Despite Clause 40.10.20.100;
  - (i) Conditions (1) and (33), and Regulation 150.100 do not apply to an **eating establishment** on the **lot**;
  - (ii) Condition (1) does not apply to a **place of assembly, take-out eating establishment, entertainment place of assembly or recreation use** on the **lot**;
  - (iii) Condition (5) does not apply to a **retail store**;
  - (iv) Condition (6) does not apply to a **service shop**;
  - (v) Condition (17) does not apply to a **retail service** use;
  - (vi) Condition (20) does not apply to the outdoor sale or display of goods or commodities;
  - (vii) Condition (21) does not apply to an **outdoor patio**;
  - (viii) Condition (25) and Section 150.96 do not apply to a **vehicle washing establishment**, provided such use, excluding any **stacking aisle(s)**, is located within a **building or structure**;
  - (ix) Condition (28) does not apply to a **private school**;

- (x) Condition (55) does not apply to a **transportation use** on the **lot**;
  - (xi) Conditions (13) and (38) do not apply to **vehicle fuel stations** operated as electric vehicle charging stations; and
  - (xii) Despite any Regulation in Section 150.90, the outdoor display of up to three **vehicles** is permitted in connection with a **vehicle dealership**, provided such **vehicles** are not displayed in a required **parking space**.
- (I) Despite Regulation 40.10.20.100(10) and (F) above, one **building** for parking attendants is permitted on each of "Parcel A", "Parcel B" and "Parcel C" as shown on Diagram 1 of By-law 1261-2022(OLT), subject to the requirements of (A), (B) and (C) set out in Regulation 40.10.20.100(10);
- (J) For the purpose of this exception, an **outdoor patio** may include an outdoor patron area that is a non-residential use or **ancillary** to a non-residential use;
- (K) Despite any Regulations of By-law 569-2013 to the contrary, the **buildings, structures** and uses existing on the **lot** as of the date of the Order of the Ontario Land Tribunal approving By-law 1261-2022(OLT), are permitted on the **lot**, subject to permitted additions and alterations in accordance with the provisions of this Exception;
- (L) Despite Regulation 40.10.40.10(2) the permitted maximum height of a **building** or **structure** is the number in metres following the letters "HT" as shown on Diagrams 4, 5 and 6 of By-law 1261-2022(OLT);
- (M) Despite Regulation 40.10.40.10(7), the permitted maximum number of **storeys** in a **building** is the number following the letters "ST" as shown on Diagrams 4, 5 and 6 of By-law 1261-2022(OLT); and
- (i) for the purpose of this exception, a mezzanine and mechanical penthouse does not constitute a **storey**.
- (N) Despite Regulations 40.5.40.10(3) to (8) and Regulation (L) and (M) above, the following equipment and **structures** may project beyond the permitted maximum height shown on Diagrams 4, 5 and 6 of By-law 1261-2022(OLT):
- (i) Bollards by a maximum of 1.5 metres above the finished ground surface;
  - (ii) Planters and elements of a **green roof** to a maximum of 2.0 metres;
  - (iii) **Structures** and elements for safety, noise and wind protection or mitigation, **structures** and elements for solar energy or geo-energy purposes, railings, vents chimneys, stacks and flues to a maximum of 2.5 metres;
  - (iv) Bicycle parking facilities including weather protection to a maximum of 3.0 metres above the finished ground surface;
  - (v) Parapets, privacy screens, terrace dividers and window washing equipment to a maximum of 3.0 metres;
  - (vi) Terraces, patios, landscape features, trellises, **structures** for outdoor residential **amenity space** or open air recreation, art installations and water features to a maximum of 4.0 metres;
  - (vii) Stairs, stair enclosure, roof access vestibules and elevator overruns, including associated enclosures and parapets to a maximum of 5.0 metres;
  - (viii) **Driveway** entrance structure, **driveway** light standards and catenary style lighting, including associated supports to a maximum of 6.5 metres above the finished ground surface; and
  - (ix) Light fixtures, guards, guardrails, retaining walls, underground garage ramps and associated to a maximum of 2.0 metres.
- (O) The portion of a **building** labelled "MPH" on Diagrams 4, 5 and 6 of By-law 1261-2022(OLT) and located above the permitted maximum **building** heights of 105.5 metres and 109.0 metres on "Parcel A" and above the permitted maximum **building** height limit of 23.5 metres and 67.0 metres on "Parcel C", as such Parcels are shown on Diagram 1 of By-law 1261-2022(OLT), must only be used for equipment and **structures** for the functional operation of a **building** including the elements described in Regulation 40.5.40.10(4)(A), (B) and (C), indoor **amenity space**, elevator lobby and roof top access vestibule;
- (P) The height of the Existing Buildings shown on Diagram 1 of By-law 1261-2022(OLT) as existing as of the date of the Order of the Ontario Land Tribunal approving By-law 1261-2022(OLT), are permitted, subject to the permitted projections in (N) above and additions, including roof top mechanical equipment and related screens and enclosures, no greater than 7.0 metres above the height of the Existing Buildings;

- (Q) Despite Regulation 40.10.40.40(1), the permitted maximum **gross floor area** of all **buildings** and **structures** on each of "Parcel A", "Parcel B" and "Parcel C" as shown on Diagram 1 of By-law 1261-2022(OLT) is as follows:
- (i) On "Parcel A":
    - (a) A maximum of 66,400.0 square metres of **gross floor area** is permitted, of which a maximum of 51,000.0 square metres of **gross floor area** is permitted for residential uses; and
    - (b) A maximum of 11,200.0 square metres of **gross floor area** is permitted for a **building** or **structure** used for the purpose of a **parking garage** located on that portion of the **lot** labeled as "Parking Garage" as shown on Diagrams 4 and 6 attached to By-law 1261-2022(OLT).
  - (ii) On "Parcel B", a maximum of 32,800 square metres of **gross floor area** is permitted for non-residential uses, of which 0.0 square metres of **gross floor area** is permitted for residential uses; and
  - (iii) On "Parcel C", a maximum of 40,000.0 square metres of **gross floor area** is permitted, of which a maximum of 31,000.0 square metres of **gross floor area** is permitted for residential uses.
- (R) In addition to the elements which reduce **gross floor area** listed in Clause 40.5.40.40, the following elements also reduce the **gross floor area** of a **building**:
- (i) areas occupied by or facilities providing access to a **transportation use** on "Parcel A" as shown on Diagram 1 of By-law 1261-2022(OLT), including interior walkways, corridors, hallways, stairs, stairwells, and escalators;
  - (ii) any **buildings** or **structures** operated in conjunction with any permitted outdoor sales or display or retail uses;
  - (iii) indoor **amenity space** and roof top vestibules;
  - (iv) interior walkways, corridors, **driveways**, **drive aisles** and vehicular access ramps; and
  - (v) the area of a **building** occupied by any non-structural architectural or ornamental features that are attached to and project from the **main wall** of a **building**.
- (S) Despite Regulations 40.10.40.50(1)(A) and (B), a **building** with 20 or more **dwelling units** must provide **amenity space** on the **lot** at the following rate:
- (i) On "Parcel A" as shown on Diagram 1 of By-law 1261-2022(OLT) a minimum of 3.0 square metres of **amenity space** per **dwelling unit** must be provided on the **lot**, of which:
    - (a) A minimum of 1.5 square metres per **dwelling unit** must be provided as indoor **amenity space**; and
    - (b) A minimum of 40.0 square metres of outdoor **amenity space** must be provided in a location that adjoins or is directly accessible from the indoor **amenity space**.
  - (ii) On "Parcel C", as shown on Diagram 1 of By-law 1261-2022(OLT), a minimum of 3.0 square metres of **amenity space** per **dwelling unit** must be provided on the **lot**, of which:
    - (a) A minimum 1.5 square metres per **dwelling unit** must be provided as indoor **amenity space**; and
    - (b) A minimum of 40.0 square metres of outdoor **amenity space** must be provided in a location that adjoins or is directly accessible from the indoor **amenity space**.
- (T) Despite Regulation 40.10.40.70(2), the required minimum **building setbacks** above the finished ground surface are as shown in metres on Diagrams 4, 5, and 6 of By-law 1261-2022(OLT);
- (U) Despite Regulation 40.10.40.80(2), the required separation of **main walls** above the finished ground surface are as shown in metres on Diagrams 4, 5, and 6 of By-law 1261-2022(OLT);
- (V) Despite Clauses 40.5.40.60 and 40.10.40.60 and (T) and (U) above, the following elements may encroach into the required minimum **building setbacks** and **main wall** separation distances as follows:
- (i) cornices, sills, and eaves by a maximum of 1.0 metre;
  - (ii) balconies by a maximum of 3.0 metres;

- (iii) canopies, awnings and similar structures, including related structural supports by a maximum of 4.0 metres;
  - (iv) wheelchair ramps by a maximum of 2.0 metres;
  - (v) ornamental or architectural features by a maximum of 3.0 metres; and
  - (vi) pedestrian bridges or ramps linking portions of **buildings** and **structures** on "Parcel A" to portions of **buildings** and **structures** on "Parcel B" as shown on Diagram 1 attached to By-law 1261-2022(OLT).
- (W) Despite Clause 40.10.80.20, Section 200.5 and Section 200.15, **drive aisles**, accessible **parking spaces**, and **parking spaces** existing on the **lot** as of the date of the Order of the Ontario Land Tribunal approving By-law 1261-2022(OLT) are permitted and such **parking spaces** and accessible **parking spaces** may be used to determine compliance with the requirements of (DD) below and Article 200.15.10;
- (X) Despite Regulation 200.5.1.10(2)(A)(iv), (B)(iv) and (C)(iv), a maximum of 15 percent of the provided **parking spaces** on "Parcel A" or "Parcel C", as shown on Diagram 1 of By-law 1261-2022(OLT) may be obstructed as described in Regulation 200.5.1.10(2)(D) without being required to provide additional width for the obstructed sides of the **parking space**;
- (Y) Despite Regulation 200.5.1.10(2)(A), a maximum of 10 **parking spaces** on each of "Parcel A" and "Parcel C" shown on Diagram 1 of By-law 1261-2022(OLT), may have the following minimum dimensions:
- (i) length of 5.2 metres;
  - (ii) width of 2.4 metres; and
  - (iii) vertical clearance of 2.0 metres.
- (Z) Despite Regulation 200.5.1(3)(A), a one way **drive aisle** in the **parking garage** on "Parcel A" shown on Diagram 1 of By-law 1261-2022(OLT) may have a minimum width of 3.0 metres;
- (AA) Despite Regulation 200.5.1.10(12)(B), if an **apartment building**, **mixed use building** or a **building** with non-residential uses, has an area for parking two or more **vehicles**, the **vehicle** entrance and exit for a one-way **driveway** into and out of the **building** on "Parcel A" must have a minimum width of 3.0 metres;
- (BB) Despite Regulation 200.5.1.10(12)(C), if an **apartment building**, **mixed use building** or a **building** with non-residential uses, has an area for parking two or more **vehicles**, the **vehicle** entrance and exit to the **building** on Parcel C must be at least 2.8 metres from the **lot line** abutting a street;
- (CC) Despite Clauses 40.10.80.10 and 40.10.80.20, Section 200.5 and Section 200.15, **drive aisles**, accessible **parking spaces**, and **parking spaces** existing on the **lot** as of the date of the Order of the Ontario Land Tribunal approving By-law 1261-2022(OLT) are permitted and such **parking spaces** and accessible **parking spaces** may be used to determine compliance with the requirements of (DD) below and Regulation 200.15.10;
- (DD) Despite Regulations 200.5.1.10(1) and 200.5.10.1(1) and Table 200.5.10.1, and Regulations 200.5.200.40 (1) and (2) **parking spaces** for uses on "Parcel A", "Parcel B" and "Parcel C" as shown on Diagram 1 of By-law 1261-2022(OLT) must be provided and maintained on the **lot** in accordance with the following:
- (i) a minimum of 0.6 residential occupant **parking spaces** to a maximum of 1.0 **parking spaces** for each bachelor **dwelling unit**;
  - (ii) a minimum of 0.7 residential occupant **parking spaces** to a maximum of 1.2 **parking spaces** for each one bedroom **dwelling unit**;
  - (iii) a minimum of 0.9 residential occupant **parking spaces** to a maximum of 1.3 **parking spaces** for each two bedroom **dwelling unit**;
  - (iv) a minimum of 1.0 residential occupant **parking spaces** to a maximum of 1.6 **parking spaces** for each three bedroom and greater **dwelling unit**;
  - (v) a minimum of 1.0 **parking spaces** for each 100 square metres of non-residential **gross floor area** of non-residential uses on "Parcel A" must be provided on the **lot**;
  - (vi) no residential visitor **parking spaces** are required;
  - (vii) a minimum of 1.0 **parking spaces** for each 20 square metres of "gross leasable area" for non-residential uses on "Parcel B" and "Parcel C" must be provided on the **lot**; and

- (a) For the purpose of this exception, "gross leasable area" means the **gross floor area** of a **building**, excluding the areas of a **building** used for the following: a) **dwelling units**, b) hallways, stairways, and internal common areas and walkways, c) washrooms, change and shower facilities, d) maintenance, mechanical, electrical, and utility rooms, e) vehicle parking, loading, and bicycle parking areas within a **building**, and f) interior and exterior walls of a **building**.
- (viii) Despite Regulations 40.5.80.1(1) and 200.5.1.10(10), non-residential **parking spaces** required by (v) and (vii) above may also be used by residential visitors on a non-exclusive basis.
- (EE) Despite Regulation (DD) above, no **parking spaces** are required for **retail stores** and **eating establishments** operated in an outdoor open air market.
- (FF) For the purpose of (DD)(vii), the "gross leasable area" of the Existing Buildings as shown on Diagram 1 of By-law 1261-2022(OLT) is deemed to be 32,608 square metres as of the date of the Order of the Ontario Land Tribunal approving By-law 1261-2022(OLT);
- (GG) Despite Regulation 200.5.10.1(1), "car-share parking spaces" may replace parking spaces otherwise required for residential occupants, subject to the following:
  - (i) a reduction of 4 resident occupant **parking spaces** will be permitted for each "car-share parking space" up to a maximum of 20 "car-share parking spaces";
  - (ii) for the purpose of this exception, "car-share" means the practice whereby a number of people share the use of one or more motor **vehicles** and such "car-share" motor **vehicles** are made available to at least the occupants of the **building** for short-term rental, including hourly rental; and
  - (iii) for the purpose of this exception, "car-share parking space" means a **parking space** exclusively reserved and signed for a **vehicle** used only for "car-share" purposes.
- (HH) Despite Regulation 200.15.1(1) and (3), an accessible **parking space** must have the following minimum dimensions:
  - (i) length of 5.6 metres;
  - (ii) width of 3.4 metres;
  - (iii) vertical clearance of 2.1 metres; and
  - (iv) be located adjacent to a 1.5 metre wide accessible barrier free aisle or path and such aisle or path may be shared by two accessible **parking spaces**.
- (II) Despite Regulation 200.15.1(4), an accessible **parking space** must be the **parking spaces** located;
  - (i) closest to a barrier-free passenger elevator on the same level that provides access to the **building**; or
  - (ii) within 40.0 metres as measured horizontally from the rear of the accessible **parking spaces** to a barrier-free passenger elevator on the same level providing access to the **building**.
- (JJ) Despite regulation 230.5.1.10(4)(A)(ii) and (B)(ii), the required minimum width of a **stacked bicycle parking space** is 0.35 metres;
- (KK) Despite Regulation 230.5.10.1(1) and Table 230.5.10.1(1), **bicycle parking spaces** are not required for the Existing Buildings as shown on Diagram 1 of By-law 1261-2022(OLT);
- (LL) In addition to the places a "long-term" **bicycle parking space** may be located listed in Regulations 230.5.1.10(9)(B)(i)(ii) and (iii), "long-term" **bicycle parking spaces** may also be located in the following locations:
  - (i) On the first or second **storey** of a **building**; and
  - (ii) On all levels of a **building** below ground.
- (MM) Despite Clause 220.5.10.1, **loading spaces** for "Parcel A", "Parcel B" and "Parcel C" as shown on Diagram 1 of By-law 1261-2022(OLT) must be provided as follows:

- (i) On "Parcel A":
  - (a) A minimum of 1 Type "G" **loading space**; and
  - (b) A minimum of 2 Type "B" **loading spaces**.

(822) Exception CR 822

The lands, or a portion thereof as noted below, are subject to the following Site Specific Provisions, Prevailing By-laws and Prevailing Sections:

Site Specific Provisions:

- (A) On 6 Dawes Road, if the requirements of By-law 1176-2022(OLT) are complied with, a **building** or **structure** may be constructed, used or enlarged in compliance with Regulations (B) to (CC) below.
- (B) For the purpose of this exception:
- (i) reference to the East Block and the West Block are as identified on Diagram 4 attached to By-law 1176-2022(OLT);
  - (ii) reference to Building A, Building B, Building C and Building D are the **buildings** within such Blocks as identified on Diagram 5 attached to By-law 1176-2022(OLT); and
  - (iii) "lot" is defined as the lands outlined by black lines collectively comprising the East Block, the West Block and Parkland Dedication, as identified on Diagram 4 attached to By-law 1176-2022(OLT).
- (C) Despite Regulations 40.5.40.10(1) and (2), the height of a **building** or **structure** is the distance between the Canadian Geodetic Datum of 130.65 metres on the lands shown as East Block and the elevation of the highest point of the **building** or **structure**, and the Canadian Geodetic Datum of 130.75 metres on the lands shown as the West Block and the elevation of the highest point of the **building** or **structure**.
- (D) Despite Regulation 40.10.40.10(2), the permitted maximum height of a **building** or **structure** is the number following the letters "HT" as shown on Diagram 5 of By-law 1176-2022(OLT).
- (E) Despite Regulation 40.10.40.10(7), the permitted maximum number of **storeys** is the number following the letters "ST" as shown on Diagram 5 of By-law 1176-2022(OLT);
- (i) for the purpose of this exception, a "mezzanine" does not constitute a **storey**;
  - (ii) for the purpose of this exception, a "mezzanine" means a partial level of a **building** that cannot be accessed by a corridor of the **building**, where the total **interior floor area** is 50 percent of the floor below and is only accessible internal to a **dwelling unit**;
  - (iii) one mezzanine may be located in the "tower" portions within each of Building A, B, and C; and one mezzanine may be located within a portion of the **building** where the **building** does not exceed a height of 40.5 metres, as shown in Diagram 5 of By-law 1176-2022(OLT); and
  - (iv) for the purpose of this exception, "tower" means the portions of a **building** which collectively enclose the entirety of a **storey** higher than a height of 40.5 metres above the Canadian Geodetic Datum elevations for the West Block identified in (C) above.
- (F) Despite Regulations 40.5.40.10(3) to (8) and (D) above, the following equipment and **structures** may project beyond the permitted maximum heights shown on Diagram 5 of By-law 1176-2022(OLT):
- (i) equipment used for the functional operation of the **building** including electrical, utility, mechanical and ventilation equipment, enclosed stairwells, roof access, maintenance equipment storage, elevator shafts, elevator machine rooms, chimneys, **structures** that enclose, screen or cover the equipment, **structures** and parts of a **building** inclusive of a mechanical penthouse, architectural features, parapets, and elements and **structures** associated with a **green roof**, **building** maintenance units and window washing equipment, by a maximum of 7.5 metres;
  - (ii) planters, **landscaping** features, guard rails, and divider screens on a balcony and/or terrace, trellises, pergolas, and unenclosed **structures** providing safety or wind protection to rooftop **amenity space**, by a maximum of 5 metres; and
  - (iii) for Building A located on the **lot**, any elements listed in (F)(i) above must be set back a minimum of 5 metres from the west **main wall** of the floor below.
- (G) Despite Regulation 40.10.20.40(1)(B), **dwelling units** are permitted in a **mixed use building**.
- (H) Despite Regulation 40.10.40.40(1), the permitted maximum **gross floor area** of all **buildings** and **structures** on the **lot** is 103,300 square metres, of which:
- (i) the permitted maximum **gross floor area** for residential uses is 102,591 square metres.
- (I) The permitted minimum **gross floor area** for non-residential uses is 135 square metres; and in addition to the areas of a **building** excluded from **gross floor area** identified in Regulation 40.5.40.40(3), **parking spaces**, **loading spaces** and mechanical rooms located above-ground are also excluded from the calculation for **gross floor area**.

- (J) Despite Regulation 150.48.20.1(2)(A), a **day nursery** may be located on the first two **storeys** of a **building**.
- (K) A minimum of 20 percent of **dwelling units** must contain two bedrooms and a minimum of 10 percent of **dwelling units** must contain three bedrooms.
- (L) Despite Regulation 40.10.40.50(1), a building with 20 or more dwelling units must provide amenity space on the "lot" in accordance with the following:
  - (i) at least a combined 4.0 square metres for each **dwelling unit** as indoor and outdoor **amenity space**;
  - (ii) a minimum of at least 40 square metres of outdoor **amenity space** must be in a location adjoining or directly accessible to the indoor **amenity space**; and
  - (iii) no more than 25 percent of the outdoor component may be a **green roof**.
- (M) For the purpose of this exception, **amenity space** may also include a maximum of four guest suites.
- (N) Despite Regulation 40.10.40.70(2), the required minimum **building setbacks** are shown in metres on Diagram 5 of By-law 1176-2022(OLT).
- (O) Despite Regulation 40.10.40.80(2), the required separation of main walls are shown in metres on Diagram 5 of By-law 1176-2022(OLT).
- (P) Despite Regulation 40.5.40.60(1), Clause 40.10.40.60 and (N) and (O) above, the following elements may encroach into the required minimum **building setbacks** and **main wall** separation distances as follows:
  - (i) decks, porches, and balconies, by a maximum of 2.5 metres;
  - (ii) canopies and awnings, by a maximum of 3.0 metres;
  - (iii) architectural features, such as a pilaster, decorative column, sill, belt course, or chimney breast, window projections, including bay windows and box windows, a dormer, by a maximum of 0.6 metres;
  - (iv) air conditioners, satellite dishes, antennae, vents, and pipes, by a maximum of 0.9 metres; and
  - (v) despite (P)(i) above, no balconies on the west **main wall** of Building A are permitted to encroach into a required **building setback**.
- (Q) Despite Regulation 200.5.10.1(1) and Table 200.5.10.1, **parking spaces** must be provided in accordance with the following:
  - (i) a minimum of 0.18 residential occupant **parking spaces** for each **dwelling unit**;
  - (ii) a minimum of 0.03 residential visitor **parking spaces** for each **dwelling unit**, which may be provided as **public parking**;
  - (iii) a minimum of 1.0 **parking spaces** for each 100 square metres of non-residential **gross floor area**;
  - (iv) the **parking spaces** on the East Block may be in an "automated parking system"; and
  - (v) for the purpose of this exception, "automated parking system" for the purpose of this this By-law means a mechanical system for the purpose of parking and retrieving cars without drivers in the **vehicle** during parking and without the use of ramping or driveway aisles, and which may include but is not limited to, a vertical lift and the storage of cars on parking pallets.
- (R) **Parking Spaces** in an "automated parking system" shall have the following minimum dimensions:
  - (i) minimum length of 5.85 metres;
  - (ii) minimum width of 2.27 metres; and
  - (iii) minimum vertical clearance of 2 metres.
- (S) Despite regulation 200.15.10 (1) (c), **parking spaces** in an "automated parking system" shall be considered accessible **parking spaces**.
- (T) Despite 200.5.10.1(5), residential visitor and non-residential **parking spaces** may be shared and provided on a non-exclusive basis.
- (U) Despite Regulation 200.5.10.1(1), Table 200.5.10.1 and (T) above, "car-share parking space" may replace **parking spaces** otherwise required for residential occupants, subject to the following:
  - (i) A minimum of 9 residential occupant **parking spaces** must be provided and maintained on site;

- (ii) A maximum reduction of 4 resident **parking spaces** will be permitted for each "car-share parking space" provided and that the maximum reduction permitted be capped;
  - (iii) for the purpose of this exception, "car-share" means the practice whereby a number of people share the use of one or more motor **vehicles** and such "car-share" motor **vehicles** are made available to at least the occupants of the **building** for short-term rental, including hourly rental; and
  - (iv) for the purpose of this exception, "car-share parking space" means a **parking space** exclusively reserved and signed for a **vehicle** used only for "car-share" purposes.
- (V) Regulation 200.5.1.10(12)(C), regarding **vehicle** access to a **building**, does not apply.
- (W) Despite Regulations 200.15.1(1) to (4), accessible **parking spaces** must be provided and maintained in accordance with the following:
- (i) an accessible **parking space** must have the following minimum dimensions:
    - (a) length of 5.6 metres;
    - (b) width of 3.4 metres; and
    - (c) vertical clearance of 2.1 metres.
  - (ii) the entire length of an accessible **parking space** must be adjacent to a 1.5 metre wide accessible barrier free aisle or path as shown on Diagram 1 and Diagram 2 of By-law 579-2017;
  - (iii) accessible **parking spaces** must be the **parking spaces** closest to a barrier free:
    - (a) entrance to a **building**;
    - (b) passenger elevator that provides access to the first **storey** of the **building**; and
    - (c) the shortest route from the required entrances in (a) and (b).
- (X) Despite Regulation 200.5.1.10(2), a maximum of 10 **parking spaces** may be provided towards the minimum residential occupant and residential visitors parking requirements with the following minimum dimensions:
- (i) 4.5 metres in length;
  - (ii) 2.6 metres in width; and
  - (iii) 2.0 metres in vertical clearance.
- (Y) Despite Regulation 200.5.1.10(2)(A)(iv), a maximum of 10 **parking spaces** may have a minimum width of 2.6 metres when obstructed on one side as described in Regulation 200.5.1.10(2)(D).
- (Z) Despite regulation 230.5.1.10(10), "long-term" and "short-term" **bicycle parking spaces** may be provided as **stacked bicycle parking spaces**.
- (AA) Despite Regulation 230.5.1.10(4), **stacked bicycle parking spaces** must be in accordance with the following:
- (i) the required minimum length of a **stacked bicycle parking space** is 1.84 metres;
  - (ii) a **stacked bicycle parking space** must be accessible from an aisle with a minimum width of 1.5 metres;
  - (iii) may overlap with an adjacent **stacked bicycle parking space** on one or both sides on the same tier to a maximum of 0.155 metres per side; and
  - (iv) despite (iii) above, if the lower tier of **stacked bicycle parking spaces** are movable, they may overlap an adjacent **stacked bicycle parking space** on the lower tier on one or both sides to a maximum of 0.326 metres per side.
- (BB) Regulation 230.40.1.20(2), regarding the required location of "short-term" **bicycle parking spaces**, does not apply.
- (CC) A "Publicly Owned Privately Accessible Open Space" or POPS with a minimum size of 503.0 square metres must be provided within the shaded area as shown on Diagram 5 of By-law 1176-2022(OLT).

The lands, or a portion thereof as noted below, are subject to the following Site Specific Provisions, Prevailing By-laws and Prevailing Sections:

Site Specific Provisions:

- (A) On 3353-3359 Lakeshore Boulevard West, if the requirements of By-law 141-2023 are complied with, a **building** or **structure** may be constructed, used or enlarged in compliance with Regulations (B) to (U) below;
- (B) Despite Regulations 40.5.40.10(1) and (2), the height of a **building** or **structure** is the distance between the Canadian Geodetic Datum of 88.80 metres and the elevation of the highest point of the **building** or **structure**;

- (C) Despite Regulation 40.10.40.10(2), the permitted maximum height of a **building** or **structure** is the number in metres following the letters "HT" as shown on Diagram 5 of By-law 141-2023;
- (D) Despite Regulation 40.10.40.10(5), the required minimum height of the first **storey**, as measured between the floor of the first **storey** and the ceiling of the first **storey**, excluding any ceiling mechanical equipment, is 4.3 metres;
- (E) Despite Regulations 40.5.40.10(3) to (8) and (C) above, the following equipment and **structures** may project beyond the permitted maximum height shown on Diagram 5 of By-law 141-2023:
- (i) equipment used for the functional operation of the **building** including electrical, utility, mechanical and ventilation equipment, enclosed stairwells, roof access, maintenance equipment storage, elevator shafts, elevator overrun, chimneys, vents, enclosed washrooms and interior access to outdoor amenity terraces, by a maximum of 6.0 metres;
  - (ii) **structures** that enclose, screen or cover the equipment, **structures** and parts of a **building** listed in (i) above, inclusive of a mechanical penthouse, by a maximum of 6.0 metres;
  - (iii) architectural features, parapets, elements and **structures** associated with a **green roof**, planters, **landscaping** features, outdoor seating, fire pits, guards and guardrails, and railings, by a maximum of 2.5 metres;
  - (iv) **building** maintenance units and window washing equipment, by a maximum of 6.0 metres;
  - (v) trellises, pergolas, unenclosed **structures** providing safety or wind protection to rooftop amenity space, divider screens, wind and privacy screens, and fences by a maximum of 4.0 metres; and
  - (vi) solar panels, by a maximum of 0.5 metres;
- (F) Despite Regulation 40.10.40.1(1), residential use portions of the **building**, except for **dwelling units**, are permitted to be located on the same **storey** as nonresidential use portions of the **building**;
- (G) Regulation 40.10.40.1(6) with regard to the location of entrances does not apply;
- (H) Despite Regulation 40.10.40.40(1), the permitted maximum **gross floor area** of all **buildings** and **structures** on the **lot** is 5,000 square metres, of which:
- (i) the permitted maximum **gross floor area** for residential uses is 4,700 square metres; and
  - (ii) the permitted maximum **gross floor area** for non-residential uses is 300 square metres;
- (I) In addition to the elements which reduce **gross floor area** listed in Regulation 40.5.40.40(3), the following elements also reduce the **gross floor area** of a **building**:
- (i) elevator machine rooms above and below-ground;
- (J) **Dwelling units** must be provided as follows:
- (i) A minimum of 10 percent of **dwelling units** must be three bedroom **dwelling units**; and
  - (ii) A minimum of 15 percent of **dwelling units** must be two bedroom **dwelling units**;
- (K) Despite Regulation 40.10.40.70(2), the required minimum **building setbacks** are as shown in metres on Diagram 5 of By-law 141-2023;
- (L) No **building** or **structure** on the **lot** may penetrate a 45 degree angular plane projected 7.5 metres from the entire **rear lot line**, starting at a height of 10.5 metres above the average elevation of the ground along the **rear lot line**; except for:
- (i) equipment and the associated **structures** that enclose, screen, or cover the equipment used for the functional operation of the **building** including solar panels, elevator shafts, elevator overrun, guards and guardrails on the roof terrace, parapets on the roof terrace, divider screens, wind and privacy screens, and the fourth **storey** terrace;
- (M) Despite Regulation 40.10.40.80(2), the required separation of **main walls** are as shown in metres on Diagram 5 of By-law 141-2023;
- (N) Despite Regulation 40.10.40.60 and (K), (L), and (M) above, the following elements may encroach into the required minimum **building setbacks** and **main wall** separation distances as follows:
- (i) canopies, awnings, trellises, window washing equipment and exterior signage, by a maximum of 2.5 metres;
  - (ii) balconies, balcony platforms, guards and guardrails, railings, terraces, privacy and wind screens and fences, by a maximum of 1.5 metres;

- (iii) architectural and ornamental features, cladding added to the exterior surface of the **main wall** of a **building**, window projections, including bay windows and box windows, light fixtures, antennae and eaves, by a maximum of 1.0 metres;
  - (iv) guards and guardrails, railings, parapets, terraces, divider screens, wind and privacy screens, landscape planters, and terrace platforms, to a maximum extent of the **main wall** of the **storey** below; and
  - (v) exterior stairs, access ramps and elevating devices, elevator overrun equipment used for the functional operation of the **building**, such as electrical, utility, ventilation, maintenance, safety and **green** roof purposes and outdoor seating;
- (O) Despite Regulation 200.5.10.1(1) and Table 200.5.10.1, **parking spaces** must be provided in accordance with the following:
- (i) a minimum of 0.47 residential occupant **parking spaces** for each **dwelling unit**;
  - (ii) a minimum of 0.15 residential visitor **parking spaces** for each **dwelling unit**;
  - (iii) no **parking spaces** are required for non-residential uses of the **building**; and
  - (iv) **parking spaces** required by (ii) above can be used for non-residential uses of the **building**;
- (P) For the purposes of this exception, equipment for the charging of one electric **vehicle** is permitted within a **parking space**, subject to the equipment being located in the same **parking space** as the **vehicle** to be charged, and:
- (i) Being within 0.25 metre of two adjoining sides of the **parking space** which are not adjacent and parallel to a **drive aisle** from which vehicle access is provided, measured at right angles; or
  - (ii) Being at least 5.35 metres from a **drive aisle** from which **vehicle** access is provided, measured at right angles, and at least 1.0 metre from the ground.
- (Q) Despite Regulation 200.15.1(1), an accessible **parking space** must have the following minimum dimensions:
- (i) length of 5.6 metres;
  - (ii) width of 3.4 metres; and
  - (iii) vertical clearance of 2.1 metres;
- (R) For the purposes of this exception, the entire length of an accessible **parking space** must be adjacent to a 1.5 metre wide accessible barrier free aisle or path;
- (S) Despite Regulation 200.15.10(1) and (2), a minimum of 2 of the required **parking spaces** on the **lot** are required to be accessible **parking spaces**;
- (T) Despite Regulation 230.5.1.10(7), shower and change facilities are not required; and
- (U) Despite Regulation and 230.40.1.20(1), "long-term" **bicycle parking spaces** may be located in a secured room for dedicated bicycle storage, enclosure or bicycle locker.

[ By-law: 141-2023 ]

(826) Exception CR 826

The lands, or a portion thereof as noted below, are subject to the following Site Specific Provisions, Prevailing By-laws and Prevailing Sections:

Site Specific Provisions:

- (A) On 25 Mabelle Avenue, as shown on Diagram 1 of By-law 80-2023(OLT), if the requirements of By-law 80-2023(OLT) are complied with, a **building** or **structure** may be constructed, used or enlarged in compliance with Sections (B) to (Z) below;
- (B) For the purpose of this exception, the **lot** is as shown on Diagram 1 attached to By-law 80-2023(OLT);
- (C) The **buildings**, **structures** and uses existing on June 1, 2022 on "Parcel A" as shown on Diagram 6 of By-law 80-2023(OLT) are deemed to comply with By-law 569-2013 except that the existing **apartment building** must comply with (Q), (R) and (V) below;
- (D) For the area identified as "Parcel B" on Diagram 6 of By-law 80-2023(OLT), despite Regulations 40.5.40.10(1) and (2), the height of a **building** or **structure** is the distance between the Canadian Geodetic Datum of 123.75 metres and elevation of the highest point of the **building** or **structure**;

- (E) For the area identified as "Parcel B" on Diagram 6 of By-law 80-2023(OLT), despite Regulation 40.10.40.10(2), the permitted maximum height of a **building** or **structure** is the number following the HT symbol in metres as shown on Diagram 7 of By-law 80-2023(OLT);
- (F) For the area identified as "Parcel B" on Diagram 6 of By-law 80-2023(OLT), despite Regulations 40.5.40.10(3) to (8) and (E) above, the following equipment and **structures** may project beyond the permitted maximum height of a **building** specified on Diagram 7 of By-law 80-2023(OLT):
- (i) equipment used for the functional operation of the **building** including electrical, utility, mechanical and ventilation equipment, enclosed stairwells, roof access, maintenance equipment storage, elevator shafts, chimneys, and vents may project above the height limits to a maximum of 5.0 metres;
  - (ii) **structures** that enclose, screen or cover the equipment, **structures** and parts of a **building** listed in (i) above, inclusive of a mechanical penthouse, may project above the height limits to a maximum of 5.0 metres;
  - (iii) architectural features, parapets, and elements and structures associated with a **green roof** may project above the height limits to a maximum of 2.1 metres;
  - (iv) **building** maintenance units and window washing equipment may project above the height limits to a maximum of 5.0 metres;
  - (v) planters, **landscaping** features, retaining walls, guard rails, underground garage and its associated structures and divider screens on a balcony and/or terrace may project above the height limits to a maximum of 2.1 metres;
  - (vi) trellises, pergolas, and unenclosed **structures** providing safety for wind protection to rooftop **amenity space** may project above the height limits to a maximum of 5.0 metres; and
  - (vii) rail safety crash walls.
- (G) For the area identified as "Parcel B" on Diagram 6 of By-law 80-2023(OLT), despite Regulation 40.10.40.10(5), the required minimum height of the first **storey**, as measured between the floor of the first **storey** and the ceiling of the first **storey**, is 2.9 metres;
- (H) For the area identified as "Parcel B" on Diagram 6 of By-law 80-2023(OLT), despite Regulation 40.10.40.40(1), the permitted maximum **gross floor area** is 40,000 square metres of which:
- (i) the permitted maximum **gross floor area** for residential uses is 39,900 square metres;
  - (ii) the required minimum **gross floor area** for non-residential uses is 79 square metres;
- (I) For the area identified as "Parcel B" on Diagram 6 of By-law 80-2023(OLT), a maximum of 590 **dwelling units** are permitted, of which:
- (i) A minimum of 30 percent of the **dwelling units** must be two-bedroom units; and
  - (ii) A minimum of 10 percent of the **dwelling units** must be three-bedroom units;
- (J) For the area identified as "Parcel B" on Diagram 6 of By-law 80-2023(OLT), for the purpose of this exception, "tower floorplate area" means the gross horizontal floor area of a single floor measured from the exterior walls of a **building** or **structure** above the fifth **storey**;
- (K) For the area identified as "Parcel B" on Diagram 6 of By-law 80-2023(OLT), the permitted maximum "tower floorplate area" for the portion of a **building** located between the sixth and nineteenth **storey** is 825 square metres;
- (L) For the area identified as "Parcel B" on Diagram 6 of By-law 80-2023(OLT), the permitted maximum "tower floorplate area" for the portion of a **building** located on the twentieth or greater **storey** is 780 square metres;
- (M) For the area identified as "Parcel B" on Diagram 6 of By-law 80-2023(OLT), despite Regulation 40.10.40.50(1), **amenity space** must be provided at the following rate:
- (i) A minimum of 1.5 square metres of indoor **amenity space** per **dwelling unit**; and
  - (ii) A minimum of 2.0 square metres of outdoor **amenity space** per **dwelling unit** of which 40 square metres of the outdoor **amenity space** must be in a location adjoining or directly connected to the required indoor **amenity space**;
- (N) For the area identified as "Parcel B" on Diagram 6 of By-law 80-2023(OLT), despite Regulation 40.10.40.70(2), the required minimum **building setbacks** are as shown in metres on Diagram 7 of By-law 80-2023(OLT);

- (O) For the area identified as "Parcel B" on Diagram 6 of By-law 80-2023(OLT), despite Regulation 40.10.40.80(2), the required separation of **main walls** are as shown in metres on Diagram 7 of By-law 80-2023(OLT);
- (P) For the area identified as "Parcel B" on Diagram 6 of By-law 80-2023(OLT), despite Clause 40.10.40.60 and (N) and (O) above, the following elements may encroach into the required minimum **building setbacks** and separation distances specified on Diagram 7 of By-law 80-2023(OLT) as follows:
- (i) porches and balconies to a maximum extent of 2.0 metres;
  - (ii) canopies and awnings, to a maximum extent of 2.0 metres;
  - (iii) exterior stairs, access ramps and elevating devices, to a maximum extent of 1.7 metres;
  - (iv) architectural features, such as a pilaster, decorative column, cornice, sill, belt course, or chimney breast, to a maximum extent of 0.5 metre;
  - (v) window projections, including bay windows and box windows, to a maximum extent of 1.5 metres;
  - (vi) air conditioners, satellite dishes, antennae, vents, and pipes to a maximum extent of 2.0 metres;
  - (vii) outdoor residential **amenity space** roof deck, fences, skylights, railings, terrace guards and dividers, light fixtures, trellises, landscape elements, elements of a **green roof**, wind mitigation features, privacy screens, planters, balustrades, open air recreation, safety and wind protection features, window washing equipment, enclosed heating, ventilation or cooling equipment such as chimneys, stacks, flues and air intakes to a maximum extent of 2.0 metres; and
  - (ix) rail safety crash walls.
- (Q) For the area identified as "Parcel A" on Diagram 6 of By-law 80-2023(OLT), despite Regulation 200.5.10.1(1) and Table 200.5.10.1, **parking spaces** must be provided in accordance with the following:
- (i) a minimum of 0.6 residential occupant **parking spaces** for each **dwelling unit**; and
  - (ii) a minimum of 0.1 residential visitor **parking spaces** for each **dwelling unit**;
- (R) For the area identified as "Parcel A" on Diagram 6 of By-law 80-2023(OLT), despite Regulation 200.5.10.1(1) and
- (Q) above, "car-share parking spaces" may replace **parking spaces** otherwise required for residential occupants, subject to the following:
- (i) a reduction of four resident occupant **parking spaces** will be permitted for each "car-share parking space" provided up to a maximum of 7 cumulative "car-share parking spaces" on either or both of "Parcel A" and "Parcel B";
  - (ii) for the purpose of this exception, "car-share" means the practice whereby a number of people share the use of one or more motor **vehicles** and such "car-share" motor **vehicles** are made available to at least the occupants of the **building** for short-term rental, including hourly rental; and
  - (iii) for the purpose of this exception, "car-share **parking space**" means a **parking space** exclusively reserved and signed for a **vehicle** used only for "car-share" purposes;
- (S) For the area identified as "Parcel B" on Diagram 6 of By-law 80-2023(OLT), despite Regulation 200.5.10.1(1) and Table 200.5.10.1, **parking spaces** must be provided in accordance with the following:
- (i) a minimum of 0.6 residential occupant **parking spaces** for each **dwelling unit**;
  - (ii) a minimum of 0.1 residential visitor **parking spaces** for each **dwelling unit**; and
  - (iii) no **parking spaces** are required for non-residential uses.
- (T) For the area identified as "Parcel B" on Diagram 6 of By-law 80-2023(OLT), despite Regulation 200.5.10.1(1) and (S) above, "car-share **parking spaces**" may replace **parking spaces** otherwise required for residential occupants, subject to the following:
- (i) a reduction of four resident occupant **parking spaces** will be permitted for each "car-share **parking space**" provided up to a maximum of 7 cumulative "car-share **parking spaces**" on either or both of "Parcel A" and "Parcel B";

- (ii) for the purpose of this exception, "car-share" means the practice whereby a number of people share the use of one or more motor **vehicles** and such "car-share" motor **vehicles** are made available to at least the occupants of the **building** for short-term rental, including hourly rental; and
  - (iii) for the purpose of this exception, "car-share **parking space**" means a **parking space** exclusively reserved and signed for a **vehicle** use only for "car-share" purposes;
- (U) For the area identified as "Parcel B" on Diagram 6 of By-law 80-2023(OLT), despite Regulation 200.5.1.10(2), a maximum of 10 percent of **parking spaces** may have the following minimum dimensions, with or without obstructions:
  - (i) Length of 5.0 metres;
  - (ii) Width of 2.6 metres; and
  - (iii) Vertical clearance of 1.8 metres.
- (V) For the area identified as "Parcel A" on Diagram 6 of By-law 80-2023(OLT), despite Clause 220.5.10.1, one Type "B" **loading space** is required be provided.
- (W) For the area identified as "Parcel B" on Diagram 6 of By-law 80-2023(OLT), despite Regulations 230.5.10.1(1)(3) and (5) and Table 230.5.10.1(1), bicycle **parking spaces** must be provided in accordance with the following minimum rates:
  - (i) 0.68 "long-term" **bicycle parking spaces** for each **dwelling unit**;
  - (ii) 0.07 "short-term **bicycle parking spaces** for each **dwelling unit**;
- (X) For the area identified as "Parcel B" on Diagram 6 of By-law 80-2023(OLT), despite Regulation 230.5.1.10 (4) and (5);
  - (i) The minimum dimensions of a **bicycle parking space** if placed in a vertical position on a mechanical device are:
    - (a) Minimum length or vertical clearance of 1.9 metres;
    - (b) Minimum width of 0.45 metre;
    - (c) Minimum horizontal clearance from the wall of 1.2 metres;
  - (ii) The minimum dimensions of a **stacked bicycle parking space** are:
    - (a) Minimum vertical clearance of 2.4 metres;
    - (b) Minimum width of 0.24 metre;
    - (c) Minimum horizontal clearance of 1.8 metres;
- (Y) For the area identified as "Parcel B" as shown on Diagram 6 of By-law 80-2023(OLT), despite Regulations 230.5.1.10(9) and 230.40.1.20(1) "long-term" **bicycle parking spaces** may be located on any level of the building below-ground;
- (Z) For the area identified as "Parcel B" on Diagram 6 of By-law 80-2023(OLT), despite Clause 220.5.10.1, **loading spaces** must be provided in accordance with the following minimum rates:
  - (i) 1 Type "C" **loading space**; and
  - (ii) 1 Type "G" **loading space**.

Prevailing By-laws and Prevailing Sections:

- (A) Etobicoke Zoning Code for the **apartment building** existing on June 1, 2022 on "Parcel A" as shown on Diagram 6 of By-law 80-2023(OLT), with the exception of required **parking spaces** and **loading spaces**. [ By-law: 80-2023(OLT) Enacted ]

- (D) Despite Regulation 40.10.40.1(1), lobby and **amenity space** associated with residential use portions of the **building** are permitted to be located on the same **storey** as non-residential use portions of the **building**;
- (E) The provision of **dwelling units** must comply with the following:
  - (i) the maximum number of **dwelling units** permitted is 595;
  - (ii) a minimum of 15 percent of the total number of **dwelling units** on the **lot** must contain a minimum of two bedrooms;
  - (iii) a minimum of 10 percent of the total number of **dwelling units** on the **lot** must contain three or more bedrooms;
  - (iv) any **dwelling units** with three or more bedrooms provided to satisfy (E)(iii) above are not included in the provision required by (E)(ii) above; and
  - (v) for the purpose of this exception, guest suites do not constitute **dwelling units**;
- (F) Despite Regulation 40.10.40.10(1), the permitted maximum height of a **building** or **structure** is the number following the "HT" as shown on Diagram 6 of By-law 410-2023;
- (G) Despite Regulations 40.5.40.10(3) to (8) and (F) above, the following equipment and **structures** may project beyond the permitted maximum height shown on Diagram 6 of By-law 410-2023:
  - (i) equipment used for the functional operation of the **building** including electrical, utility, mechanical and ventilation equipment by a maximum of 6.5 metres;
  - (ii) **structures** that enclose, screen or cover the equipment, **structures** and parts of a **building** listed in (G)(i) above, inclusive of a mechanical penthouse, by a maximum of 6.5 metres;
  - (iii) enclosed stairwells, roof access, maintenance equipment storage, elevator shafts, chimneys, flues and vents by a maximum of 3.0 metres;
  - (iv) architectural features, parapets, and ornamental elements and **structures** associated with a **green roof** by a maximum of 3.0 metres;
  - (v) **building** maintenance and window washing equipment by a maximum of 5.0 metres;
  - (vi) planters, **landscaping** features, guard rails, divider screens on a balcony and/or terrace, trellises, pergolas, and unenclosed **structures** providing safety or wind protection to rooftop **amenity space** by a maximum of 3.0 metres;
  - (vii) elements listed in subsections (G)(iii) and (iv) above may project above the permitted height limit for the mechanical penthouse as set out in subsections (G)(i) and (ii) by a maximum of 3.0 metres; and
  - (viii) elements listed in subsection (G)(v) may project above the permitted height limit for the mechanical penthouse as set out in subsections (G)(i) and (ii) by a maximum of 5.0 metres;

- (H) Despite Regulation 40.10.40.40(1), the permitted maximum **gross floor area** of all **buildings** and **structures** on the lot is 35,550 square metres, of which:
- (i) the permitted maximum **gross floor area** for residential uses is 35,250 square metres; and
  - (ii) the required minimum **gross floor area** for non-residential uses is 170 square metres;
- (I) In addition to the elements which reduce **gross floor area** listed in Regulation 40.5.40.40(3), the following elements also reduce the **gross floor area** of a **building**:
- (i) all open to below areas;
  - (ii) hallways and elevator vestibules below ground; and
  - (iii) rooms containing **bicycle parking spaces**;
- (J) Despite Regulation 40.10.40.50(1), a **building** with 20 or more **dwelling units** must provide **amenity space** on the **lot** at a rate of 4.0 square metres for each **dwelling unit**, of which:
- (i) at least 2.0 square metres for each **dwelling unit** as indoor **amenity space**;
  - (ii) at least 2.0 square metres of outdoor **amenity space** for each **dwelling unit** of which 40.0 square metres must be in a location adjoining or directly accessible to the indoor **amenity space**;
  - (iii) no more than 25 percent of the outdoor component may be a **green roof**; and
  - (iv) indoor **amenity space** may include guest suites that do not exceed an aggregate **interior floor area** of 100 square metres;
- (K) Despite Regulation 40.10.40.70(1), the required minimum **building setbacks** are as shown in metres on Diagram 6 of By-law 410-2023;
- (L) In addition to Regulation 40.10.40.70(1) and (K) above, the mechanical penthouse must be setback a minimum of 1.1 metres from all **main walls** of the tower;
- (M) Despite Clause 40.10.40.60 and (K) above, the following elements may encroach into the required minimum **building setbacks** and separation distances as follows:
- (i) balconies, by a maximum of 1.6 metres;
  - (ii) canopies, by a maximum of 4.0 metres;
  - (iii) awnings, cornices, lighting fixtures, ornamental elements, trellises, eaves, window sills, architectural features, planters, guardrails, balustrades, railings, stairs, stair enclosures, vents, fences and landscape features by a maximum of 2.0 metres;
  - (iv) exterior stairs, access ramps and elevating devices, by a maximum of 2.0 metres;
  - (v) cladding added to the exterior surface of the **main wall** of a **building**, by a maximum of 1.0 metre;
  - (vi) window projections, by a maximum of 0.5 metre; and
  - (vii) air conditioners, satellite dishes, antennae, vents, and pipes by a maximum of 1.0 metre;
- (N) Despite (M)(i) above, within the area denoted as 'balcony zone' on Diagram 6 of By-law 410-2023 the total horizontal extent of balconies at each **storey** must not exceed 40 percent of the width of the **main wall** they are located on;
- (O) A continuous weather protection with a minimum depth of three metres along Dundas Street West and Aukland Road shall be provided and maintained on the lot;
- (P) The permitted maximum "tower floor plate" for each **storey** of a **building** located above the fourth **storey** is 782 square metres, and
- (i) For the purposes of this exception, "tower floor plate" means the total built area of each **storey** as measured from the exterior of the **main wall** on each **storey**, excluding balconies;
- (Q) A "Publicly Owned Privately Accessible Open Space" or "POPS" with a minimum area of 20 square metres must be provided within the shaded area as shown on Diagram 6 of By-law 410-2023; and
- (i) For the purpose of this exception, "Publicly Owned Privately Accessible Open Space" or "POPS" means a space on the **lot** situated at ground level within the hatched area shown on Diagram 6 of By-law 410-2023 that is accessible to the public, secured through appropriate legal agreements and may include pedestrian walkways, seating areas, landscaped plazas,

and ornamental structures and is used principally for the purpose of sitting, standing and other recreational uses;

- (R) Despite Regulations 200.5.1.10(2)(A)(i) and 200.5.1.10(2)(A)(iv), maximum 15 percent of the provided **parking spaces** may be either:
- (i) small car **parking spaces** with a minimum width of 2.6 metres, length of 5.2 metres and vertical clearance of 2.0 metres; and
  - (ii) be obstructed as described in Regulation 200.5.1.10(2)(D) without being required to provide additional width for the obstructed sides of the **parking space**;
- (S) Despite Regulation 200.5.1.10(12)(C), if a **mixed use building** has an area for parking two or more **vehicles**, the **vehicle** entrance and exit to the **building** must be at least 1.0 metres from the **lot line** abutting a **street**;
- (T) Despite Regulation 200.15.1(1), an accessible **parking space** must have the following minimum dimensions:
- (i) length of 5.6 metres;
  - (ii) width of 3.4 metres;
  - (iii) vertical clearance of 2.1 metres; and
  - (iv) the entire length of an accessible **parking space** must be adjacent to a 1.5 metre wide accessible barrier free aisle or path on one side of the accessible **parking space**;
- (U) Despite Regulation 200.15.10.5, a minimum of five of the provided **parking spaces** on the **lot** are required to be accessible **parking spaces**;
- (V) Despite Regulation 200.15.1(4), three of the required accessible **parking spaces** in (T) above are required to be closest to a barrier-free passenger elevator that provides access to the first **storey** of the **building** or the shortest route from the required entrance to an elevator;
- (W) Despite 230.5.1.10(9)(B)(i)(ii) and (iii) **bicycle parking space** for **dwelling units** may be located in the first, second, and third **storeys** of the **building** and on all levels below-ground;
- (X) Despite 220.5.10.1(2), a **building** with more than 400 **dwelling units** and less than 595 **dwelling units** must provide 1 Type 'G' **loading space**;
- (Y) Despite Regulation 230.5.1.10(10), "short-term" **bicycle parking spaces** may also be located in a **stacked bicycle parking space**.

(839) Exception CR 839

The lands, or a portion thereof as noted below, are subject to the following Site Specific Provisions, Prevailing By-laws and Prevailing Sections.

Site Specific Provisions: (None Apply)

Prevailing By-laws and Prevailing Sections:

- (A) On 725 Browns Line, former City of Etobicoke by-law 1993-133.

(840) Exception CR 840

The lands, or a portion thereof as noted below, are subject to the following Site Specific Provisions, Prevailing By-laws and Prevailing Sections:

Site Specific Provisions:

- (A) On 2993-3011 Sheppard Avenue East and 1800-1814 Pharmacy Avenue, if the requirements of By-law 446-2023 are complied with, a **building** or **structure** may be constructed, used or enlarged in compliance with Regulations (B) to (T) below;
- (B) Despite Regulation 40.5.40.10(1), the height of a **building** or **structure** is the distance between a Canadian Geodetic Datum elevation of 179.35 metres and the elevation of the highest point of the **building**;
- (C) Despite Regulation 40.10.40.10(2), the maximum height of any **building** or **structure** erected on the lands is the number in metres following the letters "HT", as shown on Diagram 5 of By-law 446-2023;

- (D) Despite Regulation 40.10.40.10(7), the permitted maximum number of **storeys** in a **building** or **structure** is the number following the letters "ST" as shown on Diagram 5 of By-law 446-2023;
- (E) Despite Regulation 40.10.40.10(5), the required minimum height of the first **storey**, as measured between the floor of the first **storey** and the ceiling of the first **storey**, excluding any ceiling mechanical equipment and structural elements, is 4.3 metres;
- (F) Despite Regulation 40.10.40.70 (2), the required minimum **building setbacks** are shown in metres on Diagram 5 of By-law 446-2026;
- (G) Despite Clause 40.10.40.60 and (F) above, the following elements may encroach into the required minimum **building setbacks** and **main wall** separation distances as follows:
  - (i) decks, porches, and balconies, by a maximum of 2.2 metres;
  - (ii) canopies and awnings, by a maximum of 2.0 metres;
  - (iii) exterior stairs, access ramps and elevating devices, by a maximum of 2.2 metres;
  - (iv) architectural features, such as a pilaster, decorative column, cornice, sill, belt course, or chimney breast, by a maximum of 1.5 metres;
  - (v) window projections, including bay windows and box windows, by a maximum of 0.5 metres;
  - (vi) eaves, by a maximum of 1.0 metres; and
  - (vii) air conditioners, satellite dishes, antennae, vents, and pipes, by a maximum of 0.5 metres;
- (H) Despite Regulation 40.10.40.40(1), the total **gross floor area** of all **buildings** and **structures** must not exceed 28,370 square metres;
- (I) A minimum **gross floor area** of 1,500 square metres is required at-grade for nonresidential uses permitted by Regulation 40.10.20.10(1)(A) and Regulation 40.10.20.20(1)(A);
- (J) The maximum area of the tower floor plate, as measured from the exterior of the **main wall** on each storey, is 750 square metres;
  - (i) For the purpose of this exception, tower floor plate means the area of a floor of a building measured from the exterior of the **main walls**, but excluding inset and projecting balconies;
- (K) Despite Regulation 40.10.50.10(3), a minimum 1.5-metre-wide strip of land for **soft landscaping** along any part of a **lot line** abutting a **lot** in the Residential Zone category must be provided with the exception of areas containing short-term bicycle parking, walkways, and the transformer and air vent on the west side;
- (L) In addition to Regulation 200.5.10.1(1) and Table 200.5.10.1, a minimum of two (2) "car-share" **parking spaces** on the **lot** are required for residential parking use. "Car-share parking spaces" are **parking spaces** as defined by (i) to (ii) below:
  - (i) For the purpose of this exception, "car-share" means the practice where a number of people share the use of one or more cars that are owned by a profit or non-profit car-sharing organization and where such organization may require that use of cars be reserved in advance, charge fees based on time and/or kilometers driven, and set membership requirements of the car-sharing organization, including the payment of a membership fee that may or may not be refundable; and
  - (ii) For the purpose of this exception, a "car-share parking space" means a **parking space** exclusively reserved and actively used for "car-share" purposes, including by non-residents;
- (M) Despite Regulation 200.15.1(1), an accessible **parking space** must have the following minimum dimensions:
  - (i) length of 5.6 metres;
  - (ii) width of 3.4 metres; and
  - (iii) vertical clearance of 2.1 metres;
- (N) Despite Clause 40.10.80.10, a maximum of 8 at-grade **parking spaces** are permitted and may be located in the Pharmacy Avenue **street yard**;
- (O) Despite Regulations 220.5.10.1(2), (3) and 220.5.1.10(8), a minimum of one Type "C" and one Type "G" **loading space** must be provided on the **lot** and will be shared between residential and commercial uses;

- (i) A Type "C" **loading space** means a **loading space** that is a minimum of 3.5 metres wide, 6.0 metres long and has a minimum vertical clearance of 3.0 metres; and
- (ii) A Type "G" **loading space** means a **loading space** that is a minimum of 4.0 metres wide, 13.0 metres long and has a minimum vertical clearance of 6.1 metres;
- (P) Despite Regulation 230.40.1.20(1)(C), "long-term" **bicycle parking spaces** may be located in a storage locker;
- (Q) Despite Regulation 230.40.1.20(2), a "short-term" **bicycle parking space** must be located in a bicycle parking area at grade anywhere on the lot;
- (R) Despite Regulation 230.5.1.10 (7), no shower and change facilities are required;
- (S) Despite Regulation 40.10.40.1 (1), residential uses except **dwelling units** are permitted on the **first floor**;
- (T) A minimum of 9 percent or 38 **dwelling units**, whichever is higher, must contain 3 or more bedrooms.

(849) Exception CR 849

The lands, or a portion thereof as noted below, are subject to the following Site Specific Provisions, Prevailing By-laws and Prevailing Sections.

Site Specific Provisions:

- (A) On 5207 Dundas Street West, a **building, structure**, addition or enlargement may be erected or used if it complies with (B) to (LL) below;
- (B) For the purpose of this exception, the **lot** is comprised of the area outlined by heavy black lines on Diagram 1 of By-law 428-2023;
- (C) Despite clause 5.10.30.20, the **lot line** abutting Dundas Street West is the **front lot line**;
- (D) In addition to those uses of which an **outdoor patio** must be combined with listed in regulation 40.10.20.100(21)(A), a **retail store** is also a permitted use which can be combined with an outdoor patio;
- (E) Regulation 40.10.40.1(1) does not apply;
- (F) Despite Clause 40.10.30.40, the permitted maximum **lot coverage** does not apply;
- (G) The provision of **dwelling units** must comply with the following:
  - (i) a minimum of 25 percent of the total number of **dwelling units** on the **lot** must contain a minimum of two bedrooms;
  - (ii) a minimum of 10 percent of the total number of **dwelling units** on the **lot** must contain two bedrooms containing a minimum **interior floor area** of 87 square metres each;
  - (iii) a minimum of 10 percent of the total number of **dwelling units** on the **lot** must contain three or more bedrooms;
  - (iv) a minimum of 7 percent of the total number of **dwelling units** must contain three or more bedrooms containing a minimum **interior floor area** of 100 square metres each;
  - (v) for the purpose of this exception, if the calculation of the number of required **dwelling units** in (i)(ii)(iii)(iv) above result in a number with a fraction, the number is rounded down to the nearest whole number;
  - (vi) for the purpose of this exception, if the **interior floor area** of a **dwelling unit** is a number with a fraction, the number is rounded mathematically to the nearest whole number;
  - (vii) at least 14 **dwelling units** which abut the "Landscaped Courtyard Area" are required as part of the **mixed use building**, and each of those **dwelling units** shall have exclusive use of a private outdoor space comprised of a minimum area of 18.0 square metres of combined **landscaping** and **soft landscaping**; and
  - (viii) for the purpose of this exception, guest suites do not constitute **dwelling units**;
- (H) Despite Regulations 40.5.40.10(1) and (2), the height of a **building** or **structure** is the distance between the Canadian Geodetic Datum of 126.25 metres and the elevation of the highest point of the **building** or **structure**;
- (I) Despite regulation 40.10.40.10(5), the required minimum height of the first floor level above ground, measured between the floor and the floor, ceiling, or roof immediately above it, is:
  - (i) 4.5 metres for non-residential uses;
  - (ii) 3.0 metres for residential uses; and
  - (iii) a mezzanine shall not constitute a **storey** or floor as described in (I) above;
- (J) Despite regulations 40.10.40.10(1), and 40.10.40.10(7), the permitted maximum height of portions of the **building** or **structure** is the number in metres following the letters "HT" as shown on Diagram 3 of By-law 428-2023 as shown on Diagram 3 of By-law 428-2023;
- (K) Despite regulation 40.5.40.10(4) and 40.5.40.10(6), and in compliance with regulation 40.5.40.10(5), the following equipment and **structures** located on the roof of the "Base Building" may exceed the permitted maximum permitted **building** height:
  - (i) equipment used for the functional operation of the **building**, such as electrical, utility, mechanical and ventilation equipment, **structures** or parts of the **building** used for the functional operation of the **building**, such as enclosed stairwells, roof access, maintenance

- equipment, storage, elevator shafts, chimneys, vents, and water supply facilities to a maximum extent of 4.0 metres;
- (ii) **structures** that enclose, screen or cover the equipment, **structures** and parts of a **building** listed in (i) above to a maximum extent of 4.0 metres; and
  - (iii) screens or other unenclosed structures used to mitigate wind or noise, balustrades, railings, guards, dividers, pergolas, trellises, eaves, privacy screens, skylights, access hatches, window washing equipment, lightning rods, terraces, landscaping elements, play structures and **structures** located on the roof used for outdoor **amenity space** and outside or open air recreation, including swimming pools, swimming pool decks and associated equipment, to a maximum extent of 3.0 metres;
- (L) Despite regulation 40.5.40.10(7), all parapets may exceed the permitted maximum height for a **building** by 2.0 metres;
- (M) Despite regulation 40.5.40.10(8), the following equipment and **structures** on the roof of a "Tower" may exceed the permitted maximum **building** height as specified:
- (i) equipment used for the functional operation of the **building**, such as electrical, utility, mechanical and ventilation equipment, **structures** or parts of the **building** used for the functional operation of the **building**, such as enclosed stairwells, roof access, maintenance equipment, storage, chimneys, vents, and water supply facilities to a maximum extent of 4.0 metres;
  - (ii) elevator shafts and **structures** that enclose, screen or cover the equipment, **structures** and parts of a **building** listed in (i) above to a maximum extent of 7.0 metres;
  - (iii) exterior chimneys, pipes and vents may further exceed the permitted maximum **building** height, or exceed the permitted maximum height by an amount in addition to that described in (i) above by 3.0 metres; and
  - (iv) screens or other unenclosed **structures** used to mitigate wind or noise, balustrades, railings, guards, dividers, pergolas, trellises, eaves, privacy screens, skylights, access hatches, window washing equipment, lightning rods, terraces, **landscaping** elements, and **structures** located on the roof used for outdoor **amenity space** and outside or open air recreation, to a maximum extent of 4.0 metres;
- (N) the definition of "Tower" in By-law 428-2023 prevails over the definition of "tower" described in regulation 40.5.40.10(8);
- (O) Despite regulation 40.5.75.1(2)(A)(ii), a photovoltaic **solar energy** device or a thermal **solar energy** device that is located on a **building** may exceed the permitted maximum height for a building by 2.0 metres, and where located on top of a mechanical penthouse, the devices may exceed the additional permitted maximum height of the mechanical penthouse by 2.0 metres;
- (P) Despite regulation 40.10.40.40(1), the permitted maximum **gross floor area** of all **buildings** and **structures** on the **lot** is 64,700 square metres, of which:
- (i) the permitted maximum **gross floor area** for residential uses is 59,000 square metres;
  - (ii) the required minimum **gross floor area** for non-residential uses is 4,700 square metres; and
  - (iii) for the purpose of this exception, **gross floor area** does not include elements listed in (T)(i) below;
- (Q) Despite regulation 40.5.40.40(3), the **gross floor area** of a **mixed use building** is reduced by the area in the **building** used for:
- (i) all areas located below ground;
  - (ii) all **loading spaces**;
  - (iii) all **bicycle parking spaces** and the entirety of the room separated by demising walls containing those **bicycle parking spaces**;
  - (iv) all storage rooms, washrooms, electrical, utility, mechanical and ventilation rooms that are not within a **dwelling unit**;
  - (v) all shower and change facilities not within a **dwelling unit**;
  - (vi) all indoor **amenity space**;
  - (vii) elevator shafts;

- (viii) garbage shafts;
  - (ix) mechanical penthouse;
  - (x) exit stairwells; and
  - (xi) all areas open to below or voids in floors;
- (R) The permitted maximum area of the tower floor plate located in a "Tower" is 750.0 square metres, as measured from the exterior of the main wall of each floor level and inclusive of the entire floor, excluding inset balconies and other elements listed in (T)(i) below;
- (S) Despite regulations 40.10.40.70(1), 40.10.40.70(4) and 40.10.40.80(1), the required minimum **building setbacks** and **main wall** separation distances are as shown in metres on Diagram 3 of By-law 428-2023;
- (T) Despite (S) above and Clauses 40.10.40.60 and 40.5.40.60, the following **building** elements may encroach into required **building setbacks** and separation distances as follows:
- (i) Architectural features and parapets, cornices, piers, eaves, pre-cast elements, roof overhands, mouldings, sills, scuppers, rain water leaders, lighting fixtures and bay windows to a maximum of 0.9 metre;
  - (ii) Balconies, guard rails and window washing equipment, to a maximum of 1.5 metres;
  - (iii) Doors to a maximum of 1.0 metres;
  - (iv) Retaining walls, stairs and ventilation shafts, to a maximum of 2.5 metres; and
  - (v) Decks, porches, canopies and awnings, stoops, trellises, privacy screens, awnings and/ or other similar shade devices and their associated structural elements, utility meters and their associated enclosures, railings, vents and wind mitigation structures to a maximum of 4.0 metres;
- (U) Two pedestrian accesses to the "Landscaped Courtyard Area", identified as "Gateway to Open Space Zones" must have minimum widths and vertical clearances as shown on Diagram 3 of By-law 428-2023 and must comply with the following:
- (i) The northern "Gateway to Open Space Zone" must have a minimum vertical clearance of 8.5 metres; and
  - (ii) The southern "Gateway to Open Space Zone" must not have any vertical obstructions by a **building** or **structure**;
- (V) Despite regulation 40.10.40.50(1), **amenity space** must be provided in accordance with the following:
- (i) a minimum of 2.0 square metres of indoor **amenity space** per **dwelling unit**;
  - (ii) a minimum of 2.0 square metres of outdoor **amenity space** per **dwelling unit**;
  - (iii) at least 40.0 square metres of outdoor **amenity space** is required to be in a location adjoining or directly accessible to the indoor **amenity space**; and
  - (iv) no portion of the **green roof** is considered outdoor **amenity space**;
- (W) Regulation 40.10.40.50(2), with regards to **amenity space** for **buildings** with non-residential uses in SS1 areas, does not apply;
- (X) Despite regulation 40.10.50.10(1)(A):
- (i) a combined minimum of 1,825 square metres of **landscaping** and **soft landscaping** are required to be provided on the **lot** within the "Landscaped Courtyard Area", of which also:
    - (a) forms a continuous connection between the two "Gateway to Open Space Zones" identified on Diagram 3 of By-law 428-2023;
    - (b) is "publicly accessible space";
    - (c) the provision of an **outdoor patio** which is **ancillary** to non-residential uses reduces the required **landscaping** and **soft landscaping** described in (X)(i) above to a maximum of 10 percent of that required area; and
    - (d) The **landscaping** and **soft landscaping** provided for the exclusive use as a private yard for **dwelling units** abutting the "Landscaped Courtyard Area" do not satisfy the requirements of (X)(i) above;

- (Y) Despite regulations 40.10.80.10(1) and 40.10.80.20(1) and (2), **parking spaces** are not permitted to be located above ground;
- (Z) Despite regulation 40.10.90.10(1), all **loading spaces** must be located inside a **building**;
- (AA) Despite clauses 40.10.90.40 and 40.10.100.10, all **vehicle** access and access to **loading spaces** are required to be from St. Alban's Road, Adobigok Pathway or Biindagen Trail;
- (BB) Despite regulation 200.5.1.10(2)(A)(iv), a maximum of 10 percent of obstructed **parking spaces** are not required to provide 0.3 metres of additional width for each obstructed side;
- (CC) Despite regulation 200.15.1(1), an accessible **parking space** must have the following dimensions:
  - (i) length of 5.6 metres;
  - (ii) width of 3.4 metres; and
  - (iii) vertical clearance of 2.1 metres;
- (DD) Despite regulation 200.5.1.10(12)(C), a **vehicle** entrance or exit to the **building** must be at least 3.5 metres from the **lot line** abutting the **street**;
- (EE) Despite regulation 40.5.80.10(1), a maximum of 30 percent of the required residential visitor and non-residential **parking spaces** may be provided on "the lands located northeast of the intersection of Kipling Avenue and Dundas Street West";
- (FF) Despite regulation 200.5.1.10(2) and 200.5.1(3), any **parking space** provided as part of **public parking** may have a minimum length of 5.2 metres, provided they are accessed by a **drive aisle** having a width of 7.0 metres or greater;
- (GG) Despite regulation 200.15.1(4), accessible **parking spaces** must be **parking spaces** located closest to a pedestrian access to a **building** or a passenger elevator that provides access to the first **storey** of the **building**;
- (HH) Despite Clause 220.5.10.1 and regulation 40.10.90.1, a minimum of 2 Type "B" **loading spaces**, 1 Type "C" **loading space** and 1 Type "G" **loading space**, are required to be provided on the **lot**;
  - (II) Regulation 220.5.20.1(2) regarding **loading space** access does not apply;
- (JJ) Despite regulation 230.5.1.10(10), both "short-term" and "long-term" **bicycle parking spaces** may be located in a **stacked bicycle parking space**;
- (KK) Regulation 230.5.1.10(4) will apply with the exception that, if a **stacked bicycle parking space** is provided in a mechanical device, where any portion of a bicycle is situated above or below any portion of an adjacent bicycle, the minimum required width of each such **stacked bicycle parking space** is 0.43 metres;
- (LL) Despite regulation 230.5.10.1(6), to calculate **bicycle parking space** requirements for other than **dwelling units**, the **interior floor area** of a **building** is reduced by the area in the **building** used for:
  - (i) all areas located below ground;
  - (ii) all **loading spaces**;
  - (iii) all **bicycle parking spaces** and the entirety of the room separated by demising walls containing those bicycle parking spaces;
  - (iv) all storage rooms, washrooms, electrical, utility, mechanical and ventilation rooms;
  - (v) all shower and change facilities;
  - (vi) all indoor **amenity space**;
  - (vii) elevator shafts;
  - (viii) garbage shafts;
  - (ix) mechanical penthouse;
  - (x) exit stairwells; and
  - (xi) all areas open to below or voids in the floor;

(A) On 2732-2750 Lakeshore Boulevard (North side), former City of Etobicoke by-law 1980-189.

(857) Exception CR 857

The lands, or a portion thereof as noted below, are subject to the following Site Specific Provisions, Prevailing By-laws and Prevailing Sections:

Site Specific Provisions:

- (A) On 25 St. Mary Street, if the requirements of By-law 596-2023 are complied with, a **building** or **structure** may be constructed, used or enlarged in compliance with Regulations (B) to (FF) below;
- (B) Despite Regulations 40.5.40.10(1) and (2), the height of a **building** or **structure** is the distance between the Canadian Geodetic Datum of 113.5 metres and the elevation of the highest point of the **building** or **structure**;
- (C) In addition to the uses permitted in Regulation 40.10.20.10(1) a "geo-energy facility" is permitted;
- (D) Despite Regulation 40.10.20.20(1)(A), an **outdoor patio** is not subject to Regulation 40.10.20.100(21)(A),(D), and (F);
- (E) Despite Regulation 40.10.20.100(33), 150.100.20.1(1)(A) there is no maximum **interior floor area** for the uses noted in 150.100.20.1(1)(A)(vi);
- (F) Despite Regulation 40.10.20.40(1), **dwelling units** are permitted in an **apartment building** or **mixed-use building** on the lot;
- (G) Despite Regulation 40.10.40.1(1), residential use portions of the **building** are permitted to be located on the same **storey** or below non-residential use portions of the **building**;
- (H) For the purposes of this exception, a mezzanine does not constitute a **storey**;
- (I) Despite Regulation 40.10.40.10(1), the permitted maximum height of a **building** or **structure** is the number in metres following the letters "HT" as shown on Diagram 3 of By-law 596-2023;
- (J) Despite Regulations 40.5.40.10 (3), (4), (5)(B), (6), (7) and (8) and (I) above, the following equipment and **structures** may project beyond the permitted maximum height shown on Diagram 3 of By-law 596-2023:
  - (i) Elements on or above any roof used for elevator-related structural elements and elevator shafts, cooling towers, antennae, and **building** maintenance units by a maximum of 5.0 metres;
  - (ii) Elements on or above any roof used for chimneys, pipes, flues, stacks, vents, enclosed stairwells, renewable energy facilities and devices, window washing equipment, and roof access by a maximum of 3.0 metres;
  - (iii) Elements on or above any roof used for ornamental or architectural features, parapets and elements, by a maximum of 3.0 metres;
  - (iv) **structures** that enclose, screen or cover the equipment, **structures** and parts of a **building** listed in (i) and (ii) above, by a maximum of 3.0 metres;
  - (v) Elements on or above any roof used for lightning rods by a maximum of 5.0 metres;
  - (vi) **structures** associated with a **green roof** by a maximum of 3.0 metres;
  - (vii) trellises, pergolas, louvres associated with rooftop **amenity space** and **day nursery** outdoor space, and unenclosed **structures** providing safety or wind protection to rooftop **amenity space** and **day nursery** outdoor space by a maximum of 6.0 metres; and
  - (viii) planters, **landscaping** features, guard rails, and divider screens on a balcony and/or terrace by a maximum of 3.0 metres;
- (K) Despite (I) above, no part of a **building**, except for any structural elements and associated cladding, may be located between the Canadian Geodetic Datum elevation of 113.5 metres and:
  - (i) a minimum vertical clearance of 3.0 metres in the shaded area on Diagram 3 of By-law 596-2023; and
  - (ii) a minimum vertical clearance of 9.0 metres in the hatched area on Diagram 3 of By-law 596-2023

- (L) Despite Regulation 40.10.40.40(1), the permitted maximum **gross floor area** of all **buildings** and **structures** on the **lot** is 85,600 square metres, subject to the following:
- (i) the required minimum **gross floor area** for non-residential uses is 1,010 square metres, of which:
    - (a) the required minimum **interior floor area** for a **day nursery** is 710 square metres;
- (L)
- (M) Despite Regulation 150.45.40.1(1), a **day nursery** use may be located on the first or second **storey** of a **building**;
- (N) In addition to the elements listed in Regulation 40.5.40.40(3), the **gross floor area** of a **building** may also be reduced by the following areas:
- (i) storage rooms, washrooms, electrical, utility, service corridors, mechanical and ventilation rooms, moving rooms, mail / parcel room, bicycle parking, firefighter central alarm control facilities (CACF), below-ground at, or above-ground; and
  - (ii) indoor **amenity space** to a maximum of 2.25 square meters per **dwelling unit**;
- (O) Despite Regulation 40.10.40.50(1) and (2), a **building** with 20 or more **dwelling units** must provide **amenity space** on the **lot** at the following rate:
- (i) at least 2.25 square metres for each **dwelling unit** as indoor **amenity space**;
  - (ii) at least 1.25 square metres of outdoor **amenity space** for each **dwelling unit**;
  - (iii) a maximum of 0.5 square metres per **dwelling unit** of indoor **amenity space** may be located below-ground; and
  - (iv) no more than 25 percent of the outdoor component may be a **green roof**;
- (P) Despite Regulation 40.5.40.70(1), 40.10.40.70(1), and Article 600.10.10 the required minimum **building setbacks** are as shown in metres on Diagram 3 of By-law 596-2023;
- (Q) Despite Regulation 40.10.40.80(1), the required separation of **main walls** are as shown in metres on Diagram 3 of By-law 596-2023;
- (R) Despite Clause 40.10.40.60, (P) and (Q) above, the following elements may encroach into the required minimum **building setbacks** and **main wall** separation distances as follows:
- (i) Balconies may encroach a maximum of 1.5 metres provided they:
    - (a) are not located on **main walls** of the West Building that are within 2.5 metres of the intersection of two **main walls**, as shown on Diagram 3 of By-law 596-2023, at and above 35.0 metres in height;
    - (b) do not occupy more than 50 percent of the length of any **main wall** of the West Building as shown on Diagram 3 of By-law 596-2023 at and above 35.0 metres in height;
    - (c) are not located on **main walls** of the East Building that are within 2.5 metres of an area of the East Building where two **main wall** adjoin, as shown on Diagram 3 of By-law 596-2023 at and above 22.0 metres in height; and
    - (d) do not occupy more than 50 percent of the length of any **main wall** of the East Building as shown on Diagram 3 of By-law 596-2023 at and above 22.0 metres in height;
  - (ii) exterior stairs, access ramps and elevating devices, by a maximum of 1.0 metre;
  - (iii) cladding added to the exterior surface of the **main wall** of a **building**, by a maximum of 1.0 metre;
  - (iv) architectural features, such as a pilaster, decorative column, cornice, sill, belt course, or chimney breast, by a maximum of 1 metre;
  - (v) window projections, including bay windows and box windows, by a maximum of 1.0 metre;
  - (vi) eaves, by a maximum of 1.0 metre;
  - (vii) a dormer, by a maximum of 1.0 metre;
  - (viii) air conditioners, satellite dishes, antennae, vents, and pipes, by a maximum of 1.0 metre; and
  - (ix) canopies and awnings with or without support,
    - (a) to the same extent as the platform it is covering; and

- (b) if it is not covering a platform, the canopy or similar **structure** to a maximum of 2.5 metres if it is no closer than 0 metres from a **lot line**;
- (S) Despite Regulation 200.5.1.10(2)(A)(iv), a maximum of 20 percent of the required **parking spaces** may be obstructed as described in Regulation 200.5.1.10(2)(D) without being required to provide additional width for the obstructed sides of the **parking space**;
- (T) Despite Regulation 200.5.1.10(2), a maximum of 20 percent of the total number of **parking spaces** may have the following minimum dimensions:
  - (i) minimum width of 2.4 metres;
  - (ii) minimum length of 5.4 metres; and
  - (iii) minimum vertical clearance of 1.8 metres
- (U) Despite Regulations 200.5.1.10(2)(A) and (D), Electric Vehicle Infrastructure, including electric **vehicle** supply equipment, does not constitute an obstruction to a **parking space**;
- (V) Despite Regulation 200.5.10.1(1), (4), (5), and (6), and Table 200.5.10.1, **parking spaces** must be provided in accordance with the following:
  - (i) a minimum of 0 residential occupant **parking spaces** for each **dwelling unit**;
  - (ii) a minimum 2.0 **parking spaces** plus 0.01 **parking spaces** per **dwelling unit** for residential visitors
  - (iii) a minimum 2.0 "car-share parking spaces";
  - (iv) a minimum of 1 **parking spaces** for the **day nursery** use; and
  - (v) a minimum of 0 **parking spaces** for non-residential uses;
  - (vi) for the purpose of this exception, "car-share" or "car-sharing" means the practice where a number of people share the use of one or more motor **vehicles** that are owned by a profit or non profit car- sharing organization and where such organization may require that use of motor **vehicles** be reserved in advance, charge fees based on time and/or kilometres driven, and set membership requirements of the car sharing organization, including the payment of a membership fee that may or may not be refundable; and
  - (vii) for the purpose of this exception, "car-share parking space" means a **parking space** that is reserved and actively used for "car-sharing";
- (W) Despite Regulation 200.5.10.1(1) and Regulation (V)(ii), "car share parking spaces" may replace **parking spaces** otherwise required for visitors;
- (X) Despite Regulations 200.15.10(1) and (2), a minimum of 2 of the required **parking spaces** on the lot must be accessible **parking spaces**;
- (Y) Despite Regulations 220.5.10.1 (1), (2), (3), **loading spaces** must be provided as follows:
  - (i) A minimum of 1 Type "G" **loading space**; and
  - (ii) A minimum of 1 Type "C" **loading space**;
- (Z) Despite regulation 230.5.1.10(4)(A), the required minimum dimensions of a **bicycle parking space** is:
  - (i) length of 1.7 metres;
  - (ii) width of 0.3 metres; and
  - (iii) vertical clearance of 1.9 metres;
- (AA) An area used to provide **bicycle parking spaces** must have a minimum vertical clearance of 2.4 metres if it is a **stacked bicycle parking space** and 1.9 metres in all other cases;
- (BB) A **bicycle parking space** if placed in a vertical position on a wall, structure or mechanical device must have a minimum length or vertical clearance of 1.9 metres, minimum width of 0.4 metres, and minimum horizontal clearance from the wall of 1.2 metres;
- (CC) Despite Regulation 230.5.1.10(10), "short-term" **bicycle parking spaces** may also be located in a **stacked bicycle parking space**;
- (DD) Despite Regulation 230.5.1, "short-term" **bicycle parking spaces** may be located below-ground, and at and above-ground up to and including the second **storey**;
- (EE) The provision of **dwelling units** is subject to the following:

- (i) A minimum of 15 percent of the total number of **dwelling units** must contain two bedrooms;
  - (ii) A minimum of 10 percent of the total number of **dwelling units** must contain three or more bedrooms;
  - (iii) An additional 15 percent of the total number of **dwelling units** will be any combination of two bedroom and three bedroom **dwelling units**, or **dwelling units** that can be converted into any combination of two and three bedroom **dwelling units**;
  - (iv) Convertible **dwelling units** as described in (EE)(iii) above, may be converted using accessible or adaptable design measures, such as knockout panels; and
  - (v) None of the above apply to rental replacement **dwelling units** provided in accordance with Section 111 of the Municipal Code
- (FF) For the purpose of this exception, a "geo-energy facility" means premises containing devices to generate **geo- energy** for the exclusive use of the **building**.

Prevailing By-laws and Prevailing Sections: (None Apply)

(1184) Exception CR 1184

The lands, or a portion thereof as noted below, are subject to the following Site Specific Provisions, Prevailing By-laws and Prevailing Sections:

Site Specific Provisions:

- (A) Despite Article 40.10.20, a **vehicle dealership** is permitted if it complies with Section 150.90 of this By-law;
- (B) Despite Article 40.10.20, a **vehicle service shop** is permitted if it complies with Section 150.94 of this By-law;
- (C) The permitted maximum **gross floor area**, not including the area used for interior walkways, is 0.4 times the area of the **lot**; and
- (D) The minimum **building setback** from a **lot line** that abuts a **street** is the greater of 21.0 metres from the centre line of Finch Ave. East or 3.0 metres from the **lot line** abutting Finch Ave. East.

Prevailing By-laws and Prevailing Sections: (None Apply)

(1186) Exception CR 1186

The lands, or a portion thereof as noted below, are subject to the following Site Specific Provisions, Prevailing By-laws and Prevailing Sections.

Site Specific Provisions:

- (A) On the lands at 705 Warden Avenue subject to By-law 536-2020, a **building, structure**, addition or enlargement may be erected or used if it complies with (B) to (EE) below.
- (B) For the purposes of this exception:
  - (i) **lot** is defined as the lands outlined by black lines collectively comprising Area A, Area B and Area C identified on Diagram 1 attached to By-law 536-2020;
  - (ii) **lot line** is defined to include the boundary of any of Areas A, Area B and Area C identified on Diagram 1 attached to By-law 536-2020; and
  - (iii) Area A, Area B, Area C are defined to include the corresponding area within the **lot** as identified on Diagram 1 attached to By-law 536-2020.
- (C) Despite regulations 40.10.20.10(1)(A) and 40.10.20.20(1)(A), the only permitted non-residential uses are as follows:
  - (i) in **Area A**, **public parking**, provided it is located below ground, office, **day nursery** and the retail, service and entertainment uses listed in (D) below;
  - (ii) in **Area B**, **public parking**, provided it is located below ground, and **day nursery**; and
  - (iii) in **Area C**, office and **transportation uses**.

- (D) Despite regulations 40.10.20.10(1)(A) and 40.10.20.20(1)(A), permitted retail, service and entertainment uses are limited to **art gallery, artist studio, automated banking machine, financial institution, eating establishment, massage therapy**, medical office, **outdoor patio, personal service shop, pet services, recreation use, retail service, retail store or take-out eating establishment**.
- (E) The permitted maximum height of any **building or structure** is the height in metres specified by the numbers following the symbol HT as shown on Diagrams 5(a) and 5(b) attached to By-law 536-2020.
- (F) Despite regulations 40.5.40.10(1) and 40.5.40.10(2), the height of a **building or structure** is the distance between the following Canadian Geodetic Data and the elevation of the highest point of the **building or structure** within the specified portion of the **lot**:
- (i) in **Area A**, 146.7 metres;
  - (ii) in **Area B**, 147.3 metres; and
  - (iii) in **Area C**, 150.5 metres.
- (G) Despite regulation 40.10.40.70(2), the required minimum **building setbacks** in metres are as shown on Diagrams 5(a) and 5(b) of By-law 536-2020.
- (H) Despite regulation 40.10.40.70(2):
- (i) in **Area A**, a **building or structure**, except the **structures** identified in (X) below, may not penetrate:
    - (a) a 45 degree **angular plane**, measured at a line parallel to and at a height of 16.0 metres above the average elevation of the ground along a **lot line** that abuts Roper Road;
  - (ii) in **Area A**, within the area labelled HT 22.0 as shown on Diagram 4 attached to By-law 536-2020, a **building or structure**, except the **structures** identified in (X) below, may not penetrate:
    - (a) a 45 degree **angular plane**, measured at a line parallel to and at a height of 14.8 metres above the average elevation of the ground along a **lot line** that abuts the New Public Street shown on Diagram 1 attached to By-law 536-2020; and
  - (iii) in **Area C** a **building or structure** except the **structures** identified in (X) below, may not penetrate:
    - (a) a 45 degree **angular plane** projected from the average elevation of the ground along a **lot line** of a Residential Zone category **lot**; and
    - (b) a 45 degree **angular plane**, measured at a line parallel to and at a height of 14.8 metres above the average elevation of the ground along a **lot line** that abuts the New Public Street shown on Diagram 1 attached to By-law 536-2020.
- (I) In **Area A**, any above-ground portion of a **building**, excluding a pedestrian connection or walkway, must have a minimum separation distance of 15.0 metres, measured between **main walls**, from any above-ground portion of a **building** on the opposite side of Publicly-accessible Open Space 1 and the Publicly-accessible Pedestrian Connection identified on Diagram 1 attached to By-law 536-2020.
- (J) In **Area A**, within the area labelled HT 64.0 as shown on Diagram 5(a) attached to By-law 536-2020, the portions of a **building or structure** located above a height of 19.0 meters must:
- (i) not exceed a maximum floor area, measured from the exterior of the **main wall** of each floor level and inclusive of the entire floor, of 750 square metres.
- (K) In **Area B**, the portions of a **building or structure** located above a height of 17.0 meters must:
- (i) not exceed a maximum floor area, measured from the exterior of the **main wall** of each floor level and inclusive of the entire floor, of 750 square metres.
- (L) Despite regulation 40.10.40.60(1), a platform or balcony attached to the **main wall** with a floor level higher than the floor level of the first **storey** of the **building**:
- (i) may not be provided on the **main wall** directly above and adjacent to (within 1 metre) of the outdoor area associated with the **day nursery** use;
  - (ii) must be inset and must not be located closer to a **lot line** than the **main wall** to which it is attached:

- (a) in **Area A**, between the second and fifth **storeys** of the **building** inclusive; and
  - (b) in **Area B**, between the second and fourth **storeys** of the **building** inclusive; and
- (iii) may project a maximum of 1.5 metres from the **main wall** to which it is attached:
  - (a) in **Area A**, above the first five **storeys** of the **building**; and
  - (b) in **Area B**, above the first four **storeys** of the **building**.
- (M) The permitted maximum **gross floor area** of all **buildings** and **structures** on the **lot** is 60,000 square metres, excluding the area occupied by a **parking garage** or **public parking** below ground, provided:
  - (i) the maximum **gross floor area** for residential uses is 45,800 square metres;
  - (ii) despite Clause 40.10.20.100, the combined minimum **gross floor area** for retail, service and entertainment uses listed in (D) above and office in **Area A** is 500 square metres and the combined maximum **gross floor area** is 1,500 square metres;
  - (iii) a minimum **gross floor area** of 800 square metres must be provided for **day nursery uses** in **Area A** or **Area B**; and
  - (iv) the maximum **gross floor area** for office and **transportation uses** is 13,000 square metres in **Area C**.
- (N) A minimum outdoor area of 278 square metres associated with the **day nursery** use must be provided contiguous with the **interior floor area** of the **day nursery** and must be set back at least 1 metre from a **lot line**.
- (O) Despite regulation 40.10.40.1(1), all residential use portions of the **building** must be located above non-residential use portions of a **building**, other than:
  - (i) residential lobby access;
  - (ii) related residential uses such as mail room, management office, and storage;
  - (iii) **dwelling units** located in the first **storey** of a **building** if the **dwelling units** have direct access to a **street**; and
  - (iv) **dwelling units** located in **Area A**, if the **dwelling units** have access facing the south **lot line** as shown on Diagram 1 attached to By-law 536-2020.
- (P) Publicly-accessible open space comprising **landscaping** must be provided as follows:
  - (i) a minimum of 300 square metres in the general location of Publicly-accessible Open Space 1 identified on Diagram 1 attached to By-law 536-2020;
  - (ii) a minimum of 100 square metres located in the general location of Publicly-accessible Open Space 2 identified on Diagram 1 attached to By-law 536-2020; and
  - (iii) a pedestrian connection that is publicly accessible must be provided in the general location of the Publicly-accessible Pedestrian Connection identified on Diagram 1 of By-law 536-2020.
- (Q) Despite regulation 40.10.100.10(1), a maximum of 3 **vehicle** accesses are permitted, subject to the following:
  - (i) each **vehicle** access must be from the **street** labelled "New Public Street" as shown on Diagram 1 attached to By-law 536-2020; and
  - (ii) a maximum of 1 **vehicle** access is permitted for each of **Area A**, **Area B** and **Area C**.
- (R) Despite regulation 200.5.10.1(1), **parking spaces** must be provided, in accordance with the following:
  - (i) a minimum of 0.46 **parking spaces** for each **dwelling unit** for the residents;
  - (ii) a minimum of 0.1 **parking spaces** for each **dwelling unit** for visitors to the **dwelling units**;
  - (iii) a minimum of 2 **parking spaces** must be provided for **day nursery** uses;
  - (iv) a minimum rate of 1.0 **parking space** for each 100 square metres of **gross floor area** for office and **transportation uses** in **Area C**;
  - (v) the minimum required parking for residents can be reduced by up to 4 **parking spaces** for each dedicated car-share space, provided;

- (a) the maximum allowable reduction in the minimum required parking for residents is calculated by  $4 * (\text{total number of units} / 60)$ , rounded down to the nearest whole number; and
- (vi) no **parking spaces** are required for retail, service and entertainment uses listed in (D) above and office uses in **Area A**.
- (S) Despite regulation 40.5.80.1(1), a portion of the **parking spaces** required by regulations (R)(i) and (ii) above may be provided for the shared use of residents, residential visitors, non-residential uses on the lands and other uses as part of a **public parking** use.
- (T) Despite regulations 200.5.1.10(2) and 200.5.1(3), the **public parking parking spaces** permitted by regulation (S) above may have a minimum length of 5.2 metres, provided they are accessed by a **drive aisle** having a width of 7.0 metres or more.
- (U) Despite clause 220.5.10.1, **loading spaces** must be provided in accordance with the following:
  - (i) in **Area A**, a minimum of 1 Type "G" **loading space**;
  - (ii) in **Area B**, a minimum of 1 Type "G" **loading space**; and
  - (iii) in **Area C**, a minimum of 2 Type "B" **loading spaces**.
- (V) A minimum of 15 percent of the total number of **dwelling units** must contain two bedrooms.
- (W) A minimum of 10 percent of the total number of **dwelling units** must contain a minimum of three bedrooms.
- (X) Despite regulation 40.5.40.10(4), the following equipment and **structures** located on the roof of a **building** may exceed the permitted maximum height for that **building** by 5.0 metres, subject to regulation (Y) below:
  - (i) equipment used for the functional operation of the **building**, such as electrical, utility, mechanical and ventilation equipment;
  - (ii) **structures** or parts of the **building** used for the functional operation of the **building**, such as enclosed stairwells, roof access, maintenance equipment storage, elevator shafts, chimneys, vents, and water supply facilities; and
  - (iii) **structures** that enclose, screen or cover the equipment, **structures** and parts of a **building** listed in (i) and (ii) above.
- (Y) Despite regulation 40.5.40.10(5), equipment, **structures** or parts of a **building** exceeding the maximum permitted height of a **building**, as permitted by regulation (X) above, must comply with the following:
  - (i) the total area of all equipment, **structures**, or parts of a **building** may not cover more than 30 percent of the area of the roof, measured horizontally; and
  - (ii) if any equipment, **structures**, or parts of a **building** are located within 6.0 metres of a **lot line** abutting a **street**, their total horizontal dimension, measured parallel to the **street**, may not exceed 20 percent of the width of the **building's main walls** facing that **street**.
- (Z) Despite regulation 40.10.40.10(5), in **Area A** and **Area B**, the required minimum height of the first **storey**, measured between the floor of the first **storey** and the ceiling of the first storey, is 4.5 metres for non-residential uses and 3.0 metres for residential uses.
- (AA) Despite regulation 40.5.80.10(1), a **parking space** must be on the same **lot** as the use for which the **parking space** is required.
- (BB) Despite section 200.15, accessible **parking spaces** must be provided in accordance with the following:
  - (i) an accessible **parking space** must have the following minimum dimensions:
    - (a) length of 5.6 metres;
    - (b) width of 3.4 metres; and
    - (c) vertical clearance of 2.1 metres;
  - (ii) the entire length of an accessible **parking space** must be adjacent to a 1.5 metre wide accessible barrier free aisle or path as shown on Diagram 1 and Diagram 2 of By-law 579-2017;
  - (iii) accessible **parking spaces** must be provided at the following minimum rates:

- (a) if the number of required **parking spaces** is 25 to 100, a minimum of 1 **parking space** for every 25 parking spaces or part thereof; and
  - (b) if the number of required **parking spaces** is more than 100, a minimum of 4 **parking spaces** plus 1 **parking space** for every 50 **parking spaces**, or part thereof, in excess of 100 **parking spaces**;
  - (iv) for the purpose of this exception, "accessible" means free of physical, architectural or design barriers that would restrict access of use to a person with a disability as defined in the Accessibility for Ontarians with Disabilities Act, 2005, S.O. 2005, c.11, as amended; and
  - (v) accessible **parking spaces** must be the **parking spaces** located closest to a main pedestrian access to a **building**.
- (CC) Regulation 230.5.1.10(4) will apply with the exception that, if a **stacked bicycle parking space** is provided in a mechanical device, where any portion of a bicycle is situated above or below any portion of an adjacent bicycle, the minimum required width of each such **stacked bicycle parking space** is 0.43 metres.
- (DD) Despite regulation 230.5.1.10(9), a required "long-term" **bicycle parking space** for **dwelling units** and uses other than **dwelling units** may be located:
- (i) on the first **storey** of the **building**;
  - (ii) on the second **storey** of the **building**; or
  - (iii) on levels of the **building** below-ground commencing with the first level below-ground and moving down, in one level increments when at least 50 percent of the area of that level is occupied by **bicycle parking spaces**, until all required **bicycle parking spaces** have been provided.
- (EE) Despite regulation 5.10.30.1(1), within the lands shown on Diagram 1 attached to By-law 536-2020, no land may be used and no **building** or **structure** may be erected or used, except for below-ground **structures** and foundations, unless:
- (i) the **street** identified as New Public Street, as shown on Diagram 1 attached to By-law 536-2020, is constructed to a minimum base curb and base asphalt or concrete and is connected to an existing **street**; and
  - (ii) all Municipal water mains and Municipal sewers, and their appurtenances, are installed within the **street** identified as New Public Street, as shown on Diagram 1 attached to By-law 536-2020, and are operational.

**(1227) Exception CR 1227**

The lands, or a portion thereof as noted below, are subject to the following Site Specific Provisions, Prevailing By-laws and Prevailing Sections.

Site Specific Provisions:

- (A) Despite Clause 40.10.20.20, a **home occupation** within the 3 northernmost units, located at-grade and fronting Perth Avenue, are not subject to regulations 150.5.20(1)(A) and (B), (2), (4), (6), 150.5.40.1(1), and 150.5.40.40(1). A **home occupation**, subject to the conditions set out in regulation 40.10.20.20 (1) (B), shall be permitted for all other **dwelling units** on the **lot**.
- (B) Despite Regulation 40.10.40.10(2), the permitted maximum height of a **building** or **structure** is the numerical value following the symbol "HT" and the permitted maximum number of **storeys** is the numerical value following the symbol "ST" as shown on Diagram 3 of By-law 182-2022.
- (C) Despite Regulation 40.10.40.10(5), the required minimum height of the first **storey** is 4.35 metres.
- (D) Despite Regulation (B) above and Regulations 40.5.40.10(4), (6), and (7), the following elements may project above the permitted maximum height:
  - (i) **structures** on any roof used for outdoor **amenity space** or open air recreation, maintenance, safety or wind protection purposes provided such projections are limited to a maximum vertical projection of 3.0 metres beyond the maximum height in metres as shown on Diagram 3 of By-law 182-2022;
  - (ii) **structures** on any roof used for **green roof** purposes, vestibules providing access to outdoor **amenity space**, cooling towers, parapets, parapet wall, mechanical and architectural screens, chimneys, vents, flues, stacks, mechanical fans, window washing equipment, **structures** and elements related to drainage, **structures** and elements associated with green energy and renewable energy facilities provided such projections are limited to a maximum vertical projection of 2.0 metres beyond the maximum height in metres as shown on Diagram 3 of By-law 182-2022; and
  - (iii) a **storey** used exclusively for the storage of mechanical, electrical or other equipment used for the functional operation of the **building**, elevators, and related structural elements, provided such vertical projections are limited to 5.6 metres beyond the maximum height in metres as shown on Diagram 3 of By-law 182-2022.
- (E) Despite Regulation 40.10.40.40(1), the total residential **gross floor area** of the **building** or **structure** must not exceed a maximum of 9,700 square metres.
- (F) The maximum permitted number of **dwelling units** is 108, of which:
  - (i) A minimum of 30 percent must be two-bedroom **dwelling units**; and

- (B) On 88 Queen Street East, 10 Mutual Street and parts of 30-50 Mutual Street (being Parcels B and C in By-law 180-2005), if the requirements of By-law 1294-2018 are complied with, none of the provisions of regulations 40.10.40.10(1) and 40.10.40.40(1) apply to prevent the erection or use of a **building, structure**, addition or enlargement permitted in By-law 1294-2018 including compliance with (C) to (Z) below;
- (C) Prevailing Sections 12(2) 132, 12(2) 216, and 12(2) 259 of former City of Toronto By-law 438-86, as amended, do not apply to the lands subject to By-law 1294-2018;
- (D) Despite regulation 40.10.20.100(4) a **hotel** room or suite may be located in the same **storey** as a **dwelling unit**;
- (E) Despite regulation 40.10.40.40(1), the total **gross floor area** of all **buildings** and **structures** must not exceed 97,500 square metres, of which:
  - (i) a maximum of 86,250 square metres of **gross floor area** may be used for residential uses; and
  - (ii) a maximum of 11,750 square metres of **gross floor area** may be used for non-residential uses;
- (F) (F) The total number of **dwelling units** must not exceed 1,140;
- (G) A minimum of 50 percent of the total number of **dwelling units** must contain two or more bedrooms, and a minimum of 9 percent of the total number of **dwelling units** must contain three or more bedrooms;
- (H) (H) Despite regulation 40.5.40.10(1), the height of a **building** or **structure** is measured as the vertical distance between the Canadian Geodetic Datum elevation of 86.4 metres and the highest point of the **building** or **structure**;
- (I) (I) Despite regulations 40.10.40.10(1) and 40.5.40.10(4) the height of any **building** or **structure** must not exceed the maximum height in metres specified by the numbers following the letters "HT" as shown on Diagram 2 of By-law 1294-2018 with the exception of the following:

- (i) roof mounted mechanical equipment, aviation warning lights, and lightning protection may extend above the height limits to a maximum of 1.2 metres;
  - (ii) mechanical vents, stacks, flues, and waste management chute may extend above the height limits to a maximum of 1.8 metres; and
  - (iii) window washing equipment may extend above the height limits to a maximum of 3.2 metres;
- (J) Despite regulations 40.10.40.60(1)(B), 40.10.40.70(1) and 40.10.40.80(1), no portion of any **building** or **structure** above finished ground level is other than wholly within the areas delineated by heavy lines shown on Diagram 2 of By-law 1294-2018, with the exception of:
  - (i) underground garage ramps including associated enclosures and **structures**; and
  - (ii) balconies located only within the areas delineated and labeled "Area of Balcony Projection" on Diagram 2 of By-law 1294-2018 to a maximum of 1.5 metres;
- (K) Despite (J) above, no portion of any **building** or **structure** may be located between finished ground level and 5.0 metres above finished ground level within the areas delineated and labeled "Area of Privately Owned Publicly Accessible Pedestrian Walkway" on Diagram 3 of By-law 1294-2018, with the exception of the following:
  - (i) canopies and awnings may project up to 1.5 metres into the walkway area;
- (L) Despite regulation 40.5.40.10(6), unenclosed **structures** providing safety or wind protection to rooftop **amenity space** may exceed the permitted maximum height for that **building**;
- (M) Despite (I) and (J) above, a maximum of two (2) bridges between **buildings** may be permitted within the location shown in hatching on Diagram 2 of By-law 1294-2018 subject to the following:
  - (i) the maximum height of each bridge is one **storey**;
  - (ii) bridges must be unenclosed such that they do not contain **gross floor area**, however, they may contain unenclosed **structures** providing safety or wind protection to outdoor **amenity space**; and
  - (iii) bridges must be located above a height of 25.0 metres and below a height of 43.6 metres, measured between the Canadian Geodetic Datum elevation of 86.4 metres and the highest point of the bridge; [ By-law: 934-2020 ]
- (N) No portion of any **building** or **structure** above or below finished ground level may be located within the area delineated and labeled "Parkland Dedication" on Diagram 3 of By-law 1294-2018;
- (O) Regulation 600.10.10(1), with respect to tall building setbacks, does not apply;
- (P) Despite regulations 40.10.40.50(1) and (2), **amenity space** must be provided and maintained at a minimum rate of 2.5 square metres for each **dwelling unit**, of which:
  - (i) at least 1.5 square metres for each **dwelling unit** is indoor **amenity space**; and
  - (ii) at least 1.0 square metres for each **dwelling unit** is outdoor **amenity space**;
- (Q) Despite Table 200.5.10.1, **parking spaces** must be provided as follows:
  - (i) a minimum of 0.35 **parking spaces** for each **dwelling unit** for use by residents;
  - (ii) a minimum of 0.06 **parking spaces** for every **dwelling unit** for use by visitors, and such **parking spaces** may be designated as shared commercial/residential visitor **parking spaces** and may be provided within a **public parking** use; and
  - (iii) a minimum of 1.0 **parking spaces** for each 371 square metres of **hotel gross floor area**, and such **parking spaces** may be provided within a **public parking** use;
- (R) Despite regulation 200.5.1.10(2), a maximum of 15 of the required **parking spaces** for residents that are obstructed may have a minimum width of 2.6 metres;
- (S) Despite regulation 200.15.1(1), an accessible **parking space** must have the following minimum dimensions: length of 5.6 metres, width of 3.9 metres and vertical clearance of 2.1 metres;
- (T) Clause 200.15.1.5, with respect to the location of accessible **parking spaces**, does not apply;
- (U) For each car-share **parking space** provided, the minimum number of **parking spaces** required by (Q) above may be reduced by four **parking spaces**, up to a maximum reduction of eight **parking spaces**;
- (V) For the purpose of this Exception:

- (i) Car-share means the practice whereby a number of people share the use of one or more motor **vehicles** that are owned by a profit or non-profit car-sharing organization and such car-share motor **vehicles** are made available to at least the occupants of the **building** for short term rental, including hourly rental; and
- (ii) A car-share **parking space** means a **parking space** exclusively reserved and signed for a car used only for car-share purposes;
- (W) Despite regulation 230.5.1.10(10), both "long term" and "short term" **bicycle parking spaces** may be provided in a **stacked bicycle parking space**, with a minimum width dimension of at least 0.375 metres;
- (X) Despite Clause 220.5.10.1, a minimum of one **loading space** – type G, one **loading space** – type B and one **loading space** – Type C must be provided and maintained;
- (Y) Despite regulation 40.10.100.10(1), **vehicle** access may be shared access and within the lands delineated and labeled "By-law 180-2005 Parcel A" on Diagram 1 of By-law 1294-2018; and
- (Z) Despite (I), the height of any **building** or **structure**, including permitted exceptions, is subject to any further limitations as may be set out in a by-law passed under an agreement pursuant to section 5.81 of the Aeronautics Act, R.S.C. 1985 c. A-2.

  - (F) For the purpose of this Exception the sale, rental or leasing of bicycles is permitted as a **retail store** and the service, cleaning, repair and maintenance of bicycles is permitted as a **service shop** and both uses may operate in a single **premises**;
  - (G) Despite Regulation 40.10.40.1(1), **dwelling units** must be located above the first **storey** of a **building**;
  - (H) Despite Regulation 40.10.40.1(2), for any non-residential use, the floor level of the first **storey** must:
    - (i) Be within 0.2 metres of the ground measured at the **lot line** abutting the **street** directly opposite each pedestrian entrance which faces a **street**; and
    - (ii) Have a pedestrian access, other than service entrances, which, if not level with a walkway closest the entrance, is accessed by a ramp which rises no more than 0.04 metres vertically for every 1.0 metre horizontally;
  - (I) Despite Regulation 40.10.40.40(1), the permitted maximum **gross floor area** permitted on the **lot** is as follows:
    - (i) the **gross floor area** that existed in the Existing Buildings as shown on Diagram 6 of By-law 267-2021(LPAT) on January 1, 2019, plus 150 square metres; and
    - (ii) 23,800.0 square metres, of which a maximum of 3,300.0 square metres of **gross floor area** may be used for non-residential uses;
  - (J) In addition to the provisions of Regulation 40.5.40.40(3), the **gross floor area** of a **mixed use building** is reduced by the area in the **building** used for a below ground **public parking** facility, **amenity space** up to a maximum of 2.5 square metres per **dwelling unit** and the area in the **building** used exclusively for a **transportation use**;
  - (K) In addition to the provisions of Regulation 40.5.40.40(3) and (J) above, the **gross floor area** of a **mixed use building** is reduced by the area of a **building** occupied by any non-structural architectural or ornamental features that are attached to and project from the **main wall** of a **building**;
  - (L) Despite all of Clauses 40.5.40.70, 40.10.40.70 and 40.10.40.80 the required minimum **building setbacks** and the required minimum separation distances between **main walls** of **buildings** or **structures** above ground is shown on Diagram 6 of By-law 267-2021(LPAT);
  - (M) Despite Regulations 5.10.40.70 (1) and (2), Clauses 40.5.40.60, 40.5.40.70, 40.10.40.60 and (L) above, the following elements of a **building** may project into a required minimum **building setback** and a required minimum **main wall** separation distance as follows:
    - (i) lighting fixtures, cornices, sills, eaves, railings, planters, balustrades, bollards, stairs, awnings, fences, guards, guardrails, retaining walls, wheel chair ramps or other facilities providing barrier free access, public art and landscape features;
    - (ii) canopies to a maximum horizontal projection of 1.8 metres, with the exception that a canopy on Price Street, including supporting **structures**, may project up to 5.4 metres;
    - (iii) non-structural architectural or ornamental features may project up to 0.6 metres; and
    - (iv) **structures**, elements and enclosures permitted by regulation (N) below;
  - (N) Despite Clause 40.5.40.10 and Regulation 40.10.40.10(2), the permitted maximum **building** height in metres, measured from the average elevation of the ground along the **front lot line** to the highest point of the **building** is the numerical value in metres following the HT symbol on Diagram 6 of By-law 267-2021(LPAT) except for the following projections:
    - (i) **structures**, elements and enclosures permitted by regulation (M) above;

- (ii) **structures** on any roof used for outdoor **amenity space** or open air recreation, **amenity space**, safety, noise and wind protection and/or mitigation purposes, trellis, awnings and other similar shade devices and associated structures, chimneys, vents and stacks may exceed the permitted maximum **building** height by 3.0 metres;
  - (iii) terrace dividers, privacy screens, window washing equipment, parapets and a **green roof** may exceed the permitted maximum **building** height by 2.0 metres; and
  - (iv) chillers, generators, fresh air units may exceed the permitted maximum **building** height by 0.9 metre;
- (O) Despite Regulation 40.10.40.10(2) and (N) above, the permitted height of the Existing Buildings as shown on Diagram 6 of By-law 267-2021(LPAT) is the **building** height that existed on January 1, 2019, with the exception that:
  - (i) roof top mechanical equipment and related enclosures erected on the Existing Buildings subsequent to the passing of By-law 267-2021(LPAT) may project to a maximum of 5.0 metres above the permitted height of the Existing Buildings.
- (P) For the purpose of this Exception, the phrase "average elevation of the ground along the front lot line" and the term "**established grade**" is the Canadian Geodetic Datum elevation of 123.0 metres;
- (Q) Despite (L) and (N) above, no portion of a **building** or **structure** may be located within the shaded area shown on Diagram 6 of By-law 267-2021(LPAT) from finished ground to a vertical height of 8.5 metres, with the exception of window washing equipment and the permitted projections set out in (M)(i) and (ii) above;

- (D) The **floor** area devoted to the preparation of food and beverages, for any **eating establishment** on the lands, including associated **outdoor patio** space, need not be contiguous, connected to or located on the same floor as the premises where such food and beverages are consumed by the public provided that such **eating establishments** are **ancillary** to a **hotel** on the **lot** as outlined by heavy lines on Diagram 1 of By-law 698-2016;
- (E) The height of a **building** or **structure** on the lands must not exceed the height in metres specified by the numbers following the symbol "HT" on Diagram 3 of By-law 698-2016 including any vertical projections;
- (F) Despite (E) above, parapets, sky-lights, green roof elements, railings and ventilation equipment, may exceed the 5.0 metre and 9.0 metre height limits as indicated by the numbers following the symbol "HT" in Diagram 3 of By-law 698-2016 permitted in (E) above by By-law 698-2016 by not more than 1.5 metres;
- (G) The above grade portion of any **building** or **structure** must be wholly located within the areas delineated by the heavy lines shown on Diagram 3 of By-law 698-2016;
- (H) Despite (G) above, the following elements may be located on the lands outside of the heavy lines on Diagram 1 of By-law 698-2016, up to a maximum of 1.5 metres;
  - (i) Canopies, awnings, cornices, light fixtures, ornamental or architectural elements, parapets, window sills, bicycle racks, wheelchair ramps, mechanical air shafts, landscape features;
- (I) The required minimum above-ground distance between windows is 8.8 metres for windows located on the south façade of a **building** on the lands and on the north façade of a **building**;
- (J) No windows are permitted on the east façade of a **building** on the lands within 14 metres of the east **lot line**;
- (K) Despite 200.5.10.1, no **parking spaces** are required;
- (L) Despite 230.5.10.1(1), a minimum of seven (7) long term **bicycle parking spaces** must be provided and maintained on the lands and all such **bicycle parking spaces** must be provided at ground level or on any level below-ground;
- (M) Despite 230.5.10.1(1), a minimum of ten (10) short-term **bicycle parking spaces** must be provided and maintained on the lands or in the public right-of-way adjacent to the lands;
- (N) Despite 230.5.1.10(7), no shower and change room facilities are required;
- (O) Despite 220.5.1.10(7) and (8), a minimum of one (1) **loading space** must be provided and maintained with the following minimum dimensions:
  - (i) Minimum length of 8.2 metres;
  - (ii) Minimum width of 4.3 metres; and
  - (iii) A minimum vertical clearance of 4.0 metres; and
- (P) Access to the **loading space** must be from a **lane** or private right-of-way with a minimum width of 4.57 metres.

The lands, or a portion thereof as noted below, are subject to the following Site Specific Provisions, Prevailing By-laws and Prevailing Sections.

Site Specific Provisions:

(A) On the lands identified as **Parcel A** on Diagram 1 of By-law 1478-2017(OMB), if the requirements of Section 6 and Schedule A of By-law 1478-2017(OMB) are complied with, none of provisions 5.10.40.70 (1) and (2), 50.5.40.10(1), 50.10.40.10 (1), 50.10.40.30 (1), 50.10.40.50(1)(A) and (B), 50.10.40.70 (1) and (5), 50.10.40.80 (1), 200.5.10.1 (1), 200.15.1.5(1), 220.5.10.1(3), 220.5.20.1 (1) (A) (ii), 230.5.10.1(2) and (5), 230.50.1.20 (2)(C) and 600.10.10 apply to prevent the erection and use of a **building, structure**, addition or enlargement permitted by (B) – (O) below;

(i) Canopies, awnings, building cornices, parapets lighting fixtures, ornamental architectural elements, trellises, eaves, window sills, guardrails, balustrades, railings, stairs, stair enclosures, terraces, wheel chair ramps, vents, underground garage ramps, landscape and **green roof** elements and wind mitigation features which may extend beyond the heavy lines, except for the lot lines, shown on Diagram 2; and

(ii) Balconies are permitted outside the heavy lines shown on Diagram 2, within the area illustrated by hatching and identified as balcony zones on Diagram 2 of By-law 1478-2017(OMB);

(B) The height of a **building or structure** is measured from the Canadian Geodetic Datum of 83.00 metres and no portion of a **building or structure** erected above the Canadian Geodetic Datum of 83.00 metres is to be located otherwise than wholly within the areas delineated by heavy lines on Diagram 2 of By-law 1478-2017(OMB), with the exception of the following:

(i) Canopies, awnings, building cornices, parapets lighting fixtures, ornamental architectural elements, trellises, eaves, window sills, guardrails, balustrades, railings, stairs, stair enclosures, terraces, wheel chair ramps, vents, underground garage ramps, landscape and **green roof** elements and wind mitigation features which may extend beyond the heavy lines, except for the **lot lines**, shown on Diagram 2; and

(ii) Balconies are permitted outside the heavy lines shown on Diagram 2, within the area illustrated by hatching and identified as balcony zones on Diagram 2 of By-law 1478-2017(OMB);

(C) No portion of a **building or structure** erected above the Canadian Geodetic Datum of 83.00 metres may have a greater height in metres than the heights in metres specified by the numbers following the symbol H on Diagram 2, and the number of **storeys** following the symbol ST on Diagram 2, of By-law 1478-2017(OMB) except for the following:

(i) Railings and guards, vents, exhausts, lightning rods, chimney stacks, pool equipment, retaining walls and planters, ornamental architectural elements, **green roof** elements, and roof assemblies including parapets which may project above the permitted height by a maximum of 1.5 metres;

(ii) Wind remediation screens and dividers which may project above the permitted height by up to a maximum of 2.0 metres; and

(iii) **Landscape** features and elements including trellises, fences and outdoor amenity structures, window washing and **building** maintenance equipment, which may project above the permitted height up to a maximum of 3.0 metres;

(D) Any **storey** above the 25th **storey** may only be used for the functional operation of the **building**;

(E) The total **gross floor area** of all **buildings and structures** on **Parcel A** must not exceed 18,400 square metres of which:

(i) A maximum of 17,850 square metres may be used for residential uses; and

(ii) A maximum of 650 square metres may be used for non-residential uses;

- (F) **Amenity space** must be provided and maintained on **Parcel A** as follows:
- (i) A minimum of 1.55 square metres of indoor residential **amenity space** for each **dwelling unit** must be provided and maintained and must include at least one multi-purpose room or rooms, at least one of which contains a kitchen and a washroom; and
  - (ii) A minimum of 1.85 square metres of outdoor residential **amenity space** for each **dwelling unit** of which, a minimum of 40 square metres must be in a location adjoining or directly accessible from a portion of the indoor residential **amenity space**;
- (G) Up to one guest suite having a maximum **interior floor area** of 45 square metres is permitted and will be calculated as **amenity space**;
- (H) **Parking spaces** must be provided and maintained on **Parcel A** as follows:
- (i) A minimum of 110 **parking spaces** for residents; and
  - (ii) A minimum of 16 **parking spaces** for visitors;
- (I) Despite 200.5.1.10(2), a maximum of 4 obstructed **parking spaces** that are obstructed on one side only may have a minimum width of 2.6 metres;
- (J) Despite section 200.15.10(1)(C), accessible **parking spaces** provided on **Parcel A** will have minimum dimensions of 3.9 metres by 5.6 metres;
- (K) Despite section 230.5.1.10(9)(iii), **bicycle parking spaces** may also be located on any parking level below grade;
- (L) **Bicycle parking spaces** must be provided and maintained on **Parcel A** as follows:
- (i) Short-term **bicycle parking spaces** must be provided at a minimum rate of 0.1 **bicycle parking spaces** per **dwelling unit**; and
  - (ii) Long-term **bicycle parking spaces** must be provided at a minimum rate of 0.9 **bicycle parking spaces** per **dwelling unit**;
- (M) A minimum of one Type "G" **loading space** must be provided and maintained on **Parcel A**;
- (N) A minimum of 18 percent of the **dwelling units** must have 2 or 3 bedrooms and no less than 10 percent of the **dwelling units** must have a minimum average **interior floor area** of at least 95 square metres; and
- (O) The regulations of By-law 1107-2016 do not apply.

(10) Exception CRE 10

The lands, or a portion thereof as noted below, are subject to the following Site Specific Provisions, Prevailing By-laws and Prevailing Sections.

Site Specific Provisions:

- (A) On 410, 440, 444, 450 and 462 Front Street West; 425, 439, 441 and 443 Wellington Street West and 6-18 Spadina Avenue, shown as CRE (x10) on Diagram 2 to By-law 125-2017, none of the provisions of 5.10.40.70.(1) to (4), 50.5.40.60(1), 50.10.20.100(1), (5), (19), (26), (27), (28), (31)(A)(C)(D) and (39), 50.10.40.1, 50.10.40.30(1), 50.10.50.10, 50.10.80.10(1), 50.10.90.10(1), 50.10.90.40(3), 50.10.100.10(1)(B), 150.45, 150.48, 200.10.1(2), 200.15.1.5(1), 230.5.1.10(9) and 230.50.1.20 (1) and (2)(D) and Section 600.10 apply to prevent the erection or use of **buildings** or **structures** on the lands if in compliance with regulations (B) to (CC) below and Section 10 and Schedule A of By-law 125-2017;
- (B) In addition to the uses permitted by Regulation 50.10.20.10(1), **public parking** and outdoor open air markets are permitted;
- (C) Outdoor open air markets may provide retail sales, food sales and other uses from kiosks, tents, vehicles, tables and such facilities are not **buildings** or **structures**;
- (D) Despite regulation 50.10.20.20(1) (A), the outdoor sale or display of goods or commodities is not subject to regulation 50.10.20.100(41) (C);
- (E) For the purposes of this exception, a bicycle services and repair shop is not a vehicle repair shop;
- (F) Despite regulation 50.10.20.100(23) a **vehicle fuel station** operated as an electric **vehicle** charging station is not subject to regulation 150.92;

- (G) **Parking spaces** must be located below a Canadian Geodetic Datum elevation of 85.0 metres;
- (H) An **outdoor patio** is not subject to regulation 50.10.20.100(21), provided it is set back a minimum of 15.0 metres from a **lot** in a Residential Zone category;
- (I) Despite the definition of an **outdoor patio** pursuant to regulation 800.50(525), an **outdoor patio** may include an outdoor patron area that is a non-residential use or **ancillary** to a non-residential use;
- (J) Despite regulation 50.10.20.100(22) provided no more than a maximum of 6 vehicles are displayed outside which may or may not be in connection with **vehicle dealerships**, only regulations 150.90.20.1 (1) and (2)(B) and (C)(i) and (ii) apply;
- (K) Despite regulation 50.10.20.100(22), a vehicle dealership or portion thereof operated as a car share organization is not subject to regulation 150.90;
- (L) Despite regulation 50.10.20.100(25), if a **vehicle washing establishment** is located with a portion of a **building** located below a Canadian Geodetic Datum elevation of 85.0 metres, the provisions of regulation 150.96 do not apply;
- (M) Despite regulations 50.10.20.100(32) and 150.100.20.1(1)(A), a maximum of 12 percent of the total **interior floor area** of an **eating establishment**, to a maximum of 100 square metres is permitted to be used for the uses noted as 150.100.20.1 (1)(A) (i) to (vii) provided the primary use of the **premises** is maintained as an **eating establishment**;
- (N) The total **gross floor area** of all **buildings** and **structures** must not exceed 289,000 square metres, of which:
  - (i) **buildings** and **structures** or portions thereof, occupied by residential uses must not exceed a **gross floor area** of 175,000 square metres;
- (O) The combined **gross floor area** of all ground floor levels contained in **buildings** on the lands subject to this Exception must not exceed a maximum of 17,350 square metres, where the ground floor level is the floor level of a **building** that is closest to the Canadian Geodetic Datum elevation of 85.0 metres;
- (P) In addition to the provisions of regulation 50.5.40.40, the following areas of a **building** are also not included in the calculation of **gross floor area**:
  - (i) indoor **amenity space** up to a maximum of 2 square metres of indoor **amenity space** per **dwelling unit**;
  - (ii) storage rooms, washrooms, electrical, utility, mechanical and ventilation rooms below the Canadian Geodetic Datum of 85.0 metres;
  - (iii) the areas of any use operated in connection with an outdoor open air market; and
  - (iv) interior floor area occupied by a day nursery and uses ancillary thereto;
- (Q) Despite all of regulations 50.10.40.60, 50.10.40.70 and 50.10.40.80 no portion of any **building** or **structure** above-ground is located other than wholly within the areas delineated by heavy lines on Diagrams 6 to 10 of By-law 125-2017 with the exception of the following:
  - (i) lighting fixtures, cornices, sills, eaves, canopies, window washing equipment, railings, privacy screens, planters, balustrades, bollards, stairs, escalators and related enclosures, balconies, awnings, fences, underground garage ramps and associated **structures**, walls and safety railings, trellises, guards, guardrails, retaining walls, wheel chair ramps, public art, bike share facilities, outdoor **recreation uses**, band shells, ornamental or architectural features, landscape features, **day nursery** facilities and art installations;
  - (ii) pedestrian bridges subject to a maximum height of 24.0 metres, measured between the Canadian Geodetic Datum elevation of 85.0 metres and the highest point of the bridge;
  - (iii) covered walkways, architectural and ornamental canopies and similar structures, including related support structures; and
  - (iv) **structures**, elements and enclosures permitted by regulation (R) below;
- (R) Despite all of regulations 50.5.40.10 and 50.10.40.10(1), the height of each portion of a building or structure, is measured as the vertical distance between Canadian Geodetic Datum elevation of 85.0 metres and the highest point of the building or structure, and must not exceed the height in metres as specified by the numbers following the symbol H as shown on Diagrams 7 to 10 to By-law 125-2017 except for the following projections:
  - (i) **structures**, elements and enclosures permitted by regulation (Q) above;

- (ii) elevators and related **structures** provided that:
  - (a) Such projections are located on those portions of a **building** permitted above a height of 81 metres as shown on Diagrams 7, 8, 9 and 10 of By-law 125-2017;
  - (b) Such projections are limited to a maximum vertical projection of 13.0 metres above the height limits specified by the numbers following the symbol H as shown on Diagrams 7, 8, 9 and 10 of By-law 125-2017; and
  - (c) The horizontal area of each such projection is not greater than 150 square metres;
- (iii) portions of a **building** used for indoor **amenity space** and or a **recreation use** operated as a gym, fitness centre or health club provided that:
  - (a) Such projections are located on those portions of a building subject to a height limit of 26.3 metres and/or 36.3 metres as shown on Diagrams 7, 8 and 9 of By-law 125-2017; and
  - (b) Such projections are limited to a maximum vertical projection of 5.0 metres above the permitted **building** heights shown on Diagrams 7, 8 and 9 of By-law 125-2017 and the provisions of regulation (S) do not apply;
- (iv) the erection or use of **structures** on any roof used for outdoor **amenity space** or open air recreation, maintenance, safety, wind or green roof purposes, vestibules providing access to outdoor amenity space, cooling towers, parapets, mechanical and architectural screens, chimneys, vents, stacks, mechanical fans, **structures** and elements associated with green energy and renewable energy facilities. Such projections are limited to a maximum vertical projection of 6.0 metres above the permitted **building** heights shown on Diagrams 7, 8, 9 and 10 of By-law 125-2017;
- (S) Despite any other provision of this Exception, above a height of 36.3 metres as measured in accordance with regulation (R) above, a minimum separation distance of 25 metres must be provided between the **main walls** of buildings located within Tower Zone 01 and Tower Zone 02, as shown on Diagrams 8 and 9 and between any other **structure** on the lands, excluding the **structures** and elements permitted by subsection (Q) and (R) (iii) above;
- (T) Within the areas shown as Tower Zone 01 and Tower Zone 02 on Diagrams 8 and 9, the following applies:
  - (i) within Tower Zone 01, the maximum **gross floor area** of any **storey**, the floor level of which is more than 61.0 metres above the Canadian Geodetic Datum elevation of 85.0 metres, is 985.0 square metres; and
  - (ii) within Tower Zone 02, the maximum **gross floor area** of any **storey**, the floor level of which is more than 67.0 metres above the Canadian Geodetic Datum elevation of 85.0 metres, is 985.0 square metres;
- (U) Despite regulation 50.10.40.50, **amenity space** must be provided in accordance with the following:
  - (i) a minimum of 3.0 square metres of **amenity space** per **dwelling unit** must be provided, of which, not less than 1.2 square metres per **dwelling unit** must be provided as indoor **amenity space**;
  - (ii) a minimum of 40 square metres of outdoor **amenity space** provided in a location directly accessible from an area containing indoor **amenity space**;
  - (iii) indoor amenity space may include guest suites where such suites may contain either a kitchen or a bathroom; and
  - (iv) **amenity space** must be available for use by the occupants of a **building** for recreational or social activities and may also be available for use by visitors and guests to a **building**;
- (V) Despite regulations 200.5.10.1(1), (4) and (6), **parking spaces** must be provided in accordance with the following:
  - (i) a minimum of 0.4 **parking spaces** per **dwelling unit** must be provided for residents;
  - (ii) **parking spaces** for all other uses within a **building** or **structure** must be provided in accordance with the following minimums, where parking period AM means 6 a.m. to noon, PM means noon to 6 p.m. and Eve. means 6 p.m. to 6 a.m.

- (a) Hotel: 0.2 **parking spaces** for each 100 square metres of **gross floor area** in accordance with the following parking occupancy rates of AM:80 percent, PM:75 percent and EVE:100 percent;
  - (b) Office 0.35 **parking spaces** for each 100 square metres of **gross floor area** in accordance with the following parking occupancy rates of AM:100 percent, PM:60 percent and EVE:0 percent;
  - (c) All other non-residential uses: 1.0 **parking spaces** for each 100 square metres of **gross floor area** in accordance with the following parking occupancy rates of AM:20 percent, PM:100 percent and EVE:100 percent; and
  - (d) Residential visitors: 0.1 parking spaces per dwelling unit in accordance with the following parking occupancy rates of AM:10 percent, PM:35 percent and EVE:100 percent;
- (iii) for the purpose of (ii) above, **gross floor area** is to be calculated in accordance with regulation 200.5.1.10(11);
- (iv) despite subsection (ii) above, no parking spaces are required for a **day nursery, eating establishment, take-out eating establishment**, uses within an outdoor open air market, **software development and processing facility, recreation use** operated as gym, fitness centre or health club and a **community centre**;
- (v) the minimum number of **parking spaces** as required pursuant to (ii) above is determined as follows:
- (a) For each of the AM, PM and EVE parking periods identified, the minimum number of **parking spaces** required for each use, is calculated using the respective **parking space** rate and occupancy rate;
  - (b) the minimum number of **parking spaces** required for each parking period is the total of the **parking spaces** required for all uses during that parking period; and
  - (c) the minimum number of **parking spaces** required is equal to the largest number of **parking spaces** required for any parking period;
- (W) For each car-share **parking space** provided, the minimum number of **parking spaces** for residents required pursuant to regulation (V) (i) above may be reduced by four **parking spaces**, up to a maximum reduction as calculated by the following formula:  $4 \times (\text{the total number of dwelling units on the lands divided by } 60)$ , rounded down to the nearest whole number;
- (X) For the purpose of this Exception:
- (i) car-share means the practice whereby a number of people share the use of one or more motor vehicles that are owned by a profit or non-profit car-sharing organization and such car-share motor vehicles are made available to at least the occupants of the **building** for short term rental, including hourly rental; and
  - (ii) a car-share **parking space** means a **parking space** exclusively reserved and signed for a car used only for car-share purposes;
- (Y) Despite regulation 50.5.80.1, the **parking spaces** required by regulation (V)(ii) above may be provided on a non-exclusive basis and may be provided within a **public parking** use on the **lot**;
- (Z) Despite regulation 200.5.1.10(2):
- (i) a maximum of 15 percent of the total number of **parking spaces** provided do not have to comply with regulation 200.5.1.10(2)(A)(iv), despite that such **parking spaces** are obstructed in accordance with regulation 200.5.1.10(2)(D); and
  - (ii) provided, the total number of **parking spaces** obstructed on two sides in accordance with 200.5.1.10(2)(D) does not exceed 5 percent of the total number of provided **parking spaces**;
- (AA) Despite regulation 220.5.20.1(2), the maximum permitted slope of a ramp or driveway leading to a loading space is 15 percent, except the maximum permitted slope of the portion of a ramp or driveway within 6 metres of the limit of a street is 5 percent;
- (BB) Despite regulation 230.5.1.10(4)(A)(ii), if a **stacked bicycle parking space** is provided, the minimum width for each **bicycle parking space** is 0.45 metres; and

(CC) Despite any existing or future severance, partition or division of the lands shown as CRE (x10) on Diagram 2 of By-law 125-2017 the provisions of this Exception and By-law 569-2013, shall apply to the whole of the lands as one lot as if no severance, partition or division had occurred.

The lands, or a portion thereof as noted below, are subject to the following Site Specific Provisions, Prevailing Bylaws and Prevailing Sections.

Site Specific Provisions:

- (A) On 46, 48, 50, 52 and 54 Power Street, and 113, 115, 121, 123, 129 and 135 Parliament Street, if the requirements of Section 6 and Schedule A of By-law 277-2019(LPAT) are complied with, none of Regulations 5.10.40.70 (1) and (2), 50.5.40.10 (1), (4) and (5), 50.5.40.60 (1), 50.10.20.10 (1), 50.10.40.10 (1), 50.10.40.30 (1), 50.10.40.50 (1), 50.10.40.60 (2), 50.10.40.70 (1) and (5), 50.10.40.80 (1), 50.10.90.40 (1)(B) and (3), 200.5.1 (2), 200.5.1.10 (8), (10) and 12(C), 200.5.10.1 (1), 200.10.1, 200.15, 200.15.10 (1)(C), 220.5.10.1, 230.5.1.10 (9)(B), 230.50.1.20 (1); 230.5.1.10 (4)(C), (5) and (7), 230.5.10.1, and 600.10.10 shall apply to prevent the construction and use of a **mixed-use building** and **public parking** uses permitted in By-law 277-2019(LPAT) on the lands;
- (B) The residential **gross floor area** of the **mixed-use building** must not exceed 39,500 square metres;
- (C) The non-residential **gross floor area** of the **mixed-use building** must not exceed 4,150 square metres and the **interior floor area** of any single **retail service** or **retail store** use must not exceed 3,500 square metres;
- (D) No portion of a **building** or **structure**, including the mechanical penthouses, may have a greater height than the heights in metres specified by the numbers following the symbol H and the storeys specified by the number following the symbol ST on Diagram 2 of By-law 277-2019(LPAT);
- (E) Despite (D) above:
- (i) Parapets, planters, pool, pool deck, railings, terrace dividers and elements of a **green roof** may exceed the applicable height limits shown on Diagram 2 by a maximum of 2.0 metres;
  - (ii) A garden shed may exceed the applicable height limits shown on Diagram 2 to a maximum of 2.4 metres; and
  - (iii) Wind screens, window washing equipment, pergolas, trellises, vents, chimney stacks, mechanical equipment, stair enclosures, lightning rods and exhaust flues may exceed the applicable height limits shown on Diagram 2 by a maximum of 3.0 metres;
- (F) Despite Clause 50.10.40.70 and Article 600.10.10, no portion of a **building** or **structure** may be located otherwise than wholly within the areas delineated by heavy lines on Diagram 2, with the exception of the following:
- (i) Lighting fixtures, cornices, ornamental elements, eaves, window sills, guardrails, columns, balconies, balcony dividers, piers, wheel chair ramps, vents, scuppers and underground garage ramps, and their associated structures, to a maximum of 2.0 metres;
  - (ii) Awnings, canopies and signage to a maximum of 3.0 metres; and
  - (iii) Cladding to a maximum of 0.25 metres;

- (G) **Amenity space** must be provided and maintained on the **lot** in accordance with the following:

- (i) A minimum of 1.8 square metres of indoor residential **amenity space** for each **dwelling unit** which may be in a multi-purpose room or rooms, at least one of which contains a kitchen and a washroom;
- (ii) A minimum of 1.75 square metres of outdoor residential **amenity space** for each **dwelling unit** and a minimum of 40 square metres must be in a location adjoining or directly accessible from a portion of the indoor residential **amenity space**;
- (iii) A maximum of 150 square metres of indoor **amenity space** may include up to two (2) guest suites; and
- (iv) No more than 25 percent of the outdoor **amenity space** may be provided as a **green roof**;
- (H) **Bicycle parking spaces** must be provided as follows for the residential uses:
  - (i) A minimum of 468 long-term **bicycle parking spaces**; and
  - (ii) A minimum of 52 short-term **bicycle parking spaces**;
- (I) **Bicycle parking spaces** must be provided as follows for the non-residential uses:
  - (i) A minimum of 8 long-term **bicycle parking spaces**; and
  - (ii) A minimum of 15 short-term **bicycle parking spaces**;
- (J) Despite regulation 230.5.1.10(10), long-term and short-term **bicycle parking spaces** may be located in a **stacked bicycle parking space**;
- (K) The minimum number of **parking spaces** to be provided in a **parking garage** is 249, in accordance with the following:
  - (i) A minimum of 0.33 **parking spaces** for each **dwelling unit** must be provided for the residents of the **mixed-use building**;
  - (ii) A minimum of 77 **parking spaces** must be provided for the shared use of residential visitors and non-residential uses of the **mixed-use building** which may be provided within a **public parking** use, and
  - (iii) Of the minimum 77 **parking spaces** required by ii, above, a maximum of 5 **parking spaces** may be designated for the use of residents of the **mixed-use building**;
- (L) A maximum of 22 **parking spaces** which are obstructed on one side only and a maximum of 4 of which are obstructed on two sides need not comply with regulation 200.5.1.10 (2)(A)(iv) and (D) for the side(s) that is/(are) obstructed;
- (M) Despite Section 200.15 and By-law 579-2017, a minimum of 8 of the **parking spaces** required by (K) above must be provided as accessible **parking spaces**, each having a minimum width of 3.9 metres and a minimum length of 5.6 metres;
- (N) A minimum of two Type "B" **loading spaces** and a minimum of one Type "G" **loading space** must be provided;
- (O) The height of a **building** or **structure** is measured from the Canadian Geodetic elevation of 82.5 metres;
- (P) For the purposes of this exception, none of the following **building** elements are considered a **storey** and are excluded from the calculation of residential and non-residential **gross floor area**:
  - (i) A mezzanine, which means one floor level situated immediately above the first floor, which may be non-contiguous, but may not exceed a cumulative **interior floor area** of 350 square metres and is limited in use to mechanical rooms and accesses thereto; and
  - (ii) Two mechanical penthouses, each of which comprising a maximum of two floor levels;
- (Q) For the purposes of this exception, **amenity space** may include up to 2 guest suites and the floor area of such guest suites is excluded from the calculation of residential **gross floor area** and such guest suites do not constitute **dwelling units** for the purposes of this By-law.

Prevailing By-laws and Prevailing Sections: (None Apply)  
[ By-law: 277-2019(LPAT) ]

(14) Exception CRE 14

The lands, or a portion thereof as noted below, are subject to the following Site Specific Provisions, Prevailing By-laws and Prevailing Sections.

Site Specific Provisions:

- (A) On 102-118 Peter Street and 350-354 Adelaide Street West, if the requirements of By-law 1471-2017 are complied with, none of the provisions of Articles, Clauses and Regulations 5.10.40.70, 50.10.40.30(1), 50.10.40.1(4)(A), 50.10.90.40.(3), 200.5.1.10(10) and (12)(C), 600.10, and 900.12.10 (74), apply to prevent the erection or use of a **building, structure**, addition or enlargement permitted in By-law 1471-2017 (B) to (X) below.
- (B) In addition to the uses permitted by Regulations 50.10.20.10(1) and 50.10.20.20(1), **public parking**, car-share **parking spaces** and a temporary sales facility are permitted.
- (C) For the purpose of this exception height is measured from Canadian Geodetic Datum elevation of 88.00 metres.
- (D) Despite Clauses 50.5.40.10, 50.10.40.10 and 50.10.40.60, the height of each portion of a **building or structure** is measured as the vertical distance between Canadian Geodetic Datum elevation of 88.0 metres and the highest point of the **building or structure**, and must not exceed the height in metres as specified by the numbers following the letter H as shown on Diagram 3 of By-law 1471-2017, except for the following projections:
- (i) **structures**, elements and enclosures permitted by Regulation (G) below;
  - (ii) **structures** on any roof used for outdoor **amenity space** or open air recreation, maintenance, safety or wind protection purposes provided such projections are limited to a maximum vertical projection of 3.0 metres above the permitted **building** heights shown on Diagram 3 of By-law 1471-2017;
  - (iii) **structures** on any roof used for green roof purposes, vestibules providing access to outdoor **amenity space**, cooling towers, parapets, mechanical and architectural screens, chimneys, vents, stacks, mechanical fans, elevators and related structural elements, **structures** and elements associated with green energy and renewable energy facilities provided such projections are limited to a maximum vertical projection of 2.0 metres above the permitted **building** heights shown on Diagram 3 of By-law 1471-2017; and
  - (iv) portions of an underground parking garage and associated structures situated below finished ground level provided no portion of such structures is more than 1.0 metre above Canadian Geodetic Datum elevation of 88.0 metres.
- (E) The total gross floor area of the buildings and structures must not exceed a maximum of 51,000 square metres, of which:
- (i) **buildings and structures**, occupied by residential uses must not exceed a **gross floor area** of 47,000 square metres; and
  - (ii) **buildings and structures**, occupied by non-residential uses must not exceed a **gross floor area** of 5,000 square metres, excluding the **gross floor area** associated with the **public parking** use.
- (F) A minimum of ten percent of the total number of **dwelling units** must be three (3) bedroom **dwelling units**.
- (G) Despite Clauses and Regulations 50.10.40.60, 50.10.40.70(1), (4) and (5) and 50.10.40.80, no portion of any **building or structure** above finished ground level is located other than wholly within the heavy lines on Diagram 3 of By-law 1471-2017, with the exception of the following:
- (i) balconies to a maximum horizontal projection of 1.6 metres beyond the heavy lines, except as provided for in Regulation (I) below;
  - (ii) cornices, sills, eaves, window-washing equipment, railings, balustrades, awnings, piers and sun-shades, canopies including supporting structures, covered walkways, privacy screens, planters, stairs, enclosed stairs, fencing, lighting, bollards, safety railings, trellises, guards, guardrails, retaining walls, ramps associated with an underground parking garage, wheelchair ramps, bicycle parking facilities, ornamental or architectural features, landscape features, street furniture, and art installations; and
  - (iii) **structures**, elements and enclosures permitted by Regulation (D) above.
- (H) Despite Regulations (D) and (G) above, within the hatched area shown on Diagram 4 of By-law 1471-2017, no part of any **building** may be located between finished ground level and a minimum of 10.5 metres above finished ground level other than signage, lighting, columns, canopies, structural supports and design features.

- (I) Despite Regulations (D) and (G) above, balcony projections and outdoor terraces are not permitted within the balcony restriction zone shown on Diagram 4 of By-law 1471-2017.
- (J) A minimum 1.8 metre high privacy screen measured from the finished level of the roof must be provided in the location shown on Diagram 5 of By-law 1471-2017.
- (K) Despite Clause 50.10.40.50, **amenity space** must be provided in accordance with the following:
  - (i) at least 2.0 square metres per **dwelling unit** of indoor **amenity space**;
  - (ii) at least 1.5 square metres per **dwelling unit** of outdoor **amenity space**; and
  - (iii) at least 40.0 square metres of outdoor **amenity space** must be in a location adjoining or directly accessible to the indoor **amenity space**.
- (L) A minimum 1.8 metre wide landscape buffer area must be provided on the finished level of the roof in the location shown on Diagram 5 of By-law 1471-2017.
- (M) Despite Regulations 200.5.1(2), 200.5.10.1(1) and (5), and 200.20.10(2), vehicle **parking spaces** shall be provided and maintained on the lands in accordance with the following ratios:
  - (i) a minimum of 0.20 **parking spaces** per **dwelling unit**; and
  - (ii) a minimum of 49 **parking spaces** shall be provided for visitors to the **dwelling units** and for the non-residential **gross floor area**.
- (N) Despite Regulations 200.5.1(2) and 200.10.1(1) and (2), the **parking spaces** required for visitors to the **dwelling units** and the non-residential **gross floor area** may be provided within a **public parking** facility on the lands and may be shared on a non-exclusive basis.
- (O) For each car-share **parking space** provided, the minimum number of **parking spaces** for residents required pursuant to Regulation (M)(i) above may be reduced by one parking space, up to a maximum reduction of four (4) **parking spaces**.
- (P) Despite Article 50.5.80 and Regulation (M)(i) above, up to a maximum of 35 of the required residential **parking spaces** may be provided and maintained as off-site parking with respect to the lands municipally known as 401 Richmond Street West in the year 2016, and such **parking spaces** may also be used for **public parking** purposes.
- (Q) For the purpose of this Exception:
  - (i) " **car-share**" means the practice whereby a number of people share the use of one or more cars that are owned and operated by a profit or non-profit car-sharing organization, and where such organization may require that the use of cars be reserved in advance, charge fees based on time and/or kilometers driven, and set membership requirements of the car-sharing organization, including the payment of a membership fee that may or may not be refundable; and
  - (ii) " **car-share parking space**" means a **parking space** exclusively reserved and signed for a car used only for car-share purposes.
- (R) Despite Regulation 220.5.1(2) and Clause 220.5.10.1, **loading spaces** must be provided on the **lot** for residential and non-residential uses as follows:
  - (i) one (1) Type "G" **loading space**; and
  - (ii) one (1) Type "B" **loading space**.
- (S) In addition to the requirements of Regulation (R) above, in the event that a grocery store or supermarket, having a **gross floor area** of 500 square metres or greater, forms part of the non-residential uses in the **building**, one (1) additional Type "B" **loading space** shall be provided on the **lot**.
- (T) For the purpose of this Exception:
  - (i) " **privately-owned publicly accessible open space**" means a space on the lands situated at ground level, within the shaded area shown on Diagram 4 of By-law 1471-2017 that is accessible to the public, secured through appropriate legal agreements and may include pedestrian walkways, seating areas, landscaped plazas, and ornamental structures, and is used principally for the purposes of sitting, standing and other recreational uses, including the occasional use by the owner for special events as set out in Schedule A, Clause 3 of By-law

1471  
-2017; and

- (ii) **privately-owned publicly accessible open space** with a minimum area of 380 square metres shall be provided on the ground level within the shaded area shown on Diagram 4 of By-law 1471-2017.
- (U) Despite Regulation 230.5.1.10(10), "short-term" **bicycle parking spaces** may be located in a **stacked bicycle parking space**.
- (V) Despite Regulation 230.5.1.10(9)(B)(iii), required "long term" **bicycle parking spaces** for a **dwelling unit** may be located as follows:
  - (i) on levels of the **building** below-ground commencing with the first level below-ground and moving down, in one level increments when at least 20 percent of the area of that level is occupied by **bicycle parking spaces**, until all required **bicycle parking spaces** have been provided; and
  - (ii) all such **bicycle parking spaces** located below-ground must be accessible via an elevator to the ground floor.
- (W) For the purpose of this Exception:
  - (i) " **existing heritage buildings/structures**" means that portion of the heritage building(s) located on the lot in the year 2017 as shown on Diagram 3 of By-law 1471-2017 subject to alterations and additions in accordance with By-law 1471-2017; and
  - (ii) the **building** or **structure** on the **lot** shall include the **existing heritage buildings/structures** and the **existing heritage buildings/structures** are retained in situ subject to such alterations as are permitted pursuant to a Heritage Easement Agreement or amending agreement thereto entered into between the owner and the City of Toronto and registered on title to such lands pursuant to Section 37 of the *Ontario Heritage Act*, R.S.O. 1990, c.O.18, as amended, together with any permit issued pursuant to Section 33 of the *Ontario Heritage Act*.
- (X) Notwithstanding any severance, partition or division of the lands, the provisions of this By-law shall apply to the whole of the lands as if no severance, partition or division had occurred.

Prevailing By-laws and Prevailing Sections: None Apply  
[ By-law: 1471-2017 Enacted ]

(15) Exception CRE 15

The lands, or a portion thereof as noted below, are subject to the following Site Specific Provisions, Prevailing By-laws and Prevailing Sections.

Site Specific Provisions:

- (A) On 25 Ontario Street and 280 King Street East , if the requirements of Section 8 and Schedule 'A' of By-law 1475-2017 are complied with, none of the provisions of 5.10.40.70(1) and (2), 50.5.40.10, 50.10.40.10, 50.10.40.60, 50.10.40.70, 50.10.40.80, 50.10.90.40, 200.15.1, 200.15.1.5, 230.5.1.10.(9), 600.10.10.(1), apply to prevent the erection or use of a **non-residential building** meeting the requirements of (B) to (T) below;
- (B) Height is measured from the Canadian Geodetic Datum elevation of 82.5 metres;
- (C) No portion of a **building** or **structure** may have a greater height in metres than the heights in metres specified by the numbers following the symbol HT and the number of storeys specified by the numbers following the symbol ST on Diagram 6 of By-law 1475-2017;
- (D) For the purposes of determining the number of **storeys** of the **building** permitted by (C) above, the following will not be considered a **storey**:
  - (i) one mezzanine floor level which is located above the first floor level above-ground, not exceeding 1,000 square metres in floor area, and used for no other purpose than storage, mechanical, electrical and the functional operation of the **building**; and
  - (ii) a maximum of two mechanical penthouse floor levels, which are to be the uppermost floor levels of the **building**, and are to be restricted in use to mechanical, electrical, heating, cooling and other areas dedicated to the functional operation of the **building**, with the exception that

the lower of the two mechanical penthouse levels may have a maximum of 580 square metres of floor area comprising indoor **amenity space** that may include collaborative, venue and meeting spaces dedicated to the office uses;

- (E) No portion of any **building** or **structure** erected or used above ground will be located otherwise than wholly within the heavy lines delineating the height areas on Diagram 6 of By-law 1475-2017;
- (F) Despite (C) above, **structures** used for window washing equipment may exceed the maximum height permitted in (C) by 6.5 metres;
- (G) Despite (C) above, **structures** used for elevator overruns, chimney stacks, vents and air intakes, communications equipment, lightning rods, parapets, green roof elements, railings, and screens may exceed the maximum height permitted in (C) by 3.0 metres;
- (H) Despite (E) above, eaves, cornices, window sills, wheel chair ramps, light fixtures, railings, awnings, window mullions, canopies, raised planters, fences, vents, green roof elements, screens, underground garage ramp and associated structures are permitted to project horizontally from the **building** beyond the heavy lines specified on Diagram 6 of By-law 1475-2017;
- (I) The maximum **gross floor area** must not exceed 43,650 square metres, of which all of the non-residential gross floor area from the second storey ascending upward through the building to the uppermost storey shall be restricted to office uses and ancillary uses to the office;
- (J) Despite 50.10.20, **public parking** is a permitted use;
- (K) **Parking spaces** must be provided on the **lot** in accordance with 200.5.10.1(1), with the exception that a maximum of 3 **parking spaces** may be designated for the exclusive use of couriers and deliveries;
- (L) Despite 200.5.1.10(2), a maximum of 4 **parking spaces** may be obstructed on one side and have a minimum width of 2.60 metres;
- (M) Despite 200.5.1.10(2), a maximum of 4 **parking spaces** may have a minimum length of 5.35 metres;
- (N) The **parking spaces** required under (K) above may be provided within a **public parking** facility;
- (O) A minimum of 8 **parking spaces** provided under (K) above must be provided as accessible **parking spaces** and must:
  - (i) be located no more than 10 metres from a barrier-free passenger elevator that provides access to the first **storey** of the building, measured on a horizontal plane from the nearest point of the **parking space**;
  - (ii) in the case of an accessible **parking space** which is perpendicular to a **drive aisle**, have a minimum unobstructed width of 3.9 metres, a minimum length of 5.6 metres and a minimum vertical clearance of 2.1 metres; and
  - (iii) in the case of an accessible **parking space** which is parallel to a **drive aisle**, have a minimum unobstructed width of 3.9 metres, a minimum length of 6.7 metres and a minimum vertical clearance of 2.1 metres;
- (P) Despite 220.5.10.1, a minimum of two Type B **loading spaces** and two Type C **loading spaces** must be provided and maintained;
- (Q) Despite 230.5.10.1(1), a minimum of 90 short-term **bicycle parking spaces** and a minimum of 83 long-term **bicycle parking spaces** must be provided and maintained;
- (R) Despite 230.5.10.1(10), short-term **bicycle parking spaces** and long-term **bicycle parking spaces** may be located in a **stacked bicycle parking space**.
- (S) Despite 230.5.1.10(7)(C), a minimum of 1 shower and change facility must be provided for each gender; and
- (T) Despite any existing or future severance, partition or division of the lot as shown on Diagram 1 of By-law 1475-2017, the provisions of this by-law apply to the whole of the **lot** as if no severance, partition or division occurred.

(16) Exception CRE 16

The lands, or a portion thereof as noted below, are subject to the following Site Specific Provisions, prevailing By-laws and Prevailing Sections.

Site Specific Provisions:

- (A) On 93 and 95 Berkeley Street, and 112, 114, 116, 118, 120, 122 and 124 Parliament Street, if the requirements of Section and Schedule 'A' of By-law 1430-2017 are complied with, none of the provisions of 50.5.40.10(1), 50.5.40.10(6), 50.10.40.10(1), 50.10.40.10(2)(B), 50.10.40.10(2)(C), 50.10.40.10(2)(D), 50.10.40.30(1), 50.10.40.50(1), 50.10.40.70(1), 50.10.90.40(1)(A), 200.5.10.1(1), 220.5.10.1(5), and 900.12.10(23) apply to prevent the erection or use of a **building, structure**, addition or enlargement if the **building** or **structure** complies with the following;
- (B) The maximum **gross floor area** is 20,680 square metres, of which:
- (i) A maximum of 19,630 square metres of **gross floor area** may be used for residential uses; and
  - (ii) A maximum of 1,050 square metres of **gross floor area** may be used for non-residential uses, of which a minimum of 820 square metres of **gross floor area** must be for office uses;
- (C) The whole of the **building** or **structure** must be located within the areas delineated by heavy lines shown on Diagram 2 of By-law 1430-2017;
- (D) The height of a **building** or **structure** is measured from the Canadian Geodetic Datum elevation of 82.11 metres, and must not exceed the height in metres specified by the numbers following the symbol HT on Diagram 2 of By-law 1430-2017;
- (E) The number of **storeys** in a **building** must not exceed the number following the symbol ST on Diagram 2 of By-law 1430-2017;
- (F) Despite subsections (C) and (D) of this By-law, the following **building** elements and **structures** are permitted to project horizontally beyond the heavy lines and **building** envelopes other than a **lot** line, specified on Diagram 2 of By-law 1430-2017, subject to the following limitations:
- (i) Eaves, cornices, window sills, landscape features, wheelchair ramps, light fixtures, stairs and stair enclosures, balustrades, guardrails, bollards – no limitations;
  - (ii) Awnings, canopies – a maximum of 3.0 metres beyond the exterior of the wall to which such awnings and canopies are attached;
  - (iii) Balconies – a maximum of 1.5 metres beyond the heavy lines shown on Diagram 2; and
  - (iv) Ornamental elements, architectural elements – a maximum of 1.6 metres beyond the heavy lines shown on Diagram 2;
  - (v) Ornamental elements, architectural elements – a maximum of 1.6 metres beyond the heavy lines shown on Diagram 2;
- (G) Despite subsections (C) and (D) of this By-law, the following **building** elements and **structures** are permitted to extend vertically above the maximum heights and **building** envelopes specified on Diagram 2 of By-law 1430-2017, subject to the following limitations:
- (i) Elements associated with a **green roof** – a maximum vertical projection of 0.5 metres above the heights shown on Diagram 2;
  - (ii) Railings – a maximum vertical projection of 1.2 metres above the heights shown on Diagram 2;
  - (iii) Fences, privacy screens – a maximum vertical projection of 2.5 metres above the heights shown on Diagram 2;
  - (iv) Vents, stacks, chimneys – a maximum vertical projection of 3.5 metres above the heights shown on Diagram 2;
  - (v) Parapets – a maximum vertical projection of 1.0 metres above the heights shown on Diagram 2; and
  - (vi) **Structures** used for outside or open air recreation, safety or wind protection purposes. Said **structures** shall not enclose space so as to constitute a form of penthouse or other room or rooms – a maximum vertical projection of 3.0 metres above the heights shown on Diagram 2;
- (H) A minimum 990 square metres of **amenity space** must be provided and maintained on the **lot** with the following standards:
- (i) 2.30 square metres of indoor **amenity space** for each **dwelling unit**;
  - (ii) 1.25 square metres of outdoor **amenity space** for each **dwelling unit** of which at least 40.0 square metres is to be provided in a location adjoining or directly accessible from the indoor **amenity space**; and
  - (iii) no more than 25 percent of the outdoor **amenity space** may be provided as a **green roof**;

- (I) **Parking spaces** for residents on the **lot** must be provided and maintained in accordance with the following minimum standards:
- (i) 0.3 **parking spaces** for each bachelor **dwelling unit**;
  - (ii) 0.5 **parking spaces** for each one bedroom **dwelling unit**;
  - (iii) 0.8 **parking spaces** for each two bedroom **dwelling unit**; and
  - (iv) 1.0 **parking spaces** for each three or more bedroom **dwelling unit**;
- (J) **Parking spaces** for residents on the **lot** may be reduced at a rate of 4 **parking spaces** for each *car-share parking space* provided on the **lot**, provided the maximum permitted reduction is calculated using the following formula:  $4 \times (\text{total number of dwelling units} \div 60)$ , rounded down to the nearest whole number;
- (K) In addition to subsection (J) of By-law 1430-2017, **parking spaces** for residents on the **lot** may be reduced at a rate of 1 **parking space** for each 5 **bicycle parking spaces** provided in excess of the minimum number of required **bicycle parking spaces** for the **lot** based on the standards contained in By-law 569-2013, provided the reduction is not greater than 20 percent of the total minimum **parking spaces** required in subsection (I) of By-law 1430-2017;
- (L) A minimum of 3 car-share **parking spaces** must be provided on the **lot**;
- (M) A minimum of 30 **parking spaces** for visitors to the **dwelling units**, and visitors and occupants of the non-residential uses must be provided and maintained on the **lot**, which may include car-share parking spaces;
- (N) A minimum of one Type "G" **loading space** must be provided and maintained on the **lot**, and **vehicle** access to the **loading space** may be given from a **street**;
- (O) Despite regulation 200.5.1.10(12)(B), the **vehicle** entrance or exit for a one-way **driveway** into or out of the **building** must have a minimum width of 3.3 metres;
- (P) A temporary sales presentation centre may be permitted on the **lot**, and none of the other provisions of By-law 1430-2017 apply to such use;
- (Q) Despite any future severance, partition or division of the **lot** as shown on Diagram 1, the provisions of By-law 1430-2017 applies as if no severance, partition or division occurred; and
- (R) For the purposes of this exception, the terms set forth in bold type have the same meaning as in By-law 569-2013 as amended, except that the following terms also apply:
- (i) "owner" means the registered owner of the **lot**;
  - (ii) "car-share motor vehicle" means a motor vehicle available for short-term rental, including an option for hourly rental, for the use of at least the occupants of the **building** erected on the **lot**;
  - (iii) "car-share **parking space**" means a **parking space** used exclusively for the parking of a *car-share motor vehicle*; and
  - (iv) "temporary sales presentation centre" shall mean an office, showroom or sales trailer used exclusively for the initial sale and/or initial leasing of **dwelling units** or non-residential units to be erected on the **lot**.

[ By-law: 1430-2017 ]

(17) Exception CRE 17

The lands or portion thereof as noted below, are subject to the following Site Specific Provisions, Prevailing By-laws and Prevailing Sections.

Site Specific Provisions:

- (A) On the lands municipally known as 19 Duncan Street and 219-223 Adelaide Street West, shown as CRE (x17) on Diagram 2 to By-law 171-2018(OMB), if the requirements of By-law 171-2018 (OMB) are complied with, none of the provisions of Regulations 50.10.20.100(5), 50.10.40.30(1), 50.10.40.31(2), 50.10.90.40.(1) and (3), 200.5.1.10(12)(C), 200.15, 600.10, and 900.12.10(74), apply to prevent the erection or use of **buildings** or **structures** permitted in By-law 171-2018(OMB);
- (B) In addition to the uses permitted by Regulation 50.10.20.10(1) and 50.10.20.20(1), **public parking** located below finished ground, car-share parking spaces, and shared bicycle parking are permitted;

- (C) The total **gross floor area**, calculated in accordance with the provisions of 50.5.40.40, of all **buildings** and **structures**, excluding the gross floor area associated with **public parking** located below finished ground, must not exceed 45,000 square metres provided that:
- (i) Exclusive of any **gross floor area** associated with a **hotel** use as described in subsection (ii) below, **buildings** and **structures** or portions thereof must be occupied by a minimum non-residential **gross floor area** of 14,750.0 square metres, of which a minimum **gross floor area** of 12,500.0 square metres shall be for office uses; and
  - (ii) **Hotel** suites and/or **hotel** rooms are permitted provided:
    - (a) The total number of such **hotel** suites and **hotel** rooms does not exceed 40; and
    - (b) The non-residential **gross floor area** used for **hotel** purposes must be located only commencing at or above a height of 41.0 metres above finished ground, save and except that such height restriction shall not apply to the associated **hotel** reception space;
- (D) At least ten percent (10 Percent) of the total number of **dwelling units** must be three-bedroom **dwelling units**;
- (E) At least twenty percent (20 Percent) of the total number of **dwelling units** must be two-bedroom **dwelling units**;
- (F) Despite all of regulations 5.10.40.70(1) and (2), 50.10.40.60, 50.10.40.70(1), (4) and 5(A), 50.10.40.71, and 50.10.40.80(3) no portion of any **building** or **structure** above finished ground is located other than wholly within the areas delineated by heavy lines on Diagrams 3a, 3b and 3c attached to By-law 171-2018(OMB) with the exception of the following:
- (i) Public art, landscape features, wheel chair ramps, light fixtures, stairs and stair enclosures, guardrails, bollards, awnings, canopies, railings, fences, vents, shafts, stacks, chimneys, satellite dishes, retaining walls, underground garage ramp and its associated structures, and window washing equipment;
  - (ii) Eaves, cornices, window sills to a maximum projection of 0.3 metres beyond the heavy lines;
  - (iii) Architectural fins that project a maximum of 0.5 metres beyond the main wall of the building;
  - (iv) Balconies that project a maximum distance of 2.0 metres beyond the heavy lines shown on Diagram 3a, provided such balconies do not project over the portion of the **building** identified as "Existing Heritage Building" as shown on Diagram 3a; and
  - (v) The erection or use of the **structures**, elements and enclosures permitted by regulation G below;
- (G) Despite all of regulations 50.5.40.10, and 50.10.40.10, the height of any **building** or **structure**, as measured from the Canadian Geodetic Datum elevation of 87.1 metres to the highest point of the **building** or **structure**, must not exceed the height in metres specified by the numbers following the symbol HT on Diagrams 3a, 3b and 3c of By-law 171-2018(OMB), except for:
- (i) The erection or use of the **structures**, elements and enclosures permitted by regulation F above;
  - (ii) Parapets provided the maximum height of such elements is no higher than 0.5 metres above the 179.5 metre height limit specified on Diagram 3a of By-law 171-2018(OMB);
  - (iii) Privacy screens provided the maximum height of such elements is no higher than 3.0 metres above the height limits specified on Diagram 3a of By-law 171-2018(OMB);
  - (iv) Structures used for outside or open air recreation, safety or wind protection purposes, provided the height of such elements is no higher than 3.4 metres above the height limits specified on Diagram 3a of By-law 171-2018(OMB);
  - (v) Elements associated with a green roof, provided the height of such elements is no higher than 3.0 metres above the height limits specified on Diagram 3 of By-law 171-2018(OMB); and
  - (vi) Notwithstanding any provision of regulation F. above, or regulation G.(1), (3), (4) and (5), no permitted projections shall exceed a height of 179.5 metres;
- (H) Despite any other provision of this By-law, that portion of the **building** or **structure** located above a height of 179.5 metres and identified as "Top of Elevator Room" on Diagram 3a of By-law 171-2018(OMB), must not exceed a height of 186.5 metres and must only be used for elevator overruns

- and associated machine rooms for such elevator overruns, service rooms, and emergency exiting stairs, and all such elements must in total not exceed a horizontal footprint area of 123 square metres;
- (I) Despite any other provision of this By-law, that portion of the **building** subject to a height limit of 170.0 metres as shown with a solid black line on Diagram 3c and identified as "Top H = 170.0 metres" is only permitted provided no such portion of the **building** is located below 162.0 metres above finished ground;
- (J) Despite any other provision of this By-law to the contrary, the exterior main wall of the level of the **building** located immediately above the portion of the **building** identified as "Existing Heritage Building" on Diagram 3a between a height of 22.2 metres above finished ground and 27.3 metres must be setback in accordance with the solid black line shown on Diagram 3b, and for the purposes of this subsection,  
"Existing Heritage Building" means the heritage building existing on the lands on the date of the passing of this By-law, as shown on Map 3a, including as may be altered provide such alteration is in accordance with a Heritage Easement Agreement entered into between the City and the owner pursuant to Section 37 of the Ontario Heritage Act and registered to the satisfaction of the City;
- (K) Despite regulation 50.10.40.50 amenity space must be provided on the lands for the use of residents of the **building** in accordance with the following:
- (i) A minimum of 1.5 square metres of indoor amenity space per dwelling unit must be provided in a room or rooms, one of which shall contain a kitchen and a washroom;
  - (ii) Up to a maximum 40 percent of the indoor **amenity space** required in subsection (A) above may be located within the **premises** of a non-residential use or uses within the building, on or below finished ground level only, except for **premises** exclusively used as an **eating establishment** or **retail store**, and such portion of the indoor residential **amenity space**, may also be accessible to office users, visitors, guests, and patrons of the building;
  - (iii) A minimum of 1.5 square metres of outdoor **amenity space** per **dwelling unit** must be provided per **dwelling unit** of which a minimum of 40 square metres must be provided in a location directly accessible from an area containing indoor **amenity space**; and
  - (iv) Up to a maximum of 65 percent of the outdoor **amenity space** required in subsection (C) above may be located within the premises of a non-residential use or uses within the building, and such portion of the outdoor residential **amenity space** may also be accessible to office users, visitors, guests, and patrons of the building;
- (L) Despite the definition of **amenity space** in regulation 800.50(15), **amenity space** must be available for use by occupants of a building for recreational or social activities and may also be available to guests and visitors of a **building**;
- (M) Despite all of regulations 50.5.80.1 and 200.5.10, **parking spaces** shall be provided and maintained in accordance with the following minimum requirements:
- (i) 0.1 **parking spaces** for each bachelor **dwelling unit**;
  - (ii) 0.15 **parking spaces** for each one-bedroom **dwelling unit**; and
  - (iii) 0.35 **parking spaces** for each two or more bedroom **dwelling unit**;
- (N) **Parking spaces** for all other uses on the lands shall be provided at least in accordance with the minimum requirements in the following table: (See item (N) of By-law 171-2018(OMB)).
- (O) The minimum number of **parking spaces** as required in the table above is determined as follows:
- (i) For each of the morning, afternoon and evening parking periods identified in the table above, the minimum number of **parking spaces** required for each use, is calculated using the respective **parking space** rate and occupancy rate;
  - (ii) The minimum number of **parking spaces** required for each parking period is the total of the **parking spaces** required for all uses during that parking period; and
  - (iii) The minimum number of **parking spaces** required is equal to the largest number of **parking spaces** required for any parking period;
- (P) Despite subsection (O) above, **parking spaces** are not required for non-residential uses located in a portion of the **building** the floor level of which is located at or below 2.5 metres above ground level;
- (Q) The **parking spaces** required pursuant to subsections (M) above may be provided on a non-exclusive basis on Level P2 and/or below in an underground parking garage, and may be provided in a **public parking** use that may or may not be **ancillary** to a permitted use on the lands;

- (R) Despite regulation 200.15 or any other provision of By-law 569-2013, as amended from time to time, a minimum of six (6) parking spaces on the lands must be provided as accessible parking spaces as follows:
- (i) Each **accessible parking space** must have the following minimum dimensions:
    - (a) Length of 5.6 metres;
    - (b) Width of 3.9 metres; and
    - (c) Vertical clearance of 2.1 metres;
  - (ii) An accessible barrier free aisle or path is not required along the length of an **accessible parking space**; and
  - (iii) An **accessible parking space** must be located within 15.0 metres of an entrance to an elevator lobby with one or more passenger elevator(s) that provide access to the first **storey** of the **building**;
- (S) Parking **spaces** must be provided and maintained in accordance with the requirements of regulation 200.5.1.10 of By-law 569-2013, as amended, with the exception of the following:
- (i) That up to a maximum of thirteen (13) obstructed parking spaces may be provided with a minimum width of 2.6 metres notwithstanding the requirements of 200.5.1.10(2)(A)(iv); and
  - (ii) That up to a maximum of nineteen (19) obstructed **parking spaces** may be provided with a minimum width of 2.6 metres and a minimum length of 5.3 metres notwithstanding the requirements of 200.5.1.10(2)(A)(i) and (iv);
- (T) Car-share parking spaces are permitted, and for the purpose of this subsection:
- "Car-share" means the practice whereby a number of people share the use of one or more motor vehicles and such car-share motor vehicles are made available to at least the occupants of the **building** for short-term rental, including hourly rental; and
- A "car-share parking space" means a parking space exclusively reserved and signed for a car used only for car-share purposes;
- (U) Despite regulation 220.5.10 a minimum of one **loading space** – type G, and two **loading spaces** – type C must be provided and maintained on the lands in accordance with the requirements of 220.5.1.10(8) and 220.5.20.1;
- (V) Despite regulation 230.5.1.10(9), where located within a **building bicycle parking spaces** must be located below ground;
- (W) Despite regulations 230.5.1.10(10) and 230.50.1.20(1) "short-term" **bicycle parking spaces** may be located in a **stacked bicycle parking space**;
- (X) A maximum of twelve (12) bicycle-share parking spaces are permitted, and for the purpose of this subsection, bicycle-share parking spaces means:
- "bicycle-share" means the practice whereby a number of people share the use of one or more bicycles that are owned by a profit or non-profit bicycle-sharing organization and such bicycle-share bicycles are made available to at least the occupants of the **building** for short-term rental, including hourly rental; and
- a "bicycle-share parking space" means a parking space exclusively reserved and signed for a bicycle used only for bicycle-share purposes;
- (Y) Despite any existing or future severance, partition, or division of the lands shown as CRE (x17) on Diagram 2 of By-law 171-2018(OMB), the provisions of this Exception and By-law 569-2013 shall apply to the whole of the lands as one lot as if no severance, partition or division had occurred.

  - (vi) pergolas, awnings, and windscreens only within "Area A" as shown on Diagram 3 of By-law 1189-2019 to a maximum of 3.0 metres and must be set back a minimum of 2.5 metres from the building envelope of "Area A";
- (E) Despite Clause 50.10.40.70 the required minimum **building setbacks** are shown on Diagram 3 of By-law 1189-2019;
- (F) Despite subsection (E) and Regulation 50.10.40.70, 50.5.40.60(1) and 50.10.40.60, the following may encroach into the required minimum building setbacks in Diagram 3 of By-law 1189-2019:
- (i) eaves, cornices, window frames or sills, light fixtures, railings, trellises, balustrades, vent caps, wheelchair ramps, outdoor fireplaces, and landscape features;
- (G) Regulation 50.10.40.80(3), with respect to distance between windows of **buildings** in King-Spadina does not apply;
- (H) The total combined **gross floor area** of all **buildings** and **structures**, must not exceed 9,800.0 square metres, of which:
- (i) the total **gross floor area** for uses listed in regulations 50.10.20.10 (1) (B) and 50.10.20.20 (1) (B) must not exceed 9,500.0 square metres;
  - (ii) the total **gross floor area** for uses listed in regulations 50.10.20.10 (1) (A) and 50.10.20.20 (1) (A) must not exceed 300.0 square metres; and
  - (iii) the uses listed in regulation 50.10.20.10 (1) (C) and 50.10.20.20 (1) (C) are not permitted;
- (I) Any applications under Section 34 and/or Section 45 of the Planning Act seeking further increases to the **gross floor area** so that the total combined **gross floor area** for the lands is greater than 10,000.0 square metres will be subject to a community benefit contribution as per Section 37 of the Planning Act;
- (J) A maximum of 123 **dwelling units** are permitted on the lands;
- (K) A minimum of 20 percent of all **dwelling units** provided on the lands must have 3-bedrooms;
- (L) Despite regulation 50.10.40.50(1), **amenity space** must be provided at a minimum rate of 4.0 square metres of indoor and outdoor **amenity space** in total per **dwelling unit**, of which:
- (i) a minimum of 200 square metres of outdoor **amenity space** must be provided and located either adjoining or directly accessible to the indoor **amenity space**, which may include outdoor **amenity space** located one level above the indoor **amenity space** that is directly accessible by a stairwell and elevator;
- (M) Despite the parking rates in Table 200.5.10.1 and Regulation 200.5.10.1 (1)(2)(7) **parking spaces** on the lands must be provided as follows:
- (i) a minimum of 24 **parking spaces** for residents;

- (ii) a minimum of 8 **parking spaces** for visitors; and
- (iii) no **parking spaces** are required for the non-residential uses;
- (N) Despite regulation 200.5.1.10(2) a **parking space**, with or without a fixed object within 0.3 metres of the side of the **parking space**, may have the following minimum dimensions:
  - (i) length of 5.6 metres;
  - (ii) width of 2.6 metres; and
  - (iii) vertical clearance of 2.0 metres;
- (O) Despite regulation 220.5.10 one Type "G" **loading space** must be provided on the lands;
- (P) Despite regulation 200.5.10.1(1) and (5) **bicycle parking spaces** for all **dwelling units** must be provided and maintained on the lands in accordance with the following:
  - (i) a minimum of 0.9 long-term **bicycle parking spaces** must be provided within first **storey** or the first level of the **building** below-ground for every **dwelling unit** on the lands; and
  - (ii) a minimum of 0.1 short-term **bicycle parking spaces** must be provided within first **storey** or the first level of the **building** below-ground for every **dwelling unit** on the lands;
- (Q) Section 600.10, with respect to tall building regulations in the Downtown does not apply;
- (R) Despite regulation 50.5.40.40(3) the **gross floor area** of a **mixed use building** is also reduced by the area in the **building** used for:
  - (i) a room or enclosed area, including its enclosing walls within the **building** or **structure** above or below-ground that is used exclusively for the accommodation of heating, cooling, ventilating, electrical, mechanical (other than escalators) or telecommunications equipment that serves the **building**; and
  - (ii) exit stairs in the **building** or **structure**.

The lands, or a portion thereof as noted below, are subject to the following Site Specific Provisions, Prevailing By-laws and Prevailing Sections.

Site Specific Provisions:

- (A) On 8-30 Widmer Street, if the requirements of Section 5 and Schedule A of By-law 75-2019(LPAT) are complied with, none of the provisions of 50.10.40.1(2) and (4), 50.10.40.80(1), 150.5.20.1(1) (A)-(D), (2) and (6), 600.10, apply to prevent the erection or use of **buildings** or **structures** on the lands if in compliance with regulations (B) to (R);
- (B) In addition to the uses permitted by Regulations 50.10.20.10(1) and 50.10.20.20(1), the following uses are also permitted:
  - (i) One (1) **home occupation** is permitted within each of the six (6) existing heritage **townhouse dwelling units** identified as "existing heritage townhouse dwelling unit" on Diagram 3 of By-law 75-2019(LPAT); and
  - (ii) **Public parking** is permitted within the below grade **parking garage**;
- (C) The total **gross floor area** of **buildings** and **structures** must not exceed a maximum of 62,000 square metres, of which:
  - (i) **Buildings** and **structures** or portions thereof, occupied by residential uses must not exceed a **gross floor area** of 45,500 square metres, including the **gross floor area** of the existing heritage **townhouse dwelling units**, identified as "existing heritage townhouse dwelling unit" on Diagram 3 of By-law 75-2019(LPAT); and
  - (ii) **Buildings** and **structures** or portions thereof, occupied by **non-residential** uses must not exceed a **gross floor area** of 16,500 square metres, which excludes the **gross floor area** associated with the **public parking** use;

- (D) The maximum number of **dwelling units** is 665 and is allocated as follows:
- (i) A maximum of 225 **dwelling units** in Tower 1, identified as Tower 1 on Diagram 3 of By-law 75-2019(LPAT);
  - (ii) A maximum of 434 **dwelling units** in Tower 2 identified as Tower 2 on Diagram 3 of By-law 75-2019(LPAT); and
  - (iii) A maximum of one **dwelling unit** in each of the existing heritage **townhouses**, identified as "existing heritage townhouse dwelling unit" on Diagram 3 of By-law 75-2019(LPAT);
- (E) Despite regulations (D) above and (L) below, a guest suite is not a **dwelling unit** for the purposes of determining the total number of permitted **dwelling units** and the calculation of **amenity space**;
- (F) At least ten percent (10 percent) of the total number of **dwelling units** in Tower 1, identified as Tower 1 on Diagram 3 of By-law 75-2019(LPAT), must have three (3) bedrooms;
- (G) At least fifteen percent (15 percent) of the total number of **dwelling units** in Tower 2, identified as Tower 2 on Diagram 3 of By-law 75-2019(LPAT), must have three (3) bedrooms;
- (H) At least forty percent (40 percent) of the total number of **dwelling units** in Tower 2, identified as Tower 2 on Diagram 3 of By-law 75-2019(LPAT), must have two (2) bedrooms;
- (I) Despite all of regulations 50.10.40.60, 50.5.40.70(1)(A), 50.10.40.70 and 50.10.40.80(3) no portion of any **building** or **structure** above finished ground is located other than wholly within the areas delineated by heavy lines on Diagram 3 By-law 75-2019(LPAT) with the exception of the following:
- (i) Lighting fixtures, cornices, sills, eaves, canopies, parapets, and window washing equipment attached to a **building** or **structure** may project a maximum distance of 3.0 metres beyond the heavy lines shown on Diagram 3;
  - (ii) Lighting fixtures, railings, privacy screens, balustrades, bollards, stairs and related enclosures, safety railings, wind mitigation elements, trellises, guards, guardrails, wheel chair ramps, air intakes and vents, ventilating equipment, bike share facilities, ornamental or architectural features, including planters, green energy and renewable energy elements, and art installations may be located at ground level beyond the heavy lines shown on Diagram 3, in accordance with the height limits set out in Section (J) of this exception;
  - (iii) Balconies on the north **main wall** of Tower 1, identified as Tower 1 on Diagram 3 of By-law 75-2019(LPAT), may project a maximum distance of 1.8 metres beyond the heavy lines shown on Diagram 3;
  - (iv) Balconies on the south **main wall** of Tower 2, identified as Tower 2 on Diagram 3 of By-law 75-2019(LPAT), may project a maximum distance of 1.8 metres beyond the heavy lines shown on Diagram 3;
  - (v) Architectural fins on the podium portions of Tower 1 and Tower 2 identified as Tower 1 and Tower 2 on Diagram 3 of By-law 75-2019(LPAT), which are vertical, ornamental elements that are attached to and project from the **main walls** of the **buildings** and have a maximum width of 0.50 metres, may project a maximum of 0.3 metres beyond the heavy lines, including the dashed line fronting Adelaide Street East at the Ground Level, shown on Diagram 3; and
  - (vi) **Structures**, elements and enclosures permitted by regulation (J) below;
- (J) Despite all of regulations 50.5.40.10 and 50.10.40.10(1) and (3), the height of each portion of a **building** or **structure** is measured as the vertical distance between Canadian Geodetic Datum elevation of 87.15 metres and the highest point of the **building** or **structure** and must not exceed the height in metres as specified by the numbers following the symbol H as shown on Diagram 3 of By-law 75-2019(LPAT) except for the following projections:
- (i) **Structures**, elements and enclosures permitted by regulation (I) above;
  - (ii) Parapets provided the maximum height of such elements are no higher than 1.5 metres above the portion of the building to which they are attached;
  - (iii) Canopies provided the maximum height of such elements is no higher than 4.0 metres above ground level;
  - (iv) Window washing equipment provided the maximum height of such elements is no higher than 2.5 metres above the portion of the building to it is attached;
  - (v) **Structures** used for outdoor **amenity space** or open air recreation, wind screens, privacy screens or vestibules providing access to outdoor amenity space provided the maximum height of such elements is no higher than 1.8 metres above the height limits specified on Diagram 3;

- (vi) **Structures** on any roof used for maintenance, safety, or green roof purposes, chimneys, vents, stacks, shafts, mechanical fans, elevators, elevator machine rooms, and related structural elements, or associated with green energy and renewable energy facilities provided the maximum height of such elements is no higher than 2.5 metres above the height limits specified on Diagram 3;
  - (vii) **Structures** at ground level, including bollards, guards, guardrails, wheel chair ramps, green energy and renewable energy facilities, air intakes and vents, and ventilating equipment provided the maximum height of such elements is no higher than 1.2 metres above ground level;
  - (viii) **Structures** at ground level, including railings, privacy screens, balustrades, stairs and related enclosures, fences, bike share facilities, and safety railings, provided the maximum height of such elements is no higher than 2.0 metres above ground level;
  - (ix) **Structures** at ground level, including lighting fixtures, ornamental or architectural features, wind mitigation elements, trellises, landscape features, including planters, and art installations provided the maximum height of such elements is no higher than 4.0 metres above ground level; and
  - (x) On the podium portions of Tower 1 and Tower 2, as identified as Tower 1 and Tower 2 on Diagram 3 of By-law 75-2019(LPAT), architectural fins, which are vertical, ornamental elements that are attached to and project from the **main walls** of the **buildings**, and have a maximum width of 0.50 metres, are permitted if the top of the architectural fin is no higher than 1.5 metres above that portion of the **building** to which it is attached;
- (K) Despite regulation 50.10.40.50, **amenity space** must be provided in accordance with the following:
- (i) A minimum of 1.00 square metres per **dwelling unit** of indoor **amenity space** must be provided in a multi-purpose room or rooms that collectively contain a kitchen and a washroom; and
  - (ii) A minimum of 1.00 square metres per **dwelling unit** of outdoor **amenity space** shall be provided of which at least 40 square metres of outdoor **amenity space** must be provided in a location directly accessible from an area containing indoor **amenity space**, and of which up to 25 percent may be **green roof** area;
- (L) Despite regulations 200.5.10.1(1) and (5), **parking spaces** must be provided in accordance with the following:
- (i) 0.17 **parking spaces** for each **dwelling unit** for residents;
  - (ii) 0.06 **parking spaces** for each **dwelling unit** for residential visitors; and
  - (iii) A minimum of 18 **parking spaces** must be provided and maintained for the **hotel**, of which at least one (1) such **parking space** must be designated only for use by a taxi;
- (M) Despite regulation (M) above, **parking spaces** are not required to be provided for the six (6) existing heritage **townhouse dwelling units** identified as "existing heritage townhouse dwelling unit" on Diagram 3 of By-law 75-2019(LPAT);
- (N) Despite regulation 50.5.80.1, the **parking spaces** required by regulation 0(ii) and (iii) above, may be provided within a **public parking** use on the lands;
- (O) Despite regulation 200.5.1.10(2), a maximum of 10 percent of the total number of **parking spaces** provided and maintained in a **parking garage** may have the following dimensions, with or without a fixed object or obstruction within 0.30 metres of the side of the **parking space**:
- (i) Length: 5.4 metres;
  - (ii) Width: 2.4 metres; and
  - (iii) Height: 1.80 metres;
- (P) Despite regulation 200.15.1(4), an accessible **parking space** must be located within 17.0 metres of an entrance to an elevator lobby with one or more passenger elevator(s) that provide access to the first **storey** of the **building**;
- (Q) Despite clause 220.5.10.1, **loading spaces** must be provided and maintained on the lands as follows:
- (i) One (1) type "G" **loading space**;
  - (ii) One (1) type "B" **loading space**; and

(iii) One (1) type "C" **loading space**; and

(R) Despite any existing or future severance, partition, or division of the lands shown as CRE (x21) on Diagram 3 of By-law 75-2019(LPAT), the provisions of this Exception and By-law 569-2013 shall apply to the whole of the lands as one lot as if no severance, partition or division had occurred.

(22) Exception CRE 22

The lands, or a portion thereof as noted below, are subject to the following Site Specific Provisions, Prevailing By-laws and Prevailing Sections.

Site Specific Provisions:

- (A) On the lands municipally known as 543-553 Richmond Street West, if the requirements of Section 5 and Schedule A of By-law 1615-2019(LPAT) are complied with, none of the provisions of regulations 50.10.40.30(1), 50.10.40.80 (1) to (3), 50.10.90.40.(1), 200.15.1.5(1), 600.10 and 600.10.10 apply to prevent the erection or use of a **building, structure**, addition or enlargement permitted in compliance with the following:
- (B) Despite regulation 50.5.40.40, the total **gross floor area** of all buildings and structures on the lot must not exceed 37, 500 square metres and:
  - (i) the residential **gross floor area** must not exceed 35,750 square metres; and
  - (ii) the non-residential **gross floor area** must not exceed 1,750 square metres;
- (C) The maximum number of **dwelling units** is 485;
- (D) Height is measured from the Canadian Geodetic Datum elevation of 90.42 metres;
- (E) A minimum of 10 percent of the dwelling units must be 3-bedroom units;
- (F) Despite regulation 50.10.40.10(1), no portion of a **building** or **structure** on the **lot** may have a height greater than the height limits specified by the numbers in metres following the symbol H on Diagram 3 of By-law 1615-2019(LPAT);
- (G) Despite regulation 50.5.40.10 and (F) above, the following elements of a **building** may exceed the maximum permitted height as follows:
  - (i) 2.0 metres for parapets, terrace or balcony guardrails, balustrades, dividers or railings, trellises, privacy screens, roof access hatch, window washing equipment, lightning rods, garbage chute overruns, elements of a **green roof**, light fixtures, **structures** located on the roof used for outside or open air recreation, safety or wind protection purposes;
  - (ii) 0.5 metres above the height of the mechanical penthouse for elements of a roof assembly, elements of a **green roof** and parapets; and
  - (iii) 1.1 metres above the height of the mechanical penthouse for an elevator overrun;
- (H) Despite regulations 50.10.40.70(1) and 50.10.40.60, no portion of any **building** or **structure** erected above the Canadian Geodetic Datum elevation of 90.42 metres is located otherwise than wholly within the areas shown on Diagram 3 of By-law 1615-2019(LPAT);
- (I) Despite (H) above, the following elements of a **building** may encroach into a required **building setback** as follows to a maximum of:
  - (i) 0.5 metres for cornices, eaves, light fixtures, window sills, ventilation shafts, balustrades, railings, stair enclosures, stairs, planters, screens, underground garage ramp and associated structures, retaining walls, stairs and stair enclosures, wheel chair ramps and which may project to a maximum of 0.5 metres;
  - (ii) 2.0 metres for balconies and terraces; and
  - (iii) 3.0 metres for canopies;
- (J) Despite regulation 200.5.10.1, **parking spaces** for residential and non-residential uses on the **lot** must be provided and maintained in accordance with the following:
  - (i) a minimum of 0.36 **parking spaces** for each **dwelling unit** for residents;
  - (ii) a minimum of 0.08 **parking spaces** for each **dwelling unit** for residential visitors; and
  - (iii) no **parking spaces** are required for non-residential uses;

- (K) Despite regulation 200.15.10, a minimum of 8 **accessible parking spaces** must be provided;
- (L) Despite regulation 230.5.10.1, all indoor **bicycle parking spaces** must be limited to the ground floor and P1 level of the **building**;
- (M) Despite regulation 230.5.1.10(4)(C), **staked bicycle parking spaces** staked horizontally must have the following minimum dimensions:
  - (i) a minimum width of 0.6 metres;
  - (ii) a minimum length of 1.8 metres; and
  - (iii) a minimum vertical clearance of 1.2 metres;
- (N) Despite regulation 220.5.10.1, a minimum of one Type "G" **loading space**, one Type "B" **loading space**, and one Type "C" **loading space** must be provided and maintained on the **lot**;
- (O) Despite any existing or future severance, partition, or division of the **lot**, shown on Diagram 2 of By-law 1615-2019(LPAT), the provisions of this By-law applies to the whole **lot** as if no severance, partition or division occurred;

(25) Exception CRE 25

The lands, or a portion thereof as noted below, are subject to the following Site Specific Provisions, Prevailing By-laws and Prevailing Sections.

Site Specific Provisions:

- (A) On lands known municipally as 489, 495, 499, 511, 519-529 and 539 King Street West if the requirements of Section (10) and Schedule (A) of By-law 366-2020(LPAT) are complied with, **buildings or structures** may be erected or constructed in compliance with regulation (B) to (T) below;
- (B) The **lot** comprises at least the land outlined by heavy lines on attached Diagram 1 of By-law 366-2020(LPAT);
- (C) In addition to the uses permitted by Regulation 50.10.20.10(1) and 50.10.20.20(1), **public parking** is permitted if it is entirely below ground;
- (D) On the portion of the **lot** shown in shaded on attached Diagram 6 of By-law 366-2020(LPAT), the following uses are permitted: **retail store**, stand-alone outdoor sales and display, **eating establishment** and **take-out eating establishment**;
- (E) The total permitted **gross floor area** of all **buildings and structures** is 60,000 square metres of which a maximum of 40,000 square metres may be used for residential uses calculated in accordance with the provisions of 50.5.40.40 (3), excluding the **gross floor area** associated with the **public parking** located below ground;
- (F) At least 20 percent of all **dwelling units** on the **lot** must have two or more bedrooms, and at least 10 percent of all **dwelling units** must have three or more bedroom;
- (G) Despite 50.5.40.10 (1) and (2), height is measured from the Canadian Geodetic Datum elevation of 87.18 metres to the highest point of the **building or structure**;
- (H) Despite 50.10.20.100(41) stand-alone outdoor sales and display is permitted;
- (I) Despite 50.10.40.10(1) no part of any **building or structure** on the **lot** may have a height greater than the height in metres specified by the number following the symbol HT measured to the top of each **storey** as identified in Diagrams 7-23 of By-law 366-2020(LPAT);
- (J) Despite (G) above and 50.5.40.10(3) to (7) the following elements of a **building** may exceed the maximum height as follows:
  - (i) cornices, parapets, lighting fixtures, ornamental elements, chimneys, vents, stacks, railings, stairs, stair enclosures, planters, elements or **structures** used for outside or open air recreation, safety or wind protection purposes, terrace and balcony railings and dividers, elements of a **green roof**, cooling towers and lightning rods to a maximum of 3.5 metres;
  - (ii) window washing equipment and **building** maintenance equipment to a maximum of 6.0 metres;
  - (iii) utility enclosure to a maximum of 3.0 metres; and
  - (iv) public art in accordance with the requirements of Section 10 and Schedule A of By-law 366-2020(LPAT).
- (K) Despite 50.10.40.30(1) with respect to **building depth**, does not apply;
- (L) Despite 50.10.40.70(1), (3), (4), (5) and 50.10.40.80(1), (2) (3), the minimum above ground **building setbacks** and minimum distance between external walls for each level of the **building** are as shown on Diagrams 7-23 of By-law 366-2020(LPAT).
- (M) Despite (L) above and 50.10.40.60 (1) to (8) the following may encroach into the required **building setbacks** shown on Diagrams 7-23 of By-law 366-2020(LPAT) as follows:
  - (i) awnings, canopies, ornamental elements, window sills, guardrails, balustrades, railings, stairs, stair enclosures, landscape features to a maximum of 1.5 metres;
  - (ii) utility enclosure; and
  - (iii) public art in accordance with the requirements of Section 10 and Schedule A of By-law 366-2020(LPAT).
- (N) Despite 50.10.40.50(1), **amenity space** must be provided on the **lot** as follows:

- (i) a minimum of 1.5 square metres of indoor **amenity space** for each **dwelling unit** must be provided in a room or rooms, one of which must contain a kitchen and at least one washroom; and
  - (ii) a minimum of 0.7 square metres of outdoor **amenity space** for each **dwelling unit**.
- (O) Despite 200.5.10.1 (1), **parking spaces** must be provided and maintained on the **lot** in accordance with the following:
- (i) a minimum of 0.3 **parking spaces** for each **dwelling unit** must be provided for the exclusive use of residents;
  - (ii) no visitor **parking spaces** are required; and
  - (iii) a minimum of 1 **parking space** must be provided for every 300 square metres of non-residential **gross floor area** and may be provided as **public parking**.
- (P) Despite 200.5.1.10(2), a maximum of 40 **parking spaces** that are obstructed on one or two sides may have a minimum width of 2.6 metres;
- (Q) The parking requirement listed in (O)(i) may be reduced by four **parking spaces** for each car share parking space provided. The maximum reduction is calculated using the following formula:  $4 \times (\text{the total number of dwelling units divided by } 60)$  rounded down to the nearest whole number;
- (R) Despite 220.5.20.1(2), the maximum permitted slope of a ramp or **driveway** leading to a **loading space** is 12 percent, except that maximum permitted slope of the portion of a ramp or **driveway** within 6 metres of the limit of a street is 5 percent;
- (S) Despite 220.5.10(1), a minimum of one Type "G", **loading space**, three Type "B" **loading spaces** and two Type "C" **loading spaces** must be provided and maintained on the **lot**; and
- (T) Despite 230.5.1.10(10), a "long-term" or "short-term" **bicycle parking space** may be located in a **stacked bicycle parking space**.

The lands, or a portion thereof as noted below, are subject to the following Site Specific Provisions, Prevailing By-laws and Prevailing Sections.

Site Specific Provisions:

- (A) On the lands identified on Diagram 1 attached to By-law 96-2022, a **building, structure**, addition or enlargement may be constructed or used in compliance with (B) to (N) below;
- (B) For the purposes of this exception, the **lot** comprises the lands identified by heavy lines on Diagram 1 attached to By-law 96-2022;
- (C) Despite clause 50.5.40.40, the permitted maximum **gross floor area** is 21,850 square metres for non-residential uses and 0 square metres for residential uses;
- (D) In addition to the provisions of regulation 50.5.40.40(1), the floor area of the existing **building** known municipally as 96 Spadina Avenue is not included in the calculation of gross floor area;
- (E) Despite clause 50.10.40.70 and article 600.10.10, the required minimum **building setbacks** of a **building or structure** are shown in metres on Diagram 7 of By-law 96-2022;
- (F) Despite regulation 50.5.40.60(1), clause 50.10.40.60 and regulation (E) above the following **building** elements may encroach into a required **building setback**:
  - (i) Public art, landscape features, wheel chair ramps, light fixtures, stairs and stair enclosures, guardrails, bollards, awnings, canopies, railings, fences, vents, shafts, stacks, chimneys, satellite dishes, retaining walls, underground garage ramp and its associated structures, and window washing equipment;
  - (ii) Eaves, cornices, window sills, curtain wall mullions to a maximum projection of 0.5 metres beyond the heavy lines on Diagram 7 of By-law 96-2022;
  - (iii) balconies that project a maximum distance of 2.0 metres beyond the heavy lines shown on Diagram 7, provided such balconies do not project over the portions identified as "Existing Building" as shown on Diagram 7 of By-law 96-2022; and
  - (iv) The erection or use of the **structures**, elements and enclosures permitted by regulation (I) below.

- (G) Despite regulations 50.5.40.10(1) and (2), the height of a **building** or **structure** is measured from the Canadian Geodetic Datum elevation of 88.52 metres to the highest point of the **building** or **structure**;
- (H) Despite clause 50.10.40.10, the permitted maximum height of a **building** or **structure** is the height in metres specified by the numbers following the symbol HT on Diagram 7 of By-law 96-2022;
- (I) Despite regulations 50.5.40.10(3), (4), (5), (6) and (7), the following **building** elements may project above the permitted maximum height:
  - (i) **Structures**, elements and enclosures permitted by regulation (E) above; and
  - (ii) The erection or use of **structures** on any roof used for outdoor **amenity space**, maintenance, safety, wind protection purposes, **green roof** purposes, vestibules providing access to outdoor amenity or recreation space, parapets, structural masts, elevators and related structural elements, signage, cooling towers, mechanical and architectural screens, chimneys, vents, stacks, and mechanical fans, **structures** and elements associated with green energy and **renewable energy** facilities, provided such projections are limited to a maximum vertical projection of 5 metres above the permitted **building** heights shown on Diagram 7 of By-law 96-2022.
- (J) Despite regulations 50.5.80.10(1) and 200.5.1(2) and article 200.5.10, 83 **parking spaces** are required, which may be provided off-site within a **public parking** facility that is within 300 metres of the **lot**;
- (K) Despite article 220.5.10, a minimum of two Type "B" **loading spaces** and one Type "C" **loading space** must be provided and maintained on the **lot**;
- (L) Despite regulation 230.5.1.10(9) and article 230.5.10, **bicycle parking spaces** must be provided for office uses and **retail stores** as follows: 47 **bicycle parking spaces** allocated as "long term" **bicycle parking spaces** and 50 **bicycle parking spaces** allocated as "short term" **bicycle parking spaces**, subject to the following:
  - (i) "Long term" **bicycle parking spaces** must be located one level below ground; and
  - (ii) "Short term" **bicycle parking spaces** must be located on the surface of the **lot** or one level below ground.
- (M) Despite clause 230.5.1.10(7), a minimum of 5 shower-change facilities for each gender shall be provided on the **lot**; and
- (N) Despite any existing or future severance, partition, or division of the **lot**, the provisions of this Exception and By-law 569-2013 shall apply as if no severance, partition or division had occurred.

Prevailing By-laws and Prevailing Sections: (None Apply)

(27) Exception CRE 27

The lands, or a portion thereof as noted below, are subject to the following Site Specific Provisions, Prevailing By-laws and Prevailing Sections:

Site Specific Provisions:

- (A) On 540-544 King Street West and 1-7 Morrison Street, if the requirements of Section 6 and Schedule A of By-law 244-2020 are complied with, then a **building** or **structure** may be constructed in compliance with regulations (B) to (T) below;
- (B) Despite regulation 50.10.20.10(1), **public parking** is a permitted use;
- (C) The maximum **gross floor area** on the **lot** must not exceed 26,200 square metres, provided:
  - (i) the residential **gross floor area** does not exceed 7,200 square metres; and
  - (ii) the non-residential **gross floor area** does not exceed 19,000 square metres;
- (D) In addition to the exclusions listed in Clause 50.5.40.40, the **gross floor area** of a **building** is also reduced by:
  - (i) The area in the **building** used for **public parking** located below finished ground level;
  - (ii) a maximum of 520 square metres of mechanical space located within the **building**; and
  - (iii) **amenity space**;
- (E) A minimum of 10 percent of the **dwelling units** must contain three or more bedrooms and 20 percent of the **dwelling units** must contain two or more bedrooms;

- (F) Despite regulation 50.5.40.10(1), the height of a **building** or **structure** is the distance between the Canadian Geodetic Datum of 88.53 metres and the elevation of the highest point of the **building** or **structure**;
- (G) Despite regulation 50.10.40.10(1), no portion of any **building** or **structure** on the **lot** may have a **height** greater than the **height** in metres specified by the number following the "HT" symbol as shown on Diagram 3 attached to By-law 244-2020;
- (H) Despite Clause 50.5.40.10 and regulation (G) above, the following elements of a **building** may exceed the maximum permitted **height** as follows:
  - (i) Wind screens, parapets, terrace or balcony guardrails, ornamental elements, pavers, balustrades, railings and dividers, pergolas, trellises, planters, eaves, privacy screens, stair enclosures, skylights, mechanical equipment, mechanical and architectural screens, access hatches, roof assemblies, roof drainage, window washing equipment, chimneys, vents, lightning rods, light fixtures, pavers, elements of a **green roof**, **structures** located on the roof used for outside or open air recreation, which may project above the **height** limits shown on Diagram 3 and Diagram 4 attached to By-law 244-2020 by no more than 2.0 metres; and
  - (ii) Elevator overrun which may project above the **height** limits shown on Diagram 3 attached to By-law 244-2020 by no more than 4 metres;
- (I) Despite clause 50.5.40.70 and regulations 50.10.40.70(1), (3) and (5), and 50.10.40.80(1) and (3), the required minimum **building setbacks** and minimum distance between **main walls** must be provided as shown Diagram 3 and Diagram 4 of By-law 244-2020;
- (J) Despite regulation 50.5.40.60(1), clause 50.10.40.60 and regulation (I) above, the following elements of a **building** may encroach into the required **building setback** or separation distance:
  - (i) Cornices, eaves, light fixtures, parapets, art and **landscaping** features, trellises, window sills, vertical window screens, ornamental elements, ventilation shafts, mechanical equipment, balustrade, railings, wheelchair ramps, site servicing features, window washing equipment, mullion cap extensions, screening, stair enclosures, fences underground garage ramp and associated **structures**, up to a maximum of 0.5 metres;
  - (ii) Balconies and terraces, up to a maximum of 1.5 metres; and
  - (iii) Awning and canopies, up to a maximum of 2.0 metres;
- (K) Regulation 600.10.10 with respect to **building setbacks** does not apply;
- (L) Regulation 50.10.40.30(1) with respect to **building depth** does not apply;
- (M) Despite regulation 50.10.40.50(1), **amenity space** must be provided as follows:
  - (i) A minimum of 1.5 square metres per **dwelling unit** of indoor **amenity space**; and
  - (ii) A minimum of 1.0 square metres per **dwelling unit** of outdoor **amenity space**;
- (N) Despite regulation 200.5.10(1), **parking spaces** must be provided as follows:
  - (i) A minimum of 14 **parking spaces** for the **dwelling units**;
  - (ii) No **parking spaces** are required for the visitors of the **dwelling units**;
  - (iii) No **parking spaces** are required for the non-residential uses; and
  - (iv) A minimum of 39 **parking spaces** in a **public parking** garage;
- (O) Despite regulation 220.5.10.1(3) and (5), at least one Type "G" **loading space** and two Type "C" **loading spaces** must be provided and maintained;
- (P) Despite regulation 50.10.90.10(1), a **loading space** is permitted in a **side yard** abutting a **street**;
- (Q) Despite regulation 50.10.90.40(1), **vehicle** access to a **loading space** is permitted from a **street** which is a major **street**;
- (R) Despite regulation 230.5.1.10(10), both long-term and short-term **bicycle parking spaces** may be provided in a **stacked bicycle parking space**;
- (S) Despite regulation 230.5.1.10(9), long-term **bicycle parking spaces** may be provided in the P1 and P2 level of the **building**; and
- (T) Despite regulation 230.40.1.20(2), a short-term **bicycle parking space** may be located more than 30 metres from a pedestrian entrance.

(A) 12(2)270 of former City of Toronto By-law 438-86. [ By-law: 244-2020 Enacted ]

(28) Exception CRE 28

The lands, or a portion thereof as noted below, are subject to the following Site Specific Provisions, Prevailing By-laws and Prevailing Sections.

Site Specific Provisions:

- (A) On 15 Duncan Street and 150 to 158 Pearl Street, if the requirements of By-law 1192-2022(OLT), including Section 6 and Schedule A are complied with, a **building** or **structure** may be constructed, used or enlarged in compliance with regulations (B) to (P) below.
- (B) The total gross floor area of all **buildings** and **structures** must not exceed 42,550 square metres of which a minimum non-residential **gross floor area** of 3,915 square metres is required;
- (C) A minimum of ten percent of the total number of **dwelling units** must have three or more bedrooms;
- (D) Despite Clauses 50.10.40.70, 50.10.40.71 and 50.10.40.80, and Article 600.10.10, the minimum required **building setbacks** and minimum above-ground distance between **main walls** are shown in metres on Diagram 3, Diagram 4, Diagram 5, Diagram 6, Diagram 7, Diagram 8, and Diagram 9 of By-law 1192-2022(OLT);
- (E) Regulation 50.10.40.1(1) with respect to the first floor elevation does not apply;
- (F) Regulations 50.10.40.1(2) and (4) with respect to **building** orientation to a **street** do not apply;
- (G) Despite Clause 50.10.40.60 and (D) above, the following building elements and **structures** are permitted to encroach into required **building setbacks** shown on Diagram 3, Diagram 4, Diagram 5, Diagram 6, Diagram 7, Diagram 8, and Diagram 9 of By-law 1192-2022(OLT):
  - (i) Public art, landscape features, wheel chair ramps, light fixtures, stairs and stair enclosures, guardrails, bollards, awnings, canopies, railings, fences, vents, shafts, stacks, chimneys, roof drainage, roof ballast and thermal insulation, waterproofing, satellite dishes, retaining walls, underground garage ramp and its associated **structures**, and window washing equipment;
  - (ii) Eaves, cornices and window sills to a maximum of 0.5 metres;
  - (iii) Architectural elements to a maximum of 0.5 metres;
  - (iv) Eaves, cornices, window sills and architectural elements to a maximum of 1.85 metres beyond the southerly **main wall** of the **building**, provided they are not located within areas that do not permit balconies as identified on Diagram 6, Diagram 7, Diagram 8, and Diagram 9;
  - (v) Balconies to a maximum of 2.0 metres, provided such balconies are not located within areas that do not permit balconies as identified on Diagram 6, Diagram 7, Diagram 8, and Diagram 9; and
  - (vi) Exterior **building** support columns that are located within the area identified as "HT 180.0" on Diagram 3, despite any requirements relating to the cantilevering of portions of the **building**;
- (H) Clauses 50.10.40.30 and 50.10.40.31 with respect to **building depth** do not apply;
- (I) Despite Regulations 50.5.40.10(1) and (2), the height of a **building** or **structure** is the distance between the Canadian Geodetic Datum elevation of 86.44 metres and the elevation of the highest point of the **building** or **structure**;
- (J) Despite Regulations 50.10.40.10(1), (2) and (3), the permitted maximum height of a **building** or **structure** is the number in metres following the letters "HT" as shown on Diagram 3 of By-law 1192-2022(OLT);
- (K) Despite Regulations 50.5.40.10(3), (4), (5), (6) and (7), and (J) above, the following **building** elements and **structures** are permitted to project above the heights shown on Diagram 3 of By-law 1192-2022(OLT);
  - (i) the **structures**, elements and enclosures permitted by (G) above;
  - (ii) Parapet walls provided the maximum height of such elements is no higher than 2.0 metres above the height limits shown on Diagram 3;
  - (iii) Privacy screens provided the maximum height of such elements is no higher than 3.0 metres above the height limits shown on Diagram 3;
  - (iv) **Structures** used for outside or open air recreation, safety or wind protection purposes, provided the height of such elements is no higher than 3.4 metres above the height limits shown on Diagram 3;

- (v) Elements associated with a **green roof**, provided the height of such elements is no higher than 3.0 metres above the height limits shown on Diagram 3;
  - (vi) Despite (G) or (K) (i), (ii), (iii), (iv) and (v) above, nothing is permitted to project above the area identified as "HT 180.0" on Diagram 3;
  - (vii) Despite (K)(vi) above, within the area identified as "HT 180.0" on Diagram 3, chimneys, pipes and vents are permitted to project above a height of 180.0 metres, provided the maximum height of such elements is no higher than 3.0 metres; and
  - (viii) Despite (K)(vi) above, for that portion of the **building** or **structure** identified as "Elevator Machine Room" on Diagram 3, elevator overruns and associated machine rooms for such elevator overruns, service rooms, and emergency exiting stairs, are permitted to project above a height of 180.0 metres, provided the height of these elements does not exceed the permitted maximum height by more than 7.0 metres, and that the total area of all such elements must not exceed an area of 150 square metres, measured horizontally;
- (L) Despite Regulation 50.10.40.50(1) **amenity space** must be provided on the lands for the use of residents of the **building** in accordance with the following:
- (i) A minimum of 2.0 square metres of indoor **amenity space** per **dwelling unit** must be provided; and
  - (ii) A minimum of 1.3 square metres of outdoor **amenity space** per **dwelling unit** must be provided;
- (M) Despite Clause 200.5.10.1 and Article 200.20.10, **parking spaces** must be provided in accordance with the following:
- (i) a minimum of 0.2 residential occupant **parking spaces** for each **dwelling unit**;
  - (ii) a minimum of 0.25 **parking spaces** for each 100 square metres of non-residential **gross floor area**; and
  - (iii) Despite regulation 200.5.1.10(12)(C), the **vehicle** entrance or exit to the **building** must be at least 3.0 metres from the **lot line** abutting the **street**;
- (N) Despite Regulation 200.5.10.1(1), and (M) above, "car-share parking spaces" may replace **parking spaces** otherwise required for residential occupants, subject to the following:
- (i) a reduction of 4 residential occupant **parking spaces** will be permitted for each "car-share parking space" provided, and that the maximum reduction permitted be 16 residential occupant **parking spaces**;
  - (ii) for the purpose of this exception, "car-share" means the practice whereby a number of people share the use of one or more motor **vehicles** and such "car-share" motor **vehicles** are made available to at least the occupants of the **building** for short-term rental, including hourly rental; and
  - (iii) for the purpose of this exception, "car-share parking space" means a **parking space** exclusively reserved and signed for a **vehicle** used only for "car-share" purposes;
- (O) Despite Clauses 220.5.10.1 and 50.10.90.40, a minimum of one **loading space** – Type "G" and one **loading space** – Type "C" must be provided on the lands in accordance with the requirements of Regulations 220.5.1.10(5), (6) and (8), and 220.5.20.1;
- (P) Despite Regulations 230.5.1.10(10) and 230.50.1.20(1), "short term" **bicycle parking spaces** may be located in a **stacked bicycle parking space**.

- (A) Section 12(2) 270 of former City of Toronto By-law 438-86.

(36) Exception CRE 36

The lands, or a portion thereof as noted below, are subject to the following Site Specific Provisions, Prevailing By-laws and Prevailing Sections.

Site Specific Provisions:

- (A) On the lands municipally known as 451-457 Richmond Street West, if the requirements of Section (B) to (T) of this By-law are complied with, a **mixed-use building** may be erected and used;
- (B) The permitted **gross floor area** of all the **buildings** or **structures** on the **lot** must not exceed 9,750 square metres, of which:
  - (i) the permitted maximum residential **gross floor area** is 9,655 square metres; and
  - (ii) the permitted minimum non-residential **gross floor area** is 75 square metres;
- (C) A minimum of ten percent (10%) of the total number of **dwelling units** to be constructed on the **lot** must contain three or more bedrooms and have a minimum size of 70 square metres for each **dwelling unit**;
- (D) Despite Regulation 50.5.40.10(1), the height of a **building** or **structure** is the distance between the Canadian Geodetic Datum elevation of 90.95 metres and the elevation of the highest point of the **building** or **structure**;
- (E) Despite Regulation 50.10.40.10(1), no **building** or **structure** on the **lot** may have a height greater than the height in metres specified by the number following the "HT" symbol as shown on Diagram 3 attached to By-law 397-2022(OLT);

- (F) Despite Regulations 50.5.40.10(3) and (4) and (E) above, the following elements of a **building** or **structure** may exceed above the maximum permitted height limits shown on Diagram 3 attached to By-law 397-2022(OLT) as follows:
- (i) Wind screens, parapets, terrace or balcony guardrails, ornamental elements, pavers, balustrades, railings and dividers, pergolas, trellises, planters, eaves, privacy screens, stair enclosures, skylights, mechanical and architectural screens, access hatches, roof assemblies, roof drainage, chimneys, vents, lightning rods, light fixtures, pavers, elements of a **green roof, structures** located on the roof used for outside or open air recreation, chillers, air vents and exit hatch, by no more than 2.0 metres;
  - (ii) Window washing equipment by no more than 3.0 metres;
  - (iii) Elevator overrun, by no more than 4.0 metres; and
  - (iv) Despite (F)(i) above, privacy screening for the outdoor **amenity space** at the third floor level, by no more than 3.0 metres;
- (G) Despite Regulation 50.5.40.70(1), Regulations 50.10.40.70(1), (3) and (5), Regulations 50.10.40.80(1) and (3), and Regulation 600.10.10 the required minimum **building setbacks** and minimum distance between **main walls of buildings** must be provided as shown in metres on Diagram 3 of By-law 397-2022(OLT);
- (H) Despite Regulation 50.5.40.60(1), Regulations 50.10.40.60(1), (2), and (5) and (G) above, the following elements of a **building** may encroach into the required **building setback** or minimum distance between **main walls of buildings**:
- (i) Cornices, eaves, light fixtures, parapets, canopies, awnings, ornamental elements, **landscaping** features, light fixtures, trellises, window sills, ornamental elements, ventilation shafts, balustrades, guardrails, railings, wheelchair ramps, screening, stair enclosures, doors, underground garage ramp and associated **structures**, wheelchair ramps, damper, window washing equipment, up to a maximum of 0.5 metres;
  - (ii) Balconies and terraces, up to a maximum of 1.5 metres, with the exception of the area identified as Balcony Zone A on Diagram 3 of By-law 397-2022(OLT) where only recessed balconies are permitted between a height of 9.0 metres and 31.0 metres above grade; and
  - (iii) **Structures** used for outside or open air recreation, safety or wind protection, up to a maximum of 1.6 metres;
- (I) Despite Regulation 50.10.40.50, indoor **amenity space** must be provided at a minimum rate of 2.0 square metres for each **dwelling unit** and may be provided in a multi-purpose room or rooms, whether or not these rooms are contiguous, with at least one washroom and kitchen;
- (J) Despite Regulation 50.10.40.50(1)(B), a minimum of 44 square metres of outdoor **amenity space** must be provided in a location adjoining or directly accessible to the indoor **amenity space**;
- (K) Indoor **amenity space** may be provided in a multi-purpose room or rooms, whether or not these rooms are contiguous, with at least one washroom and kitchen;
- (L) Despite Regulation 200.5.10.1(1) and Table 200.5.10.1 **parking spaces** must be provided below ground in accordance with the following minimum ratios:
- (i) 0.18 **parking spaces** per residential **dwelling unit** for residential uses;
  - (ii) no **parking spaces** are required for residential visitors; and
  - (iii) no **parking spaces** are required for non-residential uses;
- (M) Despite (L) above, the total number of **parking spaces** provided on the **lot** for residential uses may be reduced at a rate of 4 **parking spaces** for each "car-share parking space", provided the maximum permitted reduction is calculated using the following formula:
- (i)  $4 \times (\text{total number of dwelling units} \div 60)$ , fraction rounded down to the nearest whole number;
- (N) Despite Regulations 220.5.1.10(1), 200.5.10.1(2), (3), (4) and (5), a minimum of one Type "G" **loading space** must be provided on the **lot**;
- (O) Despite Regulation (L) above, **parking spaces** provided on the **lot** for residential uses may be reduced at a rate of 1 **parking space** for each 5 **bicycle parking spaces** provided in excess of the minimum number of required **bicycle parking spaces** required in clause 230.5.10.1, provided the reduction is not greater than 20 percent of the total minimum **parking spaces** required;

- (P) Despite Regulation 230.5.1.10.(4)(B), the minimum width of a **bicycle parking space** if placed in a vertical position on a wall, **structure** or mechanical device is 0.45 metres;
- (Q) Despite Regulation 230.5.1.10.(4)(C), the minimum width of a **bicycle parking space** if placed in a **stacked bicycle parking space** is 0.45 metres;
- (R) Despite Regulation 230.5.1.10(10), a "short-term" **bicycle parking space** may be located in a **stacked bicycle parking space**;
- (S) Despite Regulation 230.40.1.20(2), a "short-term" **bicycle parking space** may be located more than 30 metres from a pedestrian entrance to the **building** on the **lot** and may be located in a secured room or an unsecured room; and
- (T) For the purposes of this exception, a recessed balcony is a balcony that does not project horizontally beyond the adjacent exterior wall which is perpendicular to the direction the balcony faces, or a balcony that is inset from the exterior wall of a residential suite and does not project beyond said exterior wall.

Prevailing By-laws and Prevailing Sections: [ By-law: 397-2022(OLT) ]

(37) Exception CRE 37

The lands, or a portion thereof as noted below, are subject to the following Site Specific Provisions, Prevailing By-laws and Prevailing Sections.

Site Specific Provisions:

- (A) On the lands municipally known as 149-157 Bathurst Street, **buildings** or **structures** may be constructed or erected in compliance with regulations (B) to (T) below;
- (B) The permitted residential **gross floor area** of all **buildings** and **structures** on the **lot** must not exceed 6,000 square metres, and the permitted non-residential **gross floor area** must not exceed 250 square metres;
- (C) Despite regulation 50.5.40.40(3), the **gross floor area** of a **mixed use building** may also be reduced by the areas in the **building** used for mechanical rooms above ground;
- (D) Despite regulation 50.5.40.10(1), the height of a **building** or **structure** is the vertical distance between the Canadian Geodetic Datum elevation of 90.41 metres and the highest point of the **building** or **structure**;
- (E) Despite regulation 50.10.40.10(1), no portion of any **building** or **structure** may have a height greater than the height in metres specified by the number following the "HT" symbol as shown on Diagram 3 attached to By-law 842-2021(OLT);
- (F) Despite clause 50.5.40.10 and regulation (E) above, the following elements of a **building** or **structure** may project above the maximum permitted height limits as indicated by the numbers following the symbol "HT" shown on Diagram 3 attached to By-law 842-2021(OLT) as follows:
  - (i) Parapets, ornamental elements, pavers, balustrades, railings and dividers, pergolas, trellises, planters, eaves, skylights, mechanical equipment, access hatches, roof assemblies, roof drainage, window washing equipment, light fixtures, pavers, elements of a **green roof**, **structures** located on the roof used for outside or open air recreation, air vents, and exit hatch, by no more than 2.0 metres;
  - (ii) Wind screens, terrace or balcony guardrails, privacy screens, stair enclosures, generators, cooling towers and chillers, mechanical and architectural screens, garbage chute exhausts, exhausts, chimneys vents, lightning rods, stair overrun, by no more than 4.0 metres; and
  - (iii) Elevator overrun, by no more than 5.0 metres;
- (G) Despite clause 50.5.40.70, regulations 50.10.40.70(1), (3) and (5), and 50.10.40.80(1) and (3), and Section 600.10 the required minimum **building setbacks** and minimum distance between **main walls** must be provided as shown in metres on Diagram 3 of By-law 842-2021(OLT);
- (H) Despite regulation 50.5.40.60(1), clause 50.10.40.60, Section 600.10 and regulation (G) above, the following elements of a **building** may encroach into the required **building setback** or separation distance as follows:
  - (i) Cornices, eaves, light fixtures, awnings, canopies, parapets, ornamental elements, **landscaping** features, trellises, window sills, ornamental elements, ventilation shafts, balustrade, railings, wheelchair ramps, screening, stair enclosures, doors, underground garage ramp, wheelchair ramps; and

- (ii) Balconies and terraces, up to a maximum of 1.5 metres;
- (I) Despite clauses 50.5.40.10, 50.10.40.70, 50.5.40.70 and 50.10.40.60 and regulation (G) above, a **building** may encroach up to 1.5 metres into the required minimum **building setbacks** in Diagram 3 within the areas identified as "Areas of Articulation" on Diagram 4 and Diagram 5, attached to By-law 842-2021(OLT) at the height of the associated **Storey** identified on Diagram 4 and Diagram 5, attached to By-law 842-2021(OLT);
- (J) Despite clause 50.5.40.10 and regulation (E) above, the following elements of a **building** or **structure** may project above or below the 'Articulation Areas' illustrated on Diagram 4 or Diagram 5 attached to By-law 842-2021(OLT) as follows:
  - (i) Parapets, ornamental elements, pavers, balustrades, railings and dividers, pergolas, trellises, planters, eaves, skylights, mechanical equipment, access hatches, roof assemblies, roof drainage, window washing equipment, light fixtures, pavers, elements of a **green roof, structures** located on the roof used for outside or open air recreation, air vents, and exit hatch, by no more than 2.0 metres; and
  - (ii) Wind screens, terrace or balcony guardrails, privacy screens, stair enclosures, generators, cooling towers and chillers, mechanical and architectural screens, garbage chute exhausts, exhausts, chimneys vents, lightning rods, stair overrun, by no more than 4.0 metres;
- (K) Despite regulation 50.10.40.50(1), **amenity space** must be provided as follows:
  - (i) A minimum of 1.95 square metres per **dwelling unit** of indoor **amenity space**; and
  - (ii) A minimum 1.97 of square metres per **dwelling unit** of outdoor **amenity space**;
- (L) Despite the parking rates in Table 200.5.10.1(1), **parking spaces** must be provided in accordance with the following:
  - (i) A minimum of 0.20 **parking spaces** per **dwelling unit** for residents;
  - (ii) No **parking spaces** for visitors; and
  - (iii) No **parking spaces** for non-residential uses;
- (M) Despite clause 200.5.1.10, **parking spaces** may be provided in **stacked parking spaces**, which must have minimum dimensions 2.4 metres in width by 5.3 metres in length;
- (N) Despite regulation 200.5.1.3(A), the minimum width of a **drive aisle** or **vehicle** entrance and exit is 5.2 metres;
- (O) Despite regulation 200.5.1.10(12)(C), the **vehicle** entrance may be located 0.0 metres from the **lot line** abutting a **lane**;
- (P) Despite regulation 200.15.10(1), no accessible **parking spaces** are required;
- (Q) Despite regulations 220.5.1.10(7) and 220.5.10(1), a minimum of one **loading space** must be provided with the following minimum dimensions:
  - (i) A minimum length of 11.0 metres;
  - (ii) A minimum width of 2.8 metres; and
  - (iii) A minimum vertical clearance of 5.8 metres;
- (S) Despite regulations 220.5.20.1(1) and (3), the minimum width of a **driveway** leading to a **loading space** and of a **vehicle** entrance and exit is 3.3 metres;
- (T) Despite regulation 230.5.1.10(4)(A), the minimum width of a **stacked bicycle parking** space is 0.3 metres and the minimum vertical clearance from the ground of a **stacked bicycle parking** space is 1.1 metres; and
- (U) Despite regulation 230.5.1.10(10), a "short-term" **bicycle parking space** may also be located in a **stacked bicycle parking space**;

- (A) 12(2)270 of former City of Toronto By-law 438-86 [ By-law: 842-2021(OLT) ]

(38) Exception CRE 38

The lands, or a portion thereof as noted below, are subject to the following Site Specific Provisions, Prevailing By-laws and Prevailing Sections.

Site Specific Provisions:

- (A) On 485-489 Wellington Street West, if the requirements of By-law 1247-2022(OLT) are complied with, a **building** or **structure** may be constructed, used or enlarged in compliance with Regulations (B) to (X) below;
- (B) Despite regulations 50.5.40.10(1) and (2), the height of a **building** or **structure** is the distance between the Canadian Geodetic Datum elevation of 84.77 metres and the highest point of the **building** or **structure**;
- (C) The total permitted maximum **gross floor area** for all uses on the **lot** is 9,050 square metres, of which:
- (i) the permitted maximum **gross floor area** for residential uses is 8,565 square metres; and
  - (ii) the permitted maximum **gross floor area** for non-residential uses is 485 square metres.
- (D) In addition to the elements described in regulation 50.5.40.40(3), the **gross floor area** of the **building** may be reduced by the area in the **building** used for:
- (i) a driveway ramp; and
  - (ii) **amenity space** provided in excess of the requirement in Regulation (L)(i) below.
- (E) Despite regulation 50.10.40.10(1), the permitted maximum height of a **building** or **structure** is the number in metres following the letters "HT" as shown on Diagram 3 attached to By-law 1247-2022(OLT);
- (F) Despite regulation 50.10.40.10(4), the permitted maximum number of **storeys** in a **building** is the number following the letters "ST" as shown on Diagram 3 attached to By-law 1247-2022(OLT);
- (G) For the purpose of interpreting (F) above, a mechanical penthouse and the "vestibule" area shown on Diagram 3 attached to By-law 1247-2022(OLT) providing rooftop access do not constitute as a **storey**;
- (H) Despite (E) and (F) above, and regulations 50.5.40.10(4), (5), (6) and (7) and 50.10.40.10(3), the following **building** elements and **structures** may project above the permitted maximum height as shown on Diagram 3 attached to By-law 1247-2022(OLT):
- (i) elevator overruns, mechanical penthouse, mechanical equipment and any associated enclosure **structures**, and parapets, to a maximum of 6.5 metres;
  - (ii) window washing equipment, to a maximum of 3.0 metres;
  - (iii) a **structure** used for outside or open air recreation, maintenance, safety or wind protection purposes, unenclosed **structures** providing safety or wind protection to rooftop **amenity space**, trellises, landscape elements, elements of a **green roof**, parapets, guards, railings, privacy and wind screens, lighting fixtures, landscape planters, vents, stacks, ladders, to a maximum of 2.0 metres;
  - (iv) terraces and terrace platforms, to a maximum of 1.0 metre;
  - (v) architectural and ornamental features, to a maximum of 0.5 metre;
  - (vi) pergolas are permitted in outdoor **amenity space**, to a maximum of 3.0 metres and are not permitted on the portion of the **building** on Diagram 3 labelled as "HT 14.0";
  - (vii) a vestibule providing rooftop access, to a maximum of 3.0 metres, provided it is located only within the "vestibule" area shown on Diagram 3; and
  - (viii) the **building** elements and **structures** listed in (H)(i) to (vi) above, are not permitted in the "vestibule" area shown on Diagram 3.
- (I) Despite regulations 50.10.40.70(1), (2) and (5) and clauses 50.10.40.80 and 600.10.10, the required minimum **building setbacks** for each level of the **building** are as shown in metres on Diagram 3 attached to By-law 1247-2022(OLT);
- (J) Despite (I) above and Clauses 50.5.40.60 and 50.10.40.60, the following **building** elements may encroach into the required minimum **building setbacks** as follows:
- (i) terraces and terrace platforms, guards, railings, privacy and wind screens, trellises, pergolas, parapets and landscape planters may project beyond the required **building setback** to the extent of the **main wall** of the **storey** below;
  - (ii) balconies, canopies and awnings, to a maximum of 2.0 metres;
  - (iii) cornices, lighting fixtures, parapets, eaves, windows, window sills, guardrails, railings, wheel chair ramps, vents, screens, landscape elements, public art features, exhaust vents and wall mounted equipment, to a maximum of 1.5 metres;

- (iv) bay windows located on the **first floor** fronting Draper Street may encroach to a maximum of 1.5 metres; and
- (v) architectural and ornamental features, to a maximum of 0.5 metres.
- (K) The total number of **dwelling units** on the **lot** must not exceed 117, and must include the following:
  - (i) A minimum of 24 percent of the **dwelling units** must contain two bedrooms; and
  - (ii) A minimum of 13 percent of the **dwelling units** must contain three or more bedrooms.
- (L) Despite regulation 50.10.40.50(1), **amenity space** must be provided in accordance with the following:
  - (i) a minimum of 2.0 square metres of indoor **amenity space** per **dwelling unit**; and
  - (ii) a minimum of 1.2 square metres of outdoor **amenity space** per **dwelling unit**.
- (M) Despite Table 200.5.10.1, and regulation 200.5.10.1(1), **parking spaces** must be provided in accordance with the following:
  - (i) a minimum of 0.18 **parking spaces** per **dwelling unit** must be provided for residential occupants;
  - (ii) a minimum of 0.06 **parking spaces** per **dwelling unit** must be provided for residential visitors; and
  - (iii) a minimum of 1 **parking space** per 300 square metres of non-residential **gross floor area** must be provided for non-residential uses.
- (N) Despite regulations 200.15.1.5(1) and 200.15.10(1), a minimum of 2 accessible **parking spaces** must be provided;
- (O) Despite Regulations 200.15.1(1), (3) and (4), accessible **parking spaces** must be provided in accordance with the following:
  - (i) a minimum length of 5.6 metres;
  - (ii) a minimum width of 3.4 metres;
  - (iii) a minimum vertical clearance of 2.1 metres;
  - (iv) the entire length of an accessible **parking space** must be adjacent to a 1.5 metre accessible barrier free aisle or path on one side of the accessible **parking space**; and
  - (v) accessible **parking spaces** must be the **parking spaces** closest to a barrier free entrance to a **building** or passenger elevator that provides access to the first **storey** of the **building** and must be the shortest route from such entrances.
- (P) Despite regulation 200.5.1.10(12)(C), the **vehicle** entrance to a **building** must be at least 2.0 metres from the **lot line** abutting a **street**;
- (Q) Despite regulations 230.5.1.10(10) and 230.50.1.20(2), "long-term" and "short term" **bicycle parking spaces** may be located in a secured room, enclosure or bicycle locker and in a **stacked bicycle parking space**;
- (R) Despite regulation 230.5.1.10(9), "long-term" **bicycle parking spaces** may be located on the first or second **storey** of the **building** and on levels of the building below-ground;
- (S) Despite regulation 230.5.1.10(4)(C), a **stacked bicycle parking space** may be provided in accordance with the following minimum dimensions:
  - (i) a minimum length of 1.8 metres;
  - (ii) a minimum width of 0.45 metres; and
  - (iii) a minimum vertical height of 1.2 metres.
- (T) Despite regulation 230.5.1.10(7), shower and change facilities are not required;
- (U) Despite regulations 220.5.10.1(2), (3) and (5), one Type "G" **loading space** must be provided;
- (V) Despite regulation 50.10.90.10(1), a **loading space** located in a **building** may have its access through a **main wall** that faces a **street**;
- (W) Regulations 50.10.40.1(1) with respect to first floor elevation, and 50.10.50.10(1) and (2) with respect to **landscaping** and fence requirements when abutting a **lot** in the residential zone category do not apply; and

- (X) Regulations 50.10.20.100(2) with respect to maximum **interior floor area** of all **cabarets, clubs, eating establishments, entertainment places of assembly, nightclubs, places of assembly, recreation uses and take-out eating establishments** and 150.100.30.1(1) with respect to a fence where an **eating establishment** abuts a **lot** in the residential zone do not apply.

(40) Exception CRE 40

Zoning By-law No. 569-2013, as amended, is further amended by adding Article 900.12.10 Exception Number 40, so that it reads:

Site Specific Provisions:

- (A) On the lands municipally known as 135-143 Portland Street in the year 2020, if the requirements of Section 5 and Schedule A of By-law 34-2022(OLT) are complied with, then a **mixed-use building or structure** may be constructed in compliance with (B) to (M) below;
- (B) The uses listed:
- (i) in Regulations 50.10.20.10(1)(A) and 50.10.20.20(1)(A) are only permitted on the first **storey** of the **building** in combination with a **dwelling unit**; and
  - (ii) in Regulations 50.10.20.10(1)(C) and 50.10.20.20(1)(C) are not permitted.
- (C) The **gross floor area** must not exceed 8,230 square metres, of which:
- (i) the **gross floor area** for uses listed in Regulations 50.10.20.10(1)(B) and 50.10.20.20(1)(B) must not exceed 8,230 square metres; and
  - (ii) the **gross floor area** for uses listed in Regulations 50.10.20.10(1)(A) and 50.10.20.20(1)(A) must not exceed 235 square metres
- (D) Despite Regulation 50.5.40.40(3)(C) the **gross floor area** of a **mixed use building** is reduced by the area in the **building** used for electrical, utility, mechanical and ventilation rooms on any floor above or below ground;
- (E) The maximum number of **dwelling units** is 129, of which:
- (i) a minimum of 35 percent of all **dwelling units** must have 2 bedrooms;
  - (ii) a minimum of 10 percent of all **dwelling units** must have a minimum of 3 bedrooms; and
  - (iii) any **dwelling units** with three or more bedrooms provided to satisfy (E)(ii) above are not included in the provision of **dwelling units** with two bedrooms, required by (E)(i) above;

- (F) Despite Clauses 50.10.40.70 and 50.10.40.80, and Article 600.10.10 the minimum required **building setbacks** and minimum above-ground distance between **main walls** are as shown in metres on Diagrams 3A, 3B, 3C, 3D, 3E and 3F of By-law 34-2022(OLT);
- (G) Despite (F) above and Clause 50.10.40.60, the following elements of a **building** may encroach into the required **building setbacks** and minimum above-ground distance between **main walls**:
- (i) awnings, balustrades, cornices, eaves, fixtures, ornamental elements, lighting fixtures, parapets, railings, trellises, vents, window sills, planters, and other minor architectural projections are permitted to encroach into the minimum required **building setbacks** no more than 0.9 metres;
  - (ii) balconies may encroach up to a maximum of 1.5 metres within the balcony projection zones as noted and shown as hatched areas on Diagrams 3B, 3C, 3D, 3E and 3F of By-law 34-2022(OLT);
  - (iii) elements or portions of a **building** required for structural support, including shear walls, columns, and other structural support members may encroach into the minimum required **building setbacks** no more than 3.5 metres; and
  - (iv) canopies may encroach into the minimum required **building setbacks** no more than 1.5 metres;
- (H) Despite Regulations 50.5.40.10(1) and (2), the height of a **building** or **structure** is the distance between the Canadian Geodetic Datum elevation of 90.0 metres and the elevation of the highest point of the **building** or **structure**;
- (I) Despite Clause 50.10.40.10, the permitted maximum height of a **building** or **structure** is the numerical value in metres following the letters "HT" as shown on Diagrams 3A, 3B, 3C, 3D, 3E and 3F attached to By-law 34-2022(OLT), subject to the following and (F) above:
- (i) The first and second **storeys** of the **building** must be located within the heavy lines shown on Diagram 3A attached to By-law 34-2022(OLT);
  - (ii) The third and fourth **storeys** of the **building** must be located within the heavy lines shown on Diagram 3B attached to By-law 34-2022(OLT);
  - (iii) The fifth **storey** of the **building** must be located within the heavy lines shown on Diagram 3C attached to By-law 34-2022(OLT);
  - (iv) The sixth **storey** of the **building** must be located within the heavy lines shown on Diagram 3D attached to By-law 34-2022(OLT);
  - (v) The seventh **storey** through to and including the eleventh **storey** of the **building** must be located within the heavy lines shown on Diagram 3E attached to By-law 34-2022(OLT); and
  - (vi) The portion of the **building** located at the twelfth **storey** and above must be located within the heavy lines shown on Diagram 3F attached to By-law 34-2022(OLT);
- (J) Despite (I) above and Regulations 50.5.40.10(3), (4), (5), (6), (7) and (8), only the following **building** elements and **structures** are permitted to project above the height limits shown following the symbol HT on Diagrams 3A, 3B, 3C, 3D, 3E, and 3F attached to By-law 34-2022(OLT):
- (i) awnings, balustrades, canopies, cornices, eaves, fixtures, ornamental elements, lighting fixtures, **green roofs**, structural columns and shear walls, parapets, window sills, planters and other minor architectural projections are permitted to project no more than 0.8 metres above the height limits shown on Diagrams 3A, 3B, 3C, 3D, 3E, and 3F;
  - (ii) railings and trellises are permitted to project no more than 1.3 metres above the height limits shown on Diagrams 3A, 3B, 3C, 3D, 3E, and 3F;
  - (iii) screens are permitted to project no more than 2.0 metres in the area labelled as "HT=47.0" on Diagram 3F;
  - (iv) roof hatches are permitted to project no more than 1.0 metres in the area labelled as "HT=49.99" on Diagram 3F;
  - (v) window-washing equipment, lightning protection elements, garbage chutes, vents, flues and chimney stacks are permitted to project no more than 2.0 metres in the area labelled as "HT=49.99" on Diagram 3F;
  - (vi) elevator overruns, cooling towers, generator rooms and screens are permitted to project no more than 2.9 metres in the area labelled as "Area A" on Diagram 3F;

- (vii) the elements listed in (J) (iv) and (v) above may project by the vertical distances described above provided that the total horizontal area of all of these elements combined does not exceed 11.0 square metres;
- (K) Despite the parking rates in Table 200.5.10.1 and Clauses 200.5.10.1 and 200.15.10, **parking spaces** must be provided as follows:
  - (i) a minimum of 3 **parking spaces** for the **dwelling units**;
  - (ii) no **parking spaces** are required for the visitors of the **dwelling units**; and
  - (iii) no **parking spaces** are required for the non-residential uses;
- (L) Despite Regulation 230.50.1.20(2), a short-term **bicycle parking space** may be located more than 30 metres from a pedestrian entrance to the **building** on the **lot**;
- (M) Despite Regulation 50.10.40.50(1), **amenity space** must be provided in accordance with the following:
  - (i) a minimum of 1.45 square metres of indoor **amenity space** for each **dwelling unit**; and
  - (ii) a minimum of 0.55 square meters of outdoor **amenity space** for each **dwelling unit**.

The lands, or a portion thereof as noted below, are subject to the following Site Specific Provisions, Prevailing By-laws and Prevailing Sections:

Site Specific Provisions:

- (A) On the lands municipally known as 200 King St. East in 1993, an **education use** is permitted, if the **gross floor area** of the **building** does not exceed a floor space index of 5.0. [TO: 438-86; 12 (1) 358]
- (B) On 101 Ontario St., a **municipal shelter** is permitted. [TOR: 138-2003]

Prevailing By-laws and Prevailing Sections:

- (A) Section 12(2) 260 of former City of Toronto By-law 438-86;
- (B) Section 12(2) 270 of former City of Toronto By-law 438-86;
- (C) On the lands municipally known as 199 Adelaide St. East in 1996, Section 12(1) 427 of former City of Toronto By-law 438-86;
- (D) On 252 Adelaide St. E., former City of Toronto by-law 131-80;
- (E) On the lands municipally known as 406 Adelaide St. East, City of Toronto by-law 1412-2007;
- (F) On the lands municipally known as 411 Richmond St. East in 1983, Section 12(1) 174 of former City of Toronto By-law 438-86; and
- (G) On 381-411 Richmond St. East and 424-460 Adelaide St. East, City of Toronto by-law 927-2002, as ordered by the Ontario Municipal Board's Decision and Order dated May 2, 2003, with the case number PL021158.

(42) Exception CRE 42

The lands, or a portion thereof as noted below, are subject to the following Site Specific Provisions, Prevailing By-laws and Prevailing Sections.

Site Specific Provisions:

- (A) On 400-420 King Street West, if the requirements of Clause 7 and Schedule A of By-law 757-2021(OLT) are complied with, **buildings**, or **structures**, may be constructed or erected in compliance with regulation (B) to (X) below;
- (B) Despite regulations 50.5.40.10(1) and (2), the height of the **building** or **structure** is the vertical distance between the Canadian Geodetic Datum elevation of 86.58 metres in the year 2019 and the highest point of the **building** or **structure**;
- (C) In addition to the uses permitted by regulations 50.10.20.10(1) and 50.10.20.20(1), **public parking** is permitted if located entirely below ground;
- (D) The total permitted maximum **gross floor area** for all uses is 43,200 square metres, allocated as follows:

- (i) the permitted maximum **gross floor area** for residential uses is 39,850 square metres; and
  - (ii) the required minimum **gross floor area** for non-residential uses is 3,335 square metres, excluding the area associated with **public parking**;
- (E) In addition to the elements described in regulation 50.5.40.40(3), the **gross floor area** of the **building** is reduced by the area in the **building** used for elevator machine rooms and mechanical rooms above and below ground;
- (F) A minimum of ten percent of the **dwelling units** must contain three or more bedrooms and a minimum of thirty-four percent of the **dwelling units** must contain two or more bedrooms;
- (G) Despite regulation 50.10.40.10(1), the permitted maximum height of a **building** or **structure** on the lands is the numerical value, in metres, following the letters following the "HT" on Diagram 3 of By-law 757-2021(OLT);
- (H) Despite (G) above and regulations 50.5.40.10(3), (4), (5), (6), (7) and (8) the following elements of a **building** may exceed the maximum height limits shown on Diagram 3 of By-law 757-2021(OLT) as follows:
  - (i) parapets, roof access, including roof hatch and the access ladder, chimneys, vents, and water supply facilities, pipes, roof drainage, antennae, telecommunication equipment, satellite dishes, lightning rods, guard rails, railings, dividers, screens, balustrades, unenclosed **structures** providing safety or wind protection, privacy and wind screens, elements of a **green roof**, pergolas, trellises, light fixtures, and landscape elements which may project up to a maximum of 4.0 metres;
  - (ii) window washing equipment may project up to a maximum of 6.0 metres;
  - (iii) architectural features, which may project no higher than the second **storey**;
  - (iv) canopies, which may project no higher than the second **storey**; and
  - (v) support cables, which may project no higher than the fourth **storey**;
- (I) Despite (H)(i) and (ii) above, only the following equipment and **structures** are permitted to be located on top of the roof for the portion of the **building** labelled as "HT 156.9" on Diagram 3 of By-law 757-2021(OLT):
  - (i) parapets, roof access, including roof hatch and the access ladder, vents for garbage and mechanical shafts, antennae, telecommunication equipment, satellite dishes, lightning rods, and elements of a **green roof** which may project up to a maximum of 4.0 metres; and
  - (ii) window washing equipment may project up to a maximum of 6.0 metres;
- (J) Despite regulations 50.10.40.30(1), 50.10.40.70(1), (3) and (5), clause 50.10.40.80, and article 600.10.10 the required minimum **building setbacks** and minimum above ground separation distance are shown in metres on Diagram 3 of By-law 757-2021(OLT);
- (K) Despite (J) above, regulations 50.5.40.60(1), 5.10.40.70(1) and 50.10.40.60(1), (2), (4) the following **building** elements may encroach into the required minimum **building setbacks** and minimum above ground separation distance:
  - (i) canopies and support cables, awnings, decks, balconies, terraces, patios, pergolas, trellises, privacy and wind screens, unenclosed **structures** providing safety or wind protection to rooftop **amenity space**, architectural features including piers and fins, art and **landscaping** features, and ornamental elements, up to 3.0 metres;
  - (ii) cornices, parapets, light fixtures, window sills, eaves, doors, site servicing features, ventilation shafts, railings, guards, terrace platforms, landscape planters, underground garages and associated structures, and wheelchair ramps, up to 0.5 metres; and
  - (iii) guards, railings, parapets, terraces, privacy and wind screens, landscape planters and terrace platforms may project beyond the required **building setback** to the extent of the **main wall** of the **storey** below;
- (L) Despite regulation 200.5.10.1(1) and Table 200.5.10.1, **parking spaces** must be provided in accordance with the following:
  - (i) a minimum of 0.15 **parking spaces** per **dwelling unit** for the residents of the **building**;
  - (ii) a minimum of 22 **parking spaces** for non-residential uses; and
  - (iii) no residential visitor **parking spaces** are required;

- (M) **Parking spaces** for non-residential uses, as required by (L)(ii) above may be located within **public parking**;
- (N) A maximum of 10 percent of the **parking spaces** required by (L)(i) and (ii) above may be small car **parking spaces** with a minimum width of 2.4 metres, length of 5.4 metres and vertical clearance of 1.8 metres;
- (O) Despite Regulations 200.15.1.5(1) and 200.15.10(1), a minimum of 6 accessible **parking spaces** must be provided and maintained below ground;
- (P) Despite regulation 200.15.1(1), an accessible **parking spaces** must be provided with the following dimensions:
  - (i) a minimum length of 5.6 metres;
  - (ii) a minimum width of 3.4 metres; and
  - (iii) a minimum vertical clearance of 2.1 metres;
- (Q) Despite regulation 200.5.1.10(2)(A) and (D), Electric Vehicle Infrastructure, including electric vehicle supply equipment, does not constitute an obstruction to a **parking space**;
- (R) Despite regulation 230.5.1.10(4)(b), the minimum dimension of a **bicycle parking space** if placed in a vertical position on a wall, **structure** or mechanical device is:
  - (i) minimum length or vertical clearance of 1.9 metres;
  - (ii) minimum width of 0.45 metres; and
  - (iii) minimum horizontal clearance from the wall of 1.2 metres;
- (S) Despite regulations 230.5.1.10(10) and 230.50.1.20(2), "long-term" and "short term" **bicycle parking spaces** may be located in a secured room, enclosure or bicycle locker and in a **stacked bicycle parking space**, provided that such space is accessible to visitors;
- (T) Despite regulation 230.5.1.10(9) "long-term" **bicycle parking spaces** may be located on the first or second **storey** of the **building** and anywhere below ground;
- (U) Despite (T) above, "long-term" **bicycle parking spaces** for residential uses below ground must be provided in accordance with the following:
  - (i) a minimum of 50 percent of the "long-term" **bicycle parking spaces** for residential uses will be located on the first level below ground; and
  - (ii) a minimum of 90 percent of the "long-term" **bicycle parking spaces** for non-residential uses will be located on the first level below ground;
  - (iii) no **bicycle parking spaces** will be located on the third level below ground;
- (V) Despite regulation 230.5.1.10(4)(C) a **stacked bicycle parking space** may be provided in with the following minimum dimensions:
  - (i) a minimum length of 1.8 metres;
  - (ii) a minimum width of 0.4 metres; and
  - (iii) a minimum vertical clearance of 1.2 metres;
- (W) Despite regulations 220.5.10.1(2), (3), (4) and (5) a minimum of one Type "B" **loading space** and one Type "G" **loading space** must be provided;
- (X) In addition to the required **amenity space**, a maximum of 4 guest suites may be permitted, provided that they:
  - (i) have no food preparation facilities; and
  - (ii) are available for use on a temporary basis as overnight accommodation exclusively for persons visiting residents of the **building**;

Prevailing By-laws and Prevailing Sections: (None Apply)  
[ By-law: 757-2021(OLT) ]

(43) **Exception CRE 43**

The lands, or portion thereof as noted below, are subject to the following Site Specific Provisions, Prevailing By-laws and Prevailing Sections.

Site Specific Provisions:

- (A) On the lands municipally known in the year 2021 as 259-267 Richmond Street West, 126-142 John Street, and 41-59 Widmer Street, if the requirements of Section 6 and Schedule A of By-law 949-2022 are complied with, **buildings, structures**, additions, enlargements or **public parking** may be erected or used if it complies with (B) to (CC) below;
- (B) Despite Regulation 50.10.20.10(1)(A), **public parking** is a permitted use, provided it is located below-ground in a **parking garage**;
- (C) The total **gross floor area** of all **buildings** and **structures** must not exceed 86,000 square metres, of which a minimum non-residential **gross floor area** of 23,700 square metres must be provided;
- (D) In addition to the exclusions listed in Regulation 50.5.40.40(3), the **gross floor area** of a **mixed use building** is also reduced by:
  - (i) all indoor **amenity space** in excess of that required by this exception; and
  - (ii) lobbies, vestibules, exit stairwells, and related ancillary uses located below ground level;
- (E) The provision of **dwelling units** is subject to the following:
  - (i) A minimum of 30 percent of the total number of **dwelling units** must have two or more bedrooms;
  - (ii) A minimum of 10 percent of the total number of **dwelling units** must have three or more bedrooms; and
  - (iii) Any **dwelling units** with three or more bedrooms provided to satisfy (E)(ii) above are not included in the provision required by (E)(i) above;
- (F) Despite Regulations 50.5.40.10(1) and (2), the height of a **building** or **structure** is the distance between the Canadian Geodetic Datum elevation of 88.7 metres, and the elevation of the highest point of the **building** or **structure**;
- (G) Despite Regulations 50.10.40.10(1) and (2), the permitted maximum height of a **building** or **structure** is the numerical value, in metres, following the letters "HT" on Diagram 3 of By-law 949-2022;
- (H) Despite (F) and (G) above and Regulations 50.5.40.10(3), (4), (5), (6), (7) and (8) and 50.10.40.10(2) and (3), the following **building** elements and **structures** are not subject to area restrictions and may exceed the permitted maximum height limit shown on Diagram 3 of By-law 949-2022:
  - (i) equipment used for the functional operation of the **building** such as electrical, utility, mechanical and ventilation equipment by a maximum of 6.5 metres, provided any such equipment on a tower is located within the dashed boundary labelled "mechanical penthouse";
  - (ii) **structures** or parts of the **building** that are used for the functional operation of the **building**, such as enclosed stairwells, roof access, maintenance equipment storage, elevator shafts and overruns, chimneys, vents and water supply facilities by a maximum of 6.5 metres, provided any such **structures** on a tower are located within the dashed boundary labelled "mechanical penthouse";
  - (iii) **structures** that enclose, screen or cover the equipment, **structures** and parts of a **building** listed in (i) and (ii) above, parapet walls or **green roofs** on top of such enclosures, by a maximum of 6.5 metres, without limit on their total area measured horizontally, provided any such **structures** on a tower are located within the dashed boundary labelled "mechanical penthouse";
  - (iv) chimneys, pipes, and vents may further exceed the permitted maximum height in (i), (ii), and (iii) by 3.0 metres;
  - (v) window washing equipment, **building** maintenance units and crane **structures**;
  - (vi) antennae and satellite dishes, by a maximum of 6.5 metres;
  - (vii) canopies and awnings, by a maximum of 5.0 metres;
  - (viii) architectural features, architectural flutes, ornamental elements, parapets, art and **landscaping** features, guardrails, balustrades, railings, screens, trellises, pergolas, columns, pillars, pool equipment and associated decks and platforms, terraces, balconies, cornices, light standards and fixtures, **green roofs**, planters, seating areas, wheelchair ramps, retaining walls, public art, and decorative screens, by a maximum of 4.0 metres;
  - (ix) **structures** associated with the privately owned publicly accessible space, such as gazebos or trellises;

- (x) **structures** providing washroom facilities to rooftop **amenity space** or open-air recreation areas by a maximum of 3.0 metres;
- (xi) an enclosed **structure** or part of the **building** providing access to outdoor space for a **day nursery**, by a maximum of 4.5 metres, if its area covers no more than 50 square metres, measured horizontally;
- (I) Despite Clauses 50.5.40.70, 50.10.40.30, 50.10.40.70 and 50.10.40.80, and Section 600.10, the required minimum **building** and tower setbacks, the permitted **building depth** and minimum above-ground distance between **main walls** and towers, and the facing distance between windows are as shown in metres on Diagram 3 of By-law 949-2022;
- (J) For the purposes of this exception, a "tower" is the portions of a **building** which collectively enclose the entirety of a **storey** above the Canadian Geodetic Datum elevation of 132.7 metres and without restriction on the **gross floor area** of any **storey** located above the Canadian Geodetic Datum elevation of 132.7 metres;
- (K) Despite (I) above and Regulations 50.5.40.60(1), 50.10.40.60(1), (2), (3) (5), (6), (7) and (8) and 50.10.40.70(1), the following **building** elements may encroach into the required minimum **building setbacks** shown on Diagram 3 of By-law 949-2022;
  - (i) balconies, cornices, window sills, parapets, trellises, pillars, patios, decks, guardrails, balustrades and railings, architectural, art and landscape features, pilasters, eaves, light fixtures, ornamental elements and railings may encroach to a maximum of 3.0 metres;
  - (ii) stairs, stair enclosures, retaining walls, doors, wheelchair ramps, decks, fences, screens, site servicing features, **structures** used for wind protection purposes, exterior signage, awnings and canopies, air vents and air intakes, **building** maintenance units, and underground garage ramps and associated **structures**;
  - (iii) window washing equipment and crane **structures**;
  - (iv) **structures** associated with the privately owned publicly accessible space, such as pergolas, gazebos or trellises; and
  - (v) terraces, inclusive of platforms, guards, and parapets, may exceed the minimum required **building setback** to the extent of the **main walls** of the **storey** located below it;
- (L) Despite Regulation 50.5.40.60(1), canopies and awnings are not subject to the height limitation of having to be located within 5.0 metres of the elevation of the ground directly below it;
- (M) Despite Regulation 50.10.40.50(1), **amenity space** for the use of residents of the **building** must be provided at a minimum rate of 3.55 square metres for each **dwelling unit**, in accordance with the following:
  - (i) at least 2.0 square metres for each **dwelling unit** is indoor **amenity space**;
  - (ii) at least 1.55 square metres for each **dwelling unit** is outdoor **amenity space**; and
  - (iii) at least 40.0 square metres is outdoor **amenity space** in a location adjoining or directly accessible to indoor **amenity space**;
- (N) Despite Regulations 50.5.80.1(1), 200.5.10.1(1), 200.5.10.1(6), 200.10.1(2) and 200.5.200.50(1), and Table 200.5.10.1, **parking spaces** must be provided in accordance with the following:
  - (i) a minimum of 0.17 **parking spaces** for each **dwelling unit** for the use of the residents of the **building**;
  - (ii) a minimum of 113 **parking spaces** for the shared use of residential visitors and non-residential uses, and may be provided as non-exclusive **parking spaces** in a **public parking** facility; and
  - (iii) a minimum of 4 **parking spaces** required in (ii) above must be provided for the exclusive use of the **day nursery** for pick-up and drop-off operations in the manner described in Schedule A to this By-law 949-2022;
- (O) For each "car-share parking space" provided, the minimum number of required **parking spaces** for residents required pursuant to (N)(i) above may be reduced by four (4) **parking spaces**, up to a maximum of 1 "car-share parking space" per 60 dwelling units. For the purposes of this exception:
  - (i) "car-share" means the practice whereby a number of people share the use of one or more **vehicles** that are owned and operated by a profit or non-profit car-sharing organization, and such "car-share" **vehicles** are made available to at least the occupants of the **building** for short term rental, including hourly rental; and

- (ii) "car-share parking space" means a **parking space** exclusively reserved and signed for a car used only for "car-share" purposes;
- (P) Despite Regulation 200.5.1.10(2), a maximum of 10 percent of the total number of **parking spaces** provided may have a minimum width of 2.6 metres, despite being obstructed pursuant to Regulation 200.5.1.10(2)(D);
- (Q) For the purposes of Regulation 200.5.1.10(2)(A) and (D), Electric **Vehicle** Infrastructure, including electrical **vehicle** supply equipment, does not constitute an obstruction to a **parking space**;
- (R) Despite Regulations 200.15.1(1) and (3), an accessible **parking space** must have the following minimum dimensions:
  - (i) length of 5.6 metres;
  - (ii) width of 3.4 metres;
  - (iii) vertical clearance of 2.1 metres; and
  - (iv) the entire length of an accessible **parking space** must be adjacent to a 1.5 metre wide accessible barrier free aisle or path on one side of the accessible **parking space**;
- (S) Despite Regulations 200.15.1(4) and 200.15.1.5(1), an accessible **parking space** is not required to be the closest **parking space** to a barrier free entrance to a **building** or to a passenger elevator or be the shortest route from such entrance or elevator;
- (T) Despite Regulations 230.5.1.10(4) and (5) a **stacked bicycle parking space** must have the following minimum dimensions:
  - (i) length of 1.8 metres;
  - (ii) width of 0.45 metres; and
  - (iii) vertical clearance of 1.2 metres;
- (U) Despite Regulations 230.5.1.10(1) and 230.50.1.20(1), "short-term" **bicycle parking spaces** may:
  - (i) be located outdoors on the **lot**;
  - (ii) be located indoors or outdoors in an enclosed or secured room or enclosure on levels of the **building** below-ground, above-ground or on the first **storey**, provided that the "short-term" **bicycle parking spaces** will be publicly accessible; and
  - (iii) be located more than 30 metres from a pedestrian entrance to the **building** above or below ground level;
- (V) Despite Regulations 230.5.1.10(9) and 230.5.1.10(10), both "long-term" and "short-term" **bicycle parking spaces** may be provided in a **stacked bicycle parking space** arrangement and in any combination of vertical, horizontal or stacked positions;
- (W) Despite Clause 220.5.10.1, **loading spaces** must be provided on the lands in accordance with the following minimum requirements:
  - (i) three (3) Type "B" **loading spaces**;
  - (ii) two (2) Type "C" **loading spaces**;
  - (iii) one (1) Type "G" **loading space**; and
  - (iv) a grocery store or supermarket with a **gross floor area** of 5,000 square metres or more within the **building** must provide an additional one (1) Type "B" **loading space**.
- (X) Despite Regulation 220.5.20.1(1), a two-way **driveway** to a **loading space** may have sections that are divided by a median, provided that each direction has a minimum width of 3.5 metres in such sections;
- (Y) Regulation 50.10.20.100(21) with respect to specific conditions for an **outdoor patio** does not apply;
- (Z) Regulation 50.10.20.100(1) with respect to specific conditions for **amusement arcades** does not apply;
- (AA) Regulation 50.10.20.100(32) and Regulation 150.100.20.1(1) with respect to specific use conditions for **eating establishments** do not apply;
- (BB) Regulation 50.10.20.100(39) with respect to specific conditions for **entertainment place of assembly** and **amusement devices** do not apply;

(CC) Despite Regulation 600.20.10(1)(A) and (B), in the first **storey** of a **mixed-use building** or **non-residential building**, no minimum or maximum percentage of **lot frontage** abutting the priority retail **street** for any permitted use is required.

(45) Exception CRE 45

The lands, or a portion thereof as noted below, are subject to the following Site Specific Provisions, Prevailing By-laws and Prevailing Sections.

Site Specific Provisions:

- (A) On 444-450 Richmond Street West, as shown on Diagram 1 of By-law 679-2023, if the requirements of by-law 679-2023 are complied with, a **building** or **structure** may be constructed, used, or enlarged in compliance with Regulations (B) to (U) below;
- (B) Despite Regulations 50.5.40.10(1) and (2), the height of a **building** or **structure** is the distance between the Canadian Geodetic Datum of 90.85 metres and elevation of the highest point of the **building** or **structure**;
- (C) Despite Regulations 50.10.40.10(1), the permitted maximum height of a **building** or **structure** is the number following the HT symbol in metres as shown on Diagram 3 of By-law 679-2023;
- (D) Despite Regulations 50.5.40.10 (3) to (8) and 50.10.40.10(3), and (C) above, the following equipment and **structures** may project beyond the permitted maximum height of a **building**:
  - (i) Wind screens, parapets, terrace or balcony guardrails, ornamental elements, pavers, balustrades, railings and dividers, pergolas, trellises, planters, eaves, privacy screens, stair enclosures, skylights, mechanical equipment, mechanical and architectural screens, access hatches, roof assemblies, roof drainage, chimneys, vents, lightning rods, light fixtures, pavers, elements of a **green roof**, **structures** located on the roof used for outside or open air recreation, chillers, air vents and exit hatch, by no more than 2.5 metres;
  - (ii) Elevator overrun, by no more than 4.0 metres;
  - (iii) Despite (i) above, privacy screening for outdoor **amenity space**, by no more than 3.0 metres;
- (E) The total permitted maximum **gross floor area** for all uses on the **lot** is 8,150 square metres, of which:
  - (i) the permitted maximum **gross floor area** for residential uses is 7,850 square metres; and
  - (ii) the permitted maximum **gross floor area** for non-residential uses is 400 square metres;
- (F) Despite Regulations 50.10.40.50 (1), a **building** with 20 or more **dwelling units** must provide amenity space at the following rate:
  - (i) at least 2.82 square metres for each **dwelling unit** as indoor **amenity space** must be provided and a portion may be allocated to a pet wash area, a guest suite or as a multi-purpose room or rooms; and
  - (ii) at least 0.94 square metres of outdoor **amenity space** for each **dwelling unit** must be provided in a location adjoining or directly accessible to an area containing indoor **amenity space**;
- (G) Despite Regulation 50.5.40.40(3) the **gross floor area** of a **building** may be further reduced by the area of the **building** used for a pet wash area and a guest suite;
- (H) A maximum of 1 guest suite may be permitted as **amenity space**, provided that it:
  - (i) has no food preparation facilities; and
  - (ii) is available for use on a temporary basis as overnight accommodation exclusively for persons visiting residents of the **building**;
- (I) Despite Regulations 50.5.40.70(1) and 50.10.40.70(1)(3) and (5) and 50.10.40.80(1) and (3) and Section 600.10 the required minimum **building setbacks** and minimum distance between **main walls** must be provided as shown in metres on Diagram 3 of By-law 679-2023;
- (J) Despite Clause 50.5.40.60(1) and 50.10.40.60, and (I) above, the following elements may encroach into the required minimum **building setbacks** and separation distances as follows:

- (i) Cornices, eaves, light fixtures, parapets, landscaping features, trellises, window sills, ornamental elements, ventilation shafts, balustrades, guardrails, railings, wheelchair ramps, screening, stair enclosures, doors, underground garages ramp and associated **structures**, wheelchair ramps, damper, window washing equipment, up to a maximum of 0.5 metres;
  - (ii) Canopies, awnings and balconies are permitted up to a maximum of 1.5 metres. However, balconies along the south elevation are not permitted above a height of 36.15 metres;
  - (iii) Private terraces at all levels up to a maximum of 4.0 metres; and
  - (iv) **Structures** used for outside or open air recreation, safety or wind protection, up to a maximum of 1.6 metres;
- (K) Despite Regulation 200.5.1.10 (1) and Table 200.5.10.1, **parking spaces** must be provided in accordance with the following:
  - (i) **parking spaces** are not required for residential uses;
  - (ii) **parking spaces** are not required for non-residential uses;
  - (iii) **parking spaces** are not required for residential visitor uses;
  - (iv) a minimum of 1 **parking space** must be provided and marked for short-term delivery and service **vehicles**; and
  - (v) a minimum of 3 **parking spaces** must be provided and marked for short-term drop-off **vehicles**;
- (L) Despite Regulation 200.5.1.10(2), **parking spaces** required by (K) (iv) and (v) above, **parking spaces** with a minimum width of 2.6 metres and a minimum length of 5.6 metres do not need to be increased by 0.3 metres for each side of the **parking space** that is obstructed;
- (M) Regulation 50.10.80.1 (1) Outdoor Parking Restriction does not apply;
- (N) Despite Regulation 50.10.80.20.(1) **parking space** to be set back from a **lot line** does not apply;
- (O) Despite Regulations 220.5.1.10 (1) and 220.5.10.1(2), a minimum of one Type "C" **loading space** must be provided;
- (P) Despite Regulations 200.15.10(1)(2) and Clauses 200.15.10.5 and 200.15.10.10, no accessible **parking spaces** are required to be provided on the **lot**;
- (Q) Despite Regulation 230.5.1.10(10), "long-term" and "short-term" **bicycle parking spaces** may be located in a **stacked bicycle parking space**;
- (R) Despite Regulations 230.5.1.10 (4)(B) and 230.5.1.10 (5)(A), a **bicycle parking space** in a vertical position may be provided with the following dimensions:
  - (i) a minimum vertical length of 1.9 metres;
  - (ii) a minimum width of 0.45 metres; and
  - (iii) a minimum horizontal clearance from the wall of 1.2 metres;
- (S) Despite Regulations 230.5.1.10(4)(A)(C) and 230.5.1.10 (5)(A), a **stacked bicycle parking space** may be provided with the following dimensions:
  - (i) a minimum length of 1.8 metres;
  - (ii) a minimum width of 0.45 metres;
  - (iii) a minimum vertical clearance of 1.2 metres; and
  - (iv) a combined vertical dimension for two **stacked bicycle parking spaces** of at least 2.4 metres;
- (T) Despite Regulation 230.50.1.20(1), a "short-term" **bicycle parking space** may be located more than 30 metres from a pedestrian entrance to the **building** on the **lot** and may be located inside the **building**;
- (U) A minimum of twenty percent of the total number of **dwelling units** on the **lot** must contain a minimum of two bedrooms, and a minimum of eleven percent of the total number of **dwelling units** on the **lot** must contain a minimum of three or more bedrooms.

Prevailing By-laws and Prevailing Sections:

- (A) Section 12(2)270 of former City of Toronto By-law 438-86. [ By-law: 679-2023(OLT) ]

The lands, or a portion thereof as noted below, are subject to the following Site Specific Provisions, Prevailing By-laws and Prevailing Sections:

Site Specific Provisions:

- (A) On 462 Wellington Street West and part of 489-539 King Street West, if the requirements of By-law 1047-2022 are complied with, a **mixed use building** containing a **nursing home, residential care home** or "retirement home" with **bedsitting rooms** and/or **dwelling units** may be constructed, used or enlarged in compliance with Regulations (B) to (X) below;
- (B) For the purpose of this exception, "retirement home" means **premises** used for semi-independent living accommodation for senior citizens in **bed-sitting rooms** and/or **dwelling units**, with common dining and lounge areas;
- (C) Despite Regulations 50.5.40.10(1) and (2), the height of a **building** or **structure** is the distance between the Canadian Geodetic Datum of 86.48 metres and the elevation of the highest point of the **building** or **structure**;
- (D) Despite Regulation 50.10.40.10(1) and (2), the permitted maximum height of a **building** or **structure** is the number in metres following the letters "HT" as shown on Diagram 6 of By-law 1047-2022;
- (E) Despite Regulations 50.5.40.10(3) to (8), 50.10.40.10 (3) and (D) above, the following equipment and **structures** may project beyond the permitted maximum height shown on Diagram 6 of By-law 1047-2022:
  - (i) enclosed stairwells, roof access, elevator overruns, maintenance equipment storage, elevator shafts, by a maximum of 3 metres;
  - (ii) architectural features, parapets, and elements and **structures** associated with a **green roof**, lighting fixtures, planters and landscape features by a maximum of 2 metres;
  - (iii) window washing equipment, flagpoles, and telecommunications equipment, by a maximum of 5 metres; and
  - (iv) trellises, pergolas, unenclosed **structures** providing safety or wind protection to rooftop **amenity spaces**, guard rails and railings, privacy and or divider screens and partitions on a balcony and/or terrace by a maximum of 3 metres;
- (F) Despite Regulations 50.5.40.10 (4) (A), and 50.10.40.10.3(A) and (E), mechanical equipment is not permitted to exceed the maximum permitted height on Diagram 6 of By-law 1047-2022 and must be wholly enclosed within the **building** envelope shown on Diagram 6 of By-law 1047-2022;
- (G) Despite Regulation 50.5.1.10 (3), the permitted maximum **gross floor area** of all **buildings** and **structures** on the **lot** is 22,360 square metres, of which:
  - (i) the permitted maximum **gross floor area** for residential uses is 14,790 square metres provided that the residential uses include a "retirement home", **nursing home** or **residential care home** with **bedsitting rooms** and/or **dwelling units**;
  - (ii) the permitted maximum **gross floor area** for non-residential uses is 7,570 square metres;
- (H) Despite (G) (i) above, a maximum number of 29 **dwelling units** is permitted on the **lot**;
- (I) In addition to Regulation 50.5.40.40(3), the **gross floor area** of a **mixed use building** is also reduced by the area in the **building** used for mechanical equipment, provided it is wholly enclosed within the **building**;
- (J) Despite Clauses 50.10.40.70, 50.10.40.71, 50.10.40.80 and 50.10.40.81 the required minimum **building setbacks** are shown in metres on Diagram 6 of By-law 1047-2022;
- (K) A required minimum ground floor **building setback** of 1.6 to 2.0 metres must be provided on the east side of the **building** from the east **lot line** as shown in metres by the dashed line on Diagram 6 of By-law 1047-2022;
- (L) A required minimum seventh floor **building setback** of 2.6 metres must be provided on the east side of the **building** from the east **lot line** as shown in metres by the dashed line on Diagram 6 of By-law 1047-2022;
- (M) A required minimum seventh floor **building setback** of 7.0 metres must be provided on the south side of the **building** from the south **lot line** as shown in metres by the dashed line on Diagram 6 of By-law 1047-2022;
- (N) Despite Regulation 5.10.40.70 (1) and Clause 50.10.40.60, the following elements may encroach into the required minimum **building setbacks** as follows:

- (i) balconies, guards, dividers, windscreens, railings, balustrades, art installations, landscape features, architectural elements, bay windows, pilasters, pillars, columns, wheel chair ramps, elements or **structures** used for outdoor or open-air recreation or **green roof** to a maximum of 1.5 metres;
  - (ii) porches, decks, canopies and awnings up to a maximum of 2.5 metres; and
  - (iii) window projections, sills, light fixtures, eaves, cornices and signage up to a maximum of 0.5 metres;
- (O) Despite Regulations 50.10.80.1(3), 200.5.10.1(1), Table 200.5.10.1, and Regulation 200.5.200.50(1), a minimum of 22 **parking spaces** must be provided and maintained on the **lot**;
- (P) If a **parking space** is provided as a **stacked parking space**, the elevating device is not considered an obstruction, as described in Regulation 200.5.1.10 (2) (D), and additional width for the **parking space** is not required;
- (Q) Despite Regulation 200.5.1.10(2)(D), electric vehicle charging equipment is not considered an obstruction provided that the equipment is located in the same parking space as the vehicle to be charged, and
  - (i) is within 0.25 metres of two adjoining sides of the **parking spaces** which are not adjacent and parallel to the **drive aisle** from which **vehicle** access is provided, measured at right angles; or
  - (ii) is at least 5.35 metres from a **drive aisle** from which **vehicle** access is provided measures at rights angles, and at least 1.0 metre from the ground.
- (R) Despite Clause 220.5.10.1, **loading spaces** must be provided and maintained on the **lot** as follows:
  - (i) A minimum of one Type "B" **loading space**; and
  - (ii) A minimum of one Type "C" **loading space**;
- (S) Despite Regulation 230.5.1.10(9)(A)(iii) and (B) (iii) required "long term" **bicycle parking spaces** for all uses, may be located on any level of the building below ground regardless of how much floor area is occupied by **bicycle parking spaces**;
- (T) Despite Regulation 230.50.1.20(1) "short term" **bicycle parking spaces** may be located up to 70 metres from the pedestrian entrance to the **building** on the **lot** and in the "privately owned publicly-accessible open space" at the rear of the **lot** as described in (V) below;
- (U) Despite Regulation 230.5.1.10(10), "short-term" **bicycle parking spaces** may also be located in a **stacked bicycle parking space**;
- (V) A "privately owned publicly-accessible open space" with a minimum area of 230 square metres must be provided on the ground level generally as shown within the area identified on Diagram 6 of By-law 1047-2022;
  - (i) for the purpose of this exception, "privately owned publicly-accessible open space" means a space on the **lot** situated at ground level within the area with diagonal lines shown on Diagram 6 of By-law 1047-2022, that is accessible to the public, secured through appropriate legal agreements and may include pedestrian walkways, seating areas, landscaped plaza, short term **bicycle parking** required by By-law 1047-2022, and ornamental **structures** and is used principally for the purpose of sitting, standing and other recreational uses;
- (W) Section 600.10 Building Setback Overlay District Map does not apply; and
- (X) Regulation 50.10.40.30(1), regarding maximum **building depth**, does not apply.

(47) Exception CRE 47

The lands, or a portion thereof as noted below, are subject to the following Site Specific Provisions, Prevailing By-laws and Prevailing Sections:

Site Specific Provisions:

- (A) On 241 Richmond Street West and 133 John Street, if the requirements of By-law 851-2022 are complied with, a **building** or **structure** may be constructed, used or enlarged in compliance with Regulations (B) to (O) below;
- (B) The permitted maximum **gross floor area** of all **buildings** or **structures** must not exceed 33,500 square metres, of which a minimum of 1,273 square metres must be non-residential **gross floor area**;

- (C) The provision of **dwelling units** is subject to the following:
- (i) A minimum of 15 percent of the total number of **dwelling units** must have two or more bedrooms;
  - (ii) A minimum of 10 percent of the total number of **dwelling units** must have three or more bedrooms;
  - (iii) Any **dwelling units** with three or more bedrooms provided to satisfy (C)(ii) above are not included in the provision required by (C)(i) above;
  - (iv) An additional 15 percent of the total number of **dwelling units** will be any combination of two bedroom and three bedroom **dwelling units**, or **dwelling units** that can be converted into any combination of two and three bedroom **dwelling units**; and
  - (v) Convertible **dwelling units**, as described in (C)(iv) above, may be converted using accessible or adaptable design measures such as knock-out panels;
- (D) Despite Regulation 50.5.40.10(1), the height of a **building** or **structure** is the distance between the Canadian Geodetic Datum of 88.0 metres and the elevation of the highest point of the **building** or **structure**;
- (E) Despite Regulation 50.10.40.10(1), the permitted maximum height of a **building** or **structure** is the number in metres following the letters "HT" as shown on Diagram 3C of By-law 851-2022, except that the permitted maximum height of the second **storey** is shown on Diagram 3A and the permitted maximum height of the eighth **storey** is shown on Diagram 3B;
- (F) Despite Regulations 50.5.40.10(3) and 4 and (E) above, the following equipment and **structures** may project beyond the permitted maximum height shown on Diagrams 3A, 3B and 3C of By-law 851-2022:
- (i) equipment used for the functional operation of the **building** including electrical, utility, mechanical and ventilation equipment, enclosed stairwells, roof access, maintenance equipment storage, elevator shafts, chimneys, and vents, by a maximum of 7.0 metres;
  - (ii) **structures** that enclose, screen or cover the equipment, **structures** and parts of a **building** listed in (F)(i) above, inclusive of a mechanical penthouse, by a maximum of 7.0 metres;
  - (iii) architectural features, parapets, and elements and **structures** associated with a **green roof**, by a maximum of 3.0 metres, provided they are located on the roof on the 35th **storey** or greater, and these elements have an additional projection beyond the specified projection in (F)(i) and (F)(ii);
  - (iv) architectural features, parapets, and elements and **structures** associated with a **green roof**, by a maximum of 1.5 metres above the roof-of mechanical penthouse and above the maximum heights permitted in (F)(i) and (F)(ii);
  - (v) **building** maintenance units and window washing equipment, by a maximum of 5.0 metres; above the maximum heights permitted in (F)(i)
  - (vi) planters, **landscaping** features, guard rails, and divider screens on a balcony and/or terrace, by a maximum of 3.0 metres; and
  - (vii) trellises, pergolas, and unenclosed **structures** providing safety or wind protection to rooftop **amenity space**, by a maximum of 4.0 metres;
- (G) Despite Regulation 50.5.40.70(1), Clause 50.10.40.30 and Clause 50.10.40.70 and Article 600.10.10, the required minimum **building setbacks** and **building depth** are as shown in metres Diagrams 3A, 3B and 3C of By-law 851-2022;
- (H) Despite Regulations 50.10.40.80(1) and (3) and Article 600.10.10, the required separation of **main walls** are as shown in metres on Diagrams 3A, 3B and 3C of By-law 851-2022;
- (I) Despite Clause 50.5.40.60 and 50.10.40.60 and (G) and (H) above, the following elements may encroach into the required minimum **building setbacks** and **main wall** separation distances as follows:
- (i) balconies by a maximum of 2.6 metres in zone A only, as shown on Diagram 3B of By-law 851-2022, between **storeys** 4-8;
  - (ii) balconies by a maximum of 3.415 metres in zone A only, as shown on Diagram 3C of By-law 851-2022, at **storey** 9;

- (iii) balconies by a maximum of 3.290 metres in zone A and 3.420 metres in zone B, as shown on Diagram 3C of By-law 851-2022, between **storeys** 10-17;
  - (iv) balconies by a maximum of 3.805 metres in zone A and 2.435 metres in zone B, as shown on Diagram 3C of By-law 851-2022, between **storeys** 18-33;
  - (v) balconies by a maximum of 3.360 metres in zone A and 1.990 metres in zone B, as shown on Diagram 3C of By-law 851-2022, at **storey** 34;
  - (vi) balconies by a maximum of 3.165 metres in zone B only, as shown on Diagram 3C of By-law 851-2022, between **storeys** 35-40;
  - (vii) canopies and awnings, by a maximum of 3.0 metres;
  - (viii) exterior stairs, access ramps and elevating devices, by a maximum of 3.0 metres;
  - (ix) cladding added to the exterior surface of the **main wall** of a **building**, by a maximum of 4.0 metres;
  - (x) architectural features, such as a pilaster, decorative column, projecting cornice, sill, belt course, or chimney breast, by a maximum of 3.5 metres;
  - (xi) window projections within base **building** height, including bay windows and box windows, by a maximum of 2.0 metres;
  - (xii) eaves, by a maximum of 2.0 metres;
  - (xiii) a dormer, by a maximum of 2.0 metres; and
  - (xiv) antennae, vents, and pipes, by a maximum of 1.0 metres;
- (J) Despite Regulation 50.10.40.50(1) **amenity space** must be provided at a minimum rate of 2.32 square metres for each **dwelling unit** on the **lot** as follows:
- (i) at least 1.15 square metres for each **dwelling unit** as indoor **amenity space**;
  - (ii) at least 1.17 square metres of outdoor **amenity space** for each **dwelling unit** of which 40 square metres must be in a location adjoining or directly accessible to the indoor **amenity space**; and
  - (iii) the outdoor component is not permitted to be a **green roof**;
- (K) Despite Regulation 200.5.10.1 and Table 200.5.10.1, **parking spaces** must be provided in accordance with the following:
- (i) a minimum of 0.2 **parking spaces** per **dwelling unit** for the use of residents;
  - (ii) a minimum of 2 "car-share parking spaces"; and
  - (iii) no **parking spaces** are required for the use of residential visitors; and non-residential uses;
  - (iv) for the purpose of this exception, "car-share" means the practice where a number of people share the use of one or more cars that are owned by a profit or non-profit sharing organization and where such organization may require the use of cars be reserved in advance, charge fees based on time and/or kilometers driven, and set membership requirements of the car-sharing organization, including the payment of a membership fee that may or may not be refundable; and
  - (v) for the purpose of this exception, a "car-share parking space" means a **parking space** exclusively reserved and actively used for "car-share" purposes, including by non-residents.
- (L) Despite Regulation 200.5.1.10(2)(A)(iv), a maximum of 7 percent of the total number of **parking spaces** may be obstructed on one or two sides in accordance with 200.5.1.10(2)(D) without a requirement to increase the minimum width by 0.3 metres;
- (M) Despite Regulation 200.15.10(1), a minimum of 4 of the required **parking spaces** must be accessible **parking spaces**;
- (N) Despite Regulations 230.5.1.10(4) and (5), a **stacked bicycle parking space** must have the following minimum dimensions:
- (i) Length of 1.82 metres;
  - (ii) Width of 0.45 metres; and
  - (iii) Vertical Clearance of 2.54 metres;
- (O) Despite Regulations 220.5.10.1, a minimum of one Type "G" **loading space** must be provided on the **lot**.

(48) Exception CRE 48

The lands, or a portion thereof as noted below, are subject to the following Site Specific Provisions, Prevailing By-laws and Prevailing Sections:

Site Specific Provisions:

- (A) On 224, 230, 236 and 240 Adelaide Street West, if the requirements of By-law 1042-2022 are complied with, a **building** or **structure** may be constructed, used or enlarged in compliance with Regulations (B) to (Y) below;
- (B) The permitted maximum **gross floor area** of all **buildings** or **structures** must not exceed 36,100 square metres, of which a minimum of 1,400 square metres must be non-residential **gross floor area**;
- (C) The provision of **dwelling units** is subject to the following:
  - (i) A minimum of 15 percent of the total number of **dwelling units** must have two or more bedrooms;
  - (ii) A minimum of 10 percent of the total number of **dwelling units** must have three or more bedrooms;
  - (iii) Any **dwelling units** with three or more bedrooms provided to satisfy (C)(ii) above are not included in the provision required by (C)(i) above;
  - (iv) An additional 15 percent of the total number of **dwelling units** will be any combination of two bedroom and three bedroom **dwelling units**, or **dwelling units** that can be converted into any combination of two and three bedroom **dwelling units**; and
  - (v) **Dwelling units**, as described in (C)(iv) above, may be converted using accessible or adaptable design measures such as knock-out panels;
- (D) Despite Regulation 50.5.40.10(1) and (2), the height of a **building** or **structure** is the distance between the Canadian Geodetic Datum of 87.32 metres and the elevation of the highest point of the **building** or **structure**;
- (E) Despite Regulation 50.10.40.10(1), the permitted maximum height of a **building** or **structure** is the number in metres following the letters "HT" as shown on Diagram 3 of By-law 1042-2022;
- (F) Above a height of 183.5 metres, the only permitted use is **amenity space**, to a maximum floor area of 650 square metres;
- (G) Despite Regulations 50.5.40.10(3), 50.5.40.10(4), 50.5.40.10(6), 50.5.40.10(7) and 50.10.40.10(3) and (E) above, the following equipment and **structures** may project beyond the permitted maximum height shown on Diagram 3 of By-law 1042-2022:
  - (i) equipment used for the functional operation of the **building** including electrical, utility, mechanical and ventilation equipment, enclosed stairwells, roof access, maintenance equipment storage, elevator shafts, chimneys, and vents, by a maximum of 3.0 metres;
  - (ii) **structures** that enclose, screen or cover the equipment, **structures** and parts of a **building** listed in (i) above, inclusive of a mechanical penthouse, by a maximum of 3.0 metres;
  - (iii) architectural features, parapets, and elements and **structures** associated with a **green roof**, by a maximum of 3.0 metres;
  - (iv) **building** maintenance units and window washing equipment, by a maximum of 3.0 metres;
  - (v) planters, **landscaping** features, guard rails, and divider screens on a balcony and/or terrace, by a maximum of 3.0 metres; and
  - (vi) trellises, pergolas, and unenclosed **structures** providing safety or wind protection to rooftop **amenity space**, by a maximum of 3.0 metres;
- (H) Regulations 50.5.40.10(5) and 50.5.40.10(8) with respect to height projections of elements for the functional operation of a **building**, do not apply;
- (I) Despite Regulations 50.10.40.70(1), 50.10.40.70 (3), 50.10.40.70 (4), 50.10.40.70 (5), 50.10.40.80(1), 50.10.40.80(2), 50.10.40.80(3) and Article 600.10.10, the required minimum **building setbacks** and window separation are as shown in metres on Diagram 3 of By-law 1042-2022;
- (J) Despite Clauses 50.5.40.60 and 50.10.40.60 and (I) above, the following elements may encroach into the required minimum **building setbacks** and **main wall** separation distances as follows:

- (i) balconies, by a maximum of 1.5 metres;
  - (ii) canopies and awnings by a maximum of 2.5 metres;
  - (iii) terraces, to the same distance as the **main wall** directly below them;
  - (iv) exterior stairs, access ramps and elevating devices, by a maximum of 1.5 metres;
  - (v) cladding added to the exterior surface of the **main wall** of a **building**, by a maximum of 1.5 metres;
  - (vi) architectural features, such as a pilaster, decorative column, cornice, sill, belt course, or chimney breast, by a maximum of 1.5 metres;
  - (vii) window projections, including bay windows and box windows, by a maximum of 1.5 metres;
  - (viii) eaves, by a maximum of 1.5 metres;
  - (ix) a dormer, by a maximum of 1.5 metres; and
  - (x) air conditioners, satellite dishes, antennae, vents, and pipes, by a maximum of 1.5 metres;
- (K) Despite (J)(i) above, balconies are not permitted on the north **main wall** of a **building** between the Canadian Geodetic Datum of 87.32 metres and a height of 38.4 metres; and
- (i) For the purpose of (K) above, a terrace and a **green roof** are not a balcony;
- (L) Despite (E), (G), (I) and (J) above, within "Area A" shown on Diagram 3 of By-law 1042-2022, the north **main wall** must be set back a minimum of 3.8 metres from the north **lot line** between a height of 16.5 and 38.0 metres; and
- (i) only columns, shear walls and architectural cladding may encroach within the **building setback** required in (L), to a maximum of 1.5 metres;
- (M) Despite (E), (G), (I) and (J) above, within "Area B" shown on Diagram 3 of By-law 1042-2022, the south **main wall** must be set back a minimum of 1.1 metres from the south **lot line** between the Canadian Geodetic Datum of 87.32 metres and a height of 5.5 metres; and
- (i) only columns, shear walls and architectural cladding, and canopies may encroach within the **building setback** required in (M);
- (N) Despite (E), (G), (I) and (J) above, within "Area C" shown on Diagram 3 of By-law 1042-2022, the west **main wall** must be set back a minimum of 0.5 metres from the west **lot line**, between the Canadian Geodetic Datum of 87.32 metres and a height of 5.5 metres; and
- (i) only columns, shear walls and architectural cladding, and canopies may be located within the **building setback** required in (N);
- (O) Despite Regulation 50.10.40.50(1), **amenity space** must be provided at a minimum rate of 2.5 square metres for each **dwelling unit** on the **lot** as follows:
- (i) at least 2.0 square metres for each **dwelling unit** as indoor **amenity space**;
  - (ii) at least 350 square metres of outdoor **amenity space**, of which a minimum of 40 square metres is outdoor **amenity space** in a location adjoining or directly accessible to the indoor **amenity space**; and
  - (iii) no more than 25 percent of the outdoor component may be a **green roof**;
- (P) Despite Regulation 200.5.10.1(1) and Table 200.5.10.1, **parking spaces** must be provided in accordance with the following:
- (i) no **parking spaces** for the use of residential occupants; and
  - (ii) a minimum of 3 **parking spaces** are required on the ground level for the shared use of residential visitors and non-residential uses;
- (Q) Despite Regulation 200.5.1.10(2), any **parking spaces** provided on the **lot** within an "automated parking system" may have a minimum width of 2.6 metres, and be obstructed on one side, as described in Regulation 200.5.1.10(2)(D), without being required to provide additional width for the obstructed sides of the **parking space**;
- (i) for the purpose of this exception, an "automated parking system" means a mechanical system for the purpose of parking and retrieving **vehicles** with or without drivers in the **vehicle** during parking and without the use of ramping or **drive aisles**, and where automated maneuvering of other **vehicles** may be required for **vehicles** to be parked or retrieved;

- (R) Despite Regulation 200.5.1.10(2)(D), Electric **Vehicle** Infrastructure, including electrical **vehicle** supply equipment, does not constitute an obstruction to a **parking space**;
- (S) Regulations 200.5.1.10(5), (6) and (14) do not apply to **parking spaces** in an "automated parking system";
- (T) Despite Regulation 200.15.10(1) and Clauses 200.15.10.5 and 200.15.10.10, accessible **parking spaces** are not required;
- (U) Despite 200.5.1.10(13), access to **parking spaces** may be provided by an "automated parking system";
- (V) Regulations 200.5.1(3) and (12) do not apply to an "automated parking system", provided that the access to the elevating mechanism enclosure of the "automated parking system" complies with the following minimum dimensions:
  - (i) Length of 5.6 metres;
  - (ii) Width of 3.4 metres;
  - (iii) Vertical clearance of 2.1 metres; and
  - (iv) the entire length of the elevating mechanism enclosure must be adjacent to a 1.5 metre wide accessible barrier free aisle or path;
- (W) Despite Regulations 220.5.10.1(1), (2), (3), (5), and (6), **loading spaces** shall be provided and maintained on the **lot** in accordance with the following:
  - (i) 1 Type "C" **loading space**; and
  - (ii) 1 shared Type "G" and Type "B" **loading space**;
- (X) Despite Regulation 230.5.1.10(4)(B), vertical **bicycle parking spaces** must have the following minimum dimensions:
  - (i) Length or vertical clearance of 1.9 metres;
  - (ii) Width of 0.4 metres; and,
  - (iii) Horizontal clearance from the wall of 1.2 metres;
- (Y) Despite Regulation 230.5.1.10.(9)(B)(iii), "long-term" **bicycle parking spaces** may be located on the first or second level of the **building** below-ground.

Prevailing By-laws and Prevailing Sections: (None Apply)  
[ By-law: 1042-2022 Enacted ]

(49) Exception CRE 49

The lands, or a portion thereof as noted below, are subject to the following Site Specific Provisions, Prevailing By-laws and Prevailing Sections:

Site Specific Provisions:

- (A) On 254 and 260 Adelaide Street West, if the requirements of By-law 920-2022 are complied with, a **building** or **structure** may be constructed, used or enlarged in compliance with Regulations (B) to (V) below;
- (B) In addition to the non-residential uses permitted in Regulations 50.10.20.10(1)(A) and 50.10.20.20(1)(A), **public parking** and "paramedic post", as described in (C)(v) below, are also permitted;
- (C) The permitted **gross floor area** of all **buildings** or **structures** must not exceed 53,500 square metres, of which:
  - (i) The permitted maximum **gross floor area** for residential uses is 52,500 square metres;
  - (ii) The required minimum **gross floor area** for non-residential uses is 1,500 square metres;
  - (iii) A minimum of 925 square metres of the permitted non-residential **gross floor area** is required for a **community centre**;
  - (iv) A minimum of 110 square metres of the permitted non-residential **gross floor area** is required for a "paramedic post"; and
  - (v) For the purpose of this exception, "paramedic post" means premises used and operated by medical professionals and paramedics dealing with medical emergencies, as well as complex

non-emergency hospital admissions, discharges and transfers. A paramedic post may include an ambulance depot;

- (D) The provision of **dwelling units** is subject to the following:
- (i) A minimum of 15 percent of the total number of **dwelling units** must have two or more bedrooms;
  - (ii) A minimum of 10 percent of the total number of **dwelling units** must have three or more bedrooms;
  - (iii) Any **dwelling units** with three or more bedrooms provided to satisfy (D)(ii) above are not included in the provision required by (D)(i) above;
  - (iv) An additional 15 percent of the total number of **dwelling units** will be any combination of two bedroom and three bedroom **dwelling units**, or **dwelling units** that can be converted into any combination of two and three bedroom **dwelling units**; and
  - (v) **Dwelling units**, as described in (D)(iv) above, may be converted using accessible or adaptable design measures such as knock-out panels;
- (E) In addition to the areas of a **building** listed in Regulation 50.5.40.40(3), the **gross floor area** of a **mixed use building** is also reduced by the area in the **building** used for **public parking** below-ground;
- (F) Despite Regulations 50.5.40.10(1) and (2), the height of a **building** or **structure** is the distance between the Canadian Geodetic Datum of 87.10 metres and the elevation of the highest point of the **building** or **structure**;
- (G) Despite Regulation 50.10.40.10(1), the permitted maximum height of a **building** or **structure** is the number in metres following the letters "HT" as shown on Diagram 3 of By-law 920-2022;
- (H) Despite Regulations 50.5.40.10(3), (4), (5), (6), (7), and (8), 50.10.40.10(3) and (G) above, the following equipment and **structures** may project beyond the permitted maximum height shown on Diagram 3 of By-law 920-2022 as follows:
- (i) equipment used for the functional operation of the **building** including electrical, utility, ventilation and mechanical equipment, including mechanical penthouses, by a maximum of 8.5 metres;
  - (ii) divider screens, on a balcony and/or terrace, planters, landscape features, guard rails, enclosed stairwells, roof access, maintenance equipment storage, elevator shafts, chimneys, and vents, architectural features, parapets, and lighting rods by a maximum of 3.0 metres;
  - (iii) trellis, pergolas and unenclosed **structures** providing safety or wind protection to rooftop **amenity space**, by a maximum of 4.0 metres;
  - (iv) window washing equipment, **building** maintenance units and related screening may project above the permitted height limit for the mechanical penthouse as set out in subsection (H)(i) by a maximum of 5.0 metres; and
  - (v) elements listed in subsection (H)(ii) may project above the permitted height limit for the mechanical penthouse as set out in subsection (H)(i) by a maximum of 3.0 metres.
- (I) In the area labelled "Throughway" on Diagram 3a of By-law 920-2022, a continuous area measuring a minimum height of 6.0 metres and a minimum width of 5.5 metres, which has no **buildings** or **structures**, except for **structures** required for **landscaping** and **soft landscaping**, must be provided commencing from the north part of the **building** in the "Throughway" and ending in the south part of the **building** in the "Throughway";
- (J) Despite Regulations 50.5.40.70(1), 50.10.40.70(1), (3), and (5), Article 600.10.10, and Clause 50.10.40.80, the required minimum **building setbacks**, **building setbacks** from a **lane** and minimum above ground separation distances are as shown in metres on Diagram 3 of By-law 920-2022;
- (K) Despite (J) above and Regulations 50.10.40.60(1) to (8), the following elements of a **building** or **structure** may encroach into the required **building setbacks** and **main wall** separation distances shown on Diagram 3 of By-law 920-2022 as follows:
- (i) planters, light fixtures, decorative screens, privacy screens, ornamental elements, art and landscape features, **landscaping**, public art, ventilation shafts, railings, fences, site servicing features, retaining walls, bollards, wheel chair ramps and vehicular parking ramps, by a maximum of 3.0 metres;

- (ii) balconies, balcony guards and dividers, by a maximum of 2.0 metres;
  - (iii) awnings, canopies and all vertical extensions of such awnings and canopies, lighting fixtures, architectural features, planters, guardrails, and stairs; by a maximum of 1.5 metres;
  - (iv) eaves, roof drainage, light fixtures, parapets, window washing equipment, architectural flutes and window sills, by a maximum of 1.0 metre; and
  - (v) **outdoor patios** on the ground level may encroach into required **building setbacks** outside the areas delineated as "Privately Owned Public Space" on Diagram 3A of By-law 920-2022;
- (L) Despite Regulation 50.10.40.50(1) **amenity space** must be provided at a minimum rate of 2.5 square metres for each **dwelling unit** on the **lot** as follows:
  - (i) at least 1.5 square metres for each **dwelling unit** as indoor **amenity space**;
  - (ii) at least 1.0 square metres for each **dwelling unit** as outdoor **amenity space**, of which 40 square metres must be in a location adjoining or directly accessible to the indoor **amenity space**; and
  - (iii) none of the outdoor component may be a **green roof**;
  - (iv) indoor **amenity space** may include guest suites that do not exceed an aggregate **gross floor area** of 100.0 square metres; and
  - (v) for the purposes of this exception, guest suites units do not constitute **dwelling units**;
- (M) Despite Regulation 200.5.10.1 and Table 200.5.10.1, **parking spaces** must be provided in accordance with the following:
  - (i) a minimum of 0.01 **parking spaces** per **dwelling unit** for the use of residential visitors;
  - (ii) no **parking spaces** are required for the use of residential occupants or non-residential uses;
  - (iii) **parking spaces** for residential visitors in (L)(i) may be provided as part of a **public parking** use;
  - (iv) "car share parking spaces" are permitted, as defined in (v) and (vi) below;
  - (v) for the purpose of this exception, "car-share" means the practice whereby a number of people share the use of one or more motor **vehicles** and such "car-share" motor **vehicles** are made available to at least the occupants of the **building** for short-term rental, including hourly rental; and
  - (vi) for the purpose of this exception, "car-share parking space" means a **parking space** exclusively reserved and signed for a **vehicle** used only for "car-share" purposes; and
  - (vii) for the purpose of this exception, a "car-share parking space" means a **parking space** exclusively reserved and actively used for "car-share" purposes, including by non-residents;
- (N) Despite Regulation 200.5.1.10(2)(A)(iv) and (D), a maximum of 10 **parking spaces** may have a minimum width of 2.6 metres and obstructed on one or two sides, as described in Regulation 200.5.1.10(2)(D) without being required to provide additional width for the obstructed sides of the **parking space**;
- (O) Despite Regulations 200.5.1.10(2)(A)(iv) and (D), electric **vehicle** infrastructure, including electrical **vehicle** supply equipment, does not constitute an obstruction to a **parking space**;
- (P) Equipment for the charging of one electric **vehicle** is permitted within a **parking space**, subject to the equipment being located in the same **parking space** as the **vehicle** to be charged and:
  - (i) being within 0.25 metres of two adjoining sides of the **parking space** which are not adjacent and parallel to a **drive aisle** from which **vehicle** access is provided, measured at right angles; or
  - (ii) being at least 5.35 metres from a **drive aisle** from which **vehicle** access is provided, measured at right angles, and at least 1.0 metre from the ground;
- (Q) Despite Regulation 200.25.15(1) and 200.25.2(1), accessible **parking spaces** must be provided in accordance with the accessible parking rates in Clauses 200.15.10.10 and 200.15.10.5;
- (R) Despite Regulations 200.15.1(1) to (4), accessible **parking spaces** must be provided in accordance with the following:
  - (i) An accessible **parking space** must have the following minimum dimensions:
    - (a) width of 3.4 metres;

- (b) length of 5.6 metres; and
- (c) vertical clearance of 2.1 metres;
- (ii) The entire length of an accessible **parking space** must be adjacent to a 1.5 metre wide accessible barrier free aisle or path on one side of the accessible **parking space**; and
- (iii) Accessible **parking spaces** must be located within 25.0 metres of a barrier free entrance to a **building** or passenger elevator that provides access to the first **storey** of the **building**;
- (S) Despite Regulations 230.5.1.10(4), a **stacked bicycle parking** space must have the following minimum dimensions:
  - (i) width of 0.2 metres;
  - (ii) length of 1.2 metres; and
  - (iii) vertical clearance of 1.2 metres;
- (T) Despite Regulation 230.5.1.10(5)(A), an area used to provide **bicycle parking spaces** must have a minimum vertical clearance of 1.2 metres for **stacked bicycle parking spaces**;
- (U) Despite Regulations 230.5.1.10(9) and (10), and Clause 230.40.1.20, "long-term" and "short-term" **bicycle parking spaces** may be:
  - (i) located in a **stacked bicycle parking space** arrangement, in any combination of vertical, horizontal or stacked positions;
  - (ii) located outdoors or indoors in a secure or enclosed room or enclosure on any floor of a **building** above or below ground level; and
  - (iii) located more than 30 metres from a pedestrian entrance;
- (V) Despite Regulation 220.5.10.1(2) and (3), a minimum of one Type "C" and one Type "G" **loading space** must be provided.

Prevailing By-laws and Prevailing Sections: (None Apply)  
[ By-law: 920-2022 Enacted ]

(50) Exception CRE 50

The lands, or a portion thereof as noted below, are subject to the following Site Specific Provisions, Prevailing By-laws and Prevailing Sections.

Site Specific Provisions:

- (A) On 14 Duncan Street, and 180, 184 and 188 Pearl Street, if the requirements of By-law 973-2022 are complied with, a **mixed use building** or **structure** may be constructed, used or enlarged in compliance with Regulations (B) to (S) below;
- (B) Despite Regulations 50.5.40.10(1) and (2), the height of a **building** or **structure** is the distance between the Canadian Geodetic Datum elevation of 86.36 metres and the elevation of the highest point of the **building** or **structure**;
- (C) In addition to the permitted non-residential uses with conditions listed in Regulation 50.10.20.20(1)(A), **public parking** is permitted provided it is located in a below ground **parking garage**;
- (D) The permitted maximum **gross floor area** of all **buildings** and **structures** on the **lot** is 34,300 square metres, of which:
  - (i) the required minimum **gross floor area** for non-residential uses is 6,800 square metres;
- (E) The provision of **dwelling units** is subject to the following:
  - (i) A minimum of 22 percent of the total number of **dwelling units** must have two or more bedrooms;
  - (ii) A minimum of 11 percent of the total number of **dwelling units** must have three or more bedrooms; and
  - (iii) Any **dwelling units** with three or more bedrooms provided to satisfy (E)(ii) above are not included in the provision required by (E)(i) above.
- (F) Despite Clause 50.10.40.10, the permitted maximum height of a **building** or **structure** is the number in metres following the letters "HT" as shown on Diagram 3 of By-law 973-2022;

- (G) Despite Regulations 50.5.40.10(4) to (7), 50.10.40.10(3) and (F) above, the following equipment and **structures** may project beyond the permitted maximum height shown on Diagram 3 of By-law 973-2022:
- (i) equipment used for the functional operation of the **building** including electrical, utility, mechanical and ventilation equipment, enclosed stairwells, roof access, maintenance equipment storage, elevator shafts, chimneys, and vents, by a maximum of 5.0 metres;
  - (ii) **structures** that enclose, screen or cover the equipment, **structures** and parts of a **building** listed in (i) above, inclusive of a mechanical penthouse, by a maximum of 5.0 metres;
  - (iii) architectural features, parapets, and elements and **structures** associated with a **green roof**, by a maximum of 2.5 metres;
  - (iv) **building** maintenance units and window washing equipment, by a maximum of 5.0 metres;
  - (v) planters, **landscaping** features, guard rails, and divider screens on a balcony and/or terrace, by a maximum of 2.5 metres; and
  - (vi) trellises, pergolas, and unenclosed **structures** providing safety or wind protection to rooftop **amenity space**, by a maximum of 3.8 metres.
- (H) Despite Regulation 50.5.40.10(8) and (G) above, no **building**, equipment or **structure** may project beyond a maximum height of 157.0 metres, except for chimneys, pipes and vents to a maximum of 3.0 metres;
- (I) Regulation 50.10.40.30(1) with respect to maximum permitted **building depth** does not apply;
- (J) Despite Regulations 50.10.40.70(1), (4) and (5), and 50.10.40.80(1), (2) and (3), and Article 600.10.10, the required minimum **building setbacks** and minimum above-ground separation distance are as shown in metres on Diagram 3 of By-law 973-2022;
- (K) Despite (F) and (J) above, no portion of a **building** or **structure** may be located within the hatched areas shown on Diagram 3 of By-law 973-2022, as follows:
- (i) between a height of 13.0 metres and a height of 23.9 metres;
  - (ii) between a height of 17.0 metres and a height of 23.9 metres; and
  - (iii) between a height of 20.9 metres and a height of 23.9 metres.
- (L) Despite Regulations 50.5.40.60(1) and 50.10.40.60(1) to (8), and (J) and (K) above, the following **building** elements may encroach into the required minimum **building setbacks** and **main wall** separation distances as follows:
- (i) canopies and awnings, by a maximum of 2.5 metres;
  - (ii) exterior stairs, access ramps and elevating devices;
  - (iii) cladding added to the exterior surface of the **main wall** of a **building**, by a maximum of 1.0 metres;
  - (iv) architectural features, such as a pilaster, decorative column, cornice, sill, belt course, or chimney breast, by a maximum of 2.5 metres;
  - (v) window projections, including bay windows and box windows, by a maximum of 1.0 metres;
  - (vi) eaves, by a maximum of 2.5 metres;
  - (vii) a dormer, by a maximum of 2.5 metres;
  - (viii) air conditioners, satellite dishes, antennae, vents, and pipes; and
  - (ix) terraces, inclusive of platforms, guards, and parapets, to the extent of the **main walls** of the **storey** located below.
- (M) Despite Regulations 200.5.10.1(1), Table 200.5.10.1, 200.5.10.1(6), 200.10.1(2) and 200.5.200.50(1), **vehicle parking spaces** must be provided in accordance with the following:
- (i) a minimum of 0.26 residential occupant **parking spaces** for each **dwelling unit**; and
  - (ii) a minimum of 24 **parking spaces** for the shared use of residential visitors and non-residential uses, which may be provided as **public parking**.
- (N) Despite Regulation 200.5.1.10(13), a **vehicle** elevator is not an obstruction to the access of a **parking space**, provided that a minimum of 2 **vehicle** queuing spaces are provided in a **stacking aisle** within the **building**;

- (O) Despite Clause 220.5.10.1, **loading spaces** must be provided and maintained in accordance with the following minimum requirements:
- (i) One Type "G" **loading space**; and
  - (ii) One Type "B" **loading space**.
- (P) Despite Regulation 230.5.1.10(10), "short-term" **bicycle parking spaces** may also be located in a **stacked bicycle parking space**;
- (Q) Clause 230.5.10.11, regarding bicycle parking rate exemptions for a **lawfully existing building**, does not apply;
- (R) Regulation 50.10.40.10(2), regarding heritage **building** volume permissions beyond the permitted maximum height, does not apply; and
- (S) Article 600.10.10 respecting **building setbacks**, **building** separation, separation of **main walls**, and projections and encroachments into **building setbacks** and **angular planes**, does not apply.

(51) Exception CRE 51

The lands, or a portion thereof as noted below, are subject to the following Site Specific Provisions, Prevailing By-laws and Prevailing Sections:

Site Specific Provisions:

- (A) On 120, 122, 124, 126 and 128 Peter Street and 357 and 359 Richmond Street West, if the requirements of By-law 1165-2022(OLT) are complied with, a **mixed use building or structure** may be constructed, used or enlarged in compliance with Regulations (B) to (DD) below;
- (B) Despite Regulations 50.5.40.10(1) and (2), the height of a **building or structure** is the distance between the Canadian Geodetic Datum of 88.30 metres and the elevation of the highest point of the **building or structure**;
- (C) In addition to the permitted uses listed in Regulations 50.10.20.10 (1) and 50.10.20.20 (1) the following additional uses are permitted:
- (i) **public parking**;
  - (ii) car-share; and
  - (iii) temporary sales facility;
- (D) Despite Regulation 50.10.40.10 (1) and (2), the permitted maximum height of a **building or structure** is the number in metres following the letters "HT" as shown on Diagram 3 of By-law 1165-2022(OLT);
- (E) Despite Regulations 50.5.40.10 (3) to (8) and 50.10.40.10 (2) and (3) and (D) above, the following equipment and **structures** may project beyond the permitted maximum height shown on Diagram 3 of By-law 1165-2022(OLT):
- (i) **structures** and elements related to outdoor flooring and roofing assembly by a maximum of 0.5 metres;
  - (ii) **structures** and elements used for **green roof** purposes, mechanical elements, mechanical intake and exhaust ventilations, chimneys, garbage chutes, light fixtures, signage, lightning rods, green energy and renewable energy facilities (such as solar panels) by a maximum of 2.0 metres;
  - (iii) parapets, exterior cladding elements, ornamental or architectural features, dormers, planters, water features, bollards, fences, terrace dividers, privacy and architectural screens, outdoor furniture, artworks, by a maximum of 2.5 metres;
  - (iv) access to rooftops and terraces such as access hatches, stairs, ladders, ramps, elevator overruns, guardrails, railings and safety railings by a maximum of 3.0 metres;
  - (v) **structures** and elements for pool and pool accessories, cabanas, pergolas, trellises, by a maximum of 3.6 metres;
  - (vi) emergency generator and support **structures** by a maximum of 4 metres;
  - (vii) **structures**, elements and architectural features for wind mitigation and window washing equipment by a maximum of 5.5 metres; and
  - (viii) cooling tower and support **structures** by a maximum of 6.0 metres;

- (F) Despite (E) above and with the exception of wind mitigation features, safety railings, lightning rods and window washing equipment which may project vertically to the maximum extent described in (E) above, and flight warning fixtures, nothing can project beyond a maximum height of 123.55 metres on the north side of the **building** and a maximum height of 141.36 metres on the south side of the **building** in the area illustrated as 'Sloped Roof' on Diagram 3 of By-law 1165-2022(OLT);
- (G) Despite (E) above, only equipment used for the functional operation of the heritage **building(s)** such as, but not limited to, venting, mechanical elements generators, telecommunication infrastructure, and chimney stacks, and such elements provided as part of an approved conservation plan for the heritage **building(s)**, may project above the height limits of 11.5 metres and 12 metres illustrated on Diagram 3 of By-law 1165-2022(OLT);
- (i) For the purposes of interpreting this By-law, the 11.5 metre and 12 metre height limits apply to the extent of the heritage **buildings** illustrated on Diagram 4 of By-law 1165-2022(OLT);
- (H) Despite Regulation 50.5.1.10 (3) and 50.5.40.40 (3) the permitted maximum **gross floor area** of all **buildings** and **structures** on the **lot** is 23,100 square metres, of which:
- (i) the permitted maximum **gross floor area** for residential uses is 22,800 square metres; and
- (ii) the permitted maximum **gross floor area** for non-residential uses is 6,300 square metres, excluding the **gross floor area** associated with the **public parking** use;
- (I) In addition to the elements which reduce **gross floor area** listed in Regulation 50.5.40.40(3), the following elements also reduce the **gross floor area** of a **building**:
- (i) areas used to access **parking spaces** and **loading spaces**; and
- (ii) open to below areas within the **building**, void space;
- (J) **Dwelling units** on the **lot** must include:
- (i) a minimum of 20 percent of the total number of **dwelling units** must contain two bedrooms;
- (ii) a minimum of 10 percent of the total number of **dwelling units** must contain three bedrooms; and
- (iii) in the event that the calculation of the number of proposed **dwelling units** with two or three bedrooms results in a number with a fraction, the number of **dwelling units** shall be rounded up to the next whole number;
- (K) Despite Regulation 50.10.40.50(1), **amenity space** on the **lot** must be provided at the following rates:
- (i) if the building contains a **hotel** use:
- (a) at least 3.43 square metres for each **dwelling unit** as indoor amenity space of which a minimum of 1.4 square metres per **dwelling unit** is for the exclusive use of residents, and the balance may be accessible to **hotel** users; and
- (b) at least 1.59 square metres for each **dwelling unit** as outdoor amenity space of which a minimum of 0.83 square metres per **dwelling unit** is for the exclusive use of residents, and the balance may be accessible to **hotel** users;
- (ii) if the **building** does not contain a **hotel** use:
- (a) at least 2.1 square metres for each **dwelling unit** as indoor **amenity space**; and
- (b) at least 1.9 square metres for each **dwelling unit** as outdoor **amenity space**;
- (iii) when calculating the provision in square metres of indoor **amenity space**, the area is measured as the area bounded by the interior surface of demising walls separating **amenity spaces** from other spaces and the interior surface of all exterior walls, and includes areas within the **amenity space** occupied by mechanical/utility and structural columns;
- (L) Despite Clauses 50.10.40.70, 50.10.40.71, 50.10.40.80 and 50.10.40.81 the required minimum **building setbacks** are as shown in metres on Diagram 3 of By-law 1165-2022(OLT);
- (M) A required minimum **building setback** of 10 metres from the north property line along Richmond Street West and 16 metres from the west property line must be provided at a height from 12 metres to 16 metres above the heritage **building** situated on the north portion of the **lot**, in the area of the dashed line as shown in metres on Diagram 4 of By-law 1165-2022(OLT);
- (N) A required minimum **building setback** of 11 metres from the east property line along Peter Street and 20 metres from the south property line must be provided at a height from 12 metres to 16 metres

- above the heritage **building** on the east portion of the **lot**, in the area of the dashed line as shown in metres on Diagram 4 of By-law 1165-2022(OLT);
- (O) Despite Clause 50.10.40.60 and (L), (M) and (N) above, the following elements may encroach into the required minimum **building setbacks** as follows:
- (i) lighting fixtures, signage and directory pylons, street furniture, fire hose connections, gas meters, canopies, including supporting **structures**, awnings, lighting trellises, guardrails, balustrades, railings, stairs, stair enclosures, wheel chair ramps, vents, ramps to underground parking areas and associated enclosures, piers and sun-shades, landscape and **green roof** elements, wind mitigation **structures**, covers over walkways, privacy screens, planters, fencing, bollards, safety railings, trellises, guards, retaining walls, bicycle parking facilities, ornamental or architectural features, and art installations, and cladding added to the exterior surface of a **main wall**;
  - (ii) balconies to a maximum of 1 metre;
  - (iii) cornices, sills and eaves to a maximum of 0.5 metres; and
  - (iv) equipment used for the functional operation of the heritage **building(s)** and such elements provided as part of an approved conservation plan for the heritage **building(s)**;
- (P) Despite (L), (M), (N) and (O) above, balcony encroachments are not permitted within the balcony restriction zones on the east and west sides of the **building** in the area illustrated with the hatched lines on Diagram 4 of By-law 1165-2022(OLT);
- (Q) Despite Regulations 50.5.80.10 (1), 200.5.1 (2), and 200.5.10.1 (1) and (5), Clause 200.20.10, and Table 200.5.10.1, **parking spaces** must be provided in accordance with the following:
- (i) a minimum of 0.17 residential occupant **parking spaces** for each **dwelling unit**;
  - (ii) no residential visitor **parking spaces** are required;
  - (iii) 0.2 **parking spaces** per 100 square metres of floor area for **hotel** uses up to a maximum of 14 **parking spaces**;
  - (iv) with the exception of (iii) above and (v) below, no **parking spaces** are required for non-residential uses;
  - (v) if the **building** contains a **hotel** use a minimum of 2 **parking spaces** must be provided for pick-up and drop-off for the **hotel** use; and
  - (vi) up to 35 of the residential occupant **parking spaces** required in (Q) (i) above may be provided and maintained as off-site **parking spaces** on the lands municipally known in the year 2017 as 102-118 Peter Street and 350-354 Adelaide Street West and illustrated on Diagram 1 of By-law 1471-2017;
- (R) Despite Regulation 200.5.1.10(2)(A)(iv), five of the required **parking spaces** may be obstructed on one side as described in Regulation 200.5.1.10(2)(D) without being required to provide additional width for the obstructed side of the **parking space**;
- (S) Regulation 200.5.1.10(12)(C) with respect to the width of **driveways** and the location of a **vehicle** entrance or exit does not apply;
- (T) Despite Regulation 200.5.1.10(13), access to **parking spaces** may be from a **vehicle** elevator;
- (U) Car Share:
- (i) For the purpose of this exception, "car share" means the practice whereby a number of people share the use of one or more cars that are owned and operated by a profit or non-profit car-sharing organization;
- (V) Despite Regulations 220.5.1(2) and 220.5.1.10 (1) and Clause 220.5.10.1 one (1) Type "G" **loading space** must be provided and maintained on the **lot**;
- (W) Despite of Regulation 50.10.90.40, a **loading space** may be accessed from a major street;
- (X) Despite Regulation 230.5.1.10 (4)(A)(ii) and 230.5.1.10 (4)(B)(ii), minimum width of a **bicycle parking space** may be 450 mm;
- (Y) Despite Regulation 230.5.1.10 (9)(A) (iii) and (B) (iii) required "long term" **bicycle parking spaces** may be located on any level of the **building** below-ground regardless of how much floor area is occupied by **bicycle parking spaces**.
- (Z) Despite Regulation 230.5.1.10 (10) a "short term" **bicycle parking space** may also be located in a **stacked bicycle parking space**;

(AA) A "privately owned publicly-accessible open space" with a minimum area of 100 square metres must be provided on the ground level generally as shown within the area identified on Diagram 4 of By-law 1165-2022(OLT);

- (i) for the purpose of this exception, "privately owned publicly-accessible open space" means a space on the **lot** situated at ground level that is accessible to the public, secured through appropriate legal agreements and may include pedestrian walkways, seating areas, landscaped plaza, landscape elements, short term bicycle parking required by By-law 1165-2022(OLT), and is used principally for the purpose of sitting, standing and other recreational purposes.

(BB) Section 600.10 Building Setback Overlay District Map does not apply;

(CC) Regulation 50.10.40.30(1) does not apply;

(DD) Regulation 50.10.40.1(4)(A) does not apply;

(52) Exception CRE 52

The lands, or a portion thereof as noted below, are subject to the following Site Specific Provisions, Prevailing By-laws and Prevailing Sections:

Site Specific Provisions:

- (A) On 23 Buckingham Street, as shown on Diagram 1 of By-law 682-2023(OLT), if the requirements of Section 6 and Section A of By-law 682-2023(OLT), are complied with, one or more **mixed-use buildings** may be constructed in compliance with Regulations (B) through (V) below;
- (B) Despite Regulation 50.10.20, **Public Parking** is a permitted use;
- (C) Despite Regulation 50.10.40.30, no portion of any **building** or **structure** erected or used above ground will be located otherwise than wholly within the lines delineating the height areas on Diagram 3;
- (D) Despite Regulation 50.5.40.10(1), the height of a **building** or **structure**, is measured as the vertical distance between the Canadian Geodetic Datum elevation of 95.95 metres and the highest point of the **building** or **structure**;
- (E) Despite Regulation 50.10.40.10(1), the permitted maximum height of a **building** or **structure** is the number, in metres, following the letters "HT" as shown on Diagram 3 of By-law 682-2023(OLT);
  - (i) For the purposes of this exception, the permitted maximum height of a **building** or **structure** is inclusive of the mechanical penthouse;
- (F) Despite Regulation 50.10.40.10(4), the permitted maximum number of **storeys** of a **building** or **structure** is the number following the letters "ST" as shown on Diagram 3 of By-law 682-2023(OLT);
  - (i) For the purposes of this exception, a mechanical penthouse and rooftop vestibule do not constitute a **storey**;
- (G) Despite Regulation 50.5.40.10 and (E) and (F) above the following elements of a **building** or **structure** may project above the permitted maximum **building** heights shown on Diagram 3 of By-law 682-2023(OLT):
  - (i) equipment used for the functional operation of the **building** such as mechanical and ventilation equipment, elevator over-runs, chimneys and vents by a maximum of 3.0 metres beyond the permitted maximum height of the mechanical penthouse;
  - (ii) fences, raised planters, **landscaping** features, light fixtures, guardrails associated with an outdoor **amenity space** by a maximum of 3.0 metres;
  - (iii) railings located at each of the roof levels of the **building** by a maximum of 1.1 metres;
  - (iv) a parapet, including roof drainage, thermal insulation and roof ballast, at each of the roof levels of the **building** by a maximum of 1.2 metres;
  - (v) elements associated with a **green roof** by a maximum of 0.5 metres;
  - (vi) **structures** used for outside or open air recreation, safety or wind protection purposes by a maximum of 3.0 metres;
  - (vii) spires, ornamental, decorative or architectural elements, located above the height of each of the roof levels by a maximum of 7.0 metres; and

- (viii) window washing equipment, lightning rods and exhaust flues located above the mechanical penthouse roof level by a maximum of 1.2 metres.
- (H) The permitted maximum **gross floor area** of all **buildings** and **structures** on the **lot** is 55,700 square metres, of which:
- (i) the permitted maximum **gross floor area** for residential uses is 50,350 square metres; and
  - (ii) the required minimum **gross floor area** for non-residential uses is 5,350 square metres.
- (I) For greater clarity:
- (i) a minimum of 3,500 square metres of non-residential **gross floor area** must be provided and maintained on the **lot** provided the total **gross floor area** does not exceed 30,000 square metres; and
  - (ii) an additional minimum of 1,850 square metres of non-residential **gross floor area** must be provided on the **lot** for an aggregate total of 5,350 square metres of non-residential **gross floor area** with the phase of development that results in a total **gross floor area** exceeding 30,000 square metres.
- (J) Despite Regulation 50.10.40.70, the required minimum **building setbacks** are as shown on Diagram 3 of By-law 682-2023(OLT);
- (K) Despite Sections 50.10.40.60 and 50.10.40.70 and (J) above, the following **building** elements and **structures** may encroach into the required minimum **building setbacks** shown on Diagram 3 of By-law 682-2023(OLT):
- (i) eaves, cornices, columns, public art features, light fixtures, stairs and stair enclosures, balustrades, guardrails, bollards, awnings, arcades, canopies, raised planters, patios, retaining walls, fences, vents, screens, wind mitigation screens and features, underground garage ramp and associated **structures**, damper equipment; window washing equipment to a maximum of 2.5 metres;
  - (ii) balconies and bay windows to a maximum of 1.8 metres;
  - (iii) **structures** used for outside or open air recreation, safety or wind protection, to a maximum of 1.6 metres; and
  - (iv) ornamental, decorative or architectural elements to a maximum of 3.1 metres;
- (L) Despite Regulation 50.10.40.50, indoor **amenity space** must be provided at a minimum rate of 2.0 square metres for each **dwelling unit** on the **lot** and may be provided in a multi-purpose room or rooms, whether or not these rooms are contiguous, with at least one washroom and kitchen;
- (M) Despite Regulation 50.10.40.50, outdoor **amenity space** must be provided at a minimum rate of 2.0 square metres for each **dwelling unit** on the **lot**;
- (N) Despite Regulation 200.5.10.1(1) and Table 200.5.10.1, the required number of **parking spaces** provided and maintained on the **lot** are not to be less than the number calculated in accordance with the following minimum ratios, (fractions to be rounded down to the closest whole number), and must be located in the underground parking **structure**, with the exception of a maximum of 5 layby **parking spaces** located at grade, marked for short-term delivery, service or pickup and drop-off **vehicles**:
- (i) a minimum of 0.34 **parking spaces** per **dwelling unit** is required to be provided for use by residents;
  - (ii) a minimum of 0.09 **parking spaces** per **dwelling unit** is required to be provided for use by residential visitors;
  - (iii) a minimum of 1.5 **parking spaces** per 100 square metres of **retail store gross floor area** is required to be provided;
  - (iv) a minimum of 1.0 **parking spaces** per 100 square metres of commercial and office **gross floor area** is required to be provided; and
  - (v) any **parking spaces** required in (N)(ii), (iii) and (iv) above may be provided and shared with a **public parking** use, with or without a fee.
- (O) Despite Regulation 200.5.10(1) and Table 200.5.10.1, the number of resident **parking spaces** required to be provided pursuant to the above-noted ratio in (N)(i), **parking spaces** for residents on the **lot** may be reduced at a rate of 4 **parking spaces** for each "car-share parking space", provided the maximum permitted reduction is calculated using the following formula: 4 x (total number of **dwelling units** divided by 60), rounded down to the nearest whole number;

- (i) "car-share" means the practice whereby a number of people share the use of one or more motor **vehicles** that are owner by a profit or non-profit carsharing organization and such car-share motor **vehicles** are made available to at least the occupants of the **building** or short term rental, including hourly rental;
  - (ii) "car-share parking space" means a **parking space** exclusively reserved and signed for a car used only for car-share purposes
- (P) Despite Regulation 200.5.10.1(12) and (N)(i) above, the total minimum number of **parking spaces** required for residents on the **lot** may be reduced at a rate of 1 **parking space** for every 5 **bicycle parking spaces** provided in excess of the minimum number of **bicycle parking spaces** required if the reduction of **parking spaces** is not greater than 20 percent of the total minimum **parking spaces** required;
- (Q) Despite Article 200.15.10, a minimum of 5 accessible **parking spaces** plus 1 accessible **parking space** for every 50 **parking spaces** or part thereof in excess of 100 **parking spaces** are required to be provided on the same **lot** as every **building** or **structure** erected or enlarged;
- (R) Despite Regulation 200.15.1(1) and (3), an accessible **parking space** must have the following minimum dimensions:
- (i) length of 5.6 metres;
  - (ii) width of 3.4 metres;
  - (iii) vertical clearance of 2.1 metres; and
  - (iv) a 1.5 metre wide accessible barrier-free aisle or path is required along the entire length of one side of an accessible **parking space**.
- (S) Despite Regulation 220.5.10.1, a total of 6 **loading spaces** are required to be provided and maintained on the **lot**, and may be shared between all uses. For greater clarity:
- (i) a minimum of 1 Type "G" **loading space**, 1 Type "B" **loading space** and 2 Type "C" **loading spaces** are required to be provided and maintained on the **lot** provided the total **gross floor area** does not exceed 30,000 square metres; and
  - (ii) a minimum of 2 additional **loading spaces** are required to be provided on the **lot** for an aggregate total of 6 **loading spaces** with the phase of development that results in a total **gross floor area** exceeding 30,000 square metres, which must include 1 Type "G" **loading space** and 1 Type "B" **loading space**.
- (T) Despite Regulation 230.5.1.10(9), a "long-term" **bicycle parking space** may be located within the **building** or outside, including on any level of the **building** below-ground, within a secured room, enclosure or unenclosed space or any combination thereof, or bicycle locker;
- (U) Despite Regulation 230.50.1.20(2), a "short-term" **bicycle parking space** may be located more than 30 metres from a pedestrian entrance to the **building** on the **lot** and may be located in an unsecured room;
- (V) The **building(s)** may be constructed in phases;

(53) Exception CRE 53

The lands, or a portion thereof as noted below, are subject to the following Site Specific Provisions, Prevailing By-laws and Prevailing Sections.

Site Specific Provisions:

- (A) On 25 Audley Street, as shown on Diagram 1 of By-law 685-2023(OLT), if the requirements of Section 6 and Schedule A of By-law 685-2023(OLT), are complied with, one of more **mixed-use buildings** may be constructed in compliance with Regulations (B) through (R) below;
- (B) Despite Regulation 50.10.20, **Public Parking** is a permitted use;
- (C) Despite Regulation 50.10.40.10(1), the height of a **building** or **structure** is measured as the vertical distance between the Canadian Geodetic Datum elevation of 97.0 metres and the highest point of the **building** or **structure**;
- (D) Despite Regulation 50.10.40.10(1), the permitted maximum height of a **building** or **structure** is the number, in metres, following the letters "HT" as shown on Diagram 3 of By-law 685-2023(OLT);

- (i) For the purposes of this exception, the permitted maximum **height** of a **building** or **structure** is inclusive of the mechanical penthouse;
- (E) Despite Regulation 50.10.40.10(4), the permitted maximum number of **storeys** of a **building** or **structure** is the number following the letters "ST" as shown on Diagram 3 of By-law 685-2023(OLT);
  - (i) For the purposes of this exception, the mechanical penthouse, does not constitutes a **storey**.
- (F) Despite Regulation 50.5.40.10 and (D) and (E) above, the following elements of a **building** or **structure** may project above the permitted maximum **building** heights shown on Diagram 3 of By-law 685-2023(OLT):
  - (i) fences, raised planters, **landscaping** features, light fixtures, and guardrails associated with an outdoor amenity space by a maximum of 3.0 metres;
  - (ii) railings located at each of the roof levels of the building by a maximum of 1.1 metres;
  - (iii) a parapet, including roof drainage, thermal insulation and roof ballast, at each of the roof levels of the building by a maximum of 1.2 metres;
  - (iv) elements associated with a **green roof** by a maximum of 0.5 metres;
  - (v) structures used for outside or open air recreation, safety or wind protection purposes by a maximum of 3.0 metres;
  - (vi) spires, ornamental, decorative or architectural elements located above the height of each of the roof levels by a maximum of 7.0 metres;
  - (vii) window washing equipment, lightning rods and exhaust flues located above the mechanical roof level by a maximum of 3.0 metres;
- (G) The permitted maximum **gross floor area** of all **buildings** and **structures** on the **lot** is 32,500 square metres, of which:
  - (i) the permitted maximum **gross floor area** for residential uses is 30,150 square metres; and
  - (ii) the required minimum **gross floor area** for non-residential uses is 2,059 square metres;
- (H) Despite Clause 50.10.40.70, the required minimum **building setbacks** are as shown on Diagram 3 of By-law 685-2023(OLT);
- (I) Despite Clauses 50.10.40.60 and 50.10.40.70 and (H) above, the following **building** elements and **structures** may encroach into the required minimum **building setbacks** shown on Diagram 3 of By-law 685-2023(OLT):
  - (i) eaves, cornices, columns, landscape and public art features, light fixtures, balustrades, guardrails, bollards, awnings, arcades, raised planters, retaining walls, fences, vents, signs, screens, damper equipment and window washing equipment by a maximum of 1.2 metres;
  - (ii) wheelchair ramps, stairs and stair enclosures, underground parking ramp and associated structures by a maximum of 3.0 metres;
  - (iii) balconies, platforms, and bay windows by a maximum of 2.0 metres;
  - (iv) **structures** used for outside or open air recreation, safety or wind protection by a maximum of 1.6 metres; and
  - (v) ornamental, decorative or architectural elements by a maximum of 3.1 metres;
- (J) Despite (F) and (I) above, the following development standards apply to the lands 6.75 metres north of the new south property line as shown on Diagram 3 of By-law 685-2023(OLT):
  - (i) No ground mounted signage is permitted;
  - (ii) Only street furniture, moveable furniture, fences/guards and other similar items or fixtures to accommodate commercial patios are permitted up to a maximum vertical dimension of 1.1 metres above the finished ground level; and
  - (iii) The provisions in (J)(i) and (ii) above do not apply to prevent lighting, wind mitigation, landscaping, and other pedestrian features that may be required by the City in this area;
- (K) A minimum of 25 percent of the total number of **dwelling units** on the **lot** must have two or more bedrooms, of which a minimum of 10 percent of the total number of **dwelling units** on the **lot** must have three or more bedrooms;

- (L) The permitted maximum **gross floor area** of the tower floor plate for the 9th **storey** to the 26th **storey** inclusive, as measured from the exterior of the **main wall** on each **storey** is 760 square metres, excluding balconies;
- (M) Despite Clause 50.10.40.50, **amenity space** must be provided at a minimum rate of 4.0 square metres for each **dwelling unit** and may be provided as either indoor space, outdoor space or a combination thereof and does not need to be contiguous;
- (N) Despite Regulation 200.5.10.1(1) and Table 200.5.10.1, the required number of **parking spaces** provided and maintained on the **lot** are not to be less than the number calculated in accordance with the following minimum ratios (fractions rounded down to the closest whole number), and must be located in the underground parking **structure**:
- (i) a minimum of 0.34 **parking spaces** per **dwelling unit** is required to be provided for use by residents;
  - (ii) a minimum of 0.09 **parking spaces** per **dwelling unit** is required to be provided for use by residential visitors;
  - (iii) a minimum of 1.0 **parking spaces** per 100 square metres of nonresidential **gross floor area** is required to be provided; and
  - (iv) any **parking spaces** required in (N)(ii) and (iii) above may be provided and shared with a **public parking** use;
- (O) Despite Regulation 200.5.10(1) and Table 200.5.10.1, the total number of resident **parking spaces** provided pursuant to the above-noted ratio in (N)(i), **parking spaces** for residents on the **lot** may be reduced by a rate of 4 **parking spaces** for each car-share **parking space**, provided the maximum permitted reduction is calculated using the following formula:  $4 \times (\text{total number of dwelling units divided by } 60)$ , rounded down to the nearest whole number;
- (i) "car-share" means the practice whereby a number of people share the use of one or more motor vehicles that are owned by a profit or non-profit carsharing organization and such car-share motor vehicles are made available to at least the occupants of the building or short term rental, including hourly rental;
  - (ii) "car-share **parking space**" means a **parking space** exclusively reserved and signed for a car used only for car-share purposes;
- (P) Despite Regulation 200.5.10.1(12) and (N)(i) above, the total minimum number of **parking spaces** required for residents on the **lot** may be reduced at a rate of 1 **parking space** for every 5 **bicycle parking spaces** provided in excess of the minimum number of **bicycle parking spaces** required, if the reduction of **parking spaces** is not greater than 20 percent of the total minimum **parking spaces** required;
- (Q) Despite Regulation 200.15.1(1) and (3), an accessible **parking space** must have the following minimum dimensions:
- (i) length of 5.6 metres;
  - (ii) width of 3.4 metres;
  - (iii) vertical clearance of 2.1 metres; and
  - (iv) a 1.5 metre wide accessible barrier-free aisle or path is required along the entire length of one side of an accessible **parking space**;
- (R) Despite Regulation 220.5.10.1(2), a minimum of 1 Type "G" **loading space** is required and may be shared between all uses on the **lot**.

Site Specific Provisions:

- (A) On 301-319 King Street West, if the requirements in Section 7 and Schedule A of By-law 87-2023(OLT) are complied with a **building** or **structure** may be constructed, used or enlarged in compliance with (B) to (N) below.

- (B) The combined residential **gross floor area** and non-residential **gross floor area** on the **lot** shall not exceed 32,000 square metres, provided that:
- (i) The residential **gross floor area** on the **lot** does not exceed 28,600 square metres; and
  - (ii) The non-residential **gross floor area** of the **building** shall not exceed 3,400 square metres.
- (C) Despite Regulation 50.10.40.1(1), the elevation of the first **storey** of the **building** must be at or within 0.75 metres above the height of the public sidewalk abutting the site.
- (D) Despite Regulations 50.5.40.10(1) and 50.5.40.10(2), the height of a **building** or **structure** is the distance between the Canadian Geodetic Datum elevation of 85.68 metres and the elevation of the highest point of the **building** or **structure**.
- (E) Despite Clauses 50.5.40.10 and 50.10.40.10, the height of each portion of a **building** or **structure** must not exceed the height in metres as specified by the numbers following the symbol HT as shown on Diagram 3 of By-law 87-2023(OLT) except for the following projections:
- (i) Antennae, architectural features, bollards, canopies, chimneys, cornices, eaves, fences, **green roof**, guardrails, landscape and public art features, lighting fixtures, ornamental elements, parapets, pipes, planters, railings, retaining walls, screens, soffits, stacks, stairs, stair enclosures, terraces, trellises, vents, wind protection, window sills, window washing equipment, and the erection or use of **structures** on any roof used for outside or open air recreation, including **amenity space**, and for maintenance, safety, wind or **green roof** purposes, to a maximum of 2.0 metres; and
  - (ii) Enclosures housing mechanical elements and ducts, elevators, elevator enclosures and overruns and associated **structures** to a maximum of 5.0 metres.
- (F) Despite Regulation 50.5.40.70(1), Clause 50.10.40.70 and Section 600.10, the required minimum **building setbacks** above ground are as shown in metres on Diagram 3 of By-law 87-2023(OLT); and
- (i) where **building setbacks** are shown as "Average" on Diagram 3 of By-law 87-2023(OLT), the average **building setback** must be equal to or greater than the required minimum **building setback** shown on Diagram 3.
- (G) Despite Clauses 50.5.40.70 and 50.10.40.70 and Section 600.10, the following **building** elements and **structures** are permitted to encroach into the required minimum **building setbacks** shown on Diagram 3 of By-law 87 2023(OLT):
- (i) Architectural features, awnings, bicycle racks, canopies, cornices, decks, eaves, landscape and public art features, lighting fixtures, ornamental elements, planters, platforms, porches, retaining walls, signage, soffits, stairs, stair enclosures, terraces, underground garage ramps and their associated **structures**, walkways, wheel chair ramps, wind protection, window sills, window washing equipment, and the erection or use of **structures** on any roof used for outside or open air recreation, including **amenity space**, and for maintenance, safety, wind or **green roof** purposes, to a maximum of 2.0 metres;
  - (ii) Enclosures housing mechanical elements and ducts, elevators, elevator enclosures and associated **structures** to a maximum of 5.0 metres; and
  - (iii) Balconies and enclosed balconies are permitted to project beyond the heavy lines shown on Diagram 3 for the **main walls** as indicated on Diagram 3.
- (H) Clause 50.10.50.80 regarding the separation of **main walls** does not apply.
- (I) Despite Regulation 200.5.10.1(1), **parking spaces** must be provided in accordance with the following:
- (i) a minimum of 0.15 **parking spaces** per **dwelling unit** for residents;
  - (ii) a minimum of 0.07 **parking spaces** per **dwelling unit** for residential visitors; and
  - (iii) a minimum of 7 **parking spaces** for non-residential uses.
- (J) Despite Regulation 200.15.1(4) accessible **parking spaces** must be located on the same level as a barrier free passenger elevator that provides access to the first **storey** of the **building**.
- (K) Despite Regulation 220.5.10.1(1), a minimum of 1 Type "B" **loading space** and a minimum of 1 Type "G" **loading space** must be provided.
- (L) Despite Regulation 230.5.1.10(7), shower and change facilities are not required.
- (M) Despite Regulation 230.5.10.1(1), **bicycle parking spaces** must be provided in accordance with the following:

- (i) the minimum number of "short-term" **bicycle parking spaces** to be provided is 3 plus 0.2 **bicycle parking spaces** for each 100 square metres of non-residential **gross floor area**; and
- (ii) the minimum number of "long-term" **bicycle parking spaces** to be provided is 0.2 **bicycle parking spaces** for each 100 square metres of nonresidential **gross floor area**.

(N) Section 600.20 regarding priority retail streets does not apply.

(55) Exception CRE 55

The lands, or a portion thereof as noted below, are subject to the following Site Specific Provisions, Prevailing By-laws and Prevailing Sections.

Site Specific Provisions:

- (A) On 582-590 King Street West, 471-473 Adelaide Street West and 115 Street, if the requirements of By-law 1116-2022(OLT) are complied with, **buildings** and **structures** in compliance with (B) to (V) below may be erected or used;
- (B) The **lot** consists of those lands shown on the attached Diagram 1 of By-law 1116-2022(OLT);
- (C) In addition to the non-residential uses permitted in regulation 50.10.20.10(1)(A), **public parking** is also permitted;
- (D) The permitted maximum non-residential **gross floor area** of all **buildings** and **structures** is 37,500 square metres;
- (E) Despite regulation 50.5.40.10(1), the height of a **building** or **structure** is measured from the Canadian Geodetic Datum elevation of 89.29 metres to the highest point of a **building** or **structure**;
- (F) Despite regulations 50.10.40.10(1) and (2), the permitted maximum height of a **building** or **structure**, including the mechanical penthouse at a height of 51.95 metres, is the number in metres following the letters "HT" as shown on Diagram 3 of By-law 1116-2022(OLT);
- (G) Despite regulation 50.10.40.10(4), the permitted maximum number of **storeys** in a **building** is the number following the ST symbol as shown on Diagram 3 of By-law 1116-2022(OLT);
- (H) Despite (F) above, and regulations 50.5.40.10(4), (5), (6), (7), and (8), the following equipment or **structures** may project beyond the permitted maximum height shown on Diagram 3 of By-law 1116-2022(OLT) as follows:
  - (i) Elevator shafts, elevator overrun, elevator machine room, enclosed stairwells, and access ladders to a maximum of 8.5 metres;
  - (ii) Electrical or utility equipment, window washing equipment, cooling tower, air handlers, exhaust fans, maintenance equipment storage, chimneys, vents, and water supply facilities, and **structures** that enclose, screen or cover the elements listed above, to a maximum of 1.5 metres;
  - (iii) Parapets, railings, dividers, architectural features ornamental elements, canopies, guard rails, lightning rods, privacy screens, insulation and roof surface materials, **building** equipment and noise and wind mitigation **structures**, to a maximum of 3.0 metres; and
  - (iv) **Landscaping** features and **structures** used for outdoor **amenity space** or open air recreation, terraces, trellises, roof drainage, noise and wind mitigation **structures**, and planting and other **landscaping structures** or elements of a **green roof**, to a maximum of 3.0 metres.
- (I) Despite clauses 50.5.40.70, 50.10.40.70 and 50.10.40.80, the required minimum **building setbacks** and minimum above-ground distance between **main walls** are shown in metres on Diagrams 3, 4 and 4.A – 4.H of By-law 1116-2022(OLT);
- (J) Despite (I) above, and regulation 50.10.40.70(1), and clauses 50.5.40.60 and 50.10.40.60, the following elements may encroach into the required minimum **building setbacks** and **main wall** separation distances as follows:
  - (i) Ornamental and architectural elements, window projections, window washing equipment, mechanical and privacy screens, mechanical equipment, fences, patios, decks, pillars, terraces, planters, trellises, railings, guard rails, balustrades, stairs, stair enclosures, wheelchair ramps, site servicing, art and landscape features and awnings, to a maximum of 3.0 metres;
  - (ii) Canopies and underground garage ramps to a maximum of 4.0 metres; and

- (iii) Cornices, parapets, lighting fixtures, window sills, eaves, vents and stacks, ventilation shafts, to a maximum of 1.0 metre.
- (K) Regulation 50.10.40.30(1), with respect to maximum **building depth**, does not apply;
- (L) Despite Regulation 200.5.10.1(1) and Table 200.5.10.1, a maximum of 122 **parking spaces** are required on the lot;
- (M) Despite Regulation 200.5.1.10(2), any **parking spaces** provided on the **lot** within an "automated parking system" may have a minimum width of 2.6 metres, and be obstructed on one side, without being required to provide additional width of 0.3 metres for the obstructed sides of the **parking space**;
  - (i) for the purpose of this exception, an "automated parking system" means a mechanical system for the purpose of parking and retrieving **vehicles** with or without drivers in the **vehicle** during parking and without the use of ramping or **drive aisles**, and where automated maneuvering of other **vehicles** may be required for **vehicles** to be parked or retrieved.
- (N) Despite Regulation 200.5.1.10(2)(D), Electric Vehicle Infrastructure, including electrical **vehicle** supply equipment, does not constitute an obstruction to a **parking space**;
- (O) Regulations 200.5.1.10(5), (6) and (14) do not apply to **parking spaces** in an "automated parking system";
- (P) Despite Regulation 200.15.10(1) and Clauses 200.15.10.5 and 200.15.10.10, accessible **parking spaces** are not required;
- (Q) Despite 200.5.1.10(13), access to **parking spaces** may be provided by an "automated parking system";
- (R) Regulations 200.5.1(3) and (12) do not apply to an "automated parking system", provided that the access to the elevating mechanism enclosure of the "automated parking system" complies with the following minimum dimensions:
  - (i) Length of 5.6 metres;
  - (ii) Width of 3.4 metres;
  - (iii) Vertical clearance of 2.1 metres; and
  - (iv) the entire length of the elevating mechanism enclosure must be adjacent to a 1.5 metre wide accessible barrier free aisle or path.
- (S) Despite regulation 230.5.1.10(9)(A), "long-term" and "short-term" **bicycle parking spaces** for non-residential uses may be located at grade, the ground floor and/or in a P1 level on any level above or below ground in the **building**;
- (T) Despite regulation 230.5.10.1(1) and Table 230.5.10.1(1):
  - (i) a minimum of 64 **bicycle parking spaces** must be provided as "long-term" **bicycle parking spaces**; and
  - (ii) a minimum of 28 **bicycle parking spaces** must be provided as "short-term" **bicycle parking spaces**.
- (U) Despite regulations 50.10.90.10(1), 220.5.10.1 (3), (4), (5), (8), and article 220.20.1, a minimum of two Type "B" **loading spaces** and two Type "C" **loading spaces** must be provided and maintained; and
- (V) Section 600.10 with respect to **building setbacks** for **buildings** in the downtown, does not apply.

(59) Exception CRE 59

The lands, or a portion thereof as noted below, are subject to the following Site Specific Provisions, Prevailing By-laws and Prevailing Sections:

Site Specific Provisions:

- (A) On 2 and 10 Audley Street and 29, 31, 59 and 71 Portland Street, as shown on Diagram 1 of By-law 684-2023(OLT), if the requirements of Section 6 and Section A of By-law 684-2023(OLT) are complied with, **buildings** or **structures** may be constructed in compliance with Regulations (B) to (S) below;
- (B) Despite Regulation 50.5.40.10(1), the height of the **building** or **structure** is measured as the vertical distance between the Canadian Geodetic Datum elevation of 95.40 metres and the highest point of the **building** or **structure**;
- (C) Despite Regulation 50.10.20, **Public Parking** is a permitted use, if located entirely below ground;
- (D) Despite Regulation 50.10.40.10(1), the permitted maximum height of a **building** or **structure** is the number, in metres, following the letters "HT" as shown on Diagram 3 of By-law 684-2023(OLT);
  - (i) For the purposes of this exception, the permitted maximum height of a **building** or **structure** is inclusive of the mechanical penthouse;
- (E) Despite Regulation 50.10.40.10(4), the permitted maximum number of **storeys** of a **building** or **structure** is the number following the letters "ST" as shown on Diagram 3 of By-law 684-2023(OLT);
  - (i) For the purposes of this exception, a mezzanine and mechanical penthouse do not constitute a **storey**;
- (F) Despite Regulations 50.5.40.10(3), (4), (5) and (6) and (D) above, the following elements of a **building** or **structure** may project above the permitted maximum **building** heights as shown on Diagram 3 of By-law 684-2023(OLT):
  - (i) fences, raised planters, landscape features, light fixtures, seating, bollards, trellises and guardrails associated with an outdoor **amenity space** by a maximum height of 3.0 metres;
  - (ii) a railing or railings, balcony dividers, fences, or privacy gates and skylights located at each of the roof levels of the **building** by a maximum of 1.8 metres;
  - (iii) a parapet, including roof drainage, thermal insulation and roof ballast, at each of the roof levels of the **building** by a maximum of 1.5 metres;
  - (iv) elements associated with a **green roof** by a maximum of 0.5 metres;
  - (v) elements or **structures** used for outside or open air recreation, safety, acoustic or wind protection purposes by a maximum of 3.0 metres;
  - (vi) stairs, stair enclosures, stair towers, access corridors to stairs and elevator overruns by a maximum of 4.0 metres;
  - (vii) spires, ornamental, decorative, art or architectural elements, and features, located above the height of each of the roof levels by a maximum of 7.0 metres; and
  - (viii) window washing equipment, lightning rods and exhaust flues located above the mechanical penthouse roof level by a maximum of 3.0 metres;

- (G) The permitted maximum **gross floor area** of all **buildings** and **structures** on the **lot** is 71,700 square metres, of which:
- (i) the permitted maximum **gross floor area** for residential uses is 68,550 square metres; and
  - (ii) the required minimum **gross floor area** for non-residential uses is 3,067 square metres, of which 800 square metres is the minimum required **gross floor area** for a **day nursery** and 1,503 square metres is the minimum **gross floor area** for office;
- (H) In addition to the elements which reduce **gross floor area** listed in Regulation 50.5.40.40(3), the following element also reduces the **gross floor area** of a **building**:
- (i) elevator overruns;
- (I) Despite Regulations 50.10.40.70(1) and (3) the required minimum **building setbacks** are as shown on Diagram 3 of By-law 684-2023(OLT);
- (J) Despite Sections 50.5.40.60 and 50.10.40.60, and (I) above, the following **building** elements may encroach into the required minimum **building setbacks** as shown on Diagram 3 of By-law 684-2023(OLT);
- (i) eaves, bulkheads, cornices, window sills, doors, columns, landscape and public art features, light fixtures, balustrades, guardrails, bollards, awnings, arcades, raised planters, patios, retaining walls, fences, vents, trellises, parapets, architectural frames, screens, wind mitigation screens and features, landscape features and seating areas, patios, terraces, damper equipment, and window washing equipment by a maximum of 1.2 metres;
  - (ii) wheelchair and covered ramps, stairs and stair enclosures, vestibules, awnings, canopies, underground parking ramp and associated **structures** by a maximum of 3.0 metres;
  - (iii) balconies and bay windows to a maximum of 2.0 metres;
  - (iv) **structures** used for outside or open air recreation, safety or wind protection, to a maximum of 2.6 metres; and
  - (v) ornamental, decorative or architectural elements by a maximum of 3.1 metres;
- (K) The permitted maximum **gross floor area** of the tower floor plate as measured from the exterior of the **main wall** on each **storey**, for the 9th **storey** to the 24th **storey** inclusive, is 838 square metres for Tower A, excluding balconies, and for the 9th **storey** to 20th **storey** inclusive, is 812 square metres for Tower B, excluding balconies, as shown on Diagram 3 of By-law 684-2023(OLT);
- (L) Despite Regulation 50.10.40.50, **amenity space** must be provided at a minimum rate of 1.5 square metres of indoor **amenity space** per **dwelling unit** provided that the minimum combined indoor and outdoor **amenity space** per **dwelling unit** is 4.0 metres;
- (M) Despite Regulation 200.5.10.1(1) and Table 200.5.10, the required number of **parking spaces** provided and maintained on the **lot** are not to be less than the number calculated in accordance with the following minimum ratios (fractions to be rounded down to the closest whole number), and must be located in the underground parking **structure**:
- (i) a minimum of 0.34 **parking spaces** per **dwelling unit** is required to be provided for use by residents;
  - (ii) a minimum of 0.09 **parking spaces** per **dwelling unit** is required to be provided for use by residential visitors;
  - (iii) a minimum of 1.0 parking spaces per 100 square metres of nonresidential **gross floor area** is required to be provided; and
  - (iv) any **parking spaces** required in (M) ii. and iii. above may be provided and shared within a **public parking** use, with or without a fee;
- (N) Despite Regulation 200.5.10(1) and Table 200.5.10.1, the total number of resident **parking spaces** provided pursuant to the above-noted ratio in (M) i., parking spaces for residents on the **lot** may be reduced at a rate of 4 **parking spaces** for each car-share **parking space**, provided the maximum permitted reduction is calculated using the following formula:  $4 \times (\text{total number of dwelling units divided by } 60)$ , rounded down to the nearest whole number;
- (i) "car-share" means the practice whereby a number of people share the use of one or more motor **vehicles** that are owned by a profit or non-profit carsharing organization and such car-share motor **vehicles** are made available to at least the occupants of the **building** or short term rental, including hourly rental;

- (ii) "car-share parking space" means a **parking space** exclusively reserved and used only for car-share purposes whereby the **vehicle** is accessible to at least the occupants of the **buildings**;
- (O) Despite Regulation 200.5.10.1(12) and (M) i. above, the total minimum number of **parking spaces** required for residents on the **lot** may be reduced at a rate of 1 **parking space** for every 5 **bicycle parking spaces** provided in excess of the minimum number of **bicycle parking spaces** required, if the reduction of **parking spaces** is not greater than 20 percent of the total minimum **parking spaces** required;
- (P) Despite Article 220.5.10, one Type "G" **loading space** and one Type "C" **loading space** are required to be provided and maintained on the **lot**;
- (Q) Despite Regulation 230.5.1.10(4), the minimum horizontal dimension for **bicycle parking spaces** in a vertical position or in a bicycle stacker is 0.45 metres;
- (R) Despite Regulation 230.5.1.10(9), "long term" **bicycle parking spaces** may be located outdoors or indoors, on the ground level, below grade or above grade;
- (S) Despite Regulation 230.5.10.1, the number of **bicycle parking spaces** provided and maintained on the **lot** must in accordance with the following minimum rates:
  - (i) 0.68 "long-term" **bicycle parking spaces** per **dwelling unit** are required to be provided on the **lot**;
  - (ii) 0.07 "short-term" **bicycle parking spaces** per **dwelling unit** are required to be provided on the **lot**;
  - (iii) 3 "short term" **bicycle parking spaces** plus 0.15 **bicycle parking spaces** for each 100 square metres of **interior floor area** used for commercial and office uses are required to be provided on the **lot**;
  - (iv) 0.13 "long term" **bicycle parking spaces** per 100 square metres of **interior floor area** used for commercial and office uses are required to be provided on the **lot**;
  - (v) 3 "short term" **bicycle parking spaces** plus 0.25 **bicycle parking spaces** for each 100 square metres of **interior floor area** used for **retail uses** are required to be provided on the **lot**; and
  - (vi) 0.13 "long term" **bicycle parking spaces** per 100 square metres of **interior floor area** used for **retail uses** are required to be provided on the **lot**.

  - (iii) balconies and bay windows by a maximum of 2.0 metres, with the exception of balconies and bay windows on the east **building** face which are not permitted to project within 18.5 metres of the eastern property line;
  - (iv) **structures** used for outside or open air recreation, safety or wind protection, to a maximum of 2.6 metres; and
  - (v) ornamental, decorative or architectural elements by a maximum of 3.1 metres;

- (K) Despite (F) and (J) above, the following development standards apply to the lands identified as "Area Subject to Provision K" on Diagram 3 of By-law 683-2023(OLT);
- (i) No ground mounted third party and/or non-Privately Owned Publicly Accessible Spaces (POPS) signs are permitted;
  - (ii) Only street furniture, moveable furniture, fences/guards and other similar items or fixtures to accommodate commercial patios are permitted up to a maximum vertical dimension of 1.1 metres above the finished ground level; and
  - (iii) The provisions in (K) i. and ii. above do not apply to prevent lighting, wind mitigation, **landscaping** and other pedestrian features that may be required by the City in this area;
- (L) Despite Regulation 50.10.40.50, **amenity space** must be provided at a minimum rate of 2.8 square metres of combined indoor and outdoor **amenity space** per **dwelling unit**;
- (M) Despite Regulation 200.5.10.1(1) and Table 200.5.10, the required number of **parking spaces** provided and maintained on the **lot** are not to be less than the number calculated in accordance with the following minimum ratios (fractions to be rounded down to the closest whole number), and must be located in the underground parking **structure**:
- (i) a minimum of 0.34 **parking spaces** per **dwelling unit** is required to be provided for use by residents;
  - (ii) a minimum of 0.09 **parking spaces** per **dwelling unit** is required to be provided for use by residential visitors; and
  - (iii) **parking spaces** for non-residential uses are not required;
- (N) Despite 50.5.80.1(1) and (M) above, required **parking spaces** may be provided on a **lot** that is not the same **lot** as the use for which the **parking spaces** are required, provided that the **parking spaces** are located on the lands municipally known in 2021 as 2 and 10 Audley Street and 29, 31, 59 and 71 Portland Street;
- (O) Despite Regulation 200.5.10(1) and Table 200.5.10.1, the total number of resident **parking spaces** provided pursuant to the above-noted ratio in (M) i., **parking spaces** for residents on the **lot** may be reduced at a rate of 4 **parking spaces** for each car-share parking space, provided the maximum permitted reduction is calculated using the following formula:  $4 \times (\text{total number of dwelling units divided by } 60)$ , rounded down to the nearest whole number;
- (i) "car-share" means the practice whereby a number of people share the use of one or more motor **vehicles** that are owner by a profit or non-profit carsharing organization and such car-share motor **vehicles** are made available to at least the occupants of the **building** or short term rental, including hourly rental;
  - (ii) "car-share parking space" means a **parking space** exclusively reserved and used only for car-share purposes whereby the vehicle is accessible to at least the occupants of the **buildings**;
- (P) Despite Regulation 200.5.10.1(12) and (M)(i) above, the total minimum number of **parking spaces** required for residents on the **lot** may be reduced at a rate of 1 **parking space** for every 5 **bicycle parking spaces** provided in excess of the minimum number of **bicycle parking spaces** required, if the reduction of **parking spaces** is not greater than 20 percent of the total minimum **parking spaces** required;
- (Q) Despite Article 220.5.10, one Type "G" **loading space** is required to be provided and maintained on the **lot**;
- (R) Despite Regulation 230.5.1.10(4), the minimum horizontal dimension for **bicycle parking spaces** in a vertical position or in a bicycle stacker is 0.45 metres;
- (S) Despite Regulation 230.5.1.10(9), "long term" **bicycle parking spaces** may be located outdoors or indoors, on the ground level, below grade or above grade;
- (T) Despite Regulation 230.5.10.1, the number of **bicycle parking spaces** provided and maintained on the **lot** must be in accordance with the following minimum rates:
- (i) 0.68 "long-term" **bicycle parking spaces** per **dwelling unit** are required to be provided on the **lot**; and
  - (ii) 0.07 "short-term" **bicycle parking spaces** per **dwelling unit** are required to be provided on the **lot**.

  - (ii) window washing equipment, by a maximum of 6.0 metres; and
  - (iii) For the area labelled as "MPH" on Diagram 6, only the equipment and **structures** permitted in (E)(i) above may project beyond the maximum height.
- (F) Despite regulations 50.10.40.30(1), 50.10.40.70(1) and (3), and article 600.10.10 the required minimum **building setbacks** and permitted maximum **building depth** are shown in metres on Diagram 6 of By-law 1148-2022(OLT);
- (G) Despite Clause 50.10.40.80, and article 600.10.10 the required minimum separation of **main walls** are as shown in metres on Diagram 6 of By-law 1148-2022(OLT);
- (H) Despite (F) and (G) above, regulations 50.5.40.60(1), and 50.10.40.60(1), (2), (3), (4), (5), (6) and (8) the following elements may encroach into the required minimum **building setbacks** and minimum **main wall** separation distance as follows:
  - (i) canopies and supports, awnings, balconies, terraces, patios, decks, pillars, pergolas, trellises, privacy and wind screens, unenclosed **structures** providing safety or wind protection to rooftop **amenity space**, architectural features, art and **landscaping** features and ornamental elements, up to 3.0 metres;
  - (ii) cornices, parapets, light fixtures, window projections, eaves, window sills, doors, site servicing features, ventilation shafts, railings, guards, terrace platforms, landscape planters, underground garages and associated **structures**, up to 0.5 metres;
  - (iii) exterior stairs, uncovered ramp and wheelchair ramps, up to 4 metres; and
  - (iv) guards, railings, parapets, balustrades, terraces, fences, privacy and wind screens, landscape planters and terrace platforms, up to 3.5 metres.
- (I) Despite regulation 200.5.10.1(1) and Table 200.5.10.1, **parking spaces** must be provided in accordance with the following:
  - (i) a minimum of 52 **parking spaces** for the non-residential uses;
- (J) A maximum of 1 **parking space** required by (I) above may be a "small car" **parking spaces** with a minimum:

- (i) width of 2.4 metres;
  - (ii) length of 5.4 metres; and
  - (iii) vertical clearance of 1.8 metres.
- (K) Despite Regulations 200.15.1.5(1) and 200.15.10(1), a minimum of 3 accessible **parking spaces** must be provided below ground;
- (L) Despite regulation 200.15.1(1), an accessible **parking spaces** must have the following minimum dimensions:
- (i) length of 5.6 metres;
  - (ii) width of 3.4 metres; and
  - (iii) vertical clearance of 2.1 metres.
- (M) The entire length of an accessible **parking space** must be adjacent to a 1.5 metre wide accessible barrier free aisle or path;
- (N) Despite regulations 230.5.1.10(4) and 230.5.1.10(10), "long-term" and "short term" **bicycle parking spaces** may be located in a **stacked bicycle parking space** having the following minimum dimensions:
- (i) length or vertical clearance of 1.2 metres;
  - (ii) width of 0.45 metres; and
  - (iii) horizontal clearance from the wall of 1.8 metres.
- (O) Despite regulation 230.50.1.20(2), "long-term" and "short-term" **bicycle parking spaces** may be located in a secured room, enclosure or bicycle locker, provided that such space is accessible to visitors;
- (P) Despite regulations 200.5.1.10(2)(A)(iv) and (D), a **bicycle parking space** placed in a vertical position on a wall, **structure** or mechanical device does not constitute as an obstruction to a **parking space**;
- (Q) Despite regulations 220.5.10.1(3), (4) and (5) a minimum of two Type "B" **loading spaces** and two Type "C" **loading spaces** must be provided.

  - (iv) window washing equipment, by a maximum of 7.0 metres;
- (I) Despite Regulations 50.5.40.70(1), 50.10.40.70(1), 50.10.40.70(5), 50.10.40.80(3) and Section 600.10, the required minimum **building setbacks** and required separation of **main walls** are as shown in metres on Diagrams 4 and 5 attached to By-law 1210-2022(OLT);
- (J) Despite Regulation 50.5.40.60(1), Clause 50.10.40.60 and (I) above, the following **building** elements may encroach into the required **building setbacks** and **main wall** separation distances as follows:
- (i) architectural features, cornices, light fixtures, ornamental elements, parapets, art and landscape features, patios, decks, pilasters, trellises, terraces, eaves, window sills, planters, ventilation shafts, guardrails, balustrades, railings, stairs, doors, wheelchair ramps, fences, screens, site servicing features, awnings and canopies, elevating devices, louvres, damper equipment, window washing equipment, and access ramps including underground garage ramps and associated **structures**, by a maximum of 2.0 metres;
  - (ii) balconies, may encroach to a maximum of 1.5 metres;
  - (iii) despite (ii) above, on Building A no balconies are permitted in the required:
    - (a) 1.8 metre **building setback** from the west **lot line**;
    - (b) 9.0 metre **building setback** from the north **lot line**;
    - (c) 2.5 metre **building setback** from the south **lot line**; and
    - (d) 8.2 metre **building setback** from the north **lot line**;
  - (iv) despite (ii) above, balconies are not permitted within 3.0 metres of the corners of **main walls** of Building B1 and Building B2;
- (K) Despite Regulation 50.10.40.50(1), **amenity space** must be provided at a minimum rate of 3.25 square metres for each **dwelling unit**, of which:
- (i) 2.03 square metres for each **dwelling unit** is indoor **amenity space**;
  - (ii) 1.22 square metres for each **dwelling unit** is outdoor **amenity space**; and

- (iii) no more than 25 percent of the outdoor component may be a **green roof**;
- (L) The provision of **dwelling units** located for **buildings** located on Block A and Block B are subject to the following:
  - (i) a minimum of 35 percent of the total number of **dwelling units** must contain two or three bedrooms; and
  - (ii) of the requirement in (i) above, a minimum of 3 percent of the total number of **dwelling units** must contain three bedrooms, provided there a minimum of 60 **dwelling units** with three bedrooms;
- (M) Despite Regulation 50.10.90.40(1)(B), **vehicle** access to a **loading space** may be permitted from:
  - (i) Front Street West for Building A; and
  - (ii) Blue Jays Way for Building B1, Building B2 and Building C;
- (N) Despite Clause 220.5.10.1, **loading spaces** must be provided on the lands as follows:
  - (i) a required minimum of one (1) Type 'G' **loading space** and one (1) Type 'B' **loading space** must be provided for Building A; and
  - (ii) a required minimum of three (3) Type 'G' **loading spaces** and one (1) Type 'C' **loading space** as shared between Building B1, Building B2, Building C and Building D;
- (O) Despite Regulation 200.5.10.1(1) and Table 200.5.10.1, **parking spaces** must be provided in accordance with the following:
  - (i) a minimum of 0.20 residential occupant **parking spaces** for each **dwelling unit**;
  - (ii) a minimum of 0.10 residential visitor **parking spaces** for each **dwelling unit**;
  - (iii) 1.0 parking space per 100 square metres of non-residential **gross floor area**;
  - (iv) a minimum of 4 "car-share parking spaces";
  - (v) for the purpose of this exception, "car-share" means the practice whereby a number of people share the use of one or more motor **vehicles** and such "car-share" motor **vehicles** are made available to at least the occupants of the building for short-term rental, including hourly rental; and
  - (vi) for the purpose of this exception, a "car-share parking space" means a **parking space** exclusively reserved and signed for a **vehicle** used only for "car-share" purposes;
- (P) Despite Regulation 200.5.1.10(12)(C), a vehicle access to a building must be at least 3.0 metres from the lot line abutting the street;
- (Q) Despite Regulations 200.15.1(1), (3) and (4), accessible **parking spaces** must be provided as follows:
  - (i) An accessible **parking space** must have the following minimum dimensions:
    - (a) length of 5.6 metres;
    - (b) width of 3.4 metres; and
    - (c) vertical clearance of 2.1 metres;
  - (ii) The entire length of an accessible **parking space** must be adjacent to a 1.5 metre wide accessible barrier free aisle or path;
  - (iii) Accessible **parking spaces** must be the **parking spaces** closest to a barrier free:
    - (a) entrance to a **building**;
    - (b) passenger elevator that provides access to the first **storey** of the **building**; and
    - (c) and shortest route from the required entrances in (Q)(iii)(a) and (b);
- (R) Despite Regulation 230.5.1.10(6), both "short-term" and "long-term" **bicycle parking spaces** may be located in a **building**;
- (S) Despite Regulation 230.5.1.10(10), "short-term" and "long-term" **bicycle parking spaces** may be located in a **stacked bicycle parking space** arrangement;
- (T) Regulation 230.5.1.10(7), with regard to the provision of bicycle shower and change facilities, does not apply.

(39) Exception E 39

The lands, or a portion thereof as noted below, are subject to the following Site Specific Provisions, Prevailing By-laws and Prevailing Sections.

Site Specific Provisions:

- (A) For the purposes of this site-specific exception, Port-oriented Use means:
  - (i) docks, piers, wharves, passenger ship and ferry terminals, dry-docks, boat and ship building yards and marine service stations;
  - (ii) marine **shipping terminal, warehouse, wholesaling use** and **open storage** that includes bulk and/or warehouse storage and loading facilities where cargo is received and/or departs by commercial marine shipping activities; and
  - (iii) **manufacturing uses** that are directly dependent upon marine shipping for the transportation of raw materials or finished products;
- (B) In addition to uses permitted in Clause 60.10.20.10, the following uses are permitted:
  - (i) **district heating and cooling plant**;
  - (ii) port-oriented use; and

- (iii) **waste transfer station** that only receives **recyclable materials** and has a front lot line that abuts Unwin Avenue;
- (C) Despite Regulation 60.20.20.10(1), an Asphalt Plant, Cement Plant and Concrete Batching Plant are permitted uses;
- (D) Despite the uses listed in Clause 60.20.20.10 and 60.20.20.20, the following uses are not permitted:
  - (i) **animal shelter**;
  - (ii) **artist studio**;
  - (iii) **dry cleaning or laundry plant**;
  - (iv) **financial institution**;
  - (v) **kennel**;
  - (vi) **Office**;

  - (xi) **software development and processing**;
  - (xii) **body rub service**;
  - (xiii) **crematorium**;
  - (xiv) **drive through facility**;
  - (xv) **recreation use**;
  - (xvi) **transportation use**;
  - (xvii) **vehicle depot**;
  - (xviii) **vehicle fuel station**;
  - (xix) **vehicle repair shop**;
  - (xx) **vehicle service shop**; and
  - (xxi) **vehicle washing establishment**;
- (E) Despite Regulation 60.20.20.100(10), **Open Storage**:
  - (i) may be associated with a **Recovery Facility**;
  - (ii) may be greater than 30 percent of the **lot area**;
  - (iii) may not be in the **front yard**; and
  - (iv) must have a minimum setback of 3 metres from any **lot line**;
- (F) In addition to the conditions in Regulation 60.20.20.100(10), storage must be:
  - (i) enclosed within a **building**; or
  - (ii) on a **lot** with **Open Storage** that does not have a **lot line** that abuts a **street**, an opaque visual barrier such as a fence, berm, retaining wall, or landscaped buffer must be provided along all **lot lines** that abut a **lot** in the **Open Space** category; or
  - (iii) on a **lot** with **Open Storage** with a **lot line** that abuts a **street**, an opaque visual barrier such as a fence, berm, retaining wall, or landscaped buffer must be provided:
    - (a) Between a **lot line** that abuts a **street** and the area used for **open storage**, located a maximum of 9.0 metres from the **lot line** that abut a **street**, except that such barrier is not required in areas used for **vehicle** and pedestrian access; or
    - (b) Along the entire perimeter of the portion of the **lot** that is used for **Open Storage**; and
    - (c) Along all **lot lines** that abut a **lot** in the **Open Space** category;
- (G) Despite Clause 60.20.20.10, storage associated with a **Public Works Yard** must be within a wholly enclosed **building**;
- (H) Despite Clause 60.20.20.10, a **Wholesaling Use** must not exceed 50 percent of the **interior floor area** of a **building**;

- (I) Despite the uses permitted by Clause 60.20.20.10 and Clause 60.20.20.20, Port-oriented Uses and **Park** uses are the only uses permitted in the areas shown in heavy black lines on the Port-oriented Use Overlay Map, as shown on Diagram 7 attached to By-law 1303-2019;
- (J) In addition to the conditions in Regulation 60.20.20.20(11), a **Shipping Terminal** is permitted only if cargo is received and/or departs by commercial marine shipping activities;
- (K) Despite Regulation 60.20.40.70(1) and Clause 60.20.40.10, **buildings** or **structures** located 3.0 metres or less from a **lot line** abutting Commissioners Street must:
  - (i) have a required minimum height of 12.0 metres and at least 3 **storeys**;
  - (ii) have a required minimum first **storey** height of 5.0 metres, measured between the top of the floor of the first **storey** and the underside of the ceiling of the first **storey**;
  - (iii) have a permitted maximum **building setback** of 3.0 metres from a **lot line** abutting Commissioners Street; and
  - (iv) have a minimum depth of 30 metres from the **building setback** from a **lot line** abutting Commissioners Street;
- (L) Despite Regulation 60.20.40.10 (1)(B)(i), the permitted maximum height of an **ancillary office building** or portion of a **building** used as an office is 30.0 metres;
- (M) Where (K) above is not satisfied, **buildings** or **structures** with a **front lot line** on Commissioners Street must:
  - (i) have a required minimum **building setback** of 9.0 metres from a **front lot line** abutting Commissioners Street, despite 60.20.40.70(1); and
  - (ii) have a minimum 3.0 metres wide strip of **soft landscaping** along the entire length of the **lot line**, excluding land used for **driveways** and walkways;
- (N) Despite Clause 60.20.40.70, **buildings** or **structures** with a **front lot line** on Unwin Avenue must:
  - (i) have a required minimum **building setback** of 9.0 metres from a **front lot line** abutting Unwin Avenue; and
  - (ii) have a minimum 3.0 metres wide strip of **soft landscaping** along the entire length of the **lot line**, excluding land used for **driveways** and walkways;
- (O) In addition to Clause 60.20.40.70, the required minimum **building setbacks** from a **lot line** abutting the Shipping Channel is 18 metres, as shown on Diagram 8 attached to By-law 1303-2019;
- (P) Despite Clause 60.5.80.10, a required **parking space** may not be in:
  - (i) a **front yard**; or
  - (ii) a **side yard** abutting a **street**; or
  - (iii) if in a **side yard**, not within 9 metres of a **front lot line**;
- (Q) Despite Regulation 60.10.94.40(1):
  - (i) where a **lot** abuts a **lane**, **vehicle** access to a **loading space** or **parking space** must be from the **lane**; and
  - (ii) if the **corner lot** does not abut a **lane** and has at least one **lot line** abutting a **street** which is not a major **street** on the Policy Overlay Map, **vehicle** access to a **loading space** or a **parking space** must be from the **street** which is not a major **street**;
- (R) Despite Clause 200.5.10.1, **parking spaces** must be provided for a Port-oriented Use, **Bindery**, **Building Supply Yard**, **Carpenter's Shop**, **Custom Workshop**, **Laboratory**, **Manufacturing Use**, **Marijuana Production Facility**, **Metal Factory**, **Printing Establishment**, **Cold Storage**, **Public Works Yard**, **Warehouse** and **Wholesaling Use**, at a minimum rate of 0.15 for each 100 square metres of **gross floor area** and a maximum rate of 0.75 for each 100 square metres of **gross floor area**; and
- (S) Despite Regulation 230.5.10.1(1) a, Port-oriented Use, **Bindery**, **Building Supply Yard**, **Carpenter's Shop**, **Contractor's Establishment**, **Custom Workshop**, **Laboratory**, **Manufacturing Use**, **Marijuana Production Facility**, **Metal Factory**, **Printing Establishment**, **Cold Storage**, **Public Works Yard**, **Warehouse** and **Wholesaling Use** will provide 0.25 **bicycle parking spaces** per 100 square metres, allocated as follows:
  - (i) 10 percent short-term **bicycle parking spaces**; and

(ii) 90 percent long-term **bicycle parking spaces**.

  - (xviii) **cabaret;** and
  - (xix) **nightclub;**

- (V) Despite (U) above, and Clauses 60.10.20.10 and 60.10.20.20, no **building or structure** with a **lot line** abutting Lake Shore Boulevard East, Leslie Street, Commissioners Street or a future extension of Caroline Avenue may be erected or used on a **lot** unless the following conditions are satisfied:
- (i) the 30.0 metre location restriction for uses described in (U) above does not apply to **Artist Studio, Custom Workshop or Performing Arts Studio** uses;
  - (ii) the permitted maximum unit widths for uses described in (U) above on the first **storey** above ground must be:
    - (a) 7.0 metres for uses listed in (U) above;
    - (b) A total of one unit may be 14.0 metres for the uses listed in (U) above, provided this unit is able to be demised into two 7.0 metre wide units at a future date; and
    - (c) Unit width restrictions in (a) and (b) in do not apply to **Artist Studio, Custom Workshop or Performing Arts Studio** uses;
  - (iii) the floor level of the first storey must be within 0.2 metres of the ground measured at the **lot line** abutting the **street** directly opposite each pedestrian entrance; and
  - (iv) any use located in the first **storey** must have principal entrances accessed from Lake Shore Boulevard East, Leslie Street, Commissioners Street, or a future extension of Caroline Avenue which, if not level with the public sidewalk closest to the entrance, is accessed by a ramp which rises no more than 0.04 metres vertically for every 1.0 metre horizontally;
- (W) Any portion of a **building or structure** located within 30.0 metres of a **lot line** abutting Leslie Street, Commissioners Street, Carlaw Avenue and a future extension of Caroline Avenue must:
- (i) have a required minimum height of 12.0 metres and have at least 3 **storeys**; and
  - (ii) have a required minimum first **storey** height of 5.0 metres, measured between the top of the floor of the first **storey** and the underside of the ceiling of the first **storey**;
- (X) Despite Regulation 60.10.40.70 (1) for a **building** located on a **lot** with a **front lot line** abutting Carlaw Avenue, Leslie Street, Commissioners Street and a future extension of Caroline Avenue, a minimum of 60 percent of the total width of the **front walls** meeting the height requirements in (W)(i) above must be located within 0 metre of the **front lot line**;
- (Y) Despite Regulation 60.10.40.70 (1), above, any **main wall** of a **building** not exceeding 12.0 metres in height and facing a **lot line** abutting one of the **streets** below must be located within 0 metre of the portion of a **lot line** located less than 30.0 metres from the intersections of the following **streets**:
- (i) Lake Shore Boulevard East and Carlaw Avenue;
  - (ii) Lake Shore Boulevard East and Leslie Street;
  - (iii) Lake Shore Boulevard East and a future extension of Caroline Avenue;
  - (iv) Commissioners Street and Carlaw Avenue;
  - (v) Commissioners Street and a future extension of Caroline Avenue; and
  - (vi) Commissioners Street and Leslie Street;
- (Z) Despite Regulation 60.10.40.70 (2), the required minimum **building setback** from a **side lot line** excludes any part of the **building or structure** that is less than 30.0 metres from a **lot line** abutting a **street**, in which case no **side yard setback** is required. Regulation 60.10.40.70(2) continues to apply to any part of a **building or structure** that is further than 30 metres from a **lot line** abutting a **street**;
- (AA) Despite Clause 60.10.40.70, on any **lot** abutting Carlaw Avenue or Caroline Avenue, the required minimum **building setback** from a **lot line** that abuts that **street** is 5.0 metres for any portion of the **building or structure** which exceeds a height of 18.0 metres;
- (BB) Despite Regulation 60.10.50.10(1), a **lot** abutting Carlaw Avenue, Leslie Street, Commissioners Street or a future extension of Caroline Avenue are not subject to minimum **front yard landscaping** requirements;
- (CC) Despite Clause 60.5.80.10, a **parking space** may not be in:
- (i) a **front yard**; or
  - (ii) a **side yard** abutting a **street**; or
  - (iii) be located in a **side yard** not abutting a **street**, if the **parking space** is set back a minimum of 5.0 metres from a **front lot line**;

(DD) Despite Regulation 60.10.94.40(1):

- (i) where a **lot** abuts a **lane**, **vehicle** access to a **loading space** or **parking space** must be from the **lane**;
- (ii) if the **corner lot** does not abut a **lane** and has at least one **lot line** abutting a **street** which is not a **major street** on the Policy Overlay Map, **vehicle** access to a **loading space** or a **parking space** must be from the **street** which is not a **major street**; and
- (iii) only one vehicle access is permitted;

    - (a) it is located entirely within the portion of the **building** located in the Employment Light Industrial Zone category;
    - (b) it is not located on the ground floor of a **building**; and
    - (c) the permitted maximum **interior floor area** is 1,000 square metres;
  - (xiii) **public parking**, provided:
    - (a) it is below ground; and
    - (b) a maximum of one **building** for parking attendants is permitted on each "block" as shown in Diagram 6 of By-law 1101-2022;
  - (xiv) **retail service**, provided the maximum **interior floor area** of all **retail services** on each "block" as shown on Diagram 6 of By-law 1101-2022 is 400 square metres. The calculation of total interior floor area is reduced by items listed in regulation 60.5.40.40(1);
  - (xv) **retail store**, provided that a **retail store** which includes a beverage **manufacturing use** for beer, cider or wine, is limited to an **interior floor area** of 400 square metres;
  - (xvi) **vehicle dealership**, provided it is limited to 400 square metres of **interior floor area** and it does not include the outside display and storage of **vehicles**;
  - (xvii) **vehicle fuel station**, provided it is **ancillary** to a **vehicle dealership**;
  - (xviii) **vehicle service shop**, provided it is **ancillary** to a **vehicle dealership**;
  - (xix) **vehicle washing establishment**, permitted it is located below ground;
  - (xx) **veterinary hospital**; and
  - (xxi) **wellness centre**;
- (E) Despite regulation 60.10.20.20(1), **software development and processing** is only permitted if:
- (i) the **software development and processing** is located above the ground floor of a **building**; and
  - (ii) the portion of the **software development and processing** that is dedicated to the storage and distribution of electronic data is limited to 400 square metres of **interior floor area**;
- (F) Despite regulation 60.10.20.10(1), **self-storage warehouse** is only permitted if:
- (i) it does not exceed an **interior floor area** for each "block" as shown on Diagram 6 of By-law 1101-2022 of 400 square metres; and

- (ii) it is not located on the ground floor of a **building**;
- (G) Despite regulation 60.10.20.20(1), **eating establishment** is permitted, provided it complies with regulation 60.10.20.100 (14);
- (H) Despite regulation 60.10.20.100(6), the total **interior floor area** of all **eating establishments** for each "block" as shown on Diagram 6 of By-law 1101-2022 may not exceed 500 square metres;
- (I) Despite regulation 60.10.20.100(6), the total **interior floor area** of all **take-out eating establishments** for each "block" as shown on Diagram 6 of By-law 1101-2022 may not exceed 500 square metres;
- (J) Despite regulation 60.10.20.20(1), **education use** is permitted, provided that where an **education use** is located in the portion of a **building** in the Employment Light Industrial Zone category, that education use shall be in compliance with regulation 60.10.20.100(4);

- (P) Despite regulations 60.5.80.10(1) and (2), all **parking spaces** must be located below ground;
- (Q) Regulation 60.5.100.1(1) with regards to **driveway widths**, does not apply;
- (R) Despite regulation 60.10.40.10(1), the permitted maximum height and number of **storeys** of any **building** or **structure** is the height in metres and number of **storeys** specified by the number following the HT and ST symbols, respectively, as shown on Diagrams 9, 11 and 12 of By-law 1101-2022;
- (S) Where a **building** is also located in the Commercial Residential Zone category, the additional height provisions of regulations 40.5.40.10(3) to (8) may also be applied; and
  - (i) for Block 1A only, regulations 40.5.40.10(8)(A) and 60.5.40.10(5)(A) and (B) with regards to limits on elements for the functional operation of the **building** do not apply to the portion of the building labelled HT 209, ST 67 on Diagram 9 of By-law 1101-2022;
  - (ii) for Block 1A only, despite regulation 40.5.40.10(5)(A) and 60.5.40.10(5)(A) the total area of all equipment, **structures**, or parts of a **building** may cover no more than 65 percent of the area of the roof measured horizontally where they are located on roofs of "mid-rise building area 1";
  - (iii) for Block 1A only, regulations 40.5.40.10(5)(B) and 60.5.40.10(5)(B), with regards to the horizontal restriction of the width of the **building's main walls**, does not apply;
  - (iv) For Block 1A only, window washing equipment and **building** maintenance units are permitted to project above the permitted maximum height, and are in addition to and may be located on top of a mechanical penthouse;
  - (v) public art features and **landscaping** may project beyond the permitted maximum height by 2.0 metres; and

- (vi) canopies, where located in the "Galleria Zone" as shown on Diagram 11 of By-law 1101-2022, may project beyond the permitted maximum height by 20.0 metres;
- (vii) Clause 40.5.40.10 and 60.5.40.10, whichever provides the greater height permission, applies for the "blocks" and elements not listed above;
- (T) For the purpose of interpreting (R) above, vestibules providing rooftop access having a maximum **gross floor area** of 12.0 square metres, mechanical penthouses, stair enclosures and elevator overruns shall not constitute a **storey**;
- (U) The required minimum **gross floor area** on Blocks 1A, 2, and 3A as shown on Diagram 6 of By-law 1101-2022 is: (i) on Block 1A:
  - (i) on Block 1A:
    - (a) a combined minimum of 26,600 square metres of **gross floor area** for non-residential uses is required in Blocks 1A and 1B;
  - (ii) on Block 2:
    - (a) a minimum of 32,000 square metres of **gross floor area** for non-residential uses is required in Block 2; and
  - (iii) on Block 3A:
    - (a) a combined minimum of 35,700 square metres of **gross floor area** for non-residential uses is required in Blocks 3A and 3B;
- (V) Despite clause 60.10.40.70(1), the required minimum **building setbacks** and setbacks for the portion of a **building** or **structure** on Blocks 1A, 2 and 3A as shown on Diagram 6 of By-law 1101-2022 are shown in metres on Diagrams 9, 11 and 12 of By-law 1101-2022;
- (W) Despite (W) above, the following elements may encroach into the required **building setbacks**:
  - (i) window washing equipment and **building** maintenance units;
  - (ii) public art features and all **landscaping**;
  - (iii) canopies, where they are located in the "Galleria Zone" as shown in Diagram 11 of By-law 1101-2022;
  - (iv) all elements listed in clause 40.10.40.60, including canopies located outside the "Galleria Zone" as shown in Diagram 11 of By-law 1101-2022, where a building is also located in the Commercial Residential Zone category, to the same extent as they are described in that clause;
- (X) The required minimum **building** separation distances on Blocks 1A, 2 and 3A as shown on Diagram 6 of By-law 1101-2022 are shown in metres on Diagrams 7, 9, 11 and 12 of By-law 1101-2022;
- (Y) In addition to the requirements of (X) above, a minimum 11.0 metre separation distance is required between the windows of **dwelling units** (other than the window of a kitchen or bathroom) of the same **building**; and
  - (i) the required window separation shall not apply to windows on **main walls** which form an angle of 90 degrees or greater to each other, on a horizontal plane;
- (Z) one **vehicle** access is permitted to the lands on Block 1A as shown on Diagram 6 of By-law 1101-2022 provided it is from Park Lawn Road and one **vehicle** access is permitted to the lands on Block 3A as shown on Diagram 6 of By-law 1101-2022 provided it is from "Street A";
- (AA) **Vehicle** access to the lands located on Block 2 as shown on Diagram 6 of By-law 1101-2022 must be below ground and accessed from an abutting "block" as shown on Diagram 6 of By-law 1101-2022;
- (BB) Despite regulation 200.5.1(2), **parking spaces** must be provided collectively for each use on each "block" as shown on Diagram 6 of By-law 1101-2022; and
  - (i) for the purpose of determining compliance with regulation 200.5.10.1(1) and Table 200.5.10.1, Blocks 1A and 1B are considered one "block" and Blocks 3A and 3B as shown on Diagram 6 of By-law 1101-2022 are considered one "block";
- (CC) Despite regulation 200.5.1.10(2), a maximum of 10 percent of the required **parking spaces** for each "block" as shown on Diagram 6 of By-law 1101-2022 that are obstructed on one side may have a minimum width of 2.6 metres;

(DD) Despite regulation 200.5.10.1(1) and Table 200.5.10.1, **parking spaces** must be provided on each "block" shown on Diagram 6 of By-law 1101-2022 as follows:

- (i) 0.4 **parking spaces** per **dwelling unit** for residential occupants;
- (ii) Residential visitor and all other non-residential uses are subject to the parking space rates described in regulation 200.5.10.1(1) and Table 200.5.10.1;
- (iii) despite regulation 200.5.10.1(1) and Table 200.5.10.1(1), "car-share parking spaces" may replace **parking spaces** otherwise required for residential occupants, subject to the following:
  - (a) a reduction of 4 residential occupant **parking spaces** will be permitted for each "car-share" parking space provided and that the maximum reduction permitted be capped by the application of the following formula: (total number of dwelling units divided by 60, and rounded down to the nearest whole number)

(EE) Despite regulation 220.5.1(2), **loading spaces** must be provided and maintained for each use on each "block" as shown on Diagram 6 of By-law 1101-2022; and

- (i) the required **loading space** rates may be collectively applied and located in either Blocks 1A and 1B; and
- (ii) the required **loading space** rates may be collectively applied and located in either Blocks 3A and 3B;

(FF) Despite regulation 220.5.1.10(1), the calculation of required **loading spaces** is based on the total **gross floor area** of each "block" as shown on Diagram 6 of By-law 1101-2022;

(GG) Despite any regulation to the contrary, **loading spaces** must be provided below ground on Blocks 1A, 2, and 3A as shown on Diagram 6 of By-law 1101-2022;

(HH) If a portion of a **building** is also located in the Commercial Residential Zone category, and if the **building** has a minimum of 30 **dwelling units**, the requirements for a Type "G" loading space, is satisfied if a Type "A" **loading space** or a Type "B" **loading space** required for the non-residential uses in the **building** is constructed to the larger applicable length, width or vertical clearance dimensions of a Type "G" **loading space**, referred to in regulation 220.5.1.10(8);

(II) If a portion of a **building** is also located in the Commercial Residential Zone category, and if the **building** has a minimum of 400 **dwelling units** a Type "C" **loading space** required for the **dwelling units** is satisfied if a Type "A", Type "B" or Type "C" **loading space**, referred to in regulation 220.5.1.10(8), is provided for the non-residential uses in the same **building**;

(JJ) Despite regulation 230.5.1.10(8), a **bicycle parking space** must be on the same "block" as shown on Diagram 6 of By-law 1101-2022 as the use for which it is required; and

- (i) for the purpose of determining compliance with regulation 230.5.1.10(8), Blocks 1A and 1B are considered one "block" and Blocks 3A and 3B as shown on Diagram 6 of By-law 1101-2022 are considered one "block";

(KK) Despite any requirement to the contrary, two pedestrian tunnels with a permitted maximum width of 7.5 metres and a maximum height of 7.5 metres, and including any support **structures**, may be constructed connecting to the lands on Block 8 as shown on Diagram 6 of By-law 1101-2022.

  - (vi) **eating establishment**, provided:
    - (a) it is **ancillary** to and located in the same **building** as a **transportation use**;
    - (b) it complies with regulations 60.10.20.100(6) and (14);
  - (vii) **take-out eating establishment**, provided:
    - (a) it is **ancillary** to and located in the same **building** as a **transportation use**;
    - (b) it complies with regulation 60.10.20.100(6);
  - (viii) **outdoor patio**, provided:
    - (a) it is **ancillary** to an **eating establishment** or **take-out eating establishment**;
    - (b) it may not be used to provide entertainment such as performances, music and dancing;  
and
    - (c) the maximum permitted area is the greater of 30 square metres or 30 percent of the **interior floor area** of the premises it is associated with;
- (E) Despite regulation 60.10.40.10(1)(A), the permitted maximum height for a **building** containing a **transportation use** is 42.0 metres;
- (F) Despite regulations 60.10.40.70(2)(A) and (B), the required minimum **building setback** from a **side lot line** that does not abut a **street** is 0 metres and is 3.0 metres where the **side lot line** abuts a **street**;
- (G) Regulation 60.10.40.70(3), with regards to the minimum **rear yard setback** for **lots** in the Employment Light Industrial Zone category, does not apply;
- (H) Despite regulation 60.10.50.10(1), the required **soft landscaping** may be provided as **landscaping**;
- (I) Despite regulation 200.5.10.1(1) and Table 200.5.10.1, zero **parking spaces** are required on Block 8 as shown on Diagram 6 of By-law 1101-2022;
- (J) Despite clause 220.5.10.1, zero **loading spaces** are required on Block 8 as shown on Diagram 6 of By-law 1101-2022;
- (K) Despite clause 230.5.10.1(1) and Table 230.5.10.1(1), 20 "long-term" **bicycle parking spaces** and 80 "short-term" **bicycle parking spaces** are required on Block 8 as shown on Diagram 6 of By-law 1101-2022;
- (L) Despite regulation 230.5.1.10(9), "long-term" **bicycle parking spaces** may be located in any location inside a **building**;
- (M) Despite regulation 230.5.1.10(10), "short-term" **bicycle parking spaces** may also be located in **stacked bicycle parking spaces**;
- (N) One **vehicle** access is permitted to the lands located on Block 8 as shown on Diagram 6 of By-law 1101-2022, provided it is from "Street A";
- (O) Despite any requirement to the contrary, two pedestrian tunnels or elevated enclosed walkways, each with a permitted maximum width of 7.5 metres and a maximum height of 7.5 metres, and including any support structures, may be constructed connecting to the lands on Blocks 1A and 3A as shown on Diagram 6 of By-law 1101-2022.

(13) Exception EL 13

The lands, or a portion thereof as noted below, are subject to the following Site Specific Provisions, Prevailing By-laws and Prevailing Sections.

Site Specific Provisions:

- (A) Despite 60.10.20.10 a **mixed use building** containing **dwelling units** is a permitted use, provided the **gross floor area** of all the **dwelling units** does not exceed 50 percent of the total **gross floor area** on the **lot**;
- (B) **Dwelling units** must be located above the **first floor** a **building**;
- (C) Despite (A) and (B) above, **dwelling units lawfully existing** prior to existing or authorized on or before October 4, 2021 are permitted;
- (D) A **building** must comply with the following requirements:
- (i) a **building** must have a minimum height of 2 **storeys** and 8.5 metres;
  - (ii) for the purposes of this Exception, a level of a **building** containing only mechanical, electrical or other equipment or space used for the functional operation of a **building** shall not constitute a **storey**;
  - (iii) Despite 60.5.40.10(3), 60.5.40.10(4) and 60.5.40.10(6), if a **lot** subject to this Exception abuts a **lot** in the Residential Zone category or is separated from a **lot** in the Residential Zone category by a **lane**, no part of a **building** or **structure** above the fourth **storey** may penetrate a 45 degree **angular plane** measured from the **rear lot line** of the **lot** in the Residential Zone category, starting at the height of the average elevation of the ground along the **rear lot line**;
  - (iv) the required minimum height of the **first floor** of a **building**, measured between the top of the floor of the first **storey** and the top of the floor of the second **storey**, is 4.5 metres;
  - (v) within the front yard at the ground floor level, the minimum required height to the underside of a 2nd storey which projects above the required **front yard setback** measured at the ground floor level, is 4.0 metres measured from the height of the average elevation of the ground along the **front lot line**;
  - (vi) the minimum required height of any **storey** located above the **first floor** and used for a non-residential use is 4.0 metres, measured from the top of the floor of the **storey** to the top of the floor of the **storey** above;
  - (vii) provide a minimum floor-to-floor height of 4 metres for any non-residential use on and above the second **storey**;
  - (viii) despite 60.10.40.70(4), provide a minimum 7.5-metre **rear yard setback** from the **rear lot line** where it abuts a **lot** or **lane** in the Residential Zone category;
  - (ix) despite 60.10.40.70(4) and (viii) above, the minimum **rear yard setback** for any part of a **building** located above the second **storey** is 12.5 metres from the **rear lot line** where it abuts a **lot** or **lane** in the Residential Zone category;
  - (x) despite 60.10.40.70(1), the minimum **front yard setback** on the **first floor** and above the third **storey** is 3 metres and the minimum **front yard setback** on the second and third **storey** is 0 metres;
  - (xi) despite 60.10.40.70(2) the minimum required **side yard setback** for a **main wall** containing window openings is 5.5 metres, otherwise no **side yard setback** is required; and
  - (xii) Despite 60.5.50.20(2), a minimum 2.0 metre wide strip of **landscaping** must be provided along the entire length of the **rear lot line** where the **lot line** abuts a **lot** in the Residential Zone category;
- (E) Despite the maximum floor space index indicated in the zone label on Diagram 2 of By-law 779-2021, the maximum floor space index does not apply to a **building** that complies with (D) above; and
- (F) Despite 60.10.20.100(11), an **outdoor patio** is permitted if it complies with the following conditions:
- (i) it must be in association with an **eating establishment** or **take-out eating establishment** on the same **lot**;
  - (ii) it must be set back at least 30.0 metres from a **lot** in the Residential Zone category;
  - (iii) despite regulation (ii) above, an **outdoor patio** located above the first **storey** of the **building**, must be at least 40.0 metres, measured horizontally, from a **lot** in the Residential Zone category;
  - (iv) in the **rear yard** of a **lot** that abuts a **lot** in the Residential Zone category a fence must be installed along the portion of the **outdoor patio** parallel to the **rear lot line**;

- (v) if a **lawfully existing outdoor patio** is closer to a **lot** than the setbacks required in (ii) or (iii) above, then that **lawfully existing** setback is the minimum required setback for that **lawfully existing outdoor patio**; and
- (vi) despite 200.5.10.1, an **outdoor patio** permitted in accordance with (i) and (ii) above and located in the **front yard** may occupy an area otherwise used for up to 2 required non-residential **parking spaces**.

  - (iv) Quadrant 4: 49,600 square metres;
- (V) For the purposes of this exception, **Street-related retail and service uses** means one or more of: **art gallery, artist studio, eating establishments, financial institutions, personal service shops, pet services, retail stores, and take-out eating establishments**;
- (W) No **building or structure** subject to an Animation Zone frontage(s) as shown on Diagram 8 may be erected or used on a **lot** unless a minimum of 80 percent of the cumulative length of the exterior **main walls** of the **building or structure** at the first **storey** above ground along the "Animation Zone" frontage(s) is occupied by one or more of the following uses: **art galleries, artist studios, community centres, day nurseries, libraries, markets, museums, performing arts studios, publicly accessible and programmable office and other lobbies, publicly accessible post-secondary schools, recreation uses, and street-related retail and service uses**:
- (i) For each **building or structure**, a minimum of 10 percent of each 80 percent provided in accordance with (W) above will comprise **street-related retail and service uses** units that are subject to the following requirements:
    - (a) each **street-related retail and service uses** unit will be limited to a maximum of 250 square metres of **interior gross floor area**, and
    - (b) the length of each **street-related retail and service uses** unit will be limited to a maximum of 7 metres;
  - (ii) the principal public entrance to each shop or use is located in the exterior wall of the **building** which is directly accessible by pedestrians along a route not more than 5 metres from:
    - (a) the **frontage** of the lot on which the shop or use is located; or
    - (b) a **building** setback line from a **street** on which the shop or use has frontage, provided the line is established by this Exception; and

- (iii) the level of the floor of the principal public entrance is within 0.2 metres of the level of the public sidewalk opposite such entrance;
- (X) Despite Regulation 60.40.40.10:
- (i) For the purposes of this exception, **grade** means the Canadian Geodetic Datum elevation of 78.6 metres;
  - (ii) The maximum **building height** above **grade** for the areas shown on Diagrams 6, 6A and 6B collectively attached to By-law 1281-2018, is as indicated on Table 1 of By-law 1281-2018;
  - (iii) For the purposes of this exception, **storey** means the portion of a **building** that is between the top of a floor and the top of the floor next above it, and if there is no floor above it, the portion between the top of the floor and the ceiling above it. The following will not be considered a **storey**: a mezzanine floor level which is located above the first floor level above-ground, not exceeding 30 percent of the **interior floor area** of the first floor level above-ground, and limited in use to accessory uses such as storage, mechanical, electrical, and other areas dedicated to the functional operation of the **building**;
  - (iv) The required minimum height of the first **storey** above ground in any principal **building** is 5.0 metres, measured between the top of the floor of the first **storey** and the underside of the ceiling of the first **storey**;
  - (v) Despite (X)(ii) above, the following **structures**/items may exceed the height limits as described:
    - (a) **structures** on any roof used for outdoor amenity space or open air recreation, maintenance, safety, wind or **green roof** purposes to a maximum vertical projection of 2.0 metres above the height **limits**;
    - (b) elevator overruns and related enclosures, including stair towers, to a maximum of 5.0 metres above height **limits**;
    - (c) parapets up to 2.0 metres above **height limits**;
    - (d) terraces and patios, including associated railings, and architectural and landscape features up to 2.0 metres above **height limits**;
    - (e) chimneys, vents, stacks, or other heating, cooling, or ventilation equipment or window-washing equipment on the roof of the **building**, or a fence, wall, or **structure** enclosing such elements, up to 5.0 metres above **height limits**, provided such are set back a minimum of 10 metres from the **lot line**;
- (Y) **Buildings** or **structures** above ground are to be set back a minimum of 20.0 metres from the UT zone overlaying the Metrolinx rail corridor immediately north of the lands subject to this exception, except for:
- (i) **buildings** or **structures** used for transportation uses, which may include **Personal Service Shops, Service Retail, Retail Stores, Take-out Eating Establishments**, and accessory uses;
  - (ii) district energy uses; and
  - (iii) **district heating and cooling plant**;
- (Z) All **buildings** or **structures** above ground must be set back a minimum of 5.0 metres from any OR and/or (H) OR zone;
- (AA) Notwithstanding (Z) above, the **building/ structure** generally illustrated by the outline on Diagram 2, labeled as Building 36, as well as any additions and expansions thereto, may have a 2 metre setback from the OR or (H)OR zone provided that either the (H) has been lifted from the relevant EO lands or the Toronto and Region Conservation has issued a permit under Ontario Regulation 166/06 or its successor respecting said **building/ structure**, and any additions and expansions thereto;
- (BB) **Buildings** or **structures** in an EO zone must be set back above ground from the **street lines** for those streets identified on Diagram 7 By-law 1281-2018 as indicated on Table 2 of By-law 1281-2018;
- (CC) For the purposes of this exception, 'tower' means the portions of a **building** which collectively enclose the entirety of a **storey** higher than 36.0 metres above **grade**;
- (DD) Above a height of 36 metres, a minimum separation distance of 25 metres must be provided between the **main walls** of any tower and another tower on the lands, as measured from exterior **main walls**;
- (EE) The maximum number of towers in each Quadrant as identified on Diagram 5 is:

- (i) Quadrant 1: 3
  - (ii) Quadrant 2: 5
  - (iii) Quadrant 3: 2
  - (iv) Quadrant 4: 3;
- (FF) No minimum setback requirements apply to the portions of **buildings** or **structures** below ground;
- (GG) Notwithstanding (BB) and (DD) above, elements of a **building** may encroach into a required **building setback** as follows:
- (i) structural elements related to the Broadview Avenue underpass beneath the railway station;
  - (ii) cornices, sills, eaves, window washing equipment, railings, balustrades awnings, piers and sun-shades, to a maximum horizontal projection of 0.5 metres into any required setback;
  - (iii) chimneys, vents and stacks, provided such are set back a minimum of 10 metres from the **lot line**;
  - (iv) terraces, and patios, including associated railings, and architectural and landscape features;
  - (v) balconies to a maximum horizontal projection of 2.0 metres; and
  - (vi) canopies including supporting **structures**, covered walkways, privacy screens, planters, awnings, fences, lighting, bollards, safety railings, trellises, guards, guardrails, retaining walls, wheel chair ramps, **bicycle parking** facilities, ornamental or architectural features, landscape features, doors and door swings, facilities accessory to a **day nursery**, and art installations;
- (HH) **Parking spaces** for uses on lands zoned (H)EO will be provided in accordance with Chapter 200;
- (II) Despite Regulation 60.5.80.10, required **parking spaces** and **loading spaces** for uses on lands zoned by this exception may be provided anywhere on the lands subject to this exception;
- (JJ) Despite Chapter 200.5.10.1 and Chapter 200.10.1, off- **street** motor vehicle **parking spaces** must be provided for every **building** or **structure** erected or enlarged on the lands subject to this exception, in accordance with the following:
- (i) **Parking spaces** must be provided as follows:
    - (a) the minimum number of required **parking spaces** is 0.3 spaces per 100 square metres of **gross floor area**; and
    - (b) the maximum number of **parking spaces** permitted to be located in each quadrant of the lands as illustrated on Diagram 5 is as follows: Quadrant 1: 1570; Quadrant 2: 1885; Quadrant 3: 370; and Quadrant 4: 535;
  - (ii) Despite Regulation 60.5.80.10, required **parking spaces** to support development must be located in a **parking garage**;
  - (iii) A **parking garage** is permitted only below-ground, exclusive of accesses;
  - (iv) Despite (JJ)(ii) above, a **parking garage** may be located in an above-ground **building** or portion thereof provided that:
    - (a) the use, exclusive of accesses, is not located within 10 metres of an exterior wall facing a **street**; and
    - (b) the portion of the **building** between the exterior wall facing the **street** and the area used for parking is solely occupied by other uses permitted by this Exception, exclusive of accesses;
- (KK) Despite Regulation 60.5.100.1(1), any **driveway** is restricted to a maximum width of 7.5 metres for a minimum depth of 3.0 metres measured from the **street line**;
- (LL) Despite (KK) above, a maximum of two **driveways** on the lands subject to this exception may have a maximum width of 11 metres for a minimum depth of 3.0 metres measured from a **lot line** abutting a **street**;
- (MM) Despite Chapter 200.15, the following requirements apply to accessible **parking spaces**:
- (i) For the purposes of this clause, "accessible" means free of a physical, architectural or design barriers that would restrict access or use to a person with a disability as defined in the Accessibility for Ontarians with Disabilities Act, 2005, S.O. 2005, c. 11;
  - (ii) an accessible **parking space** must have the following minimum dimensions:

- (a) length of 5.6 metres;
  - (b) width of 3.4 metres; and
  - (c) vertical clearance of 2.1 metres;
- (iii) The minimum dimensions of an accessible **parking space** that is adjacent and parallel to a **drive aisle** from which **vehicle** access is provided is:
  - (a) length of 7.1 metres
  - (b) width of 2.6 metres; and
  - (c) vertical clearance of 2.1 metres;
- (iv) The entire length of an accessible **parking space** must be adjacent to a 1.5 metre wide accessible barrier free aisle or path as shown on Diagram 1 and Diagram 2 of By-law 579-2017;
- (v) Accessible **parking spaces** must be the **parking spaces** closest to a barrier free:
  - (a) entrance to a **building**;
  - (b) passenger elevator that provides access to the first **storey** of the **building**; and
  - (c) shortest route from the required entrances in (a) and (b);
- (vi) Clearly identified off street accessible **parking spaces** must be provided on the same **lot** as every **building** or **structure** erected or enlarged, if the total **parking space** requirement is 5 or more, in compliance with the following:
  - (a) if the number of required **parking spaces** is 5 to 24, a minimum of 1 **parking space** must comply with the minimum dimensions for an accessible **parking space**;
  - (b) if the number of required **parking spaces** is 25 to 100, a minimum of 1 **parking space** for every 25 **parking spaces** or part thereof must comply with the minimum dimensions for an accessible **parking space**; and
  - (c) if the number of required **parking spaces** is more than 100, a minimum of 4 **parking spaces** plus 1 **parking space** for every 50 **parking spaces** or part thereof in excess of 100 **parking spaces**, must comply with the minimum dimensions for an accessible **parking space**;
- (NN) Despite Chapter 230.5.10, **bicycle parking spaces** must be provided for all uses on the lands at the Office Bicycle Parking Space Rates, as in Table 230.5.10.1(1);
- (OO) Access to long-term **bicycle parking spaces** located anywhere but on the first **storey** must be provided through a dedicated ramp and/or a dedicated elevator;
- (PP) Despite Regulation 220.5.1.10(1), calculation of required **loading spaces** will be undertaken separately for each quadrant of the lands shown on Diagram 5 of By-law 1281-2018;
- (QQ) Areas for required **loading spaces** may be connected below-ground through the lands subject to this exception;
- (RR) Despite Chapter 220.5.10, **loading spaces** on the lands will be provided at the office **loading space** requirements rates;
- (SS) Nothing in this exception or By-law 569-2013 applies to prevent the use of the lands, or the erection or use of a **building**, **structure**, or portion thereof on the lands subject to this exception for any of the following:
  - (i) **transportation uses**;
  - (ii) **structures** used in connection with any of the uses listed under 90.30.20.10 or 90.30.20.20 constructed or operated by, or on behalf of the City of Toronto; and
  - (iii) flood protection **structures** and facilities;
- (TT) The floor area of any **building** or **structure** devoted exclusively to any of the purposes in (SS) above are excluded from any calculations of **gross floor area** and required **parking spaces** for the lands required elsewhere by this exception or By-law 569-2013;

Prevailing By-laws and Prevailing Sections:

- (A) City of Toronto By-law 438-86 Section 12(2)270, only as applicable to (Q) and (R) above. [ By-law: 1281-2018 ]

(9) Exception EO 9

The lands, or a portion thereof as noted below, are subject to the following Site Specific Provisions, Prevailing By-laws and Prevailing Sections.

Site Specific Provisions:

- (A) the lands shown as Blocks 1A, 1B, and 2B on Diagram 5 of By-law 1214-2019(LPAT), may be used, and **buildings** and **structures** may be erected and used, in compliance (B) through (EE), provided the following are met:
  - (i) The requirements of Schedule A of By-law 1214-2019(LPAT); and
  - (ii) Prior to the lifting of the (H) symbol on Blocks 1B, as shown on Diagram 2 of By-law 1214-2019(LPAT), the only use and construction that may occur on the Block must be in accordance with Section 15 of By-law 1214-2019(LPAT);
- (B) in addition to those uses permitted in Clauses 60.40.20.10 and 60.40.20.20, car-sharing, bike-sharing, **day nurseries** and fitness clubs are also permitted; and
- (C) for the purpose of this Exception:
  - (i) Car-sharing means the practice whereby a number of people share the use of one or more motor **vehicles** and such car-share motor **vehicles** are made available for short term rental, including hourly rental;
  - (ii) Car-sharing **parking space** means a **parking space** exclusively reserved and signed for a car or cars used only for car-share purposes;
  - (iii) Bike-sharing means the practice whereby a number of people share the use of one or more bicycles, and bicycles are made available for short term rental, including hourly rental; and
  - (iv) A bike-sharing station means a bicycle sharing facility where bicycles are capable of being securely stored and from which the general public may rent and return bicycles which are owned by a private sector organization or **non-profit organization**;
- (D) despite any provision of Clause 60.40.20.20 to the contrary and (B) above, the following uses are permitted if they comply with the specific conditions associated with the reference number(s) for each use in Clause 60.40.20.100 as referred to below:
  - (i) **Eating Establishment** (16, 20, 28);
  - (ii) **Public Parking** (8, 9);
  - (iii) **Retail Service**;
  - (iv) **Retail Store** (23, 28);
  - (v) **Personal Service Shop**; and
  - (vi) **Take-Out Eating Establishment** (20, 28);
- (E) despite regulation 60.40.20.20(1)(B):
  - (i) Conditions 60.40.20.100(14)(B), (C) and (E) do not apply to an **outdoor patio**; and
  - (ii) On Block 1B, as shown on Diagram 5 of By-law 1214-2019(LPAT), despite condition 60.40.20.100(14)(A), **outdoor patios** must be associated with a permitted use or must be an outdoor patron area that is a permitted non-residential use;
- (F) where the whole of a **building** is occupied by a single **retail store** or **eating establishment**, the **interior floor area** must not exceed 1,000 square metres;
- (G) a portion of a **building** on Blocks 1A and 1B, as shown on Diagram 5 of By-law 1214-2019(LPAT) may be used for parking, bicycle parking, loading, service access and/or mechanical equipment that serve the users of Blocks 4, 6A, 6B and 7;
- (H) a portion of a **building** on Block 2B, as shown on Diagram 5 of By-law 1214-2019(LPAT) may be used for parking, bicycle parking, loading, service, access and/or mechanical equipment that serve the users of Blocks 2A and 5;
- (I) for the purpose of this Exception a bicycle is not a **vehicle**;
- (J) the permitted maximum **gross floor area** on Blocks 1A, 1B and 2B, as shown on Diagram 5 of By-law 1214-2019(LPAT) is:
  - (i) 25,500.0 square metres on Blocks 1A and 1B; and

- (ii) 41,945.0 square metres on Block 2B if the total gross floor area of non-residential uses on Blocks 2A and 2B is not more than 42,250 square metres;
- (K) no **building** may be erected or used on Blocks 1A, 1B and 2B, as shown on Diagram 12 of By-law 1214-2019(LPAT), and identified as Street Related Active Uses unless a minimum of 70 percent of the length of the portion of the **main wall** facing the Street Related Active Uses frontage at the first **storey** above-ground is occupied by residential lobbies, amenity space and/or permitted non-residential uses, excluding areas used for **ancillary** uses such as parking, loading or service areas, bicycle parking, storage rooms, washrooms, electrical, utility and mechanical rooms, garbage rooms, exit stairwells and other similar uses;
- (L) **vehicle** access from Blocks 1A, 1B and 2B to the Future Private Street, as shown on Diagram 12 of By-law 1214-2019(LPAT), is not permitted along the frontage of the Block subject to Street Related Active Uses;
- (M) despite regulation 60.5.40.10(1), and Clause 60.40.40.10 the permitted maximum height of a **building** or **structure** in metres, as measured from the average elevation of the ground to the highest point of a **building** or **structure**, is the numerical value shown on Diagrams 6 and 7 of By-law 1214-2019(LPAT) following the HT symbol;
- (N) for the purpose of this Exception, the phrase "average elevation of the ground" and the term **established grade** for Blocks 1A, 1B and 2 within the EO zone, as shown on Diagrams 2 and 5 of By-law 1214-2019(LPAT) is:
  - (i) 130.47 metres for Block 1A and Block 1B; and
  - (ii) 132.96 metres for Block 2B;
- (O) despite regulations 60.5.40.10(4)(5) and (6), and in addition to the **structures** permitted by regulation 60.5.40.10(3), the following elements of a **building** may exceed the permitted maximum **building** height as follows:
  - (i) 0.9 metres for skylights, green roof elements and roof access hatch;
  - (ii) 1.5 metres for architectural features, parapets, railings and guard railings;
  - (iii) 1.8 metres for terrace dividers, privacy screens and window washing equipment;
  - (iv) 3.0 metres for wind screens, wind and mitigation **structures**, canopies, trellises, awnings and/or other similar shade devices and associated **structures**, outdoor amenity space elements including outdoor kitchens;
  - (v) 7.5 metres for elevator overruns, mechanical equipment and associated enclosures, stairs, stair enclosures, vents, stacks, flues and chimneys; and
  - (vi) The elements listed in Regulation (Q) below;
- (P) despite Clause 60.40.40.70, the required minimum **building setbacks** for the portion of a **building** or **structure** above-ground are shown on Diagrams 6 and 7 of By-law 1214-2019(LPAT) and for clarity a **building setback** is not required from a corner rounding at the intersection of two **streets**;
- (Q) despite regulation 5.10.40.70(1) and Clause 60.5.40.60, the following elements of a **building** may encroach within a required **building setback**:
  - (i) 0.9 metres for architectural features such as cornices, piers, eaves, roof overhangs, mouldings, sills, scuppers, rain water leaders, window washing equipment, and lighting fixtures;
  - (ii) 1.5 metres for balconies and guard rails;
  - (iii) 2.0 metres for canopies, privacy screens, awnings and/or other similar shade devices and their associated structural elements, utility meters and associated enclosures, railings, vents and **structures** for wind mitigation;
  - (iv) 2.4 metres for retaining walls and stairs;
  - (v) Covered bicycle storage enclosures, ramps, garage ramps and associated **structures**;
  - (vi) Wind screens; wind and mitigation **structures**; canopies, awnings and/or other similar shade devices and their associated structural elements are permitted in connection with a **day nursery** or similar use; and
  - (vii) The elements listed in (O) above;

- (R) despite Chapter 200, **parking spaces** must be provided in accordance with Section 12 of By-law 1214-2019(LPAT); and
- (S) **parking spaces** for car-sharing must be provided on Blocks 1 and 2B, as shown on Diagram 5 of By-law 1214-2019(LPAT) as follows:
  - (i) 3 **parking spaces** on Block 1; and
  - (ii) 2 **parking spaces** which may be located on either or both of Blocks 2A and 2B;
- (T) for each car-sharing **parking space** provided in excess of the required minimum in (S) above, the minimum number of resident **parking spaces** required on a Block in accordance with Section 12 of By-law 1214-2019(LPAT) may be reduced by four **parking spaces**, up to a maximum reduction as calculated by the following formula:  $4 \times (\text{the total number of dwelling units on a Block divided by } 60)$ , rounded down to the nearest whole number;
- (U) despite regulation 60.5.80.1(2), required **parking spaces** may be provided on a non-exclusive basis and may be provided in a **public parking** facility;
- (V) despite regulation 60.5.80.10(3) and any provision of Section 12 of By-law 1214-2019(LPAT) to the contrary:
  - (i) **Parking spaces** required for Blocks 1A and 1B may be provided on any or all of Blocks 1A, 1B, 4 and 7, as shown on Diagram 5 of By-law 1214-2019(LPAT); and
  - (ii) **Parking spaces** required for Block 2A may be provided on any or all of Blocks 2A, 2B, 5 and 5A, as shown on Diagram 5 of By-law 1214-2019(LPAT);
- (W) a **parking garage** must be located entirely below-ground, excluding **driveway** access ramps and stairs;
- (X) despite Chapter 220, **loading spaces** must be provided in accordance with Section 13 of By-law 1214-2019(LPAT), with the exception that:
  - (i) For Blocks 1A and 1B:
    - (a) the calculation of required **loading spaces** is based on the total **gross floor area** on Blocks 1A and 1B;
    - (b) required **loading spaces** may be shared between the uses on Blocks 1A and 1B; and
    - (c) required **loading spaces** may be located on any of Blocks 1A, 1B, 4 and 7; and
  - (ii) For Block 2B, required **loading spaces** may be located on any or all of Blocks 2A, 2B and 5;
- (Y) Clause 60.40.90.40 does not apply with respect to access to a **loading space**;
- (Z) despite Chapter 230, **bicycle parking spaces** must be provided in accordance with Section 14 of By-law 1214-2019(LPAT);
- (AA) Clause 60.40.30.20 does not apply with respect to **lot frontage**;
- (BB) regulation 60.40.50.10(1), does not apply with respect to the provision of **landscaping**;
- (CC) despite any severance or division of the lands subject to this Exception, the regulations of this Exception shall continue to apply to the whole of the lands as if no severance or division had occurred;
- (DD) despite regulation 5.10.30.1(1), no **building** or **structure** may be erected or used on the lands unless:
  - (i) The lands abuts an existing **street**, or is connected to an existing **street** by a **street** or **streets** constructed to a minimum base curb and base asphalt or concrete; and
  - (ii) All Municipal water mains and Municipal sewers, and their appurtenances, are installed to a **lot** line of the property and are operational; and
- (EE) for the purpose of regulation 5.10.30.1(2) a **street** may include a **street** or **streets** that have been dedicated to the Municipality but may not be assumed.

## Chapter 970 Appendices

### 970.10 Transition: Parking Space Regulations

- (1) (THIS SECTION DOES NOT CURRENTLY CONTAIN REGULATIONS)

#### 970.10.1 Transition: Parking Space Regulations

- (1) Application

An application submitted before February 3, 2022 that is eligible to proceed under Clauses 200.25.15.1, 200.25.15.2, 200.25.15.3 and 200.25.15.4 must comply with the requirements of Clauses 970.10.15.5, 970.10.15.10, 970.10.15.40, 970.10.15.50 and 970.10.15.60, or with the provisions of By-law 569-2013, as amended, as it read prior to February 3, 2022. [ By-law: 89-2022 ]

#### 970.10.15 Transition: Parking Space General Requirements

##### 970.10.15.5 Requirements Applying to all Zones

- (1) Application of Parking Space Rates in Policy Areas 3 and 4

A **lot** located entirely or partly within Policy Area 3 or Policy Area 4 on the Policy Area Overlay Map is subject to the following:

- (A) if the **buildings** on the **lot** cover at least 50 percent of the area located within 40 metres of the **lot line** that abuts the **street** in the Policy Area, the **parking space** rates for uses in that policy area apply to the entire **lot**; and
- (B) in cases other than (A) above, the applicable **parking space** rate for a use is the **parking space** requirements for uses not located in Policy Area 1, Policy Area 2, Policy Area 3 or Policy Area 4. [ By-law: 89-2022 ]

- (2) Calculation of Required Parking Spaces - Vacant Building Space

The **parking space** requirement for an area of a **building** that is vacant is calculated as follows:

- (A) the previous use of that **building** or part of the **building**;
- (B) the land use identified on the issued building permit; or
- (C) if a **building** or part of a **building** has never been used, and its intended use has never been identified in a building permit, the **parking space** requirement is based on the permitted use in the zone that has the lowest minimum **parking space** requirement. [ By-law: 89-2022 ]

- (3) Calculation of Parking Space Requirement

If a **parking space** rate is expressed as a ratio of **parking spaces** to the **gross floor area**, the **parking space** requirement for a use is calculated by multiplying the **gross floor area** of the use by the applicable rate found in Table 970.10.15.5 - Parking Space Rates and Parking Space Occupancy. [ By-law: 89-2022 ]

- (4) Parking Space Access

Other than **stacked parking space** and **tandem parking spaces**, all areas used for required **parking spaces** must have **driveway** access to a **street** or **lane** that is direct and unobstructed, excluding a gate, moveable barrier or similar security feature. [ By-law: 89-2022 ]

- (5) Parking Space Rates

Off street **parking spaces** must be provided for every **building** or **structure** erected or enlarged, in compliance with Table 970.10.15.5 - Parking Space Rates and Parking Space Occupancy below: [ By-law: 89-2022 ]

(6) Parking Space Rates - Multiple Uses on a Lot

If there are multiple uses on a **lot**, the respective **parking space** rate for each use on the **lot** applies and the total number of required **parking spaces** is the cumulative total for all uses. [ By-law: 89-2022 ]

(7) Shared Parking Space Calculation (Minimum)

In Policy Area 1 (PA1), Policy Area 2 (PA2), Policy Area 3 (PA3), Policy Area 4 (PA4), the minimum number of parking spaces required for a lot is determined as follows:

- (A) for each of the morning, afternoon and evening parking periods Table 200.5.10.1, the minimum number of **parking spaces** required for each use, is calculated using the respective **parking space** rate and occupancy rate;
- (B) the minimum number of **parking spaces** required for each parking period is the total of the **parking spaces** required for all uses during that parking period; and
- (C) the minimum number of **parking spaces** required for the lot is equal to the largest number of **parking spaces** required for any parking period. [ By-law: 89-2022 ]

(8) Interpretation of Minimum and Maximum Parking Space Requirement

If Table 970.10.15.5 - Parking Space Rates and Parking Space Occupancy has a minimum and maximum number of **parking spaces** for a use, the number of **parking spaces** for that use listed on the Table may not:

- (A) be less than the required minimum; and
- (B) exceed the permitted maximum. [ By-law: 89-2022 ]

(9) Place of Worship Parking Rates

For the purpose of calculating **parking space** requirements for a **place of worship**, the "worship area" means 90 percent of the area in a **place of worship** used for the expression of worship through religious services, rites or ceremonies. [ By-law: 89-2022 ]

(10) Policy Area 1 (PA1) Parking Space Reduction for Bicycle Parking Spaces

In Policy Area 1 (PA1) the total minimum number of **vehicle parking spaces** required on a **lot** may be reduced at a rate of 1 **vehicle parking space** for each 5 **bicycle parking spaces** provided in excess of the minimum number of **bicycle parking spaces** required by Chapter 230 if the reduction of **vehicle parking space** is not greater than 20 percent of the total minimum **vehicle parking spaces** required. [ By-law: 89-2022 ]

(11) Parking Rates - Accessible Parking Spaces

If the total **parking space** requirement is 5 or more, clearly identified off street accessible **parking spaces** must be provided on the same **lot** as every **building** or **structure** erected or enlarged, as follows:

- (A) if the number of required **parking spaces** is less than 13, a minimum of 1 **parking space** must comply with all regulations for an accessible **parking space** in Section 200.15;
- (B) if the number of required **parking spaces** is 13 to 100, a minimum of 1 **parking space** for every 25 **parking spaces** or part thereof must comply with all regulations for an accessible **parking space** in Section 200.15; and
- (C) if the number of required **parking spaces** is more than 100, a minimum of 5 **parking spaces** plus 1 **parking space** for every 50 **parking spaces** or part thereof in excess of 100 **parking spaces**, must comply with all regulations for an accessible **parking space** in Section 200.15. [ By-law: 89-2022 ]

(12) Accessible Parking Space Requirement for Medical Offices and Clinics

A minimum of 10 percent of the required **parking spaces** for a medical office or clinic established after May 26, 2017, must comply with all regulations for an accessible **parking space** in Section 200.15 and any accessible **parking spaces** lawfully existing on the **lot** must be retained. [ By-law: 89-2022 ]

## 970.10.15.10 Residential Zone Category Requirements

(1) Gross Floor Area Calculation for a Residential Building Other than an Apartment Building

In the Residential Zone category, the **gross floor area** of a **residential building**, other than an **apartment building**, may be reduced by:

- (A) the floor area of the **basement**;
- (B) the area of a void in a floor if there is a vertical clearance of more than 4.5 metres between the top of the floor below the void and the ceiling directly above it, to a maximum of 10 percent of the permitted maximum **gross floor area** for the **building**;
- (C) the area of required **parking spaces** in the **building**; and
- (D) in addition to (C) above, the area used for one additional **parking space** in a **detached house** on a **lot** with a lot frontage of more than 12.0 metres. [ By-law: 89-2022 ]

(2) Detached Private Garages Situated on More than One Lot

Despite regulation 10.5.60.20(3) and (6), if an **ancillary building** or **structure** contains the required **parking spaces** for **dwelling units** on abutting **lots** in the Residential Zone category, it may be located on the common **side lot line**. [ By-law: 89-2022 ]

(3) Parking Space Location for Apartment Buildings

In the Residential Zone category, a minimum of 50 percent of the required **parking spaces** for an **apartment building**, other than required visitor **parking spaces**, must be in a **building** or underground **structure**. [ By-law: 89-2022 ]

(4) Parking Space for a Secondary Suite

Despite regulation 10.5.80.10(3), in the Residential Zone category a required **parking space** for a **secondary suite** may be in the **front yard** if it is on a **driveway**. [ By-law: 89-2022 ]

(5) Lot Coverage Requirement for Ancillary Buildings and Structures

Despite regulation 10.5.60.70(1), in the R zone, the area of the **lot** covered by **ancillary buildings** and **structures** may not exceed 5 percent of the **lot** area, except for the following:

- (A) the water surface area of an outdoor swimming pool or other **ancillary structure** used to hold water, if they comply with regulation 10.5.60.70(2); and
- (B) **ancillary buildings** or structures containing required **parking spaces**. [ By-law: 89-2022 ]

(6) Conversion of a Parking Space in a Building to Habitable Space

A **parking space** located inside a **building** on a **lot** in the R zone, other than an **ancillary building**, may be converted to habitable space and no further **parking space** is required if:

- (A) the **lot** has:
  - (i) a **lot frontage** of 7.6 metres or less; or
  - (ii) a **lot frontage** greater than 7.6 metres, and the elevation of the floor of the **vehicle** entrance is below **established grade**;
- (B) the required **parking space** is in a **detached house**, a **semi-detached** house or a **townhouse**;
- (C) **vehicle** entrance to the **parking space** is in the front **main wall**; and
- (D) the **driveway** leading to the **vehicle** entrance in the **building** is removed, and any **front yard** depression in the ground is filled to **established grade**. [ By-law: 89-2022 ]

## 970.10.15.40 Commercial Residential Zone Category Requirements

(1) Gross Floor Area Calculations for a Townhouse in the Commercial Residential Zone Category

In the Commercial Residential Zone category, the gross floor area of a townhouse may be reduced by:

- (A) the floor area of the **basement**, unless the **established grade** is higher than the average elevation of the ground along the rear **main wall** of the **residential building** by 2.5 metres or more, in which case the **gross floor area** of the **building** may be reduced by 50 percent of the floor area of the **basement**;
- (B) the area of a void in a floor if there is a vertical clearance of more than 4.5 metres between the top of the floor below the void and the ceiling directly above it, to a maximum of 10 percent of the permitted maximum **gross floor area** for the **building**; and

(C) the area of required **parking spaces** in the **building**. [ By-law: 89-2022 ]

(2) Policy Area 1 Parking Space Exemption

In a CR zone in Policy Area 1, no **parking spaces** are required for the following uses, if the **interior floor area** of all these uses, does not exceed 1.0 times the area of the **lot**:

- (A) **Artist Studio**;
- (B) **Custom Workshop**;
- (C) **Financial Institution**;
- (D) **Funeral Home**;
- (E) **Office** ;
- (F) **Performing Arts Studio**;
- (G) **Personal Service Shop**;
- (H) **Pet Services**;
- (I) **Retail Services**;
- (J) **Retail Store**; and
- (K) **Service Shop**. [ By-law: 89-2022 ]

#### 970.10.15.50 Commercial Residential Employment Zone Category Requirements

(1) Gross Floor Area Calculations for a Detached House, Semi-Detached House, Townhouse, Duplex, Triplex, or Fourplex in a Commercial Residential Employment Zone Category

In the Commercial Residential Employment Zone category, the **gross floor area** of a **detached house, semi-detached house, townhouse, duplex, triplex, or fourplex** may be reduced by:

- (A) the floor area of the **basement**, unless the **established grade** is higher than the average elevation of the ground along the rear **main wall** of the **residential building** by 2.5 metres or more, in which case the **gross floor area** of the **building** may be reduced by 50 percent of the floor area of the **basement**;
- (B) the area of a void in a floor if there is a vertical clearance of more than 4.5 metres between the top of the floor below the void and the ceiling directly above it, to a maximum of 10 percent of the permitted maximum **gross floor area** for the **building**; and
- (C) the area of required **parking spaces** in the **building**; and
- (D) in addition to (C) above, the area used for one additional **parking space** in a **detached house** on a **lot** with a **lot frontage** of more than 12.0 metres [ By-law: 89-2022 ]

(2) Parking Exception for Change to Non-Residential Use

In a CRE zone in Policy Area 1 (PA1), if a change of non-residential use is proposed for a **lawfully existing building** or to a **building** that was erected pursuant to a building permit issued on or before March 7, 1983, and a minimum of 75 percent of the **lot area** is occupied by the **building**:

- (A) additional **parking spaces** are not required for a non-residential use; and
- (B) the number of **lawful parking spaces** on the **lot** may not be reduced. [ By-law: 89-2022 ]

#### 970.10.15.60 Employment Industrial Zone Category Requirements

(1) Parking in Street Yard

In the Employment Industrial Zone category a required **parking space** in a **street yard** is subject to the following:

- (A) the **parking space** must be at least 3.0 metres from the **front lot line** and **side lot lines**; and
- (B) the **parking space** must be at a right angle to the **driveway** that provides **vehicle** access from the **street** to a parking area. [ By-law: 89-2022 ]

## 970.30 Transition: Bicycle Parking Space Regulations

### 970.30.1 Transition: Bicycle Parking Space Regulations

(1) Bicycle Parking Space Regulations

An application submitted before July 22, 2022 that is eligible to proceed under Clauses 230.90.15.1, 230.90.15.2, 230.90.15.3 and 230.90.15.4 must comply with the requirements of Clauses 970.30.15.5, 970.30.15.10, 970.30.15.15, 970.30.15.30, 970.30.15.40, 970.30.15.50, 970.30.15.60 and 970.30.15.80. [ By-law: 839-2022 ]

### 970.30.15 Transition: Bicycle Parking Space General Requirements

#### 970.30.15.5 Requirements Applying to all Zones

(1) Bicycle Parking Space Requirements for Dwelling Units

**Bicycle parking space** requirements for **dwelling units** in an **apartment building** or a **mixed use building** are:

- (A) in Bicycle Zone 1, a minimum of 1.0 **bicycle parking spaces** for each **dwelling unit**, allocated as 0.9 "long-term" **bicycle parking space** per **dwelling unit** and 0.1 "short-term" **bicycle parking space** per **dwelling unit**; and
- (B) in Bicycle Zone 2, a minimum of 0.75 **bicycle parking spaces** for each **dwelling unit**, allocated as 0.68 "long-term" **bicycle parking space** per **dwelling unit** and 0.07 "short-term" **bicycle parking space** per **dwelling unit**. [ By-law: 839-2022 ]

(2) Interior Floor Area Exclusions for Bicycle Parking Space Calculations

To calculate **bicycle parking space** requirements for uses other than **dwelling units**, the **interior floor area** of a **building** is reduced by the area in the **building** used for:

- (A) parking, loading and bicycle parking below-ground;
- (B) required **loading spaces** at the ground level and required **bicycle parking spaces** at or above-ground;
- (C) storage rooms, washrooms, electrical, utility, mechanical and ventilation rooms in the **basement**;
- (D) shower and change facilities required by this By-law for required **bicycle parking spaces**;
- (E) elevator shafts;
- (F) mechanical penthouse; or
- (G) exit stairwells in the **building**; [ By-law: 839-2022 ]

#### 970.30.15.10 Residential Zone Category Requirements

(1) Gross Floor Area Calculations for an Apartment Building

In the Residential Zone category, the **gross floor area** of an **apartment building** is reduced by the area in the **building** used for:

- (A) parking, loading and bicycle parking below **established grade**;
- (B) required **loading spaces** and required **bicycle parking spaces** at or above **established grade**;
- (C) storage rooms, washrooms, electrical, utility, mechanical and ventilation rooms in the **basement**;
- (D) shower and change facilities required by this By-law for required **bicycle parking spaces**;
- (E) indoor **amenity space** required by this By-law;
- (F) elevator shafts;
- (G) garbage shafts;
- (H) mechanical penthouse; and
- (I) exit stairwells in the **building**; [ By-law: 839-2022 ]

### 970.30.15.15 Residential Apartment Zone Category Requirements

(1) Gross Floor Area Calculations for an Apartment Building

In the Residential Apartment Zone category, the **gross floor area** of an **apartment building** is reduced by the area in the **building** used for:

- (A) parking, loading and bicycle parking below **established grade**;
- (B) required **loading spaces** and required **bicycle parking spaces** at or above **established grade**;
- (C) storage rooms, washrooms, electrical, utility, mechanical and ventilation rooms in the **basement**;
- (D) shower and change facilities required by this By-law for required **bicycle parking spaces**;
- (E) indoor **amenity space** required by this By-law;
- (F) elevator shafts;
- (G) garbage shafts;
- (H) mechanical penthouse; and
- (I) exit stairwells in the **building**; [ By-law: 839-2022 ]

### 970.30.15.30 Commercial Zone Category Requirements

(1) Gross floor Area Calculations for a Non-Residential Building in a Commercial Zone Category

In the Commercial Zone category, the **gross floor area** of a **non-residential building** is reduced by the area in the **building** used for:

- (A) required parking, loading and bicycle parking below-ground;
- (B) required **loading spaces** at the ground level and required **bicycle parking spaces** at or above-ground;
- (C) storage rooms, washrooms, electrical, utility, mechanical and ventilation rooms in the **basement**;
- (D) shower and change facilities required by this By-law for required **bicycle parking spaces**;
- (E) elevator shafts;
- (F) mechanical penthouse; and
- (G) exit stairwells in the **building**; [ By-law: 839-2022 ]

### 970.30.15.40 Commercial Residential Zone Category Requirements

(1) Gross Floor Area Calculations for a Non-residential Building in the Commercial Residential Zone Category

In the Commercial Residential Zone category the **gross floor area** of a **non-residential building** is reduced by the area in the **building** used for:

- (A) parking, loading and bicycle parking below-ground;
- (B) required **loading spaces** at the ground level and required **bicycle parking spaces** at or above-ground;
- (C) storage rooms, washrooms, electrical, utility, mechanical and ventilation rooms in the **basement**;
- (D) shower and change facilities required by this By-law for required **bicycle parking spaces**;
- (E) elevator shafts;
- (F) mechanical penthouse; and
- (G) exit stairwells in the **building**; [ By-law: 839-2022 ]

(2) Gross Floor Area Calculations for a Mixed Use Building in the Commercial Residential Zone Category

In the Commercial Residential Zone category the **gross floor area** of a **mixed use building** is reduced by the area in the **building** used for:

- (A) parking, loading and bicycle parking below-ground;

- (B) required **loading spaces** at the ground level and required **bicycle parking spaces** at or above-ground;
- (C) storage rooms, washrooms, electrical, utility, mechanical and ventilation rooms in the **basement**;
- (D) shower and change facilities required by this By-law for required **bicycle parking spaces**;
- (E) **amenity space** required by this By-law;
- (F) elevator shafts;
- (G) garbage shafts;
- (H) mechanical penthouse; and
- (I) exit stairwells in the **building**; [ By-law: 839-2022 ]

(3) Gross Floor Area Calculations for an Apartment Building in the Commercial Residential Zone Category

In the Commercial Residential Zone category the **gross floor area** of an **apartment building** is reduced by the area in the **building** used for:

- (A) parking, loading and bicycle parking below-ground;
- (B) required **loading spaces** at the ground level and required **bicycle parking spaces** at or above-ground;
- (C) storage rooms, washrooms, electrical, utility, mechanical and ventilation rooms in the **basement**;
- (D) shower and change facilities required by this By-law for required **bicycle parking spaces**;
- (E) **amenity space** required by this By-law;
- (F) elevator shafts;
- (G) garbage shafts;
- (H) mechanical penthouse; and
- (I) exit stairwells in the **building**; [ By-law: 839-2022 ]

### 970.30.15.50 Commercial Residential Employment Zone Category Requirements

(1) Gross Floor Area Calculations for a Non-residential Building in the Commercial Residential Employment Zone Category

In the Commercial Residential Employment Zone category the **gross floor area** of a **non-residential building** is reduced by the area in the **building** used for:

- (A) parking, loading and bicycle parking below-ground;
- (B) required **loading spaces** at the ground level and required **bicycle parking spaces** at or above-ground;
- (C) storage rooms, washrooms, electrical, utility, mechanical and ventilation rooms in the **basement**;
- (D) shower and change facilities required by this By-law for required **bicycle parking spaces**;
- (E) elevator shafts;
- (F) mechanical penthouse; and
- (G) exit stairwells in the **building**; [ By-law: 839-2022 ]

(2) Gross Floor Area Calculations for a Mixed Use Building in the Commercial Residential Employment Zone Category

In the Commercial Residential Employment Zone category the **gross floor area** of a **mixed use building** is reduced by the area in the **building** used for:

- (A) parking, loading and bicycle parking below-ground;
- (B) required **loading spaces** at the ground level and required **bicycle parking spaces** at or above-ground;
- (C) storage rooms, washrooms, electrical, utility, mechanical and ventilation rooms in the **basement**;
- (D) shower and change facilities required by this By-law for required **bicycle parking spaces**;
- (E) **amenity space** required by this By-law;
- (F) elevator shafts;

- (G) garbage shafts;
- (H) mechanical penthouse; and
- (I) exit stairwells in the **building**; [ By-law: 839-2022 ]

(3) Gross Floor Area Calculations for an Apartment Building in the Commercial Residential Zone Category

In the Commercial Residential Employment Zone category the **gross floor area** of an **apartment building** is reduced by the area in the **building** used for:

- (A) parking, loading and bicycle parking below-ground;
- (B) required **loading spaces** at the ground level and required **bicycle parking spaces** at or above-ground;
- (C) storage rooms, washrooms, electrical, utility, mechanical and ventilation rooms in the **basement**;
- (D) shower and change facilities required by this By-law for required **bicycle parking spaces**;
- (E) **amenity space** required by this By-law;
- (F) elevator shafts;
- (G) garbage shafts;
- (H) mechanical penthouse; and
- (I) exit stairwells in the **building**. [ By-law: 839-2022 ]

### 970.30.15.60 Employment Industrial Zone Category Requirements

(1) Gross Floor Area Calculations for a Non-residential Building in the Employment Industrial Zone Category

In the Employment Industrial Zone category the **gross floor area** of a **non-residential building** is reduced by the area in the **building** used for:

- (A) parking, loading and bicycle parking below-ground;
- (B) required **loading spaces** at the ground level and required **bicycle parking spaces** at or above-ground;
- (C) storage rooms, washrooms, electrical, utility, mechanical and ventilation rooms in the **basement**;
- (D) voids at the level of each floor with a **manufacturing use**;
- (E) shower and change facilities required by this By-law for required **bicycle parking spaces**;
- (F) elevator shafts, ventilation duct, utility shafts;
- (G) utility areas, catwalks, service platforms and a mechanical penthouse; and
- (H) exit stairwells and escalators in the **building**. [ By-law: 839-2022 ]

(2) Calculation of Parking Space Rates for Manufacturing Uses

For the purpose of calculating the number of required **parking spaces** for a **manufacturing use** on a lot in the Employment Industrial Zone category, the **gross floor area** of a **building** used for a **manufacturing use**, is reduced by the floor area in the **building** used for the following:

- (A) parking, loading and bicycle parking;
- (B) **vehicle** access to a **parking space** or a **loading space**;
- (C) storage rooms or washrooms located in the **basement**;
- (D) voids at the level of each floor with a **manufacturing use**;
- (E) shower and change facilities required by this By-law for required **bicycle parking spaces**;
- (F) elevator shafts, ventilation duct, utility shafts;
- (G) utility areas, catwalks, service platforms and a mechanical penthouse; and
- (H) exit stairwells and escalators in the **building**. [ By-law: 839-2022 ]

(3) Calculation of Loading Space Rates for Manufacturing Uses

For the purpose of calculating the number of required **loading spaces** for a **manufacturing use** on a lot in the Employment Industrial Zone category, the **gross floor area** of a **building** used for a **manufacturing use**, is reduced by the floor area in the **building** used for the following:

- (A) parking, loading and bicycle parking;
- (B) **vehicle** access to a **parking space** or a **loading space**;
- (C) storage rooms or washrooms located in the **basement**;
- (D) voids at the level of each floor with a **manufacturing use**;
- (E) shower and change facilities required by this By-law for required **bicycle parking spaces**;
- (F) elevator shafts, ventilation duct, utility shafts;
- (G) utility areas, catwalks, service platforms and a mechanical penthouse; and
- (H) exit stairwells and escalators in the **building**. [ By-law: 839-2022 ]
